Appendix

The Basic Education Learning Continuity Plan in the Time of CoViD-19	53
Policy Guidelines for the Provision of Learning Resources in the Implementation of the Basic Education Learning Continuity Plan	92

- The **curriculum** refers to all learning experiences within the context of education.
- **Curriculum development** is defined as planned, a purposeful, progressive, and systematic process to create positive improvements in the educational system.
- A curriculum is evolving because **it flows with social fluctuations**.
- **Schedule** is the least important in examining the curriculum.
- The **purpose of the school** embodies the vision and mission statements of a school.
- Tyler's curriculum model is **top-down**.
- Understanding by Design (UBD) was adapted by the Philippines in 2010. UBD is an example of **recommended curriculum**.
- Collections of lesson plans, curriculum guides and DepEd and CHED orders are **written curriculum**.
- Textbooks and magazines belong to **supported curriculum**.
- When the curriculum aims to develop the whole child, this approach is **humanistic**.
- **Correlated curriculum** is a curriculum design that blends various content courses.
- Educational institutions are primarily focused on academic training. This is in line with **intellectual development**.
- **Institutional curriculum** refers to the curriculum derived from the societal level, with modification by local educators or lay people.
- The curriculum perceived and experienced by each student, and may, therefore, vary among learners because of individual differences is called **experiential curriculum**.
- Written curriculum includes documents, **course of study, or syllabi** handed down to the schools, districts, division, departments, or colleges for implementation.
- Curriculum may be defined in many ways. This proves that **the concept of curriculum may be defined from different perspectives**.
- A **curricularist** is a person who is involved in curriculum knowing, writing, planning, implementing, evaluating, innovating, and initiating.
- The teacher writes books, modules, laboratory manuals, instructional guides, and reference materials in paper or electronic media. He/she is a curriculum **writer**.
- It is the role of the teacher to make a yearly, monthly or daily plan of the curriculum. He/she is a curriculum **planner**.
- The curricularist attends to seminars, workshops and pursues graduate work. He/She is a curriculum **knower**.

Curriculum Development

- A teacher shows the hallmark of being an excellent teacher by being able to make out of the box positive changes in the curriculum how. As a curricularist, he/she is a **curriculum innovator**.
- Experience-centered curricula should not be geared towards **common belief systems**.
- **Curriculum laboratory** is a place or workshop where curriculum plans or learning opportunities are created.
- A **course of study** is an official guide prepared for administrators, supervisors, and teachers of a particular school or school system, as an aid to teaching a given subject or areas of study for given level or grade.
- **Learning experiences** refer to certain activities that the learner undergoes in reaction to the environment where he has an opportunity to interact.
- **Grade placement** refers to the allocation of content to definite grade capable of learning.
- The professor suggests that the curriculum should primarily be a cognitive process. This means that **the curriculum should develop critical thinking skills**.
- The history of curriculum development includes the hidden curriculum approach. The content emphasis of the hidden curriculum are **implicit processes and social norms**.
- One of the factors in curriculum planning which is concerned in identifying the required resources and listing of the estimation of expenditure and revenue is **situational analysis**.
- **Curriculum improvement** is referred to as the alteration of certain aspects of the curriculum without changing its fundamental elements/structure and conception.
- Curriculum change refers to the alteration in the structure and design of learning experiences based on new conceptions.
- **Implementation** is the process wherein the curriculum is used in school and is considered as the instructional phase of the curriculum development process.
- **Integration** is the dimension of curriculum design when you connect the lesson learned in one subject area to a related content in another subject area.
- **Substitution** is a category of curriculum change which involves replacing or substituting the current curriculum with a new one.
- **Alteration** is a category of curriculum change which involves minor changes in the existing curriculum.
- **Perturbation** is considered as a disruptive change in curriculum wherein teachers are expected to adapt within a fairly short period of time.
- **Curriculum development** includes the sub-processes of curriculum planning, organization, implementation, and evaluation.
- **Correlated** pattern of organizing content/subject matter is used if Science subject is enriched by identifying related concepts in Mathematics.

Curriculum Development

- If the curriculum is the “means,” **instruction** is the “ends.”
- **Separate subject** curriculum design divides the school day into different periods such as English, Filipino, Mathematics, Science and Social Studies.
- **Continuity** is the vertical repetition and recurring appearances of the content in the curriculum.
- **Curriculum design** refers to the arrangement of the components and elements of the curriculum.
- **Curriculum monitoring** is the periodic assessment and adjustment of a curriculum during its try-out period. It determines how the curriculum is working, such that the monitoring reports become the basis of decisions on what aspects have to be retained, improved, or modified.
- **Intended curriculum** refers to the objectives set at the beginning of any particular lesson.
- **Implemented curriculum** refers to the various learning activities or experiences of the students in order to achieve the intended curricular outcomes.
- To provide continuous and cumulative learning, a vertical relationship among the elements of the curriculum provides **sequence**.
- One type of curriculum design under subject-centered model is **broadfield curriculum** in which the subjects geography, economics, political science, anthropology, and history are combined into one subject called Social Studies.
- In **simple-complex sequence**, content and experiences are organized from simple to complex, from concrete to abstract, from easy to difficult.
- In **chronological learning**, the order of events is made as a basis of sequencing the content and experiences.
- In **vertical articulation**, contents are arranged from level to level or grade to grade so that the content in a lower level is connected to the next level.
- **Balance** refers to the equitable assignment of content, time, experiences and other elements needed in curriculum design.
- In selecting the curriculum content, it is better that throughout the high school years, economic concepts be used to recur and be repeated with depth for effective learning. This shows **continuity** in curriculum.
- The Filipino learners envisioned by the Department of Education in the light of K-12 Curriculum are **functionally literate or holistically developed Filipino**.
- In the elementary level, English Literature and Social Studies relate well. While history is being studied, different literary pieces during the historical period is being studied as well. This is an example of **correlated curriculum design**.
- **Curriculum organization** involves decisions, among other things, on grade placement on sequencing of content.

Curriculum Development

- **The need to conform to international standards** has greatly influenced the introduction of K-12 reform in basic education.
- When teachers lead other teachers to agree on standards, follow the adopted curriculum, use common pacing charts, and develop shared assessments, they play the role of **curriculum specialists**.
- The K to 12 Program covers **Kindergarten and 12 years of basic education** (six years of primary education, four years of Junior High School, and two years of Senior High School [SHS]) to provide sufficient time for mastery of concepts and skills, develop lifelong learners, and prepare graduates for tertiary education, middle-level skills development, employment, and entrepreneurship.
- Students in **Grades 7 and 8** take **exploratory subjects in TLE** at 40 hours per quarter.
- **Specializations** in Junior High School and TLE are taken by students in **Grades 9 and 10**.
- Republic Act No. 10533 is also known as “**Enhanced Basic Education Act of 2013**.”
- **Mother Language or First Language** refers to the language or languages first learned by a child, which he/she identifies with, is identified as a native language user of by others, which he/she knows best, or uses most.
- Under the K-12 Curriculum, **Kindergarten Education** is the first stage of compulsory and mandatory formal education which consists of one (1) year of preparatory education for children at least five (5) years old as a prerequisite for Grade 1.
- **Kindergarten Education Act** mandated the adoption of the mother tongue-based multilingual education (MTB-MLE) method prior to the K-12 curriculum reform.
- The **mother tongue** of the learner shall be the primary medium of instruction for teaching and learning in the kindergarten level.
- Under the Republic Act No. 10157 or Kindergarten Education Act, exceptions on the use of mother tongue shall be made to the following cases:
 1. When the pupils in the kindergarten classroom have different mother tongues or when some of them speak another mother tongue;
 2. When the teacher does not speak the mother tongue of the learners;
 3. When resources, in line with the use of the mother tongue, are not yet available; and
 4. When teachers are not yet trained how to use the MTB-MLE program.
- **Programs for the Gifted and Talented** refer to comprehensive programs for the gifted and talented learners in all levels of basic education.
- **Programs for Learners with Disabilities** refer to the comprehensive programs designed for learners with disabilities which may be home-, school-, center- or community-based.
- **Madrasah Program** refers to the comprehensive program using the Madrasah curriculum prescribed by the DepEd, in coordination with the Commission on Muslim Filipinos, for Muslim learners in public and private schools.

Curriculum Development

- In **Education Service Contracting (ESC)**, the government enters into contracts with private educational institutions or non-DepEd public schools to shoulder the tuition and other fees of junior high school students who would like to enroll in private high schools.
- In the **voucher system**, the government issues a coupon directly to senior high students to enable them to enroll in eligible private educational institutions or non-DepEd public schools of their choice under a full or partial tuition or schooling subsidy.
- Based on the curriculum requirement provided by all countries sampled, the language which is seemingly universal is **English**.
- When a school applies the systems approach to curriculum planning, it is expected that **the parts of the school system are considered in terms of how they relate to each other**.
- **Curriculum evaluation** is being undertaken by the developers when they try to obtain relevant and significant information to be able to judge the worth of an educational program, its product, procedures, and objectives.
- **Curriculum organization** involves decisions, among other things, on grade placement and sequencing of content.
- **Robert M. Hutchins** viewed curriculum as "permanent studies" where then rules of grammar, reading, rhetoric and logic, and mathematics for basic education are emphasized.
- **Hollis Caswell** sees curriculum as organized around social functions of themes, organized knowledge and learner's interest.
- **Ralph Tyler** believes that curriculum is a science and an extension of school's philosophy.
- According to **William Kilpatrick**, curricula are purposeful activities which are child-centered.
- **Harold Hugg** introduced the concept of the development of the whole child, the inclusion of social studies, and the importance of curriculum planning in advance.
- **Werret Charters** believes that the objectives, along with the corresponding activities, should be aligned with the subject matter or content.
- **Ralph Tyler** believed that curriculum is a science and an extension of the school's philosophy.
- The key to the success or failure in teaching and learning, being the link between the child and the curriculum is the **teacher**.
- What is taught, or emphasized at home, or those experiences that are part of a family's experiences, or related experiences sanctioned by the family is called **concomitant curriculum**.
happening the time
- **Received curriculum** refers to what students actually take out of classrooms; those concepts and content that are truly learned and remembered.

Curriculum Development

- Processes, content, and knowledge combined with the experiences and realities of the learner create new knowledge and this form part of the **internal curriculum**.
- **Null curriculum** are those we do not teach, thus giving students the message that these elements are not important in their educational experiences.
- **Societal curriculum** is the farthest from the learners since this is where the public stakeholders (politicians, special interest groups, administrators, professional specialists) participate in identifying the goals, the topics to be studied, time to be spent in teaching/learning, and materials to aid instruction.
- **Hilda Taba** improved Tyler's Rationale by making a linear curriculum model.
- When content or subject matter will contribute to basic ideas, concepts, principles and generalization to achieve the overall aim of the curriculum, then there is significance.
- The authenticity of the subject matter selected is its **validity**.
- **Learnability** means that the subject matter in the curriculum should be within the range of experiences of the learners.
- The constant repetition, review and reinforcement of learning is called **continuity**.
- **Sequence** is the logical arrangement of the subject matter.
- In the **managerial approach**, the principal is the curriculum leader and at the same time instructional leader who is supposed to be the general manager.
- While the subject curriculum design centers on the cluster of content, **discipline design** focuses on academic disciplines.
- CIPP Model stands for **Content, Input, Product, and Process**.
- The best feature of Tyler's Rationale is the **planning phase**.
- The function of the curriculum models is **to provide framework for curriculum guides**.
- The subject matter or content to be learned must be within the time allowed, resource available, expertise of the teacher, and nature of learners. This addresses the **feasibility** criterion in selection of content.

- **Foundations of Education** refers to a broadly-conceived field of educational study that derives its character and methods from a number of academic disciplines, combinations of disciplines, and area studies, including: history, philosophy, sociology, anthropology, religion, political science, economics, psychology, cultural studies, gender studies, comparative and international education, educational studies, and educational policy studies.
- **Sociology** is the study of society and social interactions taking place within it.
- **Socialization** is the process of internalizing the norms and ideologies of society.
- **Open admission** policy may support equitable access but may sacrifice quality.
- During the Spanish period, the media of instruction in schools were Spanish **and the Vernacular**.
- Teaching students self-responsibility is the desire of the **existentialist** teacher.
- The main objective of the Educational Service Contracting Scheme or ESC is to **decongest public secondary schools by "contracting" the excess capacities of private high schools through the provision of subsidies for students who, otherwise, would have gone to the public high schools.**
- Education Service Contracting Scheme point to **the complementary roles of public and private institutions in the educational system.**
- **Education Service Contracting Scheme** is a proof of the public-private partnership for government to give access to quality secondary education.
- MISOSA stands for **Modified In-school Off-school Approach.**
- **Modified In-School Off-School Approach (MISOSA)** frees the children from the confines of the four corners of the classroom as it allows pupils to learn even while at home or in the community.
- Under **MISOSA**, a class of pupils is divided into two groups. Group 1 goes to class for a period of time while the Group 2 learns at home or in other learning venues such as a Barangay Hall learning through modules or performing assigned tasks. At the end of one week, Group 1 spends time learning outside the school while Group 2 attends formal classes. At certain times, the two groups are gathered in one class to learn together as one group.
- e-IMPACT stands for **Enhanced Instructional Management for Parents, Community and Teachers.**
- EASE stands for **Effective and Affordable Secondary Education.**
- Project **Effective and Affordable Secondary Education (EASE)** was a project that targeted students in disadvantaged situations who were unable to attend regular sessions. EASE provided a temporary study-at-home solution until the student was able to return to the formal classroom setting.

Foundations of Education

- **e-IMPACT** is a technology based alternative method of learning that is fueled by student interactions. Every student is given access to online modules and online guides to learning materials.
- OHSP stands for **Open High School System**.
- **Open High School System** is an alternative mode of secondary education that uses distance learning. It caters to learners who are unable to attend the regular class program due to physical impairment, work, financial difficulties, distance of home to school, and other justifiable and legitimate reasons.
- ADM stands for **Alternative Delivery Mode**.
- **Alternative Delivery Modes (ADM)** are tried and tested alternative modalities of education delivery within the confines of the formal system that allow schools to deliver quality education to marginalized students and those at risk of dropping out in order to help them overcome personal, social and economic constraints in their schooling.
- At the elementary level, **multigrade instruction** is an alternative delivery of formal education whereby there is one teacher for two, three or four different grade levels of students in a single class.
- Under OHSP and EASE, students at risk of dropping out (SARDOs) are provided three modes of learning to be able to continue their schooling even without attending formal classes. They are **modular system, internet-based learning, and blended technology which is a merger of the modular and internet-based learning**.
- **Alternative Learning System (ALS)** is a parallel learning system that provides a viable alternative to the existing formal education instruction.
- **Accreditation and Equivalency (A&E) Program** is offered for literates who have not completed ten years of basic education.
- **Basic Literacy Program** is an ALS program which caters to the illiterates.
- **Indigenous Peoples (IP) Education** is a program that aims to develop an IP culture-sensitive core curriculum, learning materials and assessment tools/instruments.
- **Informal Education Program** provides opportunities for adolescents, parents, and street children to acquire and accumulate knowledge, skills, attitudes, and values from daily experiences at home, at work, at play, and from life itself.
- The provisions of RA 10533 make clear that schools should be **community-centered**.
- During the pre-Hispanic period, **there was no established formal schooling in the country**.
- During the Spanish period, free public school system was established by virtue of **Educational Decree of 1863**.
- **Bilingual education** is a form of education in which information is presented to the students in two languages.

Foundations of Education

- The Americans gave bright young Filipino students opportunity to take up higher education in American colleges and universities. These Filipinos came to be known as "**pensionados**" for their education in the United States was financed by the government in the Philippines.
- According to the 1990 EDCOM congressional review and assessment, **low investment and poor management** primarily caused the declining quality of Philippine education.
- During the American period, **American soldiers** served as the first teachers.
- In 1901, the Philippine Commission enacted into law Act 74 which created the **Department of Public Instruction**.
- Act No. 74 provided for the establishment of the **Philippine Normal School** in Manila. *PNU*
- During the Spanish period, the **Education Decree of 1863** mandated the establishment of at least one primary school for boys and one for girls in each town under the responsibility of the municipal government, and the establishment of a normal school for male teachers under the supervision of the Jesuits.
- **Universal basic education** is the major change that makes American education system superior to the Hispanic education system in the Philippines.
- The factor which contributed to the great demand for teachers during the American regime was the **opening of the free public education**.
- The program of the Department of Education which is an offshoot of the Filipino Bayanihan spirit is **Brigada Eskwela**. *int growth - develops*
- **Primitive education** revolved around security and survival from dangers that could be inflicted by natural phenomena and hostility of other tribes.
- Roman education was **utilitarian**. Education was for practical purpose, to produce men who would be active and efficient in daily life. *to cause someone to experience affected unpleasant or favor*
- The outstanding contribution of the Sumerians to education was the cuneiform writing.
- The **Chinese** were the first to implement the civil service examination system for selecting candidates for state bureaucracy. *CSE* *large ag group of people involved within government*
- **Learning and Innovation Skills Frameworks** include critical thinking and problem solving, creativity, and innovation and communication, and collaboration and technology skills.
- **Metaphysics** is the branch of philosophy that considers the physical universe and the nature of ultimate reality.
- **Axiology** is the branch of philosophy that considers the study of principles and values.
- **Epistemology** is the branch of philosophy concerned with knowledge.
- **Logic** is the branch of philosophy that seeks to organize reasoning.

Theatrical conventions are the agreements between audience and actor wherein the audience willingly suspends belief and accepts the play as new or temporary "reality."

Theomachy is the battle among the gods of supremacy between good and evil in mythologies.

Tone refers to the overall mood and message of your book. It is established through a variety of means, including voice, characterization, symbolism, and themes.

Viewing refers to the ability to perceive meaning from visual images and presentations.

Visual Literacy is the ability to interpret meaning from visual images.

Voice pertains to who or what serves as the subject in a clause.

War and Peace is a historical novel about Napoleonic invasion of Russia in 1812.

Washington Irving is a novelist and essayist noted for his "Midnight's Children" and "The Satanic Verses" which prompted Iran's Ayatollah Khomeini to issue a fatwa against him, because Muslims considered the book blasphemous.

Waste not, want not, means do not waste things and you will always have enough.

Wilfredo Ma. Guerrero is considered the most outstanding among Filipino playwrights.

William Faulkner wrote the short story "A Rose for Emily."

William Shakespeare wrote **38 plays, 154 sonnets, and 2 epic narrative poems.**

William Shakespeare wrote the line "Where ignorance is bliss, it is folly to be wise."

William Tyndale is the Father of English prose while **Geoffrey Chaucer** is the father of English poetry.

Writers use **satire** to make fun of some aspect of human nature or society – usually through exaggeration, ridicule, or irony.

Writing is the process of using symbols to communicate thoughts and ideas in a readable form.

Foundations of Education

- I am a progressivist. For teaching in the affective domain, **I will engage my class in values clarification.**
- The teacher's teaching philosophy is reflected by the **choice of teaching methods.**
- **Idealism** has the educational objective to indoctrinate Filipinos to accept the teachings of the Catholic Church which is to foster faith in God.
- **Existentialism** is taught by Sartre when he said, "Man is nothing else but what he makes of himself."
- **Constructivists** assert that teaching is not just depositing knowledge into the empty minds of the learners. It is helping students create knowledge and meaning of their experiences.
- Religious rituals in the classroom and in the school programs prove the deep natural religiosity of the Filipinos. The philosophy that has greatly contributed to this tradition is **Confucianism.**
- **Inclusive education** means that all students attend and are welcomed by their neighborhood schools in age-appropriate, regular classes and are supported to learn, contribute and participate in all aspects of the life of the school.
- In **structural perspective**, socialization is viewed from the very structure or positions with corresponding roles that are made available by the members of a particular social unit.
- **Mutual steering** is the process of giving and soliciting feedback between two or more individuals, for the purpose of stimulating each or one another.
- **Primary roles** are roles that we play all the time such as sex role.
- **Sanctions** are measures applied to guarantee that an individual behaves according to society's expectations.
- **Deviance** refers to behaviors that violate social norms.
- **Conflict** refers to the situation in which there is a disagreement between or among people.
- Individuals who do not behave according to the social norms are referred to as **deviants.**
- **Physical anthropology** is the branch of anthropology which studies people as biological organisms.
- **Linguistic anthropology** is a concentration of cultural anthropology that focuses on language in society.
- **Cultural anthropology** studies human societies and elements of cultural life.
- Culture is **learned** rather than transmitted by genes.
- Culture is dynamic. This means that **cultures interact and change.**
- The **culture of research** can be introduced so that a school can advance competencies through knowledge-based teaching.
- A teacher's role as a community change agent is to help develop a **better educated community.**
- When household tasks are typecast as the female's responsibility, **gender stereotype** is reinforced in classroom management.
- **Sex jokes** are the kind of humor inappropriate for defusing tension in the classroom.

Foundations of Education

- In selecting a code of conduct, a behaviorist teacher would prefer to impart on the learners the **one exemplified by great men/women**.
- Research findings show that socio-economic factors affect the child's motivation and opportunities for education. This research is proven by the social reality that **more dropouts come from disadvantaged families**.
- Among personal attitudes, **honesty** is NOT among those that demonstrate patience among teachers.
- **Climate change** is a global condition which urges schools to provide education about the environment.
- By following Christian teaching on marriage, **deontological approach** is used by lawmakers in disallowing divorce in the Philippines.
- For Dewey, education starts as a social process **at birth**.
- In reading newspapers, the **opinion page** provides critical views about current socio-economic and political events or issues.
- Research studies showed that children in slums generally have lower reading achievement, than children in urban schools. The factor which has shown to affect reading achievement is **socio-economic status**.
- **Structural violence** refers to a form of violence wherein a social structure or social institution may harm people by preventing them from meeting their basic needs.
- **Domestic violence** is any behavior the purpose of which is to gain power and control over a spouse, partner, girl/boyfriend or intimate family member.
- **Social discrimination** is defined as sustained inequality between individuals on the basis of illness, disability, religion, sexual orientation, or any other measures of diversity.

The Teaching Profession

- The **State** shall protect and promote the right of all citizens to quality education at all levels, and shall take appropriate steps to make such education accessible to all.
- To be nationally and internationally competitive, teachers should participate in **Continuing Professional Development** according to Article IV of the Code of Ethics.
- A teacher has a **sense of humor** if he/she makes learning fun and do not take everything seriously.
- A teacher demonstrates **fairness** if he/she is gender-sensitive and inclusive in his/her ways.
- The 1987 Philippine Constitution states that all schools in the country, other than those established by religious groups and mission boards, shall be owned solely by citizens of the Philippines or corporations or associations at least **60%** of the capital of which is owned by such citizens.
- A teacher is prohibited from direct business transactions involving textbooks and school supplies because of the **possibility of exerting influence for his/her own business interest**.
- Academic freedom shall be enjoyed in all institutions of **higher learning**.
- **Protection of Intellectual Property Rights** is provided for in Article XIV of the 1987 Philippine Constitution.
- Under the 1987 Philippine Constitution, the official languages for communication and instruction are **Filipino and English**.
- **At the option expressed in writing by the parents or guardians**, religion shall be allowed to be taught to their children or wards in **public elementary and high schools within the regular class hours by instructors designated or approved by the religious authorities of the religion** to which the children or wards belong, **without additional cost to the Government**.
- Under RA 8980, early childhood covers children from **conception to age six (6)**.
- A statement NOT TRUE about a professional teacher of the 21st century is the **disregard of cultural diversity and a focus on the 21st century skills is the ultimate goal of globalized education**.
- Professional teachers who have not practiced their profession for the past **five (5) years** shall take at least **twelve (12) units of education courses**, consisting of at least **six (6) units of pedagogy and six (6) units of content courses**, or the equivalent training and number of hours, to be chosen from a list of courses to be provided by the Board and the Department of Education, before they can be allowed to practice their profession in the country.
- **ASEAN Qualifications Reference Framework or AQR** refers to the device that enables comparisons of qualifications across ASEAN Member States.

The Teaching Profession

- **ASEAN Mutual Recognition Arrangement or ASEAN MRA** refers to a regional arrangement entered into by the ASEAN Member States, predicated on the mutual recognition of qualifications, requirements met, licenses and certificates granted, experience gained by professionals, in order to enhance mobility of professional services within the region.
- The school was preparing for a national choral competition. **All teachers should cooperate with and support the Music teachers in whatever way.**
- Based on the Preamble, teachers are duly licensed who possess dignity and reputation with high moral values as well as **technical and professional competence.**
- Students reported to you about a teacher who has made it a habit to collect many for quizzes that never were mimeographed or photocopied, the very reason for money collection. The most ethical for you to do is to **file a written complaint against the teacher with the students' oral report as evidence.**
- **CPD Council** refers to a body created to promote and ensure the continuous improvement of professionals, in accordance with national, regional, and international standards of practice.
- **CPD credit unit** refers to the value of an amount of learning that can be transferred to a qualification achieved from formal, informal or non-formal learning setting, wherein credits can be accumulated to predetermined levels for the award of a qualification.
- **CPD Program** refers to a set of learning activities accredited by the CPD Council such as seminars, workshops, technical lectures or subject matter meetings, non-degree training lectures and scientific meetings, modules, tours and visits, which equip the professionals with advanced knowledge, skills and values in specialized or in an inter- or multidisciplinary field of study, self-directed research and/or lifelong learning.
- **CPD Provider** refers to a natural or juridical person accredited by the CPD Council to conduct CPD Programs.
- A teacher shall not inflict **corporal punishment** on offending learners nor **make deductions from their scholastic ratings as a punishment** for acts which are clearly not manifestation of poor scholarship.
- It is unprofessional to file charges against superiors under cover of **anonymity**. *anonym: unknown*
- UNESCO defines global education as **a goal to develop countries worldwide and is aimed at educating all people in accordance with world standards.**
- **Education for sustainable development and global citizenship** ensures all learners acquire knowledge and skills needed to promote sustainable development.
- A **glocal teacher** is a global teacher who is competent and armed with enough skills, appropriate attitude and universal values to teach learners at home or abroad but is equipped with both time tested as well as modern technologies in education.
- The concept of globalization came about in recent years because the world has become borderless primarily due to **advances in technology.**
- Republic Act No. 10912 is also known as the **"Continuing Professional Development Act of 2016."**

The Teaching Profession

- In RA 10912, **self-directed learning** refers to learning activities such as online training, local/international seminars/non-degree courses, institution/company-sponsored training programs, and the like, which did not undergo CPD accreditation but may be applied for and awarded CPD units by the respective CPD Council.
- Under the Philippine laws, a **professional** refers to a person who is registered and licensed to practice a regulated profession in the Philippines and who holds a valid Certificate of Registration and Professional Identification Card (PIC) from the Professional Regulation Commission (PRC).
- **Universal youth literacy** ensures that all youth and substantial proportion of adults, both men and women achieve literacy.
- A professional teacher can engage in business if **income generation is legitimate**.
- The professional obligation of one leaving a teaching position is **pass on organized records to the successor to carry on the work**.
- The first legal document that professionalized teaching was **PD 1006** issued by then President Ferdinand E. Marcos. FM
- Under the K-12 curriculum, **graduates of technical-vocational courses** may be allowed to teach in their specialized subjects in the secondary level, provided that these graduates possess the necessary certification issued by TESDA and undergo in-service training from DepEd.
- **Special hardship allowances equivalent to 25% of their monthly salary** is given to those teachers who are exposed to hardship such as difficulty in commuting to the place of work or other hazards peculiar to the place of employment.
- Teaching is a profession. It requires **long years of professional education, the attainment of college or university degree recognized by a regulatory body (CHED), a licensure examination, continuing professional development, and adherence to code of ethics**.
- The Code of Ethics **does not** prohibit a teacher and student to fall in love with each other but **the teacher shall exercise utmost professional discretion to avoid preferential treatment of the learner**.
- The set of core values a Filipino teacher possess to become a global teacher are **borderless thinking and interconnectivity**.
- The Philippine Teachers' Professionalization Act of 1994 was **not the only legal document that professionalized teaching**.
- The PPST are teacher standards which have to be mastered only by Beginning Teachers. This statement is **false**.
- It was the **Spaniards** who started training teachers in normal schools.
- Teaching became a profession in **1976** with PD 1006.
- Teacher preparation in the Philippines became a four-year program only in **1949**.

The Teaching Profession

- **Compulsory medical examination** shall be provided free of charge for all teachers before they take up teaching, and shall be repeated **not less than once a year** during the teacher's professional life.
- Republic Act No. 4670 is also known as **Magna Carta for Public School Teachers**.
- Transfer of assignment of teachers is not allowed **three months before any local or national election**.
- Every teacher shall enjoy equitable safeguards at each stage of any disciplinary procedure and shall have: **the right to be informed, in writing, of the charges; the right to full access to the evidence in the case; the right to defend himself and to be defended by a representative of his choice and/or by his organization, adequate time being given to the teacher for the preparation of his defense; and the right to appeal to clearly designated authorities.**
- The present four-year teacher preparation program in the country began as a **two-year program**.
- **Vocation** refers to a call to do something like to teach.
- Teaching is a vocation. It means that **teaching is a calling to serve**.
- The first and foremost concern of the professional teacher is the **interest and welfare of the learners**.
- If teaching is considered as your mission, **you will be faithful to teaching no matter what and you will be faithful to your mission and you want to succeed**.
- A teacher's **professional competence** is demonstrated in his/her professionalism, professional knowledge, in creating a favorable learning environment, in excellent instructional planning, instructional delivery and assessment practices.
- Education Act of 1982 states that teacher **must refrain from making deductions in students' scholastic ratings for acts that are clearly not manifestations of poor scholarship**.
- A professional teacher **holds high expectations** if he/she set no limits on students and believe everyone can be successful.
- A teacher can show respect for community customs and traditions by **studying and striving to understand local customs and traditions**.
- **A professional teacher is a community leader**; hence, a professional teacher can take the initiative to organize community activities for community development.
- All teachers both public and private in all levels from preschool to secondary whether they are academic, vocational, special, technical or non-formal – are included in the definition of professional teachers and are therefore **required of a professional license and are subject to the Code of Ethics for Professional Teachers**.
- **Universal primary and secondary education** ensures all boys and girls complete free, equitable, and quality primary and secondary education leading to effective and relevant learning outcomes.

The Teaching Profession

- The CFT, SEA, PQF and PPST assure the education stakeholders of **teacher quality**.
- The **librarian** is excluded in the definition of professional teachers in the Code of Ethics.
- The education of the child is **not the sole responsibility of school heads and teacher**.
- A professional teacher violates the Code of Ethics if he/she **fails to vote for no justifiable reason**.
- A professional teacher serves as a **facilitator of learning** by ensuring he/she provides a favorable environment for learning.
- Professionalism is manifested when a parent complains for her son's failing grade and the teacher **objectively shows how the failing grade came about and assures the parent that the son is given all the academic help he needs**.
- As a professional teacher, you shall manifest genuine **enthusiasm** and **pride** in teaching as a noble calling.
- The **global village** refers to all the countries abroad including our own.
- When Roland Robertson started to use the phrase "think local, act global," he meant that **even if you will be teaching in your hometown, your competence is world class**.
- Teachers' job that includes writing test items, checking and recording of test paper results, attending to parents, making reports and other related activities referred to as **administrative tasks**.
- According to Article XI of the Code of Ethics, the **Almighty God** should serve as guide of the professional teacher's destiny and those of men on nations.
- A study leave of more than one year **may be allowed provided permitted by the Secretary of Education but without compensation**.
- An indefinite sick leave of absence is allowed when **the nature of a teacher's illness demands a long treatment that will exceed one year at least**.
- In the Philippines, teacher quality is defined by **PPST, 2017**.
- The ultimate competency that a baccalaureate degree holder including a teacher education graduate demonstrates is **knowledge**.
- Any teacher may be required to render **more than six hours but not exceeding eight hours of actual classroom teaching a day** upon payment of additional compensation at the same rate as his regular remuneration plus at least 25% of his basic pay.
- Salary scales of teachers shall provide for a gradual progression from a minimum to a maximum salary by means of regular increments, granted automatically **after three years**; provided that the efficiency rating of the teacher concerned is at least satisfactory.
- Teacher's salaries shall, at the very least, keep pace with the rise in the cost of living by the payment of a **cost-of-living allowance** which shall automatically follow changes in a cost-of-living index.

The Teaching Profession

- **One range salary raise upon retirement** are given to teachers who have fulfilled the age and service requirements of the applicable retirement laws which shall be the basis of the computation of the lump sum of the retirement pay and the monthly benefits thereafter.
- Public school teachers are entitled to study leave not exceeding one school year after **seven years of service**.
- A professional has **completed a college/university degree**.
- The Filipino teacher is a professional. He/She is **technically competent and highly ethical and moral**.
- Professional teachers are expected to demonstrate **professional and scientific competence**.
- In the performance of his/her duty, a professional teacher can support the state by **instilling nationalism in learners**.
- **Financial literacy** is the basic knowledge about the basics of economics and financial management.
- Appointments, promotions, and transfers of professional teachers are done only on the basis of **merit and need in the interest of the service**.
- **Yes**, it is professional to support a school's policy even if you do not personally agree.
- A teacher shall transact all official business through **channels** except when special conditions warrant a different procedure.
- The **Code of Ethics for Professional Teachers** serves as guide for teachers specifically to new teachers for them to exhibit proper behavior to the learning community at all times.
- Every teacher shall participate in the **Continuing Professional Education (CPE)** program of the Professional Regulation Commission, and shall pursue such other studies as will improve his efficiency, enhance the prestige of the profession, and strengthen his competence, virtues, and productivity in order to be nationally and internationally competitive.
- According to the Global Teacher Status Index 2013, **China** ranked first in terms of level of respect for teachers.
- Among the ASEAN member countries, **Singapore** gives the highest teacher salary.
- **Philippines** issues a teacher's license through the Professional Regulation Commission.
- According to the Global Teacher Status Index 2013, **Singapore** gives the highest salary to teachers.
- The acquisition of knowledge about climate change, pollution, loss of natural habitats and biodiversity is called **ecoliteracy**.

Newly qualified to teach as professional teachers are the **beginning teachers**.

A teacher **going through CPD even if it is not required by law** is a proof that a professional teacher demonstrates genuine desire for CPD.

Henry Adams said: A teacher affects eternity; no one knows where his influence stops." This quotation implies that **a teacher has the power to influence generation**.

William Garr said: "People who introduce themselves with the shame remark that they are "just teachers" gives me despair in my heart." Based on this quote, William Garr want teachers to **look everyone squarely in the eye and say "I am a teacher!"**

- **Phoneme** is the smallest unit of sound.
- **Morpheme** is the smallest linguistic unit within a word that can carry a meaning, such as "un-", "break," and "-able" in the word "unbreakable."
- A **lexeme** is the set of all the inflected forms of a single word.
- **Syntax** is the way in which words are put together.
- **Context** is how everything within language works together to convey a particular meaning.
- **Semantics** is the study of meaning.
- **Pragmatics** is the practical use of the language.
- **Knowledge of the word**, also background knowledge, includes both encyclopedia and experiential knowledge.
- **Metacognitive knowledge** enables readers to monitor their own comprehension to ascertain whether the information makes sense and meets specific purposes.
- **Knowledge of the alphabetic-phonemic system** involves knowing how the spelling system represents speech, including how to transfer graphemes into phonemes.
- A **reading model** is a graphic attempt to depict how an individual perceives a word, processes a clause, and comprehends a text.
- In the **Bottom-up reading model**, the reader pays close attention to the words and word parts, synthesizes and gets meaning to what he is reading. This views that reading starts with some graphic input (print).
- In the **Top-down reading model**, the reader brings information based on past experiences with language and their world to the act of reading. This shows that reading begins with the reader's cognitive structures.
- In the **Interactive reading model**, reading draws from the top and bottom simultaneously as readers use both text features and conceptual background about the language in order to get meaning.
- Among models of the reading process, the **Top-Down Theory** is closely related to Schema Theory.
- A reader who has some knowledge of the syntax, orthography, and morphology (formation of words) of a language can interact more effectively with the printed form of that language. This reinforces the idea that **reading makes use of a linguistic system which enables readers to be more effective users of written language.**
- **Previewing** is the reading technique that activates the reader's schema.
- The systematic, explicit learning of roots + affixes, along with word patterns **builds readers' fluency.**

Sinasabing dinala ng mga kastila rito ang awit na isang uri ng panitikang *haring kay Miguel de Cervantes* na "Don Quijote de la Mancha."

Sintaksis ang tumutukoy sa maka-agram na pag-aaral ng pag-uugnay-ugnay ng mga salita at parirala upang bumuo ng pangungusap.

Sinulat ni Graciano Lopez Jaena ang **Fray Botod** na isang maikling nobelang mapang-uyam na naglalarawan sa "kasibaan ng mga prayle." Ang Fray Botod ay tungkol sa prayleng napakalakas kumain.

Titik ang salitang ugat ng panitikan.

Tulad ng tao, ang wika ay nahahati rin sa iba't-ibang kategorya ayon sa kaantasan nito.

Tuwang-tuwang ipinagbili ng mangingisda ang maraming nahuhuling isda sa mga mamamakyaw sa pamilihan.

Developmental Reading

- **Period of rapid growth in reading** is the stage at which most children have mastered the techniques of reading.
- **Period of refinement** is characterized by wide reading where learners are ready to interpret selections most intensively.
- The **literal level** of comprehension reflects the ability to understand the primary, direct, surface-level meaning of a text; mere reading the lines.
- At the **interpretative level**, the focus shifts to reading between the lines, looking at what is implied by the material under study.
- Understanding at the literal and interpretative levels are combined, reorganized and restructured at the **applied level** to express opinions, draw new insights and develop fresh ideas and applications.
- **Evaluative level** of comprehension, also known as the critical level, is the judgement of validity or worth of what is read or heard, based on sound criteria of standards developed through previous experiences.
- Critical Reading involves **identifying the accuracy of the information**.
- The most powerful strategy for learning the vocabulary of written comprehension is **reading**.
- A paraphrase is a **translation of text into the students' own words**.
- A student who moves his/her lips while reading may have a problem with **fluency**.
- **Extensive reading** is marked by reading longer texts, often for pleasure and for an overall understanding.
- **Intensive reading** is characterized by careful and in-depth reading; involves reading shorter texts for detailed information with an emphasis on precise understanding.
- **Scanning** is reading rapidly through a text to find specific information required.
- **Skimming** refers to the act of reading rapidly for the main points.
- **Phonological awareness** is the awareness of constituent sounds of written words in learning to read and spell.
- **Rhyming** is a phonological skill characterized by one's recognition of the same ending sound in a set of word.
- **Alliteration** is being able to recognize the same beginning sound in a set of word.
- **Blending** is marked by the ability to combine individual sounds to form a word.
- **Segmenting** is being able to break a word and identify the individual sounds in it.
- **Reading for understanding** does NOT add to phonetic awareness.
- **Text-based learning** best relates to basic literacy to learners.

Developmental Reading

- **Graphophonic knowledge** is a type of decoding strategy wherein letter-sound relationship is given emphasis.
- **Syntactic cueing knowledge** is a type of decoding strategy wherein knowledge of language grammar is emphasized.
- Chronology is the dominant organizing structure in **narrative texts**.
- The structure of expository writing is most alike to that of a **definition**.
- Venn diagrams are particularly useful for understanding **comparison**.
- The main organization and orientation of science and social studies reading materials is **expository**.
- In reading books, **fiction novels** are most likely very creative by way of descriptive language and imaginative dramatic episodes.
- In reading newspapers, the **opinion page** provides critical views about current socio-economic and political events or issues.
- The main organization and orientation of fiction dramatic novels is **narrative**.
- **SQ3R** is a reading/study formula designed to help process and increase retention of written information.
- The **Directed Reading-Thinking Activity (DRTA)** is a comprehension strategy that guides students in asking questions about a text, making predictions, and then reading to confirm or refute their predictions.
- The **Informal Reading Inventory (IRI)** is an individually-administered diagnostic tool that assesses a student's reading comprehension and reading accuracy.
- The **KWL** is a before, during and after reading and learning strategy used to connect a student's prior knowledge to what they are actively learning.
- The "Directed Reading and Thinking Activity" (DRTA) combines **student's predictions with searching for evidence to verify them**.
- The DRTA (Directed Reading-Thinking Activity) is most valuable for helping students **form a purpose and cognitive focus for reading**.
- The K-W-L strategy allows the teacher to assess **the students' ability to weave background knowledge and new information together**.
- The major goal of methods such as SQ3R is to **enhance learning information from content-area materials**.
- One principle in vocabulary instruction suggests that concepts be taught in semantically-related clusters. This can be best applied in the classroom by **presenting vocabulary advance organizers**.
- The primary goal of remedial instruction is to **help students cope with the demands of their actual level**.

The most effective way to advance practical oral proficiency of students is to **engage students in conversational activities**.

In order for the students to clearly understand the structure and content of the teacher's presentation, the teacher should have a **short preview**.

Good readers make use of effective reading strategies which includes **predicting, inferring, summarizing, and visualizing**.

Rebus method was employed by a teacher who gave her first-grade class a page with a story in which pictures take the place of some words.

Previewing text gives students **an overview of what to expect as they read**.

When previewing reading material, a strategic reader should note **the title, graphics, headings, topic sentences, summaries, and questions**.

Prediction is a powerful strategy for helping readers **set a purpose for reading, as well as activate prior knowledge**.

Efficient readers make predictions by relying on **syntactic and semantic clues, and organizational structure**.

The cloze test assesses students' ability to **use semantic, syntactic, and background knowledge to make predictions**.

Listening to family members tell or read stories helps young children develop their sense of **story structure**.

Social Dimensions of Education

The school's **cognitive purpose** is to teach the basic cognitive skills such as reading, writing, and speaking.

The school's **political purpose** is the inculcation of patriotism or loyalty to the existing political order.

The school's **social purpose** is concerned with the socialization of citizens into their various roles in society.

The school's **economic purpose** involves the training and preparation of citizens for the world of work.

Along the aim towards labor for integrity, **industry skills and orientation** must be taught to future employees and employees in the 21st century workplace.

School networking with business and industry is the intervention directly aimed at responding to the transitional gap between academic achievement and employment.

Adopting innovative technology that allows teachers even in remote areas to access educational materials to supplement their lessons is the strongest influence of the geographical factor in the efficient and effective management of schools as agents of change.

Status is the position a person holds within a social structure; these determine your "place" in groups and society.

An **ascribed status** is a position in social structure that is beyond an individual's control. It is not earned, but rather is something people are either born with or had no control over.

Gender, ethnicity, age are examples of ascribed status.

An **achieved status** is a position in social structure that is acquired on the basis of merit; it is a position that is earned or chosen and reflects a person's skills, abilities, and efforts.

Profession, occupation, relationship status and hobbies are examples of achieved status.

Role is the expected behavior associated with a particular status, including rights and obligations.

Social mobility refers to the ability to change positions within a social stratification system. The types of mobilities are independent of one another and can often overlap.

Horizontal mobility occurs when a person changes their occupation but their overall social standing remains unchanged. It is the movement from one position to another within the same social level, as when someone changes between two equally prestigious occupations.

Vertical mobility refers to a change in the occupational, political, or religious status of a person that causes a change in their societal position. It is the movement of individuals or groups up or down from one socioeconomic level to another, often by changing jobs or through marriage.

Inter-generational mobility happens when the social position changes from one generation to another; such as when children attain a higher or lower status than their parents held. For example, a father worked in a factory while his son received an education that allowed him to become a lawyer or a doctor.

The **intra-generational mobility** occurs when there is a change in societal position within an individual's lifetime. For example, an individual starts their career as a clerk and through their life moves on to a senior position such as a director.

A **group** can be defined as a unit in which different personalities with different interdependent roles and status interact.

A **crowd** is a type of group wherein members act together on the basis of a shared emotion and feelings, as in religious revival meetings, revolutionary mob or a panic.

An **audience** or **mass** is a type of group wherein members act together on the basis of common attitudes without interaction among members; like people at film showing.

An **integrated group** is a type of group wherein members have common action with shared meanings and values.

A **public** is a type of group referring to a number of people in some form of community who have common interest but do not necessarily come to a common agreement.

Nuclear, extended, blended family are the types of family according to size and structure.

The **nuclear family** is also known as the conjugal family or family of procreation. Nuclear families are comprised of married partners and their offspring.

The **extended family** is a family that includes in one household near relatives (such as grandparents, aunts, or uncles) in addition to a nuclear family.

A **blended family**, also called a step family, is formed when divorced or widowed parents who have children marry.

On the basis of residence family may be classified into **patrilocal, matrilocal, bilocal and neolocal family**.

The family in which after marriage wife comes to reside in the family of her husband is known as **patrilocal family**.

The family in which after marriage husband comes to reside in the family of her wife is known as **matrilocal family**.

In a **bilocal type of family**, after marriage the married couple change their residence alternatively. Sometimes wife joins in her husband's house while at some other times husband resides in wife's house.

After marriage, the newly married couple establish a new family independent of their parents and settled at a new place. This type of family is known as **neolocal family**.

On the basis of power and authority family may be classified into **patriarchal, matriarchal and egalitarian family**.

Social Dimensions of Education

- The family in which all the power remains in the hands of patriarch or father is known as **patriarchal family**.
- In a **matriarchal family**, power or authority rests on the eldest female member of the family especially the wife or mother.
- The family in which power and authority are equally shared between husband and wife is called as **egalitarian family**.
- On the basis of marriage practices sociologist has classified family into **monogamous and polygamous family**.
- A **monogamous family** consists of a husband and his wife. Under this type of family system neither husband nor wife is allowed to have more than one spouse at a time. Both of them are also prohibited to have extra-marital relationship.
- The **polygamous family** is based on polygamy system of marriage. As in polygamy, one man marries more than one woman and vice-versa. Hence two types of family system is found to exist such as polyandrous and polygynous family.
- A **polyandrous family** is based on polyandry system of marriage in which one woman marries more than one man at a time. Accordingly polyandrous family consists of one woman and her several husband.
- A **polygynous family** is a type of family based on polygyny system of marriage – one man is allowed to marry more than one wife at a time. Accordingly a polygynous family consists of a husband and his several wives and their children.
- **Socialization** is a process by which social norms, roles and expectations are learned and internalized.
- **Gender Socialization** is a process by which norms, roles and expectation in relation to gender are learned by men and women.
- **Gender Stereotype** a form of prejudgment, bias or limitation given to roles and expectations of male and females.
- **Gender and Development or GAD** is an approach on socially constructed basis of the difference between men and women and emphasized the need to challenge the existing gender roles and relations.

Principle of Formal Cooperation occurs when someone intentionally helps another person carry out a sinful act.

Principle of Material Cooperation occurs when a person's actions unintentionally help another person do something wrong.

Principle of Lesser Evil is the principle that when faced with selecting from two immoral options, the one which is least immoral should be chosen.

Principle of Double Effect is the principle that aims to provide specific guidelines for determining when it is morally permissible to perform an action in pursuit of a good end in full knowledge that the action will also bring about bad results.

Social Dimensions of Education

- **Conscience** is the act by which we apply to our own conduct our knowledge of good and evil, whether our judgment be correct or incorrect.
- **Callous** is a type of moral attitude when one is not feeling or showing any concern about the problems and suffering of other people.
- **Strict** moral attitude is exhibited when one chooses the hardest way to do something.
- **Pharisaical** moral attitude is marked by INSINCERE self-righteousness.
- **Scrupulous** moral attitude involves one who is being overly critical of himself. Such a person always has a fear of sinning when there is no sin, or is in constant doubt, and/or is in fear of committing a mortal sin; tends to see sins when there is none.
- **Lax** moral attitude is exhibited when one fails to see a sin when actually there is one, tends to minimize its seriousness.
- **Certain** degree of moral certitude happens when the judgment about the goodness or evil of a particular action is made without the fear of being mistaken.
- **Doubtful/Probable** degree of moral certitude happens when there is a suspension of judgment on the moral goodness or evil of action because the intellect cannot see clearly whether it is good or bad.
- **Perplexed** degree of moral certitude happens when one is compelled to choose between two evils.
- Barbara is in constant fear and unnecessarily condemns herself for sins that she believes she has committed, even after trying to live a perfectly blameless life and doing everything to make up and atone for whatever sins she has committed. As such, she is said to have a **scrupulous conscience**.
- Jeffrey grew up in a violent environment. He became a leader of a gang and eventually a gun for hire group and a drug syndicate. He could kill and harm anybody without the slightest remorse or guilt. He has a **callous conscience**.
- The **principle of double effect** justifies euthanasia.
- **Objective** moral consciousness happens when the intellect's dictate on the goodness or evil of an intended or performed action coincides with the truth.
- **Correct** moral consciousness is when one testifies, judges and approves in accordance with the objective law as it truly is.
- **Culpability** of moral consciousness is the degree to which a person can be held responsible if he causes a negative event and the act was intentional. If the act and its consequences could have been controlled, the agent knows the likely consequences and that he provides no excuse or justification for the actions.
- **Erroneous** moral consciousness happens when one dictates falsely, contrary to objective and binding law- through ignorance to that law; moral conscience that remains in ignorance.

Social Dimensions of Education

- **Utilitarianism** is a consequentialist theory; it is the view that an action is morally right if it produces at least as much good (utility) for all people affected by the action as any alternative action that could be done instead.
- **Ethical hedonism** is the view that our fundamental moral obligation is to maximize pleasure or happiness.
- **Epicureanism** teaches that the greatest good is to seek modest pleasures in order to attain a state of tranquility, freedom from fear, and absence from bodily pain.
- **Altruism** is an ethical doctrine that holds that the moral value of an individual's actions depend solely on the impact on other individuals, regardless of the consequences on the individual itself.
- The Four Pillars of Education form the basis for the UNESCO report **Learning: The Treasure Within** published in 1996.
- **Learning to know** includes the development of the faculties of memory, imagination, reasoning, problem-solving, and the ability to think in a coherent and critical way.
- **Learning to do** is closely linked to vocational-technical education and work skills training.
- **Learning to live together** implies an education that emphasizes discovery of others and experience of shared purposes throughout life.
- **Learning to be** is based on the principle that the aim of development is the complete fulfilment of man, in all the richness of his personality, the complexity of his forms of expression and his various commitments.
- The pillar **learning to live together** best describes the phrase "Unity in Diversity."
- "Learning to learn" is best seen in an individual's skill to **process and select information**.
- **Interdependence** best describes people of the world learning to live together in peace and harmony through understanding of each other's history, traditions and spiritual values.
- With the Transparency International's perception that the Philippines suffers a cultural malaise of corruption, the **ethical-spiritual component** of our character needs to be further developed along the Learning to Be pillar of education in the 21st century.
- **Peace Education** is education which empowers people with the skills, attitudes, and knowledge to build, maintain and restore relationships at all levels of human interaction.
- **Transformative Education** is an educational process that bring about deep and significant changes (for the better) in an individual and ultimately culminates in similar changes at the societal level, principally brought about through innovative and creative teaching and learning, curriculum reform and appropriate policy at the school level.
- **Global Education** involves learning about those problems and issues which cut across national boundaries and about the interconnectedness of systems—cultural, ecological, economic, political and technological.

Social Dimensions of Education

- **Inclusive Education** is an education based on the right of all learners to quality education that meets basic learning needs and enriches lives. An inclusive curriculum treats knowledge and experience of women, racial groups and ethnic groups as being just as valid and relevant as the knowledge of dominant groups in mainstream academic discourse.
- **Alternative Education** is a non-traditional type of approach to education based on the belief that there are many varied pathways to become educated in many types of educational environments and settings, and utilizing different, variety of structures. It describes different approaches to teaching and learning other than state-provided mainstream education, usually in the form of public or private schools with a special often innovative curriculum and a flexible program of study which is based to a large extent on the individual student's interests and needs.
- **Development Education** strives for quality of economic, social, and political development in all countries; fairness in relationship between and within countries; equitable and meaningful linkages between developed and developing countries.
- **Multicultural Education** emphasizes oneself and others through the exploration of concepts of cultural diversity, similarities, prejudices, and cultural understanding. Developing tolerance is a key value in learning to live together in harmony.
- **Human Rights Education** promotes understanding of human rights concept and values to enable learners to comprehend and transform conditions which give rise to human rights violations and exalts dignity and worth of the human person.
- **Civic/Citizenship Education** focuses on the study of the basic concepts, beliefs and values underlying our democratic political community and constitutional order. It is an important means for capacity development on the societal level by empowering people with civic knowledge, skills and dispositions for effective civic engagement.
- **Environmental Education** rethinks human-earth relationships, fosters a vision of education for sustainable development, promotes care for the environment and builds a global culture of ecological responsibility.
- **Transformative learning** is the idea that learners who are getting new information are also evaluating their past ideas and understanding, and are shifting their very worldview as they obtain new information and through critical reflection.
- **Gender Studies** promotes gender equality and harnessing the role of women in development.
- When a person shows the ability to understand and appreciate the similarities and differences in customs, values, and beliefs in one's culture, he/she is said to **possess multi-cultural literacy**.
- **Civic culture** is a type of political culture where citizens view their active involvement in politics as both desirable and effective.
- **Lifelong education for all** is the key features of the 21st century education.
- A global teacher is able to **teach learners from diverse groups and cultures**.
- The **inability to forgive** runs against the Filipino family value of sacrifice.

Social Dimensions of Education

- DepEd's A Child- and Community-Centered Education System (ACCES) describes the learner-centered education that teachers ought to provide. **Ethnocentric** does NOT describe learner-centered education.
- DepEd's A Child- and Community-Centered Education System (ACCES) describes the learner-centered education that teachers ought to provide. **Exclusive** does NOT describe learner-centered education.
- **Innovations to enhance learning for all types of learners** is a quality of an engaging environment most reflective of education for all (EFA).
- To survive in the global community and in the 21st century, one must be a **digital expert**.
- Owing to issues in friendship, family ties, gender rights, etc., **Social Science** is a value-rich subject that provides a wide opportunity for value formation of learners.
- The pinning of veil around the bride and the groom, the exchange of rings, and the releasing of doves during wedding ceremonies show that culture is **symbolic**.
- **Resignation to mediocrity** best describes "pwede na" mentality vs. excellence in service/work.
- The observation that **students from poor families have higher risks of failing and dropping from school** attest to the research findings that student's motivation may vary according to socio-economic background.
- Teachers should regard new trends and reforms in education as an **opportunity**.
- From global competence as defined by international educators, **open-mindedness to new culture** is the MOST appropriate characteristic of a globally competent individual.
- One of the principles of learners says that "Each learner approaches the world in many ways." This can be applied in a multicultural classroom by giving **varied learning experiences**.
- Social norms develop the "good" life. In the society, **prosperity** is the LEAST important to the consideration of a "good life" for all.
- Social adjustment means the ability to behave in accordance with the **social expectations**.
- When household's tasks are typecast as the female's responsibility, **gender stereotype** is reinforced in classroom management.
- Under the 21st Century Life and Career Skills, **flexibility and adaptability** enables a person to respond to the change of modernity.
- The teacher would like to focus on "WELLNESS" which needs to be developed among individual learners and so she gives focus on **vital values**.
- **Universal values** are values that apply to the whole humanity as taught by the great teachers, such as Buddha, Lao Tzu, Jesus and the like.

- **Bar graph** is useful in showing the trend in the temperature change month-to-month.
- A **pie graph** illustrates how a portion of the data relates with the whole.
- In **entry**, the teacher begins to use technology tools to deliver curriculum content to the system.
- In a **goal-directed** learning environment, students use technology tools to set goals, plan activities, monitor progress, and evaluation result rather than simply completing assignments without reflection.
- In **transformation**, technology tools are used to facilitate higher order learning activities that may not have been possible without the use of technology.
- The teacher provides the learning context and the student choose the technology tools to achieve outcomes in the **infusion** level of technology integration.
- In an **active** learning environment, the students are actively engaged in using technology as a tool rather than passively receiving information from the technology.
- In **redefinition**, technology allows for the creation of new tasks, previously inconceivable.
- In **augmentation**, technology acts as a direct tool substitute with functional improvement.
- In **modification**, technology allows for significant task redesign.
- In **substitution**, technology is directly substituted for a more traditional one.
- The last stage of the SAMR model is **redefinition** and represents the pinnacle of how technology can transform a student's experience.
- The most desirable in the use of technology in instruction is **technology integration**.
- **Blog** is a form of journal writing using the internet and useful for teachers who can publish lesson ideas to digital student readers.
- **Flip chart** is an aid that is 2-dimensional and is hang on the wall.
- **Terrarium** is a usually transparent enclosure for keeping or raising plants or usually small animals (such as turtles) indoors.
- The **Internet** has become the home library of students for vast and updated information.
- Present-day netizen students are properly referred to today as **digital generation**.
- According to researches, the likely effect of excessive TV viewing and video games playing among children is **shorter attention span**.
- The teacher can show **hierarchy structure** graph in order to show how authority is shared in government from the executive to legislative, judicial and local government units.

- **Videotaped conversation of students using adjectives** is an appropriate multimedia resource for a lesson on adjectives.
- In preparing a rough layout for designing visual-charts, posters, bulletin board displays, etc., **depth** is NOT used to maximize dynamism and graphic memory.
- **Web design** in the conceptualization, planning, modelling and execution of electronic media content delivery via internet.
- **Copyright** is giving the person the exclusive right to control reproduction or adaptation of his works for a certain period of time.
- **Patent** is granting a person or a new useful and non-obvious invention and gives the holder a right to prevent others from practicing the invention without a license from the inventor.
- **Trademark** is the distinctive sign which is used to distinguish the products or services of different businesses.
- A graphic organizer which shows the chain of command in an organization or department is called an **organizational chart**.
- In a computer, the **OK** command indicates acceptance.
- **Word processor** is an application program that allows you to encode letters and other documents.
- The first step in selecting a folder file or an icon is to **left click once on it**.
- The step done to open a folder or run a program is to **double click with left button on it**.
- **MS Excel** is an application program which allows you to create, organize and analyze data.
- **E-mail** is the shortcut term for the word electronic mail.
- **CPU** is considered as the heart and brain of the computer.
- **Input** is the term for the information or data put on the computer.
- **Data** is the raw material to be processed by a computer.
- **Input devices** send information to the computer so it can perform a task.
- The main circuit board of the computer is its **motherboard**.
- A **web browser** is the application program you need to find, retrieve, view and send information from the internet.
- A **modem** is a device which serves as the intermediary between the computer and the phone system.

- **Drill and practice** categories of CAI will be used if the objective is to increase proficiency in a newly learned skill or refresh an existing one.
- Face-to-face communication is made possible via the computer through **Skype**.
- Models, replicas, charts, graphs and specimen belong to **resources and materials**.
- According to Edgar Dale's Cone of Experience, people remember **70%** of what they say and write.
- Word processing, spreadsheets, graphic design apps, and desktop publishing are examples of **productivity tools**.
- The teacher explains by spicing her lectures with examples, descriptions, and stories. She applies **elaboration through elements**.
- The most appropriate use of television in the classroom is **TV viewing with cuts and explanation**.
- A **flow chart** is a graphic organizer which shows the sequence or flow of a process.
- Michael Harrington noted: "If there is technological advance without social advance, there is, almost automatically, an increase in human misery." **Internet pornography** shows that Mr. Harrington is right.
- A young mother observes her seven year old girl glued to her computer games. **Parent-child relationship** aspect of family life may suffer due to obsession of the young with technology gadgets.
- In reading books, **fiction novels** are most likely very creative by way of descriptive language and imaginative dramatic episodes.
- The main organization and orientation of science and social studies reading materials is **descriptive**.
- **Technology integration** is the meaningful implementation of technology in educational settings to achieve learning goals.
- Of clusters of meaningful learning activities, **peer tutoring** does not belong to spatial learning activities.
- From cluster of meaningful learning activities, **ecological field trip** does NOT belong to verbal intelligence learning.
- **Attribute wheel** is a useful tool for constructivist learning in presenting the characteristic features of objects/subjects in a lesson, e.g. in Biology.
- **Landscape drawing** is an example of spatial learning that is appropriate for the appreciation of the beautiful.
- When classes began, Teacher Prince asked students in pairs to interview and introduce each other to the class. This activity is classified as **purposeful experience** according to Edgar Dale's Cone of Learning Experience.

The teacher **brings her class to the zoo** because she abides by the principle of teaching from concrete to the abstract.

The **teacher** is the best classroom device.

Graphic materials help present information through drawings, words, pictures or symbols.

Knowing how to use virtual reality headsets to teach about the Renaissance would be an example of **Technological, Pedagogical Content Knowledge**.

A literature professor wants to present historical movements in Philippine literature. The most appropriate teaching tool for Mr. Florencio to use is a **timeline**.

A teacher would like to discuss water cycle with his 4 pupils next week. The graphic organizer that is best for him to use is a **sequence chain**.

Textbooks, magazines and newspapers are examples of **print materials**.

Supplementary materials are the best sources of idea and information, particularly on current topics, otherwise not available from textbooks.

A **timeline chart** shows the chronological relationship between events.

Drawings and illustrations are non-photographic representations of reality.

TPACK Model is a technology integration model that illustrates the complex interplay between Technological Knowledge, Pedagogical Knowledge, and Content Knowledge.

A **cycle diagram** shows a process with a continuous cycle.

The proper position when you write on the chalkboard while busy discussing your lesson in front of the class is **right side view as you talk**.

An **episcope** is a projector for opaque objects like photographs.

Pleasing and simple designs are the kind of stimuli that would help increase the probability that the learner will remember and can produce what was presented in the instructional materials utilized in the classroom.

A **mock-up** is intended to show the essential parts of an object which are made detachable.

Blended learning is an approach to education that combines online educational materials and opportunities for interaction online with traditional place-based classroom methods.

Computer-based instruction is any curricula in which students interact with a computer as a key element of the learning process. Although the term is used to describe a number of different teaching methodologies and curricula, an instructor is almost always present to organize and monitor student activities.

Teachers should identify the objectives before using instructional media to **determine which media to use best**.

- **Computer-assisted instruction (CAI)** is an interactive instructional technique whereby a computer is used to present the instructional material and monitor the learning that takes place. CAI uses a combination of text, graphics, sound and video in enhancing the learning process.
- **Multimedia learning** occurs when a learner builds a mental representation from words and pictures that have been presented.
- A **virtual learning environment (VLE)** is a set of teaching and learning tools designed to enhance a student's learning experience by including computers and the Internet in the learning process.
- **e-Learning, or electronic learning** refers to the delivery of learning and training through digital resources. It is based on formalized learning but is provided through electronic devices such as computers, tablets and even cellular phones that are connected to the internet.
- **Technology Enhanced Learning (TEL)** is referred to as the combination of a teacher's practices and understandings around learning and teaching, paired with the appropriate use of technological tools to achieve pedagogical aims and maximize student outcomes and experiences.
- **Ubiquitous learning**, also called **u-learning**, is the interaction between humans and computers in order to learn.
- **Digital education** is the innovative use of digital tools and technologies during teaching and learning.
- A computer serves as an **informative** tool since it provides vast amounts of information in various forms such as graphics, text, sounds, and video.
- Presenting real samples of plants in a Biology class applies the principle of **authenticity**.
- **Digital collaboration** is the practice of people working together through online means.
- **Networked learning** refers to a method of collaborative internet-based education whereby learners can connect with resources, teachers and other students.
- MOOC stands for **massive open online course**.
- MOOCs are **massive** because enrolments are unlimited and can run into hundreds of thousands.
- MOOCs are **open** because anyone can enroll — that is, there is no admission process.
- MOOCs are **online** because they are delivered via the internet.
- MOOCs are considered course because their goal is to teach a specific subject.
- **Modular learning** is a form of distance learning that uses Self-Learning Modules (SLM) based on the most essential learning competencies (MELCS) provided by DepEd.
- **Cyberbullying or cyberharassment** is a form of bullying or harassment using electronic means.

Educational Technology

- It is impractical to bring real objects to the classroom so the teacher constructed a three-dimensional visual instead. He constructed a **model**.
- **Fair use** is a legal doctrine that promotes freedom of expression by permitting the unlicensed use of copyright-protected works in certain circumstances.

Assessment of Learning

- **Traditional Assessment** is more on thinking or choosing for a response, focuses on recall/recognition, teacher structures, grounded on indirect evidence and is contrived.
- **Authentic Assessment** is more on performing, utilizes someone's construction or application abilities, student-structured, grounded on direct evidence and is real-life.
- **Product or showcase portfolio** is usually used as a summative assessment to evaluate mastery of learning objectives and it highlights the best work of the learner's accomplishments.
- **Process portfolio** expands information by integrating reflections and higher-order cognitive activities and it is a documentation of all stages of the learning process including the learner's work all throughout the entire educational progression.
- **Documentation or Working portfolio** is used to highlight development and improvement of learners over time and it usually involves a range of artifacts from brainstormed lists to rough drafts to finished products.
- **Rubric** is a measuring tool utilized in rating performance-based tasks and it is also the key to corrections for assessment tasks designed to measure that attainment of learning competencies that require demonstration of skills or creation of products of learning.
- **Holistic Rubric** describes the overall quality of a performance or product, thus, only one rating is given to the entire work.
- **Analytic Rubric** shows the quality of a performance or product in terms of identified dimensions or criteria for which are rated independently to give a better picture of the quality of work or performance.
- **Learning targets** should be clearly stated, specific and centers on what is truly important.
- Examples of **Self-Report Assessment Methods** are survey, sociometric devices, questionnaires, inventories and attitude scales.
- A **balanced assessment** sets targets across all sets in domains of learning which include cognitive, affective and psychomotor or Gardner's domains of intelligence.
- **Validity** is the usefulness of the instrument for a given purpose, thus, it measures what it intends to measure. It is the most important criterion of a good assessment instrument.
- **Content Validity** reflects the curricular objectives through a careful and critical examination of the objectives of assessment.
- **Criterion-related validity** utilized correlational statistics between the assessment instrument and another external predictor or measure.
- **Construct validity** is established by analyzing the activities and processes that correspond to a particular concept by comparing psychological traits or factors that theoretically influence scores of a learner in a test.
- **Ambiguity** in assessment contributes to misinterpretations and confusions, it usually confuse the brighter students rather than the poor ones.

Assessment of Learning

- **Traditional Assessment** is more on thinking or choosing for a response, focuses on recall/recognition, teacher structures, grounded on indirect evidence and is contrived.
- **Authentic Assessment** is more on performing, utilizes someone's construction or application abilities, student-structured, grounded on direct evidence and is real-life.
- **Product or showcase portfolio** is usually used as a summative assessment to evaluate mastery of learning objectives and it highlights the best work of the learner's accomplishments.
- **Process portfolio** expands information by integrating reflections and higher-order cognitive activities and it is a documentation of all stages of the learning process including the learner's work all throughout the entire educational progression.
- **Documentation or Working portfolio** is used to highlight development and improvement of learners over time and it usually involves a range of artifacts from brainstormed lists to rough drafts to finished products.
- **Rubric** is a measuring tool utilized in rating performance-based tasks and it is also the key to corrections for assessment tasks designed to measure that attainment of learning competencies that require demonstration of skills or creation of products of learning.
- **Holistic Rubric** describes the overall quality of a performance or product, thus, only one rating is given to the entire work.
- **Analytic Rubric** shows the quality of a performance or product in terms of identified dimensions or criteria for which are rated independently to give a better picture of the quality of work or performance.
- **Learning targets** should be clearly stated, specific and centers on what is truly important.
- Examples of **Self-Report Assessment Methods** are survey, sociometric devices, questionnaires, inventories and attitude scales.
- A **balanced assessment** sets targets across all sets in domains of learning which include cognitive, affective and psychomotor or Gardner's domains of intelligence.
- **Validity** is the usefulness of the instrument for a given purpose, thus, it measures what it intends to measure. It is the most important criterion of a good assessment instrument.
- **Content Validity** reflects the curricular objectives through a careful and critical examination of the objectives of assessment.
- **Criterion-related validity** utilized correlational statistics between the assessment instrument and another external predictor or measure.
- **Construct validity** is established by analyzing the activities and processes that correspond to a particular concept by comparing psychological traits or factors that theoretically influence scores of a learner in a test.
- **Ambiguity** in assessment contributes to misinterpretations and confusions, it usually confuse the brighter students rather than the poor ones.

Assessment of Learning

- The most stable, most important and most useful measure of variation is the **standard deviation**, it involves all the scores in a distribution compared to range and quartile deviation.
- In **quartile deviation**, the higher the number in the quartile the higher the position of a learner based on his score.
- Some factors of a **positively skewed distribution** are **ineffective teaching and learning strategies, unprepared students, very difficult items and time limit** which leads to the **low score or poor performance of students**.
- Some factors of a **negatively skewed distribution** are **smart and prepared students, effective teaching and learning strategies and enough time** during the examination which leads to the **high score or good performance of students**.
- The **normal curve** has a single peak, unimodal distribution, bell shaped and symmetric in nature.
- **Percentile ranks** are the positional ranks of learner's percentage scores in the frequency distribution, it refers to the percent of students lower than the learner's score.
- **Z-score** is the number of standard deviation units a score is above or below the mean of a given distribution, a positive z-score measures the number of standard deviation above the mean while a negative z-score are those below the mean.
- **The measure of relationship** describes the degree of relationship or correlation between to variables, the greater the relationship, the more reliable a test is.
- A **positive correlation** means the relationship shows the same behavior or trends across the variables while **negative correlation** shows an opposite relationship.
- The learning domains of **K-12** are Values development, Socio-emotional Development, Mathematics, Understanding Physical and Natural Environment, Language Literacy and Communication, Physical, Health and Motor Development and Aesthetic Development.
- **Mother Tongue Based – Multi Lingual Education (MTB-MLE)** is utilized from Grades 1-3.
- **Exploratory Courses** are introduced in Grades 7 and 8 to teach learners common competencies or introductory and basic skills such as use and maintenance of tools, interpreting drawing, measurement and calculation and occupational safety and health.
- By the **end of Grade 8**, learners must be introduced to as least **8 exploratory course** and must have obtained **Certificate of Competency** in the exploratory course they acquired.
- In the **beginning of Grade 9**, the student chooses a focus area from the exploratory courses where they continue up to grade 10, they are enabled to obtain National Certification Level 1 (NC1) from TESDA if they pass the assessment in the national certification.
- If the learner pursues the Tech-Voch career path in Grades 11 and 12, he may choose to be assessed and gain and **NC II Certification**.

Assessment of Learning

- The **K-12 Career Tracks** are Academic Track, Technical-Vocational Track, Sports Track and Arts and Design Track.
- **Academic Track** has the following strands: General Academic, ABM (Accountancy, Business and Management), STEM (Science, Technology and Engineering and Mathematics and HUMSS (Humanities and Social Sciences).
- Through **Universal Kindergarten**, every Filipino child now has access to early childhood education.
- With K-12, Children **begin school at the age of five** and are given the tools they need to gradually adjust to formal education.
- With K-12, the lessons are more relevant to learners through **contextualization and enhancement**.
- **Twelve (12) MT languages** have been introduced for SY 2012-2013: Bahasa Sug, Bikol, Cebuano, Chabacano, Hiligaynon, Iloko, Kapampangan, Maguindanaoan, Meranao, Pangasinense, Tagalog, and Waray.
- **Spiral curriculum** shows progression and ensures integrated and seamless learning which ensures mastery of knowledge and skills after each level.
- **Senior High School** is a two year specialized upper secondary education, which is preparation in gearing up for the future of each learner.
- There are **seven Learning Areas under the Core Curriculum of the K-12**, these are Languages, Literature, Communication, Mathematics, Philosophy, Natural Sciences, and Social Sciences.
- **Every graduate of the K-12 curriculum** will be equipped with Information, media and technology skills, Learning and innovation skills, Effective communication skills, and Life and career skills.
- **The Core Curriculum subjects** are subdivided into Oral communication, Reading and writing, *Komunikasyon at pananaliksik sa wika at kulturang Filipino*, 21st century literature, from the Philippines and the world, Contemporary Philippine arts from the regions, Media and information literacy, General mathematics, Statistics and probability, Earth and life science, Physical science, Introduction to philosophy of the human person/*Pambungad sa pilosopiya ng tao*, Physical education and health, Personal development /*pansariling kaunlaran*, Earth science (instead of Earth and life science for those in the STEM strand), and Disaster readiness and risk reduction (taken instead of Physical science for those in the STEM strand).
- The **Applied Track Subjects** are composed of English for academic and professional purposes, Practical research 1, Practical research 2, Filipino sa piling larangan, Akademik, Isports, Sining, Tech-voc, Empowerment technologies (for the strand), Entrepreneurship and Inquiries, investigatories, and immersion.
- **Private schools** crafted their transition plans to K-12 based on: (1) current/previous entry ages for Grade 1 and final year of Kinder, (2) duration of program , and most importantly, (3) content of curriculum offered.

Assessment of Learning

- The Philippines is the **last country in Asia** and one of only three countries worldwide with a **10-year pre-university cycle** (Angola and Djibouti are the other two).
- A **13-year program** is found to be the best period for learning under basic education. It is also the recognized standard for students and professionals globally.
- **Classroom Assessment** is an ongoing process of identifying, gathering, organizing and interpreting quantitative and qualitative information about what learners know and can do.
- **Formative Assessment** is a process that involves teachers using evidence about what learners know and can do to inform and improve their teaching. This process, through the teacher's immediate feedback, enables students to take responsibility for their own learning and identify areas where they do well and where they need help.
- **Summative Assessment** is an assessment that is usually administered toward the end of a learning period to measure the extent to which the learners have mastered the essential learning competencies, the results of which are recorded and are used to report the learner's achievement.
- **Grading** is the way of reporting assessment data by assigning a value to the results as a record of students' ability, achievement or progress.
- A variety of assessment strategies is necessary, with formative assessment taking **priority** to inform teaching and promote growth and mastery.
- In 2020, non-mandatory **self-monitoring** tool may be accomplished independently by the learners or with the assistance of their parent/guardian, it is **not** required to accomplish but is **highly recommended** to keep track of learner's academic progress.
- During the pandemic, in the implementation of distance learning modalities, **parents and guardians** will play a **crucial role** in guiding their children in adapting to the changes of distance learning processes.
- The **parents/guardians' roles** in assessment process are communication with the teachers for updates on child's situation, progress and challenges encountered and guiding their children in accomplishing the assessment tasks and/or monitoring tools designed by their teacher.
- **Performance tasks** refer to assessment tasks that allow learners to show what they know and are able to diverse ways where teachers may create or innovate products or do performance-based tasks such as skills demonstration, group presentations, oral work, multimedia presentations and research projects.
- It is important to note that **written outputs** may also be considered as performance tasks.
- **In conducting assessments remotely**, the following tasks should be noted: **Communicating** the assessment task and consultations to allow room for adjustments and **record of progress** through self-monitoring tool, check-ins of teachers with learners and evidences of learning through the student's learning portfolio.
- Teachers should ensure that learners receive **remediation** when they earn raw scores which are consistently below expectations in summative assessments by the fifth week of the quarter to prevent a learner in failing in any learning area at the end of the year.

Assessment of Learning

- The **grading system** implemented in the interim policy in 2020 as a result of the CoViD pandemic provides reasonable leniency to learners who are put at a greater disadvantage by the pandemic, while not jeopardizing the integrity and principles of assessment and grading.
- For the school year 2021-2022, **quarterly assessments shall not be administered**. However, days allotted for quarterly assessments in DepEd Order 7, s. 2020 or the School Calendar and Activities for School Year 2020-2021, may be used for the presentation of major performance for the quarter that addresses the performance standard.
- The **quarterly examination's weight** will no longer be a part of the grading system during the new modalities of the pandemic, thus, its weight will be distributed equally into written works and performance task.
- **Role of Technology:** Technology plays a substantial role in helping teachers in the development, communication, implementation, and grading of assessment tasks.
- **Assessments for Remote Learning resources** are broken down into low-, medium- and high- technologies.
- **Low-technology Resources** are printed supplemental activities and assessments picked up from school or delivered to homes such as Flashcards, Pop-up books, Posters, Comics, Creative Self-evaluation questions at the end of each topic, Multi-colored post-it that represent level of understanding per page of submitted module and Rubrics such as RubiStarm, Rubric Maker and Quick Rubric.
- **Medium Technology Resources'** examples are bite-sized assessments through SMS, Text example or summaries, Photo/drawing, Voice memo, Self-evaluation questions or reflection questions, Bite-sized comics, Radio/TV plug-ins like CDs, DVDs, and USB storage containing all small sized assessments.
- **High-Technology** include PDF-format assessments created using an iPad/tablet or laptop or desktop computer through the following apps/software such as Word/Pages, PowerPoint/Keynote, Excel/Numbers, iBooks, Formative and summative assessments accessed from Local Online Open Resource (e.g. DepEd Commons) and Digital assessments.
- **Digital Assessment** includes e-book, video, audio or image format; mixed formative assessment and dynamic media) created through the following sites and tools: such as Kotobee, Thinglink, Buncee and EdPuzzle.
- **Teacher-created digital assessments** distributed through online platforms or LMS such as ClassDojo, Edmodo, Google Classroom, Moodle, Schoology, Seesaw, Skooler, Youtube and iTunes.
- **Assessments that involve communication skills** (e.g., oral report or presentation, speech delivery, direct question-and-answer assessment) can be done in live-video or voice communication through the following platforms such as Dingtalk, Hangouts Meet, Microsoft Teams, Skype, Viber, Messenger, Zoom and Miro.
- **Gamified quizzes** are also utilized as high-technology resource such as Kahoot, Mentimeter, Polleverywhere, Socrative, Quizlet and Quizzes.

Assessment of Learning

- Other **high-technology resources** are Digital Flashcards such as Quizlet, Slides/Keynote/ Powerpoint and Digital Teacher-made self-evaluation for students such as Emoji Worksheet, Self-Assessment Questions, Exit Slip, Lesson Tweet and RubricScorer App.
- **Asynchronous activities** are utilized during the pandemic such as email, text/mobile message, social media and LMS (learning management systems).
- **Synchronous Activities** include phone calls, video calls and live chats.
- **Rubrics** contain four essential features which are: task description or a descriptive title of the task students are expected to produce or perform; a scale (and scoring) that describes the level of mastery (e.g., exceed expectation, meets expectation, does not meet expectation); components/criteria students are to attend to in completing the assignment/tasks (e.g., types of skills, knowledge, etc.); and description of the performance quality (performance descriptor) of the components/dimensions at each level of mastery.
- **Three-Level Model of Feedback** includes feedback at the task level, process level and self-regulation level.
- It is the **teachers' responsibility** to ensure that your teaching, learning, and assessment practices support successful learning for these learners.
- In a **narrative essay**, the author tells a story, either imagined or from personal experience. A recount is a type of essay that recounts past events.
- The author of a **descriptive essay** may describe a person, place, object, or even a special memory, and it presents the appearance, characteristics, qualities, or traits of the essay's subject.
- An **Expository Essay** contains text that presents factual information; it is based on facts rather than personal feelings; therefore, those who write this essay type do not reveal their emotions or write in the first person.
- The goal of a **persuasive essay** is to persuade the reader to accept a specific point of view or recommendation.
- **Interviews** are one-on-one conversations in which one person (the interviewer) asks another person (the interviewee) questions in order to gather information, opinions, and stories from the interviewee.
- An **investigation** is an open-ended, sustained exploration of an unfamiliar situation. It differs from problem solving in that it has a specific goal, which is to solve a problem.
- **Journals** are diaries in which students record important daily events, experiences, observations, or thoughts and ideas while in class.

Principles of Teaching

- The five senses of the learner together with his/her instinct, imagination, memory and intellect are referred to as **cognitive faculties**.
- The feelings, emotions and rational will of the learner are referred to as **appetitive faculties**.
- A teacher's **professional competency** is demonstrated by one's understanding of psychological and educational principles.
- A teacher's **personal-social competency** refers to his/her beliefs, attitudes, and interests.
- Defining technique in teaching as a factor which promotes or effectuates learning through teaching with the aid of devices could be presented by the **skill of the teacher in manipulating devices**.
- Pictures, models and the like arouse students' interest on the day's topic. Thus, these materials should be presented during the **initiating activities**.
- **Application** is the part of the lesson involved when situations or activities are given based on the concepts learned.
- Learners must be developed not only in the cognitive, psychomotor but also in the affective aspect. The development of the latter is also important **as it helps them develop a sound value system**.
- An effective classroom manager is one who is friendly yet **business-like**.
- Teachers must use the **probing technique** in questioning to develop reflective thought and critical thinking among the learners.
- Asking a series of questions to a student is a violation to the **wait time-technique** in questioning.
- The test item "The improvement of basic education should be the top priority of the Philippine Government. Defend or refute this position," is an **evaluative** type of question.
- In performing the minuet, "first raise your heel, second make three steps forward, third step make a point," **procedural knowledge** was exhibited.
- Learning environment is a product of the physical, psychological as well as social atmosphere created by the interaction between teacher and the learners and among the learners themselves.
- A class is scheduled to perform an experiment on a day. However, the chemicals are insufficient. In this case, demonstration may be used instead.
- To develop reasoning and speaking ability, it is best to have **debates**.
- If you want your pupils to master the multiplication table, having a **drill** is most fit.
- **Peer tutoring** is best if you want your better students to overlearn what they have learned and at the same time help others to master the lesson.

Principles of Teaching

- A **mock-up** is a replica of an object that maybe larger or smaller in scale intended to show the essential parts which are made detachable.
- **Constructivism** is anchored on the assumption that "the absorption or assimilation of knowledge is somewhat personal and therefore no two learners can build up the same meaning out of one situation.
- **Problem-solving** is a strategy that employs scientific method in searching for information.
- **Project method** is a teaching method that requires the students too present in concrete form the results of information gathered about a concept, principle or innovation.
- According to **Dewey**, reflective teaching is "behavior which involves active, persistent and careful consideration of any belief or practice.
- **Direct instruction** is a way of teaching aimed at helping students acquire some basic skills and procedural knowledge.
- When two or more teachers work together cooperatively with the same group of students, the approach used is known as **team teaching**.
- To achieve the aim of integration of the individual new learning in education, the **integrative technique** could be used.
- **Distance learning** is a mode of learning done outside the traditional classroom setting where the students are given learning modules with exercises that they must accomplish and submit within a fixed date to their teacher.
- Learning is most likely to be positively transferred in the situation involving **learning of manual skills**.
- In the context of teaching, "**begin with the end in mind**" principle means that we must start our lessons with clearly defined lesson objectives.

It is a demand for a teacher who believes in the saying that "values are caught, not taught" to be a **good model**.

Citing pupils' previous experiences is a motivational technique which makes use of the principle of apperception.

An internationally known boxer like Manny Pacquiao has a type of intelligence that is **bodily-kinesthetic**.

To nurture creativity of learners, the teacher should be **flexible in terms of time, pace, materials and techniques**.

It is best to use **direct instruction** when you want to teach facts and rules.

You combined several subject areas in order to focus on a single concept for interdisciplinary teaching. This illustrates your use of the **thematic instruction** strategy.

High drop out rate is NOT an indicator of a supportive learning environment.

Principles of Teaching

- The incorporation of the content materials in language lessons is called **content-based instruction**.
- **Being preventive in approach** is a sound classroom management practice.
- The sound advice for classroom managers, "Nip the problem in the bud," means **being proactive in management approach**.
- **Formulating and testing hypothesis** is best for the development of logical reasoning.
- **Concept mapping** can enhance the development of spatial intelligence.
- According to Gardner, one who is a very good organizer and an influencer has an intelligence classified as **interpersonal**.
- To show cause-and-effect relationships for picture-smart pupils, **graphic organizers** would work best.
- **Mandated time** is the number of days and hours in the school calendar specified by the state and school laws.
- **Allocated time** is the portion of time in school allocated to different subjects and other activities in academic and non-academic areas.
- **Academic instructional time** is the time the teacher actually spends in class giving instruction through various means in particular subjects and skills.
- **Academic engaged time** is the time the students spend in performing academic work.
- Of the categories of movement behavior, **truncation** happens when the teacher ends an activity or drops a topic before it is completed.
- **Satiation** occurs when students have focused on one learning aspect too long and begin to lose interest, make more mistakes and misbehave.
- In the 5S formula to create a conducive learning environment, **Shine** stands for cleanliness in the workplace.
- Among the styles of classroom management, **Assertive approach** makes teachers specify the rules of behavior, consequence for obeying them to communicate these rules and consequences.
- To manage behavior, the teacher needs to be able to identify the mistaken goals of the students. **Revenge-seeking** is the hidden goal of students who become violent.
- Of the approaches to classroom management, **Behavioral modification approach** involves a variety of techniques and methods of ranging simple rewards to elaborate reinforcement, e.g. praise or rewards.
- **Dangling** is the mistake of the teacher when he drops a topic before it is completed.
- Of subcategories of teacher movement behavior, **Thrust** occurs when the teacher bursts into activities without assessing student readiness and gives orders, statements, or questions that confuse students.

Principles of Teaching

- The class has become uncontrollable, and so teacher A decided to have some undisciplined students out of the room to the counselor's office. Teacher A applied **Antiseptic bouncing** as a preventive approach to discipline the students.
- **Discrimination** is being shown by teachers who ignore slow-learners and take pride in the work of fast-learners.

- The **Belmont Report** articulated three primary ethical principles on which standards of ethical conduct in research are based.
- **Concealment** is the collection of information without participant's knowledge and thus without their consent.
- **Deception** involves the deliberate withholding of information about the study or providing participants with false information.
- **Informed consent** means that participants have adequate information regarding the research, are capable of comprehending information, and have the power of free choice, enabling them to consent to or decline participation voluntarily.
- **Plagiarism** involves the appropriation of someone's ideas, results or words without giving due credit, including information obtained through the confidential review of research proposals or manuscripts.
- The research meant to seek knowledge simply for knowledge's sake is **basic research**.
- Applied research is otherwise known as **action research**.
- **Applied research** involves the practical application of knowledge to everyday situations.
- If the researchers consciously manipulate the conditions in the study and make observations in tightly-controlled environment, it is known as an **experimental research**.
- The **experimental group** refers to a group of subjects that is manipulated and given the treatment or intervention.
- The **control group** refers to a group of subjects whose performance on the dependent variable is used to evaluate the performance of the experimental group on the same dependent variable.
- A **quasi-experimental research** involves the manipulation of an independent variable, but lacks randomization to treatment groups which characterizes true experiments.

Surveys aim to describe the population in relation to the specific variables under study.

Self-reported data from the respondents through mails, phones, the internet, and personal contact, mostly through the use of questionnaires and interviews are **surveys**.

For the purpose of determining the viability, of undertaking a business venture, establishing a project or institution, or constructing infrastructure, a **feasibility study** is used.

Correlational study examines the extent of the relationship between variables by determining how changes in one variable relate to changes in another.

Ethnography is the primary research tradition within **anthropology**, and provides a framework for studying the **patterns, lifeways and experiences of cultural group** in a holistic fashion.

Research

- **Secondary sources** include secondhand information, such as a description of an event by someone other than an eyewitness, or a textbook author's explanation of an event or theory.
- Researches cannot accept historical data at **face value**, since many diaries, memoirs, reposts, and testimonies are written to enhance the writer's position, stature, or importance.
- A mixed methods research's premise is that the use of **quantitative and qualitative** approaches in combination provides a better understanding of research problems than either approach alone.
- A **review of related literature** ensures that there will be no duplication of other studies.
- Concepts that provide a structure or pattern of organizing phenomena of interest in the practice of research is called a **conceptual paradigm**.
- Hypotheses are predictions of **expected outcomes**.
- **Discrete variables** have finite number of values between any two points representing discrete quantities.
- **Intervening variables** are factors that arise during the study that can influence the results.
- The **research design** is the overall plan, or the blueprint, created by the researcher to answer the research questions.
- In a **prospective design**, data were collected after the study was designed, but the study is pursued over a long period of time, continuing into the future.
- A **cross-sectional descriptive research** examines subjects at a given time after the research design is completed, and then gathers data on events occurring at that present time.
- An approach to discover the meaning of people's life experiences, giving perception of a particular phenomenon is known as **phenomenological research**.
- A **grounded-theory** research is an approach to the study of social processes, social structures, and the evolution of a social experience and psychological stages and phases that characterize a particular event or episode.
- If researchers are interested in learning why some children bully other children, an **explanatory research** is utilized.
- **Research** develops and evaluates alternative approaches to the educational aspects of any discipline.
- A characteristic of research which ensures that procedures followed to find answer to questions are relevant, appropriate, and justified is **rigor**.
- A **case study** involves a comprehensive and extensive examinations of a particular individual, group or situation over a period of time.

Research

- A quantitative research is a traditional, **positivist**, scientific method.
- One disadvantage of a cross-sectional research is that it **cannot capture the change process**.
- **Inferential statistics** provides a means for drawing conclusions about a population and given data from a sample.
- In a **participant observation**, the observer takes active part in the activities of the group being observed.
- **Pilot study** is a preliminary trial run or dry run of the major research. It is done in preparation for a larger study.
- **Validity** of research instrument refers to the degree to which an instrument measures what it is supposed to measure.
- **ANOVA** is used to test the significance of the difference between two or more means obtained from independent samples.
- In the case of children participants or other vulnerable members of society, consent must be given by the parents or **legal guardian or another person who has a direct, formal responsibility for the welfare of the child or other vulnerable participant**.
- The **textual method** of presenting data is best from small sets of data, but is usually not appropriate for bulky information with a lot of numerical figures.
- An instrument is said to be **reliable** if it consistently measures with accuracy, stability, and dependability the target attributes it is designed to measure.
- **Internal consistency** of a research instrument refers to the extent to which the items of an instrument measure the same trait or attribute and nothing else.
- **Observation** is the most direct means of studying the subjects when the researcher is interested in their behavior.
- A good hypothesis is usually founded on **established theories** or developed from the **results of previous research**.
- A **rating scale** is a checklist with an evaluation standard.
- Researchers must act **professionally** in the pursuit of truth.
- **Action research** is a disciplined process of inquiry conducted by and for those taking the action.
- Consumers of applied research findings are practitioners, such as **teachers, caseworkers, or decision makers**.
- The characteristic of a good research which ensures that any conclusion drawn is based upon hard evidence gathered from information collected from real life experience or observation is referred to as being **empirical**.

Research

- Written records, diaries, eyewitness' accounts, pictures, videos, and other physical evidences are classified as **primary sources** of data.
- Researchers who collect data at more than one point in time over an extended period utilize a **longitudinal design**.
- A **directional hypothesis** specifies not only the existence but also the expected direction of the relationship between variables.
- The quality, property or characteristic of the subject or object to be studied that can be quantitatively measured is referred to as the **variable**.
- **Pearson r** is the most common measure of correlation when the dependent variable and the independent variable belongs to the continuous scale of measurement.
- **Descriptive statistics** are used to summarize, organize, and simplify data.
- The **hypothesis** identifies the specific variables and their relationship.
- **Confidentiality** entails that any information participants provide will not be publicly reported in a manner that identifies them and will not be made accessible to others.
- **Independent variables** are the presumed cause of a phenomenon and are the ones manipulated by the researcher.
- **Dependent variables** are the presumed effect of a phenomenon and are the responses or the criterion measure.
- A **t-test** is otherwise known as t-ratio or t-distribution. It determines the significant difference of two given samples.
- In **spearman correlation**, the association between two ordinal variables does not rely on the assumption of normal distributed data.
- The **parameter** is the numerical measure for a population.
- In **qualitative research**, reality is not a fixed entity but rather a construction of individual participating in research.
- The goal of an **explanatory research** is to understand the underpinnings of specific natural phenomena and to explain systematic relationships among phenomena.
- A **chi-square** is a descriptive measure of the discrepancy values between observed frequency and expected frequency.
- The **theoretical framework** presents a theory that explains why a problem under study exists. It is the explanation of the connection between a theory and the problem.
- The **empirical phase** of the research process involves the development of a budget and seeking funds for the study.
- The **conceptual phase** of the research process involves specifying assumptions and limitations of the study and formulating hypothesis and research questions.

Learning Opportunities Shall Be Available

The Basic Education Learning Continuity Plan in the time of CoViD-19

Executive Summary

The global outbreak of the highly contagious new strain of coronavirus known as COVID-19, for which there is yet no vaccine, continues to pose unprecedented challenges. At this point, the biggest impact of COVID-19 arises from the need to practice stringent social or physical distancing to prevent or mitigate its spread. For the Department of Education (DepEd), this meant the cancellation of classes and other school activities for the remaining weeks of School Year (SY) 2019-2020, and that for SY 2020-2021, schools must find ways for learning to continue amidst the threat and uncertainties brought about by COVID-19, while ensuring the health, safety, and well-being of all learners, teachers, and personnel of the Department.

In the development of this Basic Education - Learning Continuity Plan (BE-LCP), inputs from different units and field offices of the Department, from the Philippine Forum for Inclusive Quality Basic Education or Educ Forum, and from the Chairpersons of the House and Senate Committees on Basic Education, Rep. Roman Romulo and Senator Sherwin Gatchalian, respectively, were gathered.

In the integration of inputs into the BE-LCP, the Office of the Secretary was guided by the following principles:

Protect the health, safety and well-being of learners, teachers, and personnel, and prevent the further transmission of COVID-19;

Ensure learning continuity through K-12 curriculum adjustments, alignment of learning materials, deployment of multiple learning delivery modalities, provision of corresponding training for teachers and school leaders, and proper orientation of parents or guardians of learners;

Facilitate the safe return of teaching and nonteaching personnel and learners to workplaces and schools, taking into consideration the scenarios projected by the Department of Health (DOH) and the Inter-Agency Task Force for the Management of Emerging Infectious Diseases in the Philippines (IATF), complemented by other credible sources, and balanced with DepEd's own risk assessments;

Be sensitive to equity considerations and concerns, and endeavor to address them the best we can; and

Link and bridge the BE-LCP to DepEd's pivot to quality and into the future of education, under the framework of Sulong EduKalidad and Futures Thinking in Education.

In developing the BE-LCP, the Department analyzed data on basic education as well as the epidemiological picture for the incoming school year, to make informed decisions. It is in this light that DepEd has set the opening of SY 2020-2021 on August 24, 2020, allowing enough time to undertake the necessary preparations for the extraordinarily challenging school year.

Appendix: Learning Continuity Plan

The key elements of the learning strategies that shall operationalize the BE-LCP are the streamlining of the K to 12 Curriculum into the Most Essential Learning Competencies (MELCs), and allowing of multiple learning delivery modalities such as distance learning and blended learning, either on top or in place of face-to-face learning. To help learners, parents, and teachers implement these learning delivery modalities, Self-Learning Modules (SLMs) shall be made available in print and offline/online digital formats, for use this incoming school year. DepEd shall also tap the materials developed by various partners and entities such as Southeast Asian Ministers of Education Organization Center for Innovation and Technology (SEAMEO-INNOTECH), BASA Pilipinas, Knowledge Channel, Frontlearners Inc., and the Commission on Higher Education (CHED), among many others.

The learning outcomes in the form of knowledge, skills, attitudes, and values will be assessed through a portfolio/e-portfolio to include written works and performances (and products), whether hardcopy, softcopy or a combination of these, and through summative tests as conditions allow. The administration of national examinations shall continue amidst COVID-19.

To prepare our teachers and school leaders for multiple learning delivery modalities, they shall be capacitated to implement the learning delivery system, consistent with DepEd's professional development framework and professional standards, and the transformation of the National Educators Academy of the Philippines (NEAP). They will be introduced to learning delivery modalities that they can readily utilize depending on community context and be provided with tools and mechanisms to inform their decision-making. To ensure the seamless transition of learning activities into formats appropriate to platforms and learning delivery modalities they will adopt, capacity building will be implemented beginning in June until July 2020. Support mechanisms shall also be established to provide teachers and school leaders access to on-demand technical and administrative advice and guidance.

Adjustments will also apply to the Alternative Learning System (ALS).

In operationalizing the BE-LCP, required health standards shall be enforced to reduce vulnerability, transmission, contact, and duration of the infection. DepEd shall ensure readiness of school facilities, learners, teaching and non-teaching personnel, school administrators, and the community in time for the school opening in August.

The BE-LCP has been designed with a legal framework responsive to the "new normal", keeping in mind the constitutional mandate to uphold the right of all citizens to quality education at all times. The Department also reviewed and assessed the programs, projects, and activities outlined in the plan and their corresponding budgetary implications. The available program funds are being maximized, reprogrammed, or realigned to the programs, projects, and activities that shall require more funding support. However, there is still a need to provide substantial and additional financial resources from known and potential sources of funds.

Communications shall play a major role in implementing the BE-LCP with the appreciation and support of our key stakeholders. Communications efforts shall be directed by the Central Office to ensure unified branding while still being anchored on grassroots contexts to make them responsive to localized needs. Synergy and coordination with national government media channels (Presidential Communications Operations Office/PCOO, DOH and IATF) shall also be ensured. The setting up of new media platforms, formation of Crisis Communications Management Team, and development of Public Health Information Protocols shall be the focus of these efforts anchored on the core principles of being proactive, cooperative, responsive, and highly engaged with the multiple publics of the Department.

Appendix: Learning Continuity Plan

Finally, a Monitoring & Evaluation framework tailored to the needs of learners during this emergency has been adopted to further guide the Department in its implementation of the BE-LCP.

The decision to open classes on August 24, 2020 was made in consideration of socio-economic factors, such as the need to: 1) avoid prolonged school disruption, which is associated with a range of social risks for the youth; 2) encourage education-related economic activity; and 3) resume school-managed support systems such as the School- Based Feeding Program, among others. On the other hand, we also anticipate that differences in socio-economic status, indicated by internet access at home and by readiness to engage in blended or distance learning, will affect the quality of learning during the roll-out of this learning continuity plan, and DepEd must address and mitigate these.

The Department also faces a number of security factors in these times of uncertainty, including the need to address the climate of fear among students, teachers, parents, and other stakeholders, to strengthen coordination and cooperation at national and local levels, and to mobilize partnerships and its broad constituency for support. Mechanisms such as the DepEd Task Force COVID-19 for quick monitoring and response, and the reconfigured Oplan Balik Eskwela and Brigada Eswkela, have been put in place to address these security concerns.

With a learner-oriented framework, the reforms articulated in the BE-LCP are aligned with the four pillars of Sulong Edukalidad: K to 12 curriculum review and update; improving the learning environment; teachers' upskilling and reskilling; and engagement of stakeholders for support and collaboration. These pillars shall be implemented with emphasis on INNOVATION, AGILITY, and SYNERGY. Sulong Edukalidad, BE-LCP, and the futures of the Philippine education are united by our goals for and with every learner: agency and self-actualization, work readiness, and responsible citizenship. Thus, it is important that the BE-LCP shall be guided by life-long, life-wide, life-deep, and life-wise learning principles.

The BE-LCP lays down the direction for basic education in the coming school year. Implementation specifics will be embodied in appropriate guidelines, rules or directives, and operationalized through programs, projects and activities.

DepEd has historically demonstrated resilience in responding to adversities and in delivering its commitments and responsibilities. Nonetheless, the implementation of the BE-LCP will not be easy. It is also not a perfect plan, and operational complications can be expected along the way. Thus, we seek the understanding, support, and solidarity of our DepEd family and all our stakeholders, in the true spirit of unity, and bayanihan or mutual help.

Appendix: Learning Continuity Plan

- While it is not as deadly as the Severe Acute Respiratory Syndrome or SARS⁴, it is more contagious as shown by the rapid growth of infection at the national and global level, and can still be fatal especially for the elderly and those with other underlying illnesses; and
- Because it is highly contagious, it presents serious challenges to the public health system in terms of detection, isolation, and treatment.

The initial government response to suspend classes, and later to impose community quarantine, disrupted classes first in the National Capital Region (NCR) beginning March 14, 2020, and later in the rest of Luzon and other localities outside Luzon.

While we were fortunate that the March class suspensions happened at the tail-end of the school year, the situation for the incoming school year will be much different. We now face uncertainties on whether schools will be allowed to open, and under what conditions.

In this time of threat, challenges, and uncertainties brought about by COVID-19, the directive of DepEd Secretary Leonor Magtolis Briones is to ensure the health, safety and welfare of all learners, teachers, and personnel of the department, while also finding ways for learning to continue.

This Basic Education Learning Continuity Plan (BE-LCP) responds to the directive of the Secretary and provides guidance to the department on how to deliver education in this time of crisis.

The BE-LCP lays down the direction for basic education in the coming school year. Implementation specifics will be embodied in appropriate guidelines, rules, or directives, and operationalized through programs, projects and activities.

Implementing the BE-LCP will not be easy. It is also not a perfect plan and operational complications can be expected along the way. Thus, we seek the understanding, support, and solidarity of our DepEd family and all our stakeholders in the true spirit of unity and bayanihan or mutual help.

Methodologies and Principles

DepEd embarked on the development of the BE-LCP to enable learners of basic education to continue learning, and for teachers to be able to deliver instruction in a safe work and learning environment amid the threat of COVID-19. The inputs of the different strands through their lead Undersecretaries and Assistant Secretaries, and of the different regions through their Regional Directors (RDs), were submitted to the Office of the Secretary (OSEC). In addition, the Philippine Forum for Inclusive Quality Basic Education or Educ Forum⁵ conducted consultations to generate their collective inputs. There was also a consultative meeting between members of the DepEd Executive Committee (ExeCom) and the chairpersons of the House and Senate Committees on Basic Education, Rep. Roman Romulo

⁴ Severe Acute Respiratory Syndrome or SARS is the disease caused by the SARS coronavirus (SARS-CoV), to which the COVID-19 virus is genetically related. SARS first infected humans in Guangdong, China in 2002, and led to an outbreak affecting 26 countries with more than 8,000 recorded cases by 2003.

⁵ The Philippine Forum for Inclusive Quality Basic Education, or Educ Forum, is a formation convened by DepEd consisting of DepEd and other government agencies relevant to basic education reform, and education partners including civil society organizations, education sector organizations, organizations and foundations coming from the private sector, and bilateral agencies and multilateral organizations. Educ Forum is a platform for consultation, collaborative research and analysis, and high-level advice to strategic basic education policy, planning and programming.

Appendix: Learning Continuity Plan

and Senator Sherwin Gatchalian, respectively. The process leveraged the internal talents and expertise of DepEd officials and personnel, as well as the expertise, rich experience, and resources of partners.

Within DepEd, the Curriculum and Instruction strand led by Undersecretary Diosdado San Antonio, the Administration strand (which is in charge of the DepEd Task Force on COVID-19) led by Undersecretary Alain Del Pascua, and the Planning strand led by Undersecretary Jesus Lorenzo Mateo, submitted major inputs. The RDs, through their inputs, emphasized the ground realities to be considered. Further consultations with RDs will be undertaken by Undersecretary Revsee Escobedo. The Finance strand led by Undersecretary Annalyn Sevilla, Legal strand led by Undersecretary Josephine Maribojoc, Brigada Eskwela led by Undersecretary Tonisito Umali, and the Alternative Learning System (ALS) led by Assistant Secretary G.H. Ambat also submitted inputs. A number of Central Office (CO) Directors gave direct inputs.

For its part, the Educ Forum members, after a meeting on April 13, 2020, organized themselves into five Sub-Groups for focused discussions (See Table 1. Sub-Group Themes). The Educ Forum expanded the participation in the sub-groups, to include interested non-Educ Forum members. The Educ Forum submitted its consolidated inputs to OSEC on April 27, 2020.

Table 1. *Educ Forum Sub-Group Themes.*

Sub-Group Themes	Objectives
Sub-Group 1: Data Analytics	Responsible for identifying and analyzing data and information that will be relevant in assessing the capacity of the basic education system, and the appropriate targeting of learners, teachers and school leaders, for the continuing delivery of learning in the context of the constraints and opportunities presented by COVID-19.
Sub-Group 2: Learning Strategies and Modalities	Responsible for identifying feasible and practical learning strategies and learning delivery modalities in the context of COVID 19.
Sub-Group 3: Capacity of Teachers and School Leaders	Responsible for assessing and identifying critical and timely interventions for capacitating teachers and school leaders in managing and facilitating learning through various learning delivery modalities and learning resources.
Sub-Group 4: Operational Plan	Responsible for identifying the operational plan and needs at various governance levels to implement the Learning Continuity Plan.
Sub-Group 5: Bridging to Sulong EduKalidad	Responsible for bridging and integrating the short term response with the medium and longer term education agenda for accessible quality education, within the framework of <i>Sulong EduKalidad</i> .

Appendix: Learning Continuity Plan

The task of consolidating all inputs into the BE-LECP was undertaken by OSEC, under the direction of the Secretary. The operational execution and integrative writing of the consolidation was led by Undersecretary Nepomuceno Malaluan as the Secretary's Chief of Staff, assisted by his team and in collaboration with the Planning Service led by Director Roger Masapol.

While the BE-LCP was being consolidated, updates were presented in several meetings of the ExeCom⁶ and the Management Committee (ManCom)⁷, where specific elements of the outline of the BE-ELCP were discussed. There is also an ongoing process for consolidating the needed budgetary adjustments arising from the BE-LCP. This process is led jointly by Undersecretary Annalyn Sevilla and Undersecretary Mateo, with the support of the Budget Hearing-Technical Working Group.

While all submitted inputs are supported by their respective data, relevant past studies, discussions, and experience of the contributors, OSEC also supplied further information based on documents from various inter-agency processes relating to COVID- 19, discussions in the ExeCom and ManCom meetings, and research.

In consolidating the inputs, we were guided by principles flowing from the directive of the Secretary, the objectives identified by the Response Plan of the Administration strand, overall government policies, and the reform agenda embodied under *Sulong EduKalidad*. These principles are:

1. Protect the health, safety, and well-being of learners, teachers and personnel, and prevent the further transmission of COVID-19;
2. Ensure learning continuity through K-12 curriculum adjustments, alignment of learning materials, deployment of multiple learning delivery modalities, provision of corresponding training for teachers and school leaders, and proper orientation of parents or guardians of learners;
3. Facilitate the safe return of teaching and non-teaching personnel and learners to workplaces and schools, taking into consideration the scenarios projected by the DOH and the Inter-Agency Task Force for the Management of Emerging Infectious Diseases in the Philippines (IATF), complemented by other credible sources, and balanced with DepEd's own risk assessments;
4. Be sensitive to equity considerations and concerns, and endeavor to address them the best we can; and
5. Link and bridge the BE-LCP to DepEd's pivot to quality and into the future of education, under the framework of *Sulong EduKalidad* and Futures Thinking in Education.

The DOH Risk Severity Grading is divided into Low, Moderate, and High based on a classification tool that takes into account the case doubling rate and critical care utilization rate. For Moderate and High severity gradings, schools are required to remain closed. For Low Risk severity grading, closure of schools is "Can Do," or optional. We take it that the option will be exercised by DepEd, based on its risk assessment and feasibility of risk mitigation and response measures (Table 2).

⁶ The Executive Committee or ExeCom of DepEd consists of the Secretary and all Undersecretaries and Assistant Secretaries.

⁷ The Management Committee or ManCom includes the Execom, all Central Office Bureau and Service Directors, and all Regional Directors of DepEd.

Appendix: Learning Continuity Plan

The task of consolidating all inputs into the BE-LECP was undertaken by OSEC, under the direction of the Secretary. The operational execution and integrative writing of the consolidation was led by Undersecretary Nepomuceno Malaluan as the Secretary's Chief of Staff, assisted by his team and in collaboration with the Planning Service led by Director Roger Masapol.

While the BE-LCP was being consolidated, updates were presented in several meetings of the ExeCom⁶ and the Management Committee (ManCom)⁷, where specific elements of the outline of the BE-ELCP were discussed. There is also an ongoing process for consolidating the needed budgetary adjustments arising from the BE-LCP. This process is led jointly by Undersecretary Annalyn Sevilla and Undersecretary Mateo, with the support of the Budget Hearing-Technical Working Group.

While all submitted inputs are supported by their respective data, relevant past studies, discussions, and experience of the contributors, OSEC also supplied further information based on documents from various inter-agency processes relating to COVID- 19, discussions in the ExeCom and ManCom meetings, and research.

In consolidating the inputs, we were guided by principles flowing from the directive of the Secretary, the objectives identified by the Response Plan of the Administration strand, overall government policies, and the reform agenda embodied under *Sulong EduKalidad*. These principles are:

1. Protect the health, safety, and well-being of learners, teachers and personnel, and prevent the further transmission of COVID-19;
2. Ensure learning continuity through K-12 curriculum adjustments, alignment of learning materials, deployment of multiple learning delivery modalities, provision of corresponding training for teachers and school leaders, and proper orientation of parents or guardians of learners;
3. Facilitate the safe return of teaching and non-teaching personnel and learners to workplaces and schools, taking into consideration the scenarios projected by the DOH and the Inter-Agency Task Force for the Management of Emerging Infectious Diseases in the Philippines (IATF), complemented by other credible sources, and balanced with DepEd's own risk assessments;
4. Be sensitive to equity considerations and concerns, and endeavor to address them the best we can; and
5. Link and bridge the BE-LCP to DepEd's pivot to quality and into the future of education, under the framework of *Sulong EduKalidad* and Futures Thinking in Education.

Appendix: Learning Continuity Plan

DepEd's Readiness for Distance Learning.

Given the epidemiological picture, the direction of overall government response, and the directive of the Secretary to find ways for learning to continue in a safe and healthy environment amid COVID-19, it is clear that distance learning will be a key modality of learning delivery in the incoming school year.

Technology solutions are very important in distance learning. Online platforms are regarded to be the most advanced because of its ability to facilitate various interactive and remote activities and carry a broad range of content to a connected community.

On this aspect, one obvious limitation lies in the current stage of development of the Information and Communications Technology (ICT) infrastructure. In the Global Connectivity Index published by Huawei, which annually ranks 79 nations based on factors including ICT investment, ICT maturity, and digital economic performance, the Philippines ranked 59th and is categorized as a "Starter." Meanwhile, on the side of the end-user there is the question of access to the platform and the availability of the appropriate gadgets.

Within the public school system, there are 1,042,575 devices (desktops, laptops, tablets) that are distributed across 44,155 or 93 percent of schools. Among these devices, 459,578 are laptops/tablets that may be brought home, which represents only 2 percent of total learners in the public schools. Some 22,645 or 48 percent of public schools have internet connections. Another 8,478 or 18 percent of public schools are located in areas with Internet Service Providers, but they have not yet connected.

DepEd's Information and Communications Technology Service (ICTS) has summarized some of the critical challenges that we face, as well as the updates on ongoing initiatives, in relation to distance learning technologies:

- Access to the internet is a major limiting factor to online learning. This can be mitigated by loading digital materials into the devices of learners.
- Teachers would have to be trained in the use of technology for learning delivery. DepEd has already conducted two online training programs this year with 17,000 participants each on the use of technology in teaching. This will be expanded, but there are teachers with limited knowledge in ICT, as well as with no internet access.
- Early grade levels need to be closely supervised by parents in the use of technology. Orienting the parents will be a major challenge, and there are questions as to whether parents are ready to take on this role.
- Senior high school vocational tracks have classes that require hands-on sessions in laboratories that may not be applicable in home-based approaches even with technology.
- DepEd has migrated its systems into Cloud Servers that can be scaled up to meet the increasing demand for technology-based education.

School Calendar and Activities

After consultations and internal discussions, DepEd has reached a decision to set the opening of SY 2020-2021 on August 24, 2020. However, the days in August prior to the formal school opening will be used to orient learners on the utilization of alternative learning delivery modalities and corresponding learners' materials, and mental health and psychosocial support activities. These pre-opening activities devoted to the attainment of the learning objectives for the school year shall be counted as part of the class days. The school year will end on April 30, 2021.

We emphasize that the school opening will not necessarily mean traditional face-to-face learning in the classroom. As indicated in the previous section, the physical opening of schools will depend on the risk severity grading of a locality. Even in areas where schools are allowed to open, physical distancing will still be required, which will necessitate schools to combine face-to-face learning with distance learning, or blended learning.

Schools shall conduct enrollment from June 1 to 30, 2020 for all learners intending to attend SY 2020-2021. Those who have enrolled during the early registration period will have to enroll again, given that circumstances have changed substantially. It is important to validate the enrollment, so that teachers and schools are able to adequately plan the organization of their learners into classes, taking into consideration their particular circumstances. The enrollment may be done electronically or in printed format. The enrollees and their parents or guardians have to accomplish an enrollment and survey form that will collect important data and information for the contextualization of the learning delivery strategies and modalities.

The push back in the formal school opening by nearly three months from the traditional first Monday of June is intended to afford DepEd enough time to undertake the necessary preparations in what will be an extraordinarily challenging school year. For this purpose, teachers shall start rendering service on June 1, 2020. They will attend orientation and training activities on the use of the multiple learning delivery modalities, prepare instructional materials, and plan the organization of classes in consideration of the learning delivery modalities to be employed. If a skeleton workforce will still be the operative government guideline by June, DepEd shall issue the appropriate alternative work arrangements guidelines to the field to comply with prevailing policy and to ensure a safe work environment.

Because of the shortened school year, the Secretary is exercising her prerogative to authorize distance learning activities on Saturdays. Overall, the total class days in this year's school calendar and activities will be 203 days.

Curricular and co-curricular activities that involve gathering of larger number of learners, such as science fairs, showcase of portfolios, trade fairs, school sports, campus journalism, festival of talents, job fairs, career orientation, and other similar activities are cancelled for the school year, except for those that can be conducted through online platforms.

The conduct of activities related to *Palarong Pambansa* shall be decided separately by the *Palarong Pambansa* Board.

Given the differing circumstances and capacities of learners and households to cope with the new modalities of learning, we anticipate that there will be more learners that may be left behind. Thus, efforts to provide remediation and enhancement activities shall also be given more attention.

Appendix: Learning Continuity Plan

only something emergency happen

Private schools will be allowed to open classes within the period authorized by law, which is on the first Monday of June, but not later than the last day of August. However, no face-to-face classes will be allowed earlier than August 24, 2020, and from then on only in areas where schools are allowed to open physically. The private schools will also submit their respective Learning Continuity Plan and compliance to required health standards that will be issued by DepEd, consistent with guidelines from the DOH, the IATF, or the Office of the President.

Learning Strategies and Modalities

Major adjustments are being made at the central and field levels to enable DepEd to deliver distance learning at a magnitude never done before. While the task is daunting, it also compels the Department to implement innovations already being done by DepEd and by its education partners, just on a larger scale. Thus, we are not really starting from scratch.

tending to make people a-fraid or less confident: very

To force someone
This section describes the key elements of the learning strategies learning delivery modalities and that will operationalize the BE-LCP. Some of these constitute parameters, while others are intended to be options and resources that our field units from the regions, divisions, and schools can deploy, taking into consideration their respective conditions and realities on the ground.

emergency
These are work in progress, for refinement and fleshing out in the run-up to the formal school opening, and during the school year itself.

Streamlining the K to 12 Curriculum into the Most Essential Learning Competencies

the design / to make effective / simplify
The DepEd Curriculum and Instruction strand, through the Bureau of Curriculum Development, has identified within the full K to 12 curriculum the Most Essential Learning Competencies (MELCs). This has streamlined the total number of competencies in all learning areas from Kindergarten to Grade 12 (excluding the technical-vocational-livelihood/TVL specializations in Senior High School) to 5,689 from the original 14,171 or a reduction by 60 percent.

to put in order / organize

Source: DepEd

Appendix: Learning Continuity Plan

By streamlining the learning competencies to the most essential, we will be able to focus more on the learning activities and resources, while having sufficient time for coverage and mastery.

The identification of the MELCs is not only in response to the challenge of delivering learning in the time of COVID-19 but is actually the accelerated result of the curriculum review that the Secretary has directed as early as two years ago. It responds to the findings that there are overlaps and congestion in the curriculum. The review involved bureau specialists, academic experts, and field implementers working collaboratively and employing consensus judgment. A key partner in the review, which remains ongoing and will still be refined and finalized beyond the COVID-19 period, is the Assessment Curriculum and Technology Research Centre (ACTRC).

The MELCs are defined as the competencies that a learner needs in order to continue to subsequent grades, and ultimately to have a successful life. The characteristics of the MELCs are:

1. It is aligned with national standards or frameworks, such as, for example, "holistic Filipino learners with 21st Century skills."
2. They connect the content to higher concepts across content areas.
3. They are applicable to real-life situations.
4. They are important for students to acquire, even if a student drops out from school.
5. They cannot be expected to be ordinarily learned by students if not taught in school.

A word that may describe an essential learning competency is "endurance," that is, it remains with learners long after a test or unit of study is completed, or it remains useful beyond a single test or unit of study. Examples of such learning competencies include research skills, reading comprehension, writing, map reading, and hypothesis testing, which are essential in many professions and in everyday life.

Releasing the MELCs does not necessarily replace the use of the curriculum guides (CGs). Rather, these serve as a supplementary guide for teachers as they address the instructional needs of learners.

Finally, field implementers are encouraged to contextualize the MELCs in order to accommodate the varying contexts of learners, teachers, learning environment, and support structures considering both the content and performance standards. With these, Filipino learners are guaranteed relevant and quality basic education amidst COVID-19.

There shall be a follow-up issuance to further explain how the MELCs should be used, and to clarify its status in relation to the ongoing broader K to 12 curriculum review.

Learning Delivery Modalities

feasibility or state of being / contingency

The learning delivery modalities that schools can adopt may be one or a combination of the following, depending on the COVID-19 restrictions and the particular context of the learners in the school or locality.

1. **Face-to-face.** This refers to a learning delivery modality where the students and the teacher are both physically present in the classroom, and there are opportunities for active engagement, immediate feedback, and socio-emotional development of learners.

In areas under the Moderate and High-risk severity grading, this is not possible. However, there are learners with disabilities whose conditions require face-to-face instruction. This will be the subject of further discussion within DepEd, with partners, and with parents.

Face-to-face option may also be feasible in very low risk areas such as the geographically isolated, disadvantaged, and conflict affected areas (GIDCA) with no history of infection and with easily monitored external contacts, but with teachers and learners living in the vicinity of the school.

Any face-to-face learning delivery must have proper risk assessment and must adhere to the health protocols in place. Potential learning spaces in the community near the school may be explored to add spaces for the conduct of classes with the appropriate social distancing.

2. **Distance learning.** This refers to a learning delivery modality where learning takes place between the teacher and the learners who are geographically remote from each other during instruction. This modality has three types: Modular Distance Learning (MDL), Online Distance Learning (ODL), and television (TV)/Radio-Based Instruction.

Modular Distance Learning involves individualized instruction that allows learners to use SLMs in print or digital format, whichever is applicable in the context of the learner, and other learning resources like learner's materials, textbooks, activity sheets, study guides, and other study materials. Learners access electronic copies of learning materials on a personal computer (PC), tablet PC, or smartphone. CDs, DVDs, USB storage, and computer-based applications can all be used to deliver e-learning materials, including offline e-books. The teacher takes the responsibility of monitoring the progress of the learners. The learners may ask assistance from the teacher via email, telephone, text message/instant messaging, etc. Where possible, the teacher shall do home visits to learners needing remediation or assistance. Any member of the family or other stakeholders in the community need to serve as para-teachers.

Online Distance Learning features the teacher as facilitator, engaging learners' active participation through the use of various technologies accessed through the internet while they are geographically remote from each other during instruction. The internet is used to facilitate learner-teacher and peer-to-peer communication. Online learning allows live synchronous instruction. It requires participants to have a good and stable internet connection. It is more interactive than the other types of distance learning and the responses are in real-time. The learners may download materials from the internet, complete and submit assignments online, and attend webinars and

virtual classes. This is practiced effectively by using a Learning Management System or related technologies. The DepEd Commons and DepEd Learning Resource (LR) Portal fall in this category.

TV/Radio-Based Instruction utilizes SLMs converted to video lessons for Television-Based Instruction and SLMs converted to radio scripts for Radio-Based Instruction.

Distance learning modality is most *capable of being done with available* viable for independent learners, and learners supported by periodic supervision of parents or guardians.

The challenge will be in dealing with learners not capable of independent learning. This is the subject of further discussion within DepEd, and with partners and parents.

3. **Blended Learning.** This refers to a learning delivery that combines face-to-face with any or a mix of online distance learning, modular distance learning, and TV/Radio-based Instruction. Blended learning will enable the schools to limit face-to-face learning, ensure social distancing, and decrease the volume of people outside the home at any given time.

Critical for implementation will be the production of the needed teacher's and learner's learning materials (DepEd LR Portal and DepEd Commons will be maximized), as well as the support of media institutions like TV and radio stations.

4. **Homeschooling.** This is an ADM that aims to provide learners with quality basic education that is facilitated by qualified parents, guardians, or tutors who have undergone relevant training in a home-based environment. It allows families to educate according to their personal faith, philosophy, and values, and to adjust learning schedules around family schedules and circumstances. However, there remain several issues in its implementation, including the supervision of licensed teachers and alignments with the curriculum. Thus, this modality will be the subject of a later DepEd issuance before its expansion.

Curriculum and Instruction strand has identified some of the factors that need to be considered in order to determine the learning delivery options:

- **Risk Severity Grading/IATF Policy**
 1. Whether teachers and learners are allowed to be in school
 2. Physical distancing
- **School Context**
 1. Health status of teachers
 2. Readiness of principals and supervisors to lead and manage multiple learning delivery modalities
 3. Availability of learning resources/materials: Textbooks/print modules; offline learning resources; online learning resources; educational TV and radio broadcast resources
 4. Teachers' readiness and capacity to facilitate multiple learning delivery modalities
- **Learners' Context**
 1. Capacity to complete self-directed learning resources
 2. Access to learning resources and technology
 3. Parental, home, and community support

Appendix: Learning Continuity Plan

4. Capacity to guide learners in understanding lessons

Learning Resources

In addition to the textbooks distributed to the schools, SLMs shall be made available in print and digital format (PDF Flat and Interactive) for use this incoming school year. They will be converted to inclusive interactive e-books where videos, audio and even sign language interpretations can be embedded to respond to the needs of the children with disabilities.

SLMs in PDF Flat shall be uploaded to the DepEd LR Portal while the SLMs in digital interactive, inclusive e-books, and video lessons shall be uploaded to DepEd Commons. SLMs will also be converted to video-taped lessons and radio scripts for radio-based instructions.

Based on the ongoing inventory by the Bureau of Learning Resources of print, digital offline and online materials, and educational videos, DepEd presently has the following:

Grade Level	List of Materials
Kindergarten	Kindergarten to Grade 3 - story books through Competition Writing, Kindergarten Activity Sheets, ADM K Learning Kit
Grade 1 to 3	Primer Lessons for Grade 1, Story books through Competition Writing, Grade 1 English - Activity Sheets, Learning Materials (LMs) and Teacher's Guides (TGs)
Grade 4 to 6	LMs & TGs for Grade 4, Teacher's Manuals (TMs) and Textbook (TXs) for Grades 5 & 6
Grade 7 to 10	TXs & TMs, TGs and LMs
Grade 11 to 12	TXs & TMs, LMs & TGs, Readers, Manuals, PRIMALS PLUS Self-Learning Modules for Core Subjects

- Self-learning modules for ADM crafted by all regions from Kindergarten to Grade 12 core subjects plus applied subjects covering all essential learning competencies
- Self-learning modules for SHS core learning areas developed under PRIMALS Plus. The Bureau of Learning Delivery is also working on the development of modules for applied subjects and specialized subjects.

- 2016 Grade 5 buffer materials for all learning areas. There are activity sheets based on the CG. *Data in computer*

- 2017 Grade 6 activity sheets for all learning areas. *a speech or movie or piece of writing about*
- *Balik Kasaysayan* lesson exemplars and *travelogues* developed by different *regions* *experiences*

- Multi-grade self-instructional tools for learners available in multi-grade schools.

Appendix: Learning Continuity Plan

For Kindergarten to Grade 3

- ADM learning modules for K (Kindergarten Learning Experiences -KCEP Module) to Grade 3. It includes modules in digital format, video lessons, modules in audio format (interactive), interactive songs, poems, rhymes in different languages, manipulative materials on literacy and numeracy content like puzzles, forming words, lacing, tracing, etc.
- Primer lessons in 19 languages.
- Primer lessons for Grade 1 (TG, LM, Formative Assessment Tool/FAT) for teaching beginning reading in the mother tongue to be made available in print, digital (available in DepEd LR portal), and audio format. This should be accompanied by big books and small books in digital and audio format with consideration to the mother tongue of the learners to develop and enhance the learner's skills in beginning reading in mother tongue.
- Primer lessons for Grades 2 and 3 (TG and LM) to be made available in print (Primer Grade 2-for finalization, Primer Grade 3-for development for 2020), digital, and audio format as bridging materials for smooth transition in reading from L1 (mother tongue), to L2 (Filipino) then L3 (English). This should be accompanied by big books and small books in digital and audio format with consideration to the mother tongue of the learners.

During our scan of existing learning resources, we have also found a body of learning resources across various distance learning approaches and platforms developed by non-DepEd entities. DepEd will explore ways to deploy a number of these resources, subject to content evaluation and through arrangements consistent with existing laws, rules, and regulations.

Strategies for Kindergarten to Grade 3

The early-grade learners (K to 3 stage) are the most vulnerable to inaccessibility to education. They rely heavily on the guidance of adults as caregivers and as facilitators of learning. The delivery of instruction for them should be anchored on the principles of developmentally-appropriate practices: age-appropriate, individually appropriate, and socio-culturally appropriate.

Since early grades learners need adult guidance, a combination of face-to-face learning delivery with the teacher and modular learning at home may be employed. For modular learning at home, the guidance of trained para-teachers is required. They must be trained on the content and delivery of instruction before implementation to properly and appropriately deliver the instruction. A Facilitator's Guide shall be made available to para-teachers.

Adaptations for Learners with Disabilities

Adaptations, such as (close) captioning, transcribing to braille, sign-language interpretation, or providing different format options, shall also be considered for learners with disabilities. Materials for learners such as, but not limited to, SLMs and other print materials; TV clips/videos; and online materials can be designed to be accessible to learners with hearing, visual, and/or any other impairments.

to make written copy / write d system of writi
people
letters and do
presented.

Appendix: Learning Continuity Plan

Assessment

The learning outcomes in the form of knowledge, skills, attitudes, and values will be assessed. Learners shall prepare their portfolio/e-portfolio to include written works, and performances (and products), whether hardcopy, softcopy, or a combination of both. The portfolio/e-portfolio content will be assessed using rubrics that capture the evidence of learning. Testimonies of parents and other adults including community leaders aside from teachers may also be considered in the assessment.

Where face-to-face learning and blended learning is possible, summative tests will be administered in school. For learners who are on distance learning, summative tests may be administered when physical classes shall be allowed in their respective areas.

National examinations are a necessary part of quality assurance, and provide important feedback on the system's performance as regards curricular reforms, professional development of teachers and educational leaders, provision of financial resources and learning materials, and student's learning outcome. Thus, the administration of national examinations shall continue amidst COVID-19.

DepEd shall issue specific guidelines on assessments taking into consideration the physical limitations imposed by COVID-19.

Alternative Learning System (ALS)

The overall goal of the learning continuity plan for ALS is to sustain the gains of the Duterte administration in the delivery of quality and relevant second chance basic education programs for out-of-school youth and adults while ensuring the health and safety of both learners and teachers during the COVID-19 pandemic and in the transition to the "new normal."

Curriculum. The ALS K to 12 curriculum will be further enriched, and made relevant to address cross-cutting and emerging issues. The learning goals (outlined in the individual learning agreement) and the recognized prior learning of an ALS student will determine the competencies in the ALS curriculum that will be given focus in learning activities and the amount of time needed for coverage and mastery.

Training programs that will be relevant as we move forward post-COVID, such as entrepreneurship in Industry 4.0, digital citizenship, health promotion, and agribusiness will be made available.

Learning delivery options. Inclusiveness in existing learning delivery modalities will be strengthened so that more women, persons with disabilities (PWDs), and members of Indigenous Peoples (IP) and marginalized communities are reached. To address the issue of social distancing and limited learner access to internet (which limits possibilities for online instruction), ALS teachers shall be encouraged to utilize the following options for the continuance of ALS learning interventions:

1. Blended approach for advanced Elementary and Secondary level learners
 - The existing modules for the advanced Elementary and Secondary levels are instructionally designed to support self-learning, e.g. they are grouped into manageable lessons with pre- and post-tests, have self-directed learning activities, and are written in conversational/interactive style. These modules can serve as the primary source of content delivery. Other

available materials can also be used for supplemental learning. Learners can report to the Community Learning Center (CLC) on an agreed staggered schedule to pick up copies of modules, which they can study independently throughout the week. During their weekly CLC visit, they shall return completed modules for use by other learners. ALS teachers will need to devise a modified library system to manage the borrowing of modules by learners.

- The ALS teachers' task is to design weekly learning plans/agreements with their individual learners. The existing Individual Learning Agreement (ILA) template can be used for this purpose. The agreement shall cover specific learning objectives for the week and identify the modules and resources to be accessed, e.g. work sheets, radio, TV, internet, and other learning activities that can support attainment of these learning goals.
 - The ALS teachers shall assign weekly assessment tasks for evaluating their learning progress. The module post-tests can be used for this purpose and supplemented by other teacher-made assessments. The module post-tests can be supervised by the ALS teacher during their weekly CLC visit, or by parents, peer learners, or learners' siblings. It is important for learners to practice their writing and higher order thinking skills. To achieve this, ALS teachers can send questions via text message or other messaging platforms that learners can answer. Learners will be given writing tasks on the modules and should be encouraged to submit a weekly written learning reflection. The writing tasks are expected to train learners to practice higher order thinking skills, as they document the new knowledge and skills they have gained, the learning challenges they faced, and what parts of the module they did not fully understand and need additional help for from their teacher. These reflection papers and other learning outputs should be discussed with the ALS teacher during the weekly CLC visit.
 - During the week, ALS teachers may provide remote learning support by answering queries, giving feedback, and providing socio-emotional support to learners through social media platforms.
 - Peer learning can also be introduced. Learners can organize online or social media groups. If learners live near each other, and their LGU allows small gatherings, they could meet in pairs/triads to discuss their learning activities.
 - The working folder/portfolio will continue to play a very important role in ALS. The teacher will review the portfolio outputs, learning journal/notebook entries, and reflection papers with individual students and agree on the following week's learning contract deliverables and learning strategies.
2. Face-to-face learning sessions for lower elementary and basic literacy level learners
- Basic literacy and lower elementary level learners need more face-to-face facilitator-aided support than advanced elementary and secondary ALS learners. It is difficult to provide this learning support remotely given the weak literacy skills of BL and LE level learners. ALS teachers who wish to continue offering basic literacy and lower elementary A&E classes will have to conduct these face-to-face learning sessions on an agreed schedule with

learners in an appropriate learning environment.

- ALS teachers will need to prepare a class program, and set a maximum number of learners per session that complies with the physical distancing requirements.
 - If the learning center/location is too small to accommodate all learners, the class may be divided into sub-groups with different schedules.
3. Radio-based instruction (RBI) or broadcast of ALS *"Ibang Klase"* TV episodes from Knowledge Channel
- For RBI, DepEd has developed some audio materials and scripts that ALS teachers can access, download, and store. ALS teachers are also encouraged to develop their own radio scripts based on the ALS K to 12 Basic Education Curriculum (BEC) to be quality-assured by the Schools Division ALS focal person and learning resource supervisor. They would then need to coordinate with their local community radio to secure airtime for broadcast of radio-based materials.
 - TV, such as the Knowledge Channel, may be a source of supplemental learning given the lack of internet access in some areas. Knowledge Channel videos can also be downloaded for free from their website. Some of these videos have accompanying lesson guides.
4. Online learning for learners with gadgets and access to the internet
- Learners with ICT equipment such as computers, mobile phones/tablets, and other digital devices, and have access to the internet can continue learning through the DepEd Commons, DepEd LR Portal, the ICT4ALS application developed by UNICEF with DepEd ALS teachers, and the *AralMuna* application. DepEd Commons can be accessed for free through Smart and Globe networks.
 - ALS teachers can also save the soft copies of ALS modules in the mobile phones or mobile devices of their learners, if available or when circumstances allow.
 - With support from partners, innovations will be introduced to update and improve the DepEd learning resource portals while also securing the integrity of online assessments.

Assessment. For the conduct of Accreditation and Equivalency (A&E) test, the Bureau of Education Assessment shall release further guidance on its administration. To better prepare the ALS learners in the A&E test, the ALS Task Force has developed an A&E readiness test to be administered in CLCs or an agreed venue by the ALS Teachers and learners. A memorandum shall be issued on the details of said test.

Teacher training and support. A series of capacity building workshops shall be rolled out for DepEd field officials and ALS teachers on how to implement ALS 2.0 during emergencies, and in the "new normal." In preparation for the school opening, ALS implementers will be trained on the following topics: ILA/contract-based learning; portfolio assessment; setting up and supporting peer learning and peer assessment; parental/familial engagement strategies to support learning; use of technology for learning support; ALS—Learning Action Cells; and instructional mentoring/coaching.

Appendix: Learning Continuity Plan

Learners' support. For the learners, guidance and career support services shall be introduced to help address academic and psychological issues affecting learning. Such services will help prepare learners for their options after undergoing ALS, specifically in their transition to employment, self-employment, entrepreneurship, or continuing education.

Learning environment. It is proposed that ALS learners use existing formal school facilities not only to ensure that social distancing protocols are observed, but also to provide access to WASH facilities for ALS learners. For CLCs that will still be used, disinfecting and sanitizing products should be provided.

Establishing a Committee for the Development, Acquisition, and Deployment of Learning Resources

Because sources of learning materials and platforms are vastly diverse, a committee led by the Curriculum and Instruction Strand, with representations from the OSEC, Legal, Administration, Procurement, Field Operations, and Finance strands shall be constituted to develop a transparent and responsive process for the development, evaluation, selection, acquisition, and deployment of various learning resources and platforms.

Preparing Our Teachers and School Leaders for Multiple Learning Delivery Modalities

Amidst the COVID-19 pandemic and its concomitant challenges, DepEd, through the National Educators Academy of the Philippines (NEAP), affirms its commitment to providing and supporting the professional development of teachers and school leaders.

Our teachers and school leaders shall be capacitated to implement and manage the adoption of multi-modal learning delivery models based on their technology resources map, readiness assessment results, and implementation plans. They will be introduced to a range of delivery modalities they can utilize depending on the context of their community and the situation of learners and teachers. Tools and mechanisms will also be provided for them to make informed decisions on appropriate learning delivery mode for their context. Context includes geographical conditions, access to delivery platforms (i.e. online, broadcast technology, and modules), readiness of learners, teachers and household and community partners, and other relevant factors.

The capacity building programs, to be implemented starting June 2020, will address the curriculum requirements in terms of essential learning competencies and content as well as pedagogy and assessment. These will complement the learning resources already available through the DepEd LR Portal, DepEd Commons, and other LR portals and resources that may be made available by education partners. Given the challenges posed by the COVID-19 pandemic not only to the physical, but also to the mental health of both learners and teachers, capacity building will also include support for teachers so they can debrief their classes about their experience on the public health crisis, and also set fair expectations on how learning will take place with the "new normal."

There will also be efforts to train teachers in identifying and assisting children under vulnerable conditions, and in protecting them from violence and harm in the various contexts of the school, home as school, and the cyber world. These children include victims or at risk of child abuse and bullying, children under conflict-afflicted areas, children in disaster-prone areas, gifted children, and other learners at risk of learning discontinuity because of socio-economic factors, among others. Proper attention must be given to these learners, as under normal conditions they already face enough, limiting their ability to catch up with the other

Appendix: Learning Continuity Plan

students. Otherwise, students with learning disabilities may lag further behind the rest of the learner population. These strategies shall ensure that teachers can seamlessly transition their learning activities into formats that are appropriate to the platforms and modalities that they will adopt and implement.

The capacity building intervention shall also be differentiated in consideration of the level of risk in the area, and the COVID-19 response adopted based on the epidemiological picture. Thus, the intervention delivery shall adopt a multi-modal approach that leverages accessible technology, resources, and capacities of the education system, as well as client-readiness to undertake the process of capacity building. Rapid survey on the physical readiness of teachers, school leaders, and households for remote learning through the SDOs and Regional Offices (ROs) shall be conducted ahead of finalizing the arrangements for capacity building programs.

Moreover, a support mechanism shall be established for teachers and school leaders, including supervisors, to have access to relevant on-demand technical and administrative advice and guidance. This will come in the form of functional helpdesk, coaching, professional learning community through the learning action cell (LAC), resource materials, and other forms of support that can be made available in real or virtual platforms/set-up. Monitoring of course implementation, and identification of areas of improvement and best practices will also be conducted.

In line with the fourth pillar of *Sulong EduKalidad* which is to increase the engagement of stakeholders for support and collaboration, DepEd, through the issuance of DM No. 048, s. 2020, called for proposals for professional development programs and courses from both DepEd units and non-DepEd Learning Service Providers. This opens to non-DepEd learning service providers the opportunity to contribute to the education of our children. DepEd also issued DM No. 050, s. 2020 which provided professional development priorities for teachers and school leaders for the school year 2020-2023, which includes training programs in light of COVID-19 for the incoming school year.

OPERATIONALIZING THE LEARNING CONTINUITY PLAN

Required Health Standards

In accordance with the DOH *Guidelines on the Risk-Based Public Health Standards for COVID-19 Mitigation* (DOH AO No. 2020-0015), DepEd will issue guidelines on its Required Health Standards for the adoption and guidance of all public and private schools and DepEd offices. This will cover the four COVID-19 mitigation objectives identified by the DOH, namely:

1. Increase physical and mental resilience
2. Reduce transmission
3. Reduce contact
4. Reduce duration of infection

Additional references also guide the development of the DepEd required health standards, such as:

- Centers for Disease Control and Prevention *Interim Guidance for Administrators of US K-12 Schools and Child Care Programs to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19)* (2020)¹¹, which provides recommendations for a holistic approach to required health standards. A holistic approach should

¹¹ <https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/guidance-for-schools-h.pdf>

include a communication strategy, community engagement, and health protocols that should be adopted by schools. It also details actions to be taken in situations where there is community transmission, among others.

- United Nations Educational, Scientific and Cultural Organization (UNESCO) International Institute for Educational Planning (IIEP): *Plan for school reopening (2020)* highlights the need for communities to trust in the health and safety measures which shall guarantee the well-being of the learners, teachers, and staff in schools. Infrastructure, finance, and human resources all play a role in ensuring the implementation of necessary safety protocols.
- Johns Hopkins Bloomberg School of Public Health, Center for Health Security, *Public Health Principles for a Phased Reopening During COVID-19: Guidance for Governors (2020)*¹² provides a breakdown of risks involved in various settings, including schools.
- UNESCO/UNICEF/World Bank/World Food Programme: *Framework for Reopening Schools (2020)* highlights six strategies in operationalizing the opening of schools. The framework reiterates that policy and financing serve as support to safe operations, learning especially among the most marginalized, and well-being and protection. In this case, the required health standards are created to promote the well-being and protection of DepEd learners, teachers, and staff.

Increase physical and mental resilience. According to UNESCO, COVID-19 has not only disrupted essential school-based services but has also been a source of stress and anxiety to learners due to loss of peer interaction and disrupted routines. It is essential to re-establish the regular and safe delivery of services such as school feeding, mental health, and psychosocial support in the coming school year.

As an intervention for increasing the physical resilience of learners, the Department intends to strengthen its implementation of the *School Based Feeding Program* to severely wasted and wasted learners, as well as of DepEd Order (DO) No. 13, s. 2017 (*Policy and Guidelines on Healthy Food and Beverage Choices in Schools and in DepEd Offices*). In order to ensure adequate nutrition and diets in the time of COVID-19, schools and offices are to provide advocacy and instruction on health education and nutrition.

The DepEd required health standards shall put strong emphasis on the need to protect and promote the mental health and general welfare of all learners and DepEd personnel across all risk severity gradings. Mental health interventions that increase resilience include mental health and psychosocial support, such as psychological first aid (PFA), in-house counseling sessions, online counseling, and support groups. Learners in particular shall be given PFA within the first month of the resumption of classes.

Reduce transmission. Given that the virus has not yet been fully contained, DepEd shall ensure that its facilities are ready to receive students and personnel, and that they follow stringent social distancing measures as well as strengthen programs promoting hygiene. Compliance to the standards set in DO No. 10, s. 2016 titled *Policy and Guidelines for the Comprehensive Water, Sanitation, and Hygiene in Schools (WINS) Program* shall be strictly observed. Though the program has been targeted for schools, the same standards shall be applied in the offices, such as provision of adequate clean water and soap for handwashing as well as alcohol or sanitizers. In addition to the current programs in place,

https://www.centerforhealthsecurity.org/our-work/pubs_archive/pubs-pdfs/2020/200417-reopening-guidance-governors.pdf

the following measures shall also be implemented:

- There shall be designated isolation areas, aligned with the standards set by DOH, for school and offices
- All students, teachers, and personnel who will be entering the school/office premises shall use cloth masks
- Regular disinfection of schools and offices shall be conducted
- Teachers shall regularly and closely monitor the health of their students
- Students, teachers, and personnel who will be detected as having respiratory symptoms shall not be allowed in schools/offices.

These health and safety standards shall not only be observed in schools and offices, but during travel and in their private activities as well to reduce risk of exposure and transmission.

Reduce contact. As already set through DepEd Task Force COVID-19 (DTFC) Memorandum No. 025 s.2020 and other related issuances, DepEd shall continue to implement strict physical distancing at Central and Field Offices. Non-essential travel and activities will be limited. In addition, temporary barriers will be installed between cubicles.

There shall be restrictions on mass gatherings that would require close contact, such as flag ceremonies and face-to-face office meetings. Any or a combination of work-from-home, skeleton/physically reporting workforce, or other alternative work arrangements shall be put in place pursuant to Civil Service Commission (CSC) Memorandum Circular (MC) No. 10 series of 2020 (*Revised Interim Guidelines for Alternative Work Arrangements & Support Mechanisms for Workers in the Government During the Period of State of National Emergency Due to COVID-19 Pandemic*). Whenever work-from-home arrangements are not possible, other efforts to maintain social distancing, such as limiting the number of individuals who can eat in the pantry at a given time, will also be in place.

In areas with low-risk severity, schools will be permitted to hold classes through the face-to-face modality. Class size shall be reduced to 15 to 20 learners in a classroom. Classrooms shall maximize available ventilation. Moreover, as discussed more comprehensively in another portion of this LCP, a combination of different learning delivery modalities shall be implemented on top of or to replace face-to-face learning delivery in order to reduce possible exposure of learners and teachers. All activities involving a large congregation of learners are cancelled in the coming school year.

Reduce duration of infection. In order to reduce the duration of infection of COVID-19, detection and isolation of symptomatic individuals must be ensured in all schools and offices. Pursuant to DM No. 15, s. 2020, (First Set of Policy Directives of the DepEd Task Force nCoV) the Preventive Alert System in Schools (PASS) shall remain in operation to be able to identify possible cases. The said memorandum further stated that students, teachers, and personnel who are exhibiting symptoms shall immediately be referred to the school health personnel or nearest barangay/municipal/city health center for evaluation or referral to a hospital for

possible testing.

Should there be an infected student, teacher, or personnel, contact tracing within the school or office shall be done and quarantine of students, teachers, or personnel who had direct contact with the infected person shall be observed. Disinfection of the places within the school or office where the infected had been should immediately follow. The proper use of personal protective equipment (PPE) for emergency situations and management of quarantine facilities will be detailed in the required health standards.

Other components. To support the implementation of the identified strategies under each COVID-19 mitigation objective, DepEd shall also implement the following:

1. Continuation of DepEd Task Force COVID-19

The DepEd Task Force COVID-19, created through DM No. 11, s. 2020, shall continue to lead the overall efforts of the Department in addressing the challenges of COVID-19 through policy recommendations and strategy development. It shall monitor compliance with the DepEd Required Health Standards, DOH guidelines, and other relevant policy directives in relation to COVID-19. It shall also perform other functions and activities as may be necessary to carry out their mandate, or as the Secretary may direct.

2. Communications plan

The Department places great emphasis on the importance of maintaining clear communication, consultation, and coordination with learners, teachers, parents, and other stakeholders. In its Plan for School Reopening, intended to support countries in ensuring access to quality education in the time of COVID-19, the UNESCO IIEP encourages transparency with all education stakeholders and the correction of misinformation to appease public doubts or worries.

As discussed earlier in this BE-LCP, DepEd is strengthening its new media channels across various online platforms for quick and wide syndication of its policies and announcements. We are also doing environment scanning for the collection of inputs from stakeholders that will help inform our decisions.

In disseminating relevant mental health and preventive and safety information, support, and response in the midst of COVID-19, the Public Affairs Service (PAS) shall work closely with the Disaster Risk Reduction and Management Service (DRRMS), Quick Response and Recovery Team (QRRT), Bureau of Learner Support Services-School Health Division (BLSS-SHD), and other DepEd units.

3. Internal Situation Reports

The Department, through the DepEd Task Force COVID-19, has been issuing internal situation reports regularly to all DepEd units. These reports contain updated statistics of infected persons nationally, zeroing in on infected persons within the Department, the latest actions taken by the

Appendix: Learning Continuity Plan

Department in support of COVID-19 mitigation, and the latest issuances related to COVID-19, among others. The report also aims to keep all DepEd units informed about the latest development in the Department in relation to COVID-19 situation and to ensure that all actions being undertaken are unified.

The DepEd *Required Health Standards* will be released through a DepEd issuance detailing the health and safety standards for schools and offices discussed above.

Contextualizing Learning Strategies and Modalities in Regions

Upon recommendation by the SDOs, after consultation with the schools under their respective jurisdictions, the RDs shall decide on the learning delivery modalities deemed appropriate in the context of the local conditions and consistent with the COVID-19 guidelines and regulations.

We have great trust in our field officials, school leaders and teachers, particularly in their resilience, adaptability, and resourcefulness in delivering instruction. Our schools and field offices are very much mindful of the Secretary's direction to pivot to quality under the framework of *Sulong EduKalidad*, and we are confident that our own frontliners will ensure that the quality of education will be enhanced rather than sacrificed.

The contextualization at the field shall be informed by the wealth of knowledge and experience in ground conditions by our ROs, SDOs, and schools/CLCs. However, there is also a wealth of resources that can serve as guides in deploying various technologies for distance learning. By way of example, we include in this document as Annex "E" an excellent paper by Ani Rosa Almario and Reagan Austria, titled *Helping K-12 Schools transition to Post-COVID 19 Times*, which provides practical steps that K-12 schools may take in order to arrive at the best decisions regarding the use of educational technology to address their particular situation.

Brigada Eskwela and Oplan Balik Eskwela

Brigada Eskwela and Oplan Balik Eskwela, the annual activities of DepEd to prepare for the school opening, will be reconfigured to fully assist the preparation of stakeholders in the roll-out of the BE-LCP. Brigada Eskwela and Oplan Balik Eskwela will be undertaken from June 1, 2020 to August 29, 2020.

Brigada Eskwela. The original schedule of the 2020 Brigada Eskwela on May 18-23, 2020 as provided in DM No. 32, s.2020, is postponed. DepEd, through the External Partnerships Service (EPS), shall now be implementing a longer national schools' preparation through Brigada Eskwela from June 1 to August 29, 2020. However, under the Brigada Eskwela Plus, the partnership initiatives shall be implemented throughout the school year. This will contribute to the readiness not only of the school facilities but also of the learners, teaching and non-teaching personnel, school administrators, and community.

The National Brigada Eskwela Media/Online Kick-off Program shall be held on June 1, 2020 via Microsoft Teams and other media platforms. DepEd Region VI shall host and lead the national kick-off which shall be participated virtually by all regions and select stakeholders.

Regional offices (RO) and schools division offices (SDO) may hold their own virtual

Appendix: Learning Continuity Plan

kick-off ceremonies during the Kick-Off Week from June 1-6, 2020 to launch the Brigada Eskwela in their respective areas after the national kick-off program. If ROs and SDOs opt to hold their kick-off, it shall be conducted as Brigada Eskwela Forum which may involve the following activities:

1. Orientation on the "new normal";
2. Investment in education: Giving new direction in engaging partners;
3. Discussion of the BE-LCP;
4. One major Brigada Eskwela activity to be adopted by RO/SDO;
5. Conduct of PFA and PFA training;
6. Discussion on the basic roles and responsibilities of different sectors, including parents; and
7. Debriefing of learners, among others.

The national schools' maintenance week, which includes cleaning, minor repairs, repainting, beautification, landscaping, electrical works and installations, and other activities may still be done two weeks before the opening of classes in public schools, depending on the prevailing ECQ/GCQ situation.

All RDs and Schools Division Superintendents (SDSs) shall mobilize their partnerships focal persons to effectively implement Brigada Eskwela in all public elementary and secondary schools. Involved community and local stakeholders shall strictly comply with protocols on social distancing and regulated gathering of people/volunteers in schools consistent with the IATF health protocols, DOH protection protocols, local quarantine rules and all other relevant protocols outlined in DepEd issuances and subsequent DepEd Task Force COVID-19 issuances. It is also important to note that no volunteer with COVID-19-like symptoms like fever, dry cough, and colds shall be allowed to participate in Brigada Eskwela.

The 2020 Brigada Eskwela activities shall highlight partnership initiatives that complement the Department's efforts for ensuring that quality education will continue, despite the challenges in adapting to the "new normal". Aside from the usual activities conducted in the past Brigada Eskwela, school heads shall endeavor to conduct the following related initiatives:

1. Coordinate with the local government units (LGUs) or other non-government organizations (NGOs) and volunteers to clean and disinfect school buildings, classrooms, and other school facilities.
2. The EPS, RO/SDO partnership focal persons, and school heads shall engage partners in raising the availability of the following items in school during Brigada Eskwela:
 - Thermal scanners;
 - Hand sanitizing equipment or materials, such as rubbing alcohol, anti-bacterial or germicidal soap;
 - Cleaning tools, materials, or disinfectants that may be used to disinfect the learning areas, such as spray tank, disinfectant spray

- or disinfecting bleach, foot bath;
 - Appropriate face mask/shield and gloves;
 - Multivitamins capsules, tablets, or syrups for our DepEd personnel and school children;
 - Printing of COVID-19 and health measures information materials; and
 - Printing of materials and provision of supplies for remote learning for the learners, teachers and parents (i.e. bond papers, worksheets, notebooks, pad paper, ball pens, pencils, crayons, coloring materials and others).
3. The school heads shall ensure that psychological first aid or other psychological interventions, together with debriefing, are conducted in partnership with stakeholders during the implementation of Brigada Eskwela.
 4. Orientation activities with teachers, partners, PTA, and learners on BE-LCP shall focus on the implementation of DepEd's multiple learning delivery modalities.
 - Encourage parents through the Parents-Teachers Associations (PTA) towards possible collaborations with the schools that can support the delivery of learning while adapting to the "new normal."
 - Engage parents in the promotion of the new school system. The new role and increased involvement of the parents in the learning of their children are essential in augmenting available resources and technology in the community.
 - Engage partners in the promotion and provision of learning delivery options such as local radio/TV stations and other available media, which can help in distance or blended learning, and can be a form of partnership initiative to deliver the curriculum. The school heads may identify resources necessary for high-tech, low-tech, or no-tech aide for learning to engage other partners.
 5. Lead the implementation of *Gulayan sa Tahanan* and Urban Vegetable Gardening at Home as part of Brigada Eskwela and School-Family-Community partnerships to promote sustainable food supply at homes.
 6. Update their school emergency and contingency plans, and communicate to all stakeholders how they can support schools to ensure resiliency. This is in relation to school safety and preparedness as provided for under DepEd Memo No. 32, s.2020.
 7. Engage partners extensively and substantially in Brigada Eskwela and Adopt-a-School Program (ASP) to promote quality education and commit their support for the new normal in schools, especially in the delivery of learning.
 8. Collaborate with various stakeholders to guarantee the proper implementation of the Learning Continuity Plan.
 9. Strengthen *Brigada Pagbasa* in their Learning Continuity Plan.
 10. Enrich partnership appreciation.

Despite the current situation, the Brigada Eskwela Program shall continue to serve as one of the Department's ways to ensure that under the "new normal," our schools, our learners, our administrators, our teaching and non-teaching personnel, and our parents are ready for the school year.

Oplan Balik Eskwela. The Oplan Balik Eskwela (OBE) is an annual program to ensure that learners are enrolled and able to attend the school on the first day of classes. It is a mechanism to address problems, queries, and other concerns commonly encountered by the public at the start of the school year.

Given the challenges of COVID-19 and the many anticipated questions and uncertainties, DepEd has extended the period of OBE implementation to run from June 1 to August 29, 2020. The OBE will coordinate and strengthen the synergy with the Department's Brigada Eskwela, and engage agencies, organizations, and other stakeholders towards contributing to the needs of the education sector at this critical time.

There shall be a localized OBE committee at the RO and SDO levels. The OBE committee will be led by the RDs and assistant regional directors in the ROs with representatives from its Public Affairs Unit, Legal Office, Administrative Office, and other offices that could provide assistance to the activity. The SDS and assistant schools division superintendent will lead in the SDO level. The RO shall send the list of OBE committee members in the ROs and SDOs with contact numbers such as mobile, email, Facebook or Viber for faster communication with the CO. The local OBE in the ROs and SDOs, with the CO, shall ensure that concerns in their respective areas are properly addressed.

The OBE Public Assistance Command Center (OBE-PACC) shall serve as an information and complaints processing and routing mechanism of the DepEd. It has the following functions:

- Receive, process, and respond to simple queries, information requests, and grievances from the general public. Complex issues and complaints shall be referred to legal officers.
- Assist in the dissemination and clarification of DepEd policies, programs, projects, and processes, particularly those relevant to the opening of classes.
- Monitor, document, and submit reports on all issues and concerns received daily, including actions taken, to the OBE-PACC Central Office.

The Public Affairs Service (PAS), in coordination with the Information and Communication Technology Service (ICTS), shall use an open source OBE ticketing system for recording of issues and concerns received in the central, regional, and division offices. A daily report will be generated to summarize concerns received during the day. This will be forwarded to members of the DepEd ExeCom, while a press briefer containing highlights of the report will be shared to the media.

There shall be a scheduled mass training of Regional Information Officers, Schools Division Information Officers, and ICT coordinators via teleconferencing on how to use the system. This will be facilitated by ICTS and PAS.

Legal Context

The 1987 Constitution provides in Article XIV, Section 1 that the "State shall protect and promote the right of all citizens to quality education at all levels, and shall take appropriate steps to make such education accessible to all." This right must be upheld at all times, and DepEd is duty-bound to provide learning opportunities even in the time of the COVID-19 national emergency. Under Republic Act (RA) No. 9155 or the *Governance of Basic Education Act of 2001*, DepEd is "vested with authority, accountability and responsibility for ensuring access to, promoting equity in, and improving the quality of basic education."

Article XIV, Section 2 of the 1987 Constitution mandates the State to establish and maintain a system of free public education in the elementary and high school levels. The novelty of the COVID-19 emergency equally calls for a novel approach on the delivery of basic education in the public school system, in which social or physical distancing is indispensable to health and safety. At the same time, the DepEd acknowledges the complementary roles of public and private institutions in the educational system, as inscribed in Article XIV, Section 4(1) of the 1987 Constitution, in the particular context of the COVID-19 pandemic.

With the restrictions imposed by the "new normal," the BE-LCP requires responsive legal frameworks and support. The plan features an adjusted curriculum with the Most Essential Learning Competencies, which will be delivered in multiple learning delivery modalities. These multiple learning delivery modalities necessitate the creation, reproduction, distribution, and use of learning resources consisting of intellectual properties. The learning resources shall comprise not only the usual textbooks and teaching guides used by DepEd in normal times, but also learning modules in print, digital, and broadcasting formats, as well as accessible format copies for PWDs. Thus, different ways of applying the intellectual property law will be crucial in ensuring that their creation, reproduction, distribution, and utilization will be in accordance with law, including but not limited to RA 8293, otherwise known as the *Intellectual Property Code of the Philippines*, as amended by RA 10372.

In our provision of learning opportunities, activities, and resources, the constitutional right to access quality education and as stated in RA 10533, otherwise known as the *Enhanced Basic Education Act of 2013*, calls for inclusive, quality, and learner-oriented education that addresses the various needs and diversity of learners. Thus, the prevailing digital divide in the country, the various socio-economic situations of families which affect the provision of learning support in the home, and the peculiar needs of learners with disabilities, learners who are part of indigenous communities, and learners in remote locations, among others, shall be taken into account, along with the needs of the majority and mainstream learners. The rights to access and to quality education shall be made available to every Filipino learner in basic education.

The learning environment under the "new normal" will be very different. The landscape of child protection and child rights will now encompass not only the physical school but more extensively, the cyber world and the home as a "school." The way children will enjoy their right to play, leisure, and recreational activities under Article 31 of the United Nations Convention on the Rights of the Child, will change. Synergy with other government agencies such as the Council for the Welfare of Children, international organizations, NGOs, the academe, and other child rights stakeholders will be crucial to the respect, protection, and promotion of the various rights of the child in the particular context of the COVID-19 emergency.

It cannot be overemphasized that the delivery of education under the "new normal" will require a whole-of-government and even whole-of-society approach to mobilize the

Appendix: Learning Continuity Plan

needed resources, skills, talents, and energies for the unprecedented task of delivering basic education to millions of learners all over the country. For this purpose, it is essential to synergize with the Department of Interior and Local Government (DILG) and the LGUs in whose territorial jurisdiction the various schools, learners, teachers and non-teaching personnel, and offices of DepEd are situated. Laws pertaining to the mandates of LGUs in relation to basic education and to DepEd, as well as to the promotion of the development of children and their protection, and the general welfare of the LGUs, in normal times and in emergencies, are relevant.¹³

The “new normal” in DepEd will bring with it a different working environment. Work arrangements and processes shall be modified to follow safety and health requirements during the continuing COVID-19 pandemic, resulting in the operation and reexamination, or even augmentation, of laws and rules pertaining to human resources.

Existing laws and rules may be used to address the COVID-19 situation particularly in relation to DepEd, with the end view of upholding the constitutional and international rights to education¹⁴ and health,¹⁵ and promoting the best interest of the child.¹⁶ However, as the BE-LCP and its implementation unfold, it may be necessary to propose new laws and rules to suit the realities of a continuing COVID-19 public health emergency.

Finance

The Department shall make necessary adjustments in its operations to meet the objectives of the BE-LCP. Guided by the directions set forth by the plan, DepEd bureaus, services and offices are reviewing and assessing programs, activities, and projects and their corresponding budgets to make them more responsive to the current and post- COVID-19 scenarios. The available programmed funds shall be maximized, reprogrammed, or realigned to those programs and activities that would require more funding support.

While there are existing funds made available to the Department this FY 2020, there is still a need to provide substantial and additional financial resources from other known and potential sources of funds. Even as DepEd is trying to make internal adjustments to cover the funding requirements of the BE-LCP, DepEd is also exploring the following strategies to address funding gaps:

1. Secure the support of both Houses of Congress to pass a supplementary budget to finance the new and expanded programs, activities, and projects. This may include the funding requirements to rehabilitate the existing network infrastructure, and the procurement of hardware to ensure alignment of the supplemental budget with the BE-LCP and support the automation of financial management systems;
2. Revisit Joint Circular No. 1, s.2017 DepEd-DBM-DILG governing the utilization of the School Education Fund (SEF), which should be aligned to the “new normal” in basic education service delivery;

¹³ These relevant laws include, but are not limited to, RA 7160, otherwise known as the Local Government Code of 1991; RA 10121, otherwise known as the Philippine Disaster Risk Reduction and Management Act of 2012; RA 10821, otherwise known as the Children's Emergency Relief and Protection Act; RA 11469, otherwise known as the Bayanihan to Heal as One Act; Presidential Proclamation No. 922, s. 2020, Declaring a State of Public Health Emergency Throughout the Philippines; Proclamation No. 929, s. 202, Declaring A State of Calamity Throughout the Philippines Due to Corona Virus Disease 2019; and EO 112.

¹⁴ United Nations Convention on the Rights of the Child, Article 28 (1) provides: “States Parties recognize the right of the child to education...”

¹⁵ The 1987 Constitution provides in Article II, Section 15: “The State shall protect and promote the right to health of the people...” The International Covenant on Economic, Social and Cultural Rights provides in Article 12 (1): “The States Parties to the present Covenant recognize the right of everyone to the enjoyment of the highest attainable standard of physical and mental health.”

¹⁶ United Nations Convention on the Rights of the Child, Article 3(1) provides: “In all actions concerning children, whether undertaken by public or private social welfare institutions, courts of law, administrative authorities or legislative bodies, the best interests of the child shall be a primary consideration.”

3. Propose legislation or institute policy measures that will allow ways and means to facilitate the processing and approval of financial transactions, such as, but not limited to, the adoption of digital documentation and electronic signatures;
4. Reduce spending on non-priority items in the expenditures of programs, activities, and projects under maintenance and other operating expenses and capital outlay. This involves the adoption of austerity measures to generate "forced savings" in current operating expenditures to cover the requirements of new and emerging activities; and
5. Continue to engage with the LGUs, civil society organizations, PTAs, community leaders, and other stakeholders for transparency and accountability.

All resources generated from both the available annual programmed appropriations and those that may be sourced from other means shall not be used for ends which are inconsistent with the Learning Continuity Plan.

Communication

Communications shall play a major role in getting the support of stakeholders in implementing the BE-LCP. In its communications work on the BE-LCP, DepEd is guided by its National Communications Framework, which outlines the overarching communications approaches, including a communications strategy in the time of a crisis.

All communication efforts shall be directed from the CO to ensure a common understanding of DepEd's programs, while allowing field communicators to make communications responsive to localized needs. Communications planning shall be regularly made and adjusted by PAS, in consultation with policy makers and key publics, to unify branding and response efforts. Synergy and coordination with national government media channels (PCOO, DOH and IATF) will also be given priority to ensure that truthful and accurate information are disseminated to the ground.

The Department is strengthening its new media channels across various online platforms for quick syndication of important policies and announcements. We are also focusing on environment scanning for the collection of inputs from stakeholders that will help inform executive decisions, whether strategic, tactical, or operational. The convergence of official, allied, and recognized social media channels from the CO, ROs, SDOs, and schools/CLCs will help reach and engage not only those in urban centers, but most importantly, our field communicators.

On the operation level, a crisis communication management team (CCMT) was formed since the declaration of quarantine protocols. The crisis communications approach shall be integrated with the objectives of *Sulong EduKalidad*. Since the onset of the COVID-19 outbreak, the team has been performing crisis management-related tasks that require timely and speedy completion (24/7 media monitoring, public assistance, and Action Center help desk). The CCMT ensures maximization of traditional media, relevant NGO, and external partners for engagement, and close monitoring of feedback from teachers, learners, and other stakeholders.

In terms of disseminating relevant health and safety information, PAS will continue to partner and work closely with the DRRMS, DepEd Task Force COVID-19, BLSS-SHD, and other DepEd offices for relevant mental health, preventive and safety information, support, and response in the midst of the global pandemic.

Appendix: Learning Continuity Plan

These communication efforts of PAS for the BE-LCP are anchored on the core principles of proactive, cooperative, responsive and highly engaged relationships with the multiple publics of the Department of Education.

Monitoring and Evaluation

To further guide the Department in refining and continuously fleshing out the BE-LCP, a Monitoring and Evaluation (M&E) Framework anchored on the Basic Education Monitoring and Evaluation Framework (BEMEF) is being adopted, tailored to the needs of the learners during this emergency. This framework shall animate the planned interventions and activities and will show the desired outcomes as we navigate through the situation.

The framework includes intermediate outcomes, which represent what DepEd endeavors the learners to achieve in terms of access and quality during the pandemic. The enabling environment defines the necessary governance structure in terms of leadership investments, management systems, partnerships, and external relations that will ensure the effective, efficient, and responsive delivery of basic education needs of the learners.

OUTCOME/ OUTPUTS	DESCRIPTION	INDICATORS	ACCOUNTABLE OFFICE
1. Learners are in the basic education system	We need to ensure that all learners, regardless of sex, religion, geography, financial disposition, are encouraged to be in the basic education system during this pandemic. This requires that multiple learning facilities, resources, and learning delivery modalities are made accessible for the different types of learners.	Gross enrollment rate Net enrollment rate	Planning service
1. a. Appropriate and relevant learning delivery modalities established	Learning delivery modalities refer to various modes of accessing learning resources, such as face-to-face learning, distance learning, and blended learning, which cater to the different contexts and learning needs of the learners.	Appropriate and relevant learning delivery modalities established	Curriculum and Instruction (CI) bureaus; Ros
1. b. Learners received the necessary learning resources for the applicable learning delivery modalities	Learning resources refer to the learning materials used by the learners to achieve the set learning competencies and standards. These are, but are not limited to, printed modules, printed books, DepEd Commons, online modules, and broadcast modules. These must be in conjunction with the adopted learning delivery modalities.	Percentage of learners receiving learning resources per learning delivery modality	CI bureaus led by the Bureau of Learning Resources (BLR), ROs; SDOs

Appendix: Learning Continuity Plan

OUTCOME/ OUTPUTS	DESCRIPTION	INDICATORS	ACCOUNTABLE OFFICE
4. Learners complete education and attain learning standards	Ensures that programs and initiatives benefiting learners as they complete the basic education cycle and other educational interventions are implemented.	Completion rate Promotion Rate ALS Completion Rate	Planning service
1. Education leaders, teaching, and non-teaching staff practice participative and inclusive management processes during emergencies	Improves the capacity, as well as functional and leadership competencies in participative and inclusive management processes during emergencies, of education leaders, teaching and non-teaching staff. It ensures that the design and implementation of professional development programs are relevant and appropriate to the current public health situation.	Types of trainings established Percent of staff trained for various learning delivery modalities • Education leaders • Teaching staff • Non-teaching staff Types of support systems established Percentage of staff trained for various learner support systems • Education leaders • Teaching staff • Non-teaching staff Percentage of education leaders trained/capacitated on emergency planning	National Educators Academy of the Philippines (NEAP) Bureau of Human Resources and Organizational Development (BHROD)
2. Investments in the LCP provides learners with options for their required learning delivery modalities	Ensures sufficient provision and equitable distribution of education resources during the pandemic. Funding decisions also recognize the gaps and immediate measures that need to be considered in prioritizing resources in the midst of competing education priorities to achieve equity and impact	No. of learning resources procured No. of learning resources developed No. of learning resources produced	Finance Service, Administrative Service, Procurement Management Service, Planning Service, CI bureaus

3. Internal systems and processes serve learners efficiently through continuous monitoring and feedback	Enhances internal systems and processes to efficiently and effectively deliver basic education services.	Disbursement rate Timely delivery of procured projects	Finance and Administration
4. Key stakeholders actively collaborate to serve learners	Ensures collaborative engagement with key stakeholders to achieve the LCP. This collaboration will be delivered through functional mechanisms to make partnership building and linkages more strategic and aligned to LCP priorities.	Percentage of financial contribution of development partners over the total national education budget for the fiscal year	External Partnership Service; Program Management Service

Social, Economic, and Security Factors

The decision to open classes on August 24, 2020 shall allow the resumption of learning by our students. This will have long-term positive impact and is clearly superior to losing an entire school year if we wait for the full containment of COVID-19.

UNESCO¹⁷ points out that prolonged school disruptions are associated with various negative impacts on children. The longer that marginalized children are out of school, the less likely they are to return. UNESCO also notes the risk of teenage pregnancy and sexual exploitation, and that prolonged closures disrupt essential school-based services such as immunization, school feeding, and mental health and psychosocial support, and can cause stress and anxiety due to the loss of peer interaction and disrupted routines.

With the opening of classes, education-related economic activities, such as in learning resources, technology-based platforms, and other ancillary/support industries will also be able to resume. Private schools will be able to open classes, and thus, avoid continued financial dislocation and displacement of their teachers and staff.

By resuming classes, we shall be able to continue with school-managed support systems, such as the School-Based Feeding Program (SBFP). Pursuant to RA 11037, or the *Masustansyang Pagkain para sa Batang Pilipino Act*, and DO No. 39, s. 2017, or the *Operational Guidelines on the Implementation of School-Based Feeding Program for School Years 2017-2022*, the SBFP primarily aims to address undernutrition by serving nutritious meals to undernourished learners for at least 120 days in a year. RA 11469, otherwise known as the *Bayanihan to Heal as One Act*, has identified the SBFP as a measure addressing COVID-19 and beneficial to children.

The commitment to continue providing education to our learners during this time of pandemic shall catalyze technological upgrades and innovations in learning resources and

¹⁷ United Nations Educational, Scientific and Cultural Organization (2020) Framework for reopening schools. Retrieved from: <https://unesdoc.unesco.org/ark:/48223/pf0000373348.locale=en>

Appendix: Learning Continuity Plan

platforms. As discussed in more detail in another section of this document, a number of previously independent blended learning initiatives shall now be consolidated and strategically deployed by DepEd on a large scale.

In a study on the factors that influence the use of technology in the context of the Australian AID tablet computer programme in nine schools in the Philippines, Lumagbas et al.¹⁸ found that leaders' openness to using ICT Tools, a shared vision on the purpose of using ICT in education, and an open and responsive school culture are key drivers of successful integration of technology in learning. This BE-LCP, with the capacity building programs and other related initiatives it brings, can potentially create these factors for the country's entire school system.

However, there are major issues that will need to be addressed in the implementation of the BE-LCP. One key issue is equity in terms of learners' access to technology, gadgets, and household support to learning. Learners who do not have internet access at home will still have printed modules and textbooks for independent learning, but these learners will have limited opportunities for interaction with their teachers and classmates.

Another consideration is the impact of distance and blended learning on the achievement of learning outcomes. Because both learners and teachers are mostly exposed to the face-to-face learning delivery modality, the impact of the shift to blended learning is still unknown. During this transition period, it is unavoidable that there will be a negative impact on the learning of those who cannot easily cope with the change. Support interventions will have to be implemented to mitigate this.

The "new normal" in education means additional administrative and operational burdens to teachers and schools. School management tools and practices such as the learning action cells (LAC), faculty meetings, and the use of school forms, will have to be reconfigured to suit the current situation.

On the security aspect, in times of uncertainty brought about by the COVID-19 pandemic, UNESCO IIEP¹⁹ has emphasized the need to put to rest any public doubt or fear as school reopens. As such, it is crucial that the Department effectively addresses the climate of fear among students, parents, and communities. There may likewise be resistance among certain sections of teachers. In response to these, DepEd intends to be transparent in its communication, and shall correct the spread of misinformation, consult with its internal and external stakeholders, respond to queries and concerns raised, and strengthen its assistance and support to teachers.

Great importance is also given to strengthened coordination and cooperation at national and local levels, especially with the DOH, LGUs, and the Philippine National Police, to continuously ensure the well-being of all returning learners and DepEd personnel. And finally, the Department shall mobilize its partnerships and broad constituency for help and support.

The BE-LCP has put in place several mechanisms to attend to these areas of concern. The first is the conduct of the annual Oplan Balik Eskwela and Brigada Eskwela, which are scheduled for activation from June 1 to August 29, 2020. In light of COVID-19, both

¹⁸ Jedaiah Joel Lumagbas, Wally Smith, Esther Care & Claire Scoular (2019) Tablet computers in Philippine public schools: School-level factors that influence technology management and use, *Technology, Pedagogy and Education*, 28:1, 73-89, DOI: 10.1080/1475939X.2019.1572535

¹⁹ UNESCO International Institute for Educational Planning (IIEP) (2020) Plan for School Reopening. Retrieved from: <http://www.iiep.unesco.org/en/plan-school-reopening>

Appendix: Learning Continuity Plan

have been reconfigured to establish readiness of the school facilities, learners, teaching and nonteaching personnel, school administrators, and the community in time for school opening on August 24, 2020 and the implementation of the BE-LCP.

Another existing mechanism is the DepEd Task Force COVID-19, which is tasked to lead the Department's overall efforts in addressing COVID-19. The Task Force shall make policy recommendations and oversee operations, while also providing Daily Situation Reports for monitoring and quick response.

Anchoring on *Sulong EduKalidad* and Bridging into the Future

DepEd has already made significant strides in education access and was already pivoting to shift its focus on quality. However, the COVID-19 pandemic has introduced other strains of inequities to the education system, including connectivity, cost of mobile use, bandwidth, digital capacity, availability of and capacity for providing learning support at home, and physical availability of parents/learning facilitators who may be daily wage earners and need to be at work.

Although reforms remain anchored on the four pillars of *Sulong EduKalidad*, the discourse on quality education and approach towards achieving this have been altered. For instance, streamlining the curriculum to prioritize durable and relevant competencies has been accelerated in light of the challenges of remote learning. Moreover, community quarantine has drastically redefined the learning environment, that is, from physical to virtual and distance learning spaces.

On the aspect of capacity building of teachers and school leaders, skills that need to be strengthened such as resilience, adaptability, resource management, technological literacy, and crisis response have become more pronounced in the face of the evolving roles as well as competing priorities of teachers and school leaders. In other words, the *Sulong EduKalidad* reforms are happening a lot faster than expected, with new dimensions, but also with different roadblocks that must be overcome.

With the BE-LCP, DepEd has demonstrated three interconnected capacities that are significantly linked to the future: INNOVATION, AGILITY, and SYNERGY. Innovation means formulating superior solutions that have greater social or economic impact. Agility refers to the ability to move quickly and gracefully, while synergy is a collaboration that creates an output greater or bigger than the sum of the individual contributions. The BE-LCP shows that adversities can be overcome because there is always a solution. It may be a matter of looking through different perspectives and sometimes, diverging from conventional approaches, but problems can be solved through innovation.

The speed by which an innovation can be launched matters a lot. Those who are agile, who are nimble and fast enough to adapt, would have a head start compared to others and would therefore have more time for fine-tuning their ideas. In contrast, there are voices preferring to cling to the past, calling on DepEd to freeze in time and wait for things to normalize before moving.

The BE-LCP is testament that there is a huge difference between formulating a solution the soonest time possible when it is needed, and coming up with a near-perfect solution much later when everyone has already looked elsewhere. There will be issues and problems in the implementation of the LCP, but these would provide the opportunity for redesigning, which indicates further growth areas and sustains the cycle of innovation.

Appendix: Learning Continuity Plan

Synergy, the third future-facing capacity, is the secret to innovating quickly. Converging individuals/institutions that have great alignment creates something that is greater than what each of them can achieve separately. The LCP is a product of the synergy of forward-looking sections of the government, industry, and academe to ensure that learners, teachers, and school leaders will thrive in the "new normal."

Sulong EduKalidad, the current BE-LCP, and the futures of Philippine education are unified by three goals for and with every learner: agency and self-actualization, work readiness, and responsible citizenship. In the immediate future, the threat of virus transmission persists, and job insecurity becomes high. More than ever, the pandemic has shown that multiliteracies such as information, scientific, health, financial, and civic literacies are important for people to thrive in crisis. When citizens have these literacies fully functioning, they have a better understanding of how the spread can be contained. They are more critical of information credibility. They have a sharper sense of social responsibility and are more capable of dealing with financial shocks. As businesses try to recover from losses due to the pandemic, layoffs due to redundancy are expected, and there is greater risk for low-skilled workers. In addition, employers are more likely to outsource or subcontract some tasks to cut costs, which gives rise to the gig economy or short-term jobs, most of which can be done online. Changes in the employment landscape emphasize the importance of higher-order skills, technological skills, and the ability to work with greater autonomy.

To fully connect the BE-LCP to the future, enduring literacies and skills need to be highlighted in learning delivery modalities, technologies, strategies, resources, assessment, and in teacher/school leader capacity building. Furthermore, its components can be expanded to include knowledge mobilization, science of learning, and analytics. Knowledge mobilization will facilitate the translation of actionable knowledge. The science of learning will provide insights on how learners develop competencies, expertise, and dispositions in either physical or virtual learning spaces. On the other hand, analytics will introduce techniques and tools for collecting, interpreting, and communicating data to ensure evidence-driven decision-making. More importantly, the BE-LCP has to be guided by life-long, life-wide, life-deep, and life-wise learning principles.²⁰ These principles connect learning to a purpose (life-long), to the real-world (life-wide), to mastery and greater autonomy (life-deep), and to practical wisdom, ethics, values, morals, and dispositions (life-wise).

DepEd Resilience. As concluding remarks, DepEd has historically demonstrated an ability to respond to adversities and to deliver on its commitments and responsibilities.

Just last March 2020, two major DepEd ongoing events involving a large number of students from around the country - the National Schools Press Conference (NSPC) and National Festival of Talents (NFOT) - overlapped with the start of the Luzon-wide Enhanced Community Quarantine, and participants faced difficulties travelling back to their respective regions due to travel restrictions. Through strong and expeditious coordination with various national and local authorities and offices, the Department was able to bring the delegates safely back to their homes, and was able to undertake the close monitoring of the health conditions of all delegates during the precautionary period.

DepEd and its teachers have also been at the frontlines of every national and local election, ensuring its honest, orderly, peaceful, and credible conduct. Our schools have been used as polling stations, and teachers have been deputized to serve crucial roles despite the demands and challenges that election season entails.

²⁰ Four-Learning Framework. <https://www.nie.edu.sg/about-us/nie-strategic-vision-2022>

Appendix: Learning Continuity Plan

DepEd has provided response actions during major calamities. In just the past nine months, we have dealt with four major occurrences: Cotabato Earthquakes (October 16– 31, 2019), Typhoon Tisoy (November 24–December 6, 2019), Typhoon Ursula (December 19–29, 2019), and Taal Eruption (January 12, 2020). Through the response systems instituted by the Department, learners, personnel, and schools were provided with support for repairs, psychological first aid, and temporary learning spaces. Partnerships have also been leveraged to provide support to DepEd's efforts to ensure learning continuity.

DepEd has a working governance system from the Central Office to the field. This will enable it to translate a complex plan into operational actions at all governance levels. While COVID-19 is a problem, it is also an opportunity. DepEd will not sit by idly to miss the opportunities that COVID-19 brings.

Learning opportunities shall be available, and learning shall continue in the time of COVID-19. *Sulong EduKalidad!*

Policy Guidelines for the Provision of Learning Resources in the Implementation of the Basic Education Learning Continuity Plan

DepEd Order No. 018, s. 2020
20 July 2020

Rationale

The public health emergency brought about by COVID-19 calls for the Department of Education (DepEd) to be innovative and resourceful in delivering quality, accessible, relevant, and liberating education. In response to this emergency, DepEd developed the Basic Education Learning Continuity Plan (BE-LCP) to ensure that learning opportunities are provided to our learners in a safe manner, through different learning delivery. In line with this, the Department, through its Regional and Schools Division Offices undertake the urgent and necessary development, production and provision of learning resources, in accordance with its mandate.

The 1987 Constitution states in Article XIV, Sections 1 and 2, viz:

Section 1. The State shall protect and promote the right of all citizens to quality education at all levels, and shall take appropriate steps to make such education accessible to all.

Section 2. The State shall:

- 1) Establish, maintain, and support a complete, adequate, and integrated system of education relevant to the needs of the people and society;
- 2) Establish and maintain a system of free public education in the elementary and high school levels.

Pursuant to the above-cited constitutional provisions, as well as Executive Order No. 292 or the *Administrative Code of 1987*, Republic Act No. (RA) 9155 or the *Governance of Basic Education Act of 2001*, and RA 10533 or the *Enhanced Basic Education Act of 2013*, DepEd is mandated to protect and promote the right of access to quality basic education. Accordingly, it is legally tasked to provide a learner-centered, inclusive, responsive, relevant, and contextualized K to 12 basic education.

In accordance with its legal mandate, DepEd has promulgated issuances on flexible learning and materials, specifically, DepEd Order No. (DO) 21, s. 2019, or the *Policy Guidelines on the K to 12 Basic Education Program*. It sets forth Flexible Learning Options (FLOs), which includes alternative delivery modes and its corresponding learning resources that are responsive to the need, context, circumstances, and diversity of learners.

These policy guidelines aim to set the standards and specifications in the provision of learning resources in the implementation of the BE-LCP. The learning resources serve as learning toolkits for learners where procedures, instructions, and other details are provided to aid the learning process, with the supervision of responsible adults along with the continuous monitoring and guidance of teachers.

Appendix: Provision of Learning Resources

Scope

The standards and mechanisms included in this policy shall guide officials and personnel at the Central, Regional, and Schools Division Offices in the provision of learning resources, particularly for FLOs, in the implementation of the BE-LCP. These policy guidelines shall take effect starting Fiscal Year (FY) 2020.

Definition of Terms

Ready to Print Materials	Materials ready for mass printing.
Most Essential Learning Competencies (MELCs)	Competencies necessary to develop a learner's practical and lifelong skills for learning amidst a crisis (e.g. pandemic, epidemic, etc.) and to eventually attain a successful life.
Flexible Learning Options (FLOs)	Menu of learning interventions and pathways that are responsive to the needs, context, circumstances, and diversity of learners.
Alternative Delivery Modes (ADMs)	Instructional learning modalities that do not strictly follow the typical set-up for regular classroom instruction, but follow the K to 12 curriculum in content.
Alternative Delivery Modules or Self-Learning Modules (SLMs)	Self-contained, self-instructional, self-paced, and interactive learning resources for public schools intended for learning a specific topic or lesson where the learner interacts actively with the instructional material rather than reading the material passively. SLMs become an ideal learning resource and therefore a priority in remote or distance learning where a teacher is unable to provide the constant instructional supervision and guidance in a classroom setting. SLMs have been used by DepEd for its ADMs during disasters or in situations where learners have difficulty for daily school attendance. COVID-19 has compelled the use of SLMs on a large scale.
Learning Resources (LRs)	Any text-based (print or non-print) or non-text based material (devices, tools, equipment, manipulative toys) aligned with the K to 12 curriculum and as primary bases or supplements to teaching and learning processes.

Policy Statement

This policy establishes guidelines that will enable DepEd to provide learning resources in the implementation of the BE-LCP for School Year (SY) 2020-2021. It also establishes the guidelines on the release, utilization, and liquidation of support funds for the printing and delivery of self-learning modules and other learning resources.

Appendix: Provision of Learning Resources

Policy Implementation

All matters pertaining to results of needs analysis, content review and evaluation, technical standard setting, and allocation, release, and utilization of funds shall be coordinated with the Office of the Undersecretary for Curriculum and Instruction (OUCI).

A. Guidelines in the Printing and Delivery of Self-Learning Modules (SLMs)

1. The ready-to-print digital copies of the SLMs developed by the assigned regions, and approved and considered final, particularly in terms of content and alignment with the Most Essential Learning Competencies (MELCs) by the Bureau of Learning Delivery (BLD), can be downloaded from the Microsoft Teams folder "Ready-to-Print SLMs" created by the Information and Communications Technology Service (ICTS) for the Regional Directors, Curriculum and Learning Management Division (CLMD) Chiefs, and Regional Education Program Supervisors in-charge of the Learning Resource Management Section (LRMS).
2. Unauthorized printing, uploading, and conducting activities involving sharing of digital files other than the intended purpose are strictly prohibited and shall be grounds for imposition of administrative and other sanctions.
3. For efficient use of funds and to facilitate timely delivery of the printed SLMs for the first quarter, the Schools Division Offices (SDOs) primarily, or schools as authorized jointly by Regional Offices (ROs) and SDOs, shall set the print run based on the quantity needed and deliver these immediately to schools. The SDOs shall continue to set the requirements for the subsequent quarters, with continuing consultation with the Central Office on the appropriate printing arrangements.
4. In view of the extreme urgency to provide the minimum SY 2020-2021 Quarter 1 SLMs to learners on or before the opening of classes on August 24, 2020, the SDOs are given the flexibility to determine the standard technical specifications in the procurement or in-house/by administration production of printing and delivery of SLMs. In the succeeding quarters of the school year, an addendum to these guidelines may be issued to ensure uniform technical specifications.

B. Procedures on the Allocation, Release and Utilization of Funds

1. OUCI shall submit the request to allocate and download funds for DepEd ROs to the Secretary, through the Office of the Undersecretary for Finance (OUF), following the allocation formula as approved by the Learning Resources and Platforms Committee (LRPC).
2. The Finance Service (FS)-Budget Division in the DepEd Central Office shall process and issue the Sub-Allotment Release Orders (Sub-AROs) necessary to effect downloading of funds to the ROs.
3. The Regional Director, through its planning, finance, and program teams, shall be responsible in determining the budget allocation per SDO. In determining the most equitable distribution of the fund among the SDOs,

the ROs may consider the following parameters, among others:

- a. Latest enrollment data of each division;
 - b. Actual Special Education Fund (SEF) contributions attributable to the BE- LCP learning resources component; and,
 - c. Actual contributions from external partners attributable to the BE-LCP learning resources component.
4. After receipt of the Sub-AROs from the ROs, the SDOs shall submit a Special Budget Request (SBR) to the Department of Budget and Management (DBM)- ROs for the issuance of Notices of Cash Allocation (NCAs) to cover the cash requirements of the Sub-AROs they received.
 5. The allocation and utilization of funds by all DepEd Implementing Units shall be in accordance with the priorities set by the ROs/SDOs in line with its contextualized BE-LCP.
 6. Expenses related to the conduct of activities, including but not limited to procurement, or in-house/by administration, and/or partnership with Local Government Units (LGUs) and other eligible entities, for the printing and delivery of SLMs and other learning resources such as locally-developed SLMs, manuals, worksheets, and activity sheets, and other expenses to cover supplies for the development of video and radio scripts/lessons, conversion of materials into accessible format, and development of interactive materials, may be charged against this fund. Other expenses related to the implementation of the different learning modalities may also be charged against this fund. The priority, however, shall be provided for the printing and delivery of the SLMs. As stated earlier, SLMs become an ideal learning resource and therefore a priority in remote or distance learning where a teacher is unable to provide the constant instructional supervision and guidance in a classroom setting. SLMs have been used by DepEd for its ADMs during disasters or in situations where learners have difficulty for daily school attendance. COVID-19 has compelled the use of SLMs on a large scale. Considering the uneven access to technology among learners and the revealed greater preference for modular learning from the learner enrollment and survey forms responses, SLMs will be the backbone distance learning mechanism to accompany textbooks, complemented by other distance learning modalities such as online and educational television and radio.
 7. The use of the funds shall be subject to the existing government budgeting, procurement, accounting, and auditing rules and regulations.
 8. Purchase of Capital Outlay items (e.g. equipment, gadgets, software, or any item costing PhP15,000.00 and above per unit) is not allowed.
 9. The grant of cash advance shall be subject to the rules and regulations on the granting, utilization, and liquidation of cash advances as provided for under Commission on Audit (COA) Circular No. 97-002 dated February 10, 1997, as amended by COA Circular No. 2006-005 dated July 13, 2006.
 10. In case the downloaded fund is not sufficient to address the actual needs for the purpose, the SDOs may provide additional fund support from their

regular General Administration and Support Services (GASS) – Maintenance and Other Operating Expenses (MOOE) allotment.

11. Schools may also use their regular MOOE allocations for the printing and delivery of alternative delivery module in accordance with DO 15, s. 2020 (Supplementary Guidelines on Managing Maintenance and Other Operating Expenses Allocation for Schools to Support the Implementation of Basic Education Learning Continuity Plan in time of COVID-19 Pandemic) and subject to pertinent procurement, accounting, and auditing rules and regulation.
12. The SDOs shall determine the most efficient, effective, and economical mode of printing and delivery of learning resources subject to compliance to RA 9184, or the Government Procurement Reform Act, and its Implementing Rules and Regulations (IRR). The SDOs may:
 - a. Procure for printing and/or delivery;
 - b. Conduct in-house or by-administration printing and/or delivery, subject to applicable laws; and,
 - c. Enter partnership agreement with Local Government Units (LGUs) and other eligible entities.

C. Procedures or Procurement, Planning and Preparations of Learning Resources

1. Procurement of learning resources under these guidelines shall be in accordance with applicable provisions of RA 9184 and its IRR as well as the internal rules and processes of DepEd.
2. The ROs and SDOs shall ensure compliance with the relevant provisions of DO 038 s. 2019 (Amendments to DepEd Order Nos. 67, s. 2016 and 006, s. 2019 - Revised Signing Authorities for Financial Matters) on signing authorities and other pertinent procedural requisites.
3. The SDOs may resort to the appropriate modes of procurement in accordance with the provisions of RA 9184 and its IRR, including an agency-to-agency arrangement pursuant to Section 53.5 of the IRR of RA 9184, such as with any of the Recognized Government Printers (i.e. National Printing Office, APO Production Unit, Inc. and the Bangko Sentral ng Pilipinas), subject to the applicable conditions.

Funding

The fund shall be sourced from the additional “Flexible Learning Options” budget item released by DBM. The purpose of the downloading of funds to the implementing units is “to cover funding requirements for the implementation of the Basic Education Learning Continuity Plan, Provision of Learning Resources.”

Monitoring and Evaluation

BLR shall continuously gather feedback on the implementation of these policy guidelines from: ROs, through the CLMD; SDOs, through the Curriculum Implementation Division (CID); and down to the level of school. SDOs shall submit to their respective ROs a Statement of Expenditure (SOE) within two (2) months from the receipt of funds. The SOE

Appendix: Provision of Learning Resources

shall be duly certified by the Division Accountant and approved by the Schools Division Superintendent.

ROs shall consolidate the SOEs submitted by their SDOs and submit a consolidated report to BLR, copy furnished the Education Programs Delivery Unit (EPDU) of the DepEd Central Office. A template of the SOE is enclosed as Annex "1". OUCI, in coordination with OUF, shall conduct a periodic review of this policy to further enhance its provisions.

Effectivity

This Order shall take effect immediately upon publication in the DepEd website.
