

**CBRC ANALYTICAL FINAL COACHING
GENERAL EDUCATION**

1. He ran for the bus and _____ on.
A. had jump
B. jump
C. jumps
D. jumped
2. He is the _____ of the two brothers.
A. most tall
B. tallest
C. very tall
D. taller
3. Neither F. Scott Fitzgerald nor his contemporaries _____ their real names in their writing career.
A. use
B. uses
C. using
D. has used
4. Fish and fries _____ my cousin's favorite fast food meal.
A. is
B. has
C. are
D. have

Rationale: At a first glance, one may think that the answer is C because there are two subjects joined by the conjunction and. But in reality the answer is A. Fish and Fries (just like bread and butter) is perceived and taken as a single entity, that is why it must have a singular verb.

5. The members of the congregation are _____ inside the conference room already.
A. altogether
B. together
C. all together
D. together all
6. _____ clothing are advised to be worn during summer.
A. Lose
B. Losing
C. Loose
D. Lost
7. Mr. Tolentino was concerned about the safety of motorists and so he issued a circular containing _____ safety instructions.
A. himself
B. themselves
C. his
D. their
8. To make our presentation readable, select images that will _____ the text on the page.
A. Move
B. Mix
C. Model
D. Match
9. Students who bully their classmates should be ashamed of _____.
A. himself

- B. ourselves
- C. themselves
- D. oneself

10. Some animals perform services to assist man. Canines serve in war and in peace. Cats safeguard the home from pests. pigeons can transmit messages. This is possible if these animals are:

- A. fed
- B. drugged
- C. trained
- D. kept

11. Your boss isn't working anymore, _____?

- A. is he
- B. isn't he
- C. has he
- D. hasn't he

12. Business computers have become more complex, thus complete training in operating them is needed. They are now described as SOPHISTICATED electronic system, meaning they are:

- A. Complicated
- B. Fashionable
- C. Cosmopolitan
- D. Simple

13. The stranger who climbs the fence is CULPABLE. This means he is:

- A. innocent
- B. strong
- C. guilty
- D. an intruder

14. She wrote a "first-rate" report. What does it say about the report?

- A. Ordinary
- B. Excellent
- C. Mediocre
- D. Run-of-the-mill

15. My grandma had some lucid moments before she dies. This means _____.

- A. confused
- B. ambiguous
- C. clear thinking
- D. sad

16. She was a "Phantom of Delight" connotes that the woman is _____.

- A. real
- B. lovely
- C. an illusion
- D. virtuo

17. Which dimension of language is concerned with sounds and stress?

- A. Phonology
- B. Segmental
- C. Suprasegmental
- D. Phonemes

18. This pertains to the pauses or rests in speech:

- A. Pitch
- B. Juncture
- C. Stress

D. Intonation

Rationale: All of the options given above are suprasegmentals or the non-word meaning carriers in speech. Pitch refers to the highness or lowness of sounds. Stress refers to the different emphasis on words. Intonation refers to the rising and falling of sounds and juncture refers to the rests or pauses.

19. Who among the following is known as the Indian Shakespeare?

- A. Sadi
- B. Kalidasa
- C. Khagyam
- D. Tagore

20. A good writer supports his generalizations with _____ examples.

- A. convenient
- B. unfamiliar
- C. concrete
- D. abstract

21. A filed commander gave his orders. He meant drop previous order. Which message was heard?

- A. Negative! Delete!
- B. Over! Over!
- C. Repeat! Repeat!
- D. Copy! Copy!

22. Archimedes shouted "Eureka!" What did we take this to mean?

- A. Wonderful
- B. Enjoyment
- C. Mystery
- D. Discovery

23. The reporter was accused in court because of his news story. This story was:

- A. Full of distorted facts
- B. A narration of facts
- C. Tainted with malice
- D. Too personal to take

24. "It is only with the heart that one can see rightly." This line means:

- A. Important things are invisible to the heart
- B. Only the heart can see the beautiful things in life
- C. The heart is always correct about everything
- D. The heart is visible if one is kind

25. What does the expression "love begets love" mean?

- A. Love is offered, not waiting for love in return
- B. If you offer love, you will be loved in return
- C. Don't expect love, though you love others
- D. Love is not freely expected from everyone

26. The hostages are free. They paid their way. What does this statement tells us?

- A. They escaped after paying
- B. After paying ransom they were released
- C. They negotiated peacefully
- D. They were freed without ransom

27. He was as helpless as a child. Classify this statement.

- A. Simile
- B. Idiom
- C. Synonym

D. Metaphor

28. News travels as fast as the wind. This statement is a/an:

- A. Simile
- B. Metaphor
- C. Idiom
- D. Synonym

29. The statement, "She is a rose" is an example of a _____.

- A. Idiom
- B. Metaphor
- C. Simile
- D. Hyperbole

30. "I die just when the dawn breaks to herald the day." This is a famous quote from:

- A. Andres Bonifacio
- B. Jose P. Rizal
- C. Benigno Aquino
- D. Manuel L. Quezon

31. What reading resource contains information about the theories on the origin of the solar system?

- A. Atlas
- B. Yearbook
- C. Almanac
- D. Dictionary

32. Which does not belong in the group?

- A. Assumption
- B. Summary
- C. Synthesis
- D. Generalization

Rationale: All the other given options connote "wrapping up" a particular text, while doing an "assumption" means that we are trying to hypothesize.

33. Which sounds like "fine?"

- A. crane
- B. brine
- C. pristine
- D. quarantine

34. Not all EDs in verbs sound alike. Which ED is different?

- A. She failed to get the needed answer
- B. She was not granted an audience
- C. She wanted a chaperone
- D. She signed a contract

35. Quantitative data are numerical, while qualitative are non-numerical and more difficult to quantify for a social research study. Identify what may be more qualitative than quantitative.

- A. Divorce
- B. Single mother
- C. Love feelings
- D. Annulments

36. What symbol is used to underline the text?

- A. Ctrl + P
- B. Ctrl + R
- C. Ctrl + D

D. Ctrl + U

37. The entry of data and commands into the computer system is made possible through the:

- A. Keyboard
- B. Diskette
- C. Printer
- D. Monitor

38. Which of the following audiovisual sets of equipment can best project visual materials in a classroom that is difficult to darken?

- A. Filmstrips
- B. Color materials
- C. Opaque projector
- D. Overhead projector

39. Self-evaluation can be done in various ways, but this is not one of them:

- A. Peer feedback session
- B. Written reflection
- C. Self-videotape of class performance
- D. Use of an evaluation instrument

40. What is meant by the statement: Values are absolute. Values are:

- A. Changing
- B. Subjective
- C. Personal
- D. Unchanging

41. Four mangoes cost P29.00. At that price, what will 2 ½ dozen mangoes cost?

- A. P870.00
- B. P348.50
- C. P188.50
- D. P217.50

42. The hypotenuse of a right triangle is 25 feet. If one leg is 24 feet, what is the length of the other leg?

- A. 5 ft
- B. 6 ft
- C. 20 ft
- D. 7 ft

43. Give the value of a, if the statement is $4ab = 20$ and $b = 5$.

- A. 4
- B. 2
- C. 1
- D. 3

44. If 500 or 25% of a graduating class are girls, how many are graduating?

- A. 2000
- B. 5000
- C. 10,000
- D. 20,000

45. A man sleeps 6 hours a day. What is the ratio of the time he is asleep to the time he is awake?

- A. 1:6
- B. 1:4
- C. 1:3
- D. 1:2

46. At 25% discount, Ms. Santos paid P150.75 for a bag. What was the original price of the bag?

- A. P37.69
- B. P150.75
- C. P201.00
- D. P603.00

47. An elevator can carry a maximum load of 605 Kg. How many passengers of weight 50.5 Kg each can the elevator hold?

- A. 12
- B. 11.9
- C. 11
- D. 10

48. In a survey to determine the reaction of people about having a new GSIS card, 80% of the 2400 people voted in favor of the new card. How many of the voters did not vote for the new card?

- A. 1920
- B. 1600
- C. 800
- D. 480

49. It takes 20 men to build a building for 60 days. Assuming that all men work at this rate, how many men will be needed to build the same building in 15 days?

- A. 5
- B. 80
- C. 100
- D. 120

50. Which of the following lengths is the longest?

- A. 555 cm
- B. 5.5 m
- C. .005 km
- D. 5555 mm

51. What is the radius of a circle whose area is 25 cm^2 ?

- A. 25 cm^2
- B. 25 cm
- C. 5 cm^2
- D. 5 cm

52. The first 5 numbers in a sequence are 2, 3, 5, 8 and 12. What is the 7th number in the sequence?

- A. 15
- B. 19
- C. 23
- D. 25

53. What is the probability of getting a multiple of 3 when a die is tossed?

- A. $\frac{1}{6}$
- B. $\frac{1}{4}$
- C. $\frac{1}{3}$
- D. $\frac{1}{2}$

54. What do you call an equality of two ratios?

- A. Quotient
- B. Fraction
- C. Percentage
- D. Proportion

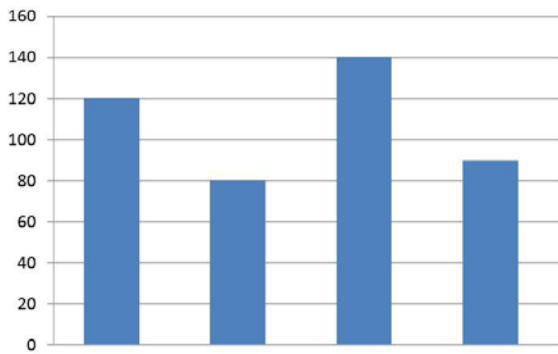

55. Which of the following numbers is prime?

- A. 91
- B. 121

C. 101

D. 119

56. The graph shows the number of socks, belts, handkerchiefs and neckties sold by a store in one week.

The names of the items are missing from the graph. Socks were the item most often sold, and fewer neckties than any other item were sold. More belts than handkerchiefs were sold. How many belts were sold?

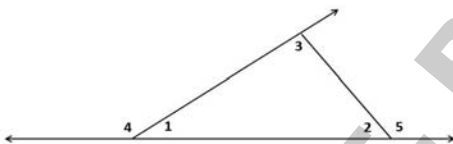

A. 80

B. 90

C. 120

D. 140

57. Refer to the figure. Given: angle 2 = 55° and angle 3 = 80° . What is angle 4?

A. 95°

B. 105°

C. 115°

D. 135°

58. The following are the results of the recent achievement test in Mathematics of the four divisions:

Division	Mean	Standard Deviation
I	34	4.5
II	34	3.0
III	23	1.0
IV	20	2.0

Which division performed best?

- A. I
- B. II
- C. III
- D. IV

59. What is the value in grams of 3.5 kilograms?

- A. 35
- B. 350
- C. 3500
- D. 35000

60. An empty box weighs 1.3 kilos. A Math book weighs 1.5 kilos. Which expression gives the weight of the box when filled with the y Math books?

- A. $1.3y + 1.5$
- B. $1.5y - 1.3$
- C. $1.3 + 1.5y$
- D. $1.3y + 1.5y$

61. In how many ways can 5 basketball players be chosen from a group of 9 players?

- A. 126
- B. 212
- C. 15,120
- D. 362,880

62. The first 5 numbers in a sequence are 2, 3, 5, 8 and 12. What is the 7th number in the sequence?

- A. 15
- B. 19
- C. 23
- D. 25

63. Lulu spends 15% of her monthly income for her house rental, 10% for electric bill and 25% for food and other miscellaneous expenses. After paying all these expenses, she still has P6000 left. How much does she earn every month?

- A. P15,000
- B. P12,000
- C. P9,000
- D. P8,000

64. Ms. Garcia weighed 60 Kg. She lost 4 Kg on her first week of exercise, she gained 2 Kg on her second week, lost 6 Kg on the 3rd week and remained her weight during the fourth week. What was her weight on the 4th week?

- A. 52 Kg
- B. 58 Kg
- C. 68 Kg
- D. 72 Kg

65. What is the sum of the measures of the interior angles of an icosagon?

- A. 2850
- B. 3240
- C. 3140
- D. 3100

66. If a letter is chosen at random from the English alphabet, find the probability that the letter to be chosen will be after the letter G:

- A. $\frac{5}{26}$
- B. $\frac{19}{26}$
- C. $\frac{7}{26}$
- D. $\frac{10}{26}$

67. Five bananas weigh as much as 3 star apples. In this rate, how many star apples will weigh as much as 45 bananas?

- A. 27
- B. 30
- C. 33
- D. 36

68. In a university, the ratio of female professors to the male professors is 8:5. If there are 75 male professors, how many are female professors?

- A. 120
- B. 180
- C. 225
- D. $375/8$

69. A rectangle has sides of 10 and 12 units. How can the area of a square be computed if it has the same perimeter as the rectangle?

- A. Add 10 and 12, double the sum, divide by 4, then multiply by 4
- B. Add 10 and 12, double the sum, divide by 4, then multiply by 4
- C. Add 10 and 12, double the sum, divide by 4 then square the quotient
- D. Add 10 and 12, double the sum, then multiply by 4

70. To find perimeter (P) of a rectangle that has a length of 16 inches and width of 12 inches, which of the following equation can be used?

- A. $P = 2(16)(12)$
- B. $P = (16) + (12)$
- C. $P = 2(16) + (12)$
- D. $P = 2(16+12)$

71. What is the cube root of $(3^2 \times 3)$?

- A. 9
- B. 3×3
- C. 27
- D. 3

72. The grades in Mathematics of the students in Section A are as follows: 80, 75, 60, 95, 100. What is the range of their group?

- A. $80 - 95$
- B. $60 - 100$
- C. $60 - 95$
- D. $70 - 100$

73. What number subtracted from each 71 and 58 will result in two perfect squares?

- A. 42
- B. 3
- C. 22
- D. 35

74. A certain number is doubled and increased by 10 is 14. What is the number?

- A. 5
- B. 4
- C. 2
- D. 3

75. Mrs. Santos borrowed from a friend P50,000.00 at 5% interest per month. She contracted the loan in December 2015. How much will she pay after a year?

- A. P80,000.00
- B. P100,000.00
- C. P150,000.00
- D. P130,000.00

76. The average of four numbers is 28. If three of the four numbers are 18, 28 and 36, what is the fourth number?

- A. 29
- B. 30
- C. 48
- D. 40

77. What do you call the arrangement of a number of objects in a definite order and arrangement?

- A. Probability
- B. Permutation
- C. Combination
- D. Factorial

78. What percent of P340.00 is P30.60?

- A. 7%
- B. 6%
- C. 8%
- D. 9%

79. Two times a certain number added to 30 gives the same result as three times the same number subtracted from 90. What is the number?

- A. 20
- B. 30
- C. 15
- D. 12

80. If p is a positive integer in the equation $12p = q$, then q must be a:

- A. Positive odd integer
- B. Negative even integer
- C. Negative odd
- D. Positive even integer

81. Classes in science follow the scientific procedure. What step in experiments follows the definition of the problems?

- A. Gather relevant materials
- B. Formulate hypothesis
- C. State generalization
- D. Draw conclusions

82. Which of the following does not belong to life science?

- A. Cytology
- B. Physics
- C. Botany
- D. Genetics

83. What nutrients can be absorbed in our body without undergoing digestion?

- A. Fats
- B. Vitamins
- C. Carbohydrates
- D. Proteins

84. When a molecule of ink turns glassful of water into blue, what process has occurred?

- A. Solution
- B. Osmosis
- C. Absorption
- D. Diffusion

85. What is the common cause of the temporary wilting of plants at noon?

- A. Increased condensation

- B. Rapid respiration
- C. Rapid transpiration
- D. Increased oxidation

86. Which among the following are duplicated during the process of mitosis?

- A. Centrosomes
- B. Centromeres
- C. Chromosomes

Chloroplasts

87. Which of the following means development of egg without fertilization?

- A. Meiosis
- B. Parthenogenesis
- C. Spermatogenesis
- D. Oogenesis

88. In a double stranded DNA, which of the following are complimentary to each other?

- A. Members of a base pair
- B. Ribose and organic base
- C. Thymine and cytosine
- D. Adenine and guanine

89. Fishermen are advised not to drink ocean water because it can cause:

- A. Dehydration of the cells
- B. Bursting of the cells
- C. Increase in cell pressure
- D. Poisoning of the cells

90. In which kingdom should mold be classified?

- A. Plantae
- B. Protista
- C. Animalia
- D. Fungi

91. The "red tide" phenomenon causes what particular marine organism to be poisonous for human consumption?

- A. Arthropods
- B. Algae
- C. Earthworms
- D. Mollusks

92. Which is the method that uses organisms to clean up toxic waste?

- A. Monoculture
- B. Deforestation
- C. Carrying capacity
- D. Bioremediation

93. Why do farmers and gardeners often treat the soil with ammonium sulfate?

- A. It increases the oxygen and content of the soil
- B. It increases the nitrogen content of the soil
- C. It reduces the acidity of the soil
- D. It acts as a pesticide

94. Which of the following environmental conditions has been blamed for the usual occurrence of Fish Kills?

- A. Silting of lakes
- B. Acid rain
- C. Eutrophication
- D. Atmospheric pollution

95. In each cardiac cycle, the heart goes through a system contraction. What is this phase called?

- A. Systole
- B. Diastole
- C. Diastole arc
- D. Systole arc

96. Which disease affects the air sacs of the lungs and is common among cigarette smokers?

- A. Asthma
- B. Tuberculosis
- C. Emphysema
- D. Tracheal disorder

97. What is the connective tissue that is made up of tough fibers that are strong enough to connect a bone to another bone in our body?

- A. Tendon
- B. Cartilage
- C. Joints
- D. Ligament

98. Which antidote would have a similar effect if vinegar or citrus juice were not available?

- A. Raw egg white
- B. Water
- C. Vegetable oil
- D. Milk

SITUATION: The class was asked to design an experiment to test the effect of detergent on fish. One group came up with his experimental design. For detergent they got Ariel, Surf and Tide. For fish they had tilapia, goldfish and janitor fish contained in different sizes and shapes of bottles. To the tilapia they put 1 tbsp of Ariel. To the goldfish, they put 1 tbsp of Surf and to the janitor fish, 1 tbsp of Tide.

99. How can the experimental design be improved?

- I. Make use of the same type and size of fish
- II. Increase the number of fish and reduce the number of detergent brands involved
- III. Focus on one independent at a time, e.g brand of detergent

- A. I only
- B. I and III
- C. I and II
- D. II only

100. What is defective with the experimental design?

- A. There is no testable hypothesis
- B. There are a lot of biases involved
- C. It is very complicated
- D. There are so many independent variables the effect of which tested

101. What is the dependent variable?

- A. The effect of detergent on fish
- B. The amount of water
- C. The brand of detergent
- D. The amount of detergent

102. What is the control group?

- A. The tilapia with 1 tbsp of Ariel
- B. Cannot be determined
- C. The goldfish with 1 tbsp of Surf
- D. The janitor fish with 1 tbsp of Tide

103. Riders in a bus are pushed forward during a sudden stop. Which law of motion provides an explanation?

- A. Law of Inertia
- B. Law of Interaction
- C. Law of Universal Gravitation
- D. Hooke's Law

104. Which instrument is used to detect earthquake intensity?

- A. Anemometer
- B. Barograph
- C. Seismograph
- D. Clinometer

105. The handle of a spoon dipped in a cup of hot water becomes warm. What is the method of heat transfer?

- A. Condensation
- B. Radiation
- C. Convection
- D. Conduction

106. Which of the following physical changes involve adding heat to a substance?

- A. Evaporating and condensing
- B. Boiling and condensing
- C. Condensing and freezing
- D. Melting and boiling

107. Who is the French physicist who, while studying about fluorescence working with uranium compound, accidentally discovered radioactivity?

- A. Marie Curie
- B. Antoine Becquerel
- C. William Roentgen
- D. John Dalton

108. Radium was discovered by:

- A. Pierre and Marie Curie
- B. Albrecht Van Haller
- C. Joseph John Thomson
- D. Albert Einstein

109. What motion of the earth causes the occurrence of night and day?

- A. Revolution
- B. Rotation
- C. Solar translation
- D. Inclination of axis

110. The equinox usually occurs on or close to March 21 and September 23.

- A. Time when heavy rain falls
- B. Time when days are longer than the nights
- C. Time when days are shorter than the nights
- D. Time when day and night are equal length all over the Earth

111. In which layer of the atmosphere does weather occur?

- A. Stratosphere
- B. Ionosphere
- C. Troposphere
- D. Mesosphere

112. Planets and stars are visible if one uses properly a:

- A. Horoscope
- B. Binocular
- C. Telescope

D. Microscope

113. The point in the Earth's orbit when the Earth is farthest from the sun is called:

- A. Perihelion
- B. Aphelion
- C. Parallax
- D. Perigee

114. Two pots of the same size are filled with boiling water. One pot is colored white and the other is black. In which pot will water cool faster?

- A. Will cool at the same rate
- B. In white pot
- C. In black pot
- D. In both pots

115. Heat is the total kinetic energy of all the molecules of an object and is measured in calories or:

- A. Kelvin
- B. Joules
- C. Centigrade
- D. Newton

116. A storm or a group of atoms which has an excess or deficiency of electrons is called:

- A. Proton
- B. Molecules
- C. Electron
- D. Ion

117. The product of a reaction between alcohol and organic acid is:

- A. Ester
- B. Ether
- C. Ketone
- D. Aldehyde

118. What factor is responsible for the objects loss of weight when immersed in liquid?

- A. Specific gravity
- B. Atomic structure
- C. Molecular arrangement
- D. Buoyant force

119. Water has a higher specific heat than iron. What does this mean?

- A. Water is denser than iron
- B. Water is hotter than iron
- C. Water heats more rapidly than iron
- D. Water heats more slowly than iron

120. In the Atlantic region, a storm is called:

- A. Typhoon
- B. Storm
- C. Cyclone
- D. Hurricane

121. Which characterizes a psychologically healthy person?

- A. Pre-occupied only with their interest
- B. Concerned with goals beyond themselves
- C. Feels superior over others
- D. Can't accept others as they are

122. Which human right violation is a deliberate and systematic extermination of an ethnic or national group?

- A. Genocide
- B. Politicide
- C. Homicide
- D. Parricide

123. To what classification of rights does the right to live and to love belong?

- A. Political
- B. Natural
- C. Statutory
- D. Constitutional

124. What does a professional code of ethics prescribe for all?

- A. Moral standards and ethical behavior
- B. Rules and regulations in practicing the profession
- C. Strict implementation of laws of the land
- D. Civic-mindedness and social consciousness

125. "Man is to be hailed as a social being." What does this line mean?

- A. He necessarily attends social events
- B. He must introduce himself in social gatherings
- C. He does not live only for himself
- D. He does not need other people

126. What does "capital" in economics refer to?

- A. Investment and loss computed
- B. Outcome of a business transaction
- C. Money/machines invested to transact business
- D. Profit and labor spent for the business

127. When a combination of independent business organizations form to regulate production, pricing and marketing of goods by the members, which term applies?

- A. Cartel
- B. Monopoly
- C. Depression
- D. Inflation

128. Why is the Price Tag Law important?

- A. To show that the product is of high quality
- B. To show the price and ask for more discount
- C. To show the price and to attract buyers
- D. To discourage and minimize price haggling

129. What goods are increasingly demanded when income increases?

- A. Substitute goods
- B. Normal goods
- C. Prestige goods
- D. Inferior good

130. Free trade means:

- A. Levels of taxing is mutual between countries
- B. Goods are all imported
- C. Goods come in untaxed
- D. Government restrict entry of identified goods

131. What does a "nuclear family" consist of:

- A. Grandfathers and grandmothers
- B. Father, mother, sons and daughters
- C. Sons, daughters and cousins

D. Sons, daughters and in-laws

132. Which peace efforts are most government engaged in when they have representatives in other countries to promote international cooperation and harmony?

- A. Diplomacy
- B. Disarmament
- C. International organization
