INTRODUCTION

Republic Act No. 7836 also known as the “Philippine Teachers Professionalization Act of 1994” is an act to strengthen the regulation and supervision of the practice of teaching in the Philippines and prescribing a Licensure Examination for Teachers and for other purposes.

According to the latest statistics from the Commission on Higher Education (CHED), for every 100 enrollees in teacher education programs in the Philippines, only 16 will eventually graduate, on the average. On their first try, only five of these 16 graduates will pass the Licensure Examination for Teachers (LET), an exam graduates need to take before they can teach in public schools, given the country’s average national test-taker passing rate of 30%. For the other eleven repeaters, the average gets lower.

The Licensure Examination for Teachers (LET) comprises of two parts for the Elementary Education namely: General Education (40%) and Professional Education (60%), and three parts for the Secondary Education namely: General Education (20%), Professional Education (40%), and Specialization (40%). For both elementary and secondary, Professional Education gets the highest percentage needed to pass the LET.

General Education topics include English, Social Science, Mathematics, Information and Communication Technology, General Science, and Filipino.

Professional Education topics include Teaching Profession, Social Dimensions in Education, Principles of Teaching, Educational Technology, Curriculum Development, Facilitating Learning, Child and Adolescent Development, and Assessment of Learning.

This “Yellow Book” by Dr. Carl E. Balita, consists of hot LET topics and past board questions that are most frequently asked in the said board exam. It is a joint effort by Dr. Carl E. Balita himself and his researchers comprises mostly of board toppers. This includes essential concepts on both General and Professional Education.

It covers 1000 questions from important competencies of LET and choices are limited to two only. This strategy will increase retention and will help the reviewees be familiarized with the topics easier.

GENERAL EDUCATION

1. I can't find _____ calculator; may I use _____, Richard?
A. My, his B. My, yours
2. On your vacation in Palawan, please if you chance upon Arturo, please give _____ my warm regards.

- A. St. Augustine B. St. John

206. Reason must be used in understanding the existence of God. Who advocated this philosophy?

- A. St. John B. St. Thomas Aquinas

207. This field deals with the study of how human beings behave.

- A. Psychology B. Ethics

208. If principles and theories of human behavior were to applied to teaching and learning, the field will be called

- A. Educational philosophy
B. Educational psychology

209. The father of modern psychology

- A. Sigmund Freud
B. Wilhelm Wundt

- 210.** Which of the following is considered as the lowest form of learning?
- A. Perceiving B. Responding
- 211.** Which statement on human intelligence is correct?
- A. It is verbal ability and abstract reasoning
B. It consists of multiple intelligences
- 212.** Of the following, which is an example of natural altered state of awareness?
- A. Sedation B. Sleep
- 213.** What is Ausubel's belief on the learning of the children?
- A. Learn best when given ample opportunity for autonomous discovery
B. Children can be taught concepts in similar ways that adults are taught as long as the materials is meaningful
- 214.** A behavioural psychologist would probably say that:
- A. The mind is most important when analyzing behavior
B. We act based on rewards and punishments received
- 215.** Which characterizes psychologically healthy people?
- A. Concerned with goals and beyond themselves
B. Feels superior over others
- 216.** Which of the following is not true of mentally retarded children?
- A. Grasps things easily
B. Short attention span
- 217.** If a person claims he has a strong sense of self-efficacy, which is not reflective of him/her?
- A. View challenging problems are tasked to be mastered
B. Avoid challenging tasks

- 218.** Which statement is not true of human growth and development?
- A. Individual undergoes similar stages of development
 - B. The rate of development is the same in everyone
- 219.** The tendency to imitate elders is very strong among children. Teachers should therefore be very good _____
- A. Role models
 - B. Disciplinary
- 220.** Which term refers to the social aspects of sex or to socially defined roles and expectations that are associated with sex?
- A. Social differentiation
 - B. Gender
- 221.** Which need is highlighted by the statement “Children cannot learn with empty stomach”?
- A. Physiological
 - B. Esteem
- 222.** Which idea contradicts the concept of free will?
- A. Evolution theory
 - B. Biological determinism
- 223.** Which human need is considered basic?
- A. Security
 - B. Wealth
- 224.** Which among the following represents a detrimental aspect of Philippine culture and society?
- A. Palabra de honor
 - B. Ningas cogon
- 225.** Material culture refers to the tangible and concrete objects produced by man. Which are examples of material culture?
- A. Sinulog celebrations
 - B. Stone walls of Tasadays

- 226.** What is the term for the unpleasant sensation of frustration when a traditional bound Filipino goes to the U.S. and observes the open display of love and emotions?
- A. Culture shock
 - B. Culture phobia
- 227.** When teachers brand as “pilosopo” students who ask questions, they communicate the negative sociological principle that
- A. Asking questions in class is a sign of inattentiveness
 - B. Passive and conformity are worth perpetuating
- 228.** Which of the following best describes the concept of society?
- A. The same as culture or nation
 - B. Organized interaction of people sharing land and culture
- 229.** The primary biological limitation of natural family planning is that it is:
- A. Goes against the tenets of the Catholic church
 - B. Only suitable for females with regular periods
- 230.** What is the bet reason for holism in art education?
- A. Everyone is a potential artist with talents of his or her own
 - B. Art means the beautiful in human creativity
- 231.** Art is the handmaid of religion. Why do Jews and Muslims allow signs and symbols and not human beings in religious art?
- A. People might worship images themselves
 - B. Signs and symbols display hidden mysteries
- 232.** Due to close family ties, Filipino families are generally
- A. Nuclear
 - B. Extended
- 233.** If the family is matriarchal, who will the leader be?
- A. Mother
 - B. Grandmother

234. In what sense is the Filipino likened to a bamboo?
- A. He is flexible B. He is sturdy
235. The Filipino's indomitable spirit is shown in his ____.
- A. Self-reliance B. Ability to survive
236. On which Filipino trait does Gawad Kalinga build on?
- A. Bayanihan spirit
B. Joy and humor
237. Out of used illustration boards, students came up with cute and functional bags for school children. Which Filipino trait is exhibited?
- A. Creativity B. Adaptability
238. The Filipinos are deeply religious; however, sometimes this religiosity instills the negative attitude of:
- A. Resignation, which leads to doing nothing to improve one's condition
B. Total surrender to God in times of helplessness is best
239. Then Philippines is an example of a predominantly _____ country in the world.
- A. Christian B. Muslim
240. Which of the following types of societies came first during societal evolution?
- A. Horticultural B. Industrial
241. In a sociological sense, earning a 1.0 Grade Weighted Average (GWA) makes you a deviant because:
- A. You could only have gotten that CGWA by cheating
B. A GWA of 10 is not the norm

- 242.** What is the underlying theory of the belief that the DepEd and other stakeholders should exert deliberate efforts to construct a satisfying culture for education?
- A. Cultural Revitalization Theory
 - B. Anarchistic Theory
- 243.** Of the following remarks from workers, which deserve a higher wage owing to effective speech what increases work efficiency?
- A. I have strong hands, willingness and honesty in work
 - B. I like people and listen to respond their opinions and needs
- 244.** What problem can result owing to bias among parents and the youth towards manual or technical occupations, e.g. Masons, mechanics, plumbers, etc?
- A. White collar mania
 - B. Blue collar mania
- 245.** Which among the following are qualities of an authoritarian parent?
- A. High level of control and a low level of warmth
 - B. High level of both control and warmth
- 246.** An individual who can find minute differences between small objects possesses which of the following?
- A. A high difference threshold
 - B. A low difference threshold
- 247.** Among the developing Asian nations, which of the following is widely promoted to be the better solution to poverty and unemployment?
- A. Urbanization
 - B. Industrialization
- 248.** The method of classical conditioning begins with:
- A. The unconditioned stimulus and response
 - B. The conditioned stimulus and response

- 249.** What does “capital” in economics refer to?
- A. Investment and loss computed
 - B. Money/machines invested to transact business
- 250.** What results when the government spends more than what it collects in the form of taxes?
- A. Fiscal overspending
 - B. Fiscal deficit
- 251.** One of the major functions of taxes is to finance real government expenditures. This function can simply be stated as to:
- A. Promote development
 - B. Raise revenues
- 252.** What is the type of cooperative which promoted thrift among members and creates funds in order to be able to grant loans?
- A. Service
 - B. Credit
- 253.** Which term refers to the measures undertaken by the government which would remove anything that hinders the entry of foreign products, services and capital between countries?
- A. Liberalization
 - B. Globalization
- 254.** What do we call the sum of money collected for our use of a road, bridge and highway?
- A. Tax
 - B. Toll
- 255.** Which term refers to duties payable on goods, whether imported or exported?
- A. Subsidiary
 - B. Tariff
- 256.** When one controls the supply/production of goods, this implies
- A. Inflation
 - B. Monopoly

257. To stimulate the nation's economy and increase employment, former President Diosdado Macapagal:
- A. Abolished government repressive controls
 - B. Standardized the salaries of government employees
258. Which of the following best described the goal of agrarian reform?
- A. Abolish share tenancy in favor of less tenancy
 - B. Distribute all arable lands to the landless
259. Which task does an operating system for a computer perform?
- A. Data compression
 - B. Memory management
260. Which one links the computers to base computer making it possible to share software materials?
- A. Internet
 - B. Local Area Network
261. Which enables the computer to communicate with other computers over the telephone?
- A. Modem
 - B. Network
262. When is it most important to scan a computer's drives for viruses? Immediately after _____.
- A. Downloading a text file from a government website
 - B. Installing software from a disk created by a friend
263. Like the typewriter, the computer has a _____.
- A. Screen
 - B. Keyboard
264. Which refers to a single phrase or word that tells the computer to do something with a program or file?
- A. Command
 - B. Computer program

265. A secret word that must be entered into the computer before a person is allowed to get or change information is called _____:
- A. Password B. Input
266. In writing a letter, which productivity tool is used?
- A. Publisher B. Word processing
267. Which application program provides users with a means to organize and present information through the use of text, numbers, graphs, sounds and visual images?
- A. Publisher B. Multimedia
268. What symbol is used to make the text bold?
- A. Ctrl + B B. Ctrl + V
269. _____ means the graphics will be displayed more than once.
- A. Tiling B. Tagging
270. Which keyboard information is used to open a document in Windows operating systems?
- A. Ctrl + D B. Ctrl + O
271. Which is the brain of the computer?
- A. RAM B. CPU
272. The acronym HTML means Hyper Text Mark-Up
- A. Language B. Label
273. Three-dimensional image reproduced from a pattern of interference is called
- A. Hologram B. Network

274. Activities connected by a computer system are described as
- A. Network B. Online
275. Which among these types of graphs best illustrates the progress in academic grades over four quarters?
- A. Line graph B. Bar graph
276. What illustrates a particular data series through rectangles?
- A. Line graphs B. Bar graph
277. A social network services available through the computer is ____.
- A. I-pad B. Facebook
278. Which program application provides users with a means to organize and present information through the use of text, numbers, graphs, sounds, and visual images?
- A. Multimedia B. Spreadsheet
279. What refers to a computer program?
- A. Software B. Terminal
280. The information highway is called ____.
- A. Internet
B. Information technology
281. In the phrase, "six times a number increased by seven raised to the fifth power, the exponent is ____.
- A. 5 B. 7
282. The island of Luzon is estimated to be 100, 000 square kilometers. In exponential form, it can be expressed as ____.
- A. 1×10^6 B. 10^5

- 283.** How many prime numbers are there between 1 and 100?
- A. 25 B. 24
- 284.** What are the prime factors of 120?
- A. $2 \times 3 \times 4 \times 5$ B. $2 \times 2 \times 2 \times 3 \times 5$
- 285.** What are the prime factors of 56?
- A. 7, 4, 2 B. 7, 2, 2, 2
- 286.** The least common multiple of 2, 3, and 4 is _____.
- A. 12 B. 24
- 287.** What is the LCM of 5, 2, and 7?
- A. 35 B. 70
- 288.** What are the least common multiple of 12 and 60?
- A. 120 B. 360
- 289.** The largest common factor of two or more numbers is called?
- A. Greatest common factor
B. Prime factor
- 290.** The greatest common factor of 22, 15, 7 is
- A. 1 B. 2
- 291.** Among the given decimals, which is equivalent to 9%
- A. 0.09 B. 0.9
- 292.** What percent if 75 is 15?
- A. 20% B. 30%
- 293.** Total amount after adding 8% interest for 3 months of P 6, 000?
- A. P 6, 120 B. P 10, 500

294. Iah left her house at 2 PM travelling at a constant speed. At 4 PM, her brother Prince drove at 70 kph to catch up to her. If Mia was overtaken at 9 PM, at what speed was she travelling?
- A. 40 kilometers per hour
B. 50 kilometers per hour
295. The probability of getting a 2 after rolling a fair die is
- A. $\frac{1}{6}$ B. $\frac{1}{2}$
296. If a die is rolled, what is the probability of getting a number divisible by 2?
- A. $\frac{1}{2}$ B. $\frac{1}{3}$
297. A ball is drawn at random from a box containing 6 red balls, 4 white balls, and 5 blue balls. Find the probability that it is blue.
- A. $\frac{1}{3}$ B. $\frac{2}{5}$
298. In how many ways can 5 girls be seated in a row of 5 seats?
- A. 120 B. 100
299. A recipe calls for 2 cups of milk for every 7 cups of flour. A chef will use 28 cups of flour, how many cups of milk must he have?
- A. 8 B. 14
300. In a university, the ratio of female professors to the male professors is 8:5. If there are 288 female professors, how many are male professors?
- A. 180 B. 120
301. How many seconds are there in a 24-hour day?
- A. 86,400 B. 84,600

302. What number must be subtracted from both numerator and denominator of the fraction $\frac{11}{23}$ to give a fraction whose value is $\frac{2}{5}$?
- A. 4 B. 3
303. The sum of three consecutive integers is 123. What are the integers?
- A. 40,41,42 B. 39,40,41
304. Which of the following is a product of 13 and an integer?
- A. 1326 B. 1323
305. Simplify $6 - (3 - (4) + 11 + 8)$
- A. 20 B. -20
306. Simplify $5 - (2 - (-4) + 11 - 8)$
- A. 4 B. -4
307. Simplify: $x - 2y(x - 8y) - (-6xy + 7x)$
- A. $-6x + 3xy + 24y^2$ B. $6x - 3xy - 24y^2$
308. Simplify: $(8x - 24) / (2x^2 - x - 15)$
- A. $8 / (2x + 5)$ B. $4 / (x - 13)$
309. Subtract $5a - 2b$ from the sum of $7a + 5b$ and $a + b$
- A. $3a + 14b$ B. $-3a + 14b$
310. If 50% of x is 20, what is 20% of x ?
- A. 16 B. 8
311. The mean of x and negative five is ten. What is the value of x ?
- A. 25 B. 20

- 312.** Janus took 6 tests in Art. She got an average of 76% on quizzes 1 and 2 while she got an average of 85% on quizzes 3 to 6. What is her average score for the six tests?
- A. 82% B. 82.5%
- 313.** The following are Mathematics test scores: 10, 15, 12, 18, 16, 24, 12, 19, 14. What is the median score?
- A. 14 B. 15
- 314.** The scores of five students in an English exam are as follows: 80, 75, 60, 95, and 100. What is the average score?
- A. 82 B. 83
- 315.** In an English test, eight students obtained the following scores: 12, 10, 13, 11, 15, 20, 19, 17. What is the median score?
- A. 15.5 B. 14
- 316.** The following measures are affected by outliers, except
- A. Median B. Mean
- 317.** Given the test scores 10, 12, 14, 10, 12, 11, 10, 11, 12, 13, 10, 12, 12, 11, 10, the distribution is
- A. Bimodal B. Unimodal
- 318.** The sum of the sides of a polygon is the ____.
- A. Perimeter B. Area
- 319.** All right angles are
- A. Equal B. Supplementary
- 320.** The altitudes of the base of a triangle are 24 meters, and 5 meters respectively. What is its area?
- A. 60 square meters
B. 50 square meters

321. Kalian nagsimula ang pagkakaraoon ng modernisasyon ng wikang pambansa?
- A. 1987 B. 1974
322. Ang katumbas ng igkas ng titik Q sa kasalukuyan ay
- A. Kuyu B. Kyu
323. Hanapin mo ako sa _____ ng mga sasakyan.
- A. Abangan B. Pag-abangan
324. Gagawin mo lang yan _____ mo ako mahal.
- A. Kung di B. Kungdi
325. _____ ka na sa ilog. Nanginginig ka na.
- A. Humango B. Umahon
326. Kinakailangang _____ ang damit sa Huwebes.
- A. Magyari B. Mayari
327. Limang oras na pero hindi ko pa rin _____ ang nawawalang aklat.
- A. Makita B. Mahanap
328. Pahalagahan ang pangaral _____ hindi malihis ng lands. Anong pangatnig ang angkop sa pahayag na ito?
- A. Nang B. Habang
329. Nakapandidiri ang asong kalye na _____.
- A. Madumi B. Dumumi
330. Anong salita ang nagsisilbing salitang ugat ng PINAGLABANAN?
- A. Laban B. Labanan

- 331.** Alin sa mga sumusunod ang pangungusap na may paksa?
- A. Nagbabasa sila sa aklatan.
B. Kay ganda ng paglubog ng araw.
- 332.** Huwag makisama kay Zoilo dahil buwaya siya. Ang salitang buwaya ay tumutukoy sa kahulugang
- A. Denotasyon B. Konotasyon
- 333.** Uri ng pangatnig na ginagamit sa pagpili, pagbubukod at pagtatangi.
- A. Pamukod B. Paninsay
- 334.** Bantas na ginagamit sa pagitan ng panlaping ika at tambilang
- A. Gitling B. Panaklong
- 335.** Ano ang tawag sa tatlong magkakasunod na tuldok na ginagamit upang ipabatid na may bahaging hindi sinipi mula sa talata?
- A. Ellipsis B. Sintesis
- 336.** Uri ng pagbabagong morpoponemiko na gumagamit ng pagpapapalit ng posisyon ng ponema sa salita.
- A. Asimilasyon B. Metatesis
- 337.** Uri ng pagsusulat na ang pokus ay ang imahinasyon ng manunulat upang pukawin ang damdamin.
- A. Jornalistik B. Malikhain
- 338.** Alin sa mga sumusunod ang nararapat sa komunikasyon na pasulat?
- A. Lakas ng boses
B. Maayos na pagpapalugit
- 339.** Ano ang kalabang mortal ng pakiking?
- A. Talinghaga B. Ingay

340. Pahayag na pasaklaw na nabubuo sa pamamagitan ng personal na panlasa o pagpili.
- A. Subjective generalization
 - B. Analytical generalization
341. Dulong pampanitikan na nagbibigay diing sariling panlasag bumabasa. Kilala rin ito bilang reader-response theory.
- A. Antropolohiya
 - B. Impresyonista
342. Proseso ng paghahatid ng saloobin, opinion, karunungan sa pamamagitan ng makabuluhang tunog.
- A. Pakikinig
 - B. Pagsasalita
343. Nakikipagaway ka sa speaker. Ito ay pakikinig na
- A. Pasibo
 - B. Kombatib
344. Paraan ng pagbasa na ginagamit kung ang akda ay mahirap unawain.
- A. Muling basa
 - B. Masusis
345. Kung ang pangungusap ay, “Bilang at sukat kung mangusap ang dalaga”, paano mailalarawan ang dalaga?
- A. Mahirap unawain
 - B. Maingat
346. Isang uri ng pamamatnubay kung saan ang reporter ay lumilihis sa pamatnubay; lumilikha ito ng sariling paraan sa mga gawaing pagulat.
- A. Kombensyunal
 - B. Di-kombensyunal
347. Ibigay ang angkop na damdaming Ito ang dinadaan upang maipaabot ng tagapagsalita ang kanyang mensahe
- A. Tsanel
 - B. Fidbak

348. Ang pag-aaral ay nakatuon sa motibasyon ng mga mag-aaral sa paggamit ng kompyuter sa paggawa ng mga sulatin. Natuklasan sa pag-aaral na ito na ang ganitong pahayag ay ilalagay sa _____.
A. Abstrak B. Paradigm
349. Kung ikaw ay nagnanais lamang magpalipas ng oras, anong klaseng pagbasa ang nababagay sa iyo?
A. Scanning B. Kaswal
350. Ang kahulugan ng: My bank account is in the red.
A. Bale-wala B. Malapit na maubos
351. Ano ang damdaming napapaloob sa “Bakit gabi na’y ‘di pa siay dumarating?”
A. Pagkatakot B. Pagkagalit
352. Sa taas ng mga bilihin ngayon kahit *kahig ka nang kahig* ay wala pa ring maipon. Ano ang ibig sabihin?
A. Trabaho ng trabaho
B. Hanap nang hanap
353. Ang pahayagan ay hindi dapat maglathala ng anumang uri ng pagbibintang na makasisira sa reputasyon nang di muna nagbibigay ng pagkakataon sa nasasakdal na marinig ang kanyang panig. Ito ay _____.
A. Patas na pamamahayag
B. Makatarungang pakikitungo
354. “You can count on me,” Ang pinakamalapit na salin nito ay _____.
A. Maaasahan mo ako
B. Bilangin mo ako
355. “Malalim ang bulsa,” ng kanyang Nanay. Ang ibig sabihin nito ay _____.
A. Walang pera B. Kuripot

356. Siya ay *may kutsarang pilak ng ipinanganak*. Ito ay nangangahulugang _____.
- A. Masalita B. Mayaman
357. “Panahon na upang magdilat ng mata at makisangkot sa mga usapin.” Ito’y nagpapahiwatig na _____.
- A. Magising sa katotohanan
B. Idilat ang mga mata
358. “Ang lumalakad ng mabilis, kung matinik ay malalim.” Ano ang ibig sabihin ng paalaalang ito?
- A. Ang naglalakad nang mabilis ay hindi nakakapag-isip.
B. Ang nagmamadali ay madalas magkamali.
359. Mahusay “maglubid ng buhangin” ang taong gipit. Ano ang ibig sabihin?
- A. Magsinungaling
B. Magpaikot-ikot
360. “Mahal kita, mahal kita hindi ‘to bola/ Ngumit ka man lang sana ako’t nasa langit na.” Ang salitang pampanitikan na ginamit sa linya ng kanta ay nangangahulugang _____.
- A. Sinisinta B. Napakasaya
361. Anong uri ng tayutay ang pahayag na ito? “Ang kabutihan mo sa buhay ang magiging hakbang sa pag-unlad.”
- A. Pagtutulad B. Pagwawangis
362. Alin dito ang pinakawastong salin sa pangungusap na: “I am sure he didn’t say that.”
- A. Natitiyak kong hindi niya sinabi iyon.
B. Ako ay tiyak na hindi niya sinabi iyon.
363. Ang salin sa blangko para sa blank ay halimbawa ng pagtutumbas na _____.
- A. Panghiram sa Espanyol at pagbaybay sa Filipino
B. Paggamit ng leksikong Filipino

364. “Pinutol mo/ dagkung kahoy/ dahil ditto/ gumulong ang mga bato/ ania na, ania na, ania na...” Ang linya ng awit ay nagpapatunay ng _____.
 A. Diglossic na kkalagayan ng wika
 B. Paggamit ng lalawigang antas
365. “Heto na, heto na, heto na, /wahh! Doo bidoo bidoo, bidoo, bidoo.” Alin ang nabuong salita o tunog sa linya nabuo ayon sa teoryang pooh-pooh?
 A. Wahh B. Doo bidoo
366. “Ang babae ay huwag mong tingnang isang bagay na libangan lamang kundi isang katuwang at karamay sa mga kahirapan nitong kabuhayan.” (E. Jacinto) Ang tungkulin ng wika sa linya ay _____.
 A. Panregulatori
 B. Pang-instrumental
367. Pen pen de sarapen/ de cuchillo de almasen/ haw haw de carabao batuten. Pinatutunayan ng linya ang paglaganap ng wika dahil sa _____.
 A. Pananakop B. Heograpiya
368. Pinag-aaralang mabuti ng bawa’t abogado ang _____ ng 1987.
 A. Saligang batas
 B. Batas pambansa
369. Ang paniniwala sa Diyos ay susi upang matamo natin ang _____.
 A. Kaligtasan B. Salvasyon
370. Tapos na ang klase kapag tumunog na ang _____.
 A. Batingting B. Kampana
371. Upang hindi madala ng agos ang barko, ibinaba ng mga mandaragat ang _____.
 A. Timpulan B. Angkora

372. Ang aklat ni Dr. Tinsley Harrison ang _____ sa pag-aral ng medisina.
- A. Sandigan B. Pundasyon
373. Winasak ng _____ Katrina ang maraming bahay sa New Orleans.
- A. Bagyong B. Buhawi
374. Ang pagbibigay ng diploma ay nasa huling bahagi ng _____.
- A. Programa B. Palatuntunan
375. Ang sanaysay na ito ay nagtataglay ng pangkaraniwang paksa at waring nakikipagusap lamang.
- A. Malaya B. Maanyo
376. Ang katangiang ito ng wika ay nangangahulugang ang wika ay nauunawaan ng lahat at napagkasunduan ng isang lahi/pangkat.
- A. Dinamiko B. Arbitrario
377. Ito ay naguulat ng mga tunay na pangyayari batay sa pag-aaral, pananaliksik, o pakikipanayam. Ngunit, ang paraan ng pagsulat ay kawili-wili. Ano ito?
- A. Lathalain B. Editorial
378. “Kapapasok pa lang niya sa silid.” Ang pandiwa sa pangungusap ay nasa aspetong
- A. Pangnagdaan B. Perpektibo
379. Paano mailalarawan ang isang akademing marunong tumanggap ng kritisismo para sa ikagaganda ng pananaliksik?
- A. Malikhain B. Bukas ang isipan
380. Ang wastong salin ng “You are the apple of my eye.”
- A. Ikaw ay mahalaga sa akin
B. Katuwa-tuwa ka

- 381.** Sa pangungusap na “Malakas ang boses mo”, ang salitang malakas ay isang
- A. Panguri B. Pandiwa
- 382.** Ang pagpapalitan ng mga ideya, opinyon, salaysay, sa pamamagitan ng mga sagisag ay tinatawag na _____.
- A. Talastasan B. Paglalahad
- 383.** Saan kabilang na uri ng tayutay ang pahag na: “Kapalaran, huwag ka sanang mailap.”
- A. Pagtawag B. Palit-tawag
- 384.** Ang bahaging ito ng lingwistika ang siyang nag-aaral ng mga tuntunin kung paano inaayos ang mga salita sa loob ng pangungusap
- A. Syntax B. Pragmatika
- 385.** Kung bibilangin ang pantig sa bawat taludtod ng tula, ito ang makukuha
- A. Tugma B. Sukat
- 386.** Ito ay uri ng pangungusap na tumutukoy sa pangyayaring pangkalikasan o pangkapaligiran
- A. Eksistensyal B. Phenomenal
- 387.** Sa anong bahagi ng pananaliksik matatagpuan ang mga kaugnay na literature at pag-aaral?
- A. Kabanata I B. Kabanata II
- 388.** Ang wastong kahulugan ng “The present problem is only a storm in a teacup” ay
- A. May galit B. Bale-wala
- 389.** Sa pangungusap na “Malakas ang boses mo”, ang salitang malakas ay isang
- A. Pang-uri B. Panghalip

390. Alin sa mga sumusunod ang di-mahalagang salik sa pagtatalumpati?
- A. Pagyayabang B. Okasyon
391. Ang simbolong kumakatawan sa mga bagay at mga pangungusap na nais ipahayag ng tao sa kanyang kapwa ay
- A. Wika B. Tunog
392. Tumutukoy ito sa mga salitang nakapagiisa at may kahulugan. Kilala rin itong salitang-ugat.
- A. Malayang morpema B. Di-malayang morpema
393. Anong anyo ng patanong na pangungusap ang: Dumaan ka na dito, di ba?
- A. May karugtong B. Kabalikang anyo
394. Sa anong bahagi ng pananaliksik matatagpuan ang mga lugar at babasahing mapagkukunan ng mga literature at pag-aaral.
- A. Kabanata I B. Kabanata II
395. Science provides knowledge through disciplined observation. Which of the following is not characteristic of scientific assertion?
- A. Hearsay
B. Empirical support
396. Which of the following when perceived causes action on a reaction?
- A. Stimulus B. Sound
397. Which among the following represents the smallest unit of life?
- A. Embryo B. Cell
398. Which of the following statements about living things is false?
- A. All living things have a nervous system
B. All living things are capable of reproduction

399. Which of the following best describes a group of cells that work together to perform a function?
- A. Organ B. Tissue
400. Which among the following are duplicated during the process of mitosis?
- A. Chromosomes B. Centromeres
401. Plants create their own food by absorbing and processing sunlight. The ability to produce one's own food source is a metabolic process known as:
- A. Autotrophy B. Homotrophy
402. Fungi absorb the nutrients from dead organisms. In an ecosystem what roles do they play?
- A. Carnivore B. Saprophytes
403. Which among the following cell organelles does not participate in cellular division?
- A. Cytoplasm B. Ribosomes
404. Which of the following is an example of a symbiotic relationship?
- A. Wolves working together to hunt in a pack
B. Weeds clinging to the roots of trees in your backyard
405. Which of the following is not an example of a naturally occurring sugar?
- A. Glucose B. Mitose
406. Sugar compounds such as monosaccharides, disaccharides, and polysaccharides are also classified
- A. Carbohydrates B. Proteins

407. Polysaccharides, triglycerides, polypeptides, and nucleic acids are classified as
- A. Acids and bases
 - B. Macromolecular
408. Which of the following are the components of fungal cell wall?
- A. Cellulose, lipids, and nucleic acids
 - B. Chitin, proteins, and sugar
409. What organisms would most likely be in an arctic environment?
- A. Walrus
 - B. Turtle
410. How are bats able to navigate in the dark without bumping into anything?
- A. They emit sound waves whose returning vibrations can detect the presence of objects
 - B. They have supersonic eyes
411. A species of fish lived in a lake. When a dam was constructed in the area, a group of fish was separated and populated a new pond. They then developed differing characteristics and became a distinct species. Which of the following concepts explains this speciation?
- A. Geographical isolation
 - B. Behavioral isolation
412. This demonstrates the feeding connections between all life forms.
- A. Nutrition cycle
 - B. Food web
413. Plants capture energy from the sunlight by means of molecule known as
- A. Adenosine triphosphate
 - B. Chlorophyll
414. Because it will adversely affect the populations' food supplies, the most disadvantageous source of energy is _____.
- A. Geo-thermal
 - B. Plants

415. Damage to DNA that is not repaired and then replicated can result in genetic disorders. This demonstrates _____.

- A. Mutation B. Pathology

416. Air, when mixed with sulfur oxide coming from motor vehicles and industrial plants falls to earth giving effects to living things. This polluted air is known as

- A. Acid rain B. Greenhouse rain

417. Air, flood, and water are essential elements in human existence. Carried by wind air called _____ falls to earth poisoning fish and destroying vegetation.

- A. Acid rain B. Greenhouse rain

418. You won the jackpot prize in the lottery. The prize money cannot be paid in currency but only in gold. Applying your knowledge in chemistry, select the largest amount of gold from the choices below. (Au = 197).

- A. 40.0 kilograms of gold
B. 22.4 moles of gold

419. The Kyoto protocol, which requires countries to reduce greenhouse emission, is a practice that advocates _____.

- A. Environmental protection
- B. Ecological destruction

420. Which is true of metalloids?

- A. Have properties of both metals and non-metals
B. Conduct heat and electricity less effectively than non-metals

421. An atom of silicon has a mass number of 28 and an atomic number of 14. How many protons are in this atom?

- A. 28 B. 14

422. Element X has an electron configuration of $1S^22S^22P^2$. Based on information, element X belongs to a/an _____ family.
- A. Coinage
B. Halogen
423. A toothpick can sit on the surface of water due to
- A. Surface tension B. Buoyancy
424. When the North Pole is tilted towards the sun, it is summer and when the sun shines all the time both day and night, what is this called?
- A. Midnight sun
B. Northern light
425. What type of clouds produce thunderstorms
- A. Cumulonimbus
B. Stratus
426. What is a pyroclastic flow?
- A. Poisonous gas of a volcano
B. A mixture of volcanic gas, ash and other tephra
427. Rock fragments thrown into the air during a volcanic eruption are called:
- A. Lava B. Tephra
428. Which among the following properties is a measure of how easily a mineral can be scratched?
- A. Luster B. Hardness
429. What is the numerical value for the hardest mineral on the Mohs hardness scale?
- A. 10 B. 20

430. What part of the Earth is thought to be composed of iron and nickel?
- A. Lithosphere B. Core
431. What is the partially molten layer of the Earth called?
- A. Asthenosphere B. Lithosphere
432. If there are several earthquakes in a row, what is the name of the largest of these earthquakes
- A. Mainshock
B. Tertiary shock
433. What is the location on the Earth's surface that is directly above the place where an earthquake originates?
- A. Epicenter B. Fault
434. Fats do not dissolve in water because fats ____.
- A. Are nonpolar and water is polar
B. Are polar and water is nonpolar
435. Breaking up solid speeds dissolving in a liquid by ____.
- A. Raising the temperature
B. Increasing surface area
436. The amount of substance having 6.02×10^{23} of any kind of chemical unit is called a(n):
- A. Mass number B. Mole
437. According to the modern periodic law, the chemical properties of the elements are periodic functions of their ____.
- A. Atomic mass B. Atomic number
438. A horizontal row of elements on the Periodic Table is known as a(n):
- A. Period or series
B. Group or family

439. If no more solute can be dissolved in a solvent at a given temperature, then that solution is called:
- A. Saturated B. Saturable
440. What intermolecular forces do geckos and other lizards use to stick to walls and ceilings?
- A. Static ionic attractions
B. Van der Waals forces
441. Salts of which of the following metals are added to fireworks to make them brilliant red?
- A. Copper B. Strontium
442. Alchemists in ancient Egypt tested gold for purity by remelting it and heating it. If the gold became whiter, it contained:
- A. Lead B. Silver
443. Which of the following is an example of a fungus?
- A. Yeast B. Euglenoids
444. Which among the following elements can be drawn into thin wires and hammered into thin sheets?
- A. Cu B. Ag
445. A molecule or an ion is classified as a Lewis base if it has which of the following properties?
- A. Accepts a proton from water
B. Donates a proton to water
446. Which among the following has the most polar bond?
- A. N_2 B. HF

447. Which of the following best describes the amount of energy required to remove an electron from a gaseous atom?
- A. Ionization energy
 - B. Activation energy
448. What does a pH below 7 indicate?
- A. Acidity
 - B. Alkalinity
449. Which among the following gases is green in color?
- A. Krypton
 - B. Chlorine
450. The manager of textile factory considers it too expensive to treat liquid wastes so he suggested digging a hole near the factory where the wastes can be stored. Is this environmentally safe?
- A. No, the liquid wastes will mix to the groundwater.
 - B. No, the liquid can be recycled.
451. Why are nights cooler when the sky is clear than when it is overcast?
- A. Cooler air holds less vapour
 - B. There is no cloud cover to prevent heat from escaping
452. Water covers 75% of the Earth's surface and yet some people still do not have enough water to drink. Why?
- 1. Most of world's water is salty
 - 2. Most of our bodies of water are polluted by chemicals
 - 3. Most freshwater are frozen in ice caps
- A. 1 and 2 only
 - B. 1, 2 and 3
453. Children born with a deficiency of thyroxin _____ if deficiency is not checked.
- A. Become mentally retarded
 - B. Have weak bones

454. The correct way of eating fruits is when eaten _____.
A. With an empty stomach
B. After meals
455. An eclipse of the sun throws the shadow of the _____.
A. Moon on the earth
B. Moon on the sun
456. The following are effects of global warming, except:
A. Changes in the timing of seasonal patterns in ecosystem
B. Expansion of tropical diseases
457. John experienced a lack of growth hormone (GH) as a child. Now that John is an adult, it is likely that he:
A. Has normal adult body proportions, but an extremely short stature
B. Is of normal height, but has child-like body proportions
458. Which type of digestion occurs in the mouth when an individual chews a piece of bread?
A. Mechanical digestion only
B. Both mechanical and chemical digestion
459. One immediate cause of a decrease in the rate of photosynthesis is a reduction in the availability of which of the following substance?
A. Oxygen B. Carbon dioxide
460. Vascular tissue that transports water in leaves connects directly to which of the following?
A. Xylem in the stem
B. Root hairs in the epidermis

461. Which of the following statements is true about parasites and their relationships with their hosts?
- A. The parasite enjoys the benefits of a relationship in which the host is harmed or killed
 - B. The host enjoys the benefits of a relationship in which the parasite is harmed or killed
462. In computing data, a student computes up to the second decimal place. As a researcher or scientist, what trait(s) do(es) the student possess?
- 1. Accuracy
 - 2. Critical mindedness
 - 3. Objectivity
 - 4. Truthfulness
- A. 1 and 4 B. 1 and 3
463. What is the main difference between prokaryotes and the eukaryotes?
- A. The eukaryote has a nucleus, but the prokaryote does not have.
 - B. The prokaryote has a nucleus, but the eukaryote does not have
464. Which of the following is a proper example of natural selection?
- A. A community of lady bugs begins having offspring with darker shells, in order to hide from their predators
 - B. Seagulls begin to eat so many fish so that only those with dark blue scale color survive
465. Which of the following has the smallest mass when measured in an equal arm balance?
- A. $\frac{1}{8}$ sheet of pad paper
 - B. $\frac{1}{2}$ sheet of pad paper
466. During periods of increased global temperatures, which of the following is most likely to occur?
- A. A decrease in atmospheric CO_2
 - B. An increase in atmospheric CO_2

467. Why is the Philippines much hotter than Canada? The Philippines:
- A. Has days with more hours of light
 - B. Receives sun rays closer to vertical position
468. Geothermal energy, an energy resource in the country, is based on which phenomenon?
- A. There are more concentrations of heat in some places of earth's crust
 - B. Earth's internal energy heats its surface more than the sun does
469. Which of these effects generally occurs as a result of warm air mass and a cooler air mass converging at earth's surface?
- A. Winds lie down
 - B. Stormy weather patterns develop
470. Why do fisherfolks catch more fish during the new moon than during the full moon?
- A. Fishes are attracted to the light from the fishing boat which fisherman makes use of during the new moon
 - B. Fishes go near the surface during the new moon because the water is warmer
471. Bagoong smells because _____.
- A. Air and volatile particles from bagoong mix and get spoiled further
 - B. Molecules from bagoong spread in air
472. Every morning when the sun shines through the glass jalousies of Maria's window, she sees a rainbow on her wall. Which could explain this?
- A. The glass jalousies break up the beam of sunlight into the colors of the rainbow
 - B. There are water droplets on the glass that act like a prism

473. Which of the following is true about light and seeing?
- A. Light rays coming from an object meets light coming from a light source, and then enters the eyes
 - B. Light hits an object, bounces and then enters the eyes
474. Why do leaves with green color look green in the sunlight?
- A. They absorb the green light
 - B. They reflect green light
475. Why does the level of water in a beaker rise after a stone is placed in it?
- A. The stone takes the place occupied by water
 - B. The stone has more mass than the water
476. Why do people feel their ears pop or crack when they are up in the air?
- A. There are less air particles
 - B. There are more air particles
477. Which of the following activities help reduce water pollution?
- A. Treating wastewater before it is discharged
 - B. Cleaning of soap instead of detergents
478. Of the following organisms, which are included under Kingdom Plantae?
- A. Magnolidae
 - B. Prokaryotes
479. Which of the following is the lowest rank of coal and is otherwise called brown coal?
- A. Lignite
 - B. Anthracite
480. Which element has Te as its symbol?
- A. Tellurium
 - B. Technetium

481. What is the term for slowing-down response by the frog's circulatory system during cold season?
- A. Hibernation B. Estivation
482. Which of the following is a vitamin?
- A. Niacin B. Pepsin
483. Which element has Ca as its symbol?
- A. Carbon B. Calcium
484. Which of the following process involves chloroplast?
- A. Conversion of light energy to chemical energy
B. Cell division
485. Aside from solid, liquid, and gas what is the fourth form of matter?
- A. Plasma B. Colloid
486. Which of the following is a heterotroph?
- A. Grasshopper B. Algae
487. Which type of reaction does the general equation ($AB + \text{energy} \rightarrow A + B$) show?
- A. Endothermic synthesis
B. Endothermic decomposition
488. Iron is what type of magnetic material?
- A. Ferromagnetic
B. Paramagnetic
489. Humans reproduce when an ovum is combined with a sperm leading to the development of an embryo. This form of reproduction is called
- A. Budding B. Fertilization

490. Of the following which is an example of physiological adaptation that allows survival among plants or animals?
- A. Frog's powerful hind to jump away from predators
 - B. Walking stick's unique shape and color
491. Which of the following activities help reduce water pollution?
- A. Use of soap and detergents
 - B. Treating waste water prior to discharge
492. What is the main organ for respiration?
- A. Lungs
 - B. Nose
493. Dengue is an infectious disease transmitted by an organism classified under which phylum?
- A. Arthropoda
 - B. Echinodermata
494. The source of water pollution is when water from a river is mixed with the contents of a septic tank, this is called
- A. Water condensation
 - B. Hypertrophication
495. The union of an ovum and sperm inside a test tube is
- A. In vitro fertilization
 - B. Pollination
496. What are the small hair-like structures that serve as a sensory function in eukaryotic cells?
- A. Cilia
 - B. Actin filaments
497. What thin structures are essential for cytokinesis, amoeboid movement, and changes in cell shape?
- A. Pseudofilaments
 - B. Microfilaments

498. Which of the following process best explains the evolution of life forms or gradual transformation of species?
- A. Natural selection
 - B. Genetic drift
499. Which technology can lead to the formation of a new genetic trait?
- A. Embryo transplant
 - B. Exposure to radiation
500. A rectangular block of steel has dimensions of 5 meters x 10 meters x 15 meters and weights, 1, 000 N. How should this block be placed on a surface to exert the least pressure on the surface?
- A. On the 10 meters by 15 meters side
 - B. On the 5 meters by 15 meters side

- A. Providing an atmosphere conducive to learning
 - B. Establishing rapport between teachers and pupils

583. The teachers are facilitators of learning. Which among the following negates this principle?
- A. Uses pro-active discipline methods
 - B. Focus on the background of the students
584. The nearest to the real thing according to Edgar Dale's Cone of Experience is _____.
- A. Watching demo
 - B. Attending exhibit
585. This is the pre-planned collection of sample of student works, assessed results and other output produced by the students _____.
- A. Portfolio
 - B. Observation report
586. Which of the following statements is one of the strengths of an autobiography as a technique for personality appraisal?
- A. It can replace data obtain from other data techniques
 - B. It makes possible presentation of intimate experience
587. Student Raj was asked to report to the Guidance Office. Student Raj and his classmates at once remark, "What's wrong?" What does this mean?
- A. Reporting to a guidance office is often associated with misbehavior
 - B. Guidance counselors are perceived to be "almighty and omniscient."
588. The discriminating index of item number 15 is 0.45 means that
- A. More students from the upper group got the item correctly
 - B. More students from the lower group got the item correctly
589. What is the main advantage of using the table of specifications when constructing periodic test?
- A. It increases the validity of the test result
 - B. It improves the sampling of content areas

- 590.** Which of the following is an example of norm-referenced interpretation?
- A. Jiah's test score is higher than 89% of the class
B. Fritz solves five problems correctly out of thirty problems
- 591.** Which of the following assessment techniques best assess the objective "plans and designs an experiment to be performed."
- A. Rating scale
B. Checklist
- 592.** What type of measure of variation is easily affected by the extreme scores?
- A. Quartile deviation
B. Standard deviation
- 593.** Standard deviation is to measure of variation as _____ is to measure of central tendency
- A. Mean
B. Mode
- 594.** Which statement/s is/are true in constructing matching type of test?
- I. *The options and descriptions are not necessarily homogenous*
II. *Description in Column A and option in Column B*
III. *The options must be greater than the description*
IV. *The directions must state the basis of matching*
- A. I, II and III
B. II, III and IV
- 595.** A type of error committed in grading the performance of the students by the rater who avoids both extremes of the scale and tends to rate everyone as average
- A. Logical error
B. Central tendency error
- 596.** Which of the following should be AVOIDED in constructing true or false test?
- I. *Verbal clues and specific determiner*
II. *Terms denoting definite degree or amount*
III. *Taking statements directly from the book*
IV. *Keep true and false statement the same in length*
- A. I and III only
B. I, II and III

597. Which of the following tests can best effectively measure higher order of cognitive learning objectives?
- A. Objective test
 - B. Extended essay test
598. To increase the difficulty of a multiple choice test item, which of the following should be done?
- A. Make the options homogeneous
 - B. Make the options equal in length
599. Teacher Abegail wants to establish the reliability of his test in Biology. Which of the following will he accomplish?
- I. *Administer a parallel test*
 - II. *Split the test*
 - III. *Construct a variety of items*
 - IV. *Administer the same test twice*
- A. I, III, IV
 - B. I, II, IV
600. Teacher Tiffany constructed a matching type test item. In her column of descriptions are combination of presidents, current issues, and sports. Which rule of constructing a matching type test item was NOT followed?
- A. The descriptions must be homogeneous
 - B. The descriptions must be heterogeneous
601. Which of the following does NOT belong to the group when we talk about projective personality test?
- A. Sentence Completion test
 - B. Word Association test
602. Which of the following is the main purpose of administering a pre test and post test to the students?
- A. Measure gains in learning
 - B. Measure the effectiveness of instruction

603. Which is the first step in planning a periodic test?
- A. Construct a table of specification
 - B. Go back to the instructional objectives
604. Below is the list of methods used to establish the reliability of a test, which method is questionable due to practice and familiarity?
- A. Kuder Richardson
 - B. Test retest
605. What is the meaning of TOS in the parlance of test construction?
- A. Table of Specifications
 - B. Table of Specific Test
606. Which is implied by a positively skewed score distribution?
- A. The mode is high
 - B. Most of the scores are low
607. Which of the following is a result of compressing a file?
- A. The file is deleted
 - B. The file size is smaller
608. Which of the following are the basic components of curriculum design?
- A. Content, Assessment and delivery
 - B. Assessment, Teaching strategies and textbooks
609. The following are examples of Learner-Centered Design EXCEPT
- A. Child-centered design
 - B. Humanistic-centered design
610. Which of the following statements about computer viruses is TRUE?
- A. Files damaged by computer viruses can be cured
 - B. Compressed files can never be damaged by viruses

611. Mrs. Grachie dreams to organize a seminar with a known poet from another country but she cannot afford to spend for the transportation of the said guest. Which of the following can she use so she won't need to spend much?
- A. Instant messaging B. Video conferencing
612. Teacher Nemiah wants her students to express their opinions regarding environmental problems. Which of the following can she use to do this?
- A. Forum B. Blog
613. Ms. Vanessa will be absent for two days because of a national conference. She wants her students to work on a certain module. What is the fastest way of sending the module to her students while she is away?
- A. Share it to all her students in her live account
B. Send the module through group instant messaging
614. Teacher Grace is assigned to handle a multi-grade class. What instructional material must be used to provide the needs of each grade?
- A. Differentiated materials to cater to different levels
B. Multisensory materials
615. A document published by a school district that identifies rules of behavior that must be followed by anyone using the school district computers, network or internet connection
- A. Fair use B. Ethical internet use policy
616. Which of the following are the rationales behind using technology in the classrooms?
- I. *Motivational*
II. *Unique instructional capabilities*
III. *Increased Teachers' productivity*
- A. II and III only B. I, II and III

617. Using bloom's Taxonomy, the highest among the following is
- A. Critical comprehension
 - B. Critical evaluation
618. Among the following educators, who proposed the placement of children in a "prepared environment"?
- A. Montessori
 - B. Froebel
619. To improve comprehension and retention among the students, the teacher's best option would be to use
- A. SQ3R
 - B. Contextual Clues
620. Teacher Nerry would like to compare and contrast plant cell vs. animal cell. She would most likely use:
- A. Venn diagram
 - B. Tree diagram
621. The students of Teacher Panyang feel that their teacher has an "eye behind her head" This characteristics of the teacher is known as
- A. Referent power
 - B. Withitness
622. Teacher Prince asks his students what they already know about the topic before starting a new topic in his subject. What concept of cognitive development is exhibited in the situation above?
- A. Assimilation
 - B. Schemata
623. During the distribution of the report card, which of the following must be the foremost concern of a teacher?
- A. Discuss the projects of the school
 - B. Discuss the progress as well as the deficiencies of the student
624. How will you classify the purpose of the school as it concerns with the training and preparation of citizens for the world of work?
- A. Economic purpose
 - B. Social purpose

625. After listening to the homily of the Priest about fidelity, Julian has a moment of reflection. His understanding of the value of fidelity has become deeper as he relate this to his past experiences. This typifies what kind of philosophy _____?

- A. Constructivism B. Reconstructivism

626. Teacher Carl is a new teacher. He realizes that handling his students' misbehavior is a very demanding aspect of the classroom management. In this regard he thought of giving up teaching. What advice can you give him?

- A. Report every student's misbehavior to the principal
- B. Set the ground rules for the whole class

627. Which among the following philosophers considered habits and reasons as equally important forces to be cultivated in education?

- A. Aristotle B. Jerome Bruner

628. Which of the following is the most important component of educational reform?

- A. Implementing a better curriculum for students
- B. Allowing the students to participate more

629. The failure in the test of independence among Filipino students can be attributed to

- A. High degree of dependence to authority
- B. Strong family ties

630. Teacher Justin is admired for being an effective classroom manager. He is not only friendly but at the same time _____.

- A. Business-like B. Analytical

631. Which of the following would be the most fitting action of a teacher who is having a relationship with his/her student?

- A. Defer the relationship until they are ready to admit it
- B. Continue the relationship and exercise utmost professional discretion about this

- A. Pica B. Enuresis
633. Mrs. Grace Binay was not accepted by a certain company because of her age. This discrimination based on age is called
- A. Ageism B. Senilism
634. Jco's parents do not want their child with ADHD to undergo drug treatment, their better alternative would be
- A. Behavior modification of behavior management
B. Punishment
635. Ripple effect can also be seen in misdemeanor. The teacher should therefore
- A. Immediately respond to misbehavior
B. Be consistent in classroom management
636. The best example of Operant Conditioning among the following is _____.
- A. Using reinforcement
B. Fostering conducive learning environment
637. A child submitted a poorly written report but packaged with startingly colored paper cover. This showcases _____
- A. Substance over "porma"
B. "porma" over substance
638. Jeff has inherent skills in taking care of plants. It is highly possible that he has _____
- A. Naturalistic intelligence
B. Intrapersonal intelligence

645. To whom does the word teacher refer?

- I. Full time teachers
- II. Part time teachers
- III. Guidance counselors
- IV. Librarians
- V. Division Superintendent

A. I, II, and V

B. III and IV

646. Which is true of LET passers?

- A. Every LET passer shall be required to take the Professional Oath before practicing as a Professional Teacher
- B. Taking the Professional Oath before practicing as a Professional Teacher is optional for LET passer

647. Are vocational teachers required of professional license?

- A. Yes B. No

648. Can a failed examinee qualify for the position of para-teacher?

- A. Yes, if his LET rating is below 75
- B. Yes, if his LET rating is 70 and above

649. When should teachers support one another?

- A. At all times for whatever cause
- B. When the best interest of learners is at stake in a controversy

650. What does the Teacher Education Development Program signify as a prerequisite for employment of teachers in basic education schools?

- A. Licensure examination for teachers
- B. National standard competencies among teachers

651. How do orientation sessions help the new teacher?

- I. *Be attuned to the school environment*
- II. *Learn guidelines to follow*
- III. *Develop good relations*

A. II and III

B. I, II, III

652. Former DepEd Director Lolita Andrada described her humble early schooling: a silong (ground floor of a house) converted into a classroom. Which best characterizes the situation?
- A. School-home connection B. Rural village school
653. What is the overall stream for education, growth and fulfillment in the teaching profession?
- A. Merit and promotion B. Lifelong career
654. Among the following, which directly qualifies the teacher candidate to be registered at par with other professions like medicine, law, nursing, and the like?
- A. Licensure examination
B. Membership in professional association
655. In essence, what is the new Performance Appraisal System for Teachers (PAST)?
- A. Competency-based B. Skill-based
656. Among active participation of school officials and teachers in the community, which of the following is not appropriate due to prevailing religious sentiments?
- A. Literacy assistance for out of school children/youths
B. Promoting contraceptives for planned parenthood
657. Among rights of the schools, which is not provided by the law?
- A. Right for basic education to determine subjects of the study
B. Right for institutions of higher learning to determine academic grounds for admission.
658. What is known as a self-appraisal for professional growth that is acceptable and useful for recognizing weakness and strengths for a new beginning teacher?
- A. Self-evaluation
B. Students' evaluation

659. In order to assist new teacher, which is the most effective way to clarify the schools' goals and responsibilities early in the first year?
- A. Student's handbook B. Orientation
660. Transparency international, a global corruption watchdog, rates the Philippines as one of the most corrupt nation in Asia. What educational program is relevant to this situation?
- A. Values education
B. Socio-economic development
661. The Transparency International's perception that the Philippines suffer a cultural malaise of corruption, what component of our character needs to be further developed along the Learning To Be Pillar of education in the 21st century?
- A. Intellectual-emotional component
B. Ethical-spiritual component
662. What is the cultural trait of conflicting values that aims to please people in different venues and situations rather than abide by principles?
- A. Kanya-kanya system
B. Split personality
663. What best describes "puwede na" mentality vs. excellence in service/work?
- A. Arduous preparation
B. Resignation to mediocrity
664. A teacher introduces herself as teacher only. What does this imply?
- A. The teaching profession is the lowest paid profession
B. She takes no pride in the teaching profession
665. How is collaboration among teachers for sustained professional practice teachers best achieved?
- A. Mentoring system by experienced teachers
B. Interdependent work for cohesion

666. From the Constitution, what is the condition for allowing students to be taught religion in public schools?
- A. Outside of school hours only
 - B. Upon written permission by parents
667. Under R.A. 7722 or Higher Education Act of 1994, which agency has direct supervision and management of teacher education institutions or colleges of education in the country?
- A. Commission on Higher Education
 - B. Teacher Education Council
668. Along the aim towards labor for integrity, which aspect of work needs to be taught to future employers and employees in the 21st century workplace?
- A. Industry skills and orientation
 - B. Loyalty for company and work
669. Which of the following is a quality of an engaging learning environment most reflective of Education For All (EFA)?
- A. Improvised to enhance learning for all types of learners
 - B. Student-centered learning activities
670. Educated in a religious school, Sansa goes to confession every day to be free of any kind of sin. How do you characterize Dona's moral attitude?
- A. Scrupulous
 - B. Pharisaical
671. How should teachers regard new trends and reforms in education?
- A. As a development need
 - B. As a wave in millennial change
672. How does the "humaneness" of the teacher best describe when he/she is full of interest and enthusiasm in the work of teaching?
- A. Responsiveness
 - B. Perceptiveness

673. Of the following, which best describes peer teacher-and-learning?
- A. Individual B. Collegial
674. To survive in the global community and in the twenty first century, one must be a:
- A. Digital expert B. Digital immigrant
675. What observation tests to the fact that the student's motivation vary according to socio-cultural background?
- A. Genetic endowments may show gifted endowments among the young
B. Children from low-income household meet more obstacles in learning
676. Which indicator is most useful for assessing quality of schooling?
- A. Cohort survival rate
B. Net enrollment rate
677. The world has become a global village. What sound practice is expected of teachers?
- A. Respect of diverse culture
B. Ethnic cleansing
678. Of the following, which is the most powerful source of values like beauty and goodness outside the school system?
- A. Nature
B. Mass media
679. Among components of a morally mature person, which demonstrates that a teacher seeks peaceful resolution of conflict?
- A. Working for peace/reconciliation
B. Accepting responsibility for choices

680. Which of the following refer to teamwork among teachers in classroom teaching?
- A. Peer evaluation
 - B. Peer teaching
681. Of goals of education, which relates to the strengthening of our society's sense of belonging and identity?
- A. Moral character
 - B. Citizenship
682. Inculcating moral maturity among students, which of the following relates to beliefs and ideals?
- A. Respecting freedom of conscience
 - B. Promoting human equality
683. Among core/basic life skill, which relate to recognizing and giving worth to ourselves as persons?
- A. Self-esteem
 - B. Empathy
684. What philosophical motive was behind public education during the American colonial period?
- A. Secularism
 - B. Utilitarianism
685. Students must be taught self-responsibility is the desire of the _____ teacher.
- A. Existentialist
 - B. Constructivist
686. Values are subjective. Your value may not necessarily be my value. What subscribe to this thought?
- I. *Progressivist*
 - II. *Pragmatists*
 - III. *Essentialist*
- A. I and III
 - B. I and II

687. Which aspect of multi-intelligence is enhanced by asking students to work on a physical model of the atom after a teacher's discussion on the subject of the atom?
- A. Interpersonal
 - B. Kinesthetical
688. John Dewey said, "An ounce of experience is better than a ton of theory." To which does this statement point?
- A. The need for experience
 - B. The primacy of experience
689. In Piaget's Concrete-Operational stage in cognitive development, which refers to the ability to order or arrange things logically on dimension such as weight, volume, or size?
- A. Seriation
 - B. Conservation
690. In Piaget's Formal Operation Stage in cognitive development, which of the following is not among the characteristics of the child's thinking ability?
- A. Hypothesis making
 - B. Knowing properties (number, mass, volume, etc)
691. In Erikson's Stage Theory of Development, which affirmation belongs to the stage of Identity versus role confusion?
- A. I get a good deal of pleasure from working
 - B. I wonder what sort of person I am
692. What is the degree of moral certitude of Vanessa who entered into marriage only out of obedience to her parents, but uncertain whether she wanted marriage at all?
- A. Probable
 - B. Doubtful
693. Which is the most basic in Maslow's hierarchy of needs?
- A. Socialization
 - B. Actualization

694. Among mistaken goals in the Acceptance Approach to discipline, what happens when students seek to hurt others to make up being for being hurt or rejected?
- A. Revenge seeking
 - B. Power seeking
695. Among mistaken goals in the Acceptance Approach to discipline, what happens when students feel helpless and rejected so that they remove themselves rather than confront the situation?
- A. Withdrawal
 - B. Attention getting
696. How will you make a child memorize the table of multiplication from the point of view of Pavlov?
- A. Make them understand the meaning of multiplication
 - B. Call the child's attention every time you recite the table for them
697. In the 5'S Formula to create a conductive learning environment, which S stands cleanliness of the work place?
- A. Shine
 - B. Systematize
698. Among mistaken goals in the Acceptance Approach to discipline, what happens when students are not getting the recognition they desire, continually seek to help, and refuse to work unless the teacher hovers over them?
- A. Withdrawal
 - B. Power seeking
699. What is being shown by teachers who ignore slow-learners and take pride in the work of fast learners?
- A. Hurling invectives
 - B. Discrimination

- 700.** What provides the most direct type of learning, but is difficult to supply in the traditional classroom?
- A. Real-life experience
 - B. Multisensory instructional aids
- 701.** Among thinking skills in learning, what includes fluent, flexible, original and elaborate thinking?
- A. Divergent thinking
 - B. Convergent thinking
- 702.** Of the following effects on learning, what is the effect of assigning various sections of the newspaper, and allowing choice depending on the learner's choice?
- A. Allowing different interests
 - B. Encouraging participation
- 703.** Learning is influenced by social interaction and interpersonal relations. What must a teacher do?
- A. Make students feel good about themselves
 - B. Make students work collaboratively
- 704.** How can new information be made more meaningful to students?
- A. Relating it to knowledge they already know
 - B. Increasing retention of new knowledge
- 705.** Which of the following best relate to basic literacy to learners?
- A. Text-based learning
 - B. Field experience
- 706.** What is the initial knowing process learned by the individual that revolves around practical problem-solving?
- A. Thinking
 - B. Listening

- 707.** What condition afflicts child learners who have to count on fingers to tell whether 5 are more than 4?
- A. Neurological B. Mental
- 708.** In learning complex matters, what is important to give focus on?
- A. Separate and diverse thoughts and beliefs
B. Meaning from information, experience, and beliefs
- 709.** Which is not an aim in having partners in team learning?
- A. Focused attention B. Cooperative work
- 710.** Among the components in the instructional framework for learning strategies, which is demonstrated by teacher Ana who assigns homework for students to do on their own?
- A. Independent practice B. Consolidation
- 711.** Someone said, "Experience without theory is blind, but theory without experience is mere intellectual play." This means that:
- A. Theory and experience must go hand-in-hand
B. Theory is more important than experience
- 712.** Teacher A set 85% accuracy in a test on predicting the kind of weather given 5 different atmospheric conditions. Mary obtain a score of 82% that can be interpreted as
- A. She is 3% short of the set percentile score
B. She did not meet the set standard by 3%
- 713.** Of the following, which is the best way parents can support the learning development of their children?
- A. Interest and assistance in class assignments
B. Checking report card grades
- 714.** What characteristic differentiate spiritual intelligence or spiritual quotient as developed by Harvard University, from sectarian religion (E.g. Christian, Buddhist, Jewish, etc.)?
- A. Creedal values
B. Sectarian values

- 721.** Which of the following does not belong to the meta-cognitive reading activities?
- A. Testing
 - B. Sampling
- 722.** Among specialist in reading, who are mainly concerned about reading as a thinking process that involves the recognition of printed or written symbols which serve as thought stimuli?
- A. Linguists
 - B. Psychologists
- 723.** What is mainly addressed by early intervention program for children with disabilities, ages 0 to 3 years old?
- A. Ensuring inclusion for special children
 - B. Early growth development lag
- 724.** Who is best equipped to lead in the formulation of an individual educational plan for special children?
- A. Special education teachers
 - B. Parents of special children
- 725.** To what problem type do students belong, who have short attention span, unable to sustain concentration by being easily affected by sights, sounds or speech?
- A. Withdrawn
 - B. Distractible
- 726.** On categories of exceptionality in the young, what is difficulty in focusing and maintaining attention, and/or recurrent hyperactive and impulsive behavior?
- A. ADHD
 - B. Emotional/conduct disorders
- 727.** How is the disorderly behavior of children classified when they tell lies?
- A. Moral
 - B. Social

- 728.** In preparing classroom tests, which of the following checklists is the LAST among steps in tests preparation?
- A. How are the test results to be reported?
 - B. How are the test scores to be tabulated?
- 729.** Tests should be non-threatening, but which of the following actually threatens students?
- A. Surprise quiz
 - B. Scheduled exam
- 730.** The test questions in Teacher Dae Dae's test were confusing and subject to wrong understanding, especially to poorer students. What was wrong with the test?
- A. Unclear directions
 - B. Ambiguity
- 731.** In her tests, Teacher Tomden made tests that were either too difficult or too easy. What was wrong with her tests?
- A. Unclear directions
 - B. Inappropriate level of difficulty of the test items
- 732.** What is wrong with test items that give clues to answers to questions?
- A. Tests brevity
 - B. Poor construction
- 733.** With manner of answering as a criterion, which of the following belongs to supply type of test?
- A. Completion
 - B. Multiple choice
- 734.** What primary response factor is considered by Essay questions?
- A. Wide sampling of ideas
 - B. Factual information

735. In using Essay questions, what of the following are these tests susceptible to, such as to make them less reliable measure broad knowledge of the subject matter?
- A. Bluffing B. Time consuming
736. Among standardized tests, which reveals strengths and weaknesses for purposes of placement and formulating an appropriate instructional program?
- A. Achievement tests
B. Diagnostic tests
737. Among standardized tests, which is to measure cognitive abilities, and administered either as a group or individual test?
- A. Intelligence test
B. Achievement test
738. What kind of assessment helps teachers determine gaps in learning a subject matter?
- A. Formative assessment
B. Summative assessment
739. An entering college would like to determine which course is best suited for him. Which test is appropriate for this purpose?
- A. Aptitude test B. Diagnostic test
740. Among recording devices during assessment, which can the student use to describe behavior and context which observations may be forgotten or remembered incorrectly?
- A. Anecdotal record
B. Self-assessment
741. Among written categories of assessment methods, what did teacher Maggie Lagid use when she assessed the stock knowledge of her students through questioning in an open class?
- A. Oral questioning
B. Performance test

742. Self-evaluation can be done in various ways, but this is not one of them:
- A. Use of an evaluation instrument
 - B. Peer feedback session
743. Which of the following are alternative assessments?
- A. Portfolio, exhibits, journals
 - B. Paper-and-pencil test, demonstration, reports
744. What is an alternative assessment tool that consists of a collection of work artifacts or in progress accomplishment by a targeted clientele?
- A. Rubric
 - B. Portfolio
745. Of the following, which is the most conducive for authentic assessment?
- A. Performance drill
 - B. Real world application
746. Among written categories of assessment methods, what instruments did Mona use when she used a check list in order to grade the dramatic performance of students in play?
- A. Performance test
 - B. Product rating scale
747. In order for assessment to have clarity of learning targets, outcomes must be stated in behavioral terms so that this can be measured. Which of the following shows this desired clarity?
- A. To practice reading with competence
 - B. To improve the speed of reading competence
748. In outcomes based education, which of the following are not considered outcomes?
- A. Products
 - B. Procedures

749. Among written categories of assessment methods, what instruments did Science teacher Julian use when he prepared a list of behavior that make up a certain type of performance in the use of a microscope?
- A. Product rating scale
 - B. Performance test
750. What is the **criterion-referenced test designed to determine**?
- A. Performance level on a specific skill
 - B. Performance on a wide content of coverage
751. Of the following subjects, which does not belong to performance-based subjects in which direct instruction is effectively used?
- A. Mathematics
 - B. Science
752. What does it mean if student Pete got a 60% percentile rank in class?
- A. He scored better than 60% of the class
 - B. He scored less than 60% of the class
753. Which measure of central tendency is most reliable when scores are extremely high and low?
- A. Median
 - B. Mean
754. What should be done with the test item whose difficulty index is .98?
- A. Reject it
 - B. Revise it
755. What does the test mean if the difficulty index is 1?
- A. Very difficult
 - B. Very easy
756. What is the meaning of a negative correlation between amount of practice and number of errors in tennis?
- A. The increase in the amount of practices does not at all affect the number of errors
 - B. As the amount of practice increases, the number of errors decreases

- 757.** What is the normal curve in the grade distribution of students in a class?
- A. All have average grades
 - B. Most get average grades, few high and low
- 758.** What can be said of student performance in a negatively skewed class score distribution?
- A. Most students performed well
 - B. Most students performed poorly
- 759.** Which is true when the standard deviation is big?
- A. Scores are spread out
 - B. Scores are concentrated
- 760.** Which of the following best describes creativity?
- A. Imaginative
 - B. Positive
- 761.** Of the types of validity for tests, what reflects the knowledge and skills in the program of studies?
- A. Curricular validity
 - B. Criterion validity
- 762.** Of the types of validity for tests, what type constructs a test for a particular subject, the items adequately reflecting the specific matter of the subject?
- A. Content validity
 - B. Criterion validity
- 763.** Principal Balita introduced machine-scored tests in his school. What factor in scoring does this add to make tests more reliable?
- A. Objective scoring
 - B. Ease in checking

- 764.** Since Teacher Alvin wants his test be more reliable, which of the following should he adopt?
- A. Make a test that requires students the need for more time to complete
 - B. Increase number of test items
- 765.** For easier correction of his test, Teacher Edward prepared the True and False items in alternating 1, 3, 5, 7 etc. True, and 2, 4, 6 etc. False. What is wrong with the test in terms of Usability?
- A. Improper arrangement of items
 - B. Identifiable pattern of answers
- 766.** What is the graphic illustration for the relationship between two variables?
- A. Histogram
 - B. Normal curves
- 767.** For assessment in Problem-Based Learning, how do you classify the teacher's assessment of individual students presenting their output in class?
- A. Peer assessment
 - B. Individual assessment
- 768.** In assessment for Problem-Based Learning, who are responsible in judging student performance?
- A. Teacher and peers
 - B. Teacher-and-students
- 769.** What is a scoring guide that lists the criteria and their levels of quality on which evaluation will be focused?
- A. Portfolio
 - B. Rubric
- 770.** What is being assessed by the Rubric that seeks to assess high, moderate, or low imaginative thinking?
- A. Creativity
 - B. Craftsmanship

- 771.** Using Rubrics to assess power-point presentations of students, which criteria from the following is most significant as it is the essence of presentations?
- A. Presenting design
 - B. Content value
- 772.** Using Rubrics, which is futuristic and hypothetical among the following criteria chosen to assess a planned student affairs program for the school year?
- A. Projected impact of projects/activities
 - B. Feasibility of projects/activities
- 773.** What should be the basis of remedial instruction?
- A. Errors, fallings, and lapses
 - B. Identified systematic errors by students
- 774.** Which of the following is the most reliable tool for determining the students' ability to write?
- A. Portfolio assessment
 - B. Scoring rubric
- 775.** Which is the research method or technique suited for the study of Garbage collection in NCR district I?
- A. Focus group
 - B. Observational technique
- 776.** What dependent variable can be used to test the hypothesis, "The more a teacher knows about a specific subject matter, the better she can teach it"?
- A. Teacher's yearly performance rating
 - B. Personality traits of the teacher
- 777.** For group guidance in classroom management, what element is lacking when there is too much competitiveness and exclusiveness with the teacher being punitive and partial to some students?
- A. Poor interpersonal relations
 - B. Disturbance in group climate

- 778.** Which of the following is the best option to deal with chronic behavior problems in the classroom?
- A. Indicate consequences of behavior
 - B. Establish positive expectations for students
- 779.** Among styles of classroom management, which expects teachers to specify rules of behavior, consequence for disobeying them, and to communicate these rules and consequences clearly?
- A. Assertive approach
 - B. Behavioral modification style
- 780.** To manage behavior, the teacher needs to be able to identify the mistaken goals of students who refuse to cooperate or participate?
- A. Goal is to get revenge
 - B. Goal is to Isolate self
- 781.** Of the approaches to classroom management, which emphasizes the organization and management of students as they engage in academic work?
- A. Group managerial approach
 - B. Business-academic approach
- 782.** Teacher Ann Patuan dealt effectively with a minor infraction of whispering by a student to a neighbor during class. Which of the following did she do?
- A. Continue to teach and ignore infraction
 - B. Use nonverbal signals (gesture or facial expression)
- 783.** Teacher Dra D Explorer is a great lecturer and so she is invited to speak and represent the school on many occasions. What is one quality of her lecturers when she follows a planned sequence, not diverting so as to lose attention of her listeners?
- A. Continuity
 - B. Fluency

- 784.** If threat of punishment is necessary on erring students, how should this best be done?
- A. Warn and threat at the same time
 - B. First a warning before the threat
- 785.** Judging the relative severity of common classroom management strategies, which of the following is least severe if applied on erring students?
- A. Surprise quiz
 - B. Lowering school mark
- 786.** For problems of discipline that cannot be resolved in class, which of the following should not be done as it reduces the authority of the teacher?
- A. Rely on others to resolve your classroom problems
 - B. Give students a chance to redeem himself
- 787.** What mistake is teacher Benny trying to avoid when he never drops a topic before it is completed?
- A. Dangling topic
 - B. Bounded topic
- 788.** From classroom management strategies applied on erring students, which of the following should not be done?
- A. Parent-principal conference
 - B. Shaming erring student before the class
- 789.** As preventive measure for classroom discipline, the teacher may restructure the program. How is this not done?
- A. Remove tension level before processing with lesson
 - B. Skip whole lesson unit altogether
- 790.** Teacher Jose talks to students about their interests, what they did over the weekend, their progress in school work, etc. What positive approach to classroom management did Teacher Jose apply?
- A. Being fair and consistent
 - B. Expressing interest for students

791. Of the approaches to classroom management, which involves a variety of techniques and methods of ranging simple rewards to elaborate reinforcement, e.g. praise or rewards?
- A. Behavioral modification approach
 - B. Assertive approach
792. To manage behavior, the teacher needs to be able to identify the mistaken goals of students. What is the hidden goal of students who become violent?
- A. Goal is to get attention
 - B. Goal is to get revenge
793. The class has become uncontrollable, and so teacher lah decided to have some undisciplined students out of the room to the counselor's office. What did teacher lah apply by way of preventive approach to discipline?
- A. Removing seductive objects
 - B. Antiseptic bouncing
794. To what problem type do students belong, who have difficulty due to low potential or lack of readiness rather than motivation to work?
- A. Underachiever
 - B. Low achiever
795. What is the term for the leap from theory to practice in which the teacher applies theories to effective teaching methods and theories?
- A. Integration process
 - B. Conceptualization process
796. Of subcategories of teacher movement behavior, what is happening when the teacher is too immersed in a small group of students or activity, thus ignoring other students or activity?
- A. Truncation
 - B. Stimulus-bounded

- 797.** Of subcategories of teacher movement behavior, what is happening when the teacher bursts into activities without assessing student readiness and gives orders, statements, or questions that confuse students?
- A. Truncation B. Thrust
- 798.** According to Nagel's Acronym PPFF, what is important to Follow Up in the proper use of instructional materials?
- A. Student interest
B. Student expectations
- 799.** Among unit plan components, to what cluster do projected competencies-outcomes belong?
- A. Objectives
B. Evaluation procedures
- 800.** Of the following, which is not an example of instructional goals?
- A. Critical understanding of Lyric poetic lines
B. Appreciation of art
- 801.** Under the psychomotor domain of learning, what relates to expressive movement, posture, gesture, facial expression and creative movements, e.g. taking part in a play?
- A. Non-discursive communication
B. Reflex movements
- 802.** Under the domains of learning, to what domain do comprehension, analysis, and evaluation belong?
- A. Reflective B. Cognitive
- 803.** Under the affective domain of learning, what includes active attention to stimuli such as acquiescence, willingness to answer, and feelings of satisfaction?
- A. Valuing B. Responding

- 804.** Among cognitive objectives, what refers to the transfer of knowledge from one concept to another?
- A. Application B. Analysis
- 805.** Of components of direct instruction, which involves teachers and students working together on a skill or task and figuring out how to apply the strategy?
- A. Consolidation B. Guided practice
- 806.** Which of the following is an active strategy in transformative education?
- A. Brainstorming B. Demonstration
- 807.** Which of the following will not serve the aims of Sequential Synthesizing Technique (SST) to enhance one-way lecture in class?
- A. Plus-minus survey sheet
B. Small group discussion
- 808.** Following a model procedure how is the process in Problem-Based learning sequenced?
- I. *List action for what we need to know*
II. *Explore the issues*
III. *Write solution with supporting document*
IV. *Develop and write problems statement*
- A. II, IV, I, and III B. III, I, IV, and II
- 809.** Among examples listed, which does not represent teaching strategies to develop metacognition?
- A. Have the students develop questions about what is going on around them
B. Have teachers the free hand to monitor and rate learning achievement
- 810.** Of the following questions, which relate to metacognition?
- A. How is this done?
B. Am I learning well enough?

811. Among teaching styles, how do you classify a teacher who clearly and fairly communicates standards for discipline and performance to student?

- A. Permissive B. Authoritative

812. How can the teacher best begin in developing a lesson plan design?

- A. General learning goals B. Clearly defined outcomes

813. In the school, who is the key to the success or failure in teaching-and-learning, being the link between the child and the curriculum?

- A. The teacher B. The parent

814. How do you characterize education that “shifts away” and introduces something new from current educational practices?

- A. Instructive B. Constructive

815. In the implementation of the curriculum at the classroom level, ineffective strategies are called “Red”. Which of the following belongs to the Red Flag?

- A. Content applied to real-life situations
B. Overemphasis on drill and practice

816. Which of the following has greatly influenced the introduction of K-to-12 reform in basic education?

- A. Need to conform international standards
B. Need to upgrade facilities of schools

817. What does the traditional curriculum and mass education lack that the progressive curriculum can deliver?

- A. Authoritarian role of the teacher
B. Value for individualization

818. Which of the following is the most appropriate use of television in the classroom?

- A. TV viewing to replace absent teacher
- B. TV viewing with cuts and explanation

- 819.** While there is modernity and progress through the use of technology in instruction, what is the greatest danger along the domain of learning that is posed by technology?
- A. Developing passivity and uncritical minds
B. Developing visual and audial orientation
- 820.** What is aroused among viewing learners by dramatic educational films in what is known as “cliff hangers”?
- A. Satisfaction B. Expectancy
- 821.** In recent curricular revisions, the humanities are gradually replaced by technical courses that bear practical consequences. This shows that curricular direction is toward ____.
- A. Pragmatism B. Utilitarianism
- 822.** According to the existentialist, every person is in the same predicament and has the same possibilities. What does this imply?
- A. Every person must go through the same form of education.
B. Every person must be given access to education
- 823.** School B’s curriculum puts emphasis on the classics. School B’s curriculum is predominantly ____.
- A. Perennialist B. Progressivist
- 824.** Which teaching activity is founded on Bandura’s social learning theory?
- A. Questioning B. Modeling
- 825.** The practice of starting school programs very late points to the Filipinos’ ____.
- A. Orientation only to the present
B. Lack of discipline

- 826.** Teacher Cris always checks on entry knowledge and skills before she proceeds to her new lesson. On which principle is Teacher Cris' practice grounded?
- A. Learning increases when the lesson is relevant.
 - B. New learning builds on previous learning.
- 827.** Which practice is an offshoot of B. F. Skinner's theory of operant conditioning?
- A. Use of programmed instruction
 - B. Use of scaffolding
- 828.** Student A claims: "I cannot see it so I won't believe it." Under which group can he be classified?
- A. Realist
 - B. Empiricist
- 829.** Teacher E encourages her students to develop their reasoning power to the fullest in order to arrive at knowledge. Teacher E is a/an ____.
- A. Pragmatist
 - B. Rationalist
- 830.** "Specialization is knowing more and more about less and less. Then it is better to be a generalist", claims Teacher Donald. On which philosophy does Teacher Donald lean?
- A. Essentialism
 - B. Progressivism
- 831.** "The greatest happiness lies in the contemplative use of the mind", said Plato. Therefore, let us give more opportunities for our students to do ____.
- A. cooperative learning
 - B. introspection
- 832.** When we convince our students that pleasure is NOT the only good in life, we object to the teachings of ____.
- A. Stoicism
 - B. Epicureanism
- 833.** Teacher Michael teaches his/her students that pleasure is NOT the highest good. What teacher teaches is contrary to which philosophy?
- A. Hedonism
 - B. Idealism

834. Class schedule, list of competencies to master, and uniform class requirements belong to a school governed by the educational philosophy of ____.
- A. Perennialism B. Essentialism
835. An emphasis on the humanities is a reflection of the ____ philosophy.
- A. Essentialist B. Perennialist
836. Which practice does NOT fit in a classroom that recognizes individual differences?
- A. Sharing from multiple perspectives
B. Uniform requirements
837. The practice of motivating students before we proceed to our lesson proper is in accordance with the law of ____.
- A. Effect B. Readiness
838. If a student is encouraged to develop himself to the fullest and must satisfy his hierarchy of needs, the highest need is ____.
- A. Belongingness
B. Self-actualization
839. In a research conducted by Sadker. It was found out that male and female teachers are more likely to call on male than female students and are more likely to give positive reinforcement to male's correct responses than to those of females. What does this point to? Prevalence of _____ in schools.
- A. Racial prejudice
B. Gender bias
840. Teacher Lexus raises his eyebrows and tilts his head to communicate a warning to Janus who talks while he lectures. Which classroom control technique did he use?
- A. Prompting B. Eye contact

841. When asked about her order in a restaurant, a little girl tells the waiter, “yong kagaya kahapon.” With Piaget’s theory in mind, what is the little girl’s behavior called?
- A. Pre-operational egocentrism
 - B. Transductive reasoning
842. Fully convinced that it is not the right thing to do, Michael convinces his classmates not to cut classes. In which stage of moral development is Michael?
- A. Post-conventional
 - B. Pre-conventional
843. Which seat arrangement has been proven to be effective for learning?
- A. Any seat arrangement to suit varied learning styles
 - B. A combination of fixed and flexible arrangement
844. Here is a lesson objective in Chemistry: “At the end of a 60-minute period, the students should be able to memorize the periodic table of elements with 90% accuracy. “Applying Robert Mager’s principle on writing performance objectives, which is the criterion measure?
- A. 90 % accuracy
 - B. memorize the periodic table
845. Which is in accordance with the “with-it-ness” principle of classroom management of Kounin?
- A. Teacher is fully aware of what is happening in his classroom.
 - B. Student is with his teacher in everything he teaches.
846. If teacher is concerned with the development of students’ higher-order-thinking skills, then his lesson objectives must go beyond _____.
- A. Comprehension
 - B. Application

847. When should a teacher decide to use direct instruction as a method?
- A. When the subject matter is easy
 - B. When the subject matter is difficult
848. Although learning can take place anywhere and anytime, the more systematic the teacher, the greater is the probability for success. This points out the need for teachers to _____.
- A. Select their instructional materials
 - B. Plan their lesson
849. With Bloom's cognitive taxonomy in mind, which objective is in the highest level?
- A. To rate a project along relevance, originally, and craftsmanship
 - B. To state the assumption that underlies the given statements
850. The following terms refer to performance objectives EXCEPT _____ objectives.
- A. Teacher's
 - B. Learner's
851. Edgar Dale found out that people generally remember 10% of what they read but generally remember 90% of what they do. What does this imply to a teacher's instructional planning?
- A. Plan a detailed lecture and provide the students with your lecture outline.
 - B. Plan for an activity where students do the real thing.
852. Which statement on review is CORRECT?
- A. One of its purposes is to link the past with the new lesson.
 - B. It is repeating the lesson on the previous day to find out if students learned the lesson.
853. Which objective in the affective domain is in the lowest level?
- A. To accumulate examples of authenticity
 - B. To support viewpoints against abortion

854. Based on Erikson's theory, what is the greatest danger in the elementary school years for children's development? The development of a sense of _____.

- A. Isolation B. Inferiority

855. According to the cognitivist Jerome Bruner, for the learner to use information effectively, it must be TRANSLATED into his TERMS. What is an implication of this to the teacher?

- A. To make him define the terms clearly
- B. To use terms within the level of the pupil's understanding

856. Aeneas, a Grade I pupil, plays with his classmates but cannot accept defeat. Based on Piaget's theory on cognitive development, in what development stage is Aeneas?

- A. Sensorimotor
B. Pre-operational

857. Which learning principle is the essence of Gardner's theory on Multiple Intelligence?

- A. Intelligence is not measured in one form.
B. Learners have different IQ level.

858. Sandream, a Grade I pupil, is happy when he wins a game but sulks when he doesn't. Which does Sandream's behavior indicate?

- A. Egocentrism B. Egotism

859. Which statement on IQ and EQ is correct?

- A. It is the blending of both IQ and EQ that can make a difference in performance.
- B. The contribution of IQ and EQ to performance is dependent on factors like age and gender.

860. Which is the main purpose of the compulsory study of the Philippine Constitution in schools?

- A. Develop students into responsible, thinking citizens
- B. Equip students with the basic knowledge of the Phil. Constitution

861. To develop in the young a sense of pride and appreciation of our very own culture, which one should schools do more?

- I. *Stress on the positive aspects of our Filipino culture.*
- II. *Invite knowledgeable persons to discuss events in our history for which we can be proud*

- A. I, II and III
- B. II and III

862. Based on Freud's psychoanalytic theory, which component/s of personality is/are concerned with a sense of right and wrong?

- A. Ego
- B. Super ego

863. Which teaching practice is contrary to the child's multiple intelligence theory of Gardner?

- A. Using portfolio as an alternative way of assessing learning
- B. Limiting the assessment of learning to paper-and-pencil tests

864. Baleleng says: "I must not cheat even if everyone in class cheats. Never mind if I get ostracized for that. I will only cheat myself if I do. Besides, cheating erodes people's trusts and relationships. I condemn cheating." In the context of Kohlberg's moral development theory, in what moral development level is Baleleng?

- A. Post-conventional
- B. Conventional

865. The following are characteristics of a child-friendly school EXCEPT _____.

- A. Not discriminating
- B. Exclusive

- 866.** Which does basic education encompass?
- I. *Early childhood education*
 - II. *Elementary education*
 - III. *Secondary education*
 - IV. *Alternative learningsystem*
 - V. *Education for Children with Special Needs*
- A. I, II, III, IV and V
 - B. I, II, III and IV
- 867.** To which goals of educational institutions as provided for by the Constitution is the development of work skills attuned?
- A. To develop vocational efficiency
 - B. To teach the duties of citizenship
- 868.** Are elementary and secondary education compulsory for all children of schoolage?
- A. No, this violates parents'and children 's right to decide what is best for them and their children.
 - B. No, only elementary education is compulsory.
- 869.** The Continuous Progression Scheme (CPS) in the elementary level in the Philippines in the past had as its objective_____.
- A. Equitable access to education
 - B. Mass promotion
- 870.** Which program was wrongly understood to mean all pupils pass,no one fails?
- A. Mastery Learning
 - B. Continuous Progression Scheme
- 871.** Which move liberalized access to education during the Spanish period?
- A. The provision of vocational training for school age children
 - B. The establishment of at least one primary school for boys and girls in each municipality

II. Integrative

A. I and II

B. I, II and III

873. According to psychologist Ormrod, considering socio-cultural influences, who can serve an effective model for students' motivation? One who is _____.

A. Not like them in terms of race, socio-economic status and cultural background

B. Similar to them in terms of race,socio- economic status and cutural background

874. Which program of the Department of Education is an offshoot of the Filipino bayanihan spirit?

A. Child-Friendly School System

B. Brigada Eskwela

875. Which is a classroom application of this principle “Students learn more effectively when they elaborate on new information” . Ask your students to _____ .

A. Commit the principle to memory

B. Identify an application of the principle

876. Teacher Aljon gives his students opportunities to be creative because of his conviction that much learning results from the need to express creativity. On which theory is Teacher Aljon's conviction anchored?

A. Behaviorist

B. Humanist

877. Pavlov is to classical conditioning as _____ is to operant conditioning.

A. B. F. Skinner

B. J. Holt

878. Why is it sound to encourage our students to define terms in their own words? Because ____.
- A. students remember information better when they mentally process it in some way.
 - B. they ought to connect the terms that they learn with other terms

- A. Reconstructionism
 - B. Progressivism
880. Which illustrates a proactive approach to discipline?
- A. Teacher starts giving rule only after a violation of a rule.
 - B. Teacher arranges the chairs to allow for a smooth traffic flow.
881. With preventive discipline in mind, which does NOT belong to the group?
- A. Reactive
 - B. Proactive
882. Which is a proactive management practice?
- A. Tell them that you enforce the rules on everyone, no exception.
 - B. Set and clarify your rules and expectations on Day 1.
883. Teacher Liam strives to draw participation of every student into her classroom discussion. Which student need is she trying to address? The need to ____.
- A. show their abilities to the rest of the class
 - B. feel significant and be part of a group
884. Which can run counter to the encouragement you give to your students to ask questions?
- A. Knitted eyebrows when a question is raised
 - B. Eye to eye contact

- 885.** To encourage class participation, which should a teacher NEVER do?
- A. Pose high level questions.
 - B. Reject a student's response at once
- 886.** Which question demands the highest level of thinking?
- A. What conditions must be met for reporting method to be effective
 - B. Was the student reporting well done?
Support your answer?
- 887.** Teacher Dang asked her class this question: How will you illustrate symbiosis to your classmates? Teacher Dang's question is a question that _____.
- A. Assesses cognition
 - B. Probes creative thinking
- 888.** Which questioning technique promotes more classroom interaction?
- A. Focusing on convergent questions
 - B. Focusing on divergent questions
- 889.** At what historical phase did Filipinos get formal tutoring for democratic sovereign life which we started to enjoy in July 4, 1946?
- A. June 12, 1898 declaration
 - B. American colonial regime
- 890.** What established formal public school in the Philippines?
- A. A Hispanic royal decree of 1863
 - B. Efforts of Spanish missionaries
- 891.** Noypi is an Existentialism teacher. He made efforts to make connections between new information of the EDSA peaceful revolution with past lessons on the Philippine Hispanic revolution. How is this effort of teacher Noypi known in the cognitivist learning theory?
- A. Integration
 - B. Modification

- 892.** If Teacher Fin Gear sees honesty as a timeless virtue for yesterday/ today/and tomorrow, what principle does she value?
- A. Perennialism B. Pragmatism
- 893.** Principal Noy Calbo is carefully focused on providing healthy, beautiful, and nurturing physical and social environment in her school. She believes learners are shaped by their own environment. What philosophical heritage of learning does she value most?
- A. Behaviorist B. Parennialist
- 894.** What is stressed by the Reconstructionist philosophy in education?
- A. Educational trends and issues
B. universal truths
- 895.** In responding to the learning needs of special children, what negative value or condition is directly remedied by our democratic educational system?
- A. Elitism in education
B. discrimination among learners
- 896.** In the Code of Ethics of Professional Teacher, moral values are given importance. What aspect of moral character best relates to the teacher who required good habits and attitudes while practicing them consistently in life?
- A. being morally upright
B. being a loving person
- 897.** What is the most basic foundation for moral principles?
- A. The civil code
B. The natural law
- 898.** Teacher Atejay is aware she cannot teach reading in a flash. Following the Goddole's Reading Skills Ladder, what step will she first focus on for beginners?
- A. Using contextual clues. B. Basic sight words.

899. Which of the following is an example of non-verbal behavior by teacher?
