#RoadToLPT

1. A person in a dark room looking through a window can clearly see a person outside in the daylight. But a person outside cannot see the person inside. Why does this happen?

- A. There is not enough light being reflected of the person in the room.
- B. Sunlight is not as the other sources of light
- C. Light rays cannot pass through the window twice
- D. Outside light does not pass through windows.

2. Since the family is the basic unit in democracy, home economics education needs to be based upon _____.

- A. Cooperation as individual and in group
-  B. Democratic principle.
- C. Many cultures of families and democracies
- D. Sharing and cooperation.

3. Matter exists in the form of units which can be classified in hierarchies or organizational levels. Which of the following units shows a correct hierarchical organization?

A. Solids-liquids-gases-plasma

B. Cell-tissue-organ-system-organism

C. Atom-molecule-element-compound-mixture

D. Protons-neutrons-electrons-ions

4. Which of the following statements best explains recruitment?

- A. It is the process of ensuring that competent people are available.
- B. It is a process of obtaining qualified applicants for promotion
- C. It is a process of hiring and firing
- D. It is the process of obtaining qualified applicants for a job.

5. What is the reason why the staff wages for the retailer and wholesaler are NOT considered as the direct cost?

A. Because one person generally sells many different products

B. Because staff wages are taken from the income of the company

C. Because cost is not linked to the acquisition of raw materials

D. Because the direct costs have to be attributed proportionally.

6. Happiness is different from pleasure in being an abiding consequence or result which is not destroyed even by the presence of pain. The best illustration of this principle is _____.

- A. A jackpot winner collecting his prize
- B. Engaged couple getting married
- C. Mother giving birth
- D. Student topping the board examination

7. Which of the following is another illustration of happiness?

- A. A family looking at their crops ready for harvest
- B. A family dining at a 5-star hotel
- C. A family on their way to a vacation holiday
- D. A family admiring their newly bought car.

8. Students after a long summer vacation hardly return to usual study habits. This situation is a post-vacation carry over. It takes two to three weeks to be in such situation. What post-vacation theory is advanced?

- A. Post-vacation should be extended by 4 weeks
- B. Vacation is worth doing
- C. Pre-vacation plans are necessary
- D. Post vacation habits should be ignored

9. As head of the family the father is the principal bread winner. What does it mean?

- A. His earning determines the economic condition of the family
- B. It is duty to give economic support to his children
-  C. He is responsible to support the wife and children
- D. He should manage the family budget.

10. Which of the following is one of the positive skills developed as one learns handicrafts?

- A. Enriched vocabulary in handicrafts
- B. Enhanced self-esteem and well-worth
-  C. Adeptness in eye-hand coordination
- D. Exposure to handicrafts principles

11. Which of the following is one of the positive values developed as one learns handicrafts?

A. Love and respect for parents

B. Optimism in life

 C. Involvement in extra-curricular activities

D. Friendship with others

12. One of the following steps is not included in determining the proper height of working spaces.

- A. Ask him to place his arms close to his body and bend his arm at the elbow.
- B. Let a person get a chair and let him sit down
- C. Let a person who would use it stand
- D. The distance from the floor to the elbow minus two inches is the proper height for working.

13. Pre-school children always watch the body language of their teachers. This means _____.

- A. communication is best by movement and gestures
- B. communication is best by words
- C. communication is best by the tone of voice
- D. communication is best by group of discussions

14. In what situation is it necessary to give a ring to the parents of a drowning boy?

A. To ask a classmate to join the party

B. To invite the teacher to a picnic

C. To inform his mother of the accident

D. To tell a friend to come later

15. Pulmonary tuberculosis has affected 90% of the Filipinos. How is this disease transmitted?

A. Using dishes of active TB patients.

B. Coughing with uncovered mouth

C. TB patient allowed to work with others

D. Sleeping with children

16. Experiments and techniques in food production are usually found in some schools. The most extensive ones are in ____.

- A. University of the Philippines
- B. Don Mariano Marcos University
- C. University of the East
- D. University of Santo Tomas

17. Farmers are all enthusiastic in the campaign for “Gintong Ani” for mangoes. Which practice is harmful to the environment?

A. Encouraging insects to do pollination

B. Spraying the trees with herbicides and pesticides

C. Using organic fertilizer every six months

D. Using asexual propagation of mangoes

18. Children in the mountain ranges are diagnosed as suffering from goiter. Determine the cause of such disease.

- A. Lack of iodine in food
- B. Excess of iodine in diet
- C. Excess of vitamins in diet
- D. Lack of iron in diet

19. A boy got tired of getting up early to join the family, he decided to change his religion. Cite the right he wanted to exercise.

A. Right to due process

B. Right for free worship

C. Right to change worship as provided by its bible

D. Right to abide by family rules

20. The MRT commuters increased in number after the public _____.

A. realized the fare to be reasonable

 B. appreciated the full speed

C. found the couples limited in capacity

D. reached their destination with full certainty

21. Which approach DOES NOT lessen vehicular air pollution?

- A. Utilizing the MRT and LRT
- B. Ban diesel-using cars on the highway
- C. Ask pedestrians to use bicycles
- D. Allow vehicles with more than 20 years of use

22. Rural health centers conduct home visitation. Babies are vaccinated early to avoid pulmonary tuberculosis. However, what is the WHO findings?

- A. Most children suffer pulmonary complex
- B. Babies are immuned from TB
- C. Most fathers spit blood and infect babies
-  D. Mother sick with TB transmit their disease by breast feeding

23. There is a non-government program that extends assistance to children who needs hospitalization and treatment. What is non-government project?

A. Tahanang Walang Hagdan

B. Father Angelo's

 C. Bantay Bata Project

D. Welfareville

24. Which antidote would have a similar effect if vinegar or citrus juice were not available?

A. Raw egg white

B. Water

C. Vegetable oil

 D. Milk

25. A radio with a strong electromagnetic would not be placed near the navigation instruments on a plane or ship because _____

- A. the accuracy of the compass would be affected by the magnetic field established by the radio electromagnet
- B. the radio would draw too much electrical energy, causing the electrical system of the ship or plane to discharge
- C. the radio wouldn't work because of electrical interference
- D. none of these

26. Alin ang ipinahihiwatig ng sumusunod na kuha sa Republikang Basahan ni Teodoro Agoncillo?

Kasarinlan! Republika!

Kayo bagay nauulol

Sa ang kalayaa'y tabla na rin ang kabaong!

A. Pagtangga

 B. Galit at marahas na damdamin

C. Matindi ngunit matimping damdamin

D. Pagkabahala

27. Researches gave rats a dose of 3-m, butyl phtalide and measured changes in the rats blood pressure. This statement is BEST classified as

-  A. Experiment
- B. Prediction
- C. Hypothesis
- D. Finding

28. Which of the following is the smallest prime number greater than 200?

A. 214

B. 205

C. 201

 D. 211

29. Ano ang kahulugan nito?
Puwit man ng baso't suot ng
mayaman, ang tingin ng tao'y
brilyanteng makinang.

A. Mapang-api

 B. Pagtingala sa mayaman

C. Mapagbalatkayo

D. Tulong sa kabuhayan

30. We have energy responsible for life on Earth. The source of this energy is the _____

A. Moon

B. Wind

C. Star

 D. Sun

31. Alin sa mga pangungusap ang higit na epektibong pagpapahayag?

A. Nang nailikas ang mga tao ay bumaha sa aming bayan

B. Nang bumaha sa aming bayan ay nailikas na ang mga tao

C. Pagkalikas sa mga tao ay bumaha sa aming bayan

D. Nang lumikas ang mga tao ay bumaha sa aming bayan

32. Which of the following actions speaks of the main thrust of Reagan's foreign policy?

A. Giving aid to anticommunist rebels in Nicaragua, Afghanistan and Angola

B. Setting up summit talks with Gorbachev

C. Arranging peace talks between Israel and PLO

D. Refusing to intervene in the Philippine elections of 1986 between Pres. Marcos and Corazon Aquino

33. Potato plants are usually grown from buds, not seeds. The explanation for this is that _____

- A. potatoes cannot be grown from seeds
- B. buds are not subject to light as seeds are
- C. buds are more likely to duplicate the qualities of the parent plant
- D. buds represent a form of asexual reproduction and seeds represent sexual reproduction

34. The principle under which a thermostat operates is the same when:

- A. A chemical occurs when two substances combine
- B. A gas expands to fill the container in which it is held
-  C. The level of mercury rises or in a glass tube
- D. A pendulum swings when it is set into motion

35. In which kingdom should MOLD be classified?

A. Plantae

B. Protista

C. Animalia

 D. Fungi

36. Which of the following should you expect to be true about the rate of cellular respiration for a group of students who are the same age, height, and weight?

A. Boys would have a higher rate of cellular respiration than girls

B. Athletes would tend to have higher rates of cellular respiration than non-athletes

C. Non-athletes would have higher rates of cellular respiration than athletes

D. Africans would have a higher rate of cellular respiration than Asians

37. Our commitments can develop us or they can destroy us, but either way, they will define us. Choose the line below that has the same meaning .

- A. Half-hearted commitment is what we need today
- B. Our commitments need not be planned way ahead
- C. We must make full commitment to worldly goals
-  D. Our lives are shaped by what we are committed to

38. Workers in the service sector should trained to act as _____ as possible.

A. Courteously

B. Covertly

C. Curtly

D. Rudely

39. Our guest of honor was a loquacious speaker. This means he is _____.

A. Verbose

B. Reserved

C. Reticent

D. Taciturn

40. Which theory emphasizes that the period of adolescence is one that the greatest importance in the development of the adult personality?

-  A. Psycho-Social
- B. Humanistic
- C. Confluent
- D. Psycho-Analytic

41. The astronauts could not communicate with one another while on the moon's surface? Why?

A. There is no weather that occurs

B. Air waves are irregular

 C. There is no atmosphere

D. Temperature shuts down sound

42. Material culture refers to the tangible and concrete objects produced by man. Which are examples of material culture?

A. Ceremonies of Tartans

B. Moriones festival

C. Sinulog celebration

 D. Stone walls of Tasadays

43. Which explains why work is done when blowing a balloon?

- A. The balloon has potential energy which is changed to kinetic energy.
- B. The force of gravity on the balloon increases
-  C. The balloon moves outwards as the blowing force is exerted on it
- D. The balloon is filled with air which has weight and occupies space.

44. Which of the following physical changes involve adding heat to a substance?

A. Evaporating and condensing

B. Boiling and condensing

C. Condensing and freezing

 D. Melting and boiling

45. Blocks of asphalt are left with a narrow gap in between them in order to _____.

A. Hold extra dust and small particles of sand

B. Give allowance for expansion during hot days

C. Serve as passage of water during rainy days

D. Make roads with equal blocks and gaps

46. In plant cells, chloroplasts are active in the chemical processes required to make food. Animals cells have no chloroplasts. Based on this, we can conclude that _____.

A. Animals cells are more complex than plant cells

B. Plant cells are more complex than animal cells

 C. Animals must obtain food from outside sources

D. Animal cells are more complex than plant cells

47. Why does water boil at a lower temperature on a mountain than at sea level?

- A. The temperature of the sea as we go higher
- B. The atmospheric pressure is higher as we go higher
- C. The temperature of the air falls as we go higher
-  D. The atmospheric pressure is lower as we go higher

48. Why do farmers and gardens often treat the soil with ammonium sulfate?

A. It increases the oxygen content of the soil

 B. It increases the nitrogen content of the soil

C. It reduces the acidity of the soil

D. It acts as a pesticides

49. Which statement is guaranteed by the Civil Code of the Philippines?

- A. Both are given freedom to choose their occupation
- B. The husband has the right to object to the occupation of the wife
- C. The wife also has the right to object to the occupation of the husband
- D. Both husband and wife are co-equal

50. Which metal is used to make container for soft drinks?

-  A. Aluminum
- B. Copper
- C. Lead
- D. Silver

51. Which of the following organic acid occurring in low concentration is essential to human but is highly dangerous when human are exposed to high concentrations of it?

- A. Citric acid found in citrus fruits
- B. Folic acid, a form of vitamin B used to treat anemia
-  C. Hydrochloric found in the stomach's gastric juices
- D. Lactic acid found in milk products

52. Which of these drugs are addictive, leading to withdrawal symptoms, when their use is discontinued?

1. Alcohol

2. Aspirin

3. Heroin

4. Nicotine

5. Penicillin

A. 2,4 and 5

B. 2 and 3 only

C. 1 and 2 only

D. 1, 3 and 4

53. A meter stick was cut into two pieces at the 64 cm mark? What is the ratio of the smaller piece to the larger piece?

A. 16:25

B. 13:50

C. 9:25

 D. 9:16

54. If a positive number is increased by 70 percent, and then the result is decrease by 50 percent, which of the following accurately describes the net change?

-  A. 15% decrease
- B. 20% increase
- C. 12% increase
- D. 20% increase

55. Find in feet, the amount of framing needed to frame a picture $8\frac{1}{2}$ inches by 11 inches?

A. $5\frac{1}{4}$ ft

 B. $3\frac{1}{4}$ ft

C. $4\frac{1}{4}$ ft

D. $2\frac{1}{4}$ ft

56. What percent of P340.00 is P30.60?

A. 7%

B. 6%

C. 8%

 D. 9%

57. A square has an area of 400 sq. cm. What is its perimeter?

-  A. 80 cm
- B. 40 cm
- C. 20 cm
- D. 100 cm

58. What are the next three numbers in this sequence? $\frac{1}{6}$; $\frac{1}{3}$; $\frac{1}{2}$, $\frac{2}{3}$ ____.

-  A. $\frac{5}{6}$, 1, $\frac{7}{6}$
- B. $\frac{7}{3}$, 4, $\frac{9}{3}$
- C. $\frac{5}{6}$, $\frac{2}{6}$, $\frac{7}{3}$
- D. $\frac{5}{2}$, 7

59. When ##### replaces numbers in the cell _____.

- A. Use the custom format
- B. Return to the general format
- C. Indicate a formula error
- D. Increase column width

60. The school cafeteria increases the price of a plate of rice from P8 to P10. If the same rate of increase was applied to a regular order or viand with used to cost P20, how much does an order of viand cost?

-  A. P25
- B. P22
- C. P26
- D. P24

61. Which is the equivalent common fraction of the repeating decimal $5.818181\dots$?

A. $67/11$

 B. $64/11$

C. $66/11$

D. $65/11$

62. If a farmer would want assistance like pricing, guarantee for all agriculture products or cooperative management training, where would he go?

A. Special Agrarian Court under the Regional Trial Court

B. Support services of the Department of Agrarian Reform

C. DAR adjudication board

D. Land bank

63. Which of the following is imposed a final tax of ten percent (10%)

A. Currency bank deposit

B. Royalties

C. PCSO and lotto winning

 D. Books, literary works and musical composition

64. Which of the following refers to an attractive investment idea or proposition that provides the possibility of a return for the person taking the risk?

-  A. Business opportunity
- B. Capital
- C. Competition
- D. Demand

65. When does the need for sales promotion become indispensable?

- A. When the producer wants to make product popular in the market
- B. When one take into account the sales volume of the products
- C. When the costumer satisfaction is of prime importance
- D. When there is a great demand for the product

66. How do you define a competition in a business?

A. A person who leads and commands a business

 B. A rival of an entrepreneur to his/her business

C. A personal enemy of an entrepreneur

D. A business who is innovative

67. In order to use an on-line database service, which of the following are needed?

A. Computer, tele-computing software, printer

B. Computer, phone line, printer, CD-ROM drive

C. Phone line, tele-computing software, modem, computer

D. Tele-computing software , phone line, modem

68. What does an owner's drawing or personal account include?

- A. The allowance given to the owner
- B. The capital contributions of the owner made at the inception of the business
-  C. The personal property of the owner
- D. The withdrawal of capital by the owner end of period of the profits of the business

69. Why is the Price Law important?

- A. To show that the product is of high quality
- B. To show the price and ask for more discount
- C. To show the price and to attract buyers
-  D. To discourage & minimize price haggling

70. Which question falls under the Literal Comprehension Level?

- A. What are the advantages and disadvantages of being tall & short?
- B. Do you agree with the horse when it said, that it is best to be what you are?
-  C. In the story, who is short?
- D. Why is it good to be short?

71. The line from the Koran, “Woe to every backbiter,” talks of _____.

A. Punishment for those who say good things

B. Misery for those who talk ill of others

C. It is a group of businessmen bent on stopping the manufacture of alcohol drinks

D. It is a group of alcoholic parents who has made it its mission to help alcoholic parents

73. Our opposition to divorce could be an influence of the _____.

A. Protestant religion introduced by the Americans

 B. Roman Catholic religion introduced by the Spaniards

C. Americans constitution

D. Educational system of the Spaniards.

74. Why is the Filipino trait of pakikisama said to be ambivalent?

- A. It makes people show their concern for others
-  B. It can be used for or against the person who values it
- C. It encourages a person to do wrong
- D. It helps person develop good values

75. The point in the earth's orbit when the earth is farthest from the sun is called _____.

A. Perihelion

B. Aphelion

C. Parallax

D. Perigee

76. The force required to maintain an object at a constant speed in free space is equal to ____.

A. Mass of the object

 B. Zero

C. Weight of the object

D. Force required to stop it

77. What is the smallest positive integer that has 6, 8 and 10 as factors?

A. 240

 B. 120

C. 300

D. 80

78. Rupert is 10 years older than his sister. If Rupert was 25 years of age in 1983, in what year could he have been born?

A. 1963

B. 1953

 C. 1958

D. 1948

79. What number is next in this sequence? 11120, 11420

A. 11820

B. 11800

C. 11760

 D. 11720

80. How many glasses of soda each to be filled with 150 cu.cm of the liquid can be made from 5 family size bottles of soda each containing 1.5 liters?

-  A. 50
- B. 60
- C. 40
- D. 45

81. Anong bahagi ng pananalita ang nasa malaking titik? Malungkot ANG MGA natapos na wala pang trabaho.

A. Pangatnig

B. Pang-ukol

C. Parirala

 D. Pananda

82. Kung ang awit ng pag-iibigan ay kundiman, ano naman sa Bisaya?

A. Sambotani

B. Kumintang

 C. Balitaw

D. Diona

83. Ponema ang tawag sa
makabuluhang tunog ng wika.
Ilan ang ponema ng Filipino?

A. 31

B. 21

C. 31

D. 28

84. Kailan ginagamit ang IKA na may gitling?

A. Kung ang bilang ay isinisulat na buo.

B. Kung mismong bilang ang sumusunod na isulat

C. Kung ginagamit na panlapi sa isang salita

D. Kung ang ikakabit ay isang panlapi

85. Anong ayos ng pangungusap ang sumusunod?
Ang mga bata ay naglalaro sa lansangan.

-  A. Di-karaniwan
- B. Karaniwan
- C. Tuwirang layon
- D. Literal

86. Sa pagsasanay tungkol sa kasarian ng mga pangalang ipakita, mabisang gamitin ang _____.

A. Flow chart

B. Plaskard

C. Ginupit na larawan

D. Diorama

87. Anong mga estratehiya ang gagamitin mo kung nais mong malinang ang mga talinong pangkatawan, kahusayan sa pagkontrol ng katawan, timing, trained responses?

A. Pagninilay, feeling-toned moments, goal setting

B. Pasunod sa ritmo, pag-awit, pagrap at chants

 C. Teatrong pangkasrum, charades, katawang mapa

D. Brainstorming, pagsulat ng journal, pagsasadula

88. Ano ang gamit ng mga ito: spot-semantic, klaster-konsepto, sapot-gagamaba, dayagram, hirarkiyal at iba pa?

- A. Matukoy ang mahalagang detalye
- B. Makagawa ng balankas
-  C. Mapag-ugnay o makategorya ang mga konsepto
- D. Mapagsunod-sunod ang mga pangyayari

89. As a cashier in a 24-hour supermarket, Susan get P60 per hour plus an additional P500 per week to work in the evening shift. How much would she paid for a 40-hour week in the evening shift?

A. Php 2700

B. Php 2400

 C. Php 2900

D. Php 3200

90. Teresa placed some sliced green mangoes in a glass of drinking water. After a while she took out a few slices and found the slices very turgid. What can you infer this observation?

- A. Water was absorbed by the mangoes
- B. The mango slices did not change in shape
- C. The slices became less sour
- D. Water moved out of the tissue of mangoes

91. Which factor contributes to the “green house effect”?

- A. Destruction of forest
- B. Use of solar glass to capture radiant energy
- C. Use of carbon dioxide by land plants
- D. Depletion of minerals in the soil by over farming

92. Which is the most reliable way of determining whether or not the students have develop positive attitude towards work?

A. Students debate on work values as teacher listens

 B. A teacher observes students as they work

C. Students define work

D. Students sing a song the dignity of work

93. Ang mga gulay ay may volatile at non-acids na nawawala habang niluluto ang mga ito at nagiging sanhi ng manila-nilaw na berdeng gulay. Paano it maliwasan?

- A. Pakuluan ang gulay ng sampung segundo lamang
- B. Panatilihing nakatakip ang lutuan habang nagluluto
- C. Huwang takpan ang lutuan habang nagluluto
- D. Hayaang nakabukas ang lutuan sa unang 10 minuto saka ito takpan

94. If in a routine practice of stunts one of the participants accidentally loses his balance and sustains fracture straight elbow, what precautionary measure should be observed to avoid further injury?

- A. Immediately apply cold compress to avoid further swelling
- B. Do not attempt to bend the elbow to apply a sling
- C. Check the proper location of the splint
- D. Check for vital signs of the victim.

95. Which is the undying musical movie that depicts the story of a nun named Maria which brought back music to the family Von Trapp somewhere in Australia during World War 1?

A. Sister Act

B. The West Side Story

C. Titanic

 D. Sound of music

96. The following are factors to consider in preparing a balanced diet for the family EXCEPT one.

- A. Size of family members
- B. Activities of the family members
- C. Family income
- D. Lifestyle of the family members

97. In Psalm 23 otherwise known as “Psalm of David” what is the closest meaning to the line: “He maketh me to lie down in green pastures: he leadeth me beside the still water.”

A. He will always obey his master for his glory

B. He will provided peace and prosperity

C. He will be given riches and mercy

D. He will be known throughout the land.

98. With the Batasang Pambansa performing legislative and executive powers in the Marcos regime, which form of government was implemented?

A. Dictatorial

B. Monarchial

 C. Parliamentary

D. Presidential

99. In connection with government transaction involving public interest, which policy is adopted by the Constitution to ensure the public accountability and transparency?

A. Private enterprise and incentives to needed investments

B. Full public disclosure

C. Rural development and agrarian reform

D. Balanced and healthful ecology

Situation: You can't make children grow faster by pushing them, just as you can't make flowers bloom faster by pulling them.

100. What message does the statement have for teachers?

- A.** Provide children with developmentally appropriate practices
- B.** Avoid comparing a child with other children
- C.** Games will help develop children naturally
- D.** Just look at the flowers when you are tempted to hurry up the development of a child

101. Which stat is in support statement given above?

A. It is the early childhood educator who has both the immense responsibility of creating the learning environment that will and stimulate the whole child

B. We can't make children's dendrites grow faster or insist that important connections in the brain be made.

C. A teacher's moment-by-moment actions and interactions with children are the most powerful determinant of learning outcomes and development

D. Each child's brain is unique and vastly different from one another

Situation: The class was asked to design an experiment to test the effect of detergent on fish. One group came up with this experimental design. For detergent they got Ariel, Surf and Tide. For fish they had tilapia, goldfish, and janitor fish contained in different sizes and shapes of bottles. To the tilapia they put 1 tbsp. of Ariel. To the goldfish, they put 1 tbsp of surf and to the janitor fish, 1 tbsp. of tide.

102. How can the experimental design be improved?

- I. Make use of the same type and size of fish
- II. Increase the number of fish & reduce the number of detergent brands involve
- III. Focus on one independent variable at a time, e.g. brand of detergent

A. I only

 B. I and III

C. I and II

D. II only

103. What is defective with the experiment design?

- A. There is no testable hypothesis
- B. There are a lot of biases involved
- C. It is very complicated
-  D. There are so many independent variables the effect of which was tested

104. What is the dependent variable?

- A. The effect of detergent on fish
- B. The amount of water
- C. The brand of detergent
- D. The amount of detergent

105. What is the control group?

A. The tilapia with 1 tbsp. of Ariel

 B. Cannot be determined

C. The goldfish with 1 tbsp. of surf

D. The janitor fish with 1 tbsp. of tide

106. What is the experimental group?

- A. The janitor fish with 1 tbsp. of tide
- B. The tilapia with 1 tbsp. of Ariel
-  C. Cannot be determined
- D. The goldfish with 1 tbsp.

107. How can farmland be used to transfer the greatest amount of energy to humans?

A. By using half the land for crops and half for meat production

 B. By growing plant crops for people to eat

C. By keeping sheep to provide meat

D. By keeping cows to provide cheese and milk

108. Engagement is a positive factor to a successful marriage. The following factors are considered in deciding the length of the period of engagement EXCEPT which one .

- A. Length of the courtship period
- B. In-law relationship
- C. Extent of preparation
- D. Ability to adjust to each other

109. Which of the following factors at least indicate how Filipino regards his family?

- A. Commitment and responsibility
- B. Emotional and material support
-  C. Influence of the behavior of all members
- D. Personal identity

110. The first step of the problem solving process in home management is to ____.

- A. Identity the possible consequences of potential action
