80. At what age does improve breed of swine reach puberty?

- A. 5 to 7 months
- B. 6 to 8 months
- C. 4 to 6 months
- D. 8 to 10 months

81. Which of the following environmental conditions is NOT required for a successful incubation of egg?

- A. Temperature
- B. Humidity

- C. Turning of the egg
- D. Ventilation

82. Which kind of animals has bulk foods as basic diet?

- A. Fowl
- B. Aquatic
- C. Ruminant
- D. Swine

83. The best age to allow a gilt to breed is _____.

- A. 5 months
- B. 6 months
- C. 7 months
- D. 8 months

84. In selecting boars, the following should be considered EXCEPT _____.

- A. vigor of pigs
- B. masculinity, both in appearance and action
- C. visibility of primary sex organs
- D. different sizes of testicles

85. If you use chemical pesticides, how many days are you required before flushing the pond water into the river?

- A. 4 to 6 days
- B. 4 to 5 days
- C. 5 to 7 days
- D. 5 to 6 days

86. Which chicken disease is caused by virus and with no known treatment?

- A. Avian Maria
- B. New Castle Disease
- C. Mareks Disease
- D. Coccidiosis

87. Which cattle disease is characterized by septicemia and sudden death? It is caused by bacteria which is transmitted through inhalation or through flies and mosquitos.

- A. Food and Mouth Disease (FMD)
- B. Hemorrhagic Septicemia
- C. Pneumonia Disease Complex
- D. Anthrax

88. Which fungal disease of plants causes seedlings to rot at the soil level?

- A. Blight
- B. Canker
- C. Damping
- D. Leaf Spots

89. Which viral disease of plants makes the leaves have irregular mottled areas with patterns ranging from dark green to light green to yellow to white?

- A. Lung worms
- B. Mange
- C. Lice
- D. Sand fleas

90. Which skin-irritation in between the legs, around the eyes, ears and neck of swine is caused by external mites?

- A. Lung worms
- B. Mange
- C. Lice
- D. Sand fleas

91. Which bacterial disease of swine causes abortion and infection of the reproductive organs in the male resulting to sterility?

- A. Anthrax
- B. Mastitis
- C. Brucellosis
- D. Trypanosomiasis

92. Which pest of animals suck the blood and causes skin irritation?

- A. Lung worms
- B. Mange
- C. Lice
- D. Sand fleas

93. Which plant disease causes round swelling or growth on plants?

- A. Canker
- B. Mildew
- C. Galls
- D. Mosaic

94. Which plant disease blocks the uptake of water?

- A. Root Rot
- B. Wilts
- C. Rust

D. Smut

95. Which plant disease causes small spots that occur mainly on the underneath side of leaves?

- A. Root Rot
- B. Wilts
- C. Rust
- D. Smut

96. Which plant disease causes open wounds on woody plant stem?

- A. Canker
- B. Galls
- C. Leaf Spots
- D. Mosaic

97. Which avian disease causes by virus? Its initial symptoms are leg weakness and paralysis of one or both legs

- A. Avian Malaria
- B. Coccidiosis
- C. Marek's Disease
- D. Avian New Castle Disease

98. Which chicken disease is characterized by a watery, sticky, bad-smelling secretion from the affected membranes or the development on a membranes of yellowish cheesy matter, called pseudo-membranes?

- A. Simple colds
- B. Bronchitis
- C. Roup
- D. Fowl Pox and Diphtheria

99. Which avian disease usually appears during the hot months of the summer season?

- A. Fowl cholera
- B. Tuberculosis
- C. Fowl Typhoid
- D. Fowl Pox and Diphtheria

100. Which crop disease causes blisters that burst open releasing black spores?

- A. Rust
- B. Mosaic
- C. Smut
- D. Mildew
