

PROFESSIONAL EDUCATION - 150 items**INSTRUCTIONS:**

1. Detach one (1) answer sheet from the bottom of your Examine ID/ Answer Sheet Set.
2. Write the subject title "PROFESSIONAL EDUCATION" on the box provided.
3. Shade Set Box "A" on your answer sheet if your test booklet is Set A; Box "B" if your test booklet is Set B.

MULTIPLE CHOICE

1. The world has become a global village. What sound practice is expected of teachers?
A. Ethnocentrism
B. Xenocentrism
C. Cultural diversity
D. Culture shock
2. Which of the following contributes to the provision of quality education?
A. Construct classroom and laboratory rooms.
B. Hire the best teacher applicants from the Division pool.
C. Provide adequate textbooks and other instructional materials.
D. Maintain sanitary, safe, child-friendly and conducive environment to learning.
3. The following characterize a learning environment that promotes fairness among learners of various cultures, family background and gender, EXCEPT:
A. Inclusive
B. Gender-sensitive
C. Exclusive
D. Safe and conducive
4. Which of the following BEST reflects a professional teacher's conviction of the nobility of the teaching profession?
A. Timely feedback
B. Mastery learning
C. Community involvement
D. Lifelong learning
5. Education plays a crucial role in achieving sustainability. This can be done by promoting_____.
A. gender bias
B. bullying
C. environmental protection
D. ethnocentrism
6. What is the best way for a new teacher to blend into your school's unique culture?
A. Orientation by peers.
B. Memorizing the Code of Conduct.
C. Understanding the schools' vision, mission, and goals.
D. Involvement in planning activities.
7. Are vocational teachers required of professional license?
A. Yes.
B. No.
C. Only if they teach in the regular school
D. Only if they have less than 5 years of teaching experience.

8. Which of the following scenarios demonstrate a globally aware teacher?
- I. He/she studies and tries to understand other nations, cultures and languages.
 - II. He/she conscientiously studies her own area of expertise.
 - III. He/she works collaboratively with his diverse learners in a spirit of honesty, mutual respect and open dialogue.
- A. I and II
 - B. I and III
 - C. I and III
 - D. All of them
9. Which aspect of work needs to be taught to future employers and employees in the 21st century workplace?
- A. Wages and incentives
 - B. Human rights issues
 - C. Industry skills and orientation
 - D. Loyalty for company and work
10. What could be one of the challenges of multicultural education?
- A. High social skills of learners
 - B. High language proficiency
 - C. Multi-cultural school setting
 - D. Content integration
11. After being observed, Teacher Belen received a comment from Principal Calugtong that she has a mastery of the content yet cannot make her students interested and engaged in the discussion. Principal Calugtong asked her to read an article entitled, "*Teachers of the 21st Century*." From her readings, which do you think can help Teacher Belen?
- A. Entrepreneurial skills
 - B. Interdisciplinary skills
 - C. Cultural skills
 - D. Information and technology skills
12. Which of the following has greatly influenced the introduction of K-12 reform in basic education?
- A. need to allot for more funding
 - B. need to upgrade facilities of schools
 - C. need to employ more teachers
 - D. need to conform international standards
13. Other than para-teachers, who else are entitled to a special permit?
- A. A person who has all the qualities of an effective teacher.
 - B. A person who has gained international recognition.
 - C. A person who is widely acknowledged expert in his/her specialization.
 - D. Both B and C.
14. Which of the following is a quality of an engaging learning environment most reflective of Education For All (EFA)?
- A. Decentralized governance
 - B. Student-centered learning activities
 - C. Innovations to enhance learning for all types of learners
 - D. Open communications for all-teachers, parents, students
15. Which alternative delivery mode frees children from the confines of the four corners of the classroom as it allows pupils to learn even while at home or in the community?
- A. Multi-grade Program
 - B. Adopt-A-School Program
 - C. MISOSA
 - D. GASTPE

16. Of the following, which is the most powerful source of values like beauty and goodness outside the school system?
- A. Government propaganda
 - B. Nature
 - C. Commercial advertising
 - D. Mass media
17. The Department of Education authorizes contributions in schools but not during enrolment. Which is NOT an authorized contribution?
- A. Boy/Girl Scouts
 - B. Philippine National Red Cross
 - C. School Organization
 - D. School Publication
18. Why was Science NOT included as a separate subject in Grades 1 and 2 under the Basic Education Curriculum?
- A. To decongest the curriculum
 - B. To make learning more enjoyable
 - C. Science concepts are embedded in learning areas
 - D. All of the above
19. "Barrio High School Movement": _____; "Iloilo Experiment": _____
- A. Pedro Orata; Jose Aguilar
 - B. Jose Aguilar; Pedro Orata
 - C. Francisco Benitez; Ramon Magsaysay
 - D. Ramon Magsaysay; Francisco Benitez
20. Martin Luther King's philosophy is rooted in the concept of non-violence. This adheres with the teachings of _____
- A. Buddhism
 - B. Hinduism
 - C. Taoism
 - D. Islam
21. A school principal wants to emphasize the pillar "Learning to Do" in his school. Which of the following can help her teachers achieve this objective?
- A. Art of Empathy
 - B. Art of Dialogue
 - C. Artistic Skills
 - D. Occupational Training
22. Among the four pillars, the Delor's Commission emphasized one. Which of the following is consistent with this important pillar?
- A. Technical-vocational skills
 - B. Analytical skills
 - C. Interpersonal skills
 - D. Joint projects
23. A certain public school is occupying an area inside a subdivision, while its students live in the fringes of that subdivision. The well-heeled residents often complain about the noise, litter and petty crimes allegedly done by the students. As concerned teachers, what should you do?
- A. Engage the students in regular clean-up activities around the streets surrounding the school.
 - B. Call the students and their parents in weekly conferences to let them know about the grievances of the residents.
 - C. Together with the principal, have a dialogue with the Homeowners Association on ways that will mutually benefit the school and the subdivision.
 - D. Ask the principal to bring the matter to the local government since it is beyond your school's jurisdiction.

24. On the first day of school, you immediately notice a transferee in your class. As days go by, you also notice the student is shy to recite due to her provincial accent and lacks fluency in Filipino. Which of the following is the LEAST effective way to ease her discomfort and pave the way for the class to take her in?

- A. Talk to her outside of class everytime you have the chance.
- B. Ask her to tell something about herself and the place she came from in front of her classmates.
- C. Treat her like one of your regular students, but make it known she can approach you anytime.
- D. Ask your students to be friendly and welcome her to the class.

25. In a PTA meeting where contribution for a PTA fund raising project was discussed, a parent with three children enrolled in the school pleaded that she may not be charged the total P900 (since each child is asked P300) because it was beyond her financial capacity. The teacher adviser answered, "*Marami kasi kayong anak, wala na tayong magagawa dyan!*" To maintain your cordial relations with parents, which could be the BEST answer?

- A. "We understand your plight. Let's find out how we can help. Do you have any proposal?"
- B. "This was agreed upon by all of you. This amount did not come from me nor from any one. Unless everyone in this meeting now changes his/her mind."
- C. "We feel for you. But agreement is agreement unless we repeal what we agreed upon from the very start."
- D. "It may be quite late to raise the question. This should have been raised in the first meeting."

26. A school's academic coordinator has been found to engage in gambling, which has caused him to be absent most of the time. Can his certificate of registration as a teacher be revoked?

- A. No, unless he's proven guilty.
- B. No, because he's protected by his rights as a teacher.
- C. Yes, because habitual gambling is a dishonorable conduct and is against the practice of teaching.
- D. Yes, because he's incompetent.

27. A student asks a question to which you don't know the answer. What should you do?

- A. Ignore the question and entertain another one.
- B. Tell them honestly that you don't know the answer.
- C. Give that as an assignment to be answered the following day.
- D. Tell them that you have studied it in the past, but that you have forgotten about it now.

28. You are always short of money. The mayor's son is failing in your class. One day, Mrs. Mayor visits you and offers a loan payable when able, in exchange for a favorable mark for her son. What should you do?

- A. Thank the mayor's wife and decline the offer.
- B. Sincerely thank the mayor's wife and explain that regretfully you cannot do it because of the Code of Ethics for Teachers.
- C. Accept the offer but fail the mayor's son just the same.
- D. Accept the offer and give a passing mark to the mayor's son.

29. Teachers often complain of numerous non-teaching assignments that adversely affect their teaching. Does this mean that teachers must be preoccupied only with teaching?

- A. Yes, because teaching is more than enough full time job.
- B. No, because to lead in community activities is the job of elected officials.
- C. Yes, if they are given other assignments justice demands that they be properly compensated.
- D. No, because every teacher is expected to provide leadership and initiative in activities for the betterment of communities.

30. How do you characterize values that apply to the whole of humanity as taught by great teachers, such as Buddha, Lao Tzu, Jesus and the like?

- A. Secular values
- B. Sectarian values
- C. Universal values
- D. Values of organized churches

31. Which statement/s describe/s old, time-tested teaching methods?

- I. They are teacher-directed.
 - II. Mastery of subject matter is of utmost importance.
 - III. Procedures are well-established.
- A. II and III
B. I and II
C. I and III
D. I, II and III

32. The list of LET competencies upon which your licensure examination is based is a product of five consultative workshops with the academe in the entire country. What approach to LET competency development was used?

- A. Interactive
B. Objectivist
C. Rational
D. Collaborative

33. Kurt loves to design and build things. At the age of 10, he has already designed and built his own tree house. He has designed and built elaborate buildings as projects for book reports. He has built a raft that actually floated down the local creek.

What would Howard Gardner say about Kurt?

- A. Kurt is high in visual spatial and logical mathematical skills.
B. Kurt is high in naturalist skills.
C. Kurt is high in verbal skills.
D. Kurt is unlikely to be successful in school.

34. If you learn best through listening to lectures, discussions, and to what others say, what type of learner are you?

- A. Auditory
B. Visual
C. Tactile
D. Kinesthetic

35. Which is a classroom application of Vgotsky's idea of scaffolding?

- A. Give the learner the necessary assistance until she can be on her own.
B. From the start leave the learner to herself because she has the power for self-learning.
C. Don't spoil the learner by doing what she ought to do.
D. Give the learner a task that challenges her ability.

36. Which is TRUE of the integrative approach to lesson planning?

- I. Multidisciplinary
 - II. Teacher-centered
 - III. Highly structured lessons
- A. II and III
B. II only
C. I only
D. III only

37. The framework for creative thinking includes the production of a great number of ideas or alternative solutions to a problem. Secondly, the ideas produced must show a variety of possibilities and different points of views. Together they are considered effective in developing creativity among students. What does the framework include?

- A. Problem solving and enhancing
B. Variety and strategy
C. Different approaches and strategies
D. Fluency and flexibility

38. OBE stands for outcomes-based education. It is a student-centered approach that focuses on intended learning outcomes resulting from instruction. All except one of the following may be considered as outcomes or end targets of an OBE. Which one?
A. Knowledge gained from attending classes
B. Products which reflect a learner's competence in using content.
C. Demonstrations of actual learning
D. Applications of lessons learned
39. In direct instruction, the role of the teacher is more of a _____.
A. Proctor
B. Parent
C. Lecturer
D. Guide
40. Ms. Amores wanted to inculcate the love for learning Mathematics among her students. Which technique should she use?
A. Enable students to have meaningful learning experiences to apply their Math lessons.
B. Provide students with easy exercises that they can readily answer.
C. Assign fast learners to teach slow learners.
D. Give slow learners homework to do with their Math class buddy.
41. Which is one justification of the use of the lecture method?
A. When subject is very new and there are no references yet
B. When students are poor motivated
C. When teacher is substituting for the regular teacher
D. When subject is very broad in scope
42. For empathy and for value change and development, which is best?
A. Simulation
B. Game
C. Role playing
D. Drills
43. Ms. Toledo wants to develop the social skills of her students as they learn different phases of matter. How can she accomplish this?
A. Group students with equal abilities together and let them perform an experiment on phases of matter.
B. Group students with different abilities together and let them perform an experiment on phases of matter.
C. Ask them to group pictures of solids, liquids, and gases.
D. Show them how to distinguish solids from liquids and gases.
44. The second year students were discussing climate change. Each group was expected to come up with a solution that would protect the environment. Which is the best method of delivery to attain tangible results?
A. Demonstration method
B. Project method
C. Problem method
D. Laboratory method
45. For values education, which technique is most appropriate?
A. Conflict story
B. Simulation
C. Brainstorming
D. Panel discussions
46. Ausubel recommends the use of visuals designed to bridge the gap between what the learners already know and what they need to know. Which visual is referred to?
A. Pictures
B. Concept maps
C. Comparison patterns
D. Overviews

47. Students learn best when they discover things by themselves. What materials will be most effective in conducting experiments?

- A. Posters and charts
- B. Film and slides

- C. Models and real objects**
- D. Manuals and illustrations

48. To keep students focused in the discussion, what must be done especially if students are unruly and noisy?

- A. Employ innovative strategies.**
- B. Explore various means of giving sanctions.
- C. Ignore the students who are misbehaving.
- D. Refer the unruly and noisy pupils to the Guidance Office.

49. Which objective in the psychomotor domain is in the highest level?

- A. To play the piano skillfully**
- B. To endure fatigue in the entire duration of a game
- C. To discriminate shapes by touching
- D. To move hands and legs in a coordinated fashion

50. Why is there a need to write lesson plans?

- A. To comply with the requirements set by the school.
- B. To guide the teacher in the learning activities**
- C. To get a good rating in the performance of appraisal
- D. To be able to show something during classroom observations

51. Teacher Kim, a Physical Education teacher wrote this objective in her lesson plan “to execute the four fundamental dance steps.” When observed by the school principal, she was showing her class the basic dance steps. Why did the teacher use a demonstration method to implement her objective?

- A. It is a chance to show teacher’s expertise.
- B. It is easier to imitate a teacher who shows the steps.**
- C. No student knows how execute the steps.
- D. Class time is limited to ask student to execute.

52. Which is a classroom application of this principle: “Students learn more effectively when they elaborate on new information.” Ask your students to _____.

- A. write the principle five times
- B. commit the principle to memory
- C. identify an application of the principle**
- D. print the principle in big letters then put it in a place where you can read it time and again

53. Mrs. Santos wants to determine immediately the learning difficulties of her students. Which of the following do you expect her to undertake?

- A. Require her students to prepare a portfolio.
- B. Administer an achievement test.
- C. Administer a diagnostic test.**
- D. Interview her students.

54. Which statement(s) is/are NOT true about teaching, learning and assessment?

- I. Curriculum and assessment are a little but related.
 - II. Assessment is separate from curriculum and instruction.
 - III. Assessment is a basis for planning instruction.
 - IV. The process of learning is as important as the content of the curriculum
- A. I only
 - B. II only
 - C. I and II**
 - D. II and III

55. Which of the following is something that should almost always be discussed with students when they are given an assignment that may be new to them?
- A. What the student can expect to learn from the given assignment.
 - B. Whether the student will be tested on the material covered by the assignment.
 - C. Whether the assignment will be graded according to the same criteria as other assignments.
 - D. What kind of prior experience the teacher has had with the same type of assignment.
56. Why are computers increasingly becoming pervasive in schools nowadays?
- A. Anybody can operate computers without formal training.
 - B. Computers are the most effective educational technology.
 - C. Computers increase efficiency and productivity.
 - D. Students have access to computers in school and at home.
57. How can a teacher make effective use of technology to improve her lessons?
- A. Allow students to bring their personal tablets in school.
 - B. Use internet resources to research on additional inputs to improve her lessons.
 - C. Transfer lessons from textbooks to PowerPoint presentation.
 - D. Allow students to use Facebook to comment on one another's projects.
58. When using questions in the classroom, all of the following strategies are recommended, EXCEPT which one?
- A. Asking leading questions that suggest the desired answer
 - B. Avoiding questions that can be answered with yes or no
 - C. Using fact-based questions to lead into thinking-based questions
 - D. Allowing plenty of time for students to think about answers
59. How can a teacher help students with different learning and thinking styles continue to learn more effectively?
- A. Allow sufficient time for processing different types of information
 - B. Provide a general overview of the lesson
 - C. Use a variety of reflection strategies
 - D. Use questions of all types to stimulate various levels of thinking and valuing.
60. Which of the following is best for a teacher to do when establishing classroom rules?
- A. Mention the rules once at the beginning of the school year.
 - B. State the rules in a forceful way to establish authority.
 - C. Explain why the established rules are necessary for student cooperation.
 - D. Create as many rules and procedures as possible to guarantee order and control.
61. All except one of the following techniques may be used for effective classroom management. Which one?
- A. Setting limits on accepted and nonaccepted action in the classroom
 - B. Assigning extra work to students for misbehaving in class
 - C. Monitoring what is happening in the classroom
 - D. Removing a positive stimulus for inappropriate behavior
62. A sound advice for classroom managers is "Nip the problem in the bud." What does this mean?
- A. Assume a reactive posture in classroom management.
 - B. Be proactive in management approach.
 - C. Reinforce positive behavior.
 - D. Treat minor disturbance calmly

63. Movement management is all but one of the following. Which one?
A. Pace of the lesson is modulated to keep student's attention.
B. Momentum of a lesson is consistent, monitored, and adjusted to prevent slow-downs and stoppages.
C. Teacher answers the same question multiple times.
D. Happenings and disruptions are handled smoothly.
64. A teacher's nonverbal coping skills in the classroom, like planned ignoring, signal interference, proximity control, and touch interference have the following advantages except one. Which one?
A. These produce the least disturbance in the classroom.
B. Other students can help the teacher discipline the problem student.
C. Off-task behavior is managed while the teaching-learning processes continues.
D. The likelihood of hostile confrontation is minimized because there is no public intervention.
65. What mistaken goal does a student aim for when he/she expresses defiance by teasing, tantrums, and low-level hostile behavior to get the teacher to argue or fight with him/her?
A. Attention getting
B. Power seeking
C. Revenge seeking
D. Withdrawal
66. When Teacher Joanne manages time in the classroom, she does all except one of the following. Which one?
A. Establish class routines.
B. Maintain lesson momentum and avoid interruptions.
C. Set many class rules with students to prevent misbehavior.
D. Use the "overlapping" technique
67. When does praise become INEFFECTIVE? When it _____.
A. is given after the process is completed.
B. specifies the particulars of the accomplishment
C. attributes the student's success to ability alone, or to factors such as luck or easy task.
D. makes the student appreciate his own task-related behavior and think about problem-solving.
68. When curriculum content is fairly distributed in each area of discipline this means that the curriculum is _____.
A. sequenced
B. balanced
C. integrated
D. continue
69. Which pair of the components of a lesson plan does NOT parallel curriculum components?
A. Behavioral objectives and Evaluation
B. Subject matter and Content
C. Teaching Methods and Instruction
D. Assessment and Evaluation
70. The K to 12 curriculum hinges on the following ideals except one. Which one?
A. Curriculum is contextualized and global.
B. Curriculum is subject matter-centered.
C. Curriculum is inquiry-based, reflective, and collaborative.
D. Curriculum aligns with the framework of the MTB-MLE.
71. Central to the design approach in UBD is the need to _____ that evoke in-depth understanding.
A. focus on alternative methods of assessing
B. use alternative methods of teaching
C. go against traditional testing.
D. design lessons and assessment.

72. What is referred to as Bruner's structure for teaching that introduces the fundamental structure of all subjects in the school years, and then revisits the subjects in more and more complex forms over time?

- A. Hidden curriculum
- B. Assessment
- C. Sustaining expectations
- D. Spiral curriculum

73. The Mother Tongue-Based Multilingual Education (MTB-MLE) of the K + 12 curriculum is a _____ method since it starts from the known to unknown.

- A. inductive
- B. inductive first then deductive
- C. deductive
- D. deductive first then inductive

74. Why are there more illustrations in elementary books than in the upper levels?

- A. Elementary pupils are slow in the reading process.
- B. High school students are more mature and imaginative.
- C. Elementary pupils are less imaginative yet, they need more exposure.
- D. There is no need to motivate the elementary pupils all the time.

75. A big story breaks in your local newspaper. You want to use the headlines as an inquiry device. You might begin by _____.

- A. explaining what you believe to be the underlying causes
- B. asking the class to infer connotations and denotations from the headline
- C. describing the background of the story as you know it
- D. showing the headline and then asking for a volunteer to read the story to the class and interpret the meaning

76. Which is a planning tool that helps the reader analyze the story so that the questions during discussion will create a coherent framework for understanding text?

- A. Story map
- B. Graphic organizer
- C. Semantic web
- D. Tree outline

77. Which is an effective technique in teaching children in the emergent literacy stage?

- A. Imposing the use of correct spelling when writing
- B. Giving of isolated word drills and memorization of rules
- C. Providing activities that let them enjoy
- D. Having a print-rich classroom

78. If you use the Pygmalion effect to explain why children coming from depressed areas cannot read, to which would you attribute the poor reading performance of this particular group of children?

- A. Poor expectations from depressed areas
- B. Lack of motivation
- C. Ineffective teaching methods
- D. Lack of reading materials

79. Multiple intelligences can be used to explain children's reading performance. Which group tends to be good readers?

- A. Linguistically intelligent group
- B. Spatially intelligent group
- C. Existentially intelligent group
- D. Kinetically intelligent group

80. With which of the following is poor reading performance associated?

- I. Use of rote memorization as reading strategy
- II. Relatively low self-esteem
- III. Deprived home environment
- A. I, II and III
- B. II and III
- C. I and II
- D. II

81. How can teachers encourage students to become readers?
- A. By giving them plenty of reading materials
 - B. By exposing them to expensive and varied reading materials
 - C. By giving them reading materials within their level of interest**
 - D. By giving them reading materials to supplement their knowledge in different subject areas
82. The benefit of reading aloud is that children learn _____.
- A. New vocabulary in meaningful contexts
 - B. To value the presence of their friends as they read together
 - C. To make predictions by examining pictures and listening for clues
 - D. To use their imaginations to explore new ideas as they listen to stories being read.**
83. What is the BEST move that teachers can do to encourage students to become good readers?
- A. Give them sufficient reading materials suitable to their interest and level of development.**
 - B. Require them to read all the books about "How to Develop Your Reading Skills".
 - C. Give them reading materials to supplement their knowledge of various subjects.
 - D. Ask them to buy the latest books released by popular authors.
84. John Dewey said, "An ounce of experience is better than a ton of theory." To which does this statement point?
- A. The need theory
 - B. The need of experience
 - C. The primacy of experience**
 - D. The primacy of theory
85. Learning is influenced by social interaction and interpersonal relations. What must a teacher do?
- A. Make students work collaboratively**
 - B. Motivate student to reflect on how they learn.
 - C. Make students feel good about themselves
 - D. Give more independent study
86. Schools should look into every child's environmental systems in order to understand more about the characteristics of each child, each learner. What are the important responsibilities of teachers and schools?
- I. Welcome and nurture families.
 - II. Value work done on behalf of children at all levels.
 - III. Replace relationships in the home.
- A. I and III
 - B. II only
 - C. III only
 - D. I and II**
87. Which VIOLATES this brain-based principle of teaching-learning: "Each child's brain is unique and vastly different from one another."
- A. Employing MI teaching approaches.
 - B. Giving ample opportunity for a pupil to explore even if the class creates "noise"
 - C. Making a left-handed pupil writes with his right hand as this is better**
 - D. Allowing open dialogue among students

88. Social exposure to various cultures expands a child's pool of knowledge. Which statements go/es with this sentence?

- I. The less experiences a child has, the more disciplined he/she becomes.
- II. The more experiences a child has, the richer his/her world becomes.
- III. The more selective parents in the exposure of their child, the more challenged the child becomes.

A. I only
B. II only
C. I and II
D. III only

89. Pilar processes information linearly. Her style is a specialty of which part of the brain:

- A. Global
B. Analytic
C. Both A and B
D. None of the above

90. Which of the following characterize/s a constructivist approach?

- I. Teacher makes meaning
 - II. Less teacher talk
 - III. With teachers facilitating, students create knowledge
- A. I and II
B. I and III
C. II and III
D. I, II, and III

91. Applied behavior analysis is important in managing serious behavior problems. Which of the following is an example?

- A. Giving constant verbal reminders.
B. Praising students who are behaving.
C. Allowing students to be busy on meaningful tasks.
D. Selecting punisher criteria for punishment and reinforcer criteria for reinforcement.

92. The teacher notices that Student A cannot solve a problem on his own, but can when he is given calculated hints. This is an example of

- A. Scaffolding
B. The zone of proximal development
C. Pre-operational thinking
D. Lateralization

93. Teacher Arielle asks his students to see the connection of their new lesson to their own personal experiences and share the same with the class. Teacher Arielle believes in which principle of learning?

- A. Learning is an active process.
B. Learning is the discovery of the personal meaning of ideas.
C. Learning begins with setting clear expectations and learning outcomes.
D. Learning is a cooperative and a collaborative process.

94. Learning is meaningful when it is connected to students' everyday life. What is an application of this principle in learning?

- A. Teacher asks the class to show application of what they learned to their daily life.
B. Teacher makes everyday life the starter of his/her lesson.
C. Teacher narrates true-to-life stories.
D. Teacher asks students to come up with clippings of Filipino life.

95. Teacher Myleen talked all period. She taught the class the steps in conducting a descriptive research. She also showed a poorly done research, discussed why it is poorly done and finally showed a model of a descriptive research. Was teacher Mylene's approach learner-centered?

- A. Yes, she taught for all the learners.
B. Yes, she made things easy for the learners.
C. No, she was more subject matter-centered and teacher centered.
D. No, because her subject matter was highly technical.

96. Learning is an active process. Which one is an application of this principle?
A. Let students learn the steps in opening a computer by making them follow the steps.
 B. Group students for work on project, that way project becomes less expensive.
 C. Teach your content from a multidisciplinary perspective.
 D. Avoid drills which are out of context.
97. Visual imagery helps people store information in their memory more effectively. Which is one teaching implication of this principle?
 A. Tell them to read more illustrated comics.
 B. You will not object when your students daydream in class.
 C. Instruct students to take notes while you lecture.
D. Encourage your students to imagine the characters and situations when reading a story.
98. You will understand when a pre-school boy asserts that two rows of five coins similarly spaced have equal amounts; but when one row is spread out so that it is longer than the other, he says it has more coins. Based on Piaget's theory, which ability does he lack?
 A. Multiple classification
 B. Perspective taking
 C. Reversibility
D. Conservation
99. A child asked why his cousins call his father "Uncle" instead of "Daddy". Which characteristic was shown by the child?
A. Egocentrism
 B. Conservation
 C. Lack of Object Permanence
 D. Centration
100. A mother told his son that "ANIMAL" and "AMINAL" are not the same. In Piaget's term, this process is called _____.
 A. Assimilation
B. Accommodation
 C. Decentration
 D. Centration
101. Mrs. Gorospe wants to apply gestalt principles in the classroom. Which of the following learning activities did she avoid?
 A. She relates a new topic with something the student already knows.
B. She teaches topics with commonalities next to each other.
 C. She uses bolder fonts for important words in the paragraph.
 D. She rewards desirable behaviors.
102. What is an application of Vygotsky's idea of scaffolding?
 A. Give the learner a task that challenges his/her ability.
 B. From the start leave the learner to himself/herself because she has the power for self-learning.
 C. Don't spoil the learner by doing what he/she ought to do.
D. Give the learner the necessary assistance until he/she can be on his/her own.
103. A girl lost her toy and asked her father for help. The father asks her where she last saw the toy; the child says "I can't remember." He then asks a series of questions - "did you have it in your room? Outside? Next door?" To each question, the child answers, "no." When he says "in the car?" she says "I think so" and goes to retrieve the toy. Which of the following statements can be deduced from the above situation?
A. Remembering and problem solving are co-constructed.
 B. A child functions independently to solve the problem.
 C. Modeling can aid learning and development.
 D. Both A and B.

104. When parents are overly protective, the child becomes overly trusting who cannot believe anyone would mean them harm. According to Erikson's theory, this is called _____.

- A. maladaptation
- B. malignancy
- C. fixation
- D. virtue

105. A group of values education teachers agree that they will focus on value internalization when teaching. Which level of morality should they help their students attain?

- A. Post-conventional morality
- B. Pre-conventional morality
- C. Conventional morality
- D. Between conventional and post-conventional morality.

106. Your brother confessed to you that he killed his girlfriend six months ago due to an alleged third party. Although you were convinced that it was a "crime of passion", you planned to report the crime and/or personally bring your brother to the police. According to Kohlberg's theory of moral development, you are under what stage of moral development?

- A. Instrumental relativist orientation
- B. Law and order orientation
- C. Interpersonal Concordance orientation
- D. Universal ethical principles orientation

107. Which educational issue can be clarified by understanding Maslow's Needs Theory?

- A. Sex education issues in school
- B. Delinquency in the public schools
- C. The effects of different classroom structures
- D. The effect of poverty on academic achievement

108. Which of the following demonstrates cephalocaudal trend of development?

- A. An infant first produces an endogenous smile, then an exogenous smile, then a laugh.
- B. An infant coos, then babbles, then speaks single words, then uses language.
- C. An infant obtains visual skills, then olfactory skills, then auditory skills.
- D. An infant first raises his or her head, then sits up, then stands up.

109. What is mainly addressed by early intervention program for children with disabilities, ages 0 to 3 years old?

- A. Preventing labeling of disabled children
- B. Identifying strengths and weaknesses in special children
- C. Ensuring inclusion for special children
- D. Early growth development lag

110. It is a language-based disability in which a child has trouble understanding words, sentences, or paragraphs.

- A. Dyslexia
- B. Dyscalculia
- C. Dysgraphia
- D. Auditory and Visual Processing Disabilities

111. Who is best equipped to lead in the formulation of an individual Educational Plan for Special Children?

- A. Child therapists
- B. Special education teachers
- C. Parents of special children
- D. Child psychologists

112. Millet has difficulty working independently. When asked to sit in her seat for long periods of time, she frequently gets up to sharpen her pencil, look out the window, or flips through books on the bookshelf. She rarely completes her homework. Millet most likely has which of the following conditions?

- A. Mental retardation
- B. Attention deficit/hyperactivity disorder
- C. Down's syndrome
- D. Dyslexia

113. Ms. Lumasac is concerned about one of her students. The student, Conrad, has serious and persistent problems concerning his relationships with other students; he displays aggression and is often out of control. Conrad is most likely to be suffering from:

- A. Depression
- B. Attention deficit/hyperactivity disorder
- C. Emotional and behavioural disorders
- D. Sensory disorders

114. Which of the following is authentic assessment?

- A. Make students recite the multiplication table to check for mastery.
- B. Make students dance cha cha to determine if they learned how to dance cha cha.
- C. Make students draft a flow chart to demonstrate a process.
- D. Make students check their own answers after a Math quiz.

115. How are the results of a summative assessment utilized?

- A. To check attainment of lesson objectives
- B. To diagnose learning difficulties
- C. To check on student understanding from time to time.
- D. To report learning outcomes to parents and administrators.

116. Teacher Jenny wants to monitor student's performance on the topic they are discussing. Which type of test should she use?

- A. Placement Test
- B. Formative Test
- C. Diagnostic Test
- D. Summative Test

117. Interpreting assessment results considers consistency. Which is described when the results are consistent?

- I. Validity
- II. Reliability
- C. Subjectivity
- D. Objectivity

118. What type of validity is used to determine if the assessment measure can predict future performance?

- A. Content
- B. Criterion
- C. Construct
- D. Consequential

119. Which method should be done to make sure that the test items within the test measure the same thing?

- A. Inter-rater Method
- B. Test-retest Method
- C. Equivalent-forms Method
- D. Internal Consistency Method

120. Thea was careless in marking her answer in the test paper. Which error did she commit?

- A. Content Sampling Error
- B. Time Sampling Error
- C. Systematic Error
- D. Random Error

121. The best way to assess learning is to use real-life situations, objects and materials existing in the environment. Hence, teachers are encouraged to use _____.

- A. rating scale
- B. pencil- and-paper test
- C. observation technique
- D. authentic assessment

122. Which of the following are alternative assessments?

- A. Portfolio, exhibits, journals
- B. Paper-and-pencil test, demonstration, reports
- C. Student self-assessment, authentic assessment, surveys
- D. Multiple-choice, structured observations, sentence completion

123. Mr. Diaz asked his students to explain the difference between norm-referenced and criterion-referenced tests. In which level is the student's task?

- A. Analyzing
- B. Evaluating
- C. Synthesizing
- D. Remembering

124. Which of the following does not belong to the group?

- A. True-False Item
- B. Interpretive Exercise
- C. Multiple-choice Type
- D. Extended-response Item

125. Teacher Neri's lesson objective is "to perform operations on integers". Which is a valid test for this particular objective?

- A. Solve the following using PEMDAS.
- B. What are the four basic operations?
- C. How do you add numbers with different signs?
- D. What is the product when a negative number is multiplied to another negative number?

126. What is defective in this test item?

Which type of assessment is concerned with the entry performance of students?

- A. Checklist
- B. Interview
- C. Questionnaires
- D. Placement Test

A. The stem of the item is poor.

- B. The distracters are not plausible.
- C. The item provides clue to the answer.
- D. The alternatives are not equal in length.

127. To determine if his students have attained the intended learning outcomes, Teacher Jay is planning to give a year-end exam that will cover all the topics they have discussed. Which type of test should he use?

- A. Essay Test
- B. Objective Test
- C. Formative Test
- D. Problem Solving Test

128. One advantage of essay type over multiple-choice type is that they:

- A. measure from simple to complex learning outcomes.
- B. allow students to express their own ideas.
- C. require less time in preparing the test.
- D. make learning more meaningful.

129. Which statement is/are TRUE of the given rubric below?

Scoring Rubric	
5	Demonstrate complete understanding of the problem. All requirements of task are included in response.
4	Demonstrate considerable understanding of the problem. All requirements of tasks are included.
3	Demonstrate partial understanding of the problem. Most requirements of task are included.
2	Demonstrate little understanding of the problem. Many requirements of task are missing.
1	Demonstrate no understanding of the problem.
0	No response/ task not attempted.

- A. It is holistic
B. It is analytical.
C. It is developmental.
D. It is both holistic and developmental.

130. The discrimination index of a test item is **-0.35**. What does this mean?

- A. More from the upper group got the item correctly.
B. More from the lower group got the item correctly.
C. The test is quite reliable.
D. The test item is valid.

131. A test item has a difficulty index of 0.89 and a discrimination index of 0.44.
What should the teacher do?

- A. Reject the item.
B. Retain the item.
C. Revise the item.
D. Make it a bonus item.

132. If no student got the item correctly, what should the teacher do with the item?

- A. Ask the students why the item is still difficult for them.
B. Determine if the item is a miskeyed item or ambiguous.
C. Administer a diagnostic test to determine student's difficulty.
D. Determine why the strengths and weaknesses of the students.

For numbers **133 to 134**, refer to the item analysis below.

Item No. 5. The correct answer is C.				
Group	A	B	C*	D
Upper Group	9	1	7	8
Lower Group	4	7	6	8
Total	13	8	13	16

133. Which was the MOST effective distracter?

- A. Option A
B. Option B
C. Option C
D. Option D

134. Which was the LEAST effective distracter?

- A. Option A
B. Option B
C. Option C
D. Option D

135. Students' scores were as follows: 82, 82, 83, 84, 86, 88, 84, 83, 85.

The score 84 is the _____.

- A. Mode
- B. Mean
- C. median
- D. average

For numbers **136 to 137**, refer to the score distribution below.

98, 93, 93, 93, 90, 88, 87, 85, 85, 85, 70, 51, 34, 34, 34, 20, 18, 15, 12, 9, 8, 6, 3, 1

136. What is the range of this score distribution?

- A. 34
- B. 85
- C. 93
- D. 97

137. Which measure of central tendency is most reliable for this score distribution?

- A. Mode
- B. Mean
- C. Median
- D. None

138. Lilia's score in a test has a t-score of 70. To which of the following groups does she belong?

- A. Average
- B. Below average
- C. Above Average
- D. Needs Improvement

139. Which is true about z-score?

- A. It is a positive numerical value.
- B. It is affected by the variations in scores.
- C. It shows the difference between the test scores.
- D. It is used to determine if more student got low marks.

140. Which of the following divides a score distribution in half?

- A. Range
- B. Median
- C. Deciles
- D. Percentiles

141. Which of the following indicates a relationship between two sets of data?

- A. Z-score
- B. Kurtosis
- C. Variance
- D. Correlation

142. How will you interpret a student's 80% percentile score? The student scored _____.

- A. Higher than 80% of the members of the group
- B. Better, relative to the competencies targeted
- C. High in all the skills being tested
- D. 80% of the specified content

143. What can be said of student performance in a positively skewed score distribution?

- A. Almost all students had average performance.
- B. A few students performed excellently
- C. Most students performed poorly
- D. Most students performed well

144. Which is one measure of attitude that consists of a value statement where you are asked to express your degree of agreement or disagreement of a statement?
- A. Checklist
 - B. Likert scale
 - C. Interview schedule
 - D. Semantic differential
145. Which test will the Guidance Office of school give if it wants to help students in predicting their probable success in specific educational and vocational fields?
- A. Diagnostic test
 - B. Achievement test
 - C. Aptitude Test
 - D. IQ Test
146. With assessment of affective learning in mind, which does NOT belong to the group?
- A. Diary entry
 - B. Cloze Test
 - C. Moral dilemma
 - D. Reflective writing
147. Which of these can measure awareness of values?
- A. Sociogram
 - B. Rating scales
 - C. Moral dilemma
 - D. Projective Techniques
148. Obtaining the ranking of students is of major concern when using _____.
- A. Percentile Test
 - B. Summative Test
 - C. Achievement Test
 - D. Norm-referenced Test
149. Which of the following grading schemes provide the least information to parents about the performance of their child in class?
- A. Letter grade
 - B. Pass-fail grade
 - C. Numerical grade
 - D. Supplemental system
150. Which error do teachers commit when they consider the character of the students?
- A. Halo effect
 - B. Severity error
 - C. Personal biases
 - D. Reliability decay
