## Professional Education

Which of the following is an acceptable initiative conducive to the teacher's making a difference in the achievement of new generations of the country's youth?

- A. Quality teacher preparation
- B. Greatest prestige in the community

Teacher lah is an elementary grades teacher. She is very active in community **activities**. Every election **time**, she serves as a member of the election committee. Then, during one election period her uncle ran for mayor. Teacher lah involved in the campaign. **Is** Teacher lah's action ethical?

- A. No, because she should be non-partisan.
- B. No, because serving during election time is very dangerous to

got very

A good teacher has a good mastery of subject matter, writes good lesson plans, lines up exciting activities to make the lesson interesting, and assesses her students very well. What teacher qualities are these?

- A Professional qualities
- B. Personal qualities

How **are** institutions of learning encouraged to set higher standards over and above **the** minimum requirement for state recognition? A Academic Freedom

- B. Voluntary Accreditation

Which statement is true of society's demand from the professional teacher?

- A. The professional teacher is concerned only with classroom teaching.
- B. Effective teaching is the primary duty of the professional teacher.

Are school heads and superintendents required to obtain a professional teacher's license?

- A No, since they do administrative functions only
- B. Yes, since they are classified as teachers.

William **Garr** said: "People who introduce themselves with the shame remark that they **are** "just teachers" gives me despair in my heart." Based on this quote, how does William Garr want teachers to behave?

- A Work for selective admission of candidates to the teaching.
- B. Look everyone squarely in the eye and say "I am a teacher".

The professional role of teachers has changed from "the sage on the stage" to "guide from the side." This implies that:

- A Teachers stress on their role as teacher
- B. Teachers must act more as facilitators of learning

Which are elements of profession like teaching?

- I. Long years of professional education
- II. Continuing professional development
- III. Adhere to a code of ethics for the professional group
- IV. Passing the competency-based examination to obtain diploma from TESDA

A. I, II and IV

B. I, II and III

**A** classroom teacher comes to school early in the morning and goes home late. Officially, the number of hours spent in school should be:

A. 6 hours

B. 8 hours

## The Teaching Profession

A school's academic coordinator has been found to have engaged in gambling which has caused him to be absent most of the time. Can his certificate of registration as a

*teacher* be revoked?

A Yes, because he's incompetent.

B. Yes, because habitual gambling is a dishonorable conduct and is against the practice of teaching.

Which is TRUE of Alternative Delivery Modes (ADMs)?

I.

ter

Address the learning needs of the marginalized pupils and those learners at risk of dropping out

II. Help learners overcome social and economic constraints in their schooling III. Simplify curriculum for students at risk of dropping out

A II and III

B. I and II

Mrs. Seraspi was approached by a parent who had a concern about the grade received by her daughter, Vanessa, comparing it with the grade of Mariz, her classmate. Which of these should Mrs. Seraspi do?

- A Show only the record of her daughter Vanessa.
- B. Refuse to show any record without the written approval of the principal.

A teacher may submit to the proper authority any justifiable activities against an associate preferably in writing without violating any right of the individual concerned. Which section of the Code of Ethics is referred to in the given situation?

- A. Article IV-Teachers and the Profession
- B. Article V-Teacher and the Teaching Community

After 2002, is there another way of obtaining a professional teacher's license other than passing the LET?

- A **None.**
- B. Yes, by applying for the conversion of one's Professional Board Examination for Teachers (PBET) passing rating to a license.

Which of the following is the correct practice in handling students' records?

- 1. Records are kept for safekeeping in filing cabinets.
- II. Feedbacks about children's performance are given to parents.
- III. Permanent records are brought home for teachers to accomplish.
- IV. Records are accessible to any interested person to show transparency.

AI and II

What is NOT an essential requirement for allowing a non-college graduate to be hired as a teacher in Senior High School?

- A. Needs of school
- B. Can teach specialization

18. Which schools are subject to supervision, regulation and control by the state?

- 19.
- A. **Public** schools
  - B. Public, private secretarian and non-secretarian schools

Based on RA 10533, the Enhanced Basic Education Act of 2013 is a non-licensed teacher allowed to teach in the K to 12 Curriculum full time?

A. Yes, provided he/she obtains a license within five years from the time of hiring. B. Yes, *only* in TecVoc track where there is dearth of qualified teachers.

*Religious rituals* in the classroom and in the school programs prove the deep natural *religiosity* of the Filipinos. Which philosophy has greatly contributed to the tradition?

A. *Buddhism*

B. Confucianism

To occupy a government position, one has to pass the examination on Confucian *thought*. From whom did this influence come?

A. *Hindus*

B. Chinese

15 Which emphasized on non-violence as the path to true

peace as discussed in peace

education?

A Taoism

B. Buddhism

# Wcenter

17. There will be harmony in society if the five basic relationships that make-up society are

lived correctly. This thought was espoused by

A Kung fu-tzu

B. Lao tzu

18 By way of language medium, which is best for student of diverse cultural background?

A Regional dialect

B. National language

19. Of the following, which is not a basic social process?

A Conflict

50 Which of the following are

formal norms?

A Laws

B. Coercion

B. Mores

5t. Which term refers to a general or widespread agreement among all members of a

particular  
society?

A Cooperation

B. Consensus

52 "**Barkadas**" and other peer groups are examples of

A Primary group

B. Secondary group

53. The following are family patterns according to authority, except:

A Ambilineal

B. Egalitarian

54. Which of the following social institutions is concerned with human activities related to the production, consumption and distribution of goods, **services**, and wealth within societies, as well as commercial exchange?

A Economics

B. Government

55. A number of people in a shed waiting for a ride but do not interact with each other is

called:

A Social group

B. Social aggregate

56. Which function of the school is manifested when the faculty stress discipline, respect,

obedience and good  
citizenship?

Social placement

B. Social control

157. Which of the following is a set of beliefs and

practices that pertains to a **sacred** or supernatural reality that guides human behavior and gives meaning to life among a community of believers?

A Religion

Educational Technology

162. What role of technology in learning is

used when a teacher encourages her students to

work on their assignments in groups using the social media network? A Technology as a social medium to support learning by conversing. B. Technology as intellectual partner to support learning by reflecting.

163. Miss Ablihan is preparing slides for her lesson demonstration, she remember to

supply the rule of six. Most likely she will:

A. Have six lines on each slide with each line having not more than six words.

B. Identify six important points to discuss and use about six minutes to explain each point.

164. Which philosophical framework of educational technology believes that the role of **teachers** is to become facilitator providing guidance so that learners can construct their own knowledge?

A. Cognitivism

B. Constructivism

165. All are responsibilities of the Learning Resource Audio-Visual/Educational

Technology Center of a school, except:

A Make available technology equipment for use of teachers and students.

B. Accomplish the students' technology project for

166. MOOCs are considered massive because

them

A They were designed and created by a big group of experts.

B. They can accommodate a big number of learners.

167. MOOCs are open because

A. All **courses are** offered for free.

B. **Courses can** be accessed by anyone anywhere as long as they are connected to  
the internet.

168. Are **the** following terms synonymous: Technology in education, Instructional technology, and Technology integration in education?

A. **Yes, because** all of them refers to technology.

B. No, they differ in terms of degree **and** application to education.

169. MOOCs are considered **as a course** because

A They have a guide or a syllabus that **indicates content**, objectives, activities, **and**  
assessment.

B. They **are** always given **by a fully-**recognized university **in the world**.

170. In preparing instructional materials, which kind of graphics is effective **on computer**  
screens?

171

A Graphics with light colors

B. Simple graphics **with**  
corresponding text

How should **a** teacher write on the chalkboard while busy discussing the lesson **in front** of the class?

A Right side view as you talk

B. Face the class while writing and discussing

172. Which is the main reason for leaving a silent space around the edge of a

chart?

A. To increase readability

B. To emphasize the content

most likely **use**:

A KWL **chart**

B. Venn diagram

17. When dasses began, Teacher Dan asked student in  
pairs to interview and introduce each other to the class. **How will**  
this activity be classified according to Edgar Dale's cone of experience?

A Purposeful experience

B. Dramatize experience

178. **Which** does Edgar Dale advocate about his Cone  
of Experience?

A **If** direct experience is not applicable, make use of verbal symbol as  
substitute. B. **Begin your** lesson by using concrete experience then  
bring the students to the  
level of the **abstract**.

179. Which part of the screen of a computer has a strong influence among learners?

A Left half of the screen

B. Right half of the screen

180. In a computer based instruction, what program is used to encode text and support it

with pictures, graphic forms and tables?

A Word processing

B. Blog

181. The Audio-visual resource center regularly provides the teacher a list of websites, apps, and instructional materials readily available in the city. This fulfills which functions of the center?

A Laboratory of learning

B. Center of resources

182. The teacher provides the learning context and the students choose the technology

tools to achieve outcomes.

A Adaptation

B. Infusion

183. Teacher Peter is a constructive teacher who allows his students to use technology tools to build understanding rather than simply information. This level of technology integration is called:

A Infusion

B. Transformation

184. The teacher direct students in conventional and procedural use of technology tool.

A. Entry

B. Adoption

185. Learners learn better when all their senses are involved. Which activity classified under

direct purposeful experience?

A Setting the table

A. Mock-up

B. Realia

90. Students are actively engaged in using technology as a tool rather than passively

receiving information from the technology.

A. Authentic

B. Active

91. Images are key elements of a PowerPoint presentation. However, which should be

your reason for not using them?

A. Use images to decorate.

B. Use images to visualize and explain.

192. While there is modernity and progress through the use of technology in instruction,

what is the greatest danger along the domain of learning that is posed by technology? A. Using technology to lighten up lessons  
B. Developing passivity and uncritical minds

193. Of the following, which is most effective for influencing human emotion for retention and discovery of learning?

A. Use of inspirational tool (book, film, art, etc.)

B. Emotional delivery of

lessons

194. **What** materials can **be** used intended materials **are** not available?

A. Supplementary materials

B. Improvised materials

195. The more senses that are involved, the better the learning. What does this imply?

A. Use audio-visual **aids**.

B. Use multi-sensory aids.

196. To ensure effective use **of** video in the classroom, which appropriate **sequence** should teachers observe?

I. See to it that lights **are** on during viewing.

11. **Provide a** focus for interaction.

1. Preview program to determine suitability.

IV. Conduct introductory and culminating activities.

A. I, III and IV

B. II, III and IV

197. Which of the following planned routine activity can Teacher Nikki effectively apply in

order to enrich her literature lesson on Shakespeare's Romeo and Juliet?

A. Writing essays

low Book v.3:2021 edition

**thing?**

A. Read

B. Hear

201. Teacher Claring is checking the literacy app for her

students. She makes sure that the information is uncluttered and match the ideas it represents. What is Teacher Claring trying to observe?

A Organization

B.

Appropriateness

202. Prof. Navales used worksheets, manipulatives, and models in teaching math to help his students understand the lessons and love the subject. What did she bear in mind when she used these materials?

A Balance

B. Variety

203. Students use technology tools to connect new information to their prior knowledge

rather than to passively receive information.

A Constructive

204. Which applies to asynchronous learning?

B. Active

A It is all participants interact at the same time.

B. It is self-paced.

205. E-learning may either be synchronous or asynchronous? Which applies to

synchronous learning?

A All participants interact at the same time.

B. Participants engage in exchange of ideas or information without being dependent on other participant

206. Mrs. Seraspira Science teacher, would like to make a slide presentation for the lesson on the parts of a cell. Which among the tools should she use to make her presentation effective?

A Informative tool

B. Productivity tool

207. Mr. Del Rosario wants to use video presentation to show how seed germination takes place. However, he cannot because he teaches in a far flung

**school** without electricity. What is/are the most concrete way/s of showing the process of seed germination?

Write notes on the board.

II.

Use drawing of the stages of seed determination

III. Describe *how* germination takes place.

A. II only

242 At the **start** of a new term, Teacher Vanessa wants to familiarize students with active research methods. She will use such methods throughout the semester, and she knows from previous *experience* that many students view research as abstract, irrelevant, and oppressive work. She randomly assigns students to small groups. She encourages them to discuss any **previous** experiences they may have had in doing research as well as their expectations and concerns for the course. Each group then **shares its** experiences, expectations, and concerns as she **records** them on the chalkboard. In **this** manner, she is able to understand her students' perspectives and to increase their connection to one another and herself. Which technique did Teacher Vanessa employ to create a favorable learning climate?

A She established inclusion.

B. She makes clear that only positive learning experiences should be shared in the group.

## Education

### Principles of Teaching

243 Teacher Mariz delegates some of her responsibilities to the whole class. She assigns *separate* student monitors for attendance, classroom cleaning, and distribution of *learning* materials, in which aspect is she good?

A Instructional Planning

B. Classroom management

244. Which of the following is most exemplary for question-and-answer episodes in teaching

practice?

I. Question and answer exchange are relevant

II. Answers have some depth

III. Questions spur critical thinking

IV. **Focus** is on metacognition

A. I, II and III

B. I, III and IV

## Cente

245. Teacher Princess encourages her students to make the intended learning outcome their **own** and explain that she expected them to monitor now and then their **own** progress toward the intended learning outcome and act accordingly. The class is

- level of processing
- expected to **act in**  
A Metacognitive System
- B. Knowledge Utilization

246. What question's does a learner **ask at the** metacognitive level processing?

- I. What has this lesson have to do with me?
- II. Why did I not learn this at first?
- III. **How** should I do this to be sure of results?
- IV. What is the best way to arrive at the solution?
- A II, III, and IV
- B. I, III, and IV

247. The subject matter is the ASEAN qualifications framework (AQRf) The Asian history teacher teams up with the economic teacher, the professional education teacher for a thorough discussion of AQRf from the perspective of other discipline. Which describes the Asian history teacher's pedagogical approach?

- A Integrated
- B. Inquiry-based

248. The **five senses** of the learner together with his/her instinct, imagination, memory and

- intellect **are** referred to as:
- A Cognitive faculties
- B. Appetitive faculties

249. It is a teaching method **that** requires the students to present in concrete form **the**

- results of information gathered about a concept, principle of innovation.
- A Problem-**solving**
- B. Project method

250. It is **a** strategy that employs the scientific method in searching for information.

- A Problem-solving
- B. Project method

251. **It** is a way of teaching which is aimed at helping students

acquire basic skills and

"procedural  
knowledge".

A Deductive approach

B. Direct instruction

252. A teacher-dominated method where the teacher shows how to operate or manipulate

and equipment while the class observes.

Education

Principles of Teaching

253. In *the* context of teaching,  
this principle means that we must  
start our lesson with

clearly defined lesson  
objectives.

A Learning is an  
evolutionary process.

B. Begin with the end in  
mind.

254 Teacher Vanessa believes that students need not know the intended learning outcome of her lesson. She proceeds to her learning activities at once without letting them know what they are supposed to learn for the day. Which principle of learning does Teacher

Vanessa negate?

A Learning is the discovery of the personal meaning of ideas.

B. Effective learning begins with the setting clear expectations and learning

outcomes.

255 Teacher Prince noticed that in group work, students just leave the work to the leader and so vowed never to give group work again. Against which principle of learning is Teacher Prince's decision?

A. Learning is an active process.

M

B. Learning is a cooperative and a collaborative process

256. In his desire to finish the content of the course syllabus, Sir Janus just lectures while

students listen. Which principle of learning does Sir Janus violate?

- A Learning is the discovery if the personal meaning of ideas.
- B. Learning is an active process.

257. Mr. Del Rosario asks his pupils to see the connection of their new lesson to their own personal experiences and share the same with the class. Mr. Del Rosario believes in which principle of learning?

- A Learning is the discovery of the personal meaning of ideas.
- B. Effective learning begins with setting clear expectations and learning outcomes.

258. Sir Kier avoids drills out of context. He gives real-world Math problem for students to

drill on. Sir Kier is very much convinced of which principle of learning?

- A. Effective learning begins with setting clear expectations and learning outcomes.
- B. Learning is the discovery of the personal meaning of ideas.

259. It is characterized by the generation of lots of ideas and thoughts flow rapidly.

- A. Fluent thinking
- B. Flexible thinking

260. This thinking embellishes on previous ideas or plans and uses prior knowledge to

expand and add upon things and ideas.

- A Flexible thinking
- B. Elaborative thinking

261. For meaningful teaching and learning, it is best to connect the lesson to the life of students by integrating a relevant value in the lesson. Which principle is applied? A Write SMART lesson objectives/intended learning outcomes.

- B. Lesson objectives/intended learning outcomes must integrate 2 or 3 domains -
  - cognitive, skill and affective or cognitive and affective or skill and affective.

Human Growth and  
Development

13. What is a characteristic common among preschoolers where they give human quality

to non-human things?

A. *Egocentrism*

B. Animism

14. Along Erickson's psychosocial theory which statement is one of autonomy in early

childhood?

A. I worry that my parents will find fault in me

B. I do things without worrying about them

ter

15. Every person strives to satisfy physical needs. He/she progressed maternally when

he/she increases his/her capacity to meet those needs and lines in material comfort but in addition he also seeks to win social acceptance, prestige, status or superiority over other people.

What does this point about human person?

1. Psychological growth and spiritual program begin only when a person rises

above the mere effort to satisfy physical and social

needs.

II. There is more to life than mere satisfaction of material needs.

III. One must belong to a church for a fulfilment in life.

A. I, II and III

B. I and II

76. Sarah, a preschooler, insists on getting noodles for herself from the serving dish each time her family attends a gathering, even though she usually drops pasta on the floor. When her mother tries to assist her, she brushes her mother off and insists on doing it herself. In the context of Erikson's psychosocial development theory, what stage of psychosocial development best describes Sarah's behavior?

A Industry vs. Inferiority

B. Autonomy vs. Shame and Doubt

77. Some children are more active than others. Hyperactivity may be a problem in the classroom. How may a teacher help a child who is hyperactive?

A Make him a leader in the class.

B. Involve him in challenging activities that are appropriate to his ability and interest.

*stage*

*an*

278. Industry vs. inferiority stage and development of competence is associated with what level?

A Preschool

B. Elementary school

279. How is Erikson's epigenetic principle of unfolding of personality as it is applicable to

learners best described by other experts?

A Like a rose bud

B. Like a journey

280. What is represented by "I wonder what sort of person I really am?" in Erikson's Theory of Development?

A. Trust

281. When is physical growth fastest?

A Infancy

B. Identity

B. Adolescence

282. One limitation of pre-operational thought is the belief that non-living objects have life-

like qualities. What does this imply to teachers?

A Correct children when their drawings are far from reality, e.g. blue sun

B. Accept children's drawings as they are; this is a characteristic of children in the pre-operational thought.

How Book v.3:2021 edition

A Fertilization

B. Heredity

284. *Judy and* Jason are siblings

who were separated when they were toddlers. They lived with different families of different socioeconomic status. It was observed that they differ in several aspects of development. What could account for the difference?

A. Difference in nature

B. Difference in nurturing

285. When a child is left crying for a long time, he/she will soon develop

people around  
him.

A. mistrust

B. anxiety

among

# ente

286. What kind of authority is best applied in guiding millennial youths or learners?

A. Laissez faire

B. Authoritative

287. During the sensorimotor stage, the infant's main tools for understanding the

environment are

A. His hands

B. His sensory experiences

288. Babies creep, crawl and stand before they walk.

## Which principle of development

explains **this**?

- A. Each phase of development occurs at a definite age of an individual.
- B. Development follows a definite and predictable pattern.

289. Identity crisis is typically associated with

- A Adolescence
- B. Late childhood

290. Which may help an adolescent discover his identity?

- A Exploring many different roles in a healthy manner
- B. Relating to people

291. All human beings pass through levels or stages, such as the stages that are **marked by**

the development of sensibility in the erogenous spots in the body. This refers **to**:

- A Freud's theory of psychosexual development
- B. Erikson's **theory** of psychosocial development

292. No two **individuals** are alike. This means that development is

- A **unique**
- B. sequential

293. When a baby realized that a rubber **duck** which has fallen out of the tub must **be** somewhere on the floor, he is likely to achieved what aspect of cognitive development? A. Mental combinations

- B. Object permanence

294. The growing attention on the significance of early childhood education is attributed to

the principle that:

- A Early childhood experiences will be meaningful to them in the future
- B. The formative years of a child is his first six years

295. A little girl says she wants her mother to go on vacation so that she **can** marry her father. Based on Freud's theory, the little girl is voicing a fantasy consistent with?

A. Electra complex

B. Oedipus complex

296

Human Growth and Development

This *ecological* system describes the individuals, groups, and institutions that **directly** *influence* a child's development.

A. *Mesosystem*

B. Microsystem

197. Which of the following are the three main **processes** involved in development?

A Physical, cognitive,  
and socioemotional

B. Adaptational, emotional,  
and social

# enter

298 **Children** cannot learn with empty stomach. This highlights the importance of which

*need?*

A. Physiological

B. Safety and security

299. Teacher Alliza is careful in planning activities for her Kindergarten pupils according to their developmental characteristics. She thinks that teaching "too much too soon" is not good for young learners. Which of the following principles was applied in this situation?

B. Principle of Heredity A

Principle of Readiness

300. **Which** of the following pupils show the most serious problems of adjustment?

A. The one who bullies his classmates

B. The quiet child who never participates in class activities.

301. Psychomotor behaviors of a child depend on his perceptions and interpretation of his sensory experiences. Which of the following activities best contributes to a child's **motor** development?

A. Guided play activities

B. Free play activities

302. The following characterizes a child-centered Kindergarten, except:

A. Extreme orientation on academics

B. Importance of play in development

Professional  
Education

Facilitating **Learning**

3. *Which is/are the effect/s of motivation on students' learning and behavior?*

- I. Directs behavior toward particular goals.
- II. Leads to increased effort and energy.
- III. Increases initiation of and persistence in activities

A. I, II

B. I, II and III

4. **For** selectivity in the learning process, the novice learner attempts

to process

they receive in instruction.

A all information

B. important information

15. The ability of a child to organize a number of objects according to criterion such as

size, shape, or color.

A Classification

B. Seriation

16. Which the following factors do not contribute to facilitating the growth of creative

intelligence among students?

A Peer sanctions

B. Integrating knowledge in a variety of fields

view

07. **There** is no learned behavior which is relatively permanently chiefly because

A **Behavior** changes brought about by learning are constantly modified by

subsequent experiences.

B. Past experiences are easily replaced by new experience.

08. To construct useful representations of knowledge and to acquire the thinking and the **learning** strategies necessary for continued learning **success** across the life span, students must generate and pursue personally relevant goals. This **implies** that

teachers must:

A **Show** the relevance of lesson to students'

goals.

B. **Share** their personal goals with students.

09. Which of the following examples illustrates a teacher helping students improve memory

through the **use** of a mnemonic device?

A A history teacher has students learn the name and ordinal position of each US

President by memorizing ten each week.

B. A music teacher has **students** learn the lines of the staff -EGBDF- with the phrase

"Every good boy does fine."

310. The professional role of teachers has changed from "the sage on the stage" to "guide

from the side". This implies that,

A teachers stress on their role as teacher

B. teachers **must act** more as facilitators of learning

311 Which principles is/are in accordance with Tolman's theory of sign learning?

I. Learning is always purposive and goal-directed.

II. Learners select the shortest or easiest path to achieve a goal.

III. Learning is acquired through meaningful behavior.

A. I, II and III

B. II only

312. *Emotion has the power to increase learning. To apply this principle, teacher must*

A Be *emotional* when *he/she* teaches.

B. ***Touch*** *students'* emotion when *he/she* teaches.

313 *Vygotsky's Zone of Proximal Development is the*

between what the child

*can* learn on *his/her* own and what is accomplished with the help of others.

A *difference*

B. equivalent

314. Which of the following does not belong to cognitive factors affecting learning?

A Reason

B. Health

315. Which of the following situations illustrate the social learning theory approach to

*motivation?*

A Encourage positive interpersonal relations among students.

B. Praise students whose behavior may be imitated by classmates.

316. Which of the following characteristics of individuals can be classified as emotionally

A. Aggressive, erratic, unpredictable B.  
Depressed, hostile, resentful

317. According to Gardner's multiple Intelligence Theory, learners who have the natural ability and inclination for sounds, meanings, structures and sounds of language are A Verbal-linguistic intelligence learners

B. Musical intelligence learners

318. Which characterize successful learners?

I.

Active

II.

Goal-directed

III. Self-regulating

IV. Assume personal responsibility for contributing to their own learning.

A II, III and IV

B. I, II, III and IV

319. One cognitive advancement in adolescence is metacognition. What does metacognition mean?

A Ability to analyze and synthesize

B. Ability to identify one's own thinking process and strategies.

320. In Bandura's theory, the teacher who can be observed in school is a

A symbolic Model

B. live Model

321. Following ideas of Johann Friedrich Herbart, give the proper order of steps to develop

intrinsic motivation among learners:

I. Present the topic

Prepare topic of interest

III. Inductive questioning

IV. New knowledge relate to life

A. II, I, III, and IV

Bow Book v.3:2021  
edition

B. I, II, III and IV

*322. According to Gardner's multiple intelligence theory, naturalist learners can best:*

*A Mediate, reflect, exhibit self-discipline, maintain composure*

*B. Analyze ecological and natural situations and data*

*323 Which of the following best describes the factor of individual differences in*

# learning?

A Learning is most effective when differences in learners' social backgrounds are

*taken into account.*

B . Leamers' have different strategies, approaches and capabilities for learning which

*are* the result of prior experience and heredity.

324. In **order** that individual development could be understood, one has to look into the social **and** cultural context within which development occurs.

Whose view is this?

A Piaget

B. Vygotsky

325 Which Gestalt Principle is applied when we perceive objects which are near each other

to belong together?

A Law of proximity

B. Law of closure

326. Which **of** the following practice demonstrates scaffolding?

- A Start coloring **the** picture and **the** child continues and finishes it.
- B. Helping the child finish his *project*.

327. Which of the following situations does **not** illustrate transfer of learning?

- A. The learner finds it easy to play the organ because he can play **the** piano.
- B. The boy recited the poem taught by her teacher.

328. Refers **to** an individual's perspective and disposition.

**A** Aptitude

B. Attitude

329. Pavlov taught his subjects to respond to a neutral stimulus by:

- A** Pairing it **with an** unconditioned stimulus
- B. Using operant conditioning techniques

330. What **is** the process for Piaget done during our growing years, acquiring new experiences and ideas?

**A** Assimilation

B. Accommodation

331. In Watson's **experiment**, little Albert's **crying** in the presence of **the** white rat

demonstrated

A A conditioned response

B. An unconditioned response

332. Which of the following **is** an example of a variable interval schedule?

- A Taking attendance once a week on random days
- B. Giving a star for an average of ten problems completed**

333 Shaping is evident in which of the following situations?

A child learning to catch a ball is praised for attempting to reach for it before being praised only for catching it.

B. A math student is rewarded for any attempts at solving a simple problem after mastering more problems.

Yellow Book v.3:2021  
edition

72

## Professional Education

Facilitating Learning

334. The information-processing approach deals primarily with:

A Information *storage* and retrieval mechanisms in the human memory B. Long-term *retention* and transfer of learning

335 A recent study of a group of LET results reveals that those who took the Licensure Exams for Teachers *right* after year of graduation **had** higher chances of **passing** than those who postponed taking the LET after year of graduation. Which of Thom dike's

laws explains this?

A Frequency

B. Recency

336. According to Ausubel's subsumption theory, meaningful learning takes place when **new** material or relationships can be derived from the existing structure. Information can be linked to other concepts or information to create new interpretations or meaning. Which process is explained?

A. Correlative  
subsumption

B. Derivative  
subsumption

337. Which **does** Tolman's term of latent learning mean?

A Learning that is hidden and not told.

Mo

B. Learning which is not manifested at the time of learning but which manifests later when a suitable motivation and circumstances appear.

338. **Retroactive** inhibition is illustrated in which of the following examples?

A A student needs **more** trials to memorize a list of chemistry symbols after **successfully** memorizing a list of biology terms.

B. A **student learns** to play a new instrument, then realizes that he has lost the technique for a previously learned instrument.

339. What kind of motivation is shown by a person who keeps on practicing his guitar for the joy he get from playing?

A. Intrinsic

B. Extrinsic

340. To what does Piaget's cognitive theory that the ability to determine that a quantity will **remain** the same despite adjustment of the container shape apparent size refer? A Accommodation

B. Conservation

341. Research **says**, that children use private speech **more** when tasks **are** difficult, after **they** have made **errors** and when they are not sure how to proceed.

What does this imply?

1. Insist **on** silence or no talking rule when children **are** occupied with a task.
- II. Allow children to engage in private talk while taking the written test.
- III. Encourage children to do private talk to improve their performance.

A II and III

B. I, II and III

## Professional Education

*word problems* involving  
operations with fractions."

Assessment of Learning

342 Who *gave the* most  
authentic assessment task  
for the instructional  
objective "Solve A Mr. *Pastor*

who asked his students to construct  
a word problem given a number  
sentence involving operations on fractions and  
then solve the problem they have  
*constructed.*

B. Mr. Ildefonso who asked  
students to construct any word  
problem on operations with fractions  
then formed pairs, exchanged problems and  
helped each other  
*solve the problems.*

343 Here is a learning outcome:  
Interpret assessment results. How  
should this be

*assessed?*

A Present data on score distribution, mean,  
standard deviation then ask the students  
*to interpret the meaning of the data*

B. Ask: Is there a need to  
interpret data? Why?

344. What is an advantage of  
a 4-point scale rubric?

A There is no column for undecided and so everyone  
has to make a choice.

B. It is easier to choose because there are only four alternatives to choose from.

345. Here is a True-False test: Based on research findings, girls usually develop earlier than boys. What is faulty with the test item?

- I. It makes use of a specific determiner, "usually."
- II. The word "usually" gives clue to the answer.
- III. It is a sweeping statement.
- IV. It is an opinionated statement.

A I and IV

B. al and II

346. The class was taught how to conduct an action research and was required an end-of- the-term written research report. The class was taught how to do the research report and was shown as an Analytic Scoring Rubric for them to know how they will be graded. The class took the Scoring Rubric as guide in the making of their research report. They were all motivated to pass an excellent research report and as a group checked now and then if they were true to the qualities of an excellent research report as seen in the scoring rubric. What form of assessment is described? A Assessment AS Learning

B. Assessment FOR and AS Learning

347. At the end of the school year, which is/are TRUE of grades?

- I. The General Average is computed by dividing the sum of all final grades by the total number of learning
- II. Each learning area has equal weight in computing for the General Average.  
The Final Grade per learning area and the General Average are reported as whole numbers.

A I and II

B. I, II and III

348. How is the final grade per subject for

Grades 11 and 12 obtained?

- A. Get the average of the grades of all subjects for the 2 semesters. B. Get the average of the grades for the 2 Quarters.

349. Which of the following types of portfolio is intended for you to realize your learning

outcomes?

- A. Evaluation portfolio

Yellow Book v.3:2021  
edition

- B. Assessment portfolio

74

Assessment of  
Learning

52 Which *is/are*  
TRUE of MAPEH  
when it comes to  
grade computation?

1.

The quarterly grade is the average of the quarterly grades in the four areas- *Music*, Arts, Physical Education and

Health (MAPEH)

Individual grades are given to  
each area (MAPEH)

III. There is one grade for Music  
and Arts, PE and Health because  
they are

related.

A *Only*

B. I and II

te

351. A type of error  
committed in grading the  
performance of the students  
by the rater who

avoids both extremes of the scale  
and tends to rate everyone as  
average

A Severity error

B. Central tendency error

352 In a class of 50 students,

Romeo obtained a score of 30 which is the first quartile.

What does his score imply?

A Below the 3rd decile

B. Above the first quartile

353 What is the most appropriate for the teacher's engagement in the process of

assessment?

VIN

A To find out if the lesson was presented well. B. To find out if lesson objectives were obtained.

354. **Teacher** lah does not give quizzes but relies on summative assessment results. What could add to a more valid assessment of learning?

A Data from multiple sources

B. Data from **informal** assessment

355. Compared **with** evaluation **which** is subjective, testing students is more objective

because **it is** based on:

A Quantifiable data

Uta

B. Class work

356. **Which of** the following essay topic best measure problem solving skill and originality?

A Images of Philippine presidency

B. Human rights issue **during** POST-EDSA Philippine democracy

357. In a diagnostic assessment, what rubrics is good to use?

A Holistic

B. Analytical

B. Regularly

358. How should grades be reported to parents?

A. Every end of the year

359. Algie showed a video in her class about the life in an urban poor community. She wants to determine how the video changed students' thoughts about the life of these underprivileged people. What technique is appropriate for this?

A Role Play

B. Reflection Log

360 Teacher **Jimenez** does **not** teach well. His students do not study well, **too**. Expected **learning** outcomes **are** not clear to **both** teacher **and** students. Teacher Jimenez' assessment tasks are not aligned to learning outcomes. What is most likely the result of **assessment**? **Describe** the score distribution.

A Skewed **to** the right

361. What kind of assessment **is** a post-test?

A Process assessment

**Yellow Book v.3:2021**

edition

B. **Skewed** to the left

B. Outcome assessment

# Professiona / Education

363

should *be* done?

Assessment of  
Learning

To maximize the amount of time  
spent for performance-based  
assessment, which one A Plan *a*  
task that can be used for  
instruction and assessment at  
the same time B Assess one objective  
for one performance task  
A Sarah's score indicates that she is  
able to solve about two thirds of all  
one- Which statements represent  
criterion-referenced interpretation?  
*variable* linear equations *of*

such complexity.

B. *Students* who have reached Sarah's level on linear equations usually succeed in the subsequent unit on simultaneous equations with special help or extra time; i.e.,

Sarah is ready to move ahead.

## 364 Which of the following test items can effectively measure HOTS cognitive learning

*objectives?*

A Achievement test

B. Extended essay test

## 365 Why is performance given the largest weight in TLE and MAPEH?

A They are dominantly physical skill subjects.

B. They have no cognitive aspect.

366 Which is a norm-referenced statement?

# Vie

A Mariz performed better in spelling than 60% of

his classmates. B. Mariz was able to spell 90% of the words correctly.

367. If a teacher wants to measure her students' ability to discriminate, which of these is an

appropriate type of test item as implied by the direction?

A Summarize the lesson yesterday."

B. "Group the following items according to shape."

368. Which applies **when** there are extreme scores?

A The **median** will not be a very reliable measure of central tendency. B. The mean will not be very reliable measure of central tendency.

369. Which statement on test result interpretation is correct?

A A student's score **is** a final indication of his ability.

B. The use of statistical technique gives meaning to pupil's scores.

370. Which test items do not affect variability of test scores?

A Test **items that** are a bit easy.

B. Test items **that** every examinee gets correctly.

371. Who is retained in the same grade level for Grade 1 to 10?

Any students who did not meet expectations

A . In three or more learning areas B. In four learning areas

372 . What happen when a student in Grade 1 to 10 did not meet expectations in two

learning areas?

Promoted to the *next* grade level after passing remedial classes for learning areas with failing mark

B. Promoted in the next grade level but has back subjects in the lower grade level

Yellow Book v.3:2021

373 In *MAPEH* and TLE,  
which contributes  
heaviest to the student  
grade?

A. *Performance task*

B. *Quarterly* assessment and  
performance task

374. An assessment that uses the  
same or similar questions and is  
evaluated using the  
same criteria for all

test-takers is referred to as a

A *standardized*

B. summative

assessment.

375 Mr. Aranas uses an  
assessment to evaluate children's  
knowledge and abilities formed

in pre-school and in the home.

He is using a

A scholastic aptitude

B. school readiness

assessment.

376. A school principal wants to know the  
cost and length of time needed to  
administer an

exam. This refers to the

A reliability

of the exam.

B. practicality

377. If a teacher wants to assess predictive  
validity of a test, a common way to achieve this

is by

A administering an assessment, then a few weeks or months  
later observe the

students success or competence on those  
concepts

B. creating two versions of the test and giving half of the  
class one version and the

other half the second version

378. A teacher includes **three** test items that assess the same concept. This teacher is

reliability of the instrument.

attempting to assess

B. parallel-form

A test-retest

379. Mr. **Hunt** has been emphasizing the use of performance-based assessments in his science class. What type of performance assessment is he most likely to use to grade his students on their knowledge of the principles of gravity?

A Multiple-choice test about the principles of gravity.

B. Experiment **which** involves dropping different objects to assess the rate of

descent.

380. Which **of the** following patterns of scores lies mostly in the mid-range?

A. **The normal** distribution

B. The standard distribution

381. A group of ten students take a test **and they** all get an A. Which of **the** following

statistical results would be true for this group?

A A very small standard deviation

B. A normal distribution

382. Scores **that** indicate the level of knowledge or skills a student possesses in a specific

area are referred to as

A norm-referenced

B. criterion-referenced

383. What type of assessment determines what is going on, whether the students are

**improving** towards mastery of lesson?

A Summative assessment

B. Formative assessment

384. Learning outcome: **Use** the correct tense of verb in sentences. Which test item is

aligned?

A. I (**am** going, go) **to** school everyday.

B. Birds **are** (fly, flies).

Assessment of Learning

Which is an improved version of this True-False test item? With mandatory *Kindergarten and* Grades 1 to 12, the Philippines has one of the best if not the best

*educational* system in the world.

A The K to 12 program makes the Philippine

# educational system one of the longest

in *the world*.

B. According to Columnist Cruz, with mandatory Kindergarten and Grades 1 to 12, the Philippines has one of the best, if not the best, educational system in the *world*.

366 Learning outcome: Draw implications of research findings on lifestyle disease. Which

test is aligned?

- A What does research say about lifestyle diseases? Do you agree? Why or why not?
- B. What may be inferred from the research findings presented?

387. Learning outcome: Take a stand on the issue on same sex marriage and defend the

same. Which test item is aligned?

- A Do you favor same sex marriage? Why or why not?
- B. Is there any advantage of same sex marriage?

# Ma

388. Which of the following is usually measured by a performance checklist?

- A. The frequency of students' behaviors and remarks
- B. A certain desired behavior of an individual towards a completion of a particular task

389. What is the purpose of a pre-test?

- A To determine entry knowledge or skills
- B. To grade learners

390. Which of the following is an example of an open-ended question?

- A Do you think the lawmaking body should ratify this Reproductive Health Bill?
- B. How will renewal of marriage contract after ten years affect the social image of Filipino women?

391. Teacher Ellaine shows her colleagues sample prototype products which she often uses in assessing outputs or projects of her students in Values Education. What are prototype products?

- A Technologically advanced devices used in determining quality of students' outputs
- B. Samples of products in different levels of skills and expertise possessed by a teacher over his or her years of teaching experience

392. It is the process of gathering and analyzing specific information as part of an

evaluation.

A Assessment

B. Evaluation

393 . Reliability of tests can be improved by various factors, and one is

which scores are spread over a range of abilities.

A heterogeneous of the student group

B. increased number of score items

394. Which one can enhance the comparability of grades?

A Using a common conversion table for translating test scores into ratings B. Individual teachers giving weights to factors considered for ratings

A Maturity of the reader

B. Interest in reading

her

409. The teacher wants to check prior knowledge of his pupils about water pollution. She writes the main topic water pollution in the center of the board and encircles it. Then, she asks the pupils to provide information that can be clustered around the main topic. **Which** technique did the teacher employ?

A. Semantic mapping

B. Vocabulary  
building

410. Which of the following activities should be the last option for the metacognitive reader if

he does not make sense of the expository text he is reading?

- A Sounding out each word while reading the text
- B. Constructing a graphic organizer for the text

411. **Mrs.** Alvarez handles fourth grade English **and** is currently teaching **simile and** metaphor using short stories for children. Which of the following reasons does **she** want **to** students to better understand?

- A. **Author's use** of figurative language
- B. Author's point of view

412. Sir Edz notices that his student, Jayson cannot decode sight words that are supposed to be **easy for** students of his age. Which of the following activities, then, should Sir Edz provide to Jayson?

- A Constructing mental maps and graphic organizers
- B. Phonemic awareness activities

413. The four-Pronged Approach upholds the holistic and balanced instruction in beginning reading. Which of the following principles characterizes the most important characteristic of this approach?

- A The development of genuine love for reading
- B. The inclusion of critical thinking skills after reading

414. Research **studies showed** that children in slums generally have lower reading achievement than children in urban schools. What factor is **shown** to affect reading achievement?

- A Personality and emotional factors
- B. Socio-economic status

415. **Albert is** about to buy a book. After taking a book from the display shelf, he looked at the title, opened it and looked at the table of contents, then the summary found at the back cover. He realized

that what he took from the shelf is not what he needs. Which of the following strategies do you think did Albert do to decide why he does not need

it?

A. Scanning

Yellow Book v.3:2021

Reading

416. *A student asked the teacher to tell him the meaning of the word "disestablishmentarianism", which is found in the text that the student read. Instead of explicitly stating the meaning of*

the word, the teacher asked the student to segment *the* word and look for its base word, prefix, and suffixes so that they may construct the *meaning* of *the* word through these word parts. Which of the following vocabulary *strategy* did the teacher use to help the students arrive at the meaning of unfamiliar

word?

A. Structural analysis

B. Context clues

417. Which of the following words BEST lends itself to the teaching of structural analysis as

a *strategy* to unlock the meaning of an unfamiliar

word?

A. Preschool

B. Undesirable

Ger

**418.** Mariz is having a difficulty comprehending the novel, "Florante at Laura," because the author's narration seems to be different than the actual order of events that have happened in the story. Which strategy should the teacher model Mariz so she would be

able to understand the text?

A. Construction of a timeline

B. Rereading the text

**419.** Which of the following activities BEST develops creative reading?

A Giving an alternative ending for a story read

B. Rejecting the premises of the author

**420.** Which of the following statements accurately describes the Bottom-Up model of

Reading?

A Suggests that a reader constructs meaning from all available resources.

B. Reading is driven by the text, not the reader.

421. When Ellaine read the sentence, "The bankruptcy made a run on the bank," he thought

the bankruptcy literally ran on the bank. What explains this phenomenon?

A The reader has inadequate proficiency in listening and speaking.

B. There is a mismatch between the reader and writer's field of experiences.

422. Sequence the following events on the historical development of reading:

i. Greek letters and the Roman alphabet were developed

II. Through the Semite's ingenuity, sounds, and symbols gave rise to the

Phoenician  
alphabet

III. People used pictures and characters to convey messages

IV. Researchers showed the processes of reading, comprehension, and interpretation

A 1,,, and IV

B. III, II, I and IV

423. Research studies that reading power affects college students who have insomnia, conflicts with parents, poor rapport with other people. What factor(s) is shown to effect reading achievement?

Home conditions

B. Personality and emotional factors

424. All **the** three reading theories recognize the role of the reader and the text in the comprehension process. However, only the interactive model accounts for the role of the reading situation in the meaning-making process. What factor does the interactive model consider the reading process?

A Outcome

rofessional  
*Education*

Social Dimensions of Education

25 Gender stereotypes do not contribute to a positive learning atmosphere. The following

are proofs of gender stereotype in class, except:

A. Girls and boys do the same activities in the subject Edukasyong Pantahanan at

B. Pangkabuhayan.

Girls are encouraged to be soft spoken and home bound playing with dolls and kitchen toys while boys are encouraged to be aggressive by playing outside with cars and guns.

26. Miss Sanchez engaged her learners in activities where they develop writing, critical thinking, problem solving skills, and risk taking. Which of these 21s century skills does

Miss Sanchez possess?

A. Life and Career Skills

B. Learning and Innovations Skills

27. Which description matches the Mirror Principle of John Maxwell?

- A. The first person we must examine is ourselves.
- B. When we help others, we help ourselves.

M

28. The role of a teacher changes in a learner-centered environment. Which among the following circumstances is not included in the paradigm shift? Teacher

- A is viewed as a support, collaborator and coach for students as they learn to gather and evaluate information for themselves
- B. is viewed as the primary source of information who continually directs it to the students

29. In her report to UNESCO, LEARNING: The Treasure Within, Jacques Delors, strongly recommended that all education reform be conducted in the spirit and essence of sustainable development and called for the full-fledged pursuit of reorienting education to attain sustainability. Considering his/her influence on learners, which is the most fitting and significant response from a professional teacher?

- A Integrate concepts in Education for Sustainable Development (ESD) in lessons.
- B. Serve as lecturer on ESD for all groups in the community.

30. One study revealed that co-parenting influenced young children's effortful control above and beyond separate maternal and parental parenting. What does this imply?

- I. Solo parenting is ideal.
- II. Father and mother should jointly raise a child.
- III. Undermining of the other parent puts a child at risk for problems.

- A. I, II and III

B. II and III

31. Social development means that acquisition of the ability to behave in accordance with:

A Social expectation

B. Universal Norms

132. What is the most appropriate tagline for the slogan on cultural diversity "A people

without the knowledge of their history, origin, and culture is like a tree without roots."

Cultural norm

B. Cultural identity

133. In a school dominated by indigenous people, what is the focus of learning that can

instill pride on the elements of the young learners' cultures?

A History of indigenous people B. Positive elements of the culture

434.

Social Dimensions of  
Education

The *International* Commission on Education for the 21st Century advocates four pillars of *learning*,

namely - learning to know, learning to do, learning to live together, and *learning to be*. Since there are peace and cultural diversity problems in the world and *everywhere*, which of the four pillars should be given more emphasis in teaching?

A Learning to live together

B. Learning to be

435. For a *positive* learning environment it is good to make clear that an individual's beliefs *and* activities should be understood by others in terms of that individual's own culture.

Which concept is explained?

A Cultural relativism

B. Cultural sensitivity

436 Which organization advanced insights of "Learning to Treasure Within" for 21st

# century

education?

A Geneva International  
Conference

B. International Commission for the  
21st Century

437. Which of the following skills should be required  
of children and youth to master in the

greatest challenges regardless of national origin or  
cultural upbringing? A Higher-order cognitive and  
interpersonal skills

B. Emotional and leadership  
skills

438. The following are attributes of a peace  
educator, except:

A is motivated by service but expects rewards for  
services

B. Lifelong learner who continues to improve his/her own  
learning abilities

439. The classroom is very lively. There are different groups and each  
group is **brainstorming** on the topic, healthy lifestyle, Every member has his/her  
own **role** to **do** for the realization of one goal- to make and present a PowerPoint  
presentation of the **topic**. **What** pillar of education is exemplified most in the  
given classroom setting? A **Learning** to do

B. Learning to live  
together

440. Edgar kisses the hand of his mother before leaving and upon arrival from a  
long trip. **His younger son** learned **to** do the same **when** he left **for US to study**.  
This **is an** example of:

A Acculturation

B. Enculturation

441. What principle of moral discernment applies to fire victims who  
decided to jump over a

ten-storey building rather than die by being burned  
to death?

A Principle of lesser of two  
evil

B. Principle of double  
effect

442. In educating the whole person as demanded by the  
"Learning to be" pillar of the 21st century education, where does the  
concept of meaning, purpose and engagement belong?

A. Spiritual  
values

B. Personal responsibility

443. The universal, internationalist impulse that the  
world is connected in terms of cultures,

nations and people refers  
to

A internationalization

B. globalism

444. A nuclear family consisting of  
husband, wife and children is also called

family.

A Conjugal

445 Prof. De Leon teaches in a

barangay where there are frequent quarrels and fights due to serious and petty problems. In his Social Studies class, he needs to emphasize:

A. Learning to be

B. Learning to live together

446. Which refers to the increasing interconnectedness and convergence of activities and forms of life among diverse groups of people throughout the world?

A Internationalization

B. Globalization

enter

447. **Men** should do carpentry work while women should do the household chores like

laundrying are examples of:

A Gender stereotyping

B. Gender bias

448. Which function of the school is manifested when the faculty stress discipline, respect,

obedience and good citizenship?

A Socialization

B. Social control

449. The school's concern is to pass on the accumulated experiences of the past generations to the incoming generations. What function of the school is being

manifested?

A Conservation

B. Instructional

450. Of the following, which is an emerging discipline whose aim is to create equal

educational opportunities from diverse racial, ethnic, social class and cultural groups?

B. Gender education A

Multicultural education

451. Many Asians eat with chopsticks while Europeans use fork and spoons illustrates:

A Folkways

B. Mores

452. Features and elements common to all culture such as arts, marriage, customs and

traditions are called

A culture universals

B. cultural identity

453. In the Philippines, generally a family gives access to power over, basic resources to

both father and mother. The kind of family according to authority is

called

A. cognatic

B. egalitarian

454. Which is not **one** of the major thrusts of **ESD**?

A. Respect for the rich and famous

B. Respect for the present and future generations

455. One **of** the essentials to ESD is the ability to imagine a better future which is termed:

A. Critical thinking

B. Envisioning

456. What **is** the measure of relevance in education?

A. Functionality and meaningfulness  
B. Excellence and effectiveness

457. Which of the following is not a characteristic of Multicultural education?

Pedagogically  
humanistic

458. Which illustrates cultural relativism?

B. Culturally  
discriminating

A. Practices that are considered taboo in a certain group but are acceptable to other groups.

B. When students migrate from rural to urban areas, they learn some of the urban customs and routines.

low Book v.3.2021 edition

Curriculum Development

461. Which *question* could NOT be answered when curricularists do

# curriculum mapping?

A Do my co-teachers who handle the same subject cover the same content?

*achieve* the same outcomes?  
use similar strategies?

B. Are my students learning?

**462.** Mrs. *Galang* often makes use of experiential rather than the rote method in teaching; she is, thus, observed to provide "custom-made" activities for her pupils. The curriculum pattern she apparently follows is that of:

A child-centered

B. activity-based

## Cont

**463.** When teachers conduct a series of evaluation to determine the extent of teaching,

what must be

implemented?

A. Assessed Curriculum

B. Taught Curriculum

464. The Philippine Association for Teachers and Educators (PAFTE) proposed a new curriculum for Teacher Education to make the graduates globally competitive. What *type* of curriculum is this?

A. Supported curriculum

B. Recommended curriculum

465. In which situation is a learner-centered approach to curriculum designing utilized

A. The **focus** of learning is mastery in terms of content.

B. Teacher considers learners' entry knowledge **and** skills.

466. In a curriculum development class, the teacher asked the students to give an enriched definition of the curriculum. Which among the following encompasses the true essence of the term?

A. Curriculum is the sum total of all the learning experiences in the teaching-learning process.

B. Curriculum **is** a list of subjects to take to complete a course.

467. **Which** is/are way/s **by** which **schools** can **be** learner-centered, according to the provisions of RA 10533?

I. Using Mother Tongue as language of instruction

II. By making curriculum flexible and responsive to community needs

III. **By** indigenizing curriculum

A. I only

B. I, II and III

468. **Which are** supposed to be aligned in an

outcomes-based course syllabus?

- I. Learning outcomes
- II. Teaching-learning activities
- III. Assessment tasks
- IV. Teacher qualifications

A. I and III

B. I, II and III

469. When teachers lead other teachers to agree on standards, follow the adopted curriculum, use common pacing charts, and develop shared assessments, which role

do they play?

A. Curriculum specialist

B. Instruction specialist

## Professional Education

### Curriculum Development

470. Which *condition* most likely could help in the fast and smooth implementation of the K-

12 curriculum in schools of the Philippines?

A. Decrease the driving forces.

B. Decrease the restraining forces

471. The following are characteristics of progressive curriculum except.

A Takes *into* account all the curricular elements and tests these elements through

real life application.

B. Knowledge that comes from various disciplines should be the focus.

472 School curricula reflects the world's economic and political integration and

industrialization. What does this point in curriculum development?

A. The trend toward the globalization and localization.

8. The shift in the paradigm of curriculum development from a process-oriented to a product-oriented one.

473. When her fellow science teachers share their frustration with students' poorly written lab reports, Algie

suggests that they invite several English teachers to recommend strategies **for writing** instruction. With two English teachers, the science teachers examine a number of lab reports together and identify strengths and weaknesses. The English teachers share strategies *they* use in their classes **to improve students'** writing. Which role do the English teachers play in this case?

A Curriculum specialist

B. Instruction specialist

474. Which stakeholder of the curriculum will say "I keep in mind, how I can sustain the

interest of the learners?"

A Teacher

B. Principal

475. What curriculum development approach **is it** when the school principal is the curriculum

leader and **at** the same time instructional leader?

A Managerial Approach

B. Systems Approach

476. Whose model of curriculum development is called the "grassroots approach", which means **that** teachers who teach or implement the curriculum should participate in developing it?

A Hilda Taba

B. Ralph Tyler

477. Which **of** the following represents **a** minuscule curriculum?

A Reference materials that supplement the text

B. Lesson plan that teachers prepare

478. This curricularist uses unique and out-of-box strategies to make his/her class highly

engaging. He/She is a/an

A Innovator

B. Implementer

479. He believed that curriculum is a set of experiences

in which the subject matter is  
developed around social functions and  
learners' interests.

A Hollis Caswell

B. William Kilpatrick

480. **When** the curriculum is viewed **as** a process,  
what should the teacher consider

primarily in designing his/her  
lessons?

A Outcomes-based learning  
objectives B. Various methods and  
strategies

## Professional Education

Curriculum Development

What characteristics of a good curriculum does this imply? "The curriculum must adapt the *educational* activities and services to meet the needs of a modern and dynamic A The curriculum is continuously evolving.

community."

B . The curriculum is based

on the needs of the people.

482. If curriculum is planned following the humanistic approach, which feature applies?

A. Very child-centered

B. Emphasizes on the child's cognitive development

453 In Section 2, Declaration of Policy, of RA 10533, it is said that the "State shall broaden the goals of high school education for college preparation, vocational and technical career opportunities as well as creative arts, sports, and entrepreneurial employment."

Is the K to 12 aligned to this goal?

A. It depends on which track a student will pursue.

A. Yes, it offers academic track, sports, arts and

design, tech-voc and livelihood

tracks.

484. Every curriculum has this dimension. This is both unplanned and implicit but its instructional effects are often evident in the students' behavior, values and dispositions. This dimension is referred to as:

A Recommended curriculum

B. Hidden curriculum

485. In a backward design approach to curriculum and lesson planning, which come ahead?

A Determining acceptable level of evidence that the intended results were realized B. Identifying results desired

486. One popular conception of curriculum is that which aims to provide the learners with

the needed skills in this ever-changing world. Which conception is this?

A Cumulative tradition of organized knowledge

B. Social relevance

487. When one wants children to develop positive attitude towards life, which approach in

curriculum planning is most appropriate?

A Problem-centered approach

B. Child-centered approach

488. Which educational approach focuses on what the learners are expected to know,

understand and be able to do?

A Outcomes-Oriented Education B. Outcomes-Based Education

489. Do parents have a role in curriculum implementation and instruction?

A Yes, they may provide insights on the curriculum.

B . Yes, but only in helping their children with school work.

490. Curriculum may be defined in many ways.

What does this prove?

A The concept of curriculum may be defined from different perspectives. B . The concept of curriculum is based on those given by experts.

491. In order to **have** an effective teaching and learning, there must **be** an adequate

utilization of learning materials. What type of curriculum is this?

A Recommended curriculum

B. Supported curriculum
