1000 HOT LET QUESTIONS!

PPST-Based • OBE-Guided • K-12 Aligned

General Education

- English
- Social Science
- ICT
- Mathematics
- Filipino
- General Science

Professional Education

- Assessment of Learning
- Social Dimensions in Education
- Principles of Teaching
- Educational Technology
- Curriculum Development
- Teaching Profession
- Facilitating Learning
- Child and Adolescent Development

P250-SRP

1. One who specializes in all kinds of fishes and their characteristics developing expertise in:
A. Ichthyology B. Entomology
2. Branch of Science that deals with the study of the relationship between plants, animals and other living things found in their habitats.
A. Ecosystem B. Ecology
3. Which of the following best describes the science of Ecology?
A. Living things B. Life and environment
4. _____ is to insects as toxicology is to _____.
A. Etymology : toxicity B. Entomology : poisons
5. Which of the following is not a type of cell?
A. Sperm B. Virus
6. Which of the following does not have eukaryocytes?
A. Bacteria B. Fungi
7. What do you call the organisms who only eats plants and algae?
A. Herbivore B. Omnivore
8. In the energy pyramid, which organisms occupy the base?
A. Herbivores B. Producers
9. What do you call the consumers that directly feed on producers and get the greater amount of energy?
A. Omnivores B. Herbivores
10. At night plants conserve _____ and restrict _____ intake.
A. Water; oxygen B. Water; carbon dioxide

11. Arthropods exhibit fast and coordinated movement because they possess:
A. An endoskeleton B. Jointed appendages
12. Plant cells differ from animal cells in that only plant cells possess:
A. Lysosomes B. A cell wall
13. What functional group differentiates chitin from cellulose?
A. Carboxyl group B. Amino group
14. Which of the following does not exist in carbohydrates?
A. Hydrogen B. Nitrogen
15. Which of this is not a multicellular organism?
A. Human B. Amoeba
16. Organisms that can manufacture their own food are called:
A. Autotrophs B. Heterotrophs
17. Which of the following is not used in the manufacture of food by green plants?
A. Carbon dioxide B. Oxygen
18. Commensalism is when:
A. Neither species affects the other
B. One species benefits while the other is unaffected
19. Living and feeding on leaves by the caterpillar is an example of:
A. Parasitic B. Predatory

20. Which of the following statements is TRUE about parasites and their relationships with their host?
- A. The host enjoys the benefits of a relationship in which the parasite is harmed or killed.
 - B. The parasites enjoy the benefits of a relationship in which the host is harmed or killed.
21. What relationship exists between frogs and fishes in a pond ecosystem?
- A. Predation
 - B. Competition
22. An owl and a hawk both eat mice. Which of the following of these terms describes the relationship between a hawk and an owl?
- A. Mutualism
 - B. Competition
23. Which of the organisms is cold-blooded with a dry scaly skin?
- A. Frog
 - B. Lizard
24. Animals which live on land but return to the water to breed:
- A. Reptiles
 - B. Amphibians
25. Bamboo is classified as:
- A. Bush
 - B. Grass
26. What type of body covering makes up a mammal?
- A. Shell
 - B. Fur
27. Birds have shapes that influenced the building of aircrafts. What feature is most present in airplanes?
- A. The presence of hollow oblong body
 - B. The presence of wings

28. Butterflies and mosquitoes have mouthparts in the form of a long, narrow, coiled tube called:
- A. Mandibles B. Proboscis
29. Which group of organisms cause "red tide?"
- A. Algae B. Dinoflagellates
30. The molecules that contain an organism's genetic make-up called:
- A. Nucleic acid B. Genetic membrane
31. The part of a plant cell that stores water, sugar and minerals
- A. Vacuoles B. Chloroplasts
32. Which among the following are duplicated during the process of mitosis?
- A. Centrosomes B. Chromosomes
33. Which of the following does not contribute to the variation in population?
- A. Mitosis B. Crossing over
34. Which of the following means development of egg without fertilization?
- A. Parthenogenesis B. Meiosis
35. Diploid cells have two copies of chromosomes. These two copies are called:
- A. Chromatids B. Homologous
36. Which among the following is the only method of contraception that has 100% success rate?
- A. Withdrawal method
B. Abstinence

37. At present, a patient fights cancer either through surgery or by subjecting him/her to a drug treatment called:
- A. Irradiation B. Chemotherapy
38. If carbohydrates are hydrophilic organic compounds, lipids are _____ organic compounds.
- A. Hydrophobic B. Polypeptide
39. Which of the following is not a source of carbohydrate?
- A. Sugar B. Meat
40. Which of the following is an isomer of glucose?
- A. Fructose B. Maltose
41. Sugar and starches are called:
- A. Carbohydrates B. Minerals
42. The four most essential element needed by the human body:
- A. Carbon, hydrogen, oxygen, phosphorous
B. Nitrogen, hydrogen, oxygen, carbon
43. Which of the following is a vitamin?
- A. Niacin B. Pepsin
44. The number of calories in a food indicates:
- A. The amount of energy that can be obtained from the food
B. The amount that can be digested from the food
45. The chemical process of getting energy from the food and using it to maintain the structure and function.
- A. Respiration B. Metabolism

46. According to the level of organization, which is at the highest level?
- A. Ecosystem B. Biosphere
47. The flow of water in our planet as it undergoes the processes of evaporation, condensation, precipitation, infiltration, runoff and subsurface flow is called:
- A. Rain cycle B. Water cycle
48. It is a common observation that mushrooms thrive few days after lightning strikes. Which among the following biogeochemical cycles is involved in this process?
- A. Nitrogen cycle B. Carbon-Oxygen cycle
49. Plants absorb dissolve nitrates from the soil and convert them into _____.
- A. Urea B. Free nitrogen
50. Global climate change is being attributed to the atmospheric increase in what two gases produced by human activities?
- A. Methane and Carbon dioxide
B. Nitrous oxide and Sulfur dioxide
51. Acid rain occurs when _____.
- A. Phosphorus-rich water in lakes evaporates to form phosphoric acid.
B. Sulfur released in burning fossil fuels combines with water in the atmosphere.
52. Which of the following sentences about greenhouse effect is INCORRECT?
- A. Greenhouse gases trap heat in the atmosphere which are returned to the earth's surface.
B. Greenhouse effect is due to gases that absorb the green region of light from the sun.

53. Which of the following group of gases contribute to the 'Green House Effect'?
- A. Carbon tetrafluoride and Nitrous oxide
 - B. Carbon dioxide and Methane
54. Opening of cement plants requires getting a DENR clearance. Which of these clearances are required?
- A. Air Pollution Clearance
 - B. Environmental Clearance (ECC)
55. Plants need carbon dioxide, water, light and chlorophyll in order to make starch by photosynthesis. Carbon dioxide enters plants through holes in the leaves called;
- A. Stomata
 - B. Lenticels
56. Which part of the flower develops into the fruit?
- A. Ovule
 - B. Ovary
57. In addition to ATP, what are the end products of glycolysis?
- A. CO_2 and NADH
 - B. NADH and pyruvate
58. A plant growing on a shady side of a tall fence bends around the corner of the fence toward the sunlight. This illustrates;
- A. Positive phototropism
 - B. Negative phototropism
59. What is the storage cell of plants?
- A. Collenchyma
 - B. Parenchyma
60. Cell walls present in plant cells are made up of which compound?
- A. Lipids
 - B. Cellulose

70. The origin of the modern man:
- A. Tabon B. Sapiens
71. Which of the following is the correct sequence from the oldest era to the latest?
- A. Precambrian, Paleozoic, Mesozoic, Cenozoic
B. Paleozoic, Cenozoic, Precambrian, Mesozoic
72. The evolution of life forms on earth has been dependent on:
- A. The rate of change occurring in different earth environments
B. The typical and chemical evolution of the earth
73. Which of the following sets the condition under survival occurs?
- A. Random change B. The environment
74. What wave patterns of the EEG are active in an awake person?
- i. Alpha wave iii. Delta wave
ii. Beta wave iv. Theta wave
- A. I and II B. I and IV
75. Which system defends the body against infectious diseases?
- A. Lymphatic system B. Immune system
76. The liquid portion of the blood is the:
- A. Plasma B. Hemoglobin
77. Which of the following blood types is regarded as a universal donor?
- A. O B. AB
78. Blood types AB and O can safely be given to a person with blood type:
- A. A and B B. AB and O

79. On an average how many litres of blood a human body have?
A. 2-3 litres B. 5-6 litres
80. White blood cells, the skin and the antibodies are similar because they:
A. Supply oxygen to the body
B. Protect the body against certain harmful organisms
81. Which structure closes the opening in the larynx while we are swallowing?
A. Pharynx B. Epiglottis
82. Myopia is connected with:
A. Ears B. Eyes
83. Bile is produced by the:
A. Liver B. Gallbladder
84. What do you call that wave-like contraction of the wall of the esophagus which is responsible for pushing down the food to the stomach?
A. Peristalsis B. Cyclosis
85. Which blood vessels carry blood back to the heart?
A. Veins B. Arteries
86. Which of the following is a thigh bone?
A. Humerus B. Femur
87. Considered as essential to human life as it gives us framework and support to protect the vital organs and other structure of the body:
A. Joints B. Bones

88. Which of the following parts of the circulatory system distributes the digested fats such as fatty acids and glycerol throughout the body?
- A. Capillaries B. Lacteals
89. Which hormone promotes the development of secondary male sexual characteristics?
- A. Gonads B. Testosterone
90. Apparently, the loss of weight of objects immersed in a fluid is due to:
- A. Buoyant force B. Archimedes principle
91. Which of the following is not a source of energy?
- A. Nuclear geothermal heat
B. Inertia at rest
92. Which law of motion could explain what happens every time we walk?
- A. Law of Interaction B. Law of Inertia
93. Which of the following does not cause the different seasons?
- A. Tilting of the earth's axis
B. Evolution
94. Why do we see the sun rise in the east?
- A. The earth revolves eastward.
B. The earth rotates from west to east.
95. What important metallic elements are found at the inner core of the Earth?
- A. Iron and silicon B. Iron and nickel

96. Iron is what type of magnetic material?
- A. Ferromagnetic B. Paramagnetic
97. Which of the following is a mixture?
- A. Saltwater B. Carbon dioxide
98. A change in the shape or size of an object can be classified as:
- A. Physical change B. Chemical change
99. The result when there is lack of cohesion among gas molecules.
- A. Molecules are compressed into smaller volumes
B. Molecules move freely in all directions
100. Which of the following statements represents a physical change?
- A. The lawn grows thicker every day because fertilizers were added into the soil.
B. Frozen mango juice melted when left standing at room temperature for 30 minutes.
101. Which has a greater density, a lake full of water or a cupful of water?
- A. The cup full of water
B. They have the same density
102. True of noble gases:
- A. Able to react with any other atoms
B. Includes Neon and Helium
103. Which of the following is the element represented by the symbol B?
- A. Bismuth B. Boron
104. The most abundant constituent of atmospheric air is:
- A. Oxygen B. Nitrogen

105. What element has six protons, neutrons and electrons?
- A. Carbon B. Calcium
106. What is the correct formula of the product when lithium and sulfur react to produce lithium sulfide?
- A. LiS_2 B. Li_2S
107. The product of a reaction between alcohol and organic acid is:
- A. Ester B. Ether
108. Which of the following statements best describes a hypothetical element with an electron configuration of $1s^2 2s^2 2p^6 3s^2 3p^5$?
- A. The hypothetical element is in the fifth position in the p-block, along the third period of the periodic table.
- B. The hypothetical element is located at the third position of the p-block, along the fifth period of the periodic table.
109. Who is the French physicist who, while studying about fluorescence working with uranium compound, accidentally discovered radioactivity?
- A. William Roentgen B. Antoine Becquerel
110. Sound waves travels the slowest in:
- A. Solid B. Gas
111. Which of the following subatomic particles are located in the nucleus of an atom?
- A. Protons and electrons
- B. Protons and neutrons
112. What part of the nucleus determines the isotope?
- A. Both protons and neutrons
- B. Neutrons only

113. What is the charge of the plastic comb when it loses some electrons when rubbed in a silk cloth?
- A. Positively charge B. Negatively charge
114. Which of the following examples best illustrates application of Boyle's Law?
- A. A balloon expands and bursts when exposed to direct sunlight.
- B. A scuba diver stops at certain depths as he ascends to the ocean's surface.
115. Milk is classified as:
- A. Colloid B. Acid
116. Which of these objects would have greater mass: Object A that weighs 50N on earth or Object B with a weight of 50N on the moon?
- A. Object A B. Object B
117. It is the distance traveled by the body per unit time and tells how fast or slow the body moves.
- A. Acceleration B. Speed
118. What rock is formed when clay or mud is hardened and cemented?
- A. Conglomerate B. Shale
119. Which is considered as the highest rank of coal?
- A. Bituminous B. Anthracite
120. Where does the lava emitted during volcanic eruption come from?
- A. Crust B. Mantle
121. Why is earthquake experienced when there is volcanic eruption?
- A. Because of the movement of magma through the vents
- B. Because of the movement of rock layers along the faults

22. On which of the following variables does the color of a star depend?
- A. Distance from the earth
B. Temperature
23. Which among the color light has the least frequency but the longest wavelength?
- A. Green
B. Red
24. It occurs when the Earth is between the sun and the moon, with the Earth's shadow cast over the moon.
- A. Lunar eclipse
B. Total eclipse
25. What seasonal wind is experienced from July to September?
- A. Southwest monsoon
B. Southeast monsoon
26. The evolution of life forms on earth has been dependent on:
- A. The rate of change occurring in different earth environments
B. The typical and chemical evolution of the earth
27. What causes high and low tides?
- A. Earth's gravitational pull
B. Moon's gravitational pull
28. Who made the geocentric model of the solar system?
- A. Fred Hoyle
B. Ptolemy
29. Tides, caused by gravity, is gradually slowing down earth's rotation speed. A million years from now, scientists predict that earth's _____.
- A. Day is longer
B. Day is shorter

130. Energy is transferred from the sun to earth mainly by:
- A. Electromagnetic waves
 - B. Molecular collision
131. What is the point in the moon's orbit nearest to the earth called?
- A. Perihelion
 - B. Perigee
132. What motion of the Earth causes the occurrence of day and night?
- A. Rotation
 - B. Revolution
133. How long does it take for the earth to complete one rotation?
- A. 24 hours
 - B. 365 days
134. How far is the sun away from the earth?
- A. 149.6 million km
 - B. 126.9 million km
135. Why do we see the sun rise in the east?
- A. The earth revolves eastward
 - B. The earth rotates from west to east
136. Who formulated a heliocentric model of the solar system?
- A. Copernicus
 - B. Galileo Galilei
137. When does a temperature inversion occur?
- A. Cool air is trapped under warm air
 - B. Warm air is trapped under cool air
138. Which planet has no moon?
- A. Mars
 - B. Venus
139. What process enables the star to produce large amounts of energy?
- A. Nuclear fusion
 - B. Nuclear fission

140. The study of contemporary human societies.
- A. Cosmetology B. Cultural anthropology
141. Right to life, liberty and genuine happiness is fundamental to:
- A. Civil rights B. Constitutional rights
142. To what classification of rights does the right to love and to love belong?
- A. Constitutional B. Natural
143. Which of the following state is the right to human dignity?
- A. Honor and reputation
B. Fair trial
144. Every rights have a built-in duty. Which of the following illustrates this correctly?
- A. I have the right to vote and it is the duty of the COMELEC to allow me to vote.
B. I have the right to drive my car but I must see to it that I obey traffic rules.
145. It is perceived as the most important need and most pressing problem of the Filipino family:
- A. Broken family
B. Unemployment or financial problem
146. What is the power of the state to take private property for public use with just compensation?
- A. Expropriation B. Taxation
147. Of the following, which is an indirect tax?
- A. Capital gross tax
B. Excise tax

148. In what way does the government tax a person's gains from his labor?
- A. Income tax B. Value added tax
149. What does SALN stands for?
- A. Statement of Assets, Losses and Net worth
B. Statement of Assets, Liabilities and Net worth
150. Article IV of the 1987 Constitution, who has the power to declare the existence of the state war?
- A. President B. Congress
151. In which form of government are all citizens treated as equals on certain dimensions such as religion, politics, economics, social status and culture?
- A. Totalitarianism B. Egalitarianism
152. What intergroup interaction is secessionist movement in Mindanao?
- A. Domination B. Segregation
153. Which of the following is a developing country?
- A. England B. India
154. As an effect of our geography, in which of the following island/s do people travel mostly by water?
- A. Luzon B. Visayas
155. As an insular country, to which principle does the Philippines adhere when it comes to territorial boundary?
- A. Three hundred fifty nautical miles from shore
B. Archipelagic doctrine

156. Which part/s of the Visayas has/have comparatively more excessively moist climate and limited arable lands?
- A. Western B. Eastern
157. Which attitude will most likely result from pleasure principle?
- A. Avoiding leisure and rest
B. Refusal on any sacrifice
158. Which of the following will you choose to be true?
- A. Children with disabilities require only behavioral intervention
B. Exceptional learners include both the gifted and those with behavioral problems
159. What exemplifies that no two individuals are the same?
- A. Individual difference B. Conditioning
160. Upon which is based the claim that there is no single universal standard to be used to judge any culture-based?
- A. Ethnical relativism B. Cultural relativism
161. It refers to the rightness and wrongness of our decisions:
- A. Morality B. Theology
162. If you keep seeing your ways of doing things as the right way and everybody else's as the wrong way, you tend to have the attitude called:
- A. Cultural relativism B. Ethnocentrism
163. How is the so-called colonial mentality manifested?
- A. Xenocentrism B. Ethnocentrism

164. Which is a negative consequence of our value of close family ties?
- A. The development of prolonged dependence
 - B. Permanence of marriage
165. The practice of "pamamanhikan" in the rural areas is classified as:
- A. Mores
 - B. Values
166. The ordering of things according to the importance a person attaches to them is known as:
- A. Hierarchy of needs
 - B. Values hierarchy
167. The Philippines is dominantly a Christian country in the Orient, yet according to survey it is the top 5 as the most corrupt nation in Asia. What does this point to in Philippine Society?
- A. Lack of cultural integration
 - B. Presence of cultural differences
168. Material culture refers to the tangible and concrete objects produced by man. Which are examples of material culture?
- A. Ceremonies of Ivatans
 - B. Stone walls of Tasadays
169. The first mass in the Philippines occurred in _____.
- A. Limasawa
 - B. Mactan
170. In 1565, Legaspi concluded a blood compact with the Chief of Bohol named:
- A. Sikatuna
 - B. Lakandula
171. Birth place of Jose Rizal:
- A. Malolos, Bulacan
 - B. Laguna

172. The Spanish expedition responsible for naming the archipelago Filipinas:
- A. Legaspi expedition
 - B. Villalobos expedition
173. The imaginary line that separates the northern and southern hemispheres:
- A. Prime meridian
 - B. Equator
174. What crime Rizal was tried by the Spanish military court?
- A. Rebellion and organizing illegal societies
 - B. Falsification of documents
175. How can Dr. Jose Rizal/s La Liga organization be likened according to present day social groups/movement?
- A. Street parliamentarian movement
 - B. National socio-civic organization
176. In which poem did Rizal write about offering one's life for one's country?
- A. A La Juventud Filipina
 - B. Mi Ultimo Adios
177. Rizal's famous sculptural work was _____, a clay sculpture of a naked young woman with overflowing hair, standing on a skull while bearing a torch held high.
- A. Mi Ultimo Adios
 - B. The Triumph of Science over Death
178. Jose Rizal faced the firing squad in Bagumbayan de Luneta on December 30, 1896. This is a genuine manifestation of Rizal's strong sense of:
- A. Patriotism
 - B. Loyalty

179. The Kartilla of the Katipunan consisted of 13 teachings which the members of the society were expected to follow. Who prepared the Kartilla of the Katipunan?
- A. Emilio Aguinaldo B. Emilio Jacinto
180. Who is remembered for his famous quotation, "My loyalty to my party ends where my loyalty to country begins?"
- A. Carlos P. Garcia B. Manuel L. Quezon
181. Who among the Presidents abolished tenancy?
- A. Ramon Magsaysay B. Diosdado Macapagal
182. Which follows Pres. Garcia's "Filipino First Policy"? Filipinos
- A. Should be selective in the entry in the entry of foreign professionals in the country
- B. Were to be given first preference in all matters related to the economic development of the country
183. In the Philippine history, who was known as "The Great Dissenter"?
- A. Claro M. Recto B. Manuel Roxas
184. The military provinces that were unpacified during the Spanish period were called:
- A. Corregimientos B. Alcaldia
185. He established the tobacco monopoly during the Spanish era:
- A. Jose Basco B. Rafael Izquierdo
186. During the Spanish period, it refers to the privilege of the provincial governor to engage in trade:
- A. Corregimientos B. Indulto de comercio

187. The first Filipino who led a revolt against the Spaniards is:
- A. Raja Lacandola B. Raja Humabon
188. Which Katipunan member commuted from Cavite to Manila to buy materials used to make ammunitions?
- A. Teresa Magbanua B. Agueda Esteban
189. Who first used the name "Filipinos" considering that native Filipinos in the Philippines were simply called "indios?"
- A. Natives of pure blood of islanders
B. Creoles (Mixed Hispanic Filipino blood)
190. The public announcer of the barangay to announce the promulgation of the new rules and regulations:
- A. Umalohokan B. Judicial
191. The term that refers to the class of Filipinos who were free and independent:
- A. Timawa B. Maharlika
192. The secret society Jose Rizal established designed to promote civic and patriotic education among the Filipinos:
- A. Propaganda B. La Liga Filipina
193. When the Filipino reformists asked for the assimilation of the Philippines by Spain, what did they ask for? For the Philippines to _____.
- A. Become independent from Spain
B. Become a province of Spain
194. Ang tawag sa mga Pilipinong pumupunta sa ibang bansa upang magsimula ng HIMAGSIKAN laban sa mga dayuhan?
- A. Pilibustero B. Dayuhan

95. Is an economic policy in the 16th century in Europe that influenced Spain's expansionist policy to discover new lands:
- A. Colonialism B. Mercantilism
96. What factor was a major cause of both World War I and World War II?
- A. The spread of Marxian ideas into Europe
B. The rise of totalitarian fascist states
97. The measurement of the total value of a country's economic production:
- A. Per capita income
B. Gross National Product (GNP)
98. In economics, _____ is a rise in a general level of prices of goods and services in an economy over a period of time.
- A. Mercantilism B. Inflation
99. Stagflation occurs when the economy experiences _____.
- A. Falling prices and rising output
B. Rising prices and falling output
100. The theory that population increases by geometrical ratio while the means of subsistence increases by arithmetical ratio is attributed to?
- A. Thomas Robert Malthus
B. Emile Durkheim
101. Violation of human rights is a violation of the _____ of persons.
- A. Dignity B. Freedom
102. Which of the following state is the right to human dignity?
- A. Honor and reputation
B. Political independence

03. Under the 1987 Constitution, which among its' basic principles embody the sociological aspects of life?
- A. Separation of State and Church
 - B. Recognition of Family as a basic social institution
04. The following are our constitutional rights EXCEPT to:
- A. Free access to legal assistance which shall not be denied due to poverty
 - B. Have access to all records of the government
05. According to the Bill of Rights, private property shall not be taken for public use without _____.
- A. A notarized deed of sale
 - B. Just compensation
06. Which is an unlawful act of escaping from payment of taxes?
- A. Exemption
 - B. Evasion
07. To govern is to rule and the government rules by laws. Whose main duty is the enforcement of laws?
- A. Legislative department
 - B. Executive department
08. A losing senatorial candidate may file a protest against the winner. What body will assume jurisdiction over the case?
- A. Electoral Tribunal
 - B. COMELEC
09. What term best characterize a peaceful community?
- A. Harmony
 - B. Spirituality
10. The third and last military governor of the Philippines was:
- A. Gen. Wesley Merritt
 - B. Gen. Arthur MacArthur

11. Who was the American president who proclaimed the Benevolent Assimilation policy during the American colonial years of the Philippines?
A. William Mckinley
B. Theodore Roosevelt
12. Who among our Presidents promised to "make this country great again?"
A. Marcos
B. Magsaysay
13. Who among the presidents changed the date of our celebration of Independence day from July to June 12?
A. Diosdado Macapagal
B. Carlos Garcia
14. The Father of Philippine Democracy and Philippine Army Special Forces.
A. Guillermo E. Tolentino
B. Fidel V. Ramos
15. He is known as the "Little man" of the Philippines:
A. Arroyo
B. Magsaysay
16. In whose presidency was the famous miracle rice produced?
A. Fidel Ramos
B. Ferdinand Marcos
17. This is the newest department which was created under the administration of President Noyoy Aquino:
A. National Telecommunications Training Institute
B. Department of Information and Communications Technology
18. With the opposition of the parity rights in mind, who does NOT belong to the group?
A. Manuel Roxas
B. Pedro Taruc

119. Who is the first African president of South Africa and leader of the African National Congress who fought for the abolition of apartheid in his country?
- A. Nelson Mandela B. Martin Luther King
120. Which type of government do we have when few privilege class rules as a people?
- A. Oligarchy B. Artistocracy
121. A society cannot exist without a government. Which word is synonymous with government?
- A. Domination B. Authority
122. A policy that controls taxes and government expenditures:
- A. Monetary policy B. Fiscal policy
123. The social science that analyzes the production, distribution and consumption of goods:
- A. Economics B. Political Science
124. When one controls the supply/production of goods, this implies:
- A. Inflation B. Monopoly
125. What does "capital" in economics refer to?
- A. Profit and labor spent for the business
B. Money/machines invested to transact business
126. Gross Domestic Product is the sum of the market value of the _____.
- A. Final goods and services
B. Interior goods and services

227. Which economic system is based on free enterprise?
- A. Globalism B. Capitalism
228. Which is a safeguard against unfair trade practices like short-weighting?
- A. Consumer vigilance
B. Substandardization

451. Find the GCF of 18 and 36:
- A. 18
 - B. 12
452. Find the LCM of the numbers 18, 24 and 54.
- A. 192
 - B. 216
453. Three or more points that lie on a single straight line:
- A. Coplanar points
 - B. Collinear points

454. The following are the scores of students on their math examination: 91, 80, 90, 81, 88, 85 and 87. What is the media of the group?
- A. 88 B. 87
455. The grades in Mathematics of the students in Section A are as follows: 80, 75, 60, 95 and 100. What is the range of their group?
- A. 60–100 B. 80–95
456. 40% of 35 is what percent of 140?
- A. 10% B. 14%
457. Each bag of rice contains 50 Kg. What would be the increase in the price if the cost of one bag of rice goes from P950.00 to P1200.00?
- A. P250.00 B. P7.50
458. The hypotenuse of a right triangle is 25 feet. If one leg is 24 feet, what is the length of other other leg?
- A. 7 ft B. 15 ft
459. What are the prime factors of 273?
- A. $2 \times 3 \times 13$ B. $3 \times 7 \times 13$
460. Factorize: $2x^2 + 7x - 15$
- A. $(x - 5)(2x + 3)$ B. $(x + 5)(2x - 3)$
461. Simplify: $[(3x - 12) / (3x)]$ divided by $(x - 4)$
- A. $3x$ B. $1/x$
462. Simplify $(3x - 9) / (x^2 - 9)$
- A. $3 / (x - 3)$ B. $3 / (x + 3)$

463. In the series of graphs, what is presented by rectangles?
- A. Line graph B. Bar graph
464. A ball is drawn at random from a box containing 6 red balls, 4 white balls and 5 blue balls. Find the probability that it is white:
- A. $\frac{4}{15}$ B. $\frac{4}{5}$
465. What is the probability of getting a multiple of 3 when a die is tossed?
- A. $\frac{1}{6}$ B. $\frac{1}{3}$
466. Three fourths of the participants in a regional training program are from private universities. Two-thirds of these are from Teacher Education Institutions. If there are 96 participants, how many of them represent private Teacher Education Institutions?
- A. 48 B. 72
467. Mrs. Santos borrowed from a friend P50,000 at 5% interest per month. She contracted the loan in December 2015. How much will she pay after a year?
- A. P80,000 B. P100,000
468. Clara Ramos works as sales clerk. She is paid a salary of P3,000.00 a week plus 2% commission on sales over P4,000.00 Find her gross pay for a week in which her sales are P9,500.00
- A. 3,210.00 B. P3,110.00
469. Regala Company manufactures beds; in its catalogue, a double bed is at P5,000.00 less a discount of 20% what will Rizza have to pay for the bed she ordered?
- A. P4,150.00 B. P4,000.00
470. There are 120 freshmen in the group of 300 students. How many percentage of the group are freshmen?
- A. 45% B. 40%

479. Which is the length of the hypotenuse of a right triangle with legs 5 inches and 12 inches?
- A. 11 inches B. 13 inches
480. The edges of a cubical framer are made of plastic straws. How much longer is the total length of the plastic edges of a cube whose edge is 10 cm compared to a cube whose edge is 8 cm?
- A. 32 cm B. 24 cm
481. Which of the following is not true about the sum of two consecutive odd integers?
- A. It is always divisible by 4
B. It is divisible only by 12
482. It takes 20 men to build a house for 60 days. How many men will be needed to build one in only 15 days?
- A. 80 B. 100
483. What is the amount at the end of 4 years if P90,000 is invested at 12% simple interest?
- A. P133,200 B. P152,500
484. The readings on a water meter in April and May are 417.8kl and 430.4kl. if there is a basic charge of 23 pesos and the cost per kl is 20 pesos, how much is the billing for water consumption between the two months?
- A. P272 B. P275
485. A map is drawn to scale such that 1.5 cm on the map corresponds to 75km in actual distance. How many cm on the map would represent the distance between the two towns which are 270 km apart?
- A. 2.7 cm B. 5.4 cm

494. One angle of a parallelogram is 35° . What are the measures of the three other angles?
- A. $145^\circ, 35^\circ, 145^\circ$ B. $85^\circ, 135^\circ, 140^\circ$
495. Which of the following gives the numerical value of the population?
- A. Parameter B. Statistics
496. It can be used to show the progress in academic grades over four quarters.
- A. Bar graph B. Line graph
497. The grades in Mathematics of the students in section A are as follows: 60, 75, 60, 95, 100. What is the population standard deviation of their group?
- A. 16.91 B. 14.97
498. The grades in Mathematics of the students in section A are as follows: 80, 75, 60, 95, 100. What is the population variance of their group?
- A. 230 B. 206
499. The grades in Mathematics of the students in section A are as follows: 60, 75, 60, 95, 100. What is the population standard deviation of their group?
- A. 16.91 B. 14.97
500. How many square inches are in 1 square yard?
- A. 1296 B. 648

Under the law, what should be the legal prerequisite for a teacher to be hired in a school?

- A. Submission of all the teaching requirements
- B. Pass the LET

What is basic feature of the latest Performance Appraisal System for Teachers (PAST)?

- A. Competence-based
- B. Practice-based

Among the different categories of teacher's behavior, how will one classify the behavior of a teacher who goes from one lesson to another having no direction or proper sequencing?

- A. Flip-flop
- B. Dangle

What is the most appropriate strategy that Teacher Toni should use if his goal is to generate ideas in planning a sports competition activity?

- A. Brainstorming
- B. Simulation

Which is true when the students test results standard deviation is large?

- A. Scores are more spread
- B. Scores are clustered together

A test can measure what a teacher wants to measure when the test is _____.

- A. Reliable
- B. Valid

In reference to Plato's philosophy, what does "contemplative use of the mind" mean?

- A. Introspective
- B. Creative

What type of education can best prepare the global teacher towards limitless and boundless world?

- A. Academic curriculum
- B. Multi-cultural education

9. Parents and teachers are considered as authorities and models by children at the early childhood stage. What does this statement imply?
- A. Teachers and parents should serve as role models at all times
 - B. Parent-teacher conference should always be an activity in school
10. Children's interests are generally largely dependent on their experiences. Which of the following is an implication of this statement?
- A. The curriculum should provide vital experiences if the school must use its opportunities to develop interest
 - B. A large part of the subject matter has to be easy if they are to be interesting and within the learner's experience
11. The child's concept of right and wrong is based on external criteria laid down by adults during the stage of pre-conventional morality. This is based on the ideas of _____.
- A. Kohlberg
 - B. Piaget
12. When the daughter is competing with the mother for the father's attention, the daughter is said to be experiencing _____.
- A. Electra complex
 - B. Oedipus complex
13. Allan's mother noticed that her son always wants to get her attention and is jealous of his father. Denzel then can be classified under what psychoanalytic stage of development?
- A. Genital
 - B. Phallic
14. "The control and the administration of all educational institutions shall be vested in the citizens of the Philippines" is stipulated in _____.
- A. P.D 1006
 - B. 1987 Constitution

15. A student collapsed in her Social Studies class. It was found out that she did not eat her lunch. What principle is shown in this situation?
- A. Physiological Need B. Safety Need
16. Education is a life long process. This simply means that education:
- A. Is a continuous process of experiencing and reorganizing experiences
B. May take place formally or informally to enable the individual to grow
17. These are some of the motivational theories. Which of these theories views the consequences of behavior as regulator and controller of an individual's action?
- I. Humanism
II. Cognitivism
III. Behaviorism
- A. III only B. II and III only
18. Which of the following refers to the repetition of facts and skills which the teacher wishes to reinforce for mastery?
- A. Drill B. Mastery
19. Which of the following belongs to the more sophisticated learning-to-learn skills for the individual learner?
- A. To ask and gather data
B. To process and select information
20. As a manager of the learning situation, the teacher is responsible for the setting up of a physical environment that is most conducive to learning. She could see to it that:
- A. The efficiency with which time and energy are spent on the part of the students and the pupils are considered.
B. The lighting and ventilation of the room and flexible arrangement of equipment are relevant to the type of activity being pursued.

21. Inquiry lessons require the use of questions in instructing the learner to analyze; interpret and draw conclusions from data gathered. Which type of questions ask for additional data on application of principle?
- A. Leading questions B. Probing questions
22. Mr. Dichoso is preparing for his afternoon class. Which of these criteria should be her primary consideration in his choice of instructional devices?
- A. Appropriateness B. Availability
23. Setting up criteria for scoring essay test is meant to increase their _____.
- A. Validity B. Objectivity
24. Of the following types of tests which is the most subjective in scoring?
- A. Matching type B. Essay
25. It refers to the process of evaluating a single test items by any of several methods. It usually involves determining the difficulty, and the discriminating power of the item, and often its correlation with some criterion.
- A. Item analysis B. Factor analysis
26. The distance of the scores from the mean is called _____.
- A. Deviation B. Range
27. The crude mode is the _____.
- A. Score with the highest frequency
B. Standard deviation

28. Mrs. Soriano was scheduled to give demonstration one morning, but her husband needed her presence in his office. What should she do under these circumstances?
- A. Send her lesson plan to her co-teacher who can substitute for her
 - B. Arrange her schedule so that she can be with her husband immediately after her demonstration.
29. Happiness is different from pleasure in being an abiding consequence of result which is not destroyed even by the presence of pain. The best illustration of this principle is:
- A. A student topping the board exam
 - B. A mother giving birth
30. As a parent and at the same time a teacher, which of the following will you do to show your cooperation to a PTA project in your school to be financed with the proceeds of the sales from the school canteen where food prices are a little bit higher?
- A. Bring baon for you and your children but always make it a point to buy something from the school canteen
 - B. Bring baon enough for you and your children even if you really do not like to do it
31. Which of the following situations will manage conflicting situations to bring out values enhancing nationhood?
- A. A Filipina beauty queen candidate for a world title tried to imitate native English speakers in answering questions
 - B. Conchita gifted her British visiting friend with native bags, sandals and hand-embroidered blouse
32. When a teacher practices professional ethics, which of the following he is not likely to do?
- A. Shares an outstanding outcome of an undertaking with others
 - B. Engages in gossips

13. A teacher can best help a withdrawn child to assert himself and win the respect of his classmates by:
- A. Giving him opportunity to show his talents
 - B. Providing him leadership roles
14. Garbage disposal has become a serious problem in your community. Garbage are scattered, and flies are feasting on it. As a teacher, which of the following will be your priority:
- A. Create a desire among your students to clean the community as an outcome of your lesson
 - B. Start a campaign to put up a covered garbage can in every home
15. Pick out the teacher-student relationship that was violated when Miss Suli gave Christine a grade of 75% in her Science class due to poor conduct?
- A. A teacher should not make deductions on pupil's scholastic ratings for acts that are not manifestations of poor achievement
 - B. Maintain an instructional program that stresses a traditional academic education.
16. Mr. Lugto, an incoming mayor, is interested to know where to focus his attention relative to human rights violation in his town. He requested you to conduct the survey. What human right was violated in a war of aggression?
- A. Right to own property
 - B. Right to life
17. Freedom and authority are not antagonistic, moreover, freedom is the legitimate offspring of authority." Which of the following situation best illustrate the above principle?
- A. Parents and teachers personifying authority and discipline
 - B. Children learn freedom by being inhibited in their conduct

38. According to John Dewey, "Education is a continuous process of experiencing and revising or reorganizing experiences. This means that education _____.
- A. Takes places formally or informally to enable the individual to grow
 - B. May take place anywhere and anytime the individual desires
39. Which of the current classroom practices is influenced by Skinner's Operant Conditioning?
- A. Connection between stimulus and response
 - B. Reinforcement of correct practices
40. The primary objective of bilingual education is to prepare learners to be:
- A. Globally competitive
 - B. Proficient in Filipino and other foreign language
41. "All learning is bond-connecting." Which of the following is this principle not applicable?
- A. Reflexes
 - B. Skills
42. What is the most important principle that a teacher should follow in initiating a program of positive reinforcement?
- A. Provide regular opportunities for socially-acceptable behavior
 - B. Reward should come immediately after appropriate behavior
43. Which thrust on values formation is intended to help the students identify and be aware of their values?
- A. Values clarification
 - B. Moral development
44. Which statement holds true to values clarification?
- A. Values are independent of time, place and persons; is meant to help students get at their own feelings and ideas
 - B. No person has the right set of values to pass on to others; is meant to let the students understand their own feelings, ideas and beliefs

45. Free public elementary and secondary education is in line with the government's effort to address educational problems of _____.
- A. Relevance and quality B. Access and equity
46. For Freud, the primary motivation for human behavior is sexual in nature, while for Erikson, it is _____ in nature.
- A. Social B. Cultural
47. Individual differences, when recognized early, will enable the teacher to provide different motivations and approaches in guiding the learning process. Each learner differs physically mentally, socially, and emotionally. Unless the teacher provides for these differences, no amount of modern approaches in teaching can produce favorable results. This paragraph emphasizes that _____.
- A. Individual differences are an important factor in guiding the learner
B. It's the nature of learning process
48. Stage where children consider parents and teachers as authorities and models:
- A. Period of morality by constraint
B. Post-conventional morality
49. The human evocative approach and the 4A's end with _____.
- A. Application B. Adaptation
50. Modifying an existing scheme after an individual's interaction with the environment, resulting in the creation of new scheme:
- A. Accommodation B. Assimilation
51. Theory stating that a person's behavior can be motivated by urges towards self-satisfaction.
- A. Psychoanalytic theory B. Psychosocial Theory

52. The ability of a child to conceptualize the retention and preservation of the same quantity under various changes.
- A. Conservation B. Assimilation
53. Refers to the idea that no individual is exactly the same or alike:
- A. Exclusivity theory B. Individual Differences
54. He is known as the Father of Modern I.Q test:
- A. Lewis Terman B. Martin Lesley
55. A teacher who advocates the pragmatic philosophy of education believes that experience should follow learning, thus, she has to _____.
- A. Equip her students with basic skills and abilities
B. Provide her students with opportunities to apply their skills and abilities
56. Any change in the behavior of an individual:
- A. Learning B. Development
57. This stimulation of action best explains the behavior of an individual to take what he perceives to be the shortest route to his goals.
- A. Recognition B. Motivation
58. Philosophy of Education's main function:
- A. Definition of goals and setting of directions from which education is to strive
B. Education carries on a lifetime cycle
59. According to Froebel, kindergarten is also known as _____.
- A. Garden for children to play and learn
B. The learning center for life

60. Which of the following statements is given emphasis by "humanistic education?"
- A. Man should learn the different philosophies of education
 - B. "Build a man who is distinctly civilized, educated, and refined."
61. Which of the following is mandated by the 1987 Constitution with regards to Education?
- A. Free education for both elementary and secondary levels and compulsory elementary education for all children of school age
 - B. Nursery and Kinder is required before elementary
62. Which of the following educational measures embody the policy "Return to the Basics?"
- A. K-12 Education Program
 - B. New Elementary School Curriculum (NESC)
63. Reason why John Dewey, during the American Period, proposed the transformation of the public school systems.
- A. He recognized the essence of change and innovation to promote progress
 - B. The traditional academic education did not serve the ideals of democracy
64. How does an adolescent perceive his environment when he combines his inductive and deductive reasoning ability in realistic rules that he can respect and live by?
- A. He sees the world through the eyes of other people
 - B. He views events as detached from himself and other people
65. The ability to perceive how objects are related in order to mentally perceive what is seen, thus creating concrete visual images from memory.
- A. Visual-spatial intelligence
 - B. Mathematical-logical

66. He is responsible for the theory which recognizes the importance of developing multiple intelligences:
- A. Howard Gardner B. Frederick Froebel
67. An emerging thrust in determining one's personality, whether pleasant or unwholesome; one's virtues, i.e. values, relationships, adjustments to varying situations, behavior and motivations:
- A. Emotional Quotient (EQ)
B. Multiple Intelligence
68. It is the measurement of personality which is the result by dividing the mental age by the chronological age.
- A. Intelligence Quotient (IQ)
B. Anticipated Behavior
69. One's ability to do abstract reasoning and manipulate symbols refer to what type of intelligence?
- A. Spatial Intelligence B. Mathematical-logical
70. The right of an educational institution and its faculty to prescribe the methods/strategies of teaching refers to _____.
- A. Choice of curriculum
B. Academic freedom
71. Public schools in the Philippines are the contribution of which colonizer?
- A. American B. Spanish
72. The ability for quantitative learning of the relations of facts taken from newspaper readings, letter-writing, and the like is called _____.
- A. Functional literacy B. Social competence

73. A good indication that effective management in classroom exist when _____.
- A. There is minimum teacher control
 - B. Students come in and out in orderly manner
74. Respect for honest differences of opinions is one objective of _____.
- A. Self-actualization
 - B. Human relationship
75. If a student asks a question which the teacher do not have a ready answer, the latter should _____.
- A. Admit that he does not know the answer
 - B. Ask volunteers to answer the question and do research on it later
76. When students are given a chance to settle differences of opinion by discussion, they develop _____.
- A. Tolerance and acceptance
 - B. Camaraderie and fellowship
77. The school's responsibility towards teenagers' "gang age" is _____.
- A. Give classroom activities to give directions to teenagers
 - B. To set up norms of conduct for the members of the gang
78. The goal of good teaching is to direct learning activity so that the learner _____.
- A. Reaches the level of achievement for the grade
 - B. Reaches the level of achievement which is possible within the limits of his ability

79. Through the proper use of multi-sensory aids, a learner may live realistically and vicariously in places remote from his immediate environment. These attest to the value of these aids to _____.
- A. Enlarge one's environment
 - B. Contribute to greater retention of learning
80. It is the most relevant characteristic/attribute of the daily lesson plan in an integrated activity program:
- A. It is flexible
 - B. It is specific
81. The best way to eliminate the plateau in the learning curve is to?
- A. Have better-spaced rest periods during learning
 - B. Use different situations in the learning process
82. Lesson plans should be written to:
- A. Make it possible for lessons to be checked for completeness and adequacy
 - B. Assure a logical approach to the lesson being followed
83. The primary purpose of questioning as a teaching technique is to?
- A. Determine the extent of the learner's acquired knowledge and skills
 - B. Stimulate the student to think
84. Which of the following principles highlights that of Multiple Intelligence?
- A. People have different intelligence quotient level
 - B. Intelligence is measured in multiple forms
85. The K-W-L Strategy performs the following functions except?
- A. It activates previous scheme
 - B. It encourages the learner to interact with the text

86. What principle in learning provides various learning activities and teaching methods to meet diverse needs and interests of the learner?
- A. Multiple Intelligence B. Cooperative learning
87. Teacher Joan discovered that her pupils are weak in reading comprehension. What test should she give her pupils to determine what particular skills they're weak at?
- A. Diagnostic test B. Aptitude test
88. Which of the following statement is FALSE as to the normal curve in the assessment of learning?
- A. The normal curve is sacred. Teachers must adhere to it no matter what
B. The normal curve may not be achieved when every pupil acquires targeted competencies
89. What benefit is derived from the use of performance objectives?
- A. As a solution to class management problems
B. Student achievement is easily measured
90. Theory that encourages students to use their own experiences as a pre-reading strategy to predict and evaluate the problems and actions of the characters.
- A. Metacognition B. Scheme
91. Fatima has difficulty rightly solving a geometry problem. Suddenly, she "Saw" how to solve the problem. What explains this phenomenon?
- A. Memory B. Retention
92. Several groups of learners are provided a reading material of varying levels of difficulty. What learning principle is implemented by this method?
- A. Utilization of an individual's need to achieve
B. Assistance to each student to attain goals

93. Which of the following indicates the view that effective development could be secondary to a significant task?
- A. Understanding the causes of student's behavior
 - B. Providing activities that are exciting to learners
94. Which of the following best illustrates the provision of Facilitative Instructional Feedback by the teacher?
- A. Grading the students "pass" or "fail" on their work and requesting those who failed to repeat their work
 - B. The teacher watching the learner do their work, praising those who did it right and showing others how to correct their use of faculty procedure
95. Which is the LEAST valuable way for a teacher to present a new lesson?
- A. Develop an overview of the subject
 - B. Hand out a step-by-step outline of the lesson
96. Grades become valid indicators when:
- A. Giving objective type of tests
 - B. Course objectives are defined as intended learning outcomes
97. The main reason for the use of remedial teaching is?
- A. Provision for more opportunities to repeat what was taught to enhance better mastery
 - B. Will allow the student to seek the proper procedure to learn what was taught
98. The best instructional program that would enhance the academic achievement of the students considering their differences in interests, abilities, needs, and learning style at any given point in time.
- A. Adaptive instruction
 - B. Experimental instruction

99. A statement of objectives, learning experience, and the means of attaining results of teaching is called:
- A. Lesson plan B. Outcomes
100. A method of teaching which aptly applies to lessons needing experiments is called:
- A. Problem-solving B. Laboratory
101. The law of exercise is aptly applied in a:
- A. Review lesson B. Drill lesson
102. What recent technique of teaching calls for an acting out of a situation where the participants aim to uncover a problem of great importance to the class?
- A. Debate form B. Role playing
103. What technique of in-service training for teachers involves the identification and solution of common problems by them through live-in sessions, conferences and speeches of consultants?
- A. Workshop B. Seminar
104. The stimulus-response theory of learning which involves the association between a conditioned stimulus and a response thru the repeated presentation of the stimulus was advocated by whom?
- A. Ivan Pavlov B. Burrhus Skinner
105. A part of daily lesson which serves as a carry-over for the next day of what has been presented is the:
- A. Review B. Assignment/agreement
106. The proper handling of the physical condition and instructional materials in the classroom to effect learning refers to:
- A. Teaching method B. Classroom management

113. Eddie helps students determine the right pronunciation and meaning of words by analyzing roots, affixes, and its derived forms. This process is called?

- A. Structural analysis B. Contextual analysis

114. Judy Ann aged 9 was transferred from her class for frequent fights with other pupils. She also has frequent tantrums, short attention span, and refused to be disciplined. She might be a case of?

- A. Having learning disability
B. Attention Deficit and Hyperactivity Disorder

115. Proper selection is the first concern of the teacher who plans to use some audio-visual devices. What criterion should the teacher consider?

- A. Suitability of the materials for the purpose
B. Availability of the materials for the intended purpose

116. Being a teacher, you are looked up to as a leader in the community. What would you do if the Barangay Captain seeks your advice on some important matters?

- A. Inform the Barangay Captain that you still need to get permission from the Principal before you can help
B. Discuss with the Barangay Captain how you can be of best help to him

117. Teacher Ruben uses the direct instruction strategy. Which sequence of steps will she follow?

- I. Independent Practice
II. Feedback and Correctiveness
III. Guided student practice
IV. Presenting and Structuring
V. Reviewing the previous day's work

- A. V-II-IV-III-I B. V-IV-III-II-I

118. You wanted your students to develop comprehension skills. In what order of skills must you develop?
- I. Literal Comprehension
 - II. Interpretation
 - III. Critical Evaluation
 - IV. Integration
- A. II-III-I-IV B. I-II-III-IV
119. Teacher Kathy is seen by her students as someone who has the mastery of what she is teaching. She, therefore, has:
- A. Legitimate power B. Expert power
120. It is the first step in managing off-task behavior and is manifested by the clearing of the throat to show disapproval or putting of index finger in the front of the lips to signal silence.
- A. Direct appeal B. Signal interference
121. Teacher Arnold invited several speakers to shed light on the topic of Disaster Management and Risk Reduction. This technique is known as:
- A. Open forum B. Panel discussion
122. SQ3R means:
- A. Sample, Questions, Read, Retain, and Review
- B. Survey, Question, Read, Recite, and Review
123. Teacher Nebur, a science teacher, wants to show a close representation of the size and shape of earth and its location in relation to the planets of the Solar System. This is best shown by:
- A. Picture B. Modeling
124. This curriculum concept includes the processes of planning, organizing, implementation, and evaluation.
- A. Curriculum development
- B. Curriculum management

125. What part of curriculum will the experience of the students in school be evident?
- A. Curriculum Implementation
 - B. Curriculum Assessment
126. A small group of students usually 3-6 persons discussing or solving a problem.
- A. Buzz Session
 - B. Group Dynamics
127. Teacher Prince wants his students to use higher order thinking skills, that is to think more creatively. He should thus, ask more _____ questions.
- A. Convergent
 - B. Divergent
128. Bernice performed better in English than 90% of her classmates. What does it mean?
- A. Bernice got a score higher than 90% of her classmates.
 - B. Bernice answered 90% of the test.
129. Which situation points to criterion-referencing?
- A. Iah's score is the 98th percentile of the batch
 - B. Vanessa types 40 words per minute without making more than 3 errors/page
130. The most important criteria in test construction:
- A. Preparation of Table of Specification
 - B. Congruency of items with the objectives
131. Which type of test can assess a student's ability to organize and express his ideas?
- A. Completion
 - B. Essay
132. Which of the following measures is more affected by an extreme score?
- A. Mean
 - B. Median

142. Which of the following is an important duty of a teacher?
- A. Evaluating pupils' progress
 - B. Safekeeping of the properties of the school
143. In scoring essay test, which of the following is not a good practice?
- A. Write comments and correct errors on the answers
 - B. Accept all answers written by the test takers
144. Which of the following is not an objective type of teacher-made test?
- A. Multiple-response
 - B. Essay test
145. The test results in this type of test are compared with an absolute standard. They indicate whether or not a student needs more or less help on certain skills.
- A. Criterion-referenced test
 - B. Norm-referenced test
146. A test where the results are obtained from a large group. The evaluation is based on certain norm or standard set; hence, the norm becomes the basics of the test evaluation.
- A. Criterion-referenced test
 - B. Norm-referenced test
147. For lesson objectives of the Teacher to go beyond the development of his students' higher order training skills, he must conduct:
- A. Application
 - B. Analysis
148. When a Teacher construct a Table of Specifications, the Student can be assured that the tests has:
- A. Content Validity
 - B. Reliability

149. Teacher Bernadette, in her conduct of Item Analysis, found out that a significant number of the class' upper group got test items #20 and #26 correctly. What does it mean?
- A. Test items have negative discriminating power
 - B. The test items have positive discrimination power
150. Bernardo has a problem of frequent absences and tardiness in submitting class requirements. This could be a result of?
- A. Low level of aspiration
 - B. Lack of motivation
151. A child develops self confidence if?
- A. He is praised and acknowledged of his good deed
 - B. He is treated justly and fairly
152. It refers to a counselor's prediction of the client's future developments.
- A. Prognosis
 - B. Diagnosis
153. Refers to when the counselor shows that he feels what his client feels.
- A. Assimilation
 - B. Empathy
154. The teacher has a vital role for the young. Which is NOT one of these roles?
- A. Custodian and keeper of the young
 - B. Turn them into diehard politicians
155. In his relationship with his superiors, the teacher should NOT
- A. Engage in gossip mongering
 - B. Expect a promotion that is not meritorious
156. Likewise, the teacher must strive NOT to?
- A. Perform his work conscientiously and religiously
 - B. Arouse the ire and ventilate to everyone his grievances against his superiors

157. It is a sign or mark that learning has taken place in the individual.
- A. Has made an improvement in his behavior
 - B. Applies what he has learned to similar situations
158. A parent come to your room insisting that you talk to him immediately even as you are in the middle of class discussion. What should you do?
- A. Talk to him for a while and tell him to come back after the classes.
 - B. Report the parent to the Principal.
159. One of your students informs you that you have a wrong answer to one of the questions and he is right. What should you do?
- A. Accept that you are wrong but reprimand him.
 - B. Accept that you are wrong, and thus thank him for the correction.
160. In Piaget's theory of Cognitive Development, students are provided with varied activities that will enable them to classify objects using more than one variable, ranking items in order or logical series and understand facts. These activities are expected to be performed in _____.
- A. Concrete operational stage
 - B. Pre-operational stage
161. Children learn by following a role model who is usually older than them according to Social Learning Theory. Thus, if we want children to treat each other with respect and dignity, we must show them. This behavior is likely to be demonstrated by children because:
- A. They are easily threatened to follow
 - B. They learn best by observing and imitating a role model
162. Students are most likely to perform their best because they are aware of being observed and are expected to perform well. This is called:
- A. Hawthorne Effect
 - B. Rosenthal Effect

163. This intelligence is characterized by having the ability to socialize with different kinds of people:
- A. Congenial B. Interpersonal
164. Using Bloom's Taxonomy, the highest among the following is:
- A. Integration B. Critical Evaluation
165. Sir Tony called the attention of Rene for not "listening attentively." As a result, the entire class gave attention to the teacher. This phenomenon is explained by:
- A. Ripple effect B. Halo effect
166. Children afflicted with ADHD have limited learning skills because:
- A. They act on impulse and have short attention span
B. They have slow mental development
167. Parents, because of being overly concerned, commonly commit the mistake of:
- A. Unintentionally create high levels of stress upon their children
B. Attempting to protect their children from undue stress
168. According to Erikson, when a person fails to develop a consistent identity, this usually results in:
- A. Isolation B. Role confusion
169. In what stage is the role of teachers, peers and adults outside the home very important in shaping the child's attitude towards self?
- A. Initiative versus guilt
B. Industry versus inferiority
170. According to Kohlberg, the correct order of moral development is:
- A. Pre-conventional, conventional, and post-conventional
B. Self-interest, social, and post-ethical

171. Albert Bandura proposed a theory commonly known as _____ which primarily puts emphasis on modeling.
- A. Social Learning Theory
 - B. Moral Development Theory
172. According to BF Skinner, using reinforcement is the best example of:
- A. Conducive environment
 - B. Operant conditioning
173. A child receives a star as reward for correctly answering his seat work. The child will always try to accomplish all tasks correctly for he looks forward to receiving a reward again. This activity shows _____.
- A. Classical conditioning
 - B. Operant conditioning
174. It allows the teacher to control misbehavior without disturbing the class by applying planned ignoring, signal interference, and proximity control. This is called:
- A. Managing surface behavior
 - B. Tolerance
175. Type of learning that involves the assimilation of values, emotional reactions and acquisition of attitudes.
- A. Affective learning
 - B. Psychosocial learning
176. Using Edgar Dale's Cone of Experience, which of the following activity is nearest to reality?
- A. Attending exhibits
 - B. Watching demo
177. This theory describes the psychological events in terms of information transformation from input to output. It stresses the value of perception, attention, and memory in the learning process.
- A. Kohler's Insight Theory
 - B. Information Processing Theory

187. Among reforms for enhancing teacher professionalism, which has been implemented by law in order to determine whether prospective teachers have acquired professional competencies prior to granting them a permit to teach?
- A. Setting up centered for excellence in teacher education centers
 - B. Licensure examination
188. Which program directly embodies both the pre-service and in-service programs?
- A. BESRA – Basic Education Sector Reform Agenda
 - B. TEDP – Technical Education Development program
189. Which is the language medium of instruction from K to 3 in accordance to RA 10533 or the Enhanced Basic Education Act of 2013?
- A. Language chosen by parents
 - B. Mother tongue of the learners
190. Under RA 10912 or the Continuing Professional Development Act of 2016, how many CPD units are required for the renewal of the teachers' professional ID card of the PIC every three years?
- A. 45
 - B. 40
191. Teacher Joseph showed the whole mark of being an excellent teacher by being able to make out of the box positive changes in the curriculum. As a curricularist, he is an _____.
- A. Innovator
 - B. Initiator
192. In OBE, assessment of learning should match with _____.
- A. Learning content
 - B. Learning Outcomes
193. Does quarterly assessment have the same weight for all the subject areas in Grades 11 and 12?
- A. No
 - B. It depends on schools

201. Teacher Mark makes sure that he checks understanding to ensure that the students are following the lesson. Of what part of assessment is she occupied with?
- A. Assessment of learning
 - B. Assessment for learning
202. What type of portfolio is displayed when teachers want to see the penmanship skills of his students at the beginning, middle, and after the school year?
- A. Development portfolio
 - B. Showcase portfolio
203. What should be done with test item whose difficulty index is .95?
- A. Retain it
 - B. Reject it
204. What is the overall stream for education, growth, and fulfillment in the teaching profession?
- A. Merit and promotion
 - B. Lifelong career
205. A teacher introduces herself as teacher only. What does this imply?
- A. She must have been forced to pursue a career in teaching.
 - B. She takes no pride in the teaching profession
206. Of goals of education, which relates to the strengthening of our society's sense of belonging and identity?
- A. Citizenship
 - B. Moral character
207. In Piaget's Concrete-Operational Stage in cognitive development, which refers to the ability of the child to perceive different features of objects and situations, e.g, toughness in stone, elasticity in rubber, etc.?
- A. Reversibility
 - B. Decentering

208. What is being shown by teachers who ignore slow-learners and take pride in the work of fast learners?
- A. Hurling Invectives B. Discrimination
209. Among thinking skills in learning, what includes fluent, flexible, original, and elaborate thinking?
- A. Divergent thinking B. Convergent thinking
210. In Grace Godell's Skill Ladder, which step should come last, and only when needed?
- A. Using the dictionary B. Using phonetic analysis
211. Which of the following does not belong to the meta-cognitive reading activities?
- A. Predicting B. Perceiving
212. Tests should be non-threatening, but which of the following actually threatens students?
- A. Surprise quiz B. Scheduled exam
213. What kind of assessment helps teachers determine gaps in learning a subject matter?
- A. Formative assessment B. Placement examination
214. Of the following subjects, which does not belong to performance-based subjects in which direct instruction is effectively used?
- A. Music B. Values Education
215. Which of the following best describes creativity?
- A. Imaginative B. Inspired

216. Of the types of validity for tests, what reflects the knowledge and skills in the program of studies?
- A. Curricular validity B. Criterion validity
217. What is a scoring guide that lists the criteria and their levels of quality on which evaluation will be focused?
- A. Portfolio B. Rubric
218. Teacher Ronnel acts like a class manager, not a disciplinarian. Which of the following did he avoid doing?
- A. Relax discipline early in the first weeks, being more tight later
B. Establish pattern of disciplinary early in the first weeks of school
219. What is aroused among viewing learners by dramatic educational films in what is known as "cliff hangers?"
- A. Satisfaction B. Expectancy
220. Among the following, which directly qualifies the teacher candidate to be registered at par with other professions like medicine, law, nursing, and the like?
- A. Licensure examination
B. Continuing professional education
221. Under R.A 7722, or Higher Education Act of 1994, which agency has direct supervision and management of teacher education institutions or colleges of education in the country?
- A. Commission on Higher Education
B. Department of Education
222. Teacher Michael has been teaching for 7 straight years and therefore qualifies for a study leave with pay for one year. Should he pursue it, how much pay is he entitled to receive?
- A. 60% monthly salary B. 100% of monthly salary

223. In the new K-12 Program, how many percent is given to Performance Tasks in Mathematics and Science?
- A. 40% B. 60%
224. Teacher Leomar is a constructive teacher who allows his students to use technology tools to build understanding rather than simply information. This level of technology integration is called _____.
- A. Infusion B. Transformation
225. In acquiring language competence, what is the process of attaching meaning to words?
- A. Semantics B. Morphology
226. Teacher Rey would like to compare and contrast plant cell to animal cell. She would most likely use:
- A. Venn diagram B. Fishbone diagram
227. Among models of reading strategies, what did student Ivy adopt when she read back and forth, attending to both what is in her mind and what's on the page?
- A. Interactive B. Top-down
228. What is the first step in Goodell's reading skills ladder?
- A. Basic sight words B. Phonetic analysis
229. Teacher Raymart avoids out of context drills, instead she makes use of real-world problems for her students to solve. This makes Teacher Raymart a/an _____ in approach.
- A. Inquiry based B. Constructivist
230. According to Piaget, which refers to cognitive structures example seeing a dog and forming initial idea of dog?
- A. Accommodation B. Schema

711. The use of drills in the classroom is rooted on Thorndike's law of:

A. Effect B. Exercise
712. Who asserted that children must be given the opportunity to explore and work on different materials so that they will develop the sense of initiative instead of guilt?

A. Erikson B. Kohlberg
713. What explains the tendency of preschool children to focus on an aspect of an object while excluding other aspects?

A. Centration B. Ego-centration
714. In avoiding implying sickness or suffering, which of the following is the most preferable way to refer to those with disabilities like polio?

A. "had polio" B. "polio victim"
715. Which are attributes of a good evaluation instrument?

I. Validity III. Sensitivity
II. Reliability IV. Objectivity

A. I, II, and III B. I, II, III, and IV
716. You are required to formulate your own philosophy of education in the course teaching profession, based on Bloom's revised taxonomy, in which level of cognitive structure or processing are you?

A. Applying B. Creating
717. Among categories of time in classrooms and schools, which refers to the number of days and hours in the school calendar specified by the school and government agencies?

A. Allocated time B. Mandated time
718. The world has become a global village. What sound practice is expected of teachers?

A. Ethnocentrism
B. Respect of diverse cultures

239. Of the following, which is a non-threatening style of disciplining unruly students?
- A. Stand under heat of the sun
 - B. Send to guidance office
240. From classroom management strategies applied on erring students, which of the following should not be done?
- A. Communicating problem to parents
 - B. Shaming erring student before the class
241. What mistake is teacher Chai trying to avoid when she never drops a topic before it is completed?
- A. Dangling topic
 - B. Bounded topic
242. The following are non-verbal behavior by teachers. Which one is an encouraging behavior?
- A. Voice volume shows arrogance
 - B. Stands or sits that shows alertness
243. Among teaching styles, how do you classify teachers who clearly and fairly communicate standards for discipline and performance to student?
- A. Authoritarian
 - B. Authoritative
244. Teacher Joyzee makes sure that she covers the essential subject content, while treating them sufficiency or in-depth. What guiding principle is he following for lesson preparation?
- A. Self-sufficiency
 - B. Feasibility
245. What does the traditional curriculum and mass education lack that the progressive curriculum can deliver?
- A. Value for individualization
 - B. Authoritarian role of the teacher

246. Among cognitive objectives, what refers to the transfer of knowledge from one concept to another?
- A. Application B. Analysis
247. Which aspect of multi-intelligence is enhanced by asking students to work on a physical model of the atom after a teacher's discussion on the subject of the atom?
- A. Interpersonal B. Kinesthetical
248. What is the primary advantage of active learning techniques (discussion, role play, gaming, etc.) in instruction?
- A. Higher order thinking B. Convergent thinking
249. In his speech class, teacher Joan uses poetry dramatic reading by students, using movements (gestures, facial expressions, creative movements, etc). What learning objectives or outcome is he looking for?
- A. Non-discursive communication
B. Reflex Movements
250. In Piaget's Concrete-Operational stage in cognitive development, which refers to the ability to order or arrange things logically on dimension such as weight, volume, or size?
- A. Conservation B. Seriation
251. In Piaget's stages of Cognitive Development, what is the pre-school age in which a child's intelligence is intuitive, able to make mental representation, and close to the use of symbols?
- A. Sensorimotor stage B. Preoperational stage
252. Among components in the instructional framework for learning strategies, which is demonstrated by teacher Algie who worked together with her students on a skill or task and figure out how to apply the skill?
- A. Independent practice B. Guided practice

253. Someone said, "Experience without theory is blind, but theory without experience is mere intellectual play." This means that:
- A. Theory and experience must go hand-in-hand
 - B. One can stand without the other
254. In outcomes-based education, which of the following are not considered outcomes?
- A. Procedures
 - B. Portfolios
255. Which of the following are alternative assessments?
- A. Portfolio, exhibits, journals
 - B. Paper-and-pencil test, demonstration, reports
256. What is the normal curve in the grade distribution of students in a class?
- A. All have average grades
 - B. Most get average grades, few high and low
257. What does it mean if student Roby got a 60% percentile rank in class?
- A. He scored better than 60% of the class
 - B. He got 60% of the test items correctly
258. An entering student in college would like to determine which course is best suited for him. Which test is appropriate for this purpose?
- A. Achievement test
 - B. Aptitude test
259. In using Essay questions, what of the following are these tests susceptible to, such as to make them less reliable measure broad knowledge of the subject matter?
- A. Bluffing
 - B. Guessing
260. Among the opportunities for Essay Questions, which of the following does not provide high-level thinking opportunity?
- A. Synthesis
 - B. Memorization

261. How can schools effectively support out-of-school youths and the unemployed?
- A. Make them parts of PTCAs
 - B. Provide livelihood training
262. What rule should be followed for lighting SPED classroom?
- A. Very well lighted classroom room
 - B. Standard yet adequate
263. How can automated checking help in improving reliability?
- A. Ease in checking
 - B. Objective scoring
264. Using the Likert Method of Summative Scale, what is the mean for scale ratings (10, 7.5, 5, 2.5, and 0)?
- A. 2.5
 - B. 5
265. What is meant by a difficulty index of one (1) for a test item?
- A. Item is extremely difficult
 - B. Item is extremely easy
266. Is membership to the accredited professional organization for teachers mandatory for all LET passers?
- A. No
 - B. Only for LET passers who are not repeaters
267. With closeness to direct experience as standard, which one should a teacher choose?
- A. Contrived experiences
 - B. Dramatized experiences
268. What provides the most direct type of learning, but is difficult to supply in the traditional classroom?
- A. Real-life experience
 - B. Computer-assisted learning

269. How is the Venn diagram most useful in presentation of concepts?
- A. Comparison B. Showing cause and effect
270. In Piaget's Cognitive Concepts, what is the term of achieving proper balance to avoid discrepancy in perception and understanding?
- A. Accommodation B. Equilibrium
271. What is the quality of lesson content that gets the active attention of learners?
- A. Interest B. Balance
272. How is Plato's contemplative use of the mind best characterized?
- A. Interactive B. Introspective
273. What is the ability to know without being frustrated by ambiguous ideas?
- A. Focus B. Tolerance
274. Of the following classroom activities, which best relate to child visual learning and development?
- A. Drawing and coloring B. Games and sports
275. Of the following, which is the most conducive for authentic assessment?
- A. De-contextualized setting
B. Real world application
276. For easier correction of his test, teacher Edward prepared the true and false items in alternating 1, 3, 5, 7, etc. True, and 2, 4, 6, etc. False. What is wrong with the test in terms of Usability?
- A. Improper arrangement of items
B. Identifiable pattern of answers

277. Ms. Espina would like to cover a wide variety of objectives in the quarterly examinations in her English class lesson on subject-verb agreement. Which of the following type of test is the most appropriate?

- A. Multiple Choice B. Essay

278. Which of the following is not true about Outcomes-Based Education?

- A. The curriculum sets high expectations from the learners
B. The curriculum stresses the coherence between assessment and intended outcomes

279. What does discrimination index of 0.34 mean in test item analysis?

- A. More students from the upper group got the test item correctly
B. More students from the lower group got the test item correctly

280. Which of the following is LEAST authentic mode of assessing student performance?

- A. Paper and pencil test in vocabulary test
B. Oral performance in communication skills

281. Which statement can describe a positively skewed distribution of student's performance?

- A. Most of the students got average score
B. Most of the students got low scores

282. Among the questions listed below, which is the most appropriate question for metacognitive for reflection of one's teaching?

- A. What have I learned from my teaching?
B. How was the classroom atmosphere during my lecture?

283. What is the term given to the cognitive ability of breaking concepts into component parts?

- A. Analysis B. Synthesis

284. What cognitive ability is being developed by allowing students to mind their own learning and think about thinking?
- A. Metacognition B. Construction
285. Which of the thinking skills below has the LEAST significance in achieving purposive and effective learning?
- A. Rote memory B. Problem Solving
286. There are several components that make up a morally mature person. Which shows that a teacher applies moral principles (e.g. the Golden Rule) when making moral judgments?
- A. Committed to work
B. Resignation to mediocrity
287. Self-evaluation allowed the teacher to examine one's strengths and weaknesses. The following are forms of self-evaluation EXCEPT for _____.
- A. Journal
B. Teacher's Quality Circle/Peer Feedback
288. Can Liza Macuja be given a special permit to teach ballet in high school?
- A. No, she has not passed the LET
B. Yes, she has excelled and gained international recognition
289. Iah took the LET last September 2015. However, she failed in the examination. Is she qualified for the position of para-teachers?
- A. No, she needs to take the examination again.
B. Yes, if her rating is not lower than 5 percentage points from the assigned general average rating

290. Ana is a licensed teacher but has quit teaching for the past years. After five years, she decided to serve as a teacher again. Can Ana go back to teaching immediately?
- A. No, she has to take first a 12-unit refresher course before she can go back to teaching
 - B. Yes, especially if there is no other teacher who can fill in the vacant position
291. This law made some amendments of certain sections of Republic Act 7836 such as the qualification requirements of Teacher Applicants, registration, and exception.
- A. Republic Act 10533
 - B. Republic Act 9293
292. This decree is known as the Decree Professionalizing Teaching.
- A. Presidential Decree 1006
 - B. Presidential Decree 1009
293. The following are the steps that a teacher follows in using instructional material in the classroom. In what order must the steps be accomplished?
- I. Follow up
 - II. Present the materials
 - III. Prepare yourself
 - IV. Prepare the students
- A. III, IV, II, and I
 - B. III, II, I, and I
294. In Piaget's Cognitive Development, when a mother explains to the child that cats unlike dogs do not bark, the child is in the progress of creating a new cognitive structure. What term did Piaget used to describe the child's cognitive experience?
- A. Accommodation
 - B. Assimilation
295. Christian, seven-year old boy, knows how to arrange objects or thing according to weight, shape, color, and size. Joey as a young learner has already developed which concept according to Jean Piaget.
- A. Conservation
 - B. Seriation

296. Lemuel has reached the stage wherein similar to his peers, he tries to know himself more, discover his interests and passion, and so as his sexuality. Based on Erikson's Psychosocial Theory, at what critical age does Lemuel belong?
- A. Adolescence
 - B. Middle and Late Childhood
297. Of the following human needs, which is considered as the most basic needs for human growth and maturation based on Maslow's hierarchy of needs?
- A. Health and safety
 - B. Self-fulfillment
298. When should be the best time for the pattern of class discipline to be established?
- A. After signs of lack discipline
 - B. Early in the first weeks of classes
299. A teacher shall base the evaluation of the learner's work only in _____.
- A. Attendance, merit and quality of academic performance
 - B. Merit, and quality of academic performance
300. Where of these is not an intended role of technology in the classroom?
- A. Educate in lieu of the teacher
 - B. Make learning more interactive
301. Universe University wants an entrance test that can identify future outcomes of differences such as showing who would graduate from college or who would drop out. The test has _____.
- A. Predictive Validity
 - B. Construct Validity

308. Teacher Ronnel encourages his students to do things their way and not to, blindly follow other's ways. On which philosophy is Teacher runnel's thought based?
- A. Existentialism B. Rationalism
309. Teacher Rey claims that he is a constructivist. Which one does he do?
- I. Develops a curriculum around student interests
II. Invites student dialogue about the lessons and units of study
III. Follows the course syllabus at the expense of student's input
- A. I and II B. I and III
310. At this time, many students cannot even spell simple words correctly, schools should go back to the basics and use the traditional approach of teaching. Whose thinking is this?
- A. Progressivists' B. Essentialists'
311. "To be or not to be, that is your choice." Teacher Joyzee tells her students. On which philosophy does Teacher Joyzee lean?
- A. Existentialism B. Humanism
312. What is the role implied by the teacher not being "a sage on stage" but "a guide on side"?
- A. Facilitator in learning
B. Dispenser of knowledge
313. What particular program has immediate relevance to the practice of inclusive education?
- A. Education for all
B. Education for sustainable development
314. Which is the highest level in the latest of Bloom's taxonomy?
- A. Create B. Evaluate

315. An effective teacher is not a slave to her lesson plan. Which behavior demonstrates this?
- A. She discontinues referring to her lesson plan and allows children to do that which interests them
 - B. She sets aside the planned lesson when learners need to master first a pre-requisite skill
316. Teacher Nancy believes in the importance of a sound socio-emotional climate for learning. Which classroom management practice is consistent with her guiding principle?
- A. She calls the attention of an inattentive student as inconspicuously as possible
 - B. She makes the entire class sense that someone is not paying attention
317. If teacher Dang engages in a goal-oriented instruction, how does she end?
- A. With an evaluation
 - B. With a drill
318. To be effective, why do you have to make use of an instructional material, which is closest to the bottom of Edgar Dale's Cone of Experience?
- A. That is closest to direct experience
 - B. That is most educational
319. My class is not a very good one and is hard up at drawing generalization. Which approach to lesson planning may be most efficient and effective?
- A. Deductive
 - B. Inductive
320. Applying the principle, "The more senses that are involved, the more effective the learning becomes" which instructional technology should be preferred?
- A. Field trips
 - B. Dramatization

321. Which should Teacher Edgie do, if she abides by the principle of teaching from the concrete to the abstract?
- A. She brings her class to the zoo for a field trip
 - B. She directs her pupils to draw at least one animal
322. If you apply Edgar Dale's Cone of Experience in teaching, which would you do?
- A. Connect the concrete and the abstract
 - B. Avoid the use of the chalkboard since it has been overused
323. Schools want to develop students to become lifelong learners. Which is LEAST helpful in the attainment of this goal?
- A. Teaching learners the skills to learn
 - B. Stress on factual learning
324. Schools want to develop children to become critical thinkers. Which one can be of help?
- A. Application of Paolo Freire's "banking system" of education
 - B. Emphasis on HOTS
325. Which instructional process will be most appropriate if Teacher Sittie wants maximum student interaction in her class of fifty (50) students.
- A. She identifies students to do class presentation and interrogates the presenters after as class listen
 - B. She makes them research on an assigned topic then requires them to share their findings in class
326. "Give a summary of the chapter by means of a graphic organizer, jingle, dance, song, or poem or in any manner of your choice." Which objective is this assessment activity meant to measure?
- A. The students must develop their multiple intelligences by giving a Chapter summary
 - B. The students must be able to give a Chapter summary by considering multiple intelligences of the students

127. If schools want to equip children with the basic skills, what should teachers do?
- A. Make pupils master reading, writing, and arithmetic
 - B. Develop pupils' multiple intelligence
128. Teacher Julie prefers for the use of experiential rather than rote learning, hence focuses on "custom-made" activities for children and a generous use of motivation. This curriculum is classified as _____.
- A. Child-centered
 - B. Activity-based
129. Which type of curriculum promotes a high level of cooperative interaction on meaningful and immediate use of learning?
- A. Learner-centered
 - B. Subject-centered
130. What role does a teacher play in constructivist learning?
- A. Facilitator
 - B. Instructor
131. What characterizes the approach to learning of successful learners?
- A. Strategic thinking
 - B. Memory recall
132. Which of the following methods can better motivate learners, as this involves tasks comparable to real-world situations?
- A. PowerPoint presentation
 - B. Dramatization
133. For retention and retrieval of information, acronyms are effective as _____.
- A. Visual aids
 - B. Mnemonic aids

334. In the context of Piaget's cognitive theory, how will a teacher explain a pre-school child's behavior who says "gaya kahapon" (like that of yesterday) when in a restaurant the waiter asks him and what he wants to order?
- A. Intelligence is demonstrated through the use of symbols in the pre-operational stage
 - B. Egocentric thinking predominates in pre-operational stage
335. Which is an application of Gardner's MI theory?
- A. Demonstrate the steps in doing an experiment completely
 - B. Make use of a variety of teaching strategies
336. What kind of questions can the teacher ask to develop critical and creative thinking among students?
- A. Divergent questions
 - B. Declarative questions
337. What is the disability of children having difficulties in focusing and maintaining attention, while manifesting hyperactive and impulsive behavior?
- A. Autism
 - B. Attention-deficit Hyperactivity Disorder
338. Following Horne and Pine's principles of learning who should get foremost concern considering that the learning is really what happens inside their unique world?
- A. The learner(s)
 - B. The teacher
339. In Kohlberg's theory of moral development, at what level does a person act in order to obey the law, not necessarily because the law is good for society?
- A. Conventional level
 - B. Post-conventional level

140. Which question illustrates metacognitive process in reading?
- A. With whom in the story do you identify yourself?
 - B. If you were to write the end of the story what would it be?
141. As a leading social learning theorist, Bandura believed that _____.
- A. Behavior influences both the person and environment
 - B. People learn from one another, such as by modeling
142. When scoring essay items, all responses to one item should be scored before scoring the next item, rather than scoring one entire test before scoring the next. This procedure:
- A. Enhances the objectivity of scoring
 - B. Increase the test validity
143. Which of the following categories in the taxonomy indicates the highest level of learning?
- A. Application
 - B. Synthesis
144. An appropriate assessment tool for assessing the development of learning in the affective domain is through _____.
- A. Reading of journal entries
 - B. Performance assessment
145. Under Vygotsky's socio-cultural theory, what is the assistance given to enable the learner to move from the zone of actual development to a zone of proximal development?
- A. Scaffolding
 - B. Collaboration
146. What concept of man by Rousseau is most applicable to the modern principles of teaching?
- A. Natural goodness of man
 - B. Lifelong learning

347. When should teachers support one another?
- A. At all times for whatever cause
 - B. When the best interest of the learners is at stake in a controversy
348. Values are subjective. Your value may not necessarily be my value. Who subscribes to this thought?
- I. Progressivist
 - II. Pragmatists
 - III. Essentialist
- A. I, II, and III B. I and II
349. How is collaboration among teachers for sustained professional practice best achieved?
- A. Mentoring system by experienced teachers
 - B. Interdependent work for cohesion
350. Among mistaken goals in the Acceptance Approach to discipline, what happens when students are not getting the recognition they desire, continually seek help, and refuse to work unless the teacher hovers over them?
- A. Attention getting B. Withdrawal
351. To manage behavior, the teacher needs to be able to identify the mistaken goals of students. What is the hidden goal of students who become violent?
- A. Goal is to seek power
 - B. Goal is to get revenge
352. Teacher Margie is a great lecturer and so she is invited to speak and represent the school on many occasions. What is one quality of her lectures when she follows a planned sequence, not diverting so as to lose attention of her listeners?
- A. Fluency B. Continuity

353. With closeness to direct experience as standard, which one should a teacher choose?
- A. Contrived Experiences
 - B. Dramatized experiences
354. According to Nagel's Acronym PPPF, what is important to follow up in the proper use of instructional materials?
- A. Lesson objective
 - B. Media and materials
355. Of the types of validity for tests, what type constructs a test for a particular subject, the items adequately reflecting the specific matter of the subject?
- A. Content validity
 - B. Criterion Validity
356. In Piaget's stages of Cognitive Development, what is the pre-school age in which a child's intelligence is intuitive, able to make mental representations, and close to the use of symbols?
- A. Concrete-Operational Stage
 - B. Pre-operational Stage
357. In Piaget's Concrete-Operational stage in cognitive development, which refers to the ability to order or arrange things, logically based dimensions such as weight, volume or size?
- A. Decentering
 - B. Seriation
358. Among the following questions, which is NOT applicable to metacognition?
- A. Did I understand what I just heard, read or saw?
 - B. What factual information have I retained?
359. Among teaching styles, how do you classify teachers who clearly and fairly communicate standards for discipline and performance to student?
- A. Authoritarian
 - B. Authoritative

360. In Erikson's stage Theory of Development, which of the following needs to be developed for the child (1 to ½ years old)?
- A. Autonomy B. Trust
361. Which of the following is an acceptable teacher-effectiveness practice?
- A. Directions given sparingly and delivered casually
B. Planning done following monitoring of learning
362. What field of education manages children with behavioral problems like attention-deficit hyperactivity disorder?
- A. Special education
B. Early childhood education
363. Of the following, which is most true of adolescents?
- A. Hormonal changes
B. Defiance of peer group
364. Which of the following classroom climate is less threatening?
- A. Cooperative B. Autocratic
365. Among cognitive objectives, what refers to the transfer of knowledge from one concept to another?
- A. Synthesis B. Application
366. Which measure of central tendency is most reliable when scores are extremely high and low?
- A. Median
B. Cannot be identified unless individual scores are given
367. As positive correlation is to direct relation, to what relation is negative correlation?
- A. Indefinite relation B. Inverse relation

368. In interpreting assessment results, which is described when the results are consistent?
- A. Reliability B. Validity
369. According to Erikson, identity and role confusion occurs during
- A. College years B. High school years
370. A child receives a STAR STAMP after correctly completing his task. The child always tries to complete all tasks correctly for him to have a stamp once again. What is being shown in the situation?
- A. Operant conditioning B. Pavlovian conditioning
371. Operant conditioning can be applied to classroom by:
- A. Using reinforcement
B. Fostering conducive learning environment
372. In comparison with Freud, Erikson placed more emphasis on
- A. Intellectual development
B. Social and Cultural Influences
373. Which of the following pairs of theorists proposed stage theories of development?
- A. Piaget, Bandura B. Freud, Piaget
374. Object Permanence refers to the concept that
- A. An object's identity remains the same even when its appearance changes
B. An object has a permanent existence that is independent of our perceptual contact with it
375. Understanding that certain physical characteristics of objects remain the same even though their outward appearance has changed is
- A. Conservation B. Object permanence

376. The grassroots approach insists that teachers who teach or implement the curriculum should participate in developing it. This is based on the:
- A. Ralph Tyler Model B. Hilda Taba Model
377. Which curriculum model gave emphasis on "backward design"
- A. RBEC B. UBD
378. Which among the following is NOT a component of the curriculum?
- A. Curriculum aims, goals, and objectives
B. Curriculum Existence
379. "The curriculum is a total learning experience for an individual." This point of view is considered to be of
- A. Progressivist B. Traditionalist
380. If Teacher Geo wants to follow Piaget's Theory, what should she provide for her pupils who are in the sensorimotor stage?
- A. Games and other physical activities to develop motor skills
B. Wide space with minimal object to play with
381. When the curriculum includes materials resources that would help the implementation of the written curriculum such as textbooks, computers, audio-visual materials, laboratory equipment, playgrounds, zoos, and other facilities, this curriculum could be categorized as:
- A. Taught curriculum B. Supported curriculum
382. Teacher Nads doesn't like Shul, her student who is expected to graduate as class valedictorian. In this regard, she is so impartial to her and gives her low marks in recitation and project. Is this correct?
- A. No, it is a must that every teacher be impartial to each student
B. Yes, it is the right of every teacher to determine the mark of every student

383. "Life is what you make it." Exemplifies best what _____ is:

- A. Existentialism B. Progressivism

384. The Code of Ethics for Professional Teachers cover(s)

- A. All public and private school teachers in all educational institutions at the preschool, primary, elementary and secondary levels whether academic, vocational, special, technical, or non-formal
B. All private and public school teacher in all educational institution at the preschool, primary, elementary, secondary, and tertiary levels whether academic, vocational, special, technical, or non-formal

385. Which of the following pillar of education is vital in the building of a genuine and lasting culture of peace in the world?

- A. Learning to live together
B. Learning to be

386. To be an affective classroom manager, teacher must be friendly but at the same time be:

- A. Highly demanding B. Business-like

387. Which of the following is a mark of a good teacher?

- A. Has the capability to control the class
B. Has mastery of the lesson

388. Under the "learning to do," which of the following instrument must be acquired so that the person can perform his work effectively?

- A. Competence B. Insight

389. Teacher Prince serves as an inspiration to his students because of his efficiency and effectiveness as a teacher. The mind set of his students towards him is an instance of what kind of philosophy?

- A. Realism B. Idealism

390. Teacher Michael is not only a competent teacher but also a community leader in their place. Which of the following should teacher Michael NOT do as a teacher?
- A. Always make herself unapproachable to every member of the community so that her decisions will have no effect to community politics
 - B. Actively participate in the activities of the community
391. It is mentioned that the "teacher is the best visual aid," why is this so?
- A. The teacher acts as a medium in the teaching-learning process.
 - B. The teacher is able to utilize the visual aids expertly
392. Which of the computer-based system instructional tool can help you revise written works such as short stories and essays?
- A. Spreadsheet
 - B. Word processing
393. Which of the following objectives is the highest level in Bloom's taxonomy?
- A. Rate three different methods of controlling tree growth
 - B. Explain how a tree functions in relation to the ecosystem
394. Teacher Vanessa conducted a quiz after discussing her topic "normal distribution" to test whether his students learned the lesson and not for grading purposes. Which type of test did he conduct?
- A. Formative
 - B. Diagnostic
395. Which is the most reliable tool for seeing the development in your pupils' ability to write?
- A. Portfolio assessment
 - B. Scoring rubric
396. Howard Gardner's Multiple Intelligence Theory encourages teachers to:
- A. Consider various intelligences when creating lesson
 - B. Focus on the IQ of the students

397. Marie obtained a percentile rank of 94 in National Assessment Test. This means that _____.
- A. She surpassed in performance 94% of her fellow examinees.
 - B. She surpassed in performance 6% of her fellow examinees.
398. Mae learned how the dance steps of "Gimme Gimme within 4 days. Weeks after he performance in her school, she already forgot the detailed steps. According to Thorndike's Connectionism, what was Cherry's Theory of Learning?
- A. Law of Disuse
 - B. Law of Effect
399. Counselor Gary shows the secrets of his counselee with other members of the faculty. The counselor violates the principle of?
- A. Secrecy
 - B. Confidentiality
400. The instructional objectives are very important in the test construction when they are stated in terms of _____.
- A. Student Performance
 - B. Learning activities
401. Which is the most ideal stage of moral development?
- A. Social contract
 - B. Universal ethical principle
402. Which of the following interventions reduces stigma between social status and social selection in the educational system?
- A. National College Admission Examination
 - B. Educational Service Contracting Scheme
403. Which of these activities indicates that teachers value their status as role models?
- A. Upholding the Code of Ethics
 - B. Holding on to their job despite the difficulties

404. A teacher can help her underachiever students correct their difficulties by:
- A. Equity B. All of the above
405. A child aged one year old realizes that things continue to exist even when it is no longer present to the senses. According to Piaget, the child has achieved:
- A. Concrete permanence
B. Object permanence
406. A little girl who experienced fear when a dog bit her, initially responds with fear to all dogs. This is a form of what behavior?
- A. Discriminate B. Generalized
407. The following are characteristics of a child friendly school EXCEPT
- A. Child-centered B. Exclusive
408. When we convince our students, that pleasure is not the only good in life, we object to the teaching of:
- A. Epicureanism B. Skepticism
409. If the student encourages developing himself to the fullest and must satisfy his hierarchy of needs, the highest need to satisfy according to Maslow is _____.
- A. Safety needs B. Self-actualization
410. All of the following describe the development of children aged 11 to EXCEPT:
- A. They show abstract thinking and judgment
B. Sex differences in IQ becomes more evident

411. A person who had painful experiences at the dentist's office may become fearful at the mere sight of the dentist's office. Which theory can explain this?
- A. Classical conditioning B. Operant conditioning
412. According to the Code of Ethics for Professional Teachers, upon which are appointments/ promotion/ transfers made?
- A. Merit and need
B. Exigency of the service
413. A teacher shall behave with honor and dignity at all times. What activities should he/she refrain from doing?
- I. Gambling III. Illicit relations
II. Smoking IV. Lotto betting
- A. I, II, III B. II, III, IV
414. The role of play in the preschool and early childhood years is that it:
- A. Increases imagination due to expanding knowledge and emotional range
B. Develops competitive spirit
415. When you teach, you often engage yourself in brainstorming. Which do you avoid?
- A. Increase creativity B. Generate many ideas
416. To nurture creativity of learners, the teacher should be:
- A. A repository of knowledge with right answer
B. Flexible in terms of time, pace materials, techniques
417. Direct instruction is for facts, rules, and actions as indirect instruction is for:
- A. Hypotheses, verified data, and conclusion
B. Concept, patterns, and abstraction

418. Teacher Judy gave his first-grade class a page with a story in which pictures take place of some words. Which method did he use?
- A. The whole language approach
 - B. The rebus method
419. If you want your pupils to master the multiplication table, which activity is most fit?
- A. Drill
 - B. Simulation
420. To determine your pupil's entry knowledge and skills, which should you employ?
- A. Pre-test
 - B. Focus group discussion
421. You want to present the characteristic features of a constructivist approach. Which should you use?
- A. Venn diagram
 - B. Attribute wheel
422. Which is most appropriate for the sharing of efforts and ideas?
- A. Cooperative
 - B. Constructivist
423. Which of these activities is best for visual spatial learners?
- A. Doing graphic organizer
 - B. Creating dance movements
424. When the class seems unruly during the discussion, what is the best technique to employ?
- A. Prepare unfreezers/energizers
 - B. Ignore the students who are making noise
425. What will be the most effective way of dealing with non-participative students?
- A. Give them the grades they deserve based on their performance
 - B. Employ engaging and enjoyable activities

426. Corporal punishment is punishable by law. How can you instill discipline through non-violent means?
- A. Refer all disciplinary measures to the student affairs office
 - B. Establish your policies and give your expectations at the beginning of the class
427. As a teacher, one has to be properly dressed at all times in all occasions. This is part of the personal classroom management of teacher. Why is it important?
- I. Teachers must be role models
 - II. Teachers must always be presentable
 - III. Teachers must look dignified at all times
 - IV. Teachers are also models in observing proper dress code
- A. I, II, and III B. I, II, III, and IV
428. Giving rewards is one way to motivate students to behave properly at all times. What is the best positive reinforcement, which can be employed?
- A. Acknowledging the potential of each students
 - B. Praising them for good work
429. What is one advantage of using the project method in science teaching?
- A. It requires student to present in concrete form how a principle works
 - B. It tests the student's manipulative skill
430. In the light of the modern concept of teaching, which is a characteristic of effective teaching?
- A. Developing abilities to address the future
 - B. Pouring information to the learners
431. Which of the following techniques of curriculum implementation is fit to the objective of developing cooperative learning and social interaction?
- A. Lecture B. Buzz Session

432. When a school decides to work on a thematic curriculum, which should be out of the picture?
- A. Competition B. Peer collaboration
433. When the curriculum aims to develop the whole child, the curriculum is considered:
- A. Child-centered B. Subject centered
434. What kind of curriculum is achieved when the learning outcomes are achieved by the students?
- A. Learned curriculum B. Assessed curriculum
435. You have assigned to handle a multi-grade class. What instructional materials must be utilized to provide for the needs of each level?
- A. Differentiated materials to cater to different levels
B. Multi-sensory materials
436. What should be the first consideration of the teacher in the choice of instructional media?
- A. Availability of the media
B. Objectives of the lesson
437. Should a teacher involve his/her students in planning the instructional objectives before starting a lesson?
- A. Yes, with shared objectives, they become self-motivated
B. No, they will not be ready for it at the beginning
438. The heroism of Jose Rizal exemplifies Kohlberg's theory of moral development. Which of the following characterizes Rizal?
- A. He gives importance to what people will think or say
B. He possesses moral responsibilities to make societal changes regardless of consequences to oneself.

439. Cooperative learning approach makes use of a classroom organization where students work in teams to help each other learn. What made of grouping can facilitate the skill and values desired?
- A. Heterogeneous B. Homogeneous
440. A teacher earns the title of "professional" if she/he is adjudged knowledgeable, proficient in a variety of teaching methodologies and exhibits a high degree of a third component of competence which is/are:
- A. Ethical and moral standards
B. Mastery of content
441. When a teacher practices professional ethics, which of the following is he not likely to do:
- A. Shares an outstanding outcome of undertaking with others
B. Engages in gossips
