

An abstract geometric pattern on the left side of the slide. It features a light gray grid with various colored squares (black, green, red, purple, orange, teal) and lines of different thicknesses. Some squares are solid, while others are outlined. The pattern is dense and occupies the left half of the slide.

Professional Education

Gurong Pinoy Teams

1. Mr. Smith is planning a science lesson. He plans to include an activity that encourages collaboration and problem-solving. Which kind of group should he choose?

☐ a. Teacher-led grouping

☒ b. Student-led grouping

☐ c. Small-group instruction

☐ d. Independent student work

2. Applying a concept or skill learned in one area to an experience in a different area is called what?

☐ a. Moving knowledge

☒ b. Learning transfer

☐ c. Critical thinking

☐ d. Perspective taking

3. Which is an example of an indirect instruction method?

- ☒ a. Students create learning journals to write their findings on a specified topic.
- ☐ b. A teacher demonstrates how to do an experiment in class.
- ☐ c. Students work on a writing assignment for the rest of the class period.
- ☐ d. Students watch a video on a specified topic and fill-in a guided note-taking sheet.

Direct Instruction vs. Constructivism

DIRECT INSTRUCTION

- ❖ Central role is assigned to the teacher.
- ❖ Classroom management is key.
- ❖ Effective when specific content and skills are primary goals.
- ❖ Specific set of operations and procedures.
- ❖ Provide multiple opportunities for feedback and practice.
- ❖ Model is arranged with decreasing teacher control.

CONSTRUCTIVISM

- ❖ Learners construct their own knowledge.
- ❖ Learning enhanced through social interaction.
- ❖ Learning focuses on explanations and answers.
- ✓❖ Teacher needs to be aware of when to intervene.
- ❖ Verbalization and sharing of ideas.

4. Which of the following are components of a student portfolio?

- ☒ a. artwork, essays, and self-reflections
- ☐ b. copies of detentions issued for that student
- ☐ c. a parent or guardian contact log
- ☐ d. a student's attendance record

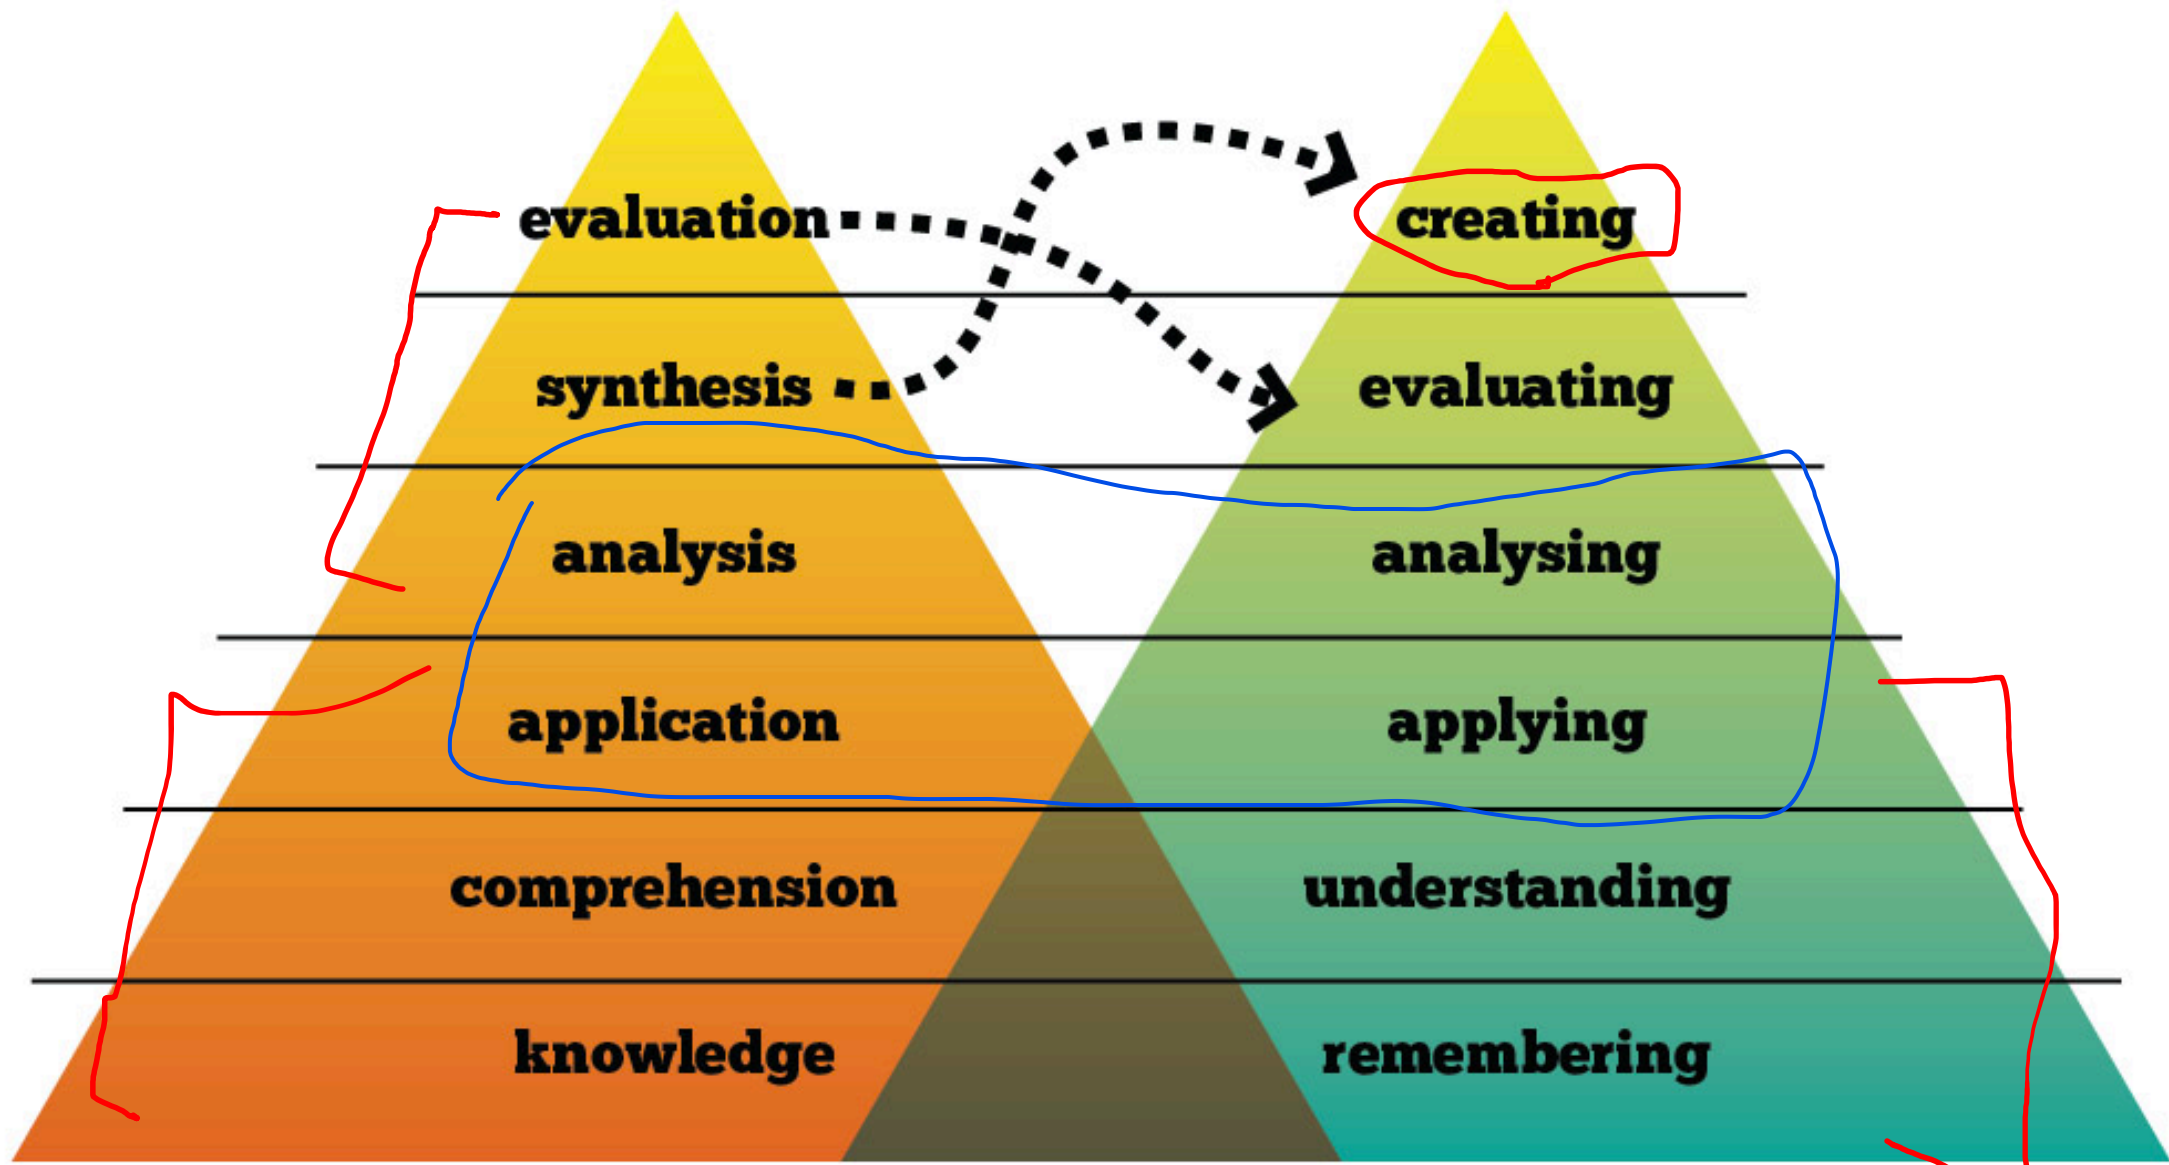

5. Which of the following questions is in the highest level of cognition?

☐ a. Describe the events that led up to the Revolutionary War.

☐ c. Who was the first President of the U.S.?

☒ b. State and justify your opinion on whether or not term limits are a good idea.

☐ d. Compare and contrast George Washington and Abraham Lincoln.

6. How should you implement strategies which establish classroom norms and expectations?

☐ a. Follow the standard set by the school board.

☐ b. Implement norms and expectations exactly as written.

☒ c. Align norms and classroom expectations to the age level of students.

☐ d. Adjust norms and expectations to staff availability.

7. Which set of questioning words are considered in the **Create** (formerly **synthesis**) level of Bloom's Cognitive Taxonomy Circle?

- ☒ a. Compose, Setup, Collect, Propose
- ☐ b. Estimate, Value, Measure, Select
- ☐ c. Define, Name, Memorize, Repeat
- ☐ d. Restate, Report, Express, Identify

8. Which of Erik Erikson's Eight Stages of Psychosocial Development occurs between the ages of three and six years old?

☒ a. Identity vs. role confusion

☒ b. Industry vs inferiority

☒ c. Autonomy vs. shame and doubt

☒ d. Initiative vs. guilt

9. According to Dr. Shaw, which of the following explains why manipulatives are effective?

☒ a. Manipulatives are multisensory.

☐ b. Manipulatives can be used as an assessment tool.

☐ c. Manipulatives allow students to learn in their preferred learning style.

☐ d. Manipulatives are colorful.

10. What does the Reciprocal Teaching method ask students to do?

☒ a. ask questions

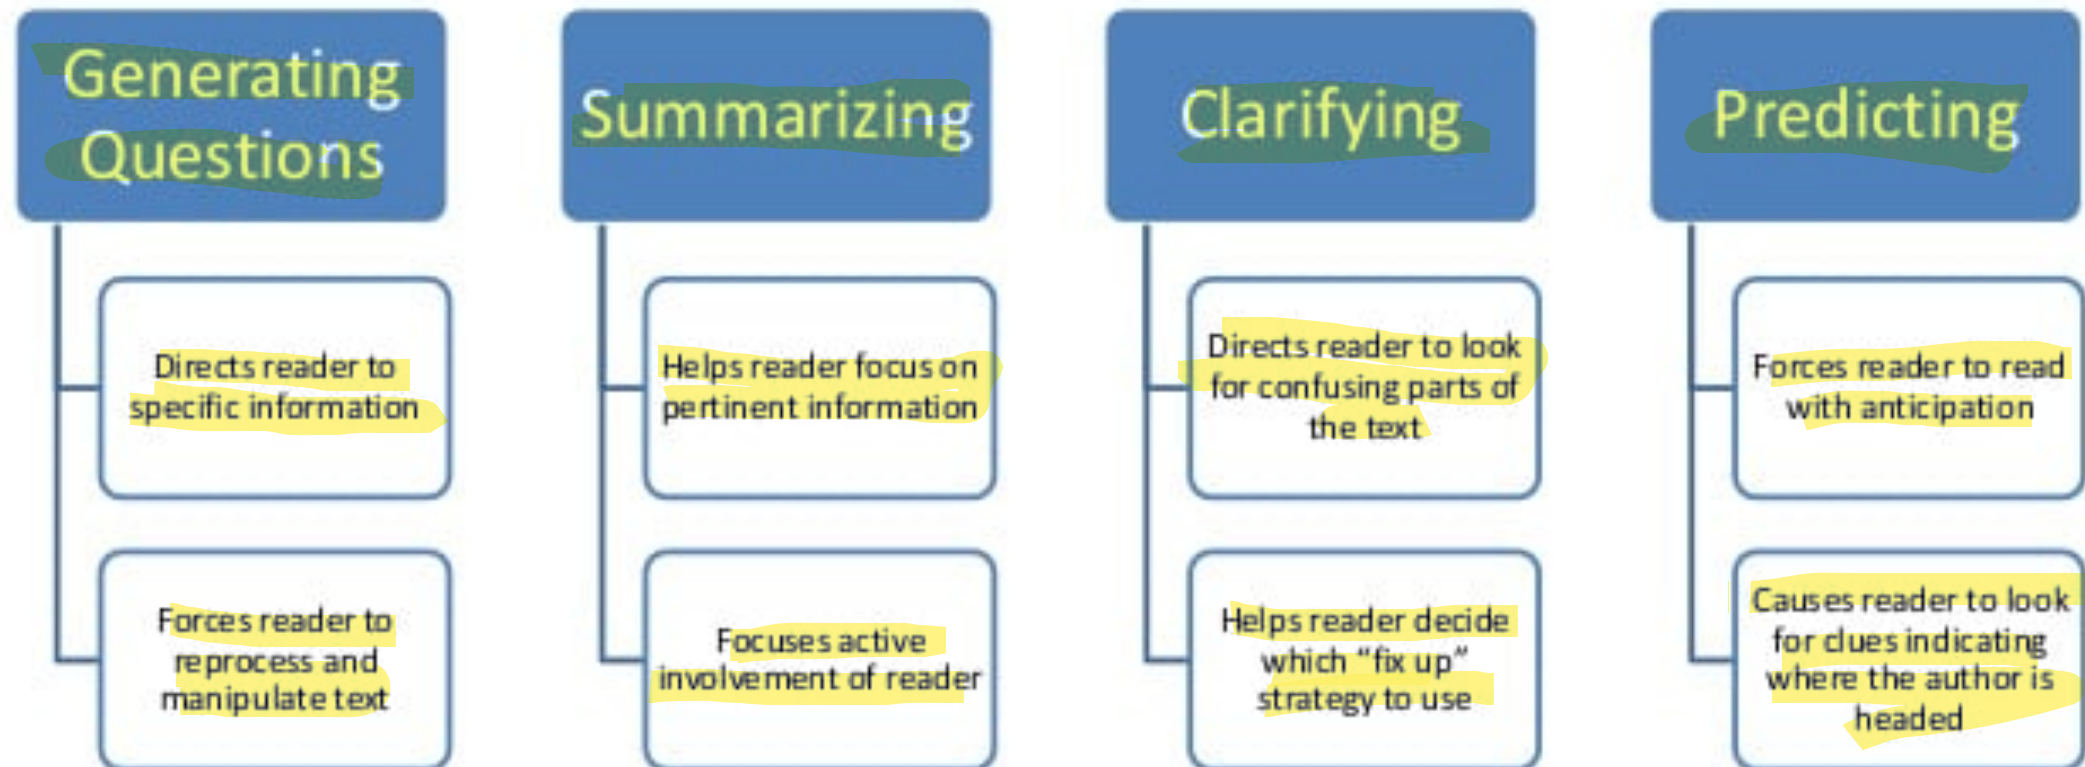

☐ b. discuss answers

☐ c. delete and substitute

☐ d. research

Reciprocal Teaching

Reciprocal Teaching is a dialogue between teacher and students using four strategies:

11. Which of the following would be an example of a **negative transfer of information**?

☒ a. Having your teacher explain how to do a math problem one way, while your parents show you a completely different method.

☐ b. Learning how to ride a bike and then learning how to skip.

☐ c. Knowing how to read sheet music when playing the piano because you sang in the choir.

☐ d. Knowing how to write a Shakespearean sonnet, then learning how to write a Petrarchan sonnet.

Low-road transfer

- Spontaneous and automatic.
- It occurs when a highly practiced skill is carried over from one situation to another, with little or no reflective thinking.

High-road transfer

- It occurs when you consciously apply abstract knowledge you have learned in one situation to another situation.

L1

Positive Transfer

When past learning helps the learner deal with and acquire new learning, it is called a positive transfer.

L2

Negative Transfer

Sometimes past learning interferes with the learner's understanding of new learning, resulting in confusion or errors. This process is called negative transfer.

12. Which of the seven student learning styles does the student in the example have?

Example: Isabelle takes diligent notes during class discussions. In the margins, the teachers sees Isabelle's doodles. Her doodles pertain to the discussion topics.

- ☒ a. Visual or Spatial Learner
- ☐ b. Physical or Kinesthetic Learner
- ☐ c. Social or Interpersonal Learner
- ☐ d. Aural or Auditory Learner

13. A teacher assigns students to discuss two different characters in an essay. Which of the organization methods would best fit what students will need to do for the paper?

☐ a. By Importance

☒ b. Comparison / Contrast

☐ c. Problem and Solution

☐ d. Narrative

14. Which of the following instructional strategies is the conscious practice of leveraging a person's tendency to behave like another by echoing key phrases during a conversation for clarification?

a. Modeling

b. Mirror language

c. Substantive feedback

d. Active listening

15. Which of the following is **NOT** an example of **formative** assessments in use?

 ☒ a. A teacher gives students a **unit final test**. The teacher uses the final unit test content to analyze student understanding of the entire unit.

☐ ~~x~~ b. A teacher gives students an exit slip at the end of a lesson. The exit slip is one question asking students what they learned in the lesson.

☐ ~~x~~ c. A teacher gives students a **KWL** at the end of a lesson. Together, the teacher and students complete the KWL chart, identifying what they knew, what they wanted to learn, and what they learned.

☐ ~~x~~ d. A teacher quizzes students at the end of the lesson. The teacher uses the quiz to assess student learning on this one lesson.

16. What are special methods and/or tools which help visually impaired students succeed in the classroom called?

☐ a. assessments

☒ b. accommodations

☐ c. congenitals

☐ d. Snellen charts

17. Tilly has been coming to school with bruises on her arms. The teacher has observed Tilly flinching away when people get too close to her. Tilly gets agitated when her peers comment on her appearance. Which of Maslow's hierarchy of needs is the student missing from the above example?

- ☐ a. Self-actualization needs
- ☐ b. Esteem needs
- ☐ c. Physiological needs
- ☒ d. Safety needs

SELSP

Maslow's hierarchy of needs

18. Which of the following scenarios best describes behaviorism?

☒ a. A teacher praising students who scored high marks on a test

☐ b. A father teaching his son to fish

☐ c. A parent texting her daughter a message

☐ d. A therapist interpreting a patient's dreams

19. Owen is a very curious child. He likes to take apart his toys and then try to put them back together. He likes to play with his building blocks without looking at the building instructions that came with them. Which learning style is he exhibiting?

☐ a. Read/Write Learner

☐ b. Visual Learner

☒ c. Kinesthetic Learner

☐ d. Auditory Learner

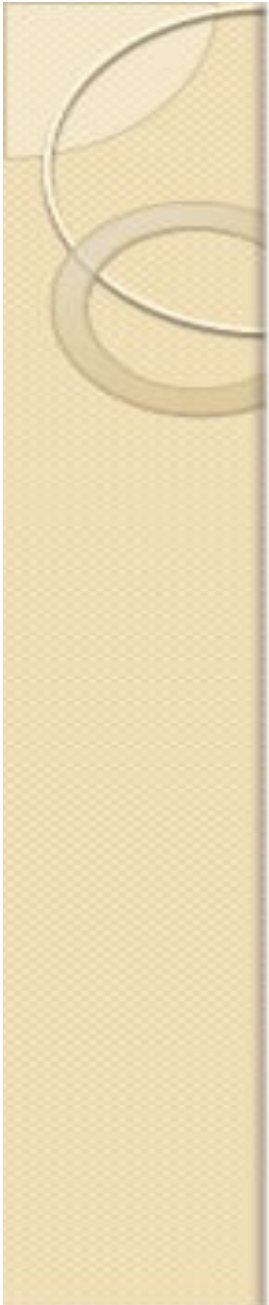

20. Which of the following is a defining feature of a spiral curriculum?

☐ a. Students learn one subject at a time.

☐ b. Student use interactive textbooks and online multimedia sources.

☐ c. Students with learning disabilities are given support.

☒ d. Students recognize how one knowledge type relates to another knowledge type.

A spiral curriculum design is one in which “key concepts are presented repeatedly throughout the curriculum , but with deepening layers of complexity.”
