# Prayer Before Class Starts

*We thank you for this new day, Lord.  
Help us to embrace all that it may hold for us.  
To hear the birdsong, and have new melodies in our hearts.  
To see the sunrise and create beauty with our hands.  
To touch the leaves that grow afresh,  
And allow your love to touch our hearts.  
To smell the fragrance of the flowers  
And breathe in the wonder of your creation.  
To dwell on the beauty of our world,  
And study and fathom your miracles.  
To enjoy the conversations we have and the lessons we go to,  
May we drink in all the goodness you have for us.*

answer choices

☐ A. Supported curriculum

☐ B. Hidden curriculum

☒ C. Recommended curriculum

☐ D. Assessed curriculum

- Written Curriculum - formally put down in writing and documented for teaching. These materials can include an educator's instruction documents, films, text and other materials they need.
- Taught Curriculum - how teachers actually teach. This is a less predictable and less standardized type of curriculum because how an educator delivers material can vary from one to the next. It can also change based on the types of tools a teacher has at their disposal.
- Supported Curriculum - involves the additional tools, resources and learning experiences found in and outside a classroom. These include textbooks, field trips, software and technology, in addition to other innovative new techniques to engage students. Teachers and other individuals involved with the course are also a component of the supported curriculum.
- Assessed Curriculum - also known as a tested curriculum. It refers to quizzes, tests and other kinds of methods to measure students' success. This can encompass a number of different assessment techniques, including presentations, a portfolio, a demonstration as well as state and federal standardized tests.

- Recommended Curriculum - stems from what experts in education suggest. Recommended curriculum can come from a variety of different sources, including nationally recognized researchers, policy makers and legislators, and others.
- Hidden Curriculum - not planned, but it has a significant impact on what students learn. This type of curriculum is not always communicated or formally written down and includes implicit rules, unmentioned expectations, and the norms and values of a culture.
- Excluded Curriculum - also known as the null curriculum. It refers to what content is not taught in a course. Often an educator or curriculum specialist believes that a certain skill or concept is less important or does not need to be covered. Sometimes what is left out, intentionally or unintentionally, can shape students as much as what is included.
- Learned Curriculum - what students walk away with from a course. This includes the subject matter and knowledge they learned from a course, but it can also include additional changes in attitude and emotional wellbeing.
