

GURONG
PINOY

The logo features the word "GURONG" in a large, bold, blue 3D font with a black outline and a light blue gradient. Below it, the word "PINOY" is written in a white 3D font with a black outline and a light blue gradient. Three yellow five-pointed stars are positioned: one above the "R" in "GURONG", and one between the "U" and "R", and another between the "O" and "N". A yellow sunburst with multiple rays is located behind the top of the "R" in "GURONG". The entire logo has a white drop shadow.

Prayer Before Class Starts

*We thank you for this new day, Lord.
Help us to embrace all that it may hold for us.
To hear the birdsong, and have new melodies in our hearts.
To see the sunrise and create beauty with our hands.
To touch the leaves that grow afresh,
And allow your love to touch our hearts.
To smell the fragrance of the flowers
And breathe in the wonder of your creation.
To dwell on the beauty of our world,
And study and fathom your miracles.
To enjoy the conversations we have and the lessons we go to,
May we drink in all the goodness you have for us.*

Professional Education

November 7, 2021

1. Self-actualization is thought to be a key motivating factor in

☐ a. developmental psychology

☒ b. humanistic psychology

☐ c. social psychology

☐ d. cognitive psychology

interested in studying how people flourish through happiness, spirituality and motivation

self-actualization

***the will to be the best
that we can be***

developmental psychology

how you change over your lifetime

***seeks to understand the stages of change
that we go through as we develop
into adults and beyond***

***your attitudes are largely affected by
what your social group believes
and teaches you***

cognitive psychology

The background of the slide features three men in suits, shown from the chest up, in a thoughtful pose. The man on the left has a large white question mark above his head. The man in the center has two interlocking gears, one white and one yellow, above his head. The man on the right has a glowing yellow lightbulb above his head. A white arrow points from the question mark towards the gears.

***is concerned with how you see
yourself and your environment***

***study how you learn,
solve problems and make decisions***

2. As Ben looks across the room at the large painting hanging there, he instinctively uses the Law of Proximity to take in the image. Most likely, this means that he ____.

☐ a. Places less mental energy on everything close to him so that he can focus on the distant painting.

☐ b. Blocks out the image of the painting so that he will be able to focus on the things directly around him.

 ☒ c. Mentally notes how close certain elements of the painting are to one another.

☐ d. Makes mental calculations in order to determine how far the painting is away from him.

Gestalt Psychology

school of thought that proposes all objects and scenes can be observed in their simplest forms

Apparent Motion

***one of the laws of perceptual organization
in which the whole is greater than
its individual parts***

9 Ways in which we Organize our Perceptions:

- 1. **Proximity**- grouping nearby elements together*
- 2. **Similarity**- grouping similar elements together*
- 3. **Symmetry**- grouping elements according to symmetry*
- 4. **Closure**- mentally filling in the gaps to create one enclosed object*
- 5. **Continuity**- visually following an object in its implied path*
- 6. **Common Fate**- grouping together elements that are going in the same direction*
- 7. **Common Region**- elements that are enclosed together and are perceived as a group*
- 8. **Figure & Ground**- perceiving the object (figure) separate from its surroundings (ground)*
- 9. **Good Figure/Pragnanz**- organizing the elements of an object in the simplest way*

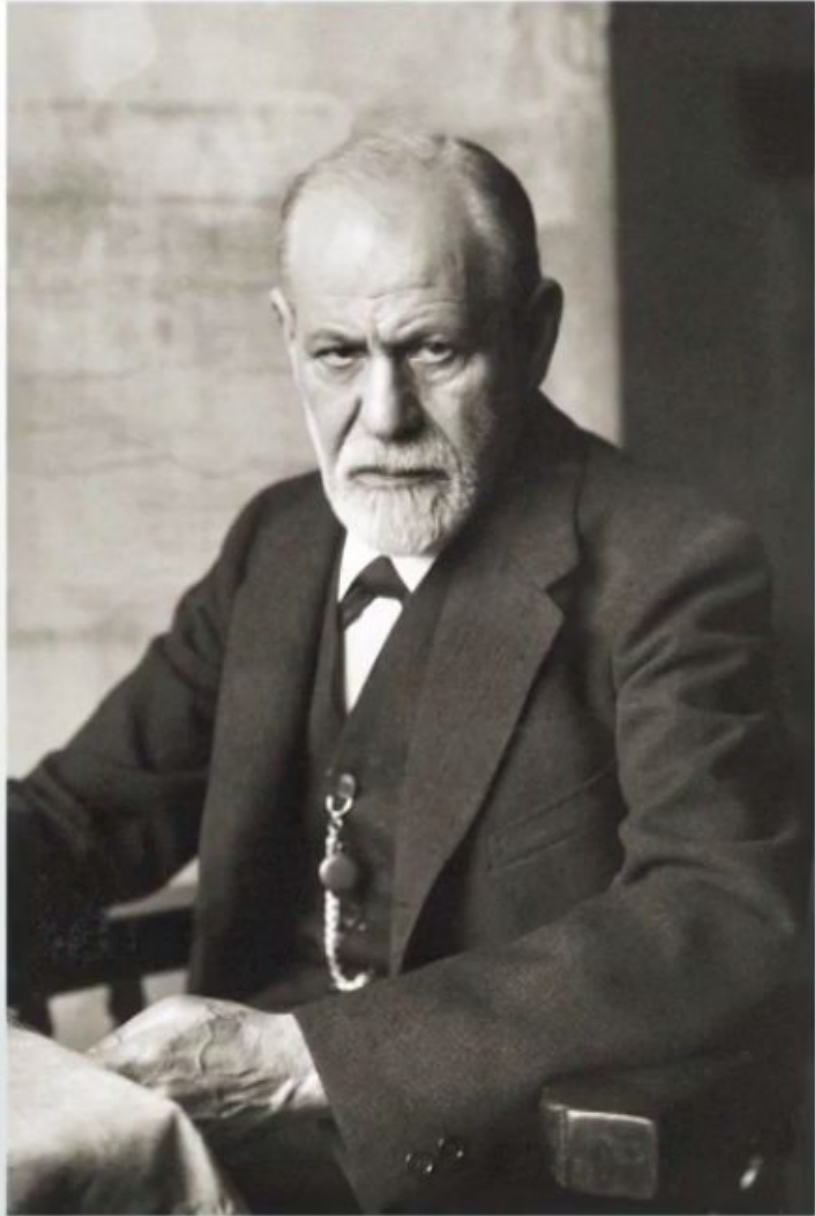

3. Mark is taking a high-stakes university exam and is sitting next to the smartest student in the class. Mark can clearly see his classmate's responses but refrains from copying the answers. Which of the following is affecting Mark's behavior?

☐ a. Ego

☐ b. Id

☒ c. Superego

☐ d. Instinct

Psychoanalytic Theory

THREE LEVELS OF CONSCIOUSNESS

*outside of your awareness
at all times*

Unconscious

EGO

SUPEREGO

ID

THREE LEVELS OF CONSCIOUSNESS

*all information that you
are not currently aware
of but that can be recalled*

Preconscious

EGO

SUPEREGO

ID

THREE LEVELS OF CONSCIOUSNESS

your current state of awareness

Conscious

three parts to the personality

Superego

Ego

Id

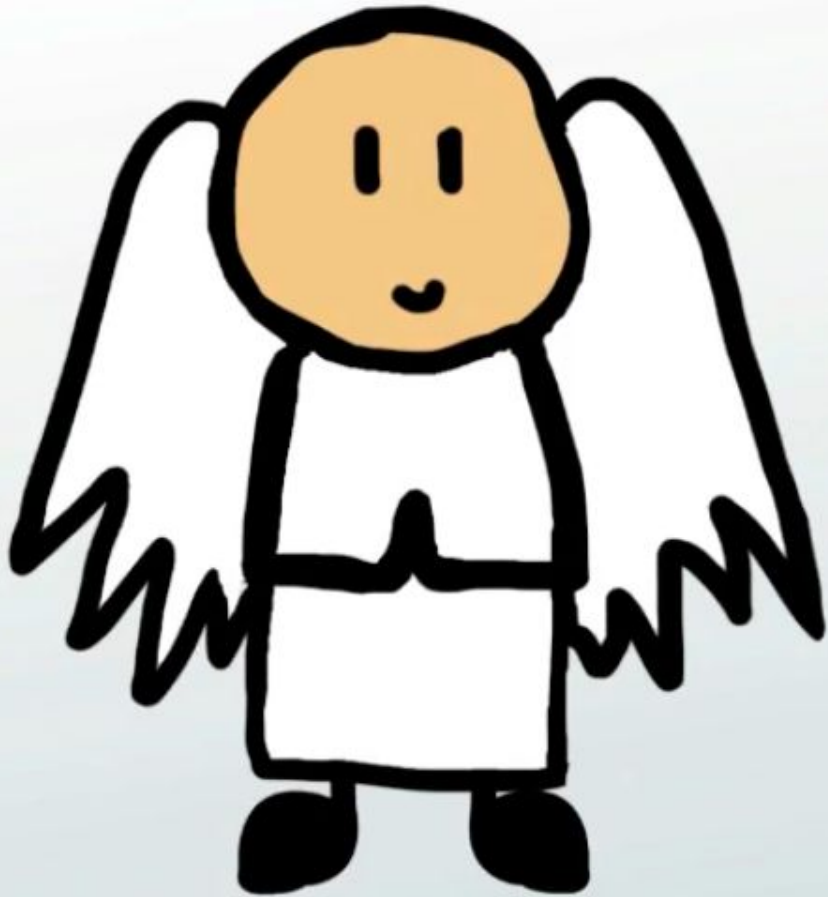

Pleasure Principle

the idea that all of your needs should be met immediately

Superego

Conscience

***your view of what is
considered wrong***

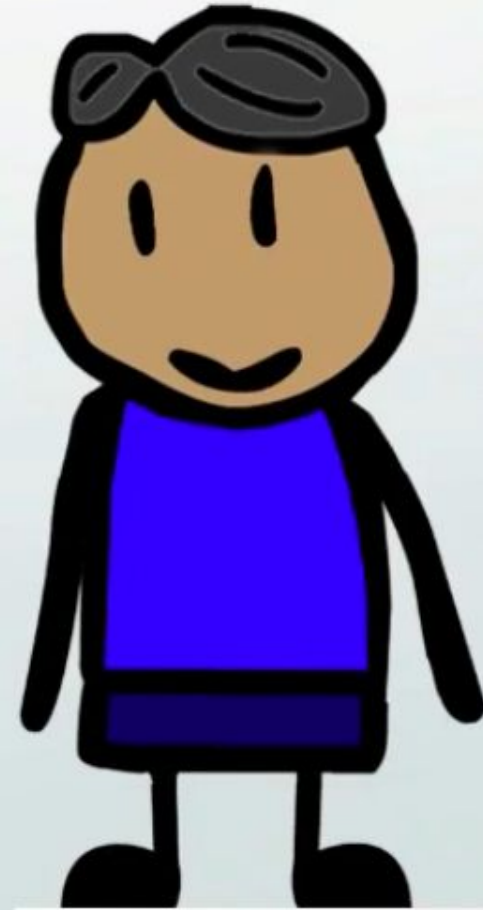

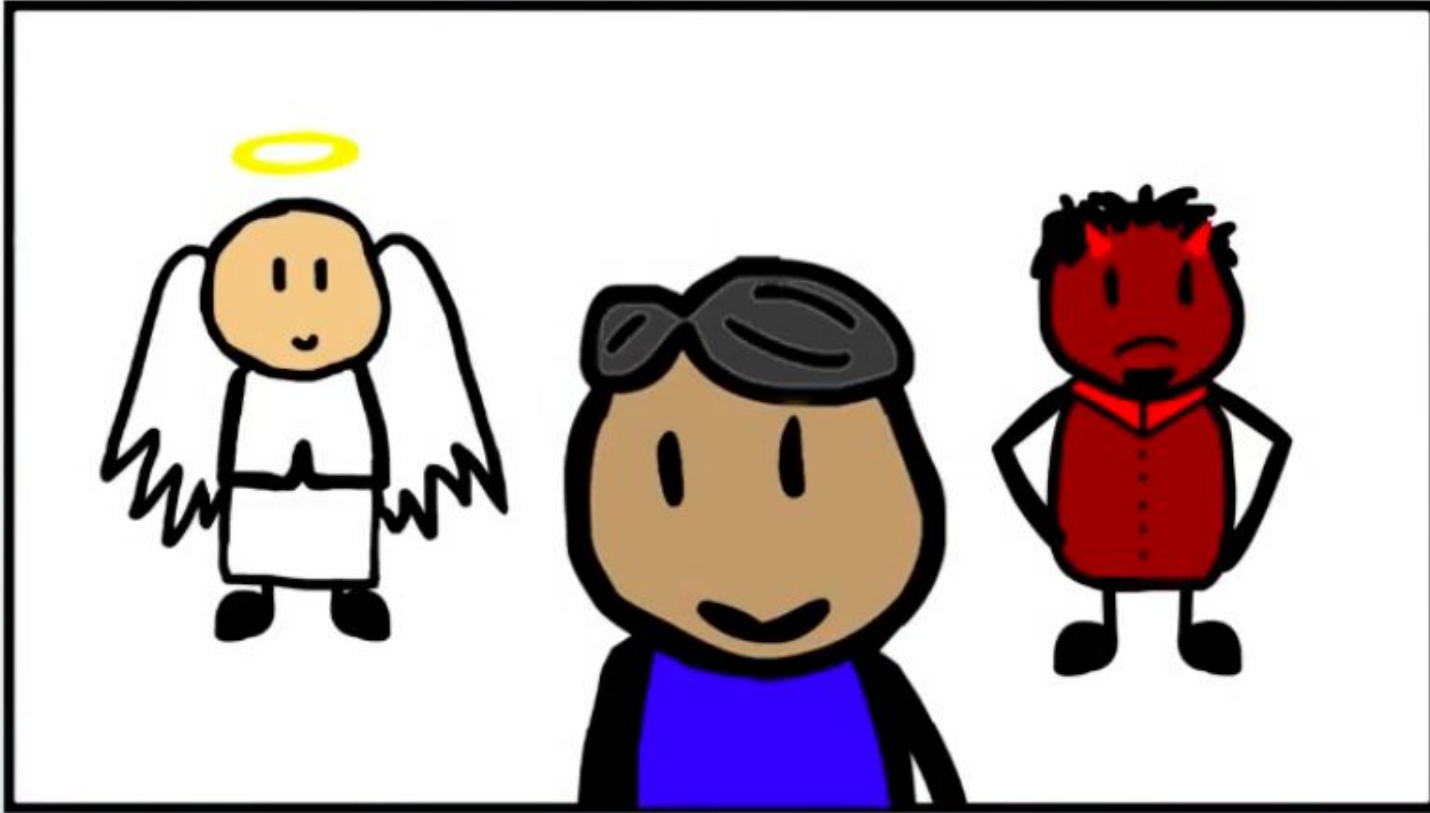

Superego

Ego ideal

your view of what is right

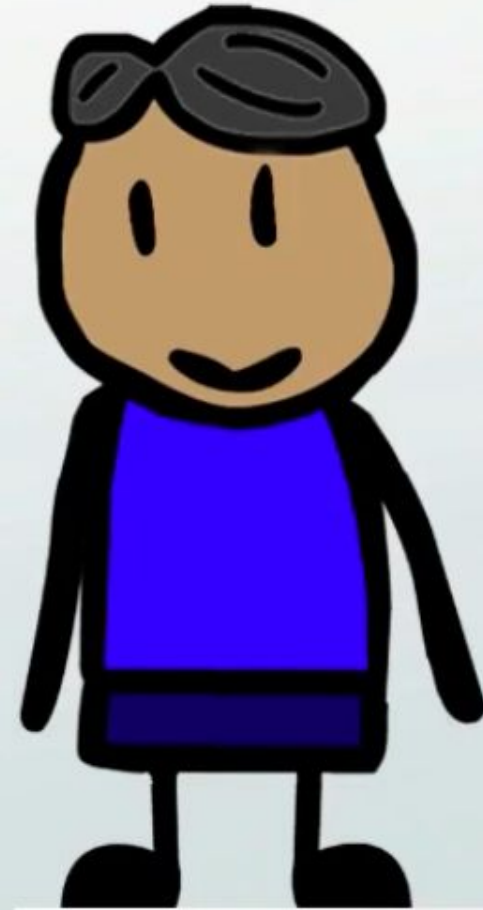

Ego

Ego

Reality Principle

the idea that the desires of the id must be satisfied in a method that is both socially appropriate and realistic

two types of instincts

Life Instincts

life instincts serve the purpose of survival and encourage growth, development, and creativity

Sigmund Freud

two types of instincts

Death Instincts

*death instincts account for
our aggressive tendencies*

Sigmund Freud

Sigmund

five stages of chronological development

oral
anal

phallic
latency

genital

three parts to the personality

Ego

Id

two types of instincts

libido
motivation
life instinct/sex drive

4. When formulating a research question, one must be careful to choose a question that is _____ and not too _____.

☐ a. Vague, affordable

☒ b. Testable, vague

☐ c. Testable, boring

☐ d. Affordable, boring

5. I am studying two babies of the same age. One child eats eight ounces of formula four times a day, and the other eats six ounces of formula six times a day. I guess that this must be because the first baby's stomach is more developed than the second baby's. Formulating this guess or opinion is called making a(n):

☐ a. Experiment

☐ b. Observation

☐ c. Data Chart

☒ d. Hypothesis

6. Whenever Ted gets a good grade his parents take him for ice cream. However, when he performs poorly on a test, he is forced to skip a meal. They also buy him small prizes whenever he cleans his room, but cut his after-school playtime when his room is a mess. Ted's parents are using _____ to influence his behavior.

a. Conditioning

b. Psychoanalytic

c. The Law of Similarity

d. The Oedipus Complex

7. Talk therapy and dream analysis are two techniques used in ____.

☐ a. cognitive psychology

☒ b. psychoanalysis

☐ c. Gestalt psychology

☐ d. behavioral analysis

psychoanalysis

***both a theory of mental illness and a type of therapy
that focuses on the relationships between the
conscious mind and the unconscious mind***

8. In Gestalt psychology, our ability to perceive a whole without first noticing its parts is referred to as ____.

☐ a. The Law of Similarity

☐ b. Reification

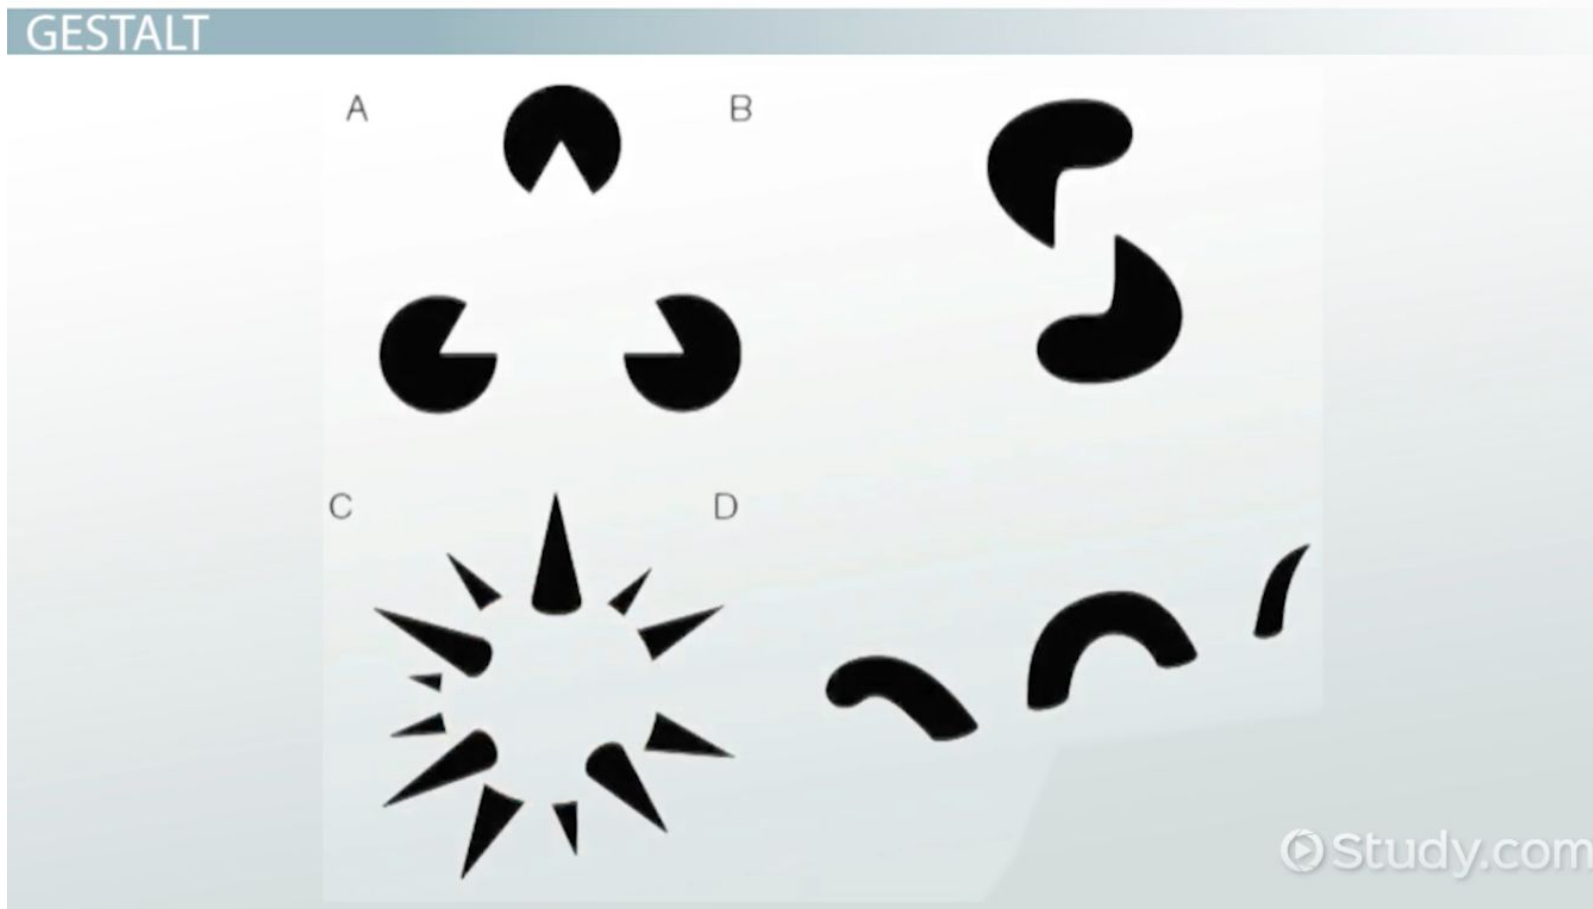

☐ c. The superego

☒ d. Emergence

Emergence - ability to perceive a whole without first noticing its parts

Reification - the mind's ability to fill in an implied shape

9. A medical student needs to diagnose a patient she is working with in her clinical studies. She has an idea about what could possibly be wrong with the patient and has formed a research question. What should be the medical student's next step?

☐ a. The student should use their own observations, professional literature, and an internet search to find information on the topic.

☐ b. The student should ask a more experienced doctor what he or she thinks.

 ☒ c. The student should use their own observations, professional literature, and discussion with peers to find information on the topic.

☐ d. The student should use an internet search engine to find any information on the topic.

10. If you were depressed and wanted to talk to someone, what type of psychologist would you go see?

☐ a. A social psychologist

☐ b. A cognitive psychologist

☒ c. A clinical psychologist

☐ d. A developmental psychologist

clinical psychologists

diagnose and treat mental health

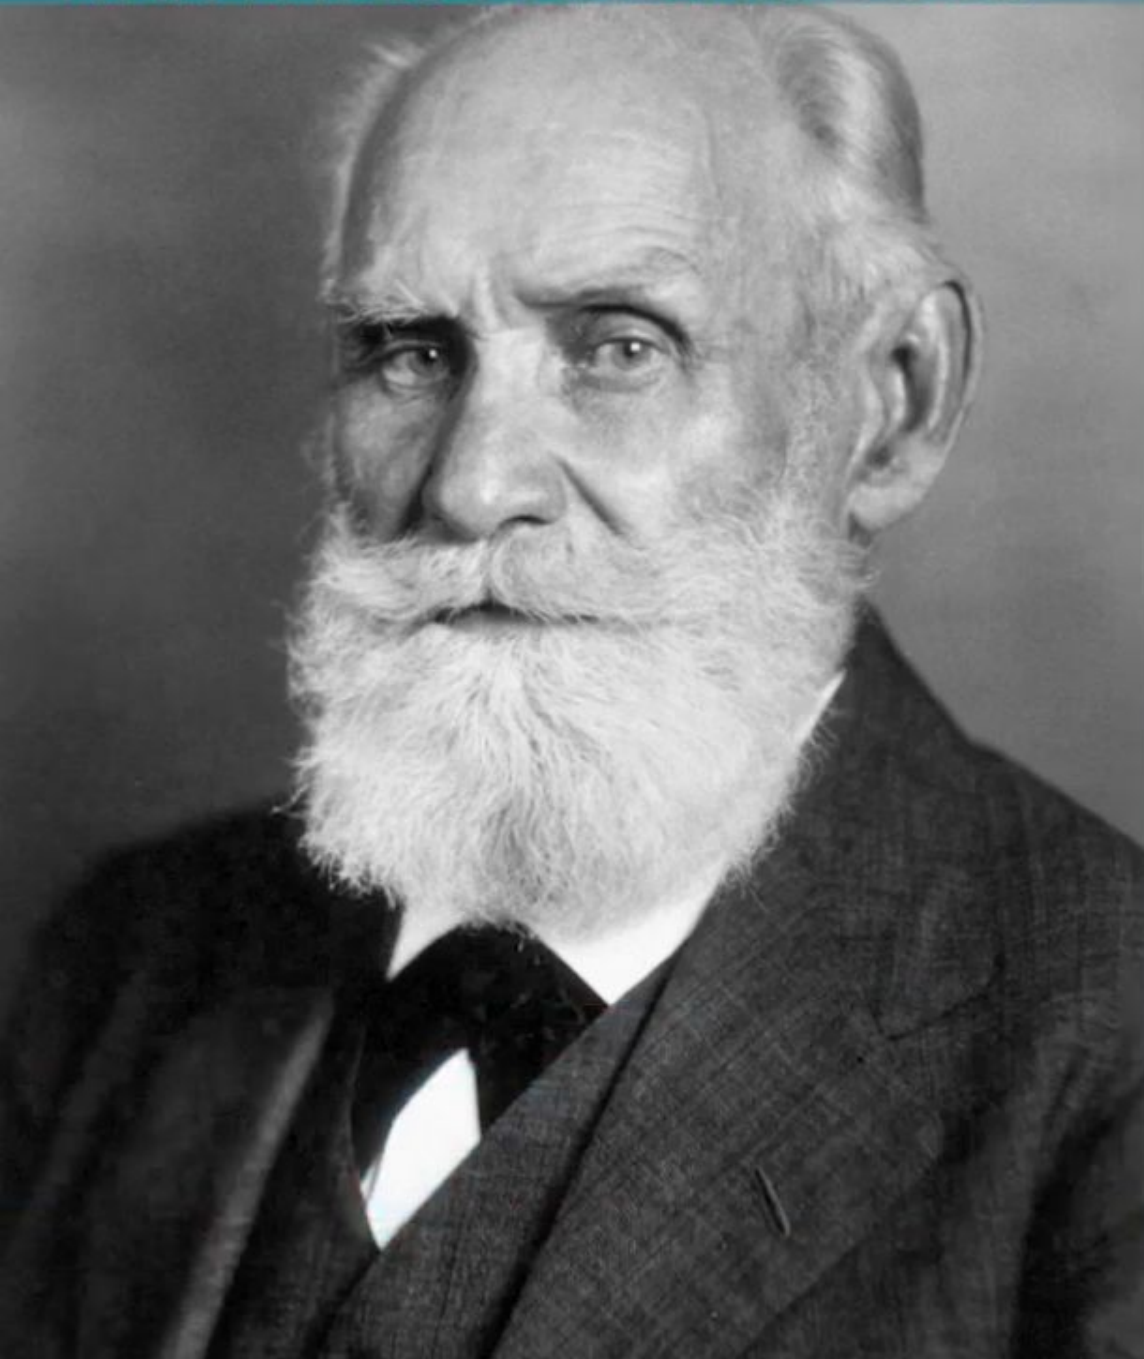

11. What did Pavlov originally set out to study?

☐ a. What would happen if he showed Little Albert a picture of a rat

☒ b. The digestive system of dogs

☐ c. Why dogs drooled at lab coats

☐ d. Why dogs ate so much

Ivan Pavlov

(1849-1936)

***Russian scientist interested
in studying how digestion
works in mammals***

CLASSICAL CONDITIONING

Unconditioned Stimulus

which will produce an

Unconditioned Response

Neutral Stimulus

***which by itself will not
produce a response***

***the neutral stimulus by itself
will produce the same response
as the unconditioned stimulus***

12. Psychological research is used for all of the following EXCEPT:

☐ a. To categorize human behavior

☐ b. To measure human behavior

☒ c. To control human behavior

☐ d. To describe human behavior

13. What is the difference between an unconditioned response and a conditioned response?

☐ a. There is no difference between an unconditioned and a conditioned response

☐ b. An unconditioned response is based on a scientific study, and a conditioned response is based on a psychological study

☐ c. A conditioned response is completely natural, and an unconditioned response is something that we learn

☒ d. An unconditioned response is completely natural, and a conditioned response is something that we learn

14. The ____ states that social stratification has beneficial consequences for the operation of society.

☐ a. Capitalist Theory

☐ b. Karl Marx Theorem

☒ c. Davis-Moore thesis

☐ d. No one would argue the social stratification is beneficial

Social Stratification

***a system by which a society
ranks categories of people in a hierarchy.***

Social Stratification

structural functionalism

social conflict

symbolic interaction

Structural Functionalists

***argue that social inequality plays
a vital role in the smooth operation of society.***

Davis-Moore thesis

social stratification has beneficial consequences for the operation of society.

THE FUNCTIONS OF SOCIAL STRATIFICATION

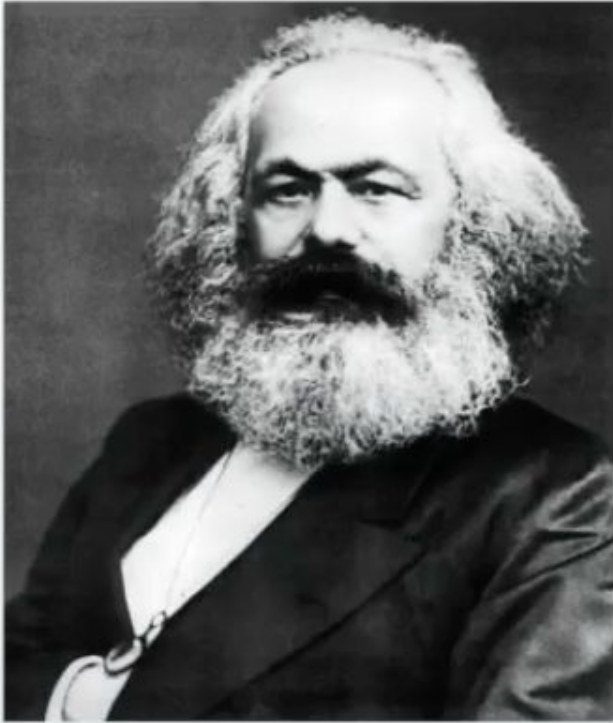

THE FUNCTIONS OF SOCIAL STRATIFICATION

Social Conflict Theorists

***argue that social stratification
benefits some at the expense of others.***

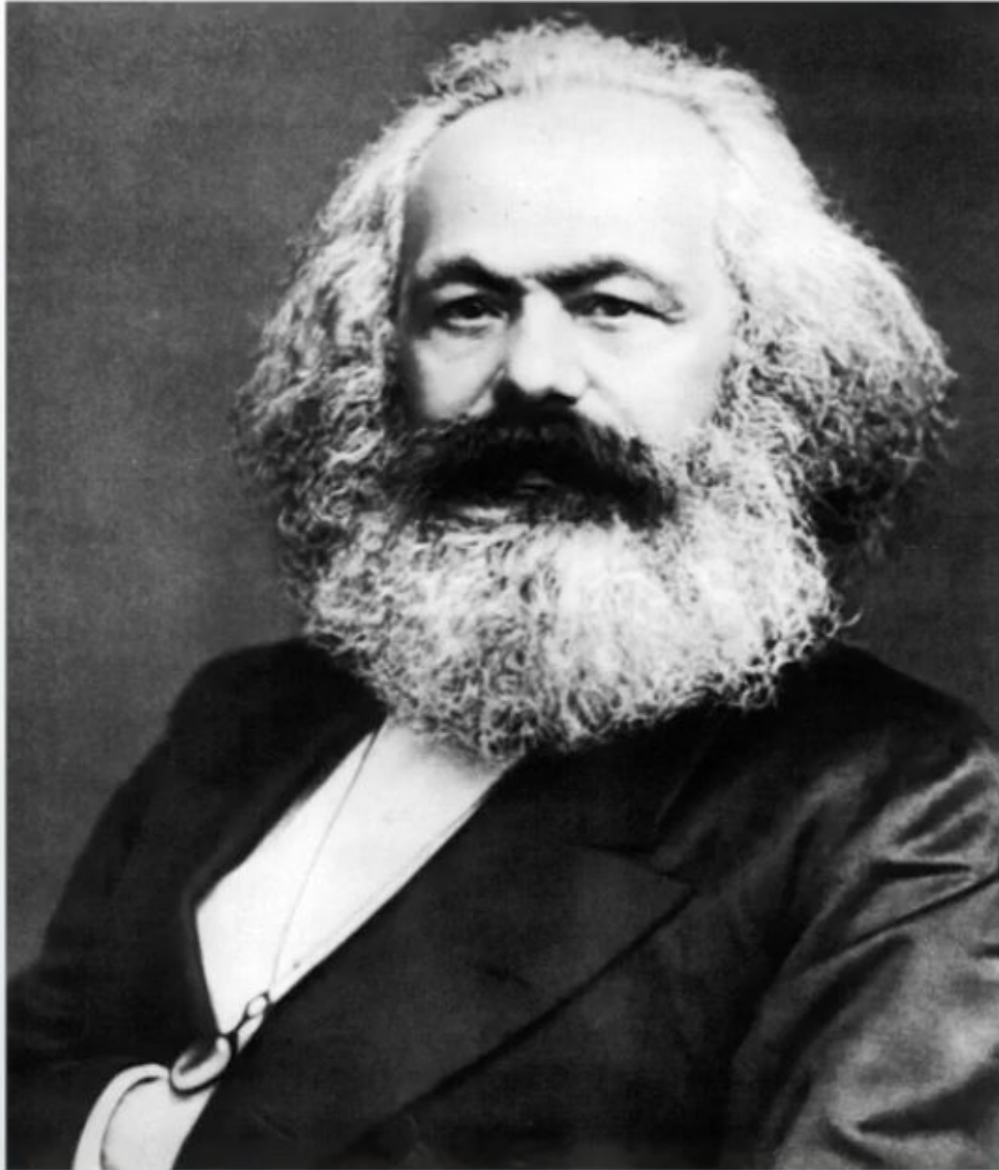

Social Conflict Theorists

Karl Marx

Max Weber

Karl Marx

***German philosopher,
sociologist,
economist,
and revolutionary socialist***

two classes of people

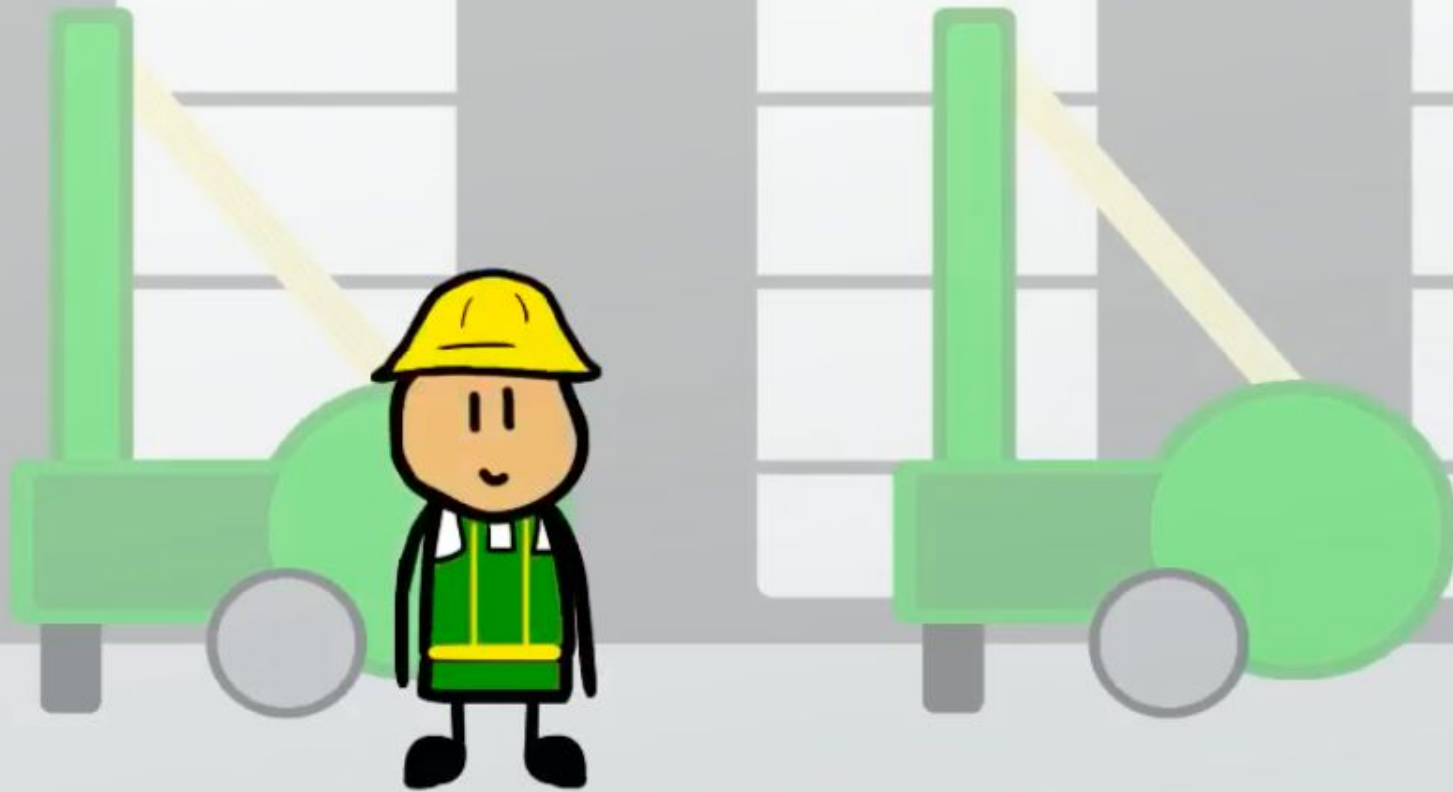

Bourgeoisie

the owners of the means of production

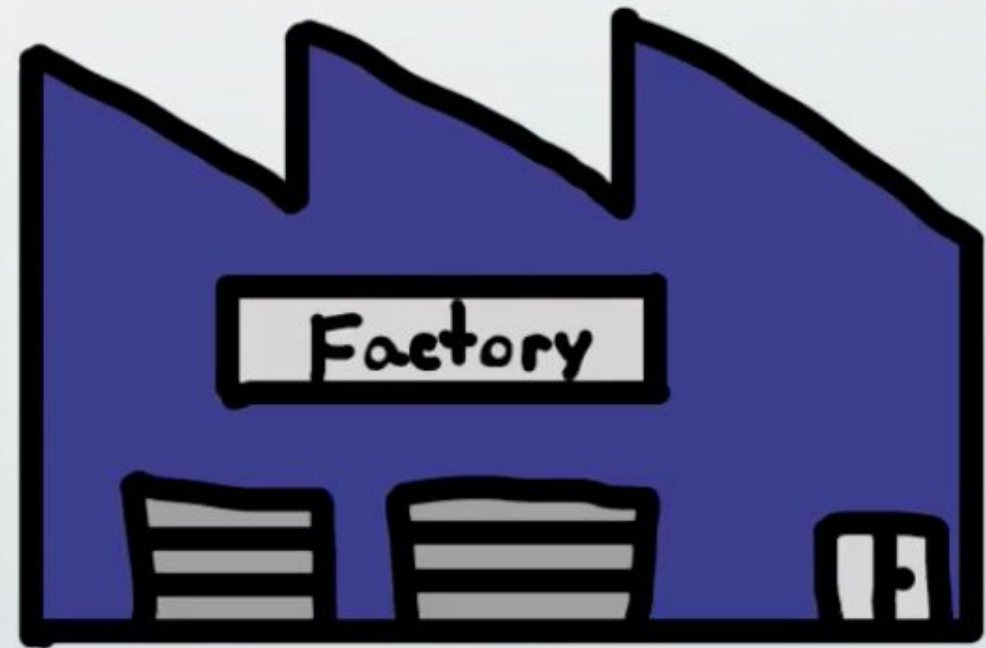

Proletariat

the workers

STRATIFICATION AND CONFLICT

Max Weber

a conflict theorist

***social stratification
causes social conflict***

Max Weber

social class

***power and prestige
in addition to
property or wealth***

Symbolic Interactionist

***analyze how social stratification
helps us see patterns of social inequality
in our everyday lives***

Socioeconomic Status (SES)

***ranking based on various
dimensions of social inequality***

Conspicuous Consumption

***we buy and use products
because of the statement they make
about our social position***

15. The psychology field that focuses on our family and friends influencing our behavior is

☒ a. social psychology

☐ b. clinical psychology

☐ c. developmental psychology

☐ d. humanistic psychology

16. Why are early life experiences so important in psychoanalysis?

☐ a. They form the basis of the superego

☒ b. They shape the unconscious

☐ c. They tell whether a patient had a good childhood

☐ d. They form conscious patterns of thought

17. In psychoanalysis, what is the ego?

☐ a. The person's morality

☐ b. The person's basic desires

 ☒ c. The person's sense of self

☐ d. The ego is all of these

18. ____ refers to traits that are biological or inherited.

☐ a. Genetics

☐ b. Nurture

☐ c. Hormones

☒ d. Nature

19. How did Piaget's theory of development differ from that of Freud?

☒ a. Freud focused on factors that motivate behavior; Piaget focused on intellectual development.

☐ b. Freud focused on factors that motivate behavior; Piaget focused on evolution and natural selection.

☐ c. Piaget viewed development as a product of interaction between biological and environmental forces.

☐ d. Piaget focused on the family unit; Freud was more interested in the individual.

20. According to Freud, people who get into fights tend to be motivated by ____.

☒ a. death instincts

☐ b. libido

☐ c. the superego

☐ d. life instincts

GURONG PINOY

*Maliit man na butil ng mga kaalaman,
ang dulo nito ay malaking kaginhawaan.*
