

**PROFESSIONAL
EDUCATION
TOPNOTCHERS NOTE 3**

1. With the NCBTS as guide promotes fairness?

- a. Builds many professional linkages
- b. Is safe and conducive for learning
- c. Establishes and maintains consistent standards of learner's behavior
- d. The learning environment promotes fairness**

2. Which facilities are present in a health-promoting school environment?

- I. Canteen that sells all kind of food including junk food
- II. Comfort rooms common for boys and girls
- III. Sanitary drinking fountains
- IV. Safe playground

- a. III and IV**
- b. I and II
- c. I, II, III and IV
- d. I, III and IV

3. Which physical school environment supports learning?

- a. Availability of flexible classroom furniture
- b. Prominence of bulletin boards in every building**
- c. Tall school buildings
- d. Presence of spacious classrooms

4. A 15-year-old felt ignored by her crush whom she believes is her one true love. She is crying incessantly and refuses to listen and accept sound advice that the teacher is offering. Her refusal to accept is because.

- a. Teenagers never listen to adult advice.
- b. She thinks what she feels is too special and unique, that no one has felt like this before.
- c. 15-year-olds are not yet capable of perspective taking and cannot take the teacher's perspective.**
- d. The teenager's favorite word is "no", and she will simply reject everything the teacher says.

5. A preschool teacher is thinking about how best to develop the fine motor skills of the 4-year-olds. Which of the following should be best to consider?

- a. Ask the children to do repeated writings drill everyday.
- b. Provide daily coloring book activities.
- c. Conduct a variety of fun and challenging activities involving hand muscles daily.**
- d. Encourage children to eat independently.

6. Science Teacher Karen Ann showed her class a glass of water with an egg in it. She asked the class: "What happens to the egg if I add three tablespoon salt to the glass of water?" This is hypothesis formulation. What can you infer about the cognitive developmental stage of Teacher Karen Ann's class?

- a. Between concrete and formal operational stage
- b. Formal operational stage**
- c. Pre-operational stage
- d. Concrete operational stage

7. Focusing on natural consequences of students' behavior develop more self-regulation in the students. Which of the following teacher statements demonstrates focusing on natural consequences?

- a. "Those who are well-behaved in class will be given plus 5 points in the quiz."
- b. "If it takes you longer to finish the seatwork because time is wasted with chatting, then we won't have time to go to the playground anymore."**
- c. "Those who were noisy today during seatwork will not be allowed to play games in the computer later."

d. If you get a grade of 95 or higher in the first two assignments, you will be exempted from the 3rd assignment.”

8. Learners are more likely to internalize and follow classroom rules when _____.

a. The learners know the punishments for not following the rules.

b. The learners participate in the rule-making process.

c. The teacher clearly explains the rules she prepared.

d. The teacher gives additional points for those who follow the rules.

9. For a teacher to establish and maintain consistent standards of learners’ behavior, they should do all EXCEPT:

a. Handle behavior problems promptly and with due respect to learners’ rights.

b. Give immediate feedback to reinforce appropriate behavior of learners.

c. Be open to exceptions each time a learner misbehaves in class.

d. Communicate and enforce school policies and procedures clearly and consistently.

10. Which statement on student diversity is CORRECT?

a. Teacher must do his/her best to reduce student diversity in class.

b. The less the diversity of students in class, the better for teachers and students.

c. Student diversity is purely due to students’ varied cultures.

d. Teacher should accept the value diversity.

11. Which student thinking/behavior indicates that he/she values diversity?

a. He/She emphasizes on the differences among people and disregards their commonalities.

b. He/She regards his culture as inferior to other’s cultures.

c. He/She regards his culture as superior to other’s cultures.

d. He/She accepts the fact that all people are unique in their own way.

12. What is a teaching – learning implication of student diversity?

a. Compare students.

b. Develop different standards for different students groups.

c. Make use of a variety and assessment methods and activities.

d. Do homogeneous grouping for group activities.

13. Read the following comments by the teacher. Which of these comments will most likely make a child try harder, rather than give up?

a. Nakikita ko na kailangan mong maglaan ng mas mahabang panahon sa paksang ito para lubos mong maunawaan ito.

b. Hindi ka talaga magaling dito sa paksang ito, ‘no?

c. Sinuwerte ka ngayon dito sa test, ha?

d. Nahihirapan ka sa paksang ito. Maari kitang tulungan.

14. Which of the following demonstrates differentiated instruction?

a. The teacher groups the learners by their ability level and assigns different content topics for the groups to work on.

b. The teacher groups the learners by their ability level and makes the groups work with the same topic but assigns a different task appropriate for each group to accomplish

c. The teacher divides the class into three heterogeneous groups and assigns the same activity for each group to work on.

d. The teacher groups the learners by ability levels and assigns each group a different task on the same topic, and then requests three teachers, each to assess one of the groups

15. Which teaching practice gives primary consideration to individual differences?

a. Preparing two different sets of examination, one for the fast learners and another for the slow learners.

b. Allowing children to show that they learned the stages of mitosis in a way where they feel most comfortable except by lecturing.

c. Allowing children to show that they learned the stages of mitosis in a way where they feel most comfortable.

d. Applying two sets of different standards.

16. Which are most likely the kind of children raised by authoritarian parents?

I. Fearful

II. Inhibited

III. Hostile

IV. Withdrawn

a. I, II, III, and IV

b. I and II

c. I, II, and IV

d. II and III

17. If a child was raised by authoritative parents, how will most likely will he/she behave in class?

a. Quarrels often with classmates

b. Is suspicious of others

c. Relates well to classmates

d. Has low level of independence

18. Which parenting style/s contribute/s to the development of children who have low level of responsibility?

a. Authoritative

b. Permissive

c. Authoritarian

d. Neglecting and permissive

19. Teacher Aida believes that students need not know the intended learning outcome of her lesson. She proceeds to her learning activities at once without letting them know what they are supposed to learn for the day. Which principle of learning does Teacher Aida negate?

a. Learning is the discovery of the personal meaning of ideas.

b. Effective learning begins with the setting clear expectations and learning outcomes.

c. Learning process is an active process.

d. Learning is a cooperative and a collaborative process.

20. Teacher Francisco noticed that in group work, students just leave the work to the leader and so vowed never to give group work again. Against which principle of learning is Teacher Francisco decision?

a. Learning is the discovery of the personal meaning of ideas.

b. Learning is an active process.

c. Learning is a cooperative and a collaborative process.

d. Effective learning begins with setting clear expectations and learning outcomes.

21. In his desire to finish the content of the course syllabus, Sir Jethro just lectures while students listen. Which principle of learning does Sir Jethro violate?

a. Learning is a cooperative and a collaborative process.

b. Learning is the discovery of the personal meaning of ideas.

c. Learning is an active process.

d. Effective learning begins with setting clear expectations and learning outcomes.

22. Mr. Rocky asks his pupils to see the connection of their new lesson to their own personal experiences and share the same with the class. Mr. Rocky believes in which principle of learning?

- a. **Learning is the discovery of the personal meaning of ideas.**
- b. Learning is a cooperative and a collaborative process.
- c. Learning is an active process.
- d. Effective learning begins with setting clear expectations and learning outcomes.

23. Sir Uchiha avoids drills out of context. He gives real-world Math problem for students to drill on. Sir Uchiha is very much convinced of which principle of learning?

- a. Effective learning begins with setting clear expectations and learning outcomes.
- b. Learning is an active process.
- c. **Learning is the discovery of the personal meaning of ideas.**
- d. Learning is a cooperative and a collaborative process.

24. For meaningful teaching and learning, it is best to connect the lesson to the life of students by integrating a relevant value in the lesson. Which principle is applied?

- a. Write SMART lesson objectives/intended learning outcomes.
- b. Begin with the end in mind.
- c. Share lesson objectives/ intended learning outcomes with students.
- d. **Lesson objectives/intended learning outcomes must integrate 2 or 3 domains – cognitive, skill and affective or cognitive and affective or skill and affective.**

25. Teacher Ermelina shared this lesson objective/learning outcome with her students: “Before the period ends, all of you must be able to identify the topic sentence and supporting sentences of a given paragraph.” Teacher Ermelina drilled them on subject-verb agreement to ensure that they can write a good paragraph then gave a ten-sentence paragraph for the students to determine subject-verb agreement before the class period ended. Did Teacher Ermelina use the lesson objective/learning outcome as guide in the development of her lesson?

- a. A little, because subject-verb agreement is a must in paragraph writing
- b. **No.**
- c. Yes.
- d. Very much, because she made use of a ten-sentence paragraph for the end-of-the-period quiz

26. Here is a lesson objective: “At the end of the lesson, the pupils must be able to develop a positive attitude towards work.” Is this a SMART objective?

- a. Yes, if the word “develop” is replaced with “create”
- b. **Not at all, develop is a non-behavioral term**
- c. Partly, it is in the affective domain
- d. Very much it is specific

Read the situation then answer the questions for number 27-32.

Teacher Joselito taught the parts of a microscope, demonstrated how to focus it under the low power objective, then asked 3 students to try to focus the microscope correctly. He also asked the class if the 3 students were able to focus the microscope correctly and ended his lesson citing the “don’ts” and explaining the “why’s” behind the “don’ts” in focusing the microscope. Before he did all these, he asked the class if it is not important for them to learn how to focus the microscope.

27. Based on Kendall’s and Marzo’s new taxonomy, in what domains was Teacher Joselito’s lesson?

- I. Information (Declarative knowledge)
- II. Mental procedure (procedural knowledge)
- III. Psychomotor procedures (Physical skills)
- a. II and III
- b. II only

- c. I and II
- d. I, II and III**

28. Which part of Teacher Joselito's lesson consists of mental procedure (procedural knowledge)?

- I. Asking the class if the 3 students focused the microscope correctly
- II. Explaining the "why's" behind the "don'ts"
- III. Focusing the microscope

- a. I only**
- b. II only
- c. I and II
- d. I, II, and III

29. Based on Bloom's taxonomy, which part of Teacher Joselito's lesson is in the psychomotor domain?

- a. Asking the class if it is important to learn how to focus the microscope
- b. Explain the "why's" behind the don'ts
- c. The 3 pupils focusing the microscope**
- d. The pupils listening to the "don'ts" in focusing the microscope

30. If Teacher Joselito's lesson objective/intended learning outcome is "to focus the microscope correctly", could he have just shown the class how to do it without explaining the parts of the microscope and their corresponding functions?

- a. Yes, 21st Century students learn skill very fast.
- b. Yes, but risky.
- c. No.
- d. No, it is basic for the students to know the function of each part. This guides the students on how to focus the microscope.**

31. If explaining and demonstrating are necessary for Teacher Joselito to realize his lesson objective/intended learning outcome, what does this imply on lesson planning and development for whole and meaningful learning?

- a. Plan a lesson that is exclusively for skill or for information.
- b. You make lesson focus only information.
- c. Always touch the affective domain of learning.
- d. Integrate the domains of learning activities.**

32. Which part of Teacher Joselito's lesson is in the affective domain?

- a. Asking the students if learning to focus the microscope is important**
- b. The "don'ts" in focusing the microscope
- c. Teacher Joselito demonstrating to the class first how to focus the microscope before asking the 3 to focus the same in order to avoid accident
- d. Explain the why behind the "don'ts" in microscope focusing

33. Teacher Mgcalen wanted her students to rate their own work using the scoring rubric which she explained to the class before the students began with their task. Based on revised Bloom's taxonomy, in which level of cognitive processing are the students?

- a. Applying
- b. Analyzing**
- c. Synthesizing
- d. Evaluating

34. You are required to formulate your own philosophy of education in the course, The Teaching Profession. Based on Bloom's revised taxonomy, in which level of cognitive processing are you?

b. Deductive

- c. It depends on your type of generalization
- d. It depends on the quantity of details you bring in

48. When you begin teaching with concrete experience then come in with conclusion, which method do you employ?

a. Inductive

- b. Deductive
- c. It depends on you type of generalization
- d. It depends on the quantity of details you bring in

49. Learning is an active process. Which one is an application of this principle?

- a. Teach your content from a multidisciplinary perspective.
- b. Let students learn the steps in opening a computer by making them follow the steps.**
- c. Avoid drills which are out of context.
- d. Group students for work or project that way project becomes less expensive.

50. The more senses that are involved, the more and the better the learning. Which practice is aligned with this principle?

- a. Employ cooperative learning.
- b. Teach using mostly verbal symbol.
- c. Bring students to field trips with the consent of school and parents.**
- d. Invite parents as resource speakers in class.

51. A non-threatening atmosphere enhances learning. Which practice is an offshoot of this principle?

- a. No bullying**
- b. No homework
- c. No praising
- d. No scolding

52. Emotion has the power to increase learning. To apply this principle, teacher must _____.

- a. Be emotional when he/she teaches.
- b. Spice class with his/her sense of humor.
- c. Make course difficult for students to remember and learn.
- d. Touch students' emotion when he/she teaches.**

53. Good teaching goes beyond recall of information. So what must a teacher do?

- a. Teach as many facts as you can.
- b. Teach for test purposes only. Teach to the test.
- c. Make students connect facts learned to form concepts and abstractions.**
- d. Use multisensory aids to teaching.

54. Learning is meaningful when it is connected to students' everyday life. What is an application of this principle in teaching?

- a. Teacher makes everyday life the starter of his/her lesson.
- b. Teacher asks students to come up with clippings of Filipino life.
- c. Teacher asks the class to show application of what they learned to their daily life.**
- d. Teacher narrates true-to-life stories.

55. An integrated teaching approach is far more effective than teaching isolated bits of information. What then should teacher avoid?

- a. Knowledge utilization

b. Teaching to the test

- c. Use of problem solving method
- d. Summarizing lesson

Read the situation then answer the questions for number 56-59.

Teacher Kimberly proceed to her lesson without stating the intended learning outcomes for the hour. She asked her students to work on Seatwork # 3 found in the Math Workbook, pp. 3-4. After 40 minutes , the students corrected their own answer as Teacher Kimberly dictated the answer.

56. Was development of the lesson in accordance with outcomes-based teaching and learning? 56. Was Teacher Kimberly able to properly assess the achievement of the learning outcomes?

- a. Yes, the students corrected their own papers.
- b. Yes, the students corrected their own work.
- c. No, the students were not shown were how the answers were derived.
- d. No. the learning outcomes were not stated and so it was not clear what was supposed to be assessed.**

57. What is an OBE/OBTL practice in Teacher Kimberlie's class?

- a. Students' correcting their own answers
- b. The seatwork
- c. Teacher Jing gave the answers
- d. None at all**

58. If Teacher Kimberly develops lesson the OBTL way, what should she do?

- a. Make students understand what they are expected to know and able to do after the lesson**
- b. Make students arrive at the answers.
- c. Correct the seatwork.
- d. Make seatwork as homework.

59. In OBTL, upon which should my assessment be based?

- a. Scope of subject matter
- b. Content
- c. Teaching and Learning activity
- d. Intended learning outcome**

60. I wasn't satisfied with Student Negrong Sugays yes as an answer and so I asked her to explain why? Which did I do?

- a. Prompting
- b. Asking non-directed question
- c. Probing**
- d. Rephrasing

61. Teacher Urbino claims he can't accept an "I don't know" answer. So he does _____.

- a. Repeating the question
- b. Probing
- c. Prompting**
- d. Asking non-directed question

62. To obtain well-thought out answers, which questioning behavior helps?

- a. Involving as many as possible
- b. Asking non-directed question
- c. Allowing sufficient time**
- d. Asking open-ended questions

63. This is my questioning behavior: I ask the question, I pause for a while then call on a student. Which is this questioning practice?

- a. Involving as many as possible**
- b. Asking non-directed question
- c. Asking for non-volunteers
- d. Directing a question

64. You get a partially correct answer. You may say “yes but a part needs improvement”. How did you handle the response?

- a. Gave appropriate praise
- b. Provided a corrective feedback**
- c. Provided an acceptance feedback
- d. Criticized student’s response

65. A question is raised by one student. You don’t answer it but throw back the question to the class. Which is this reacting behavior?

- a. Soliciting students’ questions
- b. Redirecting questions to other pupils**
- c. Providing corrective feedback
- d. Asking follow up question

66. Which practice doesn’t promote interaction?

- a. Repeating and expanding on a student’s answer
- b. Soliciting students’ questions
- c. Rejecting student’s answer outright**
- d. Rephrasing the question

67. You want to develop students’ critical thinking skills. Which type of questions should you ask?

- | | |
|--------------------------|--------------------------|
| I. Closed questions | II. Convergent questions |
| III. Divergent questions | IV. Open-ended questions |
- a. I and IV
 - c. II and III
 - b. I and II
 - d. III and IV**

68. Which type of question will least promote interaction among students?

- a. Divergent
- b. Convergent**
- c. Conceptual
- d. Inference

69. All are responsibilities of the Learning Resource/ AudioVisual/ Educational Technology Center of a school EXCEPT _____.

- a. Work with teachers in producing instructional materials
- b. Make available technology equipment for use of teachers and students.
- c. Conduct training for teachers on how to use technology tools.
- d. Accomplish the students’ technology project for them.**

70. The Learning Resource / Audio-visual / Educational Technology Center regularly provides the Teachers a list of websites, apps and instructional materials available in the city which are relevant to the different subjects they teach. This fulfills which function?

- a. A link to other community resources
- b. Recreational reading center
- c. Center of resources**
- d. Laboratory of learning

71. The Learning Resource / Audio-visual / Educational Technology Center sponsors a seminar-workshop for teachers and administrators on the use of the latest presenter applications. This fulfills which function?

- a. Center of resources
- b. Coordinating agency
- c. Recreational reading center
- d. Agent of teaching**

72. In order for the students to clearly understand the structure and content of the teacher's presentation, the teacher should have_____.

- a. Several years of experience as a presenter
- b. A short preview**
- c. A summary
- d. A short conclusion

73. Miss Ally is preparing slides for her lesson demonstration, she remembers to supply the rule of six. Most likely she will _____.

- a. Identify six important points to discuss and use about six minutes to explain each point.
- b. Include six paragraphs presented in six slides.
- c. Limit her presentation to six with six sentences on each slide.
- d. Have six lines on each slide with each line having not more than six words.**

74. Miss Jenice is very excited to do her presentation about the effects of global warming to Grade 5 students. She wants to make sure the children will be interested. While preparing her slides, she should _____.

- a. Put animation and slide transition on each slide to sustain attention
- b. Include pictures and a short video clip that captures the effects of global warming**
- c. Use a different slide design with nature images for each slide to sustain interest
- d. Put one paragraph per slide to emphasize the facts about the global warming

75. Miss Alhambra is planning technology integration in her science lesson on states of matter. She is applying her pedagogical knowledge when she _____.

- a. Studies how to attach a video to her audio-visual presentation
- b. Looks into the characteristics and interests of the learners in order to choose activities that would match them**
- c. Learn how to scan picture to include in her presentation
- d. Researches further on plasma as another state of matter

76. Mr. Reyes is planning technology integration in his social studies lesson on the EDSA Revolution. He is applying his content knowledge when he _____.

- a. Sets up a wikispaces account for his students to blog the EDSA Revolution lesson
- b. Uses Prezi as an option to using powerpoint in his presentation
- c. Includes information from EDSA revolution video documentaries**
- d. Considers the learners' multiple intelligences before intelligences before preparing his technology integration plan

77. Ms. Lilanie is implementing a technology-integration activity for 4th graders to work on multiplication of two digit numbers. Which of the following illustrates the interaction of the teacher's technological, pedagogical, and content knowledge?

- c. English
- d. Mathematics

191. It is always important for a teacher to transfer learning and practices from the school to the _____.

- a. City
- b. Sports complex
- c. Church
- d. Community**

192. The community holds high respect of a teacher if he/she is a _____.

- a. Gambler
- b. Rumor monger
- c. Role model**
- d. Money lender

193. The most challenging components of teaching in another country is _____.

- a. Making instructional materials
- b. Mastery of the subject matter
- c. Constructing assessment too
- d. Adjusting to cultural differences**

194. Teaching is a universal vocation. Wherever the teacher is assigned, his or her primary concern is to _____.

- a. Be the most important person.
- b. Earn a good salary
- c. Do self-sacrifice.
- d. Make the students learn.**

195. In the 21st century, the fastest development or change that the teacher should catch up with as a teacher is in the _____.

- | | | |
|----------------------|-----------------------------|-----------------------------|
| I. Use of technology | II. Knowledge globalization | III. Practice collaboration |
| a. I and II | c. I only | |
| b. II and III | d. I, II, and III | |

196. For a Filipino teacher to succeed in teaching in the country and elsewhere in the world, he or she should _____.

- | | |
|--|--------------------------|
| I. Master and practice the competencies of the NCBTS | |
| II. Be multilingual and multicultural | |
| III. Think and act both locally and globally | |
| a. I only | c. I, II, and III |
| b. I and II only | d. II only |

197. After the 1987 Philippine Constitution, the first legal basis to make teaching as a profession and consider teachers are professional was _____.

- a. Code of Ethics for Professional Teachers
- b. RA 7640
- c. PD 1006
- d. RA 7836**

198. Who among these graduates is not qualified to take the Licensure Examination for Teacher (LET)?

- a. Bachelor of Science in Mathematics
- b. Bachelor of Elementary Education
- c. Associate in Arts**
- d. Bachelor of Agricultural Education

199. All the Filipino professional teachers must have _____.

- a. Teaching experience

- b. Published research article
- c. A recognized master's degree
- d. A professional teacher's license**

200. Which of the following practices is NOT allowed in the Code of the Ethics for Professional Teachers?

- a. Teachers shall accept tutorial fees for the slow learners in her class.**
- b. Teachers shall ensure that teaching upholds the highest standards.
- c. Teachers shall establish maintain cordial relation with parents.
- d. Teachers shall live with dignity in all places at all times.
