

PRACTICE TEST 1

1st attempt 2nd attempt
89
100

General Instructions:

1. This test booklet contains 150 test questions for **GENERAL EDUCATION** and 150 test questions for **PROFESSIONAL EDUCATION**. Examinee shall manage to use 5 hours.
2. Read **INSTRUCTIONS** to **EXAMINEES** printed on your answer sheet.
3. Shade only the box that corresponds to your answer sheet using your pencil No.2. Two or more boxes shaded will invalidate your answer. There is only one answer to each question.
4. In case you find no correct answer please shade option "E"
5. Do not write anything on the test booklet. **AVOID ERASURES**.
6. Kindly detached the **ANSWER SHEET** at the back.

GOOD LUCK!

GENERAL EDUCATION

Multiple Choice:

1. All of the delegates of the Miss Universe pageant are _____ in the lobby of the hotel.

A. altogether
B. alltogether

C. all together
D. together all

2. Melody _____ on her bed the whole evening last night.

A. lay

LET SPECIALIST

27. The monologue of Prince Hamlet, "To be or not to be", expressed what kind of emotion?

- A. Indecision
- B. Anger
- C. Self-pity
- D. Doubt

28. The swimmers placed their used towels _____ the table.

- A. in
- B. inside
- C. on
- D. into

29. He was still _____ 43rd Avenue when I called him up.

- A. in
- B. into
- C. on
- D. at

30. "Do not leave for tomorrow what you can do for today". This sentence pertains to _____.

- A. proliferation
- B. prediction
- C. profess
- D. procrastination

31. Which of the following is the least prime?

- A. 149
- B. 137
- C. 123
- D. 117

32. The least common multiple of 6, 7, and 9 is _____.

- A. 378
- B. 189
- C. 126
- D. 63

33. The GCF of 92 and 115 is _____.

- A. 46
- B. 23
- C. 13
- D. 6

34. Which of the following is arranged in decreasing order?

- A. $\frac{5}{7}, \frac{4}{9}, \frac{2}{7}, \frac{1}{9}$
- B. $\frac{3}{5}, \frac{2}{6}, \frac{4}{7}, \frac{7}{9}$
- C. $\frac{9}{11}, \frac{4}{7}, \frac{3}{5}, \frac{2}{3}$
- D. $\frac{2}{5}, \frac{3}{6}, \frac{4}{7}, \frac{5}{9}$

35. Simplify $2\frac{5}{6} + 5\frac{2}{3} - 1\frac{3}{4}$

- A. $5\frac{5}{12}$
- B. $5\frac{3}{4}$
- C. $5\frac{3}{4}$
- D. $6\frac{3}{4}$

36. The ten thousandths digit of 98, 765.432 1 is ____.
- A. 8
B. 8
C. 2
D. 1
37. What is 0.0056 in simplest fraction form?
- A. $\frac{7}{125}$
B. $\frac{7}{25}$
C. $\frac{14}{25}$
D. $\frac{14}{2500}$
38. The price of a condominium unit increased by 700, 000 pesos after it was turned over. If the selling price is 2.8 million pesos, how much percent has the value of the condominium appreciated?
- A. 20%
B. 25%
C. 40%
D. 50%
39. Due to high demand, the price of a certain product increased by 27.5%. If the original price is \$ 145, how much is the price increase?
- A. \$ 389.75
B. \$ 244.75
C. \$ 184.875
D. \$ 39.875
40. Which property of real numbers best describes the equation $-4(x - 2) = -4x + 8$?
- A. Distributive
B. Commutative
C. Associative
D. Closure
41. Mavie can type 12 pages in 15 minutes. How long will it take him to type 28 pages?
- A. 30 minutes
B. 32 minutes
C. 35 minutes
D. 36 minutes
42. Gerry was able to travel 76 km in 40 minutes. How far can he travel in 1 hour and 20 minutes?
- A. 1 hour and 32 minutes
B. 2 hours and 32 minutes
C. 2 hours and 48 minutes
D. 3 hours and 12 minutes
43. The interior angles of a triangle follow the ratio 1:3:5. By how much is the largest angle greater than the smallest?
- A. 100°
B. 80°
C. 60°
D. 50°
44. What property of real number illustrates the equation $2x - 10 = -10 + 2x$?
- A. Closure
B. Associative
C. Commutative
D. Distributive

45. Which of the following is a polynomial?

A. $-\sqrt{x}$

B. $\frac{5}{y^4}$

C. $14xyz^{-1}$

D. $x^2\sqrt{3}$

46. The sum of the ages of Bert and Bart is 32. In two years, Bert will be three times as old as Bart. How old are they now?

A. 23 and 9

B. 24 and 8

C. 25 and 7

D. 26 and 6

47. Determine the product of $(3x - 4)$ and $(2x^2 - 3x - 5)$.

A. $6x^3 - 17x^2 - 3x + 15$

B. $6x^3 - 17x^2 + 3x + 15$

C. $6x^3 - 17x^2 - 3x + 20$

D. $6x^3 - 17x^2 + 3x + 20$

48. Divide $(3x^3 - 18x^2 - 5x + 30)$ by $(x - 6)$.

A. $3x^2 + 5$

B. $3x^2 - 5$

C. $x^2 + 5$

D. $x^2 - 5$

49. Two consecutive odd numbers have a sum of 108. What are the two numbers?

A. 54 & 55

B. 54 & 56

C. 53 & 55

D. 55 & 57

50. In how many ways can a photographer arrange 5 men and 7 women in a row such that similar genders are seated together?

A. 479 001 600 ways

B. 604 800 ways

C. 5040 ways

D. 35 ways

51. How many different letter arrangements can be formed from the word Philippines?

A. 6, 652, 800

B. 1, 108, 800

C. 831, 600

D. 166, 320

52. Which of the following does not belong to the group?

A. trapezoid

B. rectangle

C. rhombus

D. square

53. The area of a triangle is 28 sq. cm. Solve for the length of its base if its height is 7cm.

A. 6cm

B. 7cm

C. 8cm

D. 9cm

54. Determine the volume of an ice cream cone which has a height of 12 cm and a base radius of 3.5 cm
- A. $147 \pi \text{ cm}^2$
B. $72 \pi \text{ in}^2$
C. $49 \pi \text{ in}^2$
D. $12 \pi \text{ in}^2$
55. Lauder is planning to borrow 850, 000 pesos from the bank at a rate of 4.5% for 3 years. How much interest does Lauder have to pay?
- A. 964, 750 pesos
B. 888, 250 pesos
C. 114, 750 pesos
D. 38, 250 pesos
56. Assume you invested \$ 5 000 in an account that makes 3.25% interest compounded semi-annually and kept it for 9 years. How much interest will you earn?
- A. \$ 6, 683.13
B. \$ 5 335.17
C. \$ 1, 462.5
D. \$ 335.17
57. Simplify the expression $5 - 4(3 - 4)^3 + 10 \div 2$.
- A. 14
B. 9.5
C. 6
D. 4.5
58. In a standard deck of cards, what is the probability of drawing a red card and a face card?
- A. 19/26
B. 8/13
C. 15/26
D. 4/13
59. If a letter will be chosen at random from the English alphabet, what is the probability that the letter is a vowel?
- A. 5/21
B. 5/26
C. 13/26
D. 21/26
60. In how many ways can 5 persons be seated on a round table?
- A. 5×5
B. 6!
C. 5!
D. 4!
61. Alin ang tumutukoy sa proseso ng paghahatid at pagtanggap ng mensahe?
- A. Wika
B. Chat
C. Midya
D. Komunikasyon
62. Ito ang tawag sa pinakamaliit na yunit ng salita na may taglay na kahulugan.
- A. Ponema
B. Leksikal
C. Morpema
D. Artikulasyon

63. Alin ang hindi tugma sa pagsasabing ang "Filipino ay buhay na wika."?
- A. Gamit ito sa pagtuturo sa partikular na lugar
 - B. Ito ay nagbabago.
 - C. Ito ay umuunlad.
 - D. Ito ay yumayaman dahil sa mga salitang hiram.
64. Alin sa mga salita ang binibigkas nang malumi?
- A. Palo
 - B. Galing
 - C. Lasa
 - D. Daga
65. Ang komunikasyong ginagamitan ng mata ay tinatawag na _____.
- A. Chronemics
 - B. Emphatic
 - C. Paralanguage
 - D. Oculesics
66. Ito ay kontekstong komunikasyon na ang mensahe at kahulugan ay nabubuo sa sariling isip lamang.
- A. Pampubliko
 - B. Intrapersonal
 - C. Pambansa
 - D. Interpersonal
67. Walang intensyong ipadala o ihatid ang mensahe ng tagapagpadala subalit nabigyang interpretasyon ito ayon sa nararamdaman ng tagatanggap.
- A. Miskomunikasyon
 - B. Aksidental na komunikasyon
 - C. Tinangkang komunikasyon
 - D. Tagumpay na komunikasyon
68. Alin ang itinuturing na modernong Balagtasan?
- A. Fliptop
 - B. Pick-up line
 - C. Hugot line
 - D. Blog
69. Ito ang itinuturing na makapangyarihang midya?
- A. Radyo
 - B. Telebisyon
 - C. YouTube
 - D. Dyaryo
70. Sa anong propesyon o larangan nabibilang ang mga terminong tulad ng exhibit, appeal, complainant?
- A. Abogado
 - B. Artist
 - C. Doktor
 - D. Guro
71. Ito ay estilo ng pagsasalitang ginagamit sa tiyak na bilang ng awdyens na hindi kailangan ng mataas na antas ng pormalidad katulad ng sa klasrum o mga forum.
- A. Casual style
 - B. Oratorical Style
 - C. Deliberative style
 - D. Consultative style

72. Tinatawag din itong PALATUNUGAN.

- A. Morpolohiya
- B. Semantiks
- C. Ponolohiya
- D. Sintaks

73. Sa mga ponemang segmental, ang mga salitang tulad ng litaw, saliw at sanay ay nagtataglay ng _____.

- A. Diptonggo
- B. Klaster
- C. Pares minimal
- D. Ponemang malayang nagpapalitan

74. Ito ay tumutukoy sa makabuluhang tunog na maaaring makapagpabago sa kahulugan ng isang salita.

- A. Digrapo
- B. Pagbabagong Morpoponemiko
- C. Ponemang suprasegmental
- D. Ponemang segmental

75. Maraming buwaya sa ilog.

Ang salitang may salungguhit ay nagtataglay ng anong uri ng pagpapakahulugan?

- A. Konotatibo
- B. Semantika
- C. Denotatibo
- D. Pragmatika

76. Ang malamig na inuming nakalagay sa baso ay _____ ko.

- A. Hinigop
- B. Nilaklak
- C. Ininom
- D. Sinipsip

77. Alin ang mali o wala sa pangungusap?

Mahalagang gabay ng magulang ang mga anak upang di sila mapariwara. Walang mali

A B C D

- A. A
- B. C
- C. B
- D. D

78. Alin sa mga sumusunod na pangatnig ang siyang ginagamit sa paglilinao o dagdag na paliwanag?

- A. Samakatuwid
- B. Bukod-tangi
- C. Maliban
- D. Humigit-kumulang

79. Ang buhay ni Ellen ay isang bukas na aklat. Isinasaad sa patayutay na pahayag na _____.

- A. Hindi solo ng isang artista ang kanyang buhay.
- B. Ang kanyang buhay ay masalimuot.
- C. Alam ng lahat ang kanyang buhay.
- D. Ang isang artista ay handang tumulong sa lahat.

80. Sampung bibig ang umaasa sa akin. Anong uri ng pang-uring pamilang ang ginamit sa pangungusap?
- A. Patakaran
B. Panunuran
C. Patakda
D. Pamahagi
81. Ano ang salitang-ugat sa KABUKTUTAN?
- A. Buka
B. Buktot
C. Baktot
D. Bukot
82. Alin ang pag-aaral sa wastong paggamit ng mga salita sa pangungusap?
- A. Gramatika
B. Pagbaybay
C. Semantika
D. Sistema
83. Ito ay kakayahang tumutukoy sa paraan ng paggamit ng mga coping o survival strategies upang punan ang limitadong kaalaman sa tuntunin sa wika at kontekstong sosyo-kultural para sa maayos na komunikasyon.
- A. Kakayahang Istratedjik
B. Kakayahang Sosyolingwistik
C. Kakayahang Pragmatik
D. Kakayahang Diskorsal
84. Tinatawag din itong temporal communication.
- A. Vocalics
B. Chronemics
C. Haptics
D. Objectics
85. Alin ang hindi kabilang sa katangian ng mabuting pananaliksik?
- A. Subhetibo
B. May sinusunod na proseso
C. Kritikal ang mga datos.
D. Mayaman sa ginagamit na mga datos
86. Alin ang menor na pangungusap na eksistensyal?
- A. Ayos ako.
B. Kunin mon ang lahat.
C. Ganda naman.
D. Wala pa.
87. Alin ang pangungusap na tambalan?
- A. Sina Rowena at Fe ay inimitahan ko sa aking kaarawan.
B. Maligo ka na habang naghahanda ako ng almusal.
C. Si ate ang nag-aalaga sa amin samantalang si kuya ang naghahanap-buhay.
D. Maganda at mabait sina Jia at Trisha.
88. Ang pangongopya ng mga datos, Ideya, pangungusap, balangkas ng akda, programa, himig at iba pa na hindi kinilala ang pinagmulan o kinopyahan ay tinatawag na _____.
- A. Pandaraya
B. Plagiarismo
C. Pangangalap
D. Pagtatala

89. Alin ang tulang Liriko?
- A. Balagtasan
B. Karagatan
C. Duplo
D. Pastoral
90. Anong ayos ng pangungusap ito? Sinira mo ang aking tiwala.
- A. Karaniwan
B. Di- Karaniwan
C. Payak
D. Paturolo
91. Ito ang akdang naging batayan ng demokrasya sa daigdig.
- A. Bibliya
B. Uncle Tom's Cabin
C. Koran
D. Aklat ng mga Araw
92. Lumayas si Gabo dahil magaan ang kamay ng kanyang ama.
- A. Malikot
B. Magaling magmura
C. Madaling manakit
D. Palautos
93. Arrange the following steps in the most logical order of scientific investigation.
- I. Formulate the hypothesis
II. Perform the experiment
III. State the problem
IV. Draw the generalization
- A. III, I, II, IV
B. III, IV, II, I
C. III, II, I, IV
D. III, II, IV, I
94. What is the real activity of Science that takes place in the minds of scientists?
- A. Setting up of materials before performing experiment
B. Formulation of hypothesis
C. Observation and interpretation of data
D. Application after drawing conclusion
95. Of the following terms, the one that does not belong to the group is the _____.
- A. Computer
B. Centrifuge
C. Hypothesis
D. Hemodialyzer
96. In the race between the man and the dog, the man appeared to move faster than the dog and finished the race ahead. How will you describe the motion of the two during the race?
- A. The man travelled a longer distance than the dog.
B. The dog used a longer time to finish the race.
C. The man used a shorter time to finish the race.
D. The man and the dog travelled the same distance at the same time.

97. What law of motion is involved in the sign "Fasten Your Seat Belt"?
- Law of Universal Gravitation
 - Law of Inertia
 - Law of Acceleration
 - Law of Interaction
98. A ball rolls down an inclined plane. Which of the following is not correct to describe the potential and kinetic energy of the ball?
- The greatest potential energy is at the highest end of the inclined plane.
 - The greatest kinetic energy is at the lowest end of the inclined plane.
 - Kinetic energy is transformed to potential energy as it rolls downward.
 - Potential energy is transformed to kinetic energy as it rolls downward.
99. A block of wood is floating in water. What is the density of this block of wood if three-fourths of the block is submerged in water?
- Greater than the density of water
 - More than half the density of water
 - Equal to the density of water
 - Less than half the density of water
100. Of the energy sources listed below, which one is considered as the most abundant but still not fully developed?
- Oil
 - Sun
 - Water waves
 - Wind
101. Which of the following does not describe the temperature of a given body?
- It is the total kinetic energy of the molecules of the body.
 - It is the average kinetic energy of the molecules of the body.
 - It is the measure of the hotness and coldness of the body.
 - It is measured by a thermometer.
102. Bats, which are nocturnal animals, can fly swiftly in the dark without bumping to something hard. This is because _____.
- They have supersonic eyes in the dark.
 - They project fluorescent light in the dark.
 - They have sonar at the tip of the nose that emits sound waves.
 - They are well adapted to fly in the dark.
103. A mirage is sometimes experienced by a driver while traveling along the highway during hot summer day. This is due to the _____.
- Refraction and reflection of light
 - Interference and diffraction of light
 - Reflection and diffraction of light
 - Sudden rainfall that causes the highway to become wet

104. Three identical bulbs, A, B and C and a battery, V are connected in a series. What happens to bulb A and B if bulb C burns out?
- A. A and B burn out so they do not light up.
 - B. A and B do not burn out but they do not light up.
 - C. A and B are not affected and they still light up.
 - D. B burns out, but A does not.
105. A radioactive sample has a mass of 16 grams, and its half-life is 5 days. What mass of the original sample remains after 25 days?
- A. 0
 - B. $\frac{1}{2}$ gram
 - C. 2 grams
 - D. 4 grams
106. Which of the following statements about atomic structure is not true?
- A. Atoms are mostly empty space.
 - B. All atoms of the same atomic number are atoms of the same element.
 - C. Most of the mass of the atom is concentrated at the nucleus.
 - D. An atom can gain or lose electrons without changing its charge.
107. A stable uranium atom has atomic weight of 238. It can be inferred that this atom has _____?
- A. 92 protons, 92 electrons, and 238 neutrons
 - B. 92 protons, 146 electrons, and 146 neutrons
 - C. 92 protons, 92 electrons, and 146 neutrons
 - D. 92 protons, 146 electrons, and 92 neutrons
108. The compound MnF_3 can be written correctly by its name as _____.
- A. Manganese fluoride(III)
 - B. Manganese(III) fluoride
 - C. Manganese(I) fluoride(III)
 - D. Manganese(III) fluoride(III)
109. A given gas occupies 2000 cc at a pressure of 90 cm of mercury. At constant temperature, what volume will the same gas occupy if the pressure becomes $\frac{1}{2}$ of the original pressure?
- A. 1000 cc
 - B. 2000 cc
 - C. 3000 cc
 - D. 4000 cc
110. Which warning label indicates a chemical property of the material being labeled?
- A. Fragile
 - B. Handle with Care
 - C. Shake well
 - D. Flammable
111. What is the primary reason why toothpaste helps control tooth decay?
- A. It cools the mouth and prevents germs from multiplying.
 - B. It removes bad odor that remains after eating.
 - C. It surrounds the teeth with protective substance.
 - D. It neutralizes acidic food particles that remain in the teeth.

Practice Test I

112. Paint applied to an iron surface prevents the iron from rusting, because _____.
- A. it prevents nitrogen from coming in contact with iron.
 - B. it reacts chemically with iron.
 - C. it makes the surface of the iron smoother, thus preventing rust.
 - D. it prevents oxygen and moisture from coming in contact with iron.
113. Which of the substances below are compounds and not elements or mixtures?
- I. Ethanol
 - II. Neon
 - III. Water
 - IV. Crude oil
- A. III only
 - B. I and IV
 - C. I and III
 - D. I, III and I
114. Alcohol, which is classified as organic compound, is considered as derivative of aliphatic hydrocarbons. This compound is characterized by _____.
- A. a carbonyl attached to ether linkage
 - B. a carbonyl bonded to two carbons
 - C. a halogen attached to an alkyl group
 - D. a hydroxyl bonded to an alkyl group
115. Roger has a 2-meter roll of aluminum foil labeled 100% made of aluminum. He takes a thumb-size piece of that aluminum foil. Which of the following statements is true about the piece of aluminum foil that Roger took compared with the rest of aluminum in the roll?
- A. Their densities and melting behavior are the same.
 - B. Their densities and melting behavior are different.
 - C. Their densities are different, but their melting behavior are the same.
 - D. Their densities are the same, but their melting behavior are different.
116. The history of the earth has been divided by scientists into eras. Which of the following shows the arrangement of these eras from the oldest to the most recent?
- A. Precambrian, Paleozoic, Mesozoic, Cenozoic
 - B. Cenozoic, Mesozoic, Paleozoic, Precambrian
 - C. Precambrian, Mesozoic, Cenozoic, Paleozoic
 - D. Paleozoic, Cenozoic, Precambrian, Mesozoic
117. During summer solstice in the northern hemisphere, the sun shines 24 hours in the _____.
- A. Equator
 - B. South Pole
 - C. North Pole
 - D. Tropics
118. During solar eclipse,
- A. the earth is between the moon and the sun.
 - B. the moon is between the earth and the sun.

- C. the sun is between the earth and the moon.
D. the earth is behind the sun.
119. Which of the following is not a mineral?
- A. Pearl, because it is solid and organic
 - B. Topaz, because it is a gem and inorganic
 - C. Quartz, because it is silicious and inorganic
 - D. Gold, because it is a metal-ore
120. The mass of gemstones is usually measured in terms of metric carat. This measure of mass is equivalent to _____.
- A. 2000 mg
 - B. 1000 mg
 - C. 200 mg
 - D. 100 mg
121. Rain and running water can wash away soil. From which area is soil most likely to be washed away?
- A. A sloping area with bushes
 - B. A flat area with grasses
 - C. A sloping area that is barren
 - D. A flat area that is barren
122. The prevailing wind systems experienced in the Philippines are _____.
- A. Northwest and Southeast Monsoon
 - B. Northeast and Southwest Monsoon
 - C. East and West Monsoon
 - D. North and South Monsoon
123. The Daylight Savings Time (DST) was last implemented on which Presidency and year?
- A. Corazon Aquino, 1990
 - B. Ramon Magsaysay, 1954
 - C. Ferdinand Marcos, 1978
 - D. Manuel L. Quezon, 1936-1937
124. On January 23, 1899, the Malolos Republic was inaugurated at the Barasoain Church in Malolos, Bulacan. President Aguinaldo congratulated the Malolos Congress for drafting the Malolos Constitution. Later on, he formed his own cabinet that will run the affairs of the government. Who among the following was elected as the Secretary of the Interior?
- A. Baldomero Aguinaldo

- A. One can stand without each other.
 - B. Experience is more important than theory.
 - C. Theory is more important than experience.
 - D. Theory and experience must go hand-in-hand.
79. Which of the following ways can new information be made more meaningful to students?
- A. Valuing new knowledge
 - B. Increasing retention of new knowledge
 - C. Demonstrating novelty of new knowledge
 - D. Relating it to knowledge they already know
80. Research confirms that student's motivation is affected by his/her socio-cultural background. Which of the following observations affirms this finding?
- A. Girls mature earlier than the boys.
 - B. Brains of the males function better than those of the females.
 - C. Children of low-income household meet more obstacles in learning.
 - D. Genetic endowments may show gifted endowments among the young.
81. Lemuel, a 7-year-old boy, was asked by his teacher to tell which is greater between 3 and 4. Lemuel has to count on his fingers for him to answer. What condition is afflicting Lemuel based on his response?
- A. Emotional
 - B. Neurological
 - C. Mental
 - D. Physical
82. Teacher Stella requires her students to work on a physical model of a DNA structure after their lesson on genetics in Biology class. Which of the students' multiple intelligences is tapped by the given learning experience?
- A. Interpersonal
 - B. Kinesthetic
 - C. Linguistic
 - D. Mathematical
83. One of John Dewey's popular quotations is "An ounce of experience is better than a ton of theory," which implies that teachers must emphasize _____.
- A. the need for theory
 - B. the need for experience
 - C. the primacy of theory
 - D. the primacy of experience

84. Which statement BEST resolves the nature-nurture controversy?
- Nurture is clearly more important in development than nature.
 - Nature is clearly more important than nurture in human development.
 - Neither nurture nor nature plays a particularly strong role in development.
 - The interaction between nature and nurture is most important in development.
85. When Anton was 5 months old, he looked at a toy train; but when his view of the train was blocked, he did not search for it. Now that he is 9 months old, he does search for it, reflecting his development on the concept of _____
- object permanence.
 - animism.
 - assimilation.
 - conservation.
86. Mrs. Andresa, a Grade-7 teacher, noticed that as she corrects the misbehavior of one student, it can positively influence the behavior of the other students in such a way that all of them would behave properly when one student is being corrected. This situation exemplifies _____.
- withitness
 - ripple effect
 - smoothness
 - overlapping
87. Learners in this category have high awareness and understanding on one's own interests, emotions and goals. These learners tend to shy away from others. They're in tune with their inner feelings.
- Interpersonal Intelligence
 - Intrapersonal Intelligence
 - Visual Intelligence
 - Logical Intelligence
88. Who is the proponent of preventive discipline as an approach towards effective classroom management?
- Jacob Kounin
 - Lorin Anderson
 - Anita Harrow
 - Wolfgang Kohler
89. Benjamin Bloom's Taxonomy of Objectives in the Cognitive Domain was revised by _____.
- Jacob Kounin
 - Lorin Anderson
 - Anita Harrow
 - Wolfgang Kohler
90. While administering a quiz, Teacher Jhera was able to check the attendance of the learners. This ability of a teacher to attend two tasks or more at a time is also known as _____.
- withitness
 - ripple effect
 - smoothness
 - overlapping

91. How do you call a classroom management composed of coping strategies used by effective teachers to stop misbehavior without disrupting the flow of the lesson?
- A. low-profile
 - B. high-profile
 - C. preventative
 - D. disruptive
92. Instead of saying unwholesome words, Miss Jazz resorted to frowning upon her students because of their unruly behavior. What did she do to address the misbehavior?
- A. non-verbal gesture
 - B. proximity control
 - C. redirecting student
 - D. dialogue
93. Which of the following is the lowest level of affective behavior, according to Krathwohl?
- A. Responding
 - B. Organization
 - C. Valuing
 - D. Characterization
94. This type of power is manifested by a teacher when he shows his students his vast knowledge of a subject matter.
- A. philosophical power
 - B. expert power
 - C. legitimate power
 - D. referent power
95. Which of the following situations best depicts referent power?
- A. Dr. Sandoval makes his students feel that he knows all about statistics and calculus.
 - B. Mrs. Rivera emphasizes the importance of good grades in her class.
 - C. Ms. Yeung asserts her authority over her students.
 - D. Professor Lucero makes his students feel accepted and appreciated all the time.
96. Teacher Carrie uses low-profile classroom control techniques in her elementary classes. Which of the following is an example of a low-profile classroom control technique that she must carry out?
- A. React to student's errant behavior.
 - B. Observe her student's behavior.
 - C. Blurt out student's misdemeanor.
 - D. Manage misbehavior without disrupting the lesson
97. Gardner, in his Multiple Intelligences Theory, encourages this among teachers.
- A. Focus on students' IQ
 - B. Think in a diverse and multidisciplinary way.
 - C. Present the lesson methodically and logically.
 - D. Consider various intelligences when writing a lesson plan.
98. This is a teaching activity based on Albert Bandura's Social Learning theory, and this is best done by teachers instead of reprimanding students to do right.
- A. Questioning
 - B. Inductive Reasoning
 - C. Lecturing
 - D. Modeling

99. Krathwohl's affective domain of objectives recognizes this as the lowest level of his domain.
- A. Responding
 - B. Organization
 - C. Valuing
 - D. Characterization
100. Bloom's taxonomy of objectives considers this the highest in terms of learning outcomes.
- A. To Evaluate
 - B. To Create
 - C. To Design
 - D. To Analyze
101. Teachers must be _____ so that their students can be creative learners.
- A. All-knowing
 - B. Authoritarian
 - C. Single-minded
 - D. Flexible
102. Which of the following is the best classroom device?
- A. Realia
 - B. Teacher
 - C. Blackboard
 - D. Chart
103. The DepEd proposed that stand-alone schools in some far-flung areas must be managed by lead schools. What is the leading factor behind this proposal?
- A. geographical
 - B. social
 - C. historical
 - D. psychological
104. Which of the following is the greatest contribution of EFA to the public?
- A. practice of inclusive education
 - B. emphasizing formal education system
 - C. making educational reform in exclusive schools
 - D. offering of ALS to indigents
105. Ms. Jane Cheung Yuk-Yin, a biology teacher, wants to show her students how blood circulates in the heart. Which of the following devices is suitable for Ms. Cheung's lesson?
- A. diorama
 - B. realia
 - C. replica
 - D. mock-up
106. Realia is best to use in class when it is _____.
- A. affordable
 - B. feasible
 - C. reasonable
 - D. expendable
107. To promote higher-order thinking skills, Mr Padilla must ask her students these types of questions.
- A. divergent
 - B. lose
 - C. convergent
 - D. factual

108. A ripple effect can be observed in misdemeanors, such as students making noise in class and bullying others. The teacher should therefore _____.

- A. count 1 to 10 before she gets angry
- B. immediately responds to misbehavior
- C. is consistent in classroom management.
- D. reinforce positive behavior

109. Referent power of the teacher is best shown by this example.

- A. Teacher Maurice tells the students the importance of having good grades.
- B. Teacher Terry gives his students a feeling of trust, compassion, and acceptance.
- C. Ms. Rustia makes the students feel she knows what he is talking about.
- D. Professor Gallaga reminds his students about his authority over them.

110. Teachers must do this in order to ensure the smooth transition of activities in class.

- A. Make students socialize between activities.
- B. Make the materials readily available and accessible.
- C. Set rules and regulations even in the middle of the activities.
- D. Wait for those who are slow in accomplishing tasks.

111. Which is the best example of Operant Conditioning?

- A. Teacher Helga connects facts and concepts when teaching Math.
- B. Teacher Steve fosters a conducive learning environment in his classes.
- C. Teacher Annabelle uses reinforcement to encourage her students to participate actively in class.
- D. Teacher Kendrick uses manipulative devices when teaching Science.

112. According to Erik Erikson, identity and role confusion normally occur during this stage.

- A. high school years
- B. elementary years
- C. preschool years
- D. college years

113. This characteristic refers to an instructional plan's interrelation of components.

- | | |
|-------------|----------------|
| A. symmetry | C. conciseness |
| B. clarity | D. coherence |

114. Krathwohl's affective domain of objectives recognizes this as the lowest level of his domain.

- | | |
|-----------------|---------------------|
| A. Responding | C. Valuing |
| B. Organization | D. Characterization |

115. This term refers to an acceptable performance standard in class.

- | | |
|--------------|----------------------|
| A. Behavior | C. SMART |
| B. Condition | D. Criterion measure |

Practice Test I

116. Which among these terms is the most encompassing in the context of applying technology in the teaching-learning process?
- A. Information Technology
 - B. Instructional Technology
 - C. Educational Technology
 - D. Technology in Education
117. Arrange chronologically the following events of instruction that was developed by Robert Gagne:
- I. Elicit performance
 - II. Provide feedback
 - III. Gain attention
 - IV. Inform learners of objectives
 - V. Stimulate recall of prior learning
- A. I, III, II, and V
 - B. II, V, III, and I
 - C. II, V, III, IV, and I
 - D. III, IV, V, I, and II
118. Teacher Michael is searching for an appropriate mobile app that he can use in his anatomy class. What are the factors that may help him in evaluating the app?
- A. Objectivity
 - B. Accuracy
 - C. Authority
 - D. All of these
119. Instead of showing the entire video, Teacher Wheng has shown only the important part as an introduction to her lesson in the class. What did she achieve?
- A. Saving on electricity
 - B. Avoiding unnecessary noise
 - C. Better utilization of time
 - D. Managing discipline
120. The following are the instructional materials as enhancements to textbooks, except:
- A. Guide questions
 - B. Tables, charts and maps
 - C. Mobile app
 - D. Computer Software
121. This is the goal-setting stage in ADDIE instructional model.
- A. Design
 - B. Development
 - C. Analysis
 - D. Evaluation
122. It is the set of rules about the behavior acceptable on the Internet.
- A. Code of Ethics
 - B. Netiquette
 - C. Law of Internet
 - D. RA 10844
123. Open Distance Learning is open because it is _____.
- A. Free for all
 - B. in the internet
 - C. available during the opening of the school year
 - D. open to ideas without limit

124. How can students be best reeducated on the ethical use of social media, such as Facebook and mobile texting?

- A. Integrate social media competences in the curriculum
- B. Students monitoring of peers
- C. Punishment for violators
- D. Seminar on social media

125. What technology integration is achieved by Teacher Gina who directs students conventional use of tool-based software e.g. Microsoft as an entry point?

- A. Adaptation
- B. Infusion
- C. Adoption
- D. Transformation

126. Which is NOT a criterion-referenced test?

- A. Based on standards
- B. Utilizes percent correct
- C. Based on table of specifications
- D. Utilizes percentile ranks

127. Which statement can be considered a weakness of an alternate-response type of test?

- A. Oversimplified, hard-to-measure HOTS
- B. Scoring is easy, objective, and reliable.
- C. Cannot measure complex learning outcomes
- D. Scores are more influenced by guessing.

128. Teacher Tyron is planning to require a portfolio from his students. Which type of portfolio would enable him to determine his students' mastery of the curriculum objectives?

- A. Showcase portfolio
- B. Assessment portfolio
- C. Evaluation portfolio
- D. Process portfolio

129. Maricor is a graduating high school student. She took the National Career Assessment Examination and finds out that she would most likely succeed in the field of engineering. As an assessment tool, what role did NCAE serve?

- A. Placement
- B. Formative
- C. Summative
- D. Diagnostic

130. Which should Teacher Jelly AVOID when writing essay items?

- A. Requiring simple, brief, and factual answers
- B. Indicating the time limit to answer each questions
- C. One set of essay questions for all students to answer
- D. Restricting essay items to learning outcomes that cannot be measured satisfactorily by objective items

Practice Test I

131. Which of the following can be considered a criterion referenced statement?

- A. Abigail was able to type 30 words in one minute
- B. John earned the highest score in Mathematics
- C. Rony completed the task faster than his classmates
- D. James' score is higher than half of the class

132. Which of the following types of objective tests measures the greatest range of learning outcomes?

- A. Matching-type
- B. Multiple-choice
- C. Alternate response
- D. Completion type

133. Which of the following is true about quarterly assessment in K to 12?

- A. Same percentage weight in all subjects
- B. Same percentage weight in all subjects except in Grades 11 and 12
- C. Different percentage weights in all subjects
- D. Different percentage weights in all subjects except in Grades 11 and 12

134. What should Teacher Joyce do to ensure the validity of the performance assessment she's planning to conduct?

- A. Ensure that instructions are clear
- B. Establish passing score
- C. Do a pre-test
- D. Ensure clear set of criteria

135. Whenever her class misbehaves, Teacher Geli gives them additional quizzes. This is wrong because assessment was portrayed as _____.

- A. Invalid
- B. Punishment
- C. Haphazard
- D. Unreliable

136. Teacher Mark provided his students with an analytic rubric as a guide for them to check if their journalism project- an edition of their campus paper, meets the criteria before they submit the work. The practice best supports _____.

- A. Assessment of learning
- B. Assessment of and for learning
- C. Assessment as learning
- D. Assessment for learning

137. Through assessment, Teacher Marie was able to plan and modify her teaching and learning activities for her students. This is most reflective of _____.

- A. Assessment of learning
- B. Assessment of and for learning
- C. Assessment as learning
- D. Assessment for learning

138. Teacher Marianne is teaching touch typing in her computer class. What assessment would be best to judge the students' skills?

- A. Peer assessment
- B. Performance
- C. Summative
- D. Self-assessment

139. An essay test is most appropriate when _____.

- A. A considerable number of test items need to be graded
- B. Instructional objectives specify high-level cognitive processes
- C. Test security is not a problem
- D. Class size is a consideration

140. What is most true about the relationship between the item stem and the alternatives?

- A. Most of the information of the problem should be found in the stem.
- B. Most of the information of the problem should be contained in the alternatives.
- C. Most of the information of the problem should be divided between the stem and alternatives.
- D. Make longer alternatives and shorter stems

141. A test item reads "The mean is a measure of central tendency that _____". What is the problem with the test item?

- A. It includes grammatical clues.
- B. It does not have a single correct answer.
- C. The missing part is not a significant part of the statement.
- D. The blank's length provides a clue.

142. Which instrument consists of criteria, descriptors, and levels of quality used to judge students' work?

- A. Product scale
- B. Checklist
- C. Rubric
- D. Extended response

143. If a test has undergone the process of reliability testing and got an r value of 0.94, this means that _____.

- A. There's moderate degree of reliability.
- B. There's very high degree of reliability.
- C. Another retest result would be needed.
- D. Reliability is undeterminable since r is too high.

144. Oral questioning of a candidate in a competency assessment is an example of _____.

- A. Direct evidence
- B. Indirect evidence
- C. Third party reporting
- D. Assessment feedback

Practice Test I

**MET REVIEW
LET SPECIALIST**

145. In the DepEd's present grading system, what is the minimum transmuted grade to pass a specific learning area?
- A. 60
 - B. 70
 - C. 75
 - D. 80
146. Which of the following score would fall within 1 standard deviation below the mean if a set of scores has a standard deviation of 4 and a mean of 54?
- A. 51
 - B. 58
 - C. 49
 - D. 55
147. Majority of the students who took an examination got scores above the mean. What is the graphical representation of the score distribution?
- A. Normally distributed
 - B. Mesokurtic
 - C. Positively skewed
 - D. Skewed to the left
148. When comparing the variability of two sets of scores, which is best?
- A. Range
 - B. Variance
 - C. Standard deviation
 - D. Coefficient of variation
149. A teacher administered a 100-point test: three students got scores of 95, 92, and 91 respectively, while the other 22 students in the class got scores ranging from 33-37. The measure of central tendency apt to best describe this group of 25 students is _____.
- A. Mean
 - B. Either median or mode
 - C. Either mean or median
 - D. Mode
150. When computing for the final grade in a learning area, K to 12 utilizes:
- A. Cumulative
 - B. Averaging
 - C. Norm-referenced grading
 - D. Zero-based grading

PRACTICE TEST 2

General Instructions:

1. This test booklet contains 150 test questions for **GENERAL EDUCATION** and 150 test questions for **PROFESSIONAL EDUCATION**. Examinee shall manage to use 5 hours.
2. Read **INSTRUCTIONS** to **EXAMINEES** printed on your answer sheet.
3. Shade only the box that corresponds to your answer sheet using your pencil No.2. Two or more boxes shaded will invalidate your answer. There is only one answer to each question.
4. In case you find no correct answer please shade option "E"
5. Do not write anything on the test booklet. **AVOID ERASURES.**
6. Kindly detached the **ANSWER SHEET** at the back.

GOOD LUCK!

- The points presented by the lecturer are _____ comprehensible.
A. all together
B. altogether
C. together all
D. al together
- The Magician _____ all the cards down in front of the unsuspecting spectators.
A. laid
B. lie
C. lay
D. lied
- In Nick Joaquin's May Day Eve, Badoy saw _____ on the mirror.
A. himself
B. ourselves
C. hisself
D. themselves
- In the Shakespearean play "Merchant of Venice", Shylock _____ is the culprit.
A. themselves
B. herself
C. ourselves
D. himself
- "Silas Marner" and "Middlemarch" are two of the most famous works of George Eliot, whose real name is _____.
A. George Barthes
B. Anton Chekov
C. Mary Ann Evans
D. Ashton Bell
- The physician suggests that the patient _____ inside the intensive care unit for further observation.
A. remain
B. remained
C. remains
D. remaining
- The judge recommended that each of the complainants _____ his/her sworn statements.
A. accomplish
B. accomplished
C. accomplishes
D. accomplishing
- I wish the speaker _____ able to speak more eloquently.
A. was
B. is
C. were
D. are
- Because of the very strict rule of the monarchs during their time, the Bronte sisters used pen names. Which among the following are the pen names of the sisters?
A. Eliot brothers
B. Huchtsenson brothers
C. Ashton brothers
D. Bell brothers

10. Who wrote the poem "Annabel Lee"?
 - A. Edgar Allan Poe
 - B. Richard Browning
 - C. Robert Frost
 - D. Ernest Hemmingway

11. What is the most common theme found in Haikus?
 - A. Love
 - B. Books
 - C. Nature
 - D. Mythology

12. You and _____ are destined to be friends forever.
 - A. me
 - B. myself
 - C. I
 - D. mine

13. The prime minister together with his followers _____ present in the inauguration ceremony yesterday.
 - A. are
 - B. is
 - C. were
 - D. was

14. "The ASEAN leaders have spoken about environmental issues facing the region." What made the sentence wrong?
 - A. spoke
 - B. their
 - C. have
 - D. issues

15. Aphrodite is the perfect representation of feminine pulchritude. The underlined word means _____.
 - A. beauty
 - B. power
 - C. strength
 - D. countenance

16. The Princess of Wales is known for her penchant for luxury bags. The underlined word means _____.
 - A. hatred
 - B. disgust
 - C. fondness
 - D. abhorrence

17. 30% of the apples exported _____ rotten.
 - A. have
 - B. has been
 - C. has
 - D. have been

18. Amidst her old age, she still remains to be in the pink of health. The underlined phrase means _____.
 - A. good health
 - B. rosy complexion
 - C. bad health
 - D. good skin

19. The older sister was green with envy when her younger brother won the heart of their grand parents.

- A. angry
- B. jealous
- C. nauseated
- D. confused

20. What do we call a poem with 14 lines?

- A. Haiku
- B. Song
- C. Sonnet
- D. Ballad

21. Our youngest sibling was born _____ the year 1989.

- A. in
- B. on
- C. at
- D. into

22. The facilitator reminded the participants to fill _____ the forms correctly.

- A. out
- B. in
- C. on
- D. with

Midnight, not a sound on the pavement
Has the moon lost its memory
She is smiling alone
In the lamp light the withered leaves
Collect at my feet
And the wind begins to moan

23. What is the dominant emotion in the lines above?

- A. hope
- B. courage
- C. loneliness
- D. regret

24. What figure of speech was used in the lines given above?

- A. Hyperbole
- B. Simile
- C. Personification
- D. Metaphor

25. The lines above were taken from a very popular Broadway Musical _____.

- A. Les Miserables
- B. Miss Saigon
- C. Cats
- D. Mamma Mia

26. In the _____, the citizens could rely on their elected public servants.

- A. pass
- B. fast
- C. past
- D. passed

27. Based _____ on the reports given, our country is now experience great economic growth.

- A. on
- B. at
- C. from
- D. in

Practice Test II

**MET REVIEW

28. Complete the very famous and commonly quoted line: "A thing of beauty is a _____ forever."
- A. dream
B. pleasure
C. joy
D. pulchritude
29. Erika's eyes are blurred and her hands ached. She _____ in her office for a very long time before she took a much-needed break.
- A. stayed
B. have stayed
C. had stayed
D. was staying
30. A number of media personalities are being accused of corruption. They are being charged as _____.
- A. envelopmentalists
B. chargers
C. fixers
D. commissioners
31. What are the prime factors of 154?
- A. 5, 7, 11
B. 2, 7, 11
C. 2, 5, 7
D. 2, 2, 7, 11
32. $7\frac{2}{3}\%$ in fraction form is _____.
- A. $\frac{23}{10}$
B. $\frac{23}{100}$
C. $\frac{23}{3}$
D. $\frac{23}{300}$
33. A solution contains 40% chlorine. What fraction in lowest terms is the solution?
- A. $\frac{1}{4}$
B. $\frac{2}{5}$
C. $\frac{1}{25}$
D. $\frac{40}{100}$
34. If 20% of x is 196, what is 30% of x?
- A. 234
B. 269
C. 294
D. 324
35. 700 is what percent of 416?
- A. 32%
B. 68%
C. 132%
D. 168%
36. What number decreased by 60% of itself gives 224?
- A. 640
B. 560
C. 480
D. 400

37. A financial advisor gets 50% commission on his first 250, 000 sales and 42.5% on his succeeding sales. How much commission will he get if his total sales is 800, 000?
- A. 441, 250
B. 358, 750
C. 125, 000
D. 106, 250
38. It takes 3 water pumps 8 hours to completely fill a hotel's swimming pool. How long will it take 2 water pumps to fill the same pool?
- A. 6 hours
B. 10 hours
C. 12 hours
D. 16 hours
39. 10 painters are required to complete a mural in 5 days. How long will it take 12 painters to accomplish the same task?
- A. 3 days
B. 3.5 days
C. 4 days
D. 4.5 days
40. The ratio of the angles of a triangle is 2:3:4. Determine the difference of the larger and the smaller angle.
- A. 20°
B. 40°
C. 60°
D. 80°
41. The literal coefficient of $-7x^3m^2n$ is _____.
- A. -7
B. x^3m^2n
C. x^3
D. 6
42. Which is NOT true about the expression $4x^4 - 3x^3y^2 + 6y^2 - 2x + 1$?
- A. The expression is a multinomial.
B. The leading coefficient is -3.
C. The constant term is 1.
D. The leading term is $4x^4$.
43. Simplify the expression $(4x^3 - 3xy + 5y^2 - 2) - (x^3 - 5x^2 + 6xy + 7)$.
- A. $3x^3 - 5x^2 + 5y^2 - 9xy - 9$
B. $3x^3 + 5x^2 + 5y^2 - 9xy - 9$
C. $3x^3 - 5x^2 + 5y^2 - 9xy + 5$
D. $3x^3 + 5x^2 + 5y^2 - 9xy + 5$
44. Solve for x in $\frac{3(x-1)}{4} = 3$.
- A. -5
B. -3
C. 3
D. 5
45. The average of four numbers is 17.5. If three of the numbers are 13, 18 and 25, what is the fourth number?
- A. 11
B. 14
C. 17
D. 19

Practice Test II

**MET REVIEW
LET SPECIALIST**

46. How many liters of 20% salt solution should be added to 40 liters of a 50% salt solution to make a 30% solution?
- A. 40 liters
B. 60 liters
C. 80 liters
D. 100 liters
47. The value of x in $|7x - 2| = 26$
- A. 4
B. $-\frac{24}{7}$
C. $4, -\frac{24}{7}$
D. $-4, \frac{24}{7}$
48. Determine the solution of the inequality $-5x - 12 \leq 2(2x + 3)$.
- A. $x \geq 2$
B. $x \leq 2$
C. $x \geq -2$
D. $x \leq -2$
49. Marvin has 8 shirts, 4 pants, and 5 shoes. How many outfits can he wear?
- A. 32
B. 40
C. 80
D. 160
50. Which of the following is NOT true?
- A. A plane is flat.
B. A space is 4-dimensional.
C. A point is a position in space.
D. A line extends in opposite directions.
51. What is the area of a square farm fence with perimeter 144 meters?
- A. 36 sq. m.
B. 216 sq. m.
C. 1, 296 sq. m.
D. 1, 728 sq. m.
52. The circumference of a circle measures 24π in. What is the measure of its area?
- A. 576π in²
B. 144π in²
C. 36π in²
D. 16π in²
53. What is the total surface area of a shoe box with dimensions 10 inches by 15 inches by 8 inches?
- A. 150 in²
B. 350 in²
C. 700 in²
D. $1\,500$ in²
54. What is the exact value of $\csc 90^\circ$?
- A. undefined
B. -1
C. 0
D. 1

55. In how many ways can a photographer arrange 10 people to pose for a photograph?
- A. 3, 628, 800
B. 362, 880
C. 10, 000
D. 100
56. A pair of dice is rolled. What is the probability that the sum is odd?
- A. $\frac{2}{21}$
B. $\frac{1}{7}$
C. $\frac{2}{7}$
D. $\frac{3}{7}$
57. A bowl has 3 yellow marbles, 3 red marbles, 4 blue marbles, and 4 green marbles. What is the chance that a red or blue marble will be picked at random?
- A. $\frac{1}{2}$
B. $\frac{4}{7}$
C. $\frac{5}{14}$
D. $\frac{3}{14}$
58. In how many ways can 5 leaders be selected from a group of 12?
- A. 95, 040
B. 2, 520
C. 729
D. 21
59. Two coins were tossed. Find the probability that the results are opposite.
- A. 75%
B. 50%
C. 25%
D. 0%
60. Which numbers complete the series 2, 5, 10, 17, _____, _____
- A. 26, 41
B. 28, 41
C. 28, 55
D. 41, 55
61. Ito ang nagtataglay ng probisyon sa Konstitusyon ng 1987 na nagtatakda sa wikang Filipino bilang wikang pambansa.
- A. Artikulo 14, Seksyon 13
B. Artikulo 14, Seksyon 7
C. Artikulo 14, Seksyon 12
D. Artikulo 14, seksyon 6
62. Ang Surian ng Wikang Pambansa ay naitatag alinsunod sa anong batas?
- A. Batas Komonwelt Blg. 184
B. Batas Republika
C. Batas Komonwelt Blg. 534
D. Batas Republika
63. Ito ay umusbong na bagong wika na tinatawag katutubong wikang di pag-aari ninuman.
- A. Creole
B. Pidgin
C. Idyolek
D. Sosyolek

64. Ang Vakkul ay salitang Ivatan na tumutukoy sa pantakip sa ulo na yari damo.
Anong varayti ng wika ang may salungguhit?
- A. Ekolek
B. Pidgin
C. Emolek
D. Dayalek
65. Alin ang hindi kabilang sa Sosyolek?
- A. Gay lingo
B. Coño
C. Jejemon
D. Chavakano
66. Alin sa mga teorya ang naniniwalang ang wika ay nagmula sa mga tunog ng ritwal?
- A. Ding-dong
B. Yo-he-ho
C. Tarara-boom de ay
D. Pooh-pooh
67. Aling impormasyon ang hindi tama sa wikang Tagalog?
- A. Ito ang naging batayan ng Wikang Pambansa.
B. Ang wikang Tagalog ay naging opisyal na wika noong panahon ng Propaganda.
C. Ang Tagalog ay isa sa pangunahing wika sa Pilipinas.
D. Ang Tagalog ay pandaigdigang wika
68. Kung ang wika ay ginamit sa pagpapahayag ng pakikiramay, ano ang tungkulin ng wika?
- A. Heuristik
B. Personal
C. Interaksyunal
D. Impormatib
69. Aling salita ang nasa lebel pambansa?
- A. Marikit
B. Magayon
C. Maganda
D. Gandara
70. Sa pangkat ng wika, alin ang dating Pidgin na naging Creole?
- A. Panggasinense
B. Hiligaynon
C. Waray
D. Chavakano
71. Alin sa mga sumusunod na pangungusap ang dayalektal?
- A. Maliligo kami sa ilog.
B. Makain ako ng inihaw na isda.
C. Hu u po?
D. We'll gonna make pila pa.
72. Alin ang hindi kabilang sa pangkat?
- A. Atin Cu pung Singsing
B. Dandansoy
C. Matudnila
D. Lupang Hinirang

73. Siya ng nagbalangkas ng gramatikang Tagalog.

- A. Francisco Balagtas
- B. Lope K. Santos
- C. Santiago Fonacier
- D. Manuel L. Quezon

74. Siya ang may-akda ng Fray Botod.

- A. Lope K. Santos
- B. Marcelo H. del Pilar
- C. Graciano Lopez Jaena
- D. Isabelo delos Reyes

75. Ipinaghanda ko ng masarap na pananghalian si Bunso. Anong pokus ng pandiwa ng pangungusap?

- A. Aktor
- B. Benepaktib
- C. Layon
- D. Kawsatib

76. "Pinanawan ng ulirat ang ina nang marinig ang masamang balita sa anak."

Ano ang pinakaangkop na kahulugan ng salitang may salungguhit?

- A. Nawala sa sarili
- B. Nablanko ang isip
- C. Nag-asal bata
- D. Nahimatay

77. Anong salita ang angkop na gamitin sa pangungusap?

Kay sarap tingnan ang ____ ng bulkang Taal.

- A. bunganga
- B. labi
- C. bukana
- D. nguso

78. Ilan ang katinig sa Baybayin?

- A. 4
- B. 14
- C. 3
- D. 13

79. Alin sa mga sumusunod na pangngalan ang hindi tahas?

- A. Pag-asa
- B. Bahay
- C. Kagamitan
- D. Paligid

80. Anong lebel ng wika ang salitang DYAHÍ?

- A. kolokyal
- B. Pidgin
- C. Pambansa
- D. Pabalbal

81. Sumasaklaw sa pag-aaral ng wastong baybay ng mga salita.

- A. Ortograpiya
- B. Morpolohiya
- C. Semantiks
- D. Ponolohiya

82. Ito ang tawag sa uri ng pagbabagong morpoponemiko na gumagamit ng pagpapalit - posisyon ng ponema ng salita.
- Metatesis
 - Asimilasyon
 - Pakakaltas ng ponema
 - Paglilipat-diin
83. Anong uri ng pangungusap na walang paksa ang "Makikiraan po".
- Temporal
 - Pormulasyong Panlipunan
 - Sambitla
 - Pamanahon
84. Anong uri ng pagbabagong morpoponemiko ang naganap sa salitang MARUNONG?
- Paglilipat-diin
 - Pagkakaltas ng Ponema
 - Pagpapalit ng Ponema
 - Asimilasyon
85. Alin ang tumutukoy sa maingat at makabuluhang pagpili ng mga salitang ginagamit?
- Semantiks
 - Diksiyon
 - Antala
 - Tono
86. Ang paraan ng pagsusuri kung paano mapag-uugnay ang mga salita para sa isang wastong pahayag ay tinatawag na _____.
- Semantiks
 - Pragmatiks
 - Sintaks
 - Retoriks
87. Alin ang Kautusang nagbigay ng pagkilala sa Bagong Alpabetong Filipino na mula sa binago at pinagyamang dating Abakada?
- Kautusang Pangkagawaran Blg. 81, s.1997
 - Kautusang Pangkagawaran Blg. 81, s.1987
 - Kautusang Pangkagawaran Blg. 21, s.1997
 - Kautusang Pangkagawaran Blg. 18, s.1987
88. Ang pagpapaikli ng mga salita gamit ang mga unang letra ng mga salitang bumubuo sa kabuuang mensahe nito ay tinatawag na _____.
- Etimolohiya
 - Pagdadaglat
 - Eponismo
 - Akronim
89. Ang salitang "bana" na katumbas ng "husband" sa wikang English ay nagmula sa _____.
- Kabisayaan
 - Kabikulan
 - Katagalugan
 - Kamaynilaan
90. Orihinal: Fate of the Earth
Salin: Satanas sa lupa
Ang pagsasalin ng pahayag nasa uring _____.
- Adaptasyon
 - Pagtutumbas
 - Idyomatiko
 - Malaya

91. In an experiment, a biologist noticed that bacteria growing on a plate of agar did not grow next to a mold that was growing on the same plate. So, he wrote in his report, "The mold may be producing a substance that kills bacteria". This statement best described as _____.
- A. An observation
B. A hypothesis
C. A generalization
D. A conclusion
92. A duckling requires a high food intake to support its fast rate of growth, while a germinating seed slowly takes the nutrients available at the stored food to sustain its growth. From this situation, it can be inferred that _____.
- A. the rate of growth of living things is affected by its food intake
B. the food intake of living things depends on the rate of growth
C. living things need to grow in order to take food
D. the amount of food taken by living things has no relation to its growth
93. What did Anton Van Leeuwenhoek contribute to the field of Biology?
- A. Developed the compound microscope
B. Used the simple microscope to observe tiny creatures
C. Gave the name cells to small chambers in cork
D. Discovered that plants and animals are made up of cells
94. Which of the following structures are found in plant cells but not in animal cells?
1. Cell wall
2. Centrioles
3. Lysosomes
4. Chloroplasts
- A. 1 and 4
B. 2 and 3
C. 3 and 4
D. 2 and 4
95. What will happen when a plant cell is placed in a hypertonic solution?
- A. There will be no effect on the plant cell.
B. The plant cell will swell.
C. The plant cell will shrink.
D. The cell wall of the plant cell will burst.
96. Which of the following microorganisms is considered non-pathogenic?
- A. Plasmodium falcifarum
B. Lacto bacilli
C. Influenza sp.
D. Tersinia pestis
97. A virus has a protein shell called _____.
- A. Capsid
B. Ribosome
C. Nucleus
D. Cell membrane

98. Which of the following are the components of fungal cell wall?
- Nucleotides, proteins and sugar
 - Lipids, proteins and sugar
 - Cellulose, lipids and nucleic acids
 - Chitins, proteins and sugar
99. The part of circulatory system that carries digested fats away from the intestine is known as _____.
- Pancreatic duct
 - Pulmonary artery
 - Arterial capillaries
 - Lacteals
100. The following describes the process of fertilization:
- Zygote divides
 - One sperm penetrates the membrane
 - Sperms swim towards the egg
 - Nuclei fuse together
- III, II, IV, I
 - II, III, I, IV
 - III, II, I, IV
 - II, III, IV,
101. Hemophilia is a common sex-linked disorder that is x-linked recessive trait. If a man is hemophiliac, this means that _____.
- he got the disease from his mother
 - he will have children with hemophilia
 - all his brothers and sisters will be hemophiliac
 - none of his brothers and sisters will be hemophiliac
102. The gradual change in a population's genetic and physical traits is called _____.
- Mutation
 - Heredity
 - Evolution
 - Replication
103. What is the molecule that contains the genetic information of the organism?
- Ribosomes
 - Nucleolus
 - Nucleic acid
 - Organelles
104. The father of modern taxonomy is _____.
- Aristotle
 - Gregor Mendel
 - Carl Linnaeus
 - Charles Darwin
105. Which of the following is used in classifying plants based on phylogenetics?
- Chemical composition
 - Structural similarities
 - Physiological traits
 - Evolutionary sequence

106. Which terrestrial biome houses the greatest biodiversity?

- A. Tundra
- B. Taiga

- C. Middle Latitudes
- D. Tropics

107. Stimulus is any agent, condition, or situation that elicits physiological or psychological activity, and this causes _____.

- A. Solution
- B. Response

- C. Problem
- D. Hypothesis

108. A makahiya plant closes its leaves when touched. Which life process does this plant exhibit?

- A. Reproduction
- B. Metabolism

- C. Irritability
- D. Growth

109. What is the type of response exhibited by the roots of the plants?

- A. Negative phototropism
- B. Positive geotropism

- C. Positive thigmotropism
- D. Negative geotropism

110. If carbohydrates are considered hydrophilic organic compounds, lipids, on the other hand are considered _____.

- A. Hydrophobic
- B. Biomolecules

- C. Saccharides
- D. Peptides

111. Soil is considered an ecosystem. Which of the following supports this statement?

- A. Soil differs in color, odor, and water holding capacity.
- B. It consists of biotic and abiotic components of the environment.
- C. It is a mixture of minerals, water, and gases.
- D. It is the habitat of microorganisms.

112. Organisms, like ants, behave under specific environmental conditions such as storing food during summer or defending themselves by stinging enemies. The term used to describe this behavior of the organism is called _____.

- A. Ecological defeat
- B. Ecological habitat

- C. Ecological succession
- D. Ecological niche

113. If all the green plants died, which of the substances normally found in air will disappear first?

- A. Nitrogen
- B. Oxygen

- C. Carbon dioxide
- D. Water

114. Which of the following arrangement is not a correct food chain?

- A. Grass -> cattle -> man
- B. Algae -> fish -> man
- C. Rice plant -> rice bird -> field rat
- D. Grass -> grasshopper -> frog

Practice Test II

115. Why are green plants considered as autotrophs?
- A. They have green pigments that capture light.
 - B. They can build simple inorganic substances into complex organic compounds.
 - C. They can absorb water through the roots.
 - D. They depend on other sources of food.
116. The El Niño phenomenon, which grabbed control of the world's weather machine, is identified by meteorologists as _____.
- A. easterly winds, cold temperature, monsoon rains
 - B. landslides, flash floods, warm air currents
 - C. lack of rains, droughts, crop failure
 - D. heavy downpours, tropical disturbances, windy condition
117. One environmental activity that may reduce water pollution is the _____.
- A. construction of flood control in low-lying areas
 - B. treatment of waste water before discharging
 - C. use of detergents to clean the water
 - D. desalination of sea water to make it potable
118. Global warming is an environmental problem being brought about by activities of man that change the quality of air. This may result to the following, except _____.
- A. extreme rise in temperature due to release of trapped methane gas
 - B. having dry season to most parts of the earth through the years
 - C. spread of tropical diseases due to constant migration of insects
 - D. rising of sea levels and flooding of coastal areas
119. Air, when mixed with sulfur oxide coming from motor vehicles and industrial plants, falls to earth, causing detrimental effects to living things and non-living as well. This is known as _____.
- A. Acid rain
 - B. Greenhouse rain
 - C. Fallout
 - D. Suspended particulates
120. The main aim of Brundtland Commission is the development that meets the needs of the present without compromising the ability of the future to meet their own needs. This advocacy is classified as _____.
- A. Environmental development
 - B. Sustainable development
 - C. Uncompromising development
 - D. Ecological development
121. Who was the founder of the La Liga Filipina?
- A. Graciano Lopez-Jaena
 - B. Marcelo H. del Pilar
 - C. Jose Rizal
 - D. Andres Bonifacio

122. Rizal was known to be the following except one:

- A. Sculptor
- B. Painter
- C. essayist
- D. architect

123. Which law prohibits cockfighting, horse racing, and jai-alai on the thirtieth day of December of each year and to create a committee to take charge of the proper celebration of Rizal day in every municipality and chartered city, and for other purposes:

- A. RA 1425
- B. RA 229
- C. Memorandum Order No. 247
- D. D. CHED Memorandum Order No. 3 s 1995

124. On this year, Rizal was exiled in Dapitan, and ignited the fight of many Filipinos against the Spaniards:

- A. 1892
- B. 1894
- C. 1896
- D. 1898

125. In this university, Rizal obtained his Licentiate in Medicine:

- A. University of Santo Tomas
- B. Ateneo de Manila University
- C. Universidad Central de Madrid
- D. University of Heidelberg

126. The fundamental right involved in the "writ of habeas data" is _____.

- A. the right to information privacy
- B. the right to transmit data
- C. the right to gather data
- D. the right to search for information

127. The following countries practice mixed economy, except one:

- A. USA
- B. the Philippines
- C. Japan
- D. North Korea

128. The demand curve _____.

- A. is typically upward sloping and has negative relationship between the price and the quantity demanded
- B. is typically downward sloping and has negative relationship between the price and the quantity demanded
- C. is typically upward sloping and has positive relationship between the price and the quantity demanded
- D. is typically downward sloping and has positive relationship between the price and the quantity demanded

129. This is the type of positive economics that collects and presents data that can describe phenomena.

- A. Descriptive Economics
- B. Economic Theory
- C. Quantitative Economics
- D. Economic Thought

130. If the price of substitute goods decreases, what will happen to demand for goods?

- A. Demand decreases
- B. A unitary elastic demand
- C. Demand increases
- D. An elastic supply

131. A tax of a fixed proportion of the value of the property with respect to which the tax is assessed, and requires the intervention of assessors or appraisers to estimate the value of such property before the amount due from each tax payer can be determined.

- A. Specific tax
- B. National tax
- C. Local tax
- D. Ad valorem tax

132. This principle holds that individuals should be taxed in proportion to the benefit they receive from the government and that taxes should be paid by those people who receive the direct benefit of the government programs and projects out of the taxes paid.

- A. Reciprocal distribution principle
- B. Ability-to-pay principle
- C. Equal distribution principle
- D. The benefit principle

133. The following entities are exempted from taxation, except _____.

- A. religious institution
- B. foreign diplomats
- C. private cemeteries
- D. charitable institutions

134. This form of escape from taxation happens when business owners exhaust/utilize all allowable deductions or exemptions in law to lessen or reduce the tax burden.

- A. Tax minimization
- B. Shifting
- C. Tax evasion
- D. Capitalization

135. A tax imposed on the net income or on the entire income received by a taxpayer in one taxable period:

- A. Real estate tax
- B. Poll tax
- C. Income tax
- D. excise tax

136. The Comprehensive Agrarian Reform Law was fully implemented into law thru RA 6657. On whose administration was it?

- A. Ferdinand Marcos
- B. Corazon Aquino
- C. Diosdado Macapagal
- D. Fidel V. Ramos

137. A natural person who renders service for value as an employee or laborer in an agricultural land enterprise or farm regardless of whether his compensation is paid on a daily, weekly, monthly or "pakyaw" basis.

- A. Seasonal farm worker
- B. Other farm worker
- C. regular farm worker
- D. farm worker

138. Which Republic Act amended the Philippine Cooperative Code of 2008?

- A. RA 6939
- B. RA 9520
- C. RA 6657
- D. RA 1425

139. Which is not a declared principle of cooperativism?

- A. Open and involuntary membership
- B. Democratic control
- C. Limited interest in capital
- D. Division of net surplus

140. Which cooperative engages in medical and dental care, hospitalization, transportation, insurance, housing, labor, electric light and power, communication, and other services?

- A. Credit cooperative
- B. Consumers cooperative
- C. Producers cooperative
- D. Service cooperative

141. This refers to a cultural preference that is highly commercialized and mainstreamed.

- A. High culture
- B. Low culture
- C. Pop culture
- D. Mid culture

142. These are groups or clusters that directly oppose the existing dominant culture.

- A. Subculture
- B. Counter culture
- C. Cultural universals
- D. Cultural lag

143. When culture is taken on its own context before casting judgement, it is an attitude towards cultural variation called:

- A. Ethnocentrism
- B. Culture shock
- C. Cultural relativism
- D. Cultural lag

144. These are cultural practices found in one culture and virtually to the rest of the cultures in the world.

- A. Artifacts
- B. Cultural universals
- C. Cultural transmission
- D. Ecofacts

145. This is a process in which meeting of different cultures leads to adopting new cultural patterns by one or both groups whereas one culture.

- A. Amalgamation
- B. Assimilation
- C. Acculturation
- D. Enculturation

146. SARS and H1N1 are examples of diseases that became:

- A. Epidemic
- B. Pandemic
- C. Endemic
- D. Emic

 - A. commitment to ethical standards
 - B. salary range in service
 - C. long and arduous work preparation
 - D. continuing professional education
26. "Our true nationality is mankind." Give the most fitting tagline for this slogan on cultural diversity.
 - A. The nationalist
 - B. The millennial
 - C. The cosmopolitan man
 - D. The parochial mind

27. What is countered by a Korean boys-and-girls town school that prohibit parents to see their intern children even in the event of sickness?
- A. Hormone imprints
 - B. Parental attachment
 - C. Social dyad
 - D. Anaclitic relationship
28. Which among the practices below should Teacher Jess implement in order to demonstrate that the behaviorist philosophy of education works well in motivating the students to learn?
- A. Non-authoritarian approach to teaching
 - B. Subject-matter centered teaching
 - C. Back-to-the-basics move
 - D. Use rewards and incentives
29. What school of thought is behind the student-centered approach in teaching which emphasizes discovery learning among students?
- A. Behaviorism
 - B. Constructivism
 - C. Essentialism
 - D. Existentialism
30. What philosophy that puts emphasis on the teaching of general education subjects and humanities?
- A. Existentialism
 - B. Constructivism
 - C. Progressivism
 - D. Perennialism
31. Based on what is written in the Bible, who was the Jewish rabbi who taught using stories or parables to bring out lessons in life?
- A. St. Paul
 - B. Isaiah
 - C. Jesus
 - D. Moses

For items 32-34, please read the situation below.

In a recollection, the faculty members were asked to share their beliefs of the learner, their primary customer. What follows are the highlights of what were shared:

Teacher A—the learner is a product of his environment. Sometimes, he does not have an option.

Teacher B—the learner can choose what he can become despite his environment

Teacher C—the learner is a social being who learns well through an active interplay with others

Teacher D—the learner is a rational being. Schools should develop his rational and moral powers.

32. Whose philosophical concept is that of Teacher A?
- A. Behaviorist's
 - B. Existentialist's
 - C. Progressivist's
 - D. Rationalist's

Practice Test II

33. If you agree with Teacher C, you are more of a/ an _____.
A. Progressivist
B. Existentialist's
C. Essentialist
D. Rationalist
34. Whose response denies man's freewill?
A. Teacher A's
B. Teacher C's
C. Teacher B's
D. Teacher D's
35. Which among the statements below supports the idea that Philippine education system is community-centered?
I. Encouragement of local initiative
II. Community values reflected in education program
III. Fiscal support from through congressional legislation
IV. Children, adult and out of school education in the community
A. I, II, IV
B. I, III, and IV
C. II, III, and IV
D. I, II, III and IV
36. Based on S. Nolte's poem entitled Children Learn What They Live, "If a child lives with praise, he learns to be _____.
A. appreciative
B. honest
C. patient
D. confident
37. What is the most facilitative or conducive way of instituting reforms and changes in school services in a client-based perspective?
A. Student's feedback
B. Teacher's review
C. Principal's awareness
D. Parent's recommendation
38. There are several components that make up a morally mature person. Which shows that a teacher applies moral principles (e.g. the Golden Rule) when making moral judgement?
A. Encourages others to share their ideas
B. Takes into account the opinion of others
C. Reflects on moral choices
D. Embraces change
39. According to Bronfenbrenner, it is the most influential system because the child has direct interaction with these individuals; that interaction occurs on a consistent basis over an extended period of time.
A. Macrosystem
B. Microsystem
C. Mesosystem
D. Exosystem

40. These influences are indirect; the child him/herself is not an active participant. However, it does have an impact on an active member of their microsystem. This may consist of the parent's career or financial situation, political systems, social support networks.
- A. Macrosystem
 - B. Chronosystem
 - C. Mesosystem
 - D. Exosystem
41. An outcome of the planning phase of instruction is _____.
- A. a complete set of finely tuned instructional materials
 - B. a computer-based learning experience that incorporates hypermedia
 - C. a summary of the effectiveness of the set of instructional materials
 - D. an outline or blueprint of the learning experience
42. After a learner plans and implements various strategies within a novel learning situation, the evaluation phase of learning is important for the learner because _____.
- A. it illustrates teaching errors and problems
 - B. it indicates where technology should optimally be employed
 - C. it allows for learner reflection and possible revision
 - D. all of above
43. Creating a plan for developing instructional materials that increase the learning of an individual is the focus of _____.
- A. educational computing
 - B. instructional design
 - C. instructional evaluation
 - D. instructional technology
44. By understanding the learning process and technology, the teacher is in a better position to _____.
- A. plan and implement instruction that is more effective
 - B. select disciplining techniques which help students focus their attention on the instructional materials
 - C. select instructional materials that decrease transfer and generalization of skills
 - D. all of the above
45. If school-based management approach were to upgrade teaching and learning, this will be necessary.
- A. Outcome-based curriculum
 - B. Participation by stakeholders
 - C. Planned document
 - D. Vision-mission-core values
46. This program embodies both pre-service and in-service programs.
- A. BEC - Basic Education Curriculum
 - B. BESRA - Basic Education Sector Reform Agenda
 - C. K-12
 - D. TEDP - Teacher Education Development Program

47. During classroom-level curriculum implementation, the strategies that work are classified as "green." Which of the following belongs to this category?
- A. Content delivery based on lessons
 - B. Excess in chalkboard talk
 - C. Homogenous students grouping
 - D. Student interest and teacher enthusiasm
48. Which does NOT belong to performance-based subjects?
- A. Music
 - B. Science
 - C. TLE – ICT
 - D. Values education
49. A student understands a principle if he can do this, based on McTighe and Wiggins' six facets of understanding.
- A. Applying it to solve his/ her problem
 - B. Repeating it as given by the teacher
 - C. Retaining it in memory for a long period of time
 - D. Stating understanding a principle
50. The focus of the Senior High School Program of the Enhanced K-12 Basic Education is what?
- A. Communication skills
 - B. General Education
 - C. Humanities and Social Sciences
 - D. Technical-vocational training
51. How can inter-agency efforts (DepEd, CHED, PRC and CSC) be best achieved for the training and development of teachers?
- A. Coordination
 - B. Streamlining
 - C. Agency integration
 - D. Cost-reduction
52. For teachers, what is the most laudable motive for the participation in professional development programs?
- A. Optimal use of time and resources
 - B. Continuing professional growth
 - C. Support for training programs
 - D. Promotion and higher merit pay
53. How can research support academic quality advancement?
- A. Inquiry in best practices
 - B. Assessment of school management
 - C. Focus on curriculum reform
 - D. Relevance in vision- mission-core values

54. What education program is relevant to change in behavioral patterns?
- A. Cultural education
 - B. Physical education
 - C. Values education
 - D. Social education
55. What is the end-focus of Outcome-Based Education?
- A. Objectives
 - B. Competencies
 - C. Assessment
 - D. Methods
56. In classroom curriculum implementation, which is referred to as the "Green Flag"?
- A. Student interest
 - B. Rigid movement
 - C. Content delivery bias
 - D. Too much chalkboard talk
57. What competency is developed by the vocational subject known as Landscape Drawing?
- A. Depicting people and places
 - B. Planning structures
 - C. Mechanical design
 - D. Artistic Manipulation
58. In the Education Act of 1901 which established a free public education in the Philippines, what language was imposed under the one-language policy?
- A. Spanish
 - B. Tagalog
 - C. English
 - D. Filipino
59. In what research method is pre- test and post- test best used?
- A. Experiment
 - B. Field study
 - C. Case study
 - D. Survey
60. How can the local government support schools?
- A. Give donations for school projects
 - B. Allow school to join civic celebrations
 - C. Provide security in school premises
 - D. Provide fiscal funding to support schools
61. Which teacher is MOST CLEARLY promoting moral development in his or her students?
- A. Mr. Reyes constantly points out moral dilemmas of history to his students and engages them in discussion as much as possible.
 - B. Mr. Ramon focuses his attention on the effects that his students' misbehavior will have on themselves.
 - C. Ms. Lopez does not give her students reasons for why some behaviors are wrong and others are right.
 - D. Ms. Karen does not intervene when her students misbehave; thus, they learn to work out problems amongst themselves.

62. Based on Kohlberg's Stages of Moral Reasoning, which statement is TRUE about moral development and children's behavior in the classroom?
- A. Children show a high degree of behavior problems in stage 1 because they do no moral thinking.
 - B. Children show the highest degree of problems in stage 2 because they subscribe to the rationale, "You hit me and I will hit you back."
 - C. Children show the highest degree of problem behaviors in stage 4 because they feel that rules are unimportant and they can do as they please.
 - D. No relationship has been found between moral stages and children's behavior in the classroom because they are independent developmental domains.
63. Which of the following is NOT an example of a defense mechanism?
- A. "After my grandmother died, my father still set her bed every night."
 - B. "I realized that I was angry with my brother, so I sat down to talk about the issue."
 - C. When questioned by a friend, the woman who was brutally raped last month answered that she was doing fine and that the entire incident had slipped her mind.
 - D. After the new baby was brought home, his four-year old brother threw temper tantrums and wrote all over the walls with crayons; acts he had not committed since age two.
64. If an infant is denied oral satisfaction, he/she may experience later oral symptoms such as overeating, smoking, or dependency on others. The term that best describes this is _____.
- A. anal expulsive
 - B. anal retentive
 - C. oral aggressive
 - D. oral receptive
65. As an adult, Cindy is uptight and extremely rigid, often unwilling to make even small adjustments in her schedule. Cassandra is described in Freudian term as _____.
- A. anal expulsive
 - B. anal retentive
 - C. oral aggressive
 - D. oral receptive
66. Mr. Sanchez, in planning his lessons, wants to base much of his instructional approach on Lev Vygotsky's theory of "zone of proximal development." In accordance with this theory, which of the following strategies would best support learning for Macy, a 13-year-old girl?
- A. Having her work alone in a quiet atmosphere where she can access reference material appropriate to her grade level
 - B. Giving her many opportunities for practice, thereby reinforcing the skills and concepts that she has already mastered
 - C. Having her work with another student whose skill and concept levels are slightly more advanced than hers
 - D. Having her use of manipulatives and technology that are readily available

67. Eight-year-old James has a difficult time making friends at school. He has trouble completing his schoolwork accurately and on time, and as a result, receives little positive feedback from his teacher and parents. According to Erikson's theory, failure at this stage of development results in _____?
- A. a sense of guilt
B. a poor sense of self
C. feelings of inferiority
D. feelings of Mistrust
68. A young child may be heard saying, "The sun is smiling at me." The child's belief that the sun has "human" qualities and is capable of action is referred to as:
- A. animism.
B. conservation.
C. humanism.
D. seriation.
69. Twelve-year-old Kathy lives in a country with very low governmental standards for public education. As a result, she is barely literate. The public policies that impact Kathy's education are part of the _____.
- A. chronosystem
B. macrosystem
C. mesosystem
D. microsystem
70. Which of the following statements is TRUE about Bronfenbrenner's Ecological Systems Theory?
- A. All social relationships are unidirectional.
B. Development is controlled by environmental forces.
C. Social networks have little influence on child development.
D. Social settings in the exosystem do not contain children.
71. Which of the following is TRUE according to Vygotsky?
- A. Knowledge is individually constructed by the child.
B. Knowledge is gained through reading various texts.
C. Knowledge is constructed between people as they interact.
D. Knowledge is gained through reinforcement and punishment.
72. If you were to gluttonously eat an entire birthday cake, Freud would say that was caused by your _____.
- A. ego
B. id
C. superego
D. subconscious
73. Which of the following is an example of a cognitive scheme?
- A. looking at an object
B. grasping a rattle
C. sorting by color
D. sucking a pacifier
74. Wendell can understand that her mother can also be a daughter and a sister, all at the same time. This suggests that Wendell is in the:
- A. sensorimotor stage.
B. preoperational stage.
C. concrete operational stage.
D. formal operational stage.

75. Children of this age are very famous for negative behavior such as they constantly say "no" to everything and throw temper tantrums, which make it difficult for the parents to deal with them.
- A. 1 year old
 - B. 2 years old
 - C. 3 years old
 - D. 4 years old
76. Who is considered as the father of modern educational psychology?
- A. Edward Thorndike
 - B. Ivan Pavlov
 - C. Jean Piaget
 - D. Sigmund Freud
77. Ausubel proposed the use of an educational tool or a mental learning aid that helps students "integrate new information with their existing knowledge, leading to 'meaningful learning' as opposed to rote memorization." These mental learning aids are known as _____.
- A. advance organizers
 - B. metacognitive charts
 - C. mental maps
 - D. mnemonics
78. Anita hates the Math subject because when she was in her primary grade, she could never forget how her teacher humiliated and punished her in class for getting a low test score. Learning to associate Math with fear or phobia is best explained by the concept of behaviorism authored by _____.
- A. B.F. Skinner
 - B. Edward Thorndike
 - C. Ivan Pavlov
 - D. John Watson
79. How can a teacher help students with different learning styles learn more effectively?
- A. Do lectures frequently.
 - B. Use graphic organizers.
 - C. Give ice breakers during class.
 - D. Vary the class activities.
80. What makes operant conditioning different from classical conditioning?
- A. In operant conditioning, reinforcement is presented before the subject responds.
 - B. In operant conditioning, reinforcement is presented only when the subject responds.
 - C. In operant conditioning, reinforcement is presented whether or not the subject responds.
 - D. In operant conditioning, reinforcement is paired and presented with an unconditioned stimulus.
81. Which of the following is an example of negative reinforcement?
- A. Giving Ben money for washing the dishes
 - B. Spanking Ana for throwing trash on the street
 - C. Taking away the lollipop if Suzie doesn't finish her homework
 - D. Excusing Rico from cleaning the toilet because he got high score in Math

82. Students who learn best through formula and written texts in books belong to the _____ type of learner.
- A. Auditory
 - B. Kinesthetic / Tactile
 - C. Visual Iconic
 - D. Visual Symbolic
83. Which of the following is an example of observational learning?
- A. Little Rita was spanked for grabbing her brother's food without permission.
 - B. Grade 3 pupils of Mrs. Tuviera were not dismissed until they were all quiet.
 - C. Chenessa wore clothes styled like those of Anne Curtis and Marian Rivera.
 - D. A piano student becomes proficient at a new piece of music through constant practice.
84. The entire class of Mrs. Gretchen became quiet after Lucy got rewarded with 5 stars for consistently behaving well. When good behavior is increased by simply watching the behavior of others being reinforced, this is known as _____.
- A. Modelling
 - B. Direct reinforcement
 - C. Vicarious reinforcement
 - D. Vicarious punishment
85. When Köhler placed bananas outside and above the cage of Sultan the gorilla, Sultan responded with clever ways of reaching the banana. This experiment led to the discovery of the theory known as _____.
- A. insight learning
 - B. latent learning
 - C. social learning
 - D. meaningful reception learning
86. Last song syndrome (LSS) happens when you cannot sing any other songs because a more recent and popular song keeps on playing in your mind. Based on Information Processing Model, this happens because new information is blocking out old information. This phenomenon is known as _____.
- A. Memory decay
 - B. Proactive interference
 - C. Retroactive interference
 - D. Repression
87. Liza went to a grocery store, but then she later realized that she left the shopping list at home. According to the serial position effect, the items on the list Liza would MOST LIKELY recall is / are: _____.
- A. at the beginning of the list
 - B. in the middle of the list
 - C. at the end of the list
 - D. A and C
88. A familiar person greeted you at a birthday party, but you felt awkward because you cannot remember how exactly you met the person. Fortunately, your best friend was there to describe that past event where and when you met. Then, everything flashes back and you remember everything clearly. What memory retrieval technique was used in the given scenario?
- A. Context
 - B. Generation
 - C. Personalization
 - D. Visual imagery

89. Arnold who has developed feelings of self-worth, confidence, competence and achievement is considered by Abraham Maslow to be already satisfying the _____.
A. esteem
B. physiological
C. self-actualization
D. love and belongingness
90. Rosanna loves solving Physics problems frequently because she enjoys them and finds them challenging. What kind of motivation does Rosanna manifest?
A. drive
B. extrinsic
C. intrinsic
D. positive
91. This is the term given to the appropriate pacing and progression of the lesson. The lesson should be properly paced, monitored, and adjusted in order to prevent slow-downs and stoppages.
A. smoothness
B. overlapping
C. momentum
D. withitness
92. Teacher Nesda is not yet finished discussing the topic all about nouns. The next day, her students were surprised when she proceeded to discuss a new topic about verb where in fact she has not completed explaining the first topic. This event is an example of _____.
A. thrust
B. dangle
C. flip-flop
D. stimulus-bound
93. Which among the following keys towards effective classroom management refers to the teacher's ability to keep the classroom running in an organized fashion?
A. smoothness
B. overlapping
C. momentum
D. withitness
94. Teacher Jherame went from one topic or activity to other topics. She discussed a lesson then inserted an unrelated topic from a previous lesson. This act of Teacher Jherame is an example of _____.
A. thrust
B. dangle
C. flip-flop
D. stimulus-bound
95. Teacher Alexa, an experienced teacher, has the ability to keep all students actively participating in her lesson. This ability of Teacher Alexa is also known as _____.
A. group focus
B. overlapping
C. stimulus-bound
D. withitness
96. Which of the following situations depict a well-managed and learning-conductive class?
A. Students pursue their task without inhibition in Mr. Raymundo's class.
B. The learners are controlled by their homeroom teacher, Ms. Nonato.
C. There is blind obedience among Mrs. Quiambao's students.
D. The learners are eager to reach their objectives, especially in Mr. Montesa's music class.

97. In her science class, Teacher Mabel can show the cause and effect of teen sex and pregnancy by using this type of technique.
- A. K-W-L technique
 - B. Histogram
 - C. Spider Web
 - D. Fishbone Diagram
98. Realia is best to use in class when it is _____.
- A. affordable
 - B. feasible
 - C. reasonable
 - D. expendable
99. Jacob Kounin's "with-it-ness" is best exemplified by this situation.
- A. Mrs. Eufemio accommodates students who have queries with regard to the lesson.
 - B. Mr. Maceda is aware of what is happening in his classroom.
 - C. Ms. Yip is known as a loving and caring teacher.
 - D. Mr. Wai gives attention to the slow-learning students in his class.
100. Teacher must do this in order to ensure the smooth transition of activities in class.
- A. Make students socialize between activities.
 - B. Make the materials readily available and accessible.
 - C. Set rules and regulations even in the middle of the activities.
 - D. Wait for those who are slow in accomplishing tasks.
101. The following are tried and proven benefits of using graphic organizers, except for this.
- A. Enable students to identify important ideas and details.
 - B. Make relationships among detail clear.
 - C. Represent stated information in concrete form.
 - D. Strengthen team work among students.
102. Effective classroom managers must be friendly and, at the same time, _____.
- A. highly demanding
 - B. business-like
 - C. mean
 - D. kind
103. Student participation will most likely happen in one of these situations.
- A. Feeling or emotions are not permitted in class discussions, especially in Ms. Deogracias' Math class.
 - B. Group leaders allow quiet members to remain quiet, especially in Ms. Lalu's class.
 - C. Teachers like Ms. Belmonte and Mr. de Leon model good listening habits.
 - D. Ms. Sandico repeats directions over and over until everyone listens.

Practice Test II

104. To instill nationalistic pride among the youth, history teachers like Mr. Morales, Mr. Gatuslao, Mrs. Mendiola, Ms. Turla, and Mrs. Dela Merced should encourage their students to do one of these.

- A. Re-study the history of the Philippines from the perspective of colonizers.
- B. Replace the study of folklore's and myths with technical subjects that make youths globally competitive and competent.
- C. Re-study the history and stress on Filipinos' achievements as a united race.
- D. Study current events, especially national issues.

105. Teachers review the past lesson before getting to the new lesson in order for them to _____.

- A. Check if parents guide their children in accomplishing given homework.
- B. Make sure that the students understand the pre-requisite skills of the lesson.
- C. Prepare the students for the mastery test.
- D. Make learning interesting and enjoyable for students.

106. The task analysis model of lesson organization must be arranged in one of these sequences.

- A. Facts, principle, concepts, generalization
- B. Facts, generalization, concepts, principle
- C. Facts, concepts, generalization, principle
- D. Facts, concepts, principle, generalization

107. Which of the following activities encourages children to develop proper reading habits?

- I. Making them decide on the books they like to read
- II. Involving oneself in reading activities with one's children
- III. Modeling proper and consistent reading behavior

- A. I and II
- B. II and III
- C. I, II, and III
- D. I only

108. How does the Information Processing Theory help every learner retrieve concepts contextually?

- A. It helps the learner associate information with an occurrence.
- B. It helps the learner utter pieces of information after listening to them.
- C. It helps the learner make pieces of information relevant to one another.
- D. It helps the learner treat information as personal and as part of his/her schemata.

109. Among the following actions listed below, which enables teachers to help learners acquire skills, according to Vygotsky?

- A. Testing
- B. Guidance
- C. Modeling
- D. Practice

110. Various studies have proven that both pedagogical competency and subject area competency are positively related to every teacher's instruction delivery and performance. Which of the following recommendations can be applied to the results?
- A. Teachers must develop a deeper knowledge and understanding of content and of pedagogical strategies.
 - B. Teachers must focus only on one subject area.
 - C. Teachers must be versatile, which means that they have to teach all subject areas.
 - D. Teachers must benefit from a solid educational background in liberal arts.
111. When is the best time for teachers to set routines and rules for students to follow?
- A. on the first day of school
 - B. as soon as the students are inside the room
 - C. every homeroom day
 - D. every day before the start of lesson
112. Teacher Carrie uses low-profile classroom control techniques in her elementary classes. Which of the following is an example of a low-profile classroom control technique that she must carry out?
- A. React to student's errant behavior
 - B. Observe her students' behavior
 - C. Blurt out student's misdemeanor
 - D. Manage misbehavior without disrupting the lesson.
113. When choosing teaching devices, which is the primary consideration that teachers must think about?
- A. appropriateness
 - B. attractiveness
 - C. cost
 - D. novelty
114. Ms. Tagasa must facilitate this type of activity if she wants to focus on attitudinal change among her students.
- A. role play
 - B. simulation
 - C. dramatization
 - D. field study
115. Gardner, in his Multiple Intelligences Theory, encourages this among teachers.
- A. Focus on students' IQ.
 - B. Think in a diverse and multidisciplinary way.
 - C. Present the lesson methodically and logically.
 - D. Consider various intelligences when writing a lesson plan.
116. Bloom's Taxonomy of Objectives considers this the highest in terms of learning outcomes.
- A. To Evaluate
 - B. To Create
 - C. To Design
 - D. To Analyze

117. How does the Information Processing Theory help every learner retrieve concepts contextually?
- A. It helps the learner associate information with an occurrence.
 - B. It helps the learner utter pieces of information after listening to them.
 - C. It helps the learner make pieces of information relevant to one another.
 - D. It helps the learner treat information as personal and as part of his/her schemata.
118. Among the following actions listed below, which enables teachers to help learners acquire skills, according to Vygotsky?
- A. Testing
 - B. Guidance
 - C. Modeling
 - D. Practice
119. Teachers, students, parents, administrators, and members of the community are best known as _____.
- A. sponsors
 - B. patrons
 - C. stockholders
 - D. stakeholders
120. This educational system fosters coordination among basic education, technical-vocational education, and higher education and has connection from level to level.
- A. Adequate
 - B. Complete
 - C. Integrated
 - D. Quality
121. Teacher John is using technology to enhance the learning in a content area. He is practicing:
- A. Technology-driven
 - B. Collaboration
 - C. Gamification
 - D. Integration
122. The following are the importance of Internet and world wide web in the instruction, except:
- A. Access to a large database of information
 - B. Support open distance learning
 - C. Extended learning opportunities
 - D. Can be used in search of a lifetime partner
123. As a technology applied in education, which is the most limited in terms of the amount of information that may be transmitted through its use?
- A. Chalkboard
 - B. Graphs and charts
 - C. Internet
 - D. Moving film
124. Which is the most critical consideration when choosing an instructional material?
- A. Learning content
 - B. Learning outcomes
 - C. Durability
 - D. Aesthetic Appeal

125. Before giving students access to the Internet, teachers should follow these steps, except:

- A. Teach students to test reliability and authenticity of a website.
- B. Provide students parameters.
- C. Require students to cite all the websites they use to ensure that they give proper credit and avoid plagiarism.
- D. Allow students to explore websites with inappropriate content

126. Given the following:

Test Item	A	B	C	D
Upper	16	3	9	2
Lower	13	6	8	3

Which is the most effective distracters from the options B, C, and D?

- A. Option B
 - B. Option C
 - C. Option D
 - D. Both options C and D
127. Teacher Au makes it a point to regularly check for understanding as she teaches to ensure that her students are able to follow the lessons. What form of assessment is being described in this situation?
- A. Assessment of learning
 - B. Assessment for learning
 - C. Assessment for and as learning
 - D. Assessment as learning
128. For grades 1 to 10, what is the percentage weight given to performance tasks in Filipino and English?
- A. 50%
 - B. 40%
 - C. 60%
 - D. 30%
129. Teacher Jessica revisited the English curriculum to find out the required outputs for each topic as she plans for a portfolio assessment. Which principle is exemplified?
- A. Equity principle
 - B. Content principle
 - C. Product principle
 - D. Learning principle
130. Which of the following learning outcomes best exemplifies the SMART model?
- A. Acquire basic skills in assessing learning
 - B. Realize the importance of assessing learning
 - C. Demonstrates the desire to fairly assess students
 - D. Explain the principles behind effective assessment

131. Jomar is in Grade 7 and unfortunately, he failed in 2 learning areas, which means that he will _____.
- Repeat subjects with failures
 - Be retained in the same level
 - Not be accepted for enrolment
 - Undergo remedial classes
132. In the context of outcomes-based education, assessment is focused on _____ rather than intended results of learning.
- Standard results
 - Formative results
 - Predicted results
 - Demonstrated results
133. What is the threshold of absences by which a learner may be given a failing grade and not earn credits for the learning area or subject?
- 20%
 - 75%
 - 60%
 - 10%
134. Antonio was able to finish his remedial class. What will be the basis of the decision whether or not Antonio will be promoted to the next level?
- Average of previous and remedial grade
 - Remedial class mark
 - Previous grade
 - Antonio's attitude
135. Jay exceeded the threshold of the prescribed number of absences during the school year, but his teacher still gave him some considerations. Is it acceptable?
- No, without the consent of the school head.
 - Yes
 - No
 - Yes, provided that the student will be given warning.
136. Teacher Gina is talking about "grading on the curve" in a teachers' assembly. This means that her tests are:
- Cumulative method
 - Norm-referenced
 - Criterion-referenced
 - Averaging method
137. If an assessment is used to determine the extent to which learning outcomes are met, which role does it play?
- Placement
 - Formative
 - Diagnostic
 - Summative
138. During pilot testing of a standardized test, Ms. Santos administered a test in Business Mathematics to a group of 40 students. After two weeks, she went back to the same set of students and re-administered the test. What characteristic of a good test is she trying to estimate?
- Fairness
 - Validity
 - Reliability
 - Usability

139. Teacher Andrea discovered that her students are good in dramatizing. What test could have helped her in discovering the students' ability?
- A. Self-report
 - B. Peer assessment
 - C. Performance-based assessment
 - D. Objective type of tests
140. Teacher Grace wants to assess her students' ability to speak extemporaneously. Which of the following would be the most authentic procedure?
- A. Ask the students to write an impromptu speech
 - B. Ask the students to memorize famous speeches
 - C. Administer an essay test on how to deliver extemporaneous speech
 - D. Ask the students to deliver an impromptu speech
141. Teacher Tess is deciding on which test can serve as the most objective and standardized means of assessment for her lesson. Which best suits the criterion?
- A. Interview
 - B. Journal
 - C. Projects
 - D. Test
142. The following are the 'pros' of multiple choice tests EXCEPT:
- A. Comprehensive knowledge is assessed efficiently.
 - B. Amenable to statistical analysis
 - C. Test security is easily established.
 - D. Usually has high reliability
143. If items in a criterion-referenced test has high difficulty indices, which can be inferred?
- A. Instruction has been effective.
 - B. Items are very difficult.
 - C. Items have high discriminating power.
 - D. Instruction is questionable.
144. Based on the assessment of Teacher Carol, her students can distinguish between the parts of speech and how they relate to each other. Her students are in what level of thinking?
- A. Creating
 - B. Evaluation
 - C. Analysis
 - D. Synthesis
145. A teacher is able to demonstrate an understanding of the role of assessment data as feedback in teaching and learning practices and programs. In what career stage is the teacher vis-a-vis assessment and reporting?
- A. Beginning
 - B. Proficient
 - C. Highly proficient
 - D. Distinguished

146. With a t-score equivalent of 45, the raw score of a student can be described as _____.
- A. Above the mean performance
 - B. Below the mean performance
 - C. Just within the mean performance
 - D. Cannot be determined because of lacking information
147. Which of the following measures of central tendency would be easily affected if there is an extreme high or extremely low score?
- A. Mean
 - B. Median
 - C. Mode
 - D. Both the median and the mode
148. The score distribution of an achievement test has some outliers. Which measure of variability would be best to describe the dispersion of scores to the students?
- A. Range
 - B. Inter-quartile range
 - C. Variance
 - D. Coefficient of variation
149. What type of portfolio is being required by Teacher Jous if he is asking his students to display their highest level of achievement in his handicraft subject?
- A. Showcase portfolio
 - B. Assessment portfolio
 - C. Working portfolio
 - D. Evaluation portfolio
150. According to form of assessment, how can a standardized multiple choice test that is focused on HOTS be categorized?
- A. Complex-performance assessment
 - B. Fixed-choice test
 - C. Typical performance
 - D. Summative

PLEASE STAPLE HERE

TO: **2945**

IMPORTANT: FOLLOW EXACTLY A BARR CAPSULE WITH ANSWER, USE NO. 2 PENCIL IN BARRING.

2945

is to your answer O number 10 ask if the copy is the one for all letters. If use in any emergency, use the set to your room. Markers by replacement

This is not your examination. Markers by replacement

IMPORTANT

- DO NOT USE TONER
- RESERVE ANSWERS
- USE PENCIL NO. 2 ONLY
- MAKE THE MARKS DARK AND THOUGH
- MARKS SINCE THIS
- NOT USE PENCIL

NOTE

BEFORE DETACHING AN ANSWER SHEET, CHECK IF THE SET IS YOURS

EXAMINATION ANSWER SHEET

CAREFULLY MARK ALL ANSWERS WITH A NO. 2 PENCIL. STRICTLY NO ERASURES.

SUBJECT:

(USE BLACK BALLPEN)

A. SUBJECT BOX

1. Using only the SUBJECT TITLE you are taking on the space provided. Fill in your name. **WARNING: DO NOT WRITE YOUR NAME, SEAT NUMBER or any other information on this box.** Otherwise your answer will be considered invalid.
2. DO NOT USE CORRECTION FLUID or a view of any kind to correct wrong subject title. Put a horizontal line on the wrong subject and write above or beside the correct one.

INSTRUCTIONS TO EXAMINEE

B. LETTER CHOICES BOX

1. Write the letter of the correct answer in the space provided. Do not write your name, seat number, or any other information on this box. Otherwise your answer will be considered invalid.
2. DO NOT USE CORRECTION FLUID or a view of any kind to correct wrong letter choice. Put a horizontal line on the wrong letter and write above or beside the correct one.
3. DO NOT FOLD OR MUTILATE. KEEP THIS ANSWER SHEET CLEAN.
