

Field Study/Practice Teaching Board Exam Questions

Lecturer: Mr. Jhon Mark M. Santos, LPT

1. With the NCBTS as guide, an ideal learning environment should have the following characteristics, EXCEPT

- A. The learning environment promotes fairness
- B. Is safe and conducive for learning
- C. Builds many professional linkages
- D. Establishes and maintains consistent standards of learner's behavior

CA: C

Domains

2. Which facilities are present in a health-promoting school environment?

- I. Canteen that sells all kind of food including junk food
- II. Comfort rooms common for boys and girls
- III. Sanitary drinking fountains
- IV. Safe playground

- A. II, III and IV
- B. I, II, III, and IV
- C. I and II
- D. III and IV

CA: D

3. Which physical school environment supports learning?

- A. Availability of flexible classroom furniture
- B. Presence of spacious classrooms
- C. Prominence of bulletin boards in every building
- D. Tall school buildings

CA: A

Flexible furniture means that classrooms can be arranged into different configurations to accommodate individual work, group discussions or small-group projects. Teachers, however, need training to be able to effectively teach in these new classroom configurations and for them to be worth the expense.

4. A 14-year old felt ignored by her crush whom she believes is her on true love. She is crying incessantly and refuses to listen and accept sound advice that the teacher is offering. Her refusal to accept is because:

- A. she thinks what she feels is too special and unique, that no one felt like this before.
- B. the teenager's favorite word is "no", and she will simply reject everything the teacher says.
- C. 14-year old are not yet capable of perspective thinking and cannot take the teacher's perspective.
- D. teenagers never listen to adult advice.

CA: A

People who are skilled at understanding others imagine another person's feelings ("I think he'll feel awful if I say that to him"). They are able to relate to how that person reacts to things ("Oh, I completely get why she got angry like that. No wonder!"). Understanding how others feel, act, and react helps us build better relationships.

5. A preschool teacher is thinking about how best to develop the fine motor skills of the 4- year old. Which of the following should be best to consider?

- A. Provide daily coloring book activities.
- B. Ask the children to do repeated writing drills every day.
- C. Encourage children to eat independently.
- D. Conduct a variety of fun and challenging activities involving hand muscles daily.

CA: D

Age	Developmental Milestones	Possible implications if milestones not achieved
0 – 6 months	• Reflexive grasp (at birth) • Global ineffective reach for objects (3 months) • Voluntary grasp (3 months) • 2 handed palmar grasp (3 months) • 1 handed palmar grasp (5 months) • Controlled reach (6 months)	• Poor muscle development and control • Delayed ability to play independently • Delayed sensory development due to delayed interaction with toys and other sensory objects
6 – 12 months	• Reaches, grasps, puts object in mouth • Controlled release of objects • Static Pincer grasp (thumb and one finger) • Picks things up with pincer grasp (thumb and one finger) • Transfers objects from one hand to another • Drops and picks up toys	• Poor development of hand and finger strength • Poor manipulation of objects resulting in delayed play skills • Delayed sensory development due to lack of sensory play experiences
1-2 years	• Builds tower of three small blocks • Puts four rings on stick • Places five pegs in pegboard • Turns pages two or three of a book at a time • Scribbles • Turns knobs	• Poor development of hand and finger strength • Delayed independent play skills • Delayed development of self care skills (such as eating) • Delayed manipulation skills

2-3 years	• Strings four large beads • Turns single pages of a book • Snips with scissors • Holds crayon with thumb and fingers (not fist) • Uses one hand consistently in most activities • Imitates circular, vertical, and horizontal strokes • Paints with some wrist action, makes dots, lines, circular strokes • Rolls, pounds, squeezes, and pulls playdough • Eats without assistance	• Delayed self-care skills (such as eating) • Delayed pre-writing skill development • Delayed manipulation of small objects such as toys, pencils and scissors • Frustration when manipulating small toys and objects
3-4 yrs	• Builds tower of nine small blocks • Copies circle • Imitates cross • Manipulates clay material (rolls balls, makes snakes, cookies) • Uses non-dominant hand to assist and stabilise the use of objects • Snips paper using scissors	• Delayed pre-writing skill development • Frustration and/or avoidance of pencil based tasks • Poor pencil grasp and pencil control • Poor self-care skills (such as eating) • Delayed drawing skills
4-5 yrs	• Cuts on line continuously • Copies cross • Copies square • Writes name • Writes numbers 1-5	• Difficulties holding and manipulating a pencil • Difficulties learning to write name and other letters of the alphabet • Dependence on caregivers for every day activities such as dressing • Frustration and/or avoidance of pencil based tasks

5 – 6 yrs	• Cuts out simple shapes • Copies triangle • Colours within lines • Uses a 3 fingered grasp of pencil and uses fingers to generate movement • Pastes and glues appropriately • Can draw basic pictures	• Difficulties learning to form letters and numbers correctly • Poor handwriting • Difficulties demonstrating academic ability on paper • Fatigue during pencil based tasks • Frustration and/or avoidance of pencil based tasks
6-7 yrs	• Forms most letters and numbers correctly • Writes consistently on the lines • Demonstrates controlled pencil movement • Good endurance for writing • Can build Lego, K'nex and other blocks independently • Ties shoelaces independently	• Difficulties getting ideas down on paper • Experiences fatigue during handwriting tasks • Difficulty keeping up in class due to slow handwriting speed • Poor legibility of handwriting • May impact on self-esteem when comparing work to peers • Possible frustration and/or behavior difficulties due to avoidance of pencil based tasks
7-8 yrs	• Maintains legibility of handwriting for entirety of a story	• Difficulty completing handwriting tasks in a timely manner • Experiencing fatigue during handwriting tasks • Poor academic achievement due to difficulty getting ideas down on paper • Difficulties due to avoidance of pencil based tasks

6. Learners are more likely to internalize and follow classroom rules when

- A. The teacher clearly explains the rules she prepared.
- B. The learners knows the punishments for not following the rules.
- C. The learners participate in the rule-making process.
- D. The teacher gives additional points for those who follow the rules.

CA: C

7. For a teacher to establish and maintain consistent standards of learners' behavior, they should do all EXCEPT:

- A. Give immediate feedback to reinforce appropriate behavior of learners
- B. Be open to exceptions each time a learner misbehaves in class
- C. Communicate and enforce school policies and procedures clearly and consistently
- D. Handle behavior problems promptly and with due respect to learners' rights

CA: B

8. Which statement on student diversity is CORRECT?

- A. Teacher must do his/her best to reduce student diversity in class
- B. The less diversity of students in class, the better for teacher and students.
- C. Teachers should accept and value diversity
- D. Student diversity is purely due to students' varied cultures

CA: C

9. Which student thinking/behavior indicates that he/she values diversity?

- A. ~~He~~/she regards his culture as superior to other's culture.
- B. He/she regards his culture as inferior to other's culture.
- C. He/she accepts the fact that all people are unique in their own way.
- D. He/she emphasizes on the differences among people and disregards their commonalities.

CA: C

10. What is a teaching-learning implication of student diversity?

- A. Compare students.
- B. Make use of variety of teaching and assessment methods and activities
- C. Do homogenous grouping for group activities.
- D. Develop different standards for different student groups.

CA: B

11. Read the following comments by the teacher. Which of these comments will most likely make a child try harder, rather than give up?

- A. Sinuwerte ka ngayon dito sa test, ha?
- B. Hindi ka talaga magaling dito sa paksang ito, 'no?
- C. Nakikita ko na kailangan mong maglaan ng mas mahabang panahon sa paksang ito para lubos mong maunawaan ito.
- D. Nahihirapan ka sa paksang ito. Maaari kitang tulungan.

CA: C

12. Which of the following demonstrates differentiated instruction?

- A. The teacher groups the learners by their ability level and makes the groups work with the same topic but assigns a different task appropriate for each group to accomplish.
- B. The teacher divides the class into three heterogeneous groups and assigns the same activity for each group to work on.
- C. The teacher groups the learner by their ability level and assigns different content topics for the groups to work on.
- D. The teacher groups the learner by ability levels and assigns each group a different task on the same topic, and then requests three different teachers, each to assess one of the groups.

CA: A

Differentiated instruction is a teaching approach that tailors instruction to all students' learning needs. All the students have the same learning goal. But the instruction varies based on students' interests, preferences, strengths, and struggles.

Instead of teaching the whole group in one way (like a lecture), a teacher uses a bunch of different methods. This can include teaching students in small groups or in one-on-one session

13. Teacher Rose believes that students need not know the intended learning outcomes of her lesson. She proceeds to her learning activities at once without letting them know what they are supposed to learn for the day. Which principle of learning does Teacher Rose negate?

- A. Effective learning begins with setting clear expectations and learning outcomes.
- B. Learning is an active process.
- C. Learning is the discovery of the personal meaning of ideas.
- D. Learning is a cooperative and a collaborative process.

CA: A

Effective learning begins with the setting of clear and high expectations and learning outcomes. Teacher writes her intended learning outcome on the board. Teacher directly discuss the intended learning outcome in front.

14. Teacher Emma noticed that in group work, students just leave the work to the leader and so vowed never to give group work again. Against which principle of learning is Teacher Emma's decision?

- A. Learning is an active process.
- B. Learning is the discovery of the personal meaning and ideas.
- C. Learning is a cooperative and a collaborative process.
- D. Effective learning begins with setting clear expectations and learning outcomes.

CA: C

15. Teacher Lil avoids drills out of context. She gives real-world Math problems for students to drill on. Teacher Lil is very much convinced of which principle of learning?

- A. Learning is an active process.
- B. Learning is the discovery of the personal meaning and ideas.
- C. Learning is a cooperative and a collaborative process.
- D. Effective learning begins with setting clear expectations and learning outcomes

CA: B

16. Teacher Ruben wanted his students to rate their own work using the scoring rubric which he explained to the class before the students began with their task. Based on revised Bloom's taxonomy, which level of cognitive processing are the students?

- A. Evaluating
- B. Synthesizing
- C. Applying
- D. Analyzing

CA: A

Bloom's Taxonomy

create

Produce new or original work

Design, assemble, construct, conjecture, develop, formulate, author, investigate

evaluate

Justify a stand or decision

appraise, argue, defend, judge, select, support, value, critique, weigh

analyze

Draw connections among ideas

differentiate, organize, relate, compare, contrast, distinguish, examine, experiment, question, test

apply

Use information in new situations

execute, implement, solve, use, demonstrate, interpret, operate, schedule, sketch

understand

Explain ideas or concepts

classify, describe, discuss, explain, identify, locate, recognize, report, select, translate

remember

Recall facts and basic concepts

define, duplicate, list, memorize, repeat, state

17. You are required to formulate your own philosophy of education in the course, The Teaching Profession. Based on Bloom's revised taxonomy, in which level of cognitive processing are you?

- A. Analyzing
- B. Creating
- C. Applying
- D. Evaluating

CA: B

18. Teacher Danny requires his class to conduct research, write a research report and defend the same before a panel of experts. In which level/s of processing will the students be engaged?

I. Retrieval II. Comprehension III. Analysis IV. Knowledge utilization

A. I, II, III, and IV

B. III and IV

C. II, III and IV

D. I, III, and IV

CA: A

19. Teacher Bing encourages her students to make the intended learning outcome their own and explained that she expected them to monitor now and then their own progress toward the intended learning outcome and act accordingly. In which level of processing will Teacher Bing's student's act?

- A. Cognitive
- B. Self-system
- C. Metacognitive system
- D. Between cognitive and metacognitive system

CA: C

The metacognitive system is the “mission control” of the thinking process and regulates all the other systems. This system sets goals and makes decisions about which information is necessary and which cognitive processes best suit the goal. It then monitors the processes and makes changes as necessary.

20. Teacher Dada's lesson was on "what man can do to arrest climate change". She made students do the talking, the arguing, and the synthesizing. She gave her lecturette after students have participated in the lively discussion. Which teaching approach did Teacher Dada employ?

- A. Learner-centered approach C. Subject-matter centered approach
B. Activity-centered approach D. Teacher-centered approach

CA: A

21. In this FS course, FS students are required to observe, analyze and reflect on actual class proceedings. Which description of the pedagogical approach of K to 12 as cited in the K to 12 law is observed in the conduct of this FS course?

A. Developmentally appropriate

C. Inclusive

B. Reflective

D. Inquiry-based

CA: C

22. The subject matter is the ASEAN Qualifications Framework (AQRF). The Asian History teacher teams up with the Economics teacher, the Professional Education teacher for a thorough discussion of AQRF from the different perspective of other disciplines. Which describes the Asian History teacher's pedagogical approach?

- A. Integrated
- B. Reflective
- C. Constructivist
- D. Inquiry-based

CA: A

23. Learning is an active process. Which one is an application of this principle?

- A. Let students learn the steps in opening a computer by making them follow the steps.
- B. Group students for work or project that way project becomes less expensive.
- C. Teach your content from a multidisciplinary perspective.
- D. Avoid drills which are out of control.

CA: A

24. The more senses that are involved, the more and the better the learning.
Which practice is aligned with this principle?

- A. Teach using mostly verbal symbol
- B. Employ cooperative learning
- C. Invite parents as resource speakers in class
- D. Bring students to field trips with consent of school and parents

CA: D

25. A non-threatening atmosphere enhances learning. Which practice is an offshoot of this principle?

- A. No praising
- B. No scolding
- C. No bullying
- D. No homework

CA: C

26. Emotion has the power to increase retention and learning. To apply this principle, teacher must:

- A. Spice class with his/her sense of humor.
- B. Make course difficult for students to remember and learn
- C. Touch students emotion when he/she teaches
- D. Be emotional when he/she teaches

CA: C

27. Learning is meaningful when it is connected to students' everyday life. What is an application of this principle in teaching?

- A. Teacher asks the class to show application of what they learned to their daily life.
- B. Teacher makes everyday life the starter of his/her lesson.
- C. Teacher narrates true-to-life stories.
- D. Teacher asks students to come up with clipping of Filipino life

CA: A

28. An integrated teaching approach is far more effective than teaching isolated bits of information. What then should teacher avoid?

- A. Teaching to the test
- B. Knowledge utilization
- C. Summarizing lesson
- D. Use of problem solving method

CA: A

29. If Teacher Jing develop lesson the OBTL way, what should she do?

- A. Make students understand what they are expected to know and able to do after the lesson.
- B. Make seatwork as homework.
- C. Correct the seatwork.
- D. Make students arrive at the answers

CA: A

30. In OBTL, upon which should my assessment be based?

- A. Content
- B. Intended learning outcome
- C. Scope of subject matter
- D. Teaching and learning activity

CA: B

31. To obtain well-thought out answers, which questioning behavior helps?

- A. Involving as many as possible
- B. Asking open-ended questions
- C. Asking non-directed question
- D. Allowing sufficient time

CA: D

32. You get a partially correct answer. You say “yes but a part needs improvement”. How did you handle the response?

- A. Provided a corrective feedback
- B. Provided an acceptance feedback
- C. Gave appropriate praise
- D. Criticized student's response

CA: A

33 . Which practice doesn't promote interaction?

- A. Soliciting student's questions
- B. Rejecting student's answer outright
- C. Rephrasing the question
- D. Repeating and expanding on a student's answer

CA: B

34. Which type of question will least promote interaction among students?

- A. Divergent
- B. Conceptual
- C. Convergent
- D. Inference

CA: C

Convergent questions may also be referred to as “closed-ended” questions, meaning that the instructor is looking for an anticipated response that requires little original thought on the student's part. Convergent questions will not require students to put original thought to the development of an answer.

35. Examine the bulletin board display. This bulletin board fulfills which primary purpose? (MATH MADNESS! Are you a game?)

- A. Instructional-interactive
- B. Informational
- C. Motivational
- D. Decorative

CA: A

36. Examine the bulletinboard display. This bulletinboard fulfills which primary purpose? (Best Work in the World!)

- A. Instructional-interactive
- B. Informational
- C. Motivational
- D. Decorative

CA: C

37. Miss Real is very excited to do her presentation about the effects of global warming to Grade 5 students. She wants to make sure the children will be interested. While preparing her slides, she should .

A. Put animation and slide transition on each slide to sustain attention

B.Include pictures and a short video clip that captures the effects of global warming.

C.Use a different slide design with nature images for each slides to sustain interest.

D.Put one paragraph per slide to emphasize the facts about global warming.

CA: B

38. MOOCs are open because?

- A. All courses are offered for free
- B. Courses can be accessed by anyone anywhere as long as they are connected to the internet.
- C. Openness to ideas is a strict requirement
- D. One can avail of them only during the opening of a semester.

CA: B

39. Ordinary people consider curriculum as .

I. a list of subjects II. courses to complete III. subjects to undertake

- A. I only
- B. II only
- C. III only
- D. I, II, and III

CA: D

40. When curriculum is viewed as a process, what should the teacher consider primarily in designing his/her lessons?

- A. Different modes of assessments
- B. Various methods and strategies
- C. Outcomes-based learning objectives
- D. National competency-based competencies

CA: C

41. Which of the following processes usually comes first in developing curriculum?

- A. Selection of educational content
- B. Evaluating educational experiences
- C. Identifying learning goals and objectives
- D. Organization of learning experiences

CA: C

42. To ensure high standards of teacher's personal and professional development, one must refer to the qualification standards to the PQF?
What does PQF stand for?

- a. Philippine Quality Framework
- b. Philippine Qualifications Framework
- c. Philippine Qualifications Focus
- d. Philippines Qualification Framework

CA:B

43. Why should continuing professional development be in accordance with the Philippine Qualifications Framework? (PQF)

Because the PQF _____ for each level of the Philippine educational system.

- A. States the assessment tasks
- B. States the qualifications standards
- C. Describes the attributes of the graduates
- D. Lays down the industry requirements

CA:B

44. Should the planning of continuing professional development programs consider the ASEAN Qualifications Reference Framework?

- A. No, continuing professional development is required only in the Philippines
- B. Yes, for professionals to be globally competitive
- C. Not necessarily, it is enough that continuing professional development programs abide by PQF Standards
- D. That depends on the profession concerned.

CA:B

45. Which role do teacher-leaders play?

I. shape the culture of their schools

II. Improve student learning

III. Influence practice among their peers

A. I, II

B. I, II, III

C. II, III

D. II only

CA:B

46. To enable learners to respond to the demands of the present world, which should schools do?

- A. Teach application-based, creative, critical, and innovative thinking
- B. Teach information and concepts
- C. Offer a fixed curriculum
- D. Prepare students for the present

CA:A

47. The role of a teacher changes in a learner-centered environment. Which among the following circumstances is NOT included in the paradigm shift?

- A. Is viewed as a support, collaborator, and coach for students as they learn to gather and evaluate information for themselves
- B. Actively encourages individuals to use their personal knowledge and skills to create unique solutions to problems
- C. Is viewed as the primary source of information who continually directs it to the students
- D. Participates at times as one who not know it all but desires to learn

CA:C

48. The following are attributes of a peace educator EXCEPT?

- A. A responsible global citizen and an agent of culture and peace
- B. Has the skills of communication and conflict resolution
- C. Is motivated by service but expects rewards for services
- D. Lifelong learner who continues to improve his/her own learning abilities

CA:C

49. What pedagogy should schools adopt to help learners acquire the basic skills?

- A. Let students perform experiments and investigatory projects
- B. Demonstrate skills needed and then let students perform the skills until mastery is achieved
- C. Do community visits and let students do a project to improve the community
- D. Let students make a webquest regarding a particular topic

CA:B

50. Which statement is not TRUE of CHED ?

- A. It is in charge of education programs in all levels
- B. It is governed by commissioners headed by a chairperson
- C. It supervises both public and private higher education institutions
- D. It regulates and supervises tertiary education

CA:A

By God's grace, I am a future

LPT

I claim it!
