

**PROFESSIONAL EDUCATION
ASSESSMENT OF LEARNING**

Instruction: Select the correct answer for each of the following questions. Mark only one answer for each item by shading the box corresponding to the letter of your choice on the answer sheet provide. Strictly no erasures allowed.

- 1. Which of the following best explains the difference between measurement and evaluation?**
 - A. Measurement is assigning a numerical value to a given trait while evaluation is giving meaning to the numerical value of the trait
 - B. Measurement is the process of gathering while evaluations is the process of quantifying
 - C. Measurement is a pre-requisite of assessment while evaluation is the pre-requisite of testing
 - D. Measurement is the process of quantifying data while evaluation is the process of organizing data
- 2. On which types of assessment are grades based?**
 - A. Formative assessment
 - B. Diagnostic assessment
 - C. Formative and summative assessment
 - D. Summative assessment
- 3. Compared with evaluation which is subjective, testing students is more objective because it is based on _____.**
 - A. Quantifiable data
 - B. Homework
 - C. Class work
 - D. Human judgment
- 4. What activity of human intelligence attaches value or quantitative description to measuring results of learning activities?**
 - A. Critical thinking
 - B. Analysis
 - C. Understanding
 - D. Assessment
- 5. If a teacher gives a diagnostic test, what does she want to know?**
 - A. What grade/mark to give the learners
 - B. Learners' readiness for the lesson
 - C. What assignment to give for lesson mastery
 - D. Parts of the lesson that the learners don't understand while teaching-learning is in progress
- 6. In OBE/OBTL, upon which should my assessment be based?**
 - A. Content
 - B. Scope of subject matter
 - C. Intended learning outcomes
 - D. Teaching and Learning activity
- 7. Does assessment AS learning occur when a student monitors her own progress in relation to learning targets he/she sets up?**
 - A. No
 - B. Partially no
 - C. Yes
 - D. Partially yes
- 8. What kind of assessment is done during the process of student learning?**
 - A. Summative assessment
 - B. Alternative assessment
 - C. Authentic assessment
 - D. Formative assessment
- 9. Performance test: Psychomotor skills**
Paper-and-pencil test: _____
 - A. Declarative knowledge
 - B. Procedural knowledge

C. Psychomotor procedures

D. Motor skills

10. What are the four principles of OBE cited by Spady (1996)?

- I. Clarity of focus
- II. Designing down
- III. Constructive alignment
- IV. High expectations
- V. Expanded opportunities

A. II, III, IV, V

B. I, II, III, IV

C. I, II, IV, V

D. I, III, IV, V

11. Do OBE, OBTL, and UbD observe the principle, "begin with the end in mind?"

A. Somewhat

B. Yes

C. Only UbD

D. No

12. Why should educational institutions consider needs of industry in the formulation of learning outcomes?

- A. To prepare graduates for the world of work
- B. For industry to save on cost for human resource development
- C. To eliminate probation of new employees in industry
- D. To add prestige to educational institutions

13. On cognitive principles in test construction, what ability is required to correctly answer filling the blanks questions?

A. Application Process

C. Memory Recall

B. Analytical thinking

D. Creative imagination

14. Which is TRUE of learning outcomes?

- A. What institutions are expected to realize
- B. What learners are expected to demonstrate at the end of a lesson
- C. What a course is supposed to achieve
- D. What an education program is supposed to attain

15. With which does a teacher start his/her lesson if he/she teaches in accordance with OBE?

- A. Clarifying the intended learning outcome for students
- B. Clarifying pre-requisite knowledge and skills
- C. Giving a diagnostic test
- D. Involving the class in an activity

16. What is the purpose of a pre-test?

A. To apply an intervention

C. To grade learners

B. To assess results

D. To determine entry knowledge or skills

17. Which refers to formative assessment?

A. Assessment OF learning

C. Assessment ABOUT learning

B. Assessment FOR learning

D. Assessment IN learning

18. If you emphasize on assessing higher-order thinking skills, which should you do?

A. Do less formative assessment

C. Give the students problem to solve

B. Give oral examinations.

D. Avoid paper-and-pencil test

19. Which is/are proof/s of constructive alignment?

- I. The intended learning outcome addresses a social demand.
- II. The assessment task is aligned to the intended learning outcome.
- III. The subject matter is relevant to current issues.
- IV. The learning content, teaching-learning activities and assessment tasks are aligned to the intended learning outcome.

A. I and III B. I and II C. I, II and IV D. II and IV

20. Which does NOT apply to good learning outcomes?

- A. State what and how teachers must teach
- B. Describe how students must be taught.
- C. State what must be realized at the end of the program
- D. State the specific knowledge and skills that a student must be able to demonstrate at the end of a lesson

21. After teaching them the process of experimenting, Teacher Vanessa wanted her students to be able set up an experiment to find an answer to a scientific problem. Which will she ask her students to do?

- A. Can be aerial plants also live on land? Research on experiments already conducted
- B. Research on the answers to this scientific problem: Can aerial plants survive when transferred in soil?
- C. Set up and experiment to find out if aerial plants can also live on land
- D. Observe if aerial plants can survive when planted in soil. Note your observations and present them in class

22. Which learning competency can be measured by traditional assessment?

- A. Enumerate at least 5 traits of a person with a growth mindset.
- B. Serve a well-balanced breakfast.
- C. Demonstrate lesson development using the inductive method.
- D. Prove that plants grow toward the light.

23. Which is an improved version of this learning outcome: "To understand inductive lesson development."

- A. To write a lesson plan following the inductive method
- B. To teach how a lesson is developed inductively
- C. To answer a question on inductive lesson development
- D. To describe how a lesson is developed inductively

24. Which is wrong to assume about traditional assessment?

- A. It is easier to assess than performance tests
- B. It can assess fairly all the domains of intelligence of an individual.
- C. It can assess individuals objectively.
- D. It can assess individuals at the same time.

25. Assessment should be on real-world application and not on out-of-context drills. To apply this principle, what should Teacher Gerald do?

- A. Gives a 10-item quiz on adding dissimilar fractions which is the weakness of students.
- B. Gives a 20-point quiz asking students to determine whether or not the sound of "a" is long or short.
- C. Gives students a matching type of test on vocabulary

- D. Assesses students' English oral communication skills in a graduation program simulation where each student has speaking assignment.
- 26. In which assessment are you engaged if you want to know learners have realized intended learning outcomes?**
- A. Contextualized assessment
B. Norm-referenced assessment
C. Decontextualized assessment
D. Criterion-referenced assessment
- 27. If I have to use the most authentic method of assessment, which of these procedures should I consider?**
- A. Performance-based assessment
B. Traditional assessment
C. Objective assessment
D. Written test
- 28. After teaching them the process of experimenting, Teacher Vanessa wanted her students to be able set up an experiment to find an answer to a scientific problem. Which will she ask her students to do?**
- A. Can be aerial plants also live on land? Research on experiments already conducted
B. Research on the answers to this scientific problem: Can aerial plants survive when transferred in soil?
C. Set up and experiment to find out if aerial plants can also live on land
D. Observe if aerial plants can survive when planted in soil. Note your observations and present them in class
- 29. What is the criterion in criterion-referenced grading?**
- A. Grades
B. Standards
C. Averages
D. Descriptors
- 30. Which of the following is observed in a class doing authentic assessment? The students:**
- I. Perform tasks that demonstrate meaningful application of essential skills
II. Are required to apply knowledge and skills they have learned in a written test
III. Demonstrate understanding by answering essay questions
IV. Create presentation to demonstrate certain competencies and skills
- A. I and IV
B. II and IV
C. II, III and IV
D. I, II, and III
- 31. Which is an example of process-based assessment?**
- A. An apron from a Home Economics class
B. A Capstone project
C. A research paper
D. Cleaning tools after use
- 32. Which tests are said to be decontextualized?**
- A. Simple recall tests
B. Performance tests
C. Simulation tests
D. Tests that measure HOTS
- 33. In which assessment do you compare the performance of a student with that of others?**
- A. Criterion-referenced assessment
B. Norm-referenced assessment
C. Contextualized assessment
D. Decontextualized assessment
- 34. What is TRUE of the acronym GRASPS?**
- A. It is far from being real
B. It focuses only on creating skill.
C. It excludes recall and comprehension skills.
D. It is one way of assessing learning in an authentic setting.

- 35. Which test item belongs to a contextualized test?**
A. What is assessment?
B. What are the characteristics of a quality assessment?
C. Formulate a test item that is aligned with this learning outcome: Design an experiment to determine the effect of detergent on plants
D. Why was the turtle mad at the monkey?
- 36. Which is a product-based assessment?**
A. PowerPoint presentation
B. Focusing the microscope
C. Dancing tango
D. Demonstration teaching
- 37. What is the criterion in criterion-referenced grading?**
A. Grades
B. Standards
C. Averages
D. Descriptors
- 38. What kind of assessment is the compiled materials like reflections, photos, school leaflets, etc. from internship of senior students?**
A. Essay
B. Portfolio
C. Test
D. Project
- 39. Which portfolio is most appropriate to show improvement in learning and transforming as a student?**
A. Process portfolio
B. Development portfolio
C. Showcase portfolio
D. Assessment portfolio
- 40. The following are current trends in assessment EXCEPT _____.**
A. teacher sharing Scoring Rubric with students only during summative assessment
B. clarifying with students intended learning outcomes expected to be achieved
C. engaging students in the self-assessment process
D. making use of a combination of written objective tests and performance tests
- 41. What needs to be reflected in a portfolio by way of journal text, photos and other items?**
A. Sites of learning
B. Test papers
C. Learning Experiences
D. Photos of classmates
- 42. Which portfolio is most appropriate if you are applying for a teaching position?**
A. Development portfolio
B. Showcase portfolio
C. Assessment Portfolio
D. Process portfolio
- 43. Which is NOT true of an e-portfolio?**
A. It is a traditional form of assessment since it has been practiced ever since.
B. It acts as sustainable form of assessment that enables students to identify and make judgments on their learning
C. It directs students to take responsibility for their own learning and assessment
D. It is an ongoing, evidence-based assessment
- 44. I would like to see if my students have achieved the objectives of my lesson. What portfolio would I like to see?**
A. Developmental portfolio
B. Showcase portfolio

- C. Objective portfolio
D. Assessment portfolio
45. Which corresponds to career/transfer e-Portfolios?
A. Assessment portfolio
B. Showcase portfolio
C. Development portfolio
D. School - centered portfolio
46. Which statement correctly applies to a scoring rubric?
A. It is used to score a product or a process against established criteria
B. It is not used for an essay test
C. It is the same as a rating scale
D. It is used for scoring objective types of test
47. In constructing achievement tests, the first step is to:
A. Assess the teaching capability of teachers
B. Determine the highest rating to be given to student
C. Determine the characteristics of highest takers
D. Determine the content and skills covered by test
48. Why should negative terms be avoided in the stem of multiple-choice test items?
A. It increases the length of the stem.
B. They may be overlooked
C. They make the construction of alternatives more difficult.
D. It increases the difficulty of scoring.
49. Which rubric CANNOT provide specific feedback for improvement?
A. General analytic rubric
B. Analytic rubric
C. Holistic rubric
D. Developmental rubric
50. Miss Eugenio would like to cover a wide variety of objectives in the quarterly examination in her English class lesson on subject-verb agreement. Which of the following types of test is the most appropriate?
A. Multiple Choice
B. True-False
C. Essay
D. Matching
51. What type of multiple question is this?
"Henry Kissinger is a well-known _____."
A. avante-garde playwright
B. lawyer
C. International statesman
D. surrealist artist
52. Which advantage does a holistic rubric over that of an analytic rubric?
A. More detailed
B. More direct
C. Shorter in content
D. Take less time to create
53. A negative discrimination index means that:
A. The test item could not discriminate between the lower and upper groups.
B. More from the upper group got the item correctly.
C. The test item has low reliability
D. More from the lower group answered the test item correctly

54. Which statement of scoring instruments is CORRECT?

- A. Checklists and rating scales are synonymous to scoring rubrics.
- B. Scoring rubrics are the only tools to assess performance
- C. Checklists and rating scales as measures of performance assessment are one and the same.
- D. Checklists and rating scales are not scoring rubrics.

55. Reliability of tests can be improved by various factors, and one is _____ in which scores are spread over a range of abilities.

- A. moderate item difficulty
- B. heterogeneous of the student group
- C. objective scoring
- D. increased number of score items

56. An option in a multiple choice did not work. Which conclusion can you derive about the option?

- A. It is implausible
- B. It is highly plausible
- C. It belongs to a category of options
- D. It should be maintained

57. Which assessment task works best for language-smart learners?

- A. Oral presentation
- B. Dance
- C. By demonstration
- D. By the use of graphic organizers

58. In his conduct of item analysis, Teacher Vien found out that more from lower group got test item #6 correctly. This means tat the test item is _____.

- A. has a positive discriminating power
- B. has a negative discriminating power
- C. has low validity
- D. has high reliability

59. This is a tool for assessment for spatially intelligent learners.

- A. Writing inner thoughts
- B. Oral demonstration enacting a movie scene
- C. Written Report
- D. Landscape drawing

60. Which type of test measures student's thinking, organizing and written communication skills?

- A. Essay
- B. Completion type
- C. Short answer
- D. Extemporaneous speech

ANSWER KEY

1. A
2. D
3. A
4. D
5. B
6. C
7. C
8. D
9. A
10. D
11. B
12. A
13. C
14. B
15. A
16. D
17. B
18. C
19. D
20. A
21. C
22. A
23. A
24. B
25. D
26. D
27. A
28. C
29. B
30. B

31. B
32. D
33. B
34. D
35. C
36. A
37. B
38. B
39. B
40. A
41. C
42. B
43. A
44. D
45. B
46. A
47. D
48. B
49. C
50. A
51. C
52. D
53. D
54. A
55. B
56. A
57. A
58. B
59. D
60. A
