

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

- 1) The following statements indicate that Maria understands digital practice. Which one does NOT support the idea?**
- A. Maria is aware of the different types of users found online.
 - B. Maria understands that as she uses the internet, she leaves a digital footprint.
 - C. Maria knows how to look for an expert online who can be a resource person related to her specialization.
 - D. Maria knows when to change her search strategy such as browsing in the web to locate needed information.
- 2) Which digital literacy skill refers to the ability to locate information related to an assigned topic given by a teacher in class?**
- A. Turning on the computer in order to search.
 - B. Using key words related to the topic
 - C. Adding comments to blogs found online
 - D. Producing a digital story on the assigned topic
- 3) Which literacy is referred as a core skill in the 21st century essential in developing the ability to work well with others by tapping on each other's talents and skills?**
- A. Creativity
 - B. Critical Thinking
 - C. Collaboration
 - D. Citizenship
- 4) Which is the ability to see information and media technology to find, evaluate, create and communicate information that require cognitive and technical skills?**
- A. Digital Skills
 - B. Digital Literacy
 - C. Digital Intelligence
 - D. Digital Aptitude
- 5) Dhana decides to produce a digital story on her student teaching experiences. Which digital literacy skills does she exhibit?**
- A. Communication and Collaboration Literacy
 - B. Digital Scholarship Literacy
 - C. Identity Management Literacy
 - D. Media Literacy
- 6) The following are applications and tools that can be used in collaborating with other learners. Which one does not belong to the group?**
- A. Skype
 - B. Blog
 - C. Wikispace
 - D. Google Form
- 7) Which collaborative tool allows you to work with others using video conferencing or discussing with other members of the group through a webcam?**
- A. Skype
 - B. Blog
 - C. Wikispace
 - D. Google Form
- 8) Which ICT tool in education allows effective collaboration?**
- A. Computing devices
 - B. Web conferencing
 - C. Camera
 - D. Browser
- 9) Which ICT tool is similar to a bulletin board?**
- A. Mobile device
 - B. Padlet
 - C. iPad
 - D. Internet connection
- 10) With increasing use of educational technology inside the classroom, what role is expected of the teacher?**
- A. Facilitator
 - B. Researcher
 - C. Knowledge giver
 - D. Source of information
- 11) Which of the following statements has a very limited definition of educational technology?**
- A. It is a profession composed of various job categories.
 - B. It refers to the computers used for teaching and learning.
 - C. It includes audiovisual materials, interactive multimedia and self-instructional materials.
 - D. It is the development, application and evaluation of system, techniques and aids to improve human learning

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

- 12) The use of technology will enhance the 21st century skills along
- | | |
|---|--|
| I. development of tools | III. designing learning environment and spaces |
| II. critical thinking and problem solving | IV. all of the above |
- A. I only B. II only C. I, II, and III D. IV only
- 13) How did you learn best about the different concepts in ICT?
- A. By memorizing the definition verbatim from the definition
B. By understanding first the meaning and memorizing
C. By memorizing first, then understanding
D. A and B
- 14) The ICT competency standards for teachers include all the following EXCEPT one. Which one?
- A. Digital and non-digital technology C. Ethical issues on the use of ICT
B. Enhance financial literacy skills D. Use of technology tools
- 15) Teacher Krizelle used a downloaded video documentary in her class. Which of the following is the best thing for her to do when using the material in her lesson?
- A. Introduce the video to the class without telling where it came from.
B. Tell the class that she made the video for them to believe that she is an efficient teacher.
C. Inform the class where she downloaded the video.
D. Tell the class that she asked someone to make the video for her.
- 16) How can one become a global digital citizen?
- A. By adopting a new identity in the virtual world
B. By acting responsibly in both offline and online activities
C. By acting appropriately when seen by the people in the community
D. By behaving appropriately when the situation demands for it
- 17) Mr. Agustin is able to pay his telephone bills through bank transfer from his bank account. Which element of digital citizenship is she benefiting from?
- A. Digital access C. Digital communication
B. Digital commerce D. Digital rights and responsibilities
- 18) Which of the following is the proper use of technology for altruistic service?
- A. Using social media sites to campaign for a social advocacy
B. Hacking bank accounts to help the poor
C. Creating prank accounts to malign the practices of the government
D. Spreading chain prayers through Messenger
- 19) Who among the following is not considered as a global digital citizen?
- A. Jasmine takes care of her gadgets and throws them away when no longer useful.
B. Dina uses social media to campaign for support to the victims of Typhoon Paeng.
C. When meeting people online, Rodel never gives his personal information to other netizens.
D. When collaborating with other people, Ethel is conscious of their beliefs and values.
- 20) Computer-assisted test gives immediate corrective feedback and it is most useful when _____.
- A. Immediate and frequent C. Communicated in a judgmental way
B. Reliable and subjective D. Subjective and valid judgment

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

21) Teacher Marisse might choose to use more traditional testing methods over authentic of performance assessments because ____

- I. authentic assessments require considerable technical knowledge
- II. authentic assessments are needs teachers' productivity tool
- III. authentic assessments are more difficult to administer

A. I only B. II only C. III only D. I, II and III

22) Teacher Jun wants his students to clearly understand what it takes to get a good grade on the Social Studies project he just assigned. He explains that to get an Outstanding rating, the project must include at least four pictures, have at least six pages of content, and list at least eight references. Similar, less-stringent criteria are given for the lower grades. This is an example of ____.

- A. Scoring rubric
- B. Grading to criterion
- C. Normative grading
- D. Criterion-referenced testing

23) The following are major purposes of assessment, EXCEPT ____.

- A. Evaluate learners' achievement
- B. Diagnose a learners' prior knowledge
- C. Provide corrective feedback
- D. Assess native intelligence

24) Teacher Christine utilizes online assessment to measure student learning on a specific topic. What do you call this assessment?

- A. Diagnostic
- B. Formative
- C. Placement
- D. Summative

25) Which of the following statements is NOT correct?

- A. 21st century learners are technology savvy.
- B. The use of ePortfolio is always beneficial to the learners.
- C. Web based examination may be utilized as formative assessment.
- D. The use of ICT in assessment gives immediate feed back to teachers and learners.

26) Teacher Diane assigned her students to create a video presentation about the current problems in the school. As a student, what will you do first?

- A. Conduct survey online on the problems encountered by the students.
- B. Ask permission for the student affairs to conduct online survey.
- C. Make the video presentation right away.
- D. Download video from YouTube.

27) Mr. Alcantara thinks to request his colleague from another country to talk in his class, but he cannot afford to spend for the transportation of the said person. How could he integrate technology in his lesson and enable his class listen to that person?

- A. Podcasting
- B. Instant messaging
- C. Web conferencing
- D. Distant communication

28) What does TK stand for TPACK?

- A. Technological Knowledge
- B. Teacher Knowledge
- C. Technologically Knowledge
- D. Time-tested Knowledge

29) The following elements are present in Bloom's Revised Taxonomy. Which is an exception?

- A. Evaluate
- B. Creating
- C. Remembering
- D. Synthesis

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

30) Which is an appropriate tool that can be employed if the students need to develop their competency to create or produce something novel?

- A. Twitter B. Podcasting C. iBooks D. TeacherKit

31) In technology integration, what should be our primary concern?

- A. It must be new and user friendly.
B. It must be updated and relevant to Filipino setting.
C. It must stimulate and maintain student interest.
D. It must be suited to the lesson objective.

32) Which is a good example of tapping the learners' ingenuity in technology integration?

- A. They will be made to create a digital story of a certain topic and present it in class.
B. They will be made to listen attentively to the presentation that the teacher prepared.
C. They will be made to comment on how to improve a certain presentation.
D. They will be made to bring computing tools to school such as mobile phones.

33) If the teacher wants his/her learners to create an online journal, which do you think would be the best tool to use?

- A. Wiki B. Blog C. Email D. Messenger

34) Which sentence states the correct idea about ASSURE?

- A. ASSURE is a guide indicating the specific steps to be followed when writing a lesson plan.
B. ASSURE model ensures effective technology integration.
C. ASSURE clearly states the relevance of TPACK in instruction.
D. ASSURE is a framework containing the elements when planning a lesson.

35) In selecting media or materials to be used in teaching a lesson, the first element to be considered is ____.

- A. The learner C. The subject matter
B. The objective D. The evaluation activity

36) Based on the ASSURE model, which of the following statements is correct?

- A. Evaluating student performance can take place across phases of the lesson.
B. The teacher has to design the lesson based on the digital tools that work.
C. Once the learning outcomes or the objectives have been determined, the use of the method, media and materials comes next.
D. Student engagement is an important element and selecting the appropriate way of delivering the lesson will direct the instruction flow.

37) Producing a digital story requires important elements that can determine the quality of the production. Which among the choices does not belong?

- A. Point of view B. Sound track C. Storyboarding D. Emotional content

38) Which statement applies correctly to Edgar Dale's Cone of Experience?

- A. The closer you are to the base, the more direct the learning experience becomes.
B. The farther you are from the bottom, the direct the learning experience becomes.
C. The closer you are to the base, the more indirect the learning experience becomes.
D. The farther you are from the base, the more direct the learning experience becomes.

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

- 39) Contrived experiences, demonstrations, and field trips are examples of _____.
A. Iconic B. Enactive C. Symbolic D. Abstract
- 40) Performing experiments is an example of _____.
A. Real-world experiences C. Contrived experiences
B. Direct, purposeful experiences D. Dramatized experiences
- 41) As implied in the Cone of Experience, which will work best for kindergarten children?
A. Videos B. Books C. Audio recordings D. Real-life experiences
- 42) Which statement is NOT correct about the Cone of Experience?
A. The experiences in each stage can be mixed and interrelated
B. There should be a progression of experiences from bottom to top.
C. There must be a balance between concrete and abstract experiences in order to cater and address the needs of the learner.
D. The more senses are involved, the better learning will take place.
- 43) Which characteristics are necessary for teachers to be able to adapt to the current demands of teaching using the evolving digital tools?
I. Openness to learn III. Curiosity
II. Positive attitude IV. Perseverance
A. I only B. I and III C. II and IV D. I, II, III, and IV
- 44) Why should modern teachers need not necessarily be experts in technology by should rather be experts of the habits of the mind?
A. They should understand how their learners learn.
B. They need to exhibit skills in the use of technology.
C. They need to possess patterns of intellectual behaviors that lead to productive actions.
D. They need to understand and master the correct use of technological tools and application.
- 45) Which statement expresses the right action in case there is an indication of cyber bullying?
A. Ignore the behaviour by not responding at all. C. Learn to fight back.
B. Block the person. D. Talk to a trustworthy adult about it.
- 46) Just as there are benefits in using social networking sites, there are also risks that accompany it. Which statement is the best paraphrase?
A. Learners can continually connect as they collaborate to accomplish a task or homework using a social networking website.
B. One major risk is making friends with strangers who may actually be a predator or a cyberbully.
C. Teachers and parents or guardians are protective to the extent of disallowing youngsters to use the internet and social networking sites.
D. There are payoffs and pitfalls when one is active in social networking sites.
- 47) Which situations best defines blended learning?
A. It is a combination of online lessons and actual lessons in a physical setting.
B. Learning is ubiquitous which allows learners to learn anytime, anywhere and in any manner.
C. Social networking websites provide information that can be incorporated in instruction.
D. It can employ synchronous and asynchronous modality of delivery.

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

48) Which online tool is a clear example of using asynchronous mode?

- A. Online chat B. Blog C. Blended learning D. Sites

49) The following are learning management systems except one. Which is it?

- A. Moodle B. Google C. Schoology D. Edmodo

50) Teacher Jem was assigned in a mountain school and she wanted to present instructional materials to her class. What should be presented first if she wanted to do it in a logical presentation?

- A. Real objects B. Diorama C. Pictures and Illustrations D. Flipchart

51) The following are guidelines in designing instructional materials EXCEPT:

- A. Consistency B. Legibility C. Expensiveness D. Quality

52) Which of the following activities is best to do if a teacher wanted to know how well the students understood the lesson about “Beauty and the Beast”?

- A. Exhibit B. Fieldtrip C. Game D. Role-play

53) Which is a series of three or four rectangular boards which are joined together along the sides by hinges so that can be easily folded up and carried?

- A. Zigzag board B. Bulletin board C. Flip chart D. Writing board

54) Teacher Mar is a newly hired teacher. He wants to discuss the lesson about tree planting. What is the BEST instructional material that he should use?

- A. Flip chart B. Nature table C. Diorama D. Writing board

55) Teacher John is using technology to enhance the learning in his subject matter. He is practicing:

- A. gamification B. collaboration C. technology-driven D. integration

56) The following are the instructional materials as supplements to textbook, except:

- A. computer software B. tables, charts, & maps C. guide questions D. mobile app

57) Teacher Gabriel has shown only the important portion rather than whole video as a motivation to his lesson in the class. What did he achieve?

- A. saving on electricity B. avoiding unnecessary noise C. better use of time D. managing discipline

58) The following are the importance of internet and world wide web in the teaching and learning except:

- A. Access to a large database of information
B. Support open distance learning
C. Extended learning opportunities
D. Can be used in search of a lifetime partner

59) Arrange chronologically the following events of instruction that was developed by Robert Gagne:

- I. Elicit performance
- II. Provide feedback
- III. Gain attention
- IV. Inform learners of Objectives
- V. Stimulate recall of prior learning

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

A. I, III, II, V

B. II, V, III, I

C. II, V, III, IV, I

D. III, IV, V, I, II

60) In providing the students access to the internet, teachers should observe these standards, except:

- A. Teach students to test reliability and authenticity of website
- B. Allow students to independently explore the world wide web.
- C. Require students to cite all the websites they use to ensure that they give proper credit and avoid Plagiarism
- D Inform students of their limitations in accessing the internet

61) What level of technology integration is reached by teacher Liza who builds a learning environment that instill the power of technology tools throughout the day and across?

- A. Infusion
- B. Adaptation
- C. Transformation
- D. Adoption

62) What educational technology is most appropriate in showing the trend in temperature change from moth-to-month?

- A. bar graph
- B. flowchart
- C. drawing
- D. map

63) Blended learning is made possible partly through actual classroom meetings coupled with _____ instruction.

- A. print module
- B. tape-recorder
- C. online
- D. private tutor

64) Which of the following is a limitation of models and real objects in teaching and learning?

- A. They pose problems with storage.
- B. They make learning more concrete
- C. They provide hands-on learning experiences
- D. They are readily available in the environment, school, and home.

65) Which group of technologies has the highest degree of concreteness?

- A. Realia and computer
- B. Video, picture, and television
- C. Digital video, film, versatile compact disc
- D. Book, imaginative literature, programmed instruction

66) Which is the best reason why teachers state the objectives before using instructional media?

- A. To secure materials.
- B. To prepare materials beforehand.
- C. To determine which media to use best.
- D. To be able to practice how to operate the equipment.

67) Which of the following should Mr. Rivera primarily consider in determining the teaching-learning objectives and use of instructional media?

- A. The assessment tool to be used
- B. The learning activities
- C. The learner
- D. The teacher

68) Which of the following technologies provide iconic experiences to students/children?

- A. Videos and books

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

- B. Pictures and videos
- C. Radio and recording
- D. Modules and periodicals

69) Which of these technologies used in the classroom are arranged from the most symbolic to multisensory?

- A. Real object, print, audio-visual materials, and visual materials
- B. Visual materials, audio-visual materials, print and computers
- C. Visual materials, print, audio-visual materials, and realia
- D. Print, audio-visual materials, computers, and realia

70) Susan wants to learn more English. Specifically, she wants to improve her listening skills. She has a CD player, a tape recorder, and internet access. As an English teacher, what do you suggest?

- I. CDs with English listening skills
 - II. Tapes with English listening skills
 - III. Internet websites such as Go4English, English Language Listening Lab, or Randall's Listening Lab
- A. I and II
 - B. II and III
 - C. I or III
 - D. I, II and III

71) Mr. Tarnate, an ICT teacher takes into account technology standards to address the needs of the students and help them adapt to the changing society and technology. Which of the following standards is an exception?

- A. Creativity and innovation
- B. Research and information literacy
- C. Model digital-age work and learning
- D. Technology operations and concepts

72) Ms. Vinluan, a computer teacher demonstrates an understanding of local and global issues and exhibits ethical and legal use of information and communications technology tools. Which is true about her?

- A. She models digital-age work and learning
- B. She facilitates and inspires student learning and creativity
- C. She promotes and models digital citizenship and responsibility
- D. She designs and develops digital age learning experiences and assessments

73) In early schooling, which among the following BEST caters to the learning of the pupils?

- A. Electronic gadgets
- B. Multisensory materials
- C. Storytelling
- D. Toys and games

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

74) Ms. Hernandez employs student-centered instruction as the learners create their digital portfolios in her computer class. What could be developed among them through this approach?

- A. Repetition and active learning
- B. Mastery of skills and information delivery
- C. Information processing and passive learning
- D. Construction of knowledge and information exchange

75) Mr. Torres will have a multimedia presentation in his science class. Which of the following should he avoid?

- A. Consider technical quality
- B. Apply different computer effects per slide
- C. Present information through graphic organizers
- D. Use contrasting colors for text and background

76) Mrs. Sison would like to integrate technology in writing a friendly letter. Which of the following is the most effective way of doing it?

- A. Let the pupil surf a friendly letter from the internet
- B. Have the pupils write a friendly letter and send it through email
- C. Have the pupil forward a downloaded friendly letter to others via email
- D. Let the pupil write a friendly letter using word processing and have it critiqued by their peers

77) Which of the following computer-based instructional materials can be used to learn new concepts?

- A. Games
- B. Tutorial
- C. Simulation
- D. Drill and Practice

78) Professor dela Cruz would like to create presentation material for her lesson on the types of computer-assisted instruction. Which makes her presentation effective?

- A. Situating tool
- B. Informative tool
- C. Productivity tool
- D. Communicative tool

79) Professor Reyes is thinking of an online learning approach by which content provides links to information at other locations and serves as a focal point for a distance education experience. Which of the following should she use?

- A. Teleconferencing
- B. Self-paced program
- C. Web-based instruction
- D. Computer-aided instruction

80) Which is NOT a basic consideration in selecting and evaluating the content of an educational technology tool?

- A. Does it match the content?
- B. Can it be easily dismantled
- C. Will it motivate and maintain interest?
- D. Is there evidence of its effectiveness?

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

81) Your father wanted to finish his long-dreamed course, but he wanted to do it at home during his free time. Would you recommend online learning?

- A. Yes, because online learning is in the “in” thing
- B. No, because online learning inhibits student-teacher interaction
- C. No, because hiring a helper would enable him to attend regularly in his class
- D. Yes, because he could learn at his own pace using a wide spectrum of technologies

82) Ms. Delos Santos is a fresh graduate teacher who was hired to teach in an elementary school where there are enough resources for instruction. She wanted to start preparing her instructional materials. Which is the most systematic process in doing this?

- A. Design, utilization, evaluation, development
- B. Design, development, utilization, evaluation
- C. Development, design, utilization, evaluation
- D. Development, utilization, evaluation, design

83) Which is the most important reason why teachers need to preview the instructional materials that will be used in class?

- A. To gain confidence in using them
- B. To encourage viewers to be more focused
- C. To avoid potential problems that might occur while materials are in use
- D. To ensure the appropriateness of the materials with the objectives and target audience

84) Prof. Mandanas would like to use an audio compact disc in teaching a lesson in Filipino. In which activity in the teaching-learning process is it very effective?

- A. In developing listening skills
- B. In teaching creating thinking
- C. In composing poems
- D. In building concepts

85) Plants, pebbles, and blocks are just some of the effective instructional materials readily found in the environment if they are utilized properly. Which of the following is INCORRECT about classroom use?

- A. Pass a single object around the class
- B. Familiarize yourself with the object or model before its actual utilization
- C. Use the objects as a springboard in encouraging students’ active participation
- D. Make sure that the realia and model are large to be seen by the whole class

86) Ms. Samonte used a film clip in teaching Social Studies concepts to her First Year-High School class. However, she found out that it was ineffectively used in the classroom. When is technology considered INEFFECTIVE?

- A. When it promotes mastery of the lesson
- B. When it makes viewing more interesting
- C. When it helps attain the objectives of the lesson
- D. When it induces alienation on the part of the learner

87) Your principal purchased new computer units for your Learning Resource Center. Which of the following should be your last consideration in using technology?

- A. Computer can be used for entertainment

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

- B. Computers can be used for research activities
- C. Computers can be used for interactive presentations
- D. Computers can be used to reinforce discussion of difficult concepts in class

88) Computers can be classified according to the roles they play namely communicative tool, informative tool, and constructive tool. What is the other role of computers not mentioned in this item?

- A. Instructional tool B. Situating tool C. Utility tool D. Application tool

89) **Why is one-way delivery of information a misuse of communication tools?**

- A. Because the teacher expects the student to study more
- B. Because it requires activities that focus on thinking than responding
- C. Because it enables the users to focus more on higher-level cognitive activities
- D. Because this kind of practice lessens the interaction capabilities of communication tools

90) **Internet consists of thousands of connected computer networks around the world. Which term does not refer to the internet?**

- A. NET B. On-line C. Cyberspace D. Information Superhighway

91) **Which technology tool can Prof. Soriano use to communicate asynchronously with her students?**

- A. Chat and blog
- B. Chat and instant messaging
- C. Blog and video conferencing
- D. Electronic bulletin board and email

92) **In your computer subject, you allow your class to chat as part of your motivation before discussing with them the roles of the computer as a tool. How is chat used in this context?**

- A. Information tool
- B. Application tool
- C. Communicative tool
- D. Situating tool

93) **Which statements is INCORRECT about computer conferencing?**

- A. It refers to live student interaction with an expert
- B. It is also known as a discussion forum or bulletin board
- C. It also refers to online class discussion, forums, or debates
- D. It permits two or more individuals

94) **Which instructional application will you introduce to your class if your objective is to help them find and use information resources available on the internet?**

- A. Web quests
- B. Hybrid course
- C. Scavenger Hunt
- D. Distance education

95) **In the delivery of distance education, what computer application is used to organize instructions and track students records and progress?**

- A. Computer-based Multimedia
- B. Computer-assisted Instruction
- C. Computer-mediated Education

EDUCATIONAL TECHNOLOGY – NEW CURRICULUM

D. Computer-managed Instruction

96) After Ms. Rivas planned her lesson in English, she found out the materials at hand do not match her objectives. Which is the best thing that she can do?

- A. Modify the available materials
- B. Teach the lesson the following day
- C. Change the objectives to match with available materials
- D. Carry out the lesson as planned and use the materials at hand

97) Prof. Balagtas used worksheets, manipulatives, and models in teaching math to help her student understand the lesson and love the subject. What did she bear in mind when she used these materials?

- A. Appropriateness
- B. Balance
- C. Breadth
- D. Variety

98) There are several reasons why teachers are reluctant in using electronic media in the teaching learning process. Which is the most common reason?

- A. The limited exposure of teachers to new equipment
- B. Their incompatibility to the diverse needs of the learners
- C. The difficulty in integrating technology into the curriculum
- D. The excessive availability of local technology in the community
