CRITICAL TEST ANALYSIS: RATIONALIZATION

TEACHER

ASSESSMENT OF STUDENT LEARNING

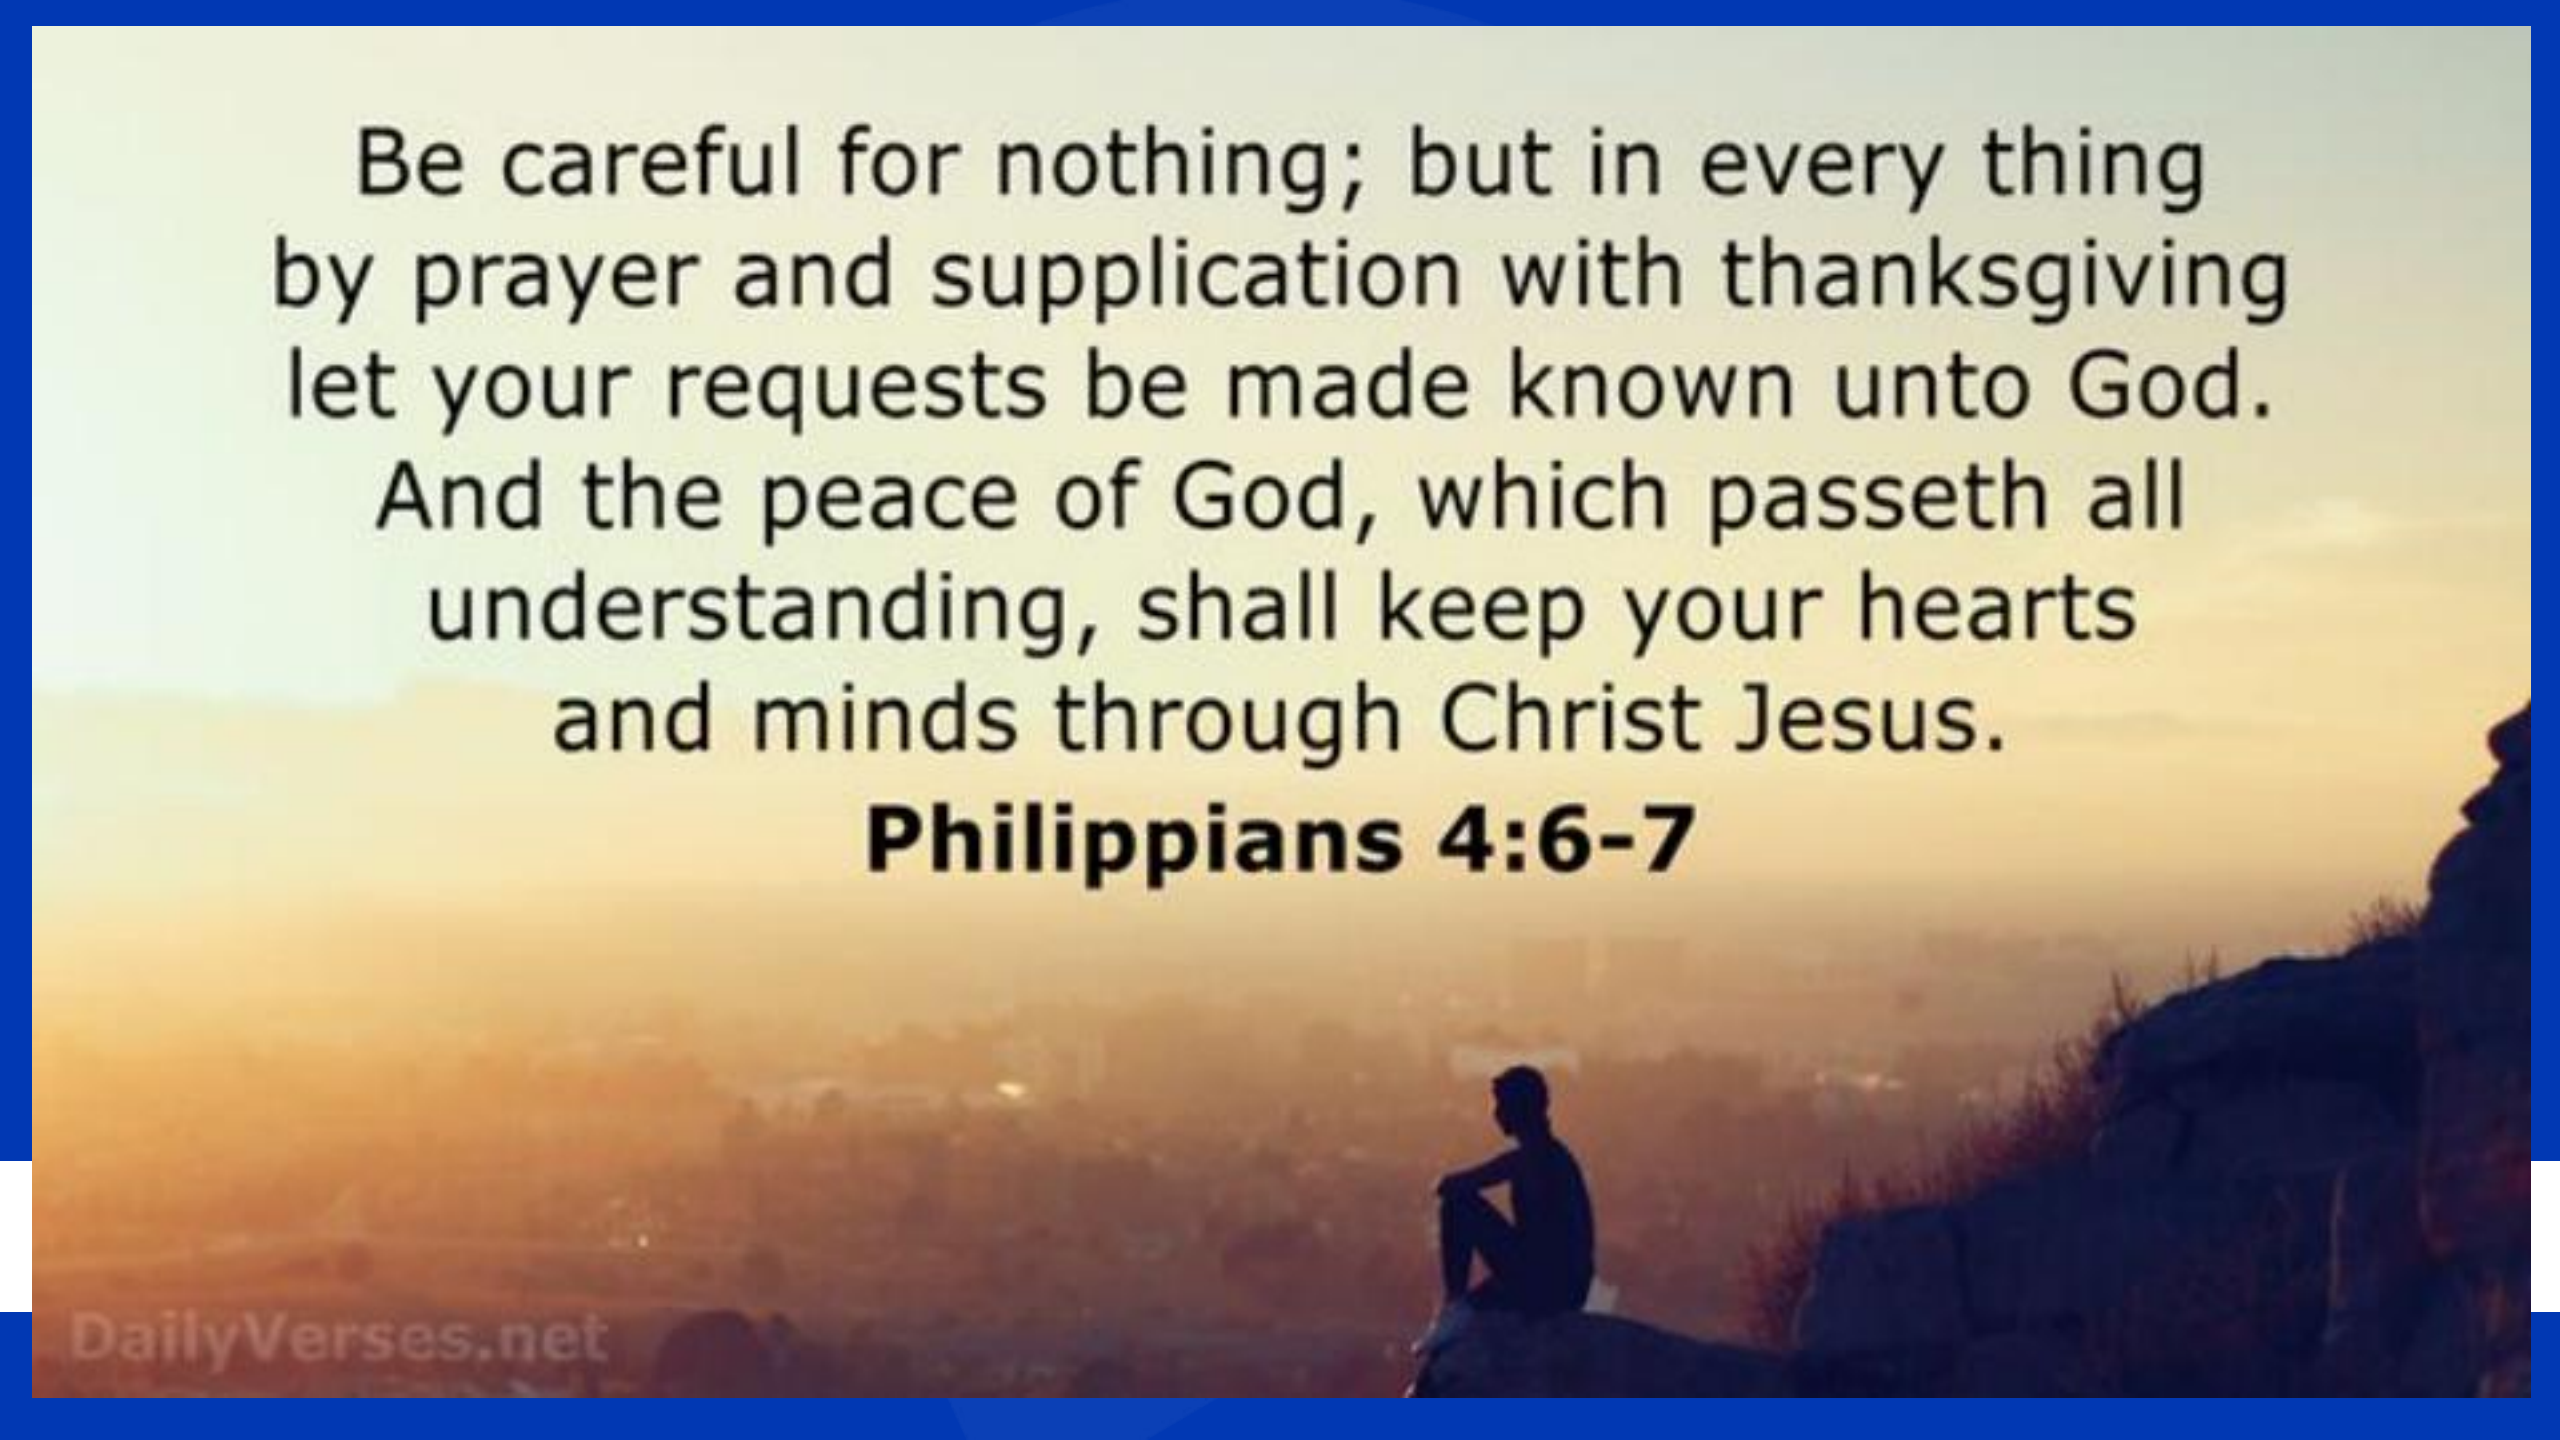

**PARA
KANINO KA
BUMABANGON?**

A person stands on a large wooden cross in a grassy field. In the background, there are snow-capped mountains under a dramatic sunset sky with many birds flying. The word "Trust" is written in a large, white, cursive font across the middle of the image.

Trust

in the LORD with all
thine heart; and lean not unto thine own
understanding. In all thy ways acknowledge him,
and he shall direct thy paths. ~ Proverbs 3:5, 6

A person is sitting on a rocky cliff, looking out over a vast, hazy landscape. The sky is a mix of orange and blue, suggesting a sunset or sunrise. The person is silhouetted against the bright light of the sky.

Be careful for nothing; but in every thing
by prayer and supplication with thanksgiving
let your requests be made known unto God.
And the peace of God, which passeth all
understanding, shall keep your hearts
and minds through Christ Jesus.

Philippians 4:6-7

- A. Objective test
- B. Completion test
- C. Matching Type of Test
- D. Extended essay test**

TEACHER

9. Teacher Sarah construct a Table of Specifications (TOS) and made it as basis for her quarterly assessment in Science. The students can be assure that the test has _____.

- A. Predictive Validity
- B. Content Validity**
- C. Reliability
- D. Internal Consistency

TEACHER

CONSIDERATION IN VALIDATION INVOLVES:

- 1. Face Validity**
- 2. Content Validity**
- 3. Construct Validity**
- 4. Test-Criterion Related Validity**
 - A. Concurrent
 - B. Predictive

TEACHER

FACTORS INFLUENCING VALIDITY OF TEST

1. Appropriateness of test
2. Unclear directions
3. Too difficult reading vocabulary and sentence structure
4. Level of Difficulty
5. Poorly constructed test items
6. Length of test
7. Improper arrangement of items
8. Identifiable / Pattern in the answer

TEACHER

10. Student Lea took an intelligence test three times and each time earned a similar score. The test is said to be possess _____.

- A. Validity
- B. Administrability
- C. Scorability
- D. Reliability**

TEACHER

11. Mrs. Reyes developed an Achievement Test in Math for her grade three pupils. Before she finalized the test she examined carefully if the test items were constructed based on the competencies that have to be tested. What test of validity was she trying to establish?

- A. Content-validity**
- B. Concurrent validity
- C. Predictive validity
- D. Construct validity

TEACHER

12. The scores of a TEACHER A ONLINE REVIEW - BATCH 12 reviewees in a pre-board examination are said to have correlation of 0.50 with their actual LEPT ratings. What can be inferred about the pre-board examination?

- A. Pre-board examination has a concurrent validity
- B. Pre-board examination has a predictive validity**
- C. The scores of TEACHER A ONLINE REVIEW - BATCH 12 are widely scattered

TEACHER

DepEd Order No. 8, s.2015

A. How is learner progress recorded and computed?

For Kindergarten

Guidelines specific to the assessment of Kindergarten learners will be issued in a different memorandum or order. However, for Kindergarten, **checklists and anecdotal records are used instead of numerical grades.** These are based on learning standards found in the Kindergarten curriculum guide. It is important for teachers to keep a portfolio, which is a record or compilation of the learner's output, such as writing samples, accomplished activity sheets, and artwork. The portfolio can provide concrete evidence of how much or how well the learner is able to accomplish the skills and competencies. Through checklists, the teacher will be able to indicate whether or not the child is able to demonstrate knowledge and/or perform the tasks expected of Kindergarten learners. Through anecdotal records or narrative reports, teachers will be able to describe learners' behavior, attitude, and effort in school work.

TEACHER

DepEd Order No. 8, s.2015

B. How are grades computed at the end of the school year?

For Kindergarten

There are no numerical grades in Kindergarten Descriptions of the learners' progress in the various learning areas are represented using checklists and student portfolios. These are presented to the parents at the end of each quarter for discussion. Additional guidelines on the Kindergarten program will be issued.

GUIDELINES IN CONSTRUCTING MATCHING TYPE OF TEST

1. Match homogeneous not heterogeneous
2. The premises or stem (longer in construction than than the responses or options), responses or options must be in the second column (usually shorter).
3. The responses or options must be more than the stems to prevent the student from arriving at the answer by mere process of elimination.
4. Arrange the responses or option alphabetically or chronologically.
5. The direction of the test must be given. The examinees must know exactly what to do.

BUT THEY THAT
WAIT UPON THE
LORD SHALL RENEW
THEIR STRENGTH;
THEY SHALL MOUNT
UP WITH WINGS AS
EAGLES; THEY SHALL
RUN, AND NOT BE
WEARY; AND THEY
SHALL WALK, AND
NOT FAINT.
