
THE CHILD AND ADOLESCENT LEARNERS AND LEARNING PRINCIPLES

1. Headstart for Toddlers, Child and Adolescent

- A. Apply pedagogical approaches to the student centered teaching-and-learning process that is metacognitive, innovative, inclusive and developmentally appropriate for child and adolescent learners.
- B. Appraise a learning environment that is responsive to learners from various family background, economic level groupings, and socio-cultural affiliation.
- C. Demonstrate understanding of differentiated teaching to suit the learner's gender, strengths, interests, experiences and needs.
- D. Draw implications of research findings related to child development along biological, cognitive, linguistic, socio-cultural dimensions.

GENERAL INSTRUCTION : This test booklet contains 75 practice test items for PROFESSIONAL EDUCATION (THE TEACHER AND THE SCHOOL CURRICULUM, METHODS AND STRATEGIES OF TEACHING, EDUCATIONAL TECHNOLOGY FOR TEACHING AND LEARNING) aligned with the NEW TABLE OF SPECIFICATIONS for LEPT. Choose the letter that BEST corresponds to the answer.

MULTIPLE CHOICE

- 1. What do you call the quantitative increase or change in terms of height and weight as observed by the school physician during the physical examination of the students?
 - A. Development
 - B. Learning
 - C. Growth
 - D. Maturation
- 2. Teacher Maine is now 69 years old has been observing changing in herself as the aging process. Which term refers to the development change in the individual?
 - A. Development
 - B. Learning
 - C. Growth
 - D. Maturation
- 3. For cognitive learning, what are sets of facts, concepts and principles that describe underlying mechanism that regulate human learning, development and behavior?
 - A. Facts
 - B. Theories
 - C. Concepts
 - D. Hypothesis
- 4. In cognitive learning, what are firmly established and thoroughly tested principles or theories?
 - A. Facts
 - B. Concepts
 - C. Hypothesis
 - D. Laws
- 5. In chronological order, arrange the stages of prenatal development in human growth.
 - I. Fertilization of zygote
 - II. Bioyst attaches to the whole of the female uterus.
 - III. Male sperm and female egg chromosomes unite
 - IV. Zygote divides to cells from 2 to 4 to 128 cells
 - A. I, II, III and IV
 - B. III, I, II and IV
 - C. III, I, IV and II
 - D. IV, III, II and I

SET 4 - PRACTICE TEST ITEMS

6. Education is the acquisition of the art and the utilization of knowledge. This statement means:
- A. A learner's application of what she has learned is necessary
 - B. A learner's interest in art is commendable
 - C. A learner's acquisition of information is sufficient
 - D. A learner's acquisition of information is not important
7. A school wants to develop the learners' metacognitive skills. Which practice is inconsistent with school's goal?
- A. Rote teaching
 - B. Emphasis on HOTS
 - C. Constructivist instruction
 - D. Authentic assessment
8. One cognitive advancement in adolescence is metacognition. What does metacognition mean?
- A. Ability to do problem solving
 - B. Ability to recall and explain
 - C. Ability to analyze and synthesis
 - D. Ability to identify one's own thinking processes and strategies
9. Do factual skills have something to do with metacognitive skills?
- A. No, if the subject matter is quite easy.
 - B. No, the prerequisite knowledge is disconnected to metacognitive processes.
 - C. Yes, if the subject matter is extremely difficult.
 - D. Yes, the prerequisite knowledge must have been mastered so a student can engage in higher metacognitive processes.
10. Of the following skills in learning, which does **NOT** require metacognition?
- A. Independent learning
 - B. Monitoring own comprehension
 - C. Factual and concrete thinking
 - D. Problem-solving
11. Among the following, which is an example of a metacognitive level of question?
- I. Why is this lesson is important to myself?
 - II. How will I learn more from this?
 - III. How can I better arrive at a solution?
 - IV. What did I learn from this lesson?
 - V. How does this connect with what I already know?
- A. II, III and IV
 - B. I, II, III, IV and V
 - C. I, II and III
 - D. IV only
12. Ask to do a learning task, Sonny hesitate and says *"It's difficult. I don't like it. I can't do it!"* (Mahirap. Ayaw ko. Hindi ko kaya). Which statement about Sonny is **CORRECT**?
- A. He has a high sense of self-efficacy
 - B. He has a low sense of self-efficacy
 - C. He wants to be sure of his self-efficacy
 - D. He has no sense of self-efficacy
13. In the instructional framework for learning strategies, which components is demonstrated by teacher Jose who identifies the skills required in writing a personality essay and shows his personally written essay while showing the steps he used to complete it?
- A. Review
 - B. Application
 - C. Consolidation
 - D. Modeling

SET 4 - PRACTICE TEST ITEMS

14. Children learn what they live by. Treat them with respect and they will respect others. Shout at them and they will be shouting at others, too. How would you account for this behavior?
- A. They are easily impressed
 - B. They are imitative
 - C. They cannot tell right from wrong
 - D. They are observant
15. Which factor according to research can impede the physical development of infants and toddlers?
- A. Being the only child
 - B. Being a member of a big family
 - C. Depressed environment
 - D. Early brain stimulation
16. For healthy physical development of a toddler which should parents do?
- I. Encourage your child to sit when eating
 - II. Encourage free play as much as possible to develop motor skills
 - III. Check toys for loose or broken parts
- A. I and III
 - B. I, II and III
 - C. II and III
 - D. I and II
17. Which does infant learn when caregivers are neglectful or even abusive?
- I. Learn trust
 - II. Learn mistrust
 - III. Learn that the world is hostile
- A. I and III
 - B. I and II
 - C. II and III
 - D. I, II and III
18. Who among the following used animals as models for human behavior?
- A. Lewin
 - B. Tolman
 - C. Wertheimer
 - D. Piaget
19. The concepts of trust vs. maturity, autonomy vs. self doubt, and initiative vs. guilt are most closely related with the works of _____.
- A. Jean Piaget
 - B. Erik Erikson
 - C. Sigmund Freud
 - D. Carl Jung
20. Of the following which is most true of adolescents?
- A. Hormonal changes
 - B. Last splurge of dependence
 - C. Unruly behavior
 - D. Defiance of peer group
21. From categories of exceptionalities in the young child and adolescents what involves difficulties in specific cognitive processes like perception, language, memory due to mental retardation, emotional/behavioral disorder, or sensory impairment?
- A. Learning disabilities
 - B. Speech and communication disorders
 - C. Autism
 - D. Emotional/conduct disorders
22. In avoiding implying sickness or suffering, which of the following is the most preferable way to refer to those with disabilities like polio?
- A. "Is polio stricken"
 - B. "Had Polio"
 - C. "Polio victim"
 - D. "Suffers from polio"

SET 4 - PRACTICE TEST ITEMS

23. Sexual urges remain repressed and children mostly interact with same-sex peers. These instances are under the
- A. Anal Stage
 - B. Latency Stage
 - C. Phallic Stage
 - D. Genital Stage
24. Teacher Marissa wants her students satisfy the highest need according to Maslow's Hierarchy of Needs. Which of the following is the most appropriate suggestion to Teacher Marissa:
- A. Ensure their good health and well-being.
 - B. Give them time for recess and relaxation.
 - C. We will help them engage in a hobby to gain recognition.
 - D. Encourage them to develop themselves to the fullest.
25. Which of the following is an example of an intrinsic motivator?
- A. A pay increase
 - B. Promotion
 - C. Satisfaction in a job well done
 - D. good working
26. Most delinquents are found to have low I.Q. They can hardly read and comprehend well. How can a teacher help them?
- A. Call for their parents
 - B. Give them remedial classes
 - C. Refer them to a doctor
 - D. Suspend them from classes
27. What should be done with a student in the upper grades who is non-reader?
- A. Encourage him to join a reading club
 - B. Give him comic books
 - C. Have him attend remedial reading classes
 - D. Transfer him to a lower section
28. A students collapsed in her class. It was found out that she did not eat her lunch. What principle is shown in this situation?
- A. Security need
 - B. Safety need
 - C. Psychological need
 - D. Physiological need
29. Based on Bandura's theory, which conditions must be present for a student to learn from a model?
- I. Attention
 - II. Retention
 - III. Motor reproduction
 - IV. Motivation
- A. I, II, III, and IV
 - B. III and IV
 - C. I and II
 - D. I, II and III
30. According to Ausubel, one of the ways to strengthen the students' cognitive structure is by using an instructional tool called ____.
- A. cross-referencing
 - B. spiral approach
 - C. advance organizer
 - D. narrative
31. Advance organizer use ____ to make connections among various pieces of information for efficient recall.
- A. Rehearsal
 - B. Visual imagery
 - C. Elaboration
 - D. Organization
32. In what setting is differentiated and multi-lingual teaching most effective?
- A. Special children classes
 - B. Multi-grade classes
 - C. Children with diverse cultural backgrounds
 - D. Pre-school children

SET 4 - PRACTICE TEST ITEMS

33. Which does Noam Chomsky assert about language learning for children?
- I. Young children learn and apply grammatical rules and vocabulary as they are exposed to them.
 - II. Begin formal teaching of grammatical rules to children as early as possible.
 - III. Do not require initial formal language teaching for children.
- A. II only
 - B. I and III
 - C. I and II
 - D. I only
34. Research finding showed that student's motivation may vary according to socio-economic background. Which observation can attest to this?
- A. More boys than girls become underachievers.
 - B. Females are more likely than males to earn higher grades.
 - C. Students from low-income families are among those likely to be at risk for failing and dropping from school.
 - D. Gifted students are more highly motivated.
35. Kate is a 4-year-old child with mild language and cognitive delays. She will turn 5 in August and her parents are planning for her to go to Kindergarten. What type of program should the parents look for at the school?
- A. A program that has all cognitively delayed students in a special education setting most of the day.
 - B. A program that is developmentally appropriate and can meet Kate's needs.
 - C. A program that has a strong emphasis on building in reading and math skills.
 - D. A program that expects students to have independent work habits.
36. Verna is a 4th-grade student who is experiencing a lot of difficulty in reading. Her teacher is thinking that she may need to be referred to special education for possible special education services. What is the first step the teacher needs to take?
- A. Give Verna an IQ test to see if the difficulties are due to an intellectual deficit.
 - B. Call Verna's parents about the concerns regarding Verna's problems.
 - C. Have him go to the special education resource reading class for a couple of weeks to see if he is more successful there.
 - D. Ask the special education teacher to come in and work with Verna for a while.
37. Teacher Maricon has a new student in her class who has been diagnosed with a learning disability. The student is having difficulty retaining information. With the help of the special education teacher, Teacher Maricon is now teaching the student mental techniques such as keywords, rhymes, poems, and jingles to use as cues and to organize information. These techniques used to help the student with memory are called _____.
- A. Cognitive behavioral modifications
 - B. Problem based learning
 - C. Social stories
 - D. Mnemonics
38. Among approaches to child development, which is the basis from Spanish friars in religious schools using the stick to punish children who misbehave in class?
- A. Operant Conditioning
 - B. Classical Conditioning
 - C. Socio cultural learning
 - D. Social cognitive learning

SET 4 - PRACTICE TEST ITEMS

39. Teacher Mabby adheres to the principle that learning is influenced by social interactions and interpersonal relations. In his classroom, he is likely to
- A. Give more independently study
 - B. Make students work collaboratively
 - C. Make students feel good about themselves
 - D. Motivate student to reflect on how they learn
40. The mother of Jameson got angry with him because he disobeyed her. He joined the outing of his "barkada" which the mother thought was dangerous. If Jameson did not join their outing, he will be an outcast in the group. What characteristics of adolescent did Jameson manifest in this case?
- A. Adolescents do not mind other people as long as they are happy.
 - B. adolescents are care-free and happy-go-lucky individuals.
 - C. Adolescents give priority to the demands of peer than to their parents.
 - D. Adolescents know that their parents will forgive them even if they commit mistakes.
41. Sometimes a teacher should threat the erring students. If giving threats cannot be avoided, how should this be done effectively?
- A. First a warning before the threat
 - B. Warn and threat at the same time
 - C. Make the threat with immediate punishment
 - D. Make the threat and reinforce with warning
42. Researchers on the brain tell that brain is more "plastic" in younger children and potentially more malleable for re-routing neural circuits. What is an implication on reading disabilities?
- I. Reading disabilities in late children are beyond remediation
 - II. Early identification of reading disabilities is very important
 - III. Remediation for reading disabilities must be given as early as possible
- A. I only
 - B. II only
 - C. III only
 - D. I and II
43. How are you going to help a student who is intelligent is an underachiever in class?
- A. Allow him to work with the slow group of students to cope with the academic needs of lesson
 - B. Identify the immediate causes of difficulties that cause his being an underachiever
 - C. Recognize challenging activities which he can excel
 - D. Recognize his talents by asking him to help students in the work in class
44. Mrs. Bellen found that one of her pupils has a language disorder. What must Mrs. Bellen do?
- A. Force her to talk
 - B. Laugh at her when she makes mistakes
 - C. Encourage her to join other pupils with the same difficulty
 - D. Listen to her attentively and create a group activity where she can participate
45. Jean Piaget is known for proposing a widely influential theory of ____.
- A. Moral Development
 - B. Cognitive Development
 - C. Personality Development
 - D. Socio-Cultural Development

SET 4 - PRACTICE TEST ITEMS

46. Which of the following shows the correct sequence of Piaget's stage of cognitive development?
- A. Sensorimotor, Concrete Operational, Pre-operational, Formal Operational
 - B. Sensorimotor, Pre-operational, Formal operational, Concrete Operational
 - C. Sensorimotor, Pre-operational, Concrete operational, Formal Operational
 - D. Sensorimotor, Concrete operational, Formal operational, Pre-operational
47. According to Piaget's stages of cognitive development, between ages 12 and 15 children reach formal operational stage. What are they capable of doing at this stage?
- A. Can focus on only one aspect of a situation or event.
 - B. Can solve abstract problems and think deductively.
 - C. Can reason inductively or deductively.
 - D. Can do multi-tasking
48. Pre-school children tend to focus all their attention on a single characteristic compared to the others.
- A. Centration
 - B. Ego-centration
 - C. Egocentrism
 - D. Conservation
49. One behavioral tendency which accompanies cognitive growth during adolescence is egocentrism. How does the adolescent show egocentrism?
- A. Being unmindful of what others will say
 - B. Tendency to think too much of themselves
 - C. Enjoyment for group dynamics like role play, discussion debate
 - D. Imaging the far-fetch and less, ideal situations at home school and in society
50. Teacher Macky show his class a a glass of water with an egg in it. He asked the one of his students: "What happens to the egg If I add three tablespoon salt to the glass of water?" This is hypothesis formulation, What can you infer about the cognitive development stage of teacher Macky's student?
- A. Pre-operational stage
 - B. Operational stage
 - C. Concrete operational stage
 - D. Formal operational stage
51. Mr. Marquez was very much worried about the thumb-sucking of his son. A friend of him says that certain behavior among infants. Who presented that notion certain behavior like thumb-sucking is normal behavior?
- A. John Bowlly
 - B. Erik Erikson
 - C. Sigmund Freud
 - D. Urie Bronfrenbenner
52. Which of the following is the correct sequence or order of psychosexual stages proposed by Sigmund Freud?
- A. Oral, Phallic, Latency, Anal, Genital
 - B. Oral, Anal, Latency, Phallic, Genital
 - C. Oral, Anal, Phallic, Latency, Genital
 - D. Anal, Oral, Latency, Genital, Phallic
53. It is an area of the human body that has heightened sensitivity, the stimulation of which may result in the production of erotic sensations or sexual excitement?
- A. Libido
 - B. Aggression
 - C. Erogenous zone
 - D. Fixation
54. Reaching full sexual maturity is achieved in what stage of the psychosexual development?
- A. Anal
 - B. Phallic
 - C. Latency
 - D. Genital

SET 4 - PRACTICE TEST ITEMS

55. Which of the following will be Freud's description of the child's behavior if he/she has biting, sarcastic manner?
- A. Anally expulsive
 - B. Anally retentive
 - C. Fixated in the oral stage
 - D. Experiencing the crisis of trust vs. mistrust
56. According to Sigmund Freud, defense mechanisms are developed during what stage?
- A. Oral stage
 - B. Anal stage
 - C. Phallic stage
 - D. Latency stage
57. Which state of the psychosexual theory does young boy's rivalry with their father for mother's attention and affection?
- A. Oral stage
 - B. Anal stage
 - C. Phallic stage
 - D. Latency stage
58. What is Freud's idea about a young boy's guilt feelings brought by jealousy of his father relationship with his mother?
- A. Electra complex
 - B. Oedipus complex
 - C. Phallic stage
 - D. Penis envy complex
59. Why should children be trained in using toilets?
- A. So they will know what to do as grown ups
 - B. So that it may not cause problems associated with fixation
 - C. Because it is a sign of neatness and cleanliness
 - D. Because it is part of growing up gracefully
60. A child was punished for cheating in an examination. For sure the child won't cheat again in short span of time, but this does not guarantee that the child won't cheat ever again. Based on Thorndike's theory on punishment and learning, this shows that ____.
- A. Punishment removes response
 - B. Punishment doesn't remove a response
 - C. Punishment weakens a response
 - D. Punishment strengthen a response
61. All except one is **NOT** a characteristic of Skinner's reinforcement and operant condition.
- A. Stressed the consequence of behavior in order to learn
 - B. Proved that reinforcement is a powerful tool in shaping and controlling behavior in and out of the classroom
 - C. Focused on the regularity and consistency on the exercise of behavior
 - D. Emphasized the greater influence of the environment on learning and behavior that is either to reinforce or eliminate
62. Why should teacher provide positive feedback and realistic praise to students?
- A. So the students will also praise him/her
 - B. So the students will know what to do
 - C. To motivate the students to study
 - D. So the students will know what to do
63. Bruner's theory on intellectual development moves from enactive to iconic and symbolic stages. Applying Bruner's how should you teach?
- A. Be interactive in approach
 - B. Begin with the concrete
 - C. Do direct instruction
 - D. Begin with the abstract

SET 4 - PRACTICE TEST ITEMS

64. Of the following which is most true of adolescents?
- A. Hormonal changes
 - B. Last splurge of dependence
 - C. Unruly behavior
 - D. Defiance of peer group
65. Research says "People tend to attribute successes to internal causes and their failures to external causes." What does this imply as a most potent key to success?
- A. Reasoning
 - B. Imagination
 - C. Application
 - D. Motivation
66. From Kohlberg's Theory of Moral Development, what is the moral reasoning or perspective of Mother Teresa who pledged her life to serve the sick and very old?
- A. Social contract
 - B. Universal principles
 - C. Obedience
 - D. Law and order
67. Which parenting style/s contribute/s to the development of children who have low level of responsibility?
- A. Authoritative
 - B. Authoritarian
 - C. Permissive
 - D. Neglecting and Permissive
68. If a child was raised by authoritative authoritative parents, how will most likely he/she behave in class?
- A. Quarrels often with classmates
 - B. Is suspicious to others
 - C. Relates well to classmates
 - D. Has low level of independence
69. Which are most likely the kind of children raised by authoritarian parents?
- I. Inhibited
 - II. Hostile
 - III. Fearful
 - IV. Withdrawn
- A. I, II and III
 - B. II and III
 - C. II, III and IV
 - D. I, II, III and IV
70. Teachers and caregivers can best help develop the emotional skills of preschoolers by all **EXCEPT** _____.
- A. doing mirror talk or paraphrase reflection
 - B. calmly telling children to control their feelings
 - C. modeling words that children can use to express strong feelings
 - D. using dolls, puppets or pictures to demonstrate how to express feelings
71. Teachers and caregivers can best help develop the emotional skills of preschoolers by all **EXCEPT** _____.
- A. greeting each child by name
 - B. emphasizing strict adherence to routine
 - C. play games that involve social interaction
 - D. developing routines at home and school that encourage working together
72. How can parents ensure industry when it comes to homework?
- A. Let the children be responsible for their homework and just make corrections when necessary.
 - B. Confer with teacher and request for no homework.
 - C. Assign a homework time and work on their home work together
 - D. Do the homework for them and let them figure out why the answers are correct

SET 4 - PRACTICE TEST ITEMS

73. The most appropriate activity for three-year-old to develop counting skills is _____.
A. identifying numerals repeatedly until mastered
B. working with counting flashcard
C. counting objects of interest around the environment
D. a well-designed worksheet on counting up to 30
74. Among approaches to child development, which is the basis for Spanish friars in religious schools using the stick to punish children who misbehave in class?
A. Operant conditioning
B. Classical conditioning
C. Socio-cultural learning
D. Social cognitive learning
75. When a learner would ask "I wonder what sort of person I really am?" he is said to be in the _____ stage according to Psychosocial Theory?
A. Identity vs. Role Confusion
B. Initiative vs. Guilt
C. Industry vs. Inferiority
D. Autonomy vs. Shame and Doubt
