
FIELD STUDY AND TEACHING INTERNSHIP

1. Documentation of Experiential Learning

- A. Describe authentic experiential learning from field study and actual classroom immersion as a prospective teacher.
- B. Demonstrate skills in teaching assistantship and guided mentored classroom teaching.
- C. Prepare portfolio on process of learning behavior, motivation, classroom management and assessment from direct observation of teaching learning episodes in an actual school environment.
- D. Demonstrate reflective thinking and teaching.

2. Action Research

- A. Demonstrate ability to identify teaching-learning problems and offer recommendations based on research.

GENERAL INSTRUCTION : This test booklet contains 75 practice test items for PROFESSIONAL EDUCATION (FIELD STUDY AND TEACHING INTERNSHIP) aligned with the NEW TABLE OF SPECIFICATIONS for LEPT. Choose the letter that BEST corresponds to the answer.

MULTIPLE CHOICE

1. Samantha, the student teacher, encourage her students to build their own understanding out of their learning experience. What teaching approach is employed?
 - A. Reflective teaching
 - B. Cooperative learning approach
 - C. Constructivist approach
 - D. Problem solving approach
2. Teacher Fritz prepares learning activities that will require students to offer opinion and make value judgement. What cognitive skill does he want the students to develop?
 - A. Value development
 - B. Evaluation
 - C. Synthesis
 - D. Analysis
3. Teacher Angela is asking her students to identify the parts of the plant. Under the cognitive domain, in which assessment level is this?
 - A. Remembering
 - B. Applying
 - C. Understanding
 - D. Creating
4. Arvie, a student teacher allows his students to study a concept by breaking it down into elements. What cognitive skill does he want the students to develop?
 - A. Understanding
 - B. Applying
 - C. Synthesis
 - D. Analysis
5. Teacher Lebron, asks his students to paraphrase the first chapter of Rizal's "Noli Me Tangere". What cognitive abilities does Teacher Lebron want the students to develop?
 - A. Understanding
 - B. Applying
 - C. Evaluating
 - D. Remembering
6. What level of the cognitive process is required in writing an essay on the personality of a fellow classmates?
 - A. Remembering
 - B. Applying
 - C. Understanding
 - D. Creating

SET 5 - PRACTICE TEST

7. Which of these is NOT an indicator of a supportive learning environment?
- A. Supporting teachers
 - B. Low dropout rates
 - C. High dropout rates
 - D. Friendly Atmosphere
8. The paradigm of research which focuses on the development of professional expertise of the researchers-practitioner is called ____.
- A. Action research
 - B. Experimental research
 - C. Correlational Study
 - D. Pure research
9. What is PSDA in Action Research?
- A. Present, Sort, Deduct, Amend
 - B. Plot, Details, System, Articulate
 - C. Prepare, Do, Systematize, Arrange
 - D. Plan, Do, Study, Act
10. Action research should be conducted by all future educators because ____.
- A. it is a part of the teacher's standard
 - B. its primary aim is to improve teaching practice
 - C. it is a requirement for teacher in the field
 - D. It will add points to teacher's performance
11. How is reflection recorded in action research?
- A. Through the curriculum
 - B. Through a report journal
 - C. Through a lesson plan
 - D. Through a syllabus
12. As a novice action researcher, what should be your primary task?
- A. Identify or determine the problem that is a cause of concern in the class
 - B. Consult your mentor for suggestions on how to deal with the problem
 - C. Disregard the problem, after all you are still a student
 - D. Reflect on the other problematic solutions
13. Which of the following statements motivates a teacher to do an action research?
- A. There are more important classroom routines than finding solutions
 - B. Any problem that occurs in my class will soon pass
 - C. For every teaching-learning problem, there is always a solution
 - D. Leave the problematic situation for other teachers to solve
14. How is action research important to instruction and school management?
- A. It seeks to solve instructional and school problems
 - B. It seeks to make students loyal to the school
 - C. It aims at increasing the work of teachers
 - D. It aims at strengthening authority of principals
15. What kind of problems do action research address?
- A. Potential problems on school finance
 - B. Cognitive problems on pedagogy
 - C. Practical and resolvable problems
 - D. Speculative problems on teaching
16. In chronological order, arrange the steps for action research.
- I. Collecting and analyzing data
 - II. Identification of a problem area
 - III. Evaluate results
 - IV. Action based on data

- V. Interpretation of data
- VI. Follow up action

- A. I, II, III, IV, V and VI
- B. V, III, I, II, IV, VI
- C. II, I, IV, III, VI and V
- D. II, I, V, IV, III and VI

17. What is meant by action research following a cyclical process?

- A. problems occur again and again like a cycle
- B. teachers form a circle during meetings
- C. the circle of participants change from time to time
- D. effort is continuing until problem is resolved

18. Which of the following Action Research (AR) view and definition is associated with Stephen M. Corey?

- A. Action Research (AR) is a fancy way of saying let's study what's happening at our school and decide how to make it a better place.
- B. Action Research (AR) is the process by which practitioners attempt to study their problems scientifically in order to guide, correct, and evaluate their decisions and actions.
- C. Action Research (AR) is study conducted by colleagues in a school setting of the results of their activities to improve instruction.
- D. Action Research is a three step spiral process of (1) planning which involves reconnaissance; (2) taking actions; and (3) fact-finding about the results of the action.

19. Teacher Billy talked all period. He taught the class the steps to undertake in the conduct of an action research. He also showed a poorly done action research, discussed why it is poorly done and finally showed a model action research. Was Teacher Billy's approach learner-centered? Which teaching approach describes Teacher Billy's lesson development?

- A. Yes, she taught for all learners.
- B. Yes, she made things easy for the learners.
- C. No, because her subject matter was highly technical.
- D. No, she was more subject matter-centered and teacher-centered

20. Without abandoning other duties of a teacher, Teacher May considers herself mainly as facilitator by which her students become curious discovers ideas on their own. This is ideal for a _____ class.

- A. Teacher-centered
- B. Student-centered
- C. Lesson -centered
- D. Subject-centered

21. One of your co-teachers ask gift form his students. Which action should you take?

- A. Be silent about it to avoid conflict.
- B. Write and anonymous letter denouncing it.
- C. Advice your co-teacher about the the regulation on it.
- D. Report this case immediately to the School Division Superintendent.

22. Following are the guiding principles in determining learning objectives EXCEPT one.

- A. Lesson objectives must be in the two domains only
- B. Work on significant and relevant lesson objective
- C. Lesson objective must be aligned with the aim of education
- D. Lesson objective should meet a set of SMART criteria

23. Based on the assessment results, Teacher Nicole, a student teacher concluded that her students have attained the lesson's objective or Intended Learning Outcomes so Teacher Nicole _____.

- A. should enrich the lesson
- C. can proceed with the next lesson

SET 5 - PRACTICE TEST

B. should conduct remediation

D. must review the pass lesson

24. Following are under cognitive domain EXCEPT one.

A. Give examples of verbs

C. Differentiate noun from pronouns

B. Identify verbs in paragraphs

D. Draw examples of nouns

25. Teacher Jewell made her student students write a paragraph about their favorite food to check their ability to pronounce words correctly, her intended learning outcome. Is the assessment task aligned with the assessment task?

A. Closely aligned

C. No

B. Maybe

D. Somewhat

26. Teacher Jugs shared this lesson objective/learning outcome with his students: "Before the period ends, all of you must be able to identify the topic sentence and supporting sentences of a given paragraph." Teacher Jugs drilled them on subject-verb agreement to ensure that they can write a good paragraph then gave a ten-sentence paragraph for the students to determine subject verb agreement before the class period ended. Did Teacher Jugs use the lesson objective/learning outcome as guide in the development of his lesson?

A. No

B. Yes

C. A little, because subject-verb agreement is a must in paragraph writing.

D. Very much, because she made use of a ten-sentence paragraph for the end-of-the period quiz

27. In order to achieve a meaningful teaching-and-learning process, it is best to link and related the lesson to the life of the student by integrating a relevant value in the lesson. Which among the following agrees with this principle?

A. Begin with the goal/objective in mind.

B. Share lesson objectives/ learning outcomes with students.

C. Lesson objectives/outcomes integrated with 2 or 3 domains-cognitive, skill, and effective learning.

D. Write SMART lesson objective.

28. In his desire to finish the content of the course syllabus, Teacher Teddy conducts lectures while his students listen to him. Which principle of learning does Teacher Teddy violate?

A. Learning is an active process.

B. Learning is a cooperative and a collaborative process.

C. Learning is the discovery of the personal meaning of ideas.

D. Effective learning begins with setting clear expectations and learning outcomes.

29. As teachers, we should always remind ourselves that learning is a gradual process. Hence, we should be patient with our students. This is exemplified in what principle of learning?

A. Learning sometimes a painful process.

B. Learning is an evolutionary process.

C. Learning is the discovery of the personal meaning and relevance of ideas.

D. Learning is an experience which occurs inside the learner and is activated by the learner

30. Teacher Jose believes that students need not know the intended learning outcome of his lesson. He proceeds to his learning activities at once without letting them know what they are supposed to learn for the day. Which principle of learning does Teacher Jose violate?

A. Learning is the discovery of the personal meaning of ideas.

B. Learning is a cooperative and a collaborative process

SET 5 - PRACTICE TEST

- C. Effective learning begins with setting clear expectations and learning outcomes.
D. Learning is an active process.
31. Teacher Paulo does not have drills out of context. Instead, he gives real-world Math problems for the learners to drill on. This act of Teacher Paulo is rooted in which principle of learning?
A. Learning is an active process.
B. Learning is a cooperative and collaborative process.
C. Effective learning begins with the setting of expectations and learning of outcomes.
D. Learning is the discovery of personal meaning and relevant ideas.
32. The students in Teacher Betty's class enjoyed a lot because they are allowed to learn by doing. This is exemplified in what principle of learning?
A. Learning is an evolutionary process.
B. Learning sometimes a painful process.
C. Learning is the discovery of the personal meaning and relevance of ideas.
D. Learning is an experience which occurs inside the learner and is activated by the learner.
33. The conventional classroom is still considered as useful and effective for as long as these condition exist. What are these conditions?
I. All students should be heard in the class discussion
II. Chairs should be fixed and hooked in such a way they cannot removed
III. The student to teacher ratio need to be 1:1.
IV. The presence of the teacher is needed in a given time to guide learning
A. I, II, III, IV
B. V and III
C. I, II and III
D. I and IV
34. When you begin teaching with the generalization then bring in details, which method do you employ?
A. Inductive
B. Deductive
C. It depends on your type of generalization
D. It depends on the quantity of details you bring in
35. Teacher Tomas demonstrated the deductive method of teaching in his Science class. Based on his teaching demo, he asked the class to outline the steps of deductive teaching method. The student's outlines served as the starting point of the class discussion on the steps of deductive method. Did Teacher Tomas go deductive?
A. Yes, he went deductive.
B. Both deductive and inductive
C. No, he went inductive.
D. Yes, he began with the concrete.
36. Teacher Alden said: "This is the rule on how to add fractions. To illustrate, let's give examples." Then he gave fractions to the class for them to add. How did Teacher Alden proceed?
A. Inductively
B. Inductively then deductively
C. Deductively
D. Deductively then inductively
37. Aiming to develop analytical thinking among his students, Teacher Arjo chose to use indirect approach in teaching. Which falls under an indirect approach?
A. Inductive
B. demonstration
C. Deductive
D. Both inductive and deductive
38. "Can't see the forest for the tress" is an example of the principle of:
A. Whole to part
C. Top-down approach

SET 5 - PRACTICE TEST

- B. Part to whole
D. Simple to complex
39. The community holds high respect of a teacher if he/she is a _____.
A. Money lender
B. rumor monger
C. Role model
D. gambler
40. Natural resources like rivers, lakes, mountains and hills found in the community can be used best as resources in teaching _____.
A. Mathematics
B. English
C. Science
D. Physical Education
41. Mrs. Baraza teaches Science in the Junior High School. She taught the concept that sunlight is necessary for the plants in the process of photosynthesis. Applying the philosophy of pragmatism, Mrs. Baraza should _____.
A. Ask the students to bring plant leaves in school
B. Ask the students draw the leaves of the plant and color this green
C. Ask the students to do a simple experiment about photosynthesis
D. Ask the students to create a PowerPoint presentation of photosynthesis and present it.
42. In OBTL, upon which should my assessment be based?
A. Content
B. Teaching
C. Scope of subject matter
D. Intended learning outcome
43. Which is NOT a sound purpose of asking questions?
A. To discipline a bully in class
B. To Instruct and assist student's learning
C. To evaluate student's learning
D. To motivate students before instruction
44. A bulletin board display has many colors and arrangement that catches and holds interest. What criterion is being exemplified in this situation?
A. balance
B. attractiveness
C. utility
D. interactivity
45. A teacher should consider all these criteria for choosing a resource or material, EXCEPT:
A. Is developmentally appropriate
B. Aligns to the learning objectives or outcomes of the lesson
C. Is the most expensive therefore the most durable
D. Is inclusive and free from cultural bias
46. In the long run effective classroom management is best achieved through the use of:
A. A few rules that are enforced
B. Rules with consequences that students accept
C. Strategies for eliminating distractions
D. All of the above
47. For a well managed classroom, is it wise to establish classroom routine?
A. No, it makes you think less.
B. No, it makes robot out of the students.
C. Yes, it saves you a lot time
D. Yes, you pass on some of your work to your students

SET 5 - PRACTICE TEST

48. How is "truancy" best understood and interpreted so that proper responses can be made to prove it?
- A. Absences without reason
 - B. Absence with permission
 - C. Absences due to sickness
 - D. Absences due to family problems
49. Which of the following situations can show that a teacher is "chill" in a tense situation?
- A. Not excited, but calm
 - B. Not alone, but with peers
 - C. Not revengeful, but forgiving
 - D. Not passive, but active
50. What is the most preferable ratio of students for peer tutoring?
- A. 2:1 students-student ratio
 - B. 2:2 students-students ratio
 - C. 1:1 student-student ratio
 - D. 1:10 student-student ratio
51. Teacher Manuel, a Student Intern, employs teaching that is "hands on" and "minds on" and "hearts on". This is exemplified in what type of teaching?
- A. Reflective teaching
 - B. Experiential teaching
 - C. Cognitive teaching
 - D. Teaching constructivism
52. Daniel is a grade four student who, at the end of the last grading period, did not meet expectations in three learning areas. Under the DepEd Order No. 8, s. 2015 Policy Guidelines of Classroom Assessment For the K to 12 Basic Education Program, what will happen to Daniel?
- A. Promoted to the next grade level
 - B. Retained in the same grade level
 - C. Promoted to the next grade level with back subjects
 - D. Must pass remedial classes for learning areas with failing mark before being promoted to the next grade level
53. Teacher Manuel requires his students to submit a portfolio that shows their best literary compositions from among all their finished works. What type of portfolio is he requiring?
- A. Documentation portfolio
 - B. Process portfolio
 - C. Display portfolio
 - D. Growth portfolio
54. Which portfolio can prove that an improvement has taken place in the way students pronounce words?
- A. Documentation portfolio
 - B. Process portfolio
 - C. Showcase portfolio
 - D. Development portfolio
55. Which of the following comments by the teacher can likely motivate learners to try harder rather than give up on learning?
- A. "Kapag mahirap ang paksa. Mahirap din matutunan ito"
 - B. "Hayaan lang nating mang-unawa ang magagaling sa atin"
 - C. "Ayos lang kung himdi natin maunawaan, bahala na diyos sa atin"
 - D. "Bigyan natin ng panahon, at lalaban din ang ating pang-unawa ng paksa"
56. What role does a teacher when he/she draws out the capacity of learners to assimilate organize and produce ideas, while controlling the pace (slow or fast) of learning?
- A. Tutor
 - B. Facilitator
 - C. Adviser
 - D. Lecturer
57. There are a number of laws in the Philippines requiring the teaching of subject matter such as taxation and agrarian reform, etc. This proves that schools must bring about reform in society. On which philosophy of education is this based?
- A. Empiricism
 - C. Reconstructionism

SET 5 - PRACTICE TEST

B. Progressivism

D. Perennialism

58. Based on the DepEd's mission statement "quality basic education means that students learn in a child-friendly, gender sensitive, safe and motivating learning environment". This implies that DepEd believes that environment affects learning. On which philosophy of education is this based?

A. Behaviorism

C. Progressivism

B. Essentialism

D. Perennialism

59. Which of the following has higher importance than the rest as to best practice of a professional teacher?

A. Regularity in class attendance

B. Appearance as a teacher in dress and attire

C. Competency supported by continuing growth

D. Loyalty to the school by years of service

60. Which of the following give the learners most concrete experience?

A. Watching a theater play on the Death March

B. Viewing a photo exhibit of 1986 EDSA People Power Revolution

C. Independently reading the biography of Dr. Jose P. Rizal

D. Listening to the teacher discuss about the first Chapter of El filibusterismo (The Reign of the Greed)
