**SANTOS, JHON MARK M. LPT**

TEACHER

# E•D•U•C•A•T•I•O•N

- ✓ derived from the LATIN word “*educare*” or “*educere*” which means to lead forth.
- ✓ it is defined as the process of acquiring knowledge, habits, attitudes, interest, skills, and abilities and other intangible human qualities through training instructions and self-activity, and transmitting these vital elements of human civilization to posterity.

# TYPES OF EDUCATION

1. Formal Education-
  - hierarchically structured and chronologically graded learning organized and provided by the formal school system.
  - certification is required
  - grades move to higher level
  - a. Elementary education
  - b. Secondary Education
  - c. Tertiary Education
2. Non-Formal Education
  - Any school based educational activities undertaken by the DECS
  - OSY and adults
  - Outside of the regular offerings of the formal school system.
3. Informal Education
  - Can be acquired anytime and anywhere.
  - Known as education for all seasons.

# ORIGIN OF EDUCATION

## 1. The Theory of Divine Creation

- Advocates that when God, in the beginning of time, created man according to his image and likeness.
- He equipped man with intellect and free-will
- Due to man's superior intelligence and God-given talents, scientific advancements became part of man's existence.

TEACHER

## 2. The Theory of Evolution

- Education started when the very primitive man, basically savage, brutish and animalistic, for he had just evolved from the lower primates.
- Began his quest to find ways and means to feed, clothe, shelter, and protect himself. (Survival of the fittest)
- This theory was on its simplest form characterized by the absence of reading, writing, or a comprehensive language.
- The education was informal and learning was through observation and imitation or apprenticeship for there were no existing schools yet.

# EDUCATIONAL CONTRIBUTIONS OF ANCIENT CIVILIZATIONS

- JEWISH- Religious education

1. Synagogues-temple schools
2. Bible and the Talmud
3. Rabbis-teacher/priests

- CHINESE-career oriented education

1. Analects of Confucius
2. Civil Service Examination (Han Dynasty 206 B.C)
  - a. Flowering Plant-whole day exam
  - b. Promoted ma-3 days exam
  - c. Entered scholar/fit for office-13 days exam, and those who passed became the ministers of the emperor.

- EGYPTIAN -practical and empirical education
  1. Hieroglyphics-ancient picture-writing system
  2. Papyrus-ancient paper
  3. Mathematics- value of  $\pi=3.16$
  4. Engineering/architecture- pyramids, dams, dikes, palaces
  5. Geometry- land surveying and measuring
  6. Astronomy-positions of stars and other heavenly bodies to determine tides, seasons, floods. Calendars composed of 24hours a days 7 days a week, months of 30 days with 365 days a year.
  7. Medicine- explored anatomy
    - mummification of dead

TEACHER

GREEKS- liberal and democratic education

1. Olympic games
2. Mythology
3. Democracy
4. Philosophy

## THE GREEK CITY STATES

- SPARTA
- Authoritarian government
- Military city-state
- Communal life
- Military academy
- At birth, the child is taken care by the mother, but the age of seven he is turned over to the *paidonomus* or military drill master who will teach him the art of warfare.

## **ATHENS**

- Liberal education
- Freedom of thought, expression and religion
- Education was a family responsibility
- Every male child is given a paedagogus or a tutor who will train
- Him to be a good and responsible citizen

## **ANCIENT ATHENIAN SCHOOLS**

1. Palaestra-gymnastic school  
Paedotribe-teacher of gymnastics
2. Music School  
Kitharist-music teacher
3. Grammar School  
Grammatist-teacher of letters

TEACHER

The Sophist were the wandering scholars who sent to Athens, taught Athenian boys but collected fees from them.

Protagoras was the famous sophist who said that man is the measure of all things.

The Greek Thinkers flourished in order to counteract the influences of the Sophist who were not Athenians.

TEACHER

## **Socrates (469-399 B.C)**

- He advanced the idea of Gnothi Seauton or know thyself
- He believed that knowledge is virtue and all virtuous action actions are based on knowledge
- He introduced Socratic dialectic method of teaching which is composed of:
  1. Ironie (destructive) element
  2. Maieutic (constructive) element

## **PLATO (427-347 B.C)**

-He proposed that the society should be divided into classes of people based on their talents and intelligence:

- a. Philosophical class- guardians or rulers of the society
- b. Warrior Class- protectors of the society
- c. Artisan or industrial class- workers of the society

-he believed that education should be determined by the social class where the person belongs

-established a school called Academy

TEACHER

## ARISTOTLE (384-322 B.C.)

- He was the paedagogus of Alexander the Great
- He established a school called Lyceum
- He believed that virtue is brought by doing not by knowing
- He advanced the idea that man is a social animal and must use his reason to attain his ultimate end which is *the sumum bonum* or highest/supreme good.

## THE GREEK UNIVERSITIES

- *University of Athens*- world's first comprehensive university
- *University of Alexandria*- founded by Alexander the Great in Egypt
  - it had the most advanced library facilities.
  - It had excellent products like:
    - ❖ **Euclid**- in the field of geometry
    - ❖ **Archimedes**- in the field of Physics
    - ❖ **Erasthosthenes**-in the field of geography and astronomy

TEACHER

## **ROMANS-** pragmatic and progressive education

1. Latin Language
2. The Laws of the Twelve Tables
3. The Roman Senate

### **The Roman Schools**

1. *Elementary*-school of the litterator or Ludi Magister
2. *Secondary*-School of the Grammaticus or Literatus
3. *Higher Education*-Rhetoric schools

## **THE TEACHING METHODS OF JESUS CHRIST**

- Parable- a short story, a weighty similitude used to convey instruction to ignorant, prejudiced and inattentive hearers  
Ex. Prodigal Son (Luke 15:11-33)
- Conversational Method- an intimate, face to face, direct, natural, personal and informal method. It is a sort of question and answer method.
- Proverbial Method-Jesus in his teachings frequently used gnomes or proverbs, some were quoted from the old Testament and others were his own.

Ex. “For many are called but few are chosen.” Mat. 22:14

TEACHER

## THE TEACHER AND SOCIETY

### Philosophical Background

Teachers are heirs to a rich philosophical heritage. Passed on to us are a number of philosophies of various thinkers who believed before us. These thinkers reflected on life in this planet. They occupied themselves by searching for answers to questions about human existence.

TEACHER

## Five Philosophies of Education

Essentialism: Main proponent-William Bagley

Progressivism: “Education is nor preparation for life” Main proponent-John Dewey

Perennialism:Main proponent- Robert Hutchins

Existentialism:Existence precede essence”

Main proponent- Jean Paul Sarte

Behaviorism: Main proponent-John Watson

TEACHER

## Relationship of Philosophy and Education

While philosophy establishes the fundamental principles (concepts, theories, learning). It is Education that carries out these principle. Furthermore, it is Philosophy that provides the goal or aims while Education is the instrument in realizing these goals.

Philosophy and Education complement each other. Both of them spouse theory and practice. The absence of one of the one will make a man insufficient and aimless.

TEACHER

## Relationship of Philosophy and Education

While philosophy establishes the fundamental principles (concepts, theories, learning). It is Education that carries out these principle. Furthermore, it is Philosophy that provides the goal or aims while Education is the instrument in realizing these goals.

Philosophy and Education complement each other. Both of them spouse theory and practice. The absence of one of the one will make a man insufficient and aimless.

TEACHER

## Philosophy of Education

### Naturalism

- ❖ Rooted from Ancient Philosopher such as Thales, Anaximander, Anaximenes
- ❖ Denies everything that has supernatural significance-dogmas/revelations-for all can only be found through nature
- 51 ❖ Preserves the natural goodness of man
- ❖ Truth can only be found nature
- ❖ Advocates: J.J. Rousseau, John Lock, Montaigne
- ❖ On Education

TEACHER

## Philosophy of Education

### Naturalism

- ✓ Naturalism stands for democratic and universal way-everyone must be educated in the same manner.
- ✓ Education is in accordance to human development and growth
- ✓ Emphasis is given more on the physical development- informal exercise-and hygiene of the person rather of the 3R's
- ✓ Aims to unfold the child's potential not to prepare him for a definite vocation or social position-but to prepare him to adapt to the changing times and needs. Consequently, ones conduct is governed by impulse, instinct and experience.
- ✓ It puts the child at the center of educational process and prepares him to experience life as it is.

TEACHER

## Philosophy of Education

### Idealism

- ❖ Ideas are the only true reality, the ultimate truths for matter is nothing but just a mere representation of ideas.
- ❖ Emphasis is given on knowledge obtained by speculation and reasoning for its central tenet is that ideas are the only thing worth knowing for.
- ❖ Focus is on conscious reasoning of the mind in order to attain truth. This includes the activities pertinent to the human mind such as introspection and intuition and the use of logic.
- ❖ Advocates: Socrates, Plato
- ❖ On Education.

TEACHER

## Philosophy of Education

### Idealism

- ✓ Its aim is to discover the full potentials in child and cultivates it in order to prepare him for a better position in the society and for him to serve the society better.
- ✓ Emphasis is given on subjects-philosophy, literature, religion and history that will develop and enhance the mind of a child
- ✓ Methods used in teaching include lecture, discussion and the Socratic dialogue.
- ✓ Character development is through emulation of examples and heroes.

TEACHER

## Philosophy of Education

### Realism

- ❖ Concerns with the actualities of life, what is real.
- ❖ Ultimate reality is the world of physical objects. Hence, reality is independent of the human mind.
  - Objective existence of the world and beings in it
  - Knowability of these objects as they are in themselves
- ❖ Advocates: Aristotle, St. Thomas and Jonathan Herbart
- ❖ On Education:

TEACHER

## Philosophy of Education

### Realism

The most effective way to find about reality is to study it through organized, separate and systematically arranged matter- emphasis is on subject matter concerning Science and Mathematics

- Methods used in teaching include recitation, experimentation and demonstration
- Character development is through training in the rules of conduct

TEACHER

## Philosophy of Education

### Existentialism

- ❖ Rooted from the dehumanization of man by technology and reaction to the traditional

Philosophy of Kant and Hegel

- ❖ Defining feature is “existence precede essence”

- Man conceives and makes of himself

- ❖ Known as the Philosophy of Subjectivity

- Proclaims man's freedom in the accomplishment of his destiny

- ❖ Conceives philosophy as something that is human life and the choice that each person has to make.

- ❖ Advocates: Soren Kierkegaard, Jean Paul Sarte

TEACHER

## Philosophy of Education

### ❖ On Education:

- Subject matter is a personal choice
- Learning is based on the willingness of the student to choose and give meaning to the subject
- Emphasis is given on the students rather than on curriculum content
- Students should not be treated as objects measured or standardized
- Methods are geared on giving opportunities for the students for self actualization and self direction.
- Character development is through the personality of every individual in making a decision.

TEACHER

## Philosophy of Education

### Essentialism

- ❖ Rooted in idealism and realism and arose in response to progressive education
- ❖ Defining feature is "essence precedes existence"
- ❖ Refers to the traditional or back to basic approach in education
- ❖ Concerns with the fundamental of education skill and knowledge without which a person can't either be efficient individually or socially
- ❖ Advocates: William Bagley, James Koerner, H.G. Rickover, Paul Copperman

TEACHER

## Philosophy of Education

### ❖ On Education:

- schooling is practical for this will prepare students to become competent and valuable members of the society.
- Focuses on the “basics”-reading, writing, speaking and the ability to compute (arithmetic)  
Subjects that are given emphasis include geography, grammar, reading, history, mathematics, art and hygiene
- Stresses the values of hard work, perseverance, discipline, and respect to authorities to students.
- Students should be taught to think logically and systematically-grasping not just the parts but the whole (entirely)
- Methods of teaching centers on giving regular assignments, drills, recitation, frequent testing and evaluations.

TEACHER

## Philosophy of Education

### Pragmatism

- ❖ What is experienced and observed is true. Hence, what is useful is true.
- ❖ Synonymous to functionality and practicality
- ❖ Focuses more on praxis'
- ❖ Thought must produce actions (realization) rather than continue lying inside the mind and leading into uncertainty
- ❖ Advocates: Charles Sanders Peicer, John Dewey

TEACHER

## Philosophy of Education

### ❖ On Education:

- Involves students to work in groups
- Methods of teaching include experimentation, project making and problem solving
- Stresses on the application of what have learned rather than the transfer of the organized body of knowledge

TEACHER

## Philosophy of Education

### Perennialism

- ❖ The word itself means “eternal”, ageless, everlasting, unchanged’
- ❖ Influenced by the philosophy of realism
- ❖ Truth is universal and does not depend on circumstances of place, time and person.
- ❖ To learn means to acquire understanding of great works of civilizations
- ❖ Advocates: Robert Hutchins, Mortimer Adler

TEACHER

## Philosophy of Education

### ❖ On Education:

- Some ideas in the past are still taught because they are significant
- Curriculum should contain cognitive subjects that cultivate rationally, morality, aesthetic and religious principles. This includes history, language, mathematics, logic, literature, humanities and science.
- Curriculum must be based on recurrent themes of human life for it views education as recurring process based on eternal truths
- The teacher must have the mastery of the subject matter and authority in exercising it.
- Aims for education of the rational person- to develop man's power of thought
- The central aim of this philosophy

TEACHER

## Philosophy of Education

### Progressivism

- ❖ Contrasted the traditional view of essentialism and perennialism
- ❖ Emphasizes change and growth
- ❖ Stresses that man is a social animal who learns well through active interplay with others
- ❖ Learning is based from the questions of one's experience of the world. Hence, it is the learner himself who thinks, solves and gives meaning through his individual experience.
- ❖ Proponent: John Dewey

TEACHER

## Philosophy of Education

### ❖ On Education:

- Focuses on the child as a whole rather than of the content or the teacher
- Curriculum content comes from the questions and interests of the students
- Emphasis is given on the validation of ideas by students through active experimentation
- Methods of teaching include discussions, interaction (teacher with students) and group dynamics
- Opposes the extreme reliance on bookish method of instruction, learning through memorization, the use of fear and punishment and the four (4) walled philosophy of education.

TEACHER

## Philosophy of Education

### Nationalism

- ❖ Rapid rise was in the 18th century
- ❖ Center of ideology is the concept of national sovereignty
- ❖ Aims for the preservation and glorification of the State
- ❖ Emphasis is on the development of loyalty, patriotism, national feeling and responsible citizenship
- ❖ Advocates: Jonathan Herbart, Johan Heinrich Pestalozzi
- ❖ On Education:
  - The most important development was the creation of common language
  - Stresses on the teaching of the principles of democracy and duties of citizenship
  - Stimulates the development of the state which includes the control and support of public school system

TEACHER

## Philosophy of Education

### Constructivism

- A philosophy of learning which asserts that reality does exist outside of human conceptions. It is the individual that construct reality by reflecting on his own experience and gives meaning to it.
- Learning is the process of adjusting one's mental modes to accommodate new experience

TEACHER

## Philosophy of Education

### Behaviorism

- Rooted in the work of Russian experimental psychologist Ivan Pavlov and American psychologist John Watson in the early 1990's
- Asserts that human beings are shaped entirely by their external environment
- The only reality is the physical world
- Man by nature is neither good nor bad but a product of his environment. Hence, an autonomous acting man is but an illusion since it negates the faculty of freewill
- Advocates: John Watson, B.F. Skinner

TEACHER

## Utilitarianism

- Actions are geared toward the greatest total amount of happiness that one can achieved

## Rationalism

- Source of knowledge is the mind, independent of the senses

## Empriricism

- Source of knowledge is the sense-based experience

## Experimentalism

- Form empiricism and asserts that they only reliable form of knowledge is gained through scientific experiments

TEACHER

## Hedonism

- Pleasure is the only good thing to the person
- Used as a justification in evaluating action by giving emphasis on 'how much' pleasure can be achieved and how little pain that the action entails

## Epicurianism

- Considers as a form of ancient hedonism, it identifies pleasure with tranquility and reduction of desire
- Epicurus claimed that the highest pleasure consists of a simple and moderate life.

TEACHER

# CHARACTERISTICS OF PROFESSIONAL TEACHER

Teaching is a part of life of a committed teacher. To be an effective teacher, you do not only possess knowledge of educational theories. You also possess a willingness to assume your multifaceted roles.

TEACHER

### 3 BASIC SKILLS

#### 1. FUNCTIONAL SKILL

This involves the skill of a teacher in planning, organizing, controlling, communicating, motivating, developing and managing.

#### 2. ADAPTIVE SKILLS

Skills like creativity, dependability, resourcefulness, persuasiveness, discipline, memory, perceptiveness and other personal skills related to self-management

#### 3. PROFESSIONAL SKILLS

This refers to skills a teacher has to work content. It includes the teacher's knowledge of the subject matter to be taught, as well as his understanding of philosophical, psychological, legal, social, historical dimensions of education
