PRAYER

Dear Lord, I come to you to ask for your guidance and direction in this study session. I ask that the holy spirit fill me with strength, creativity and understanding to get through my studies without difficulty or sin. Help me hold my focus and attention. Help me to retain all that I learned. Please make my mind sharp and keep distractions at bay. If any part of my studying is weak or lacking in some way, let it be revealed so that I may correct it. Thank you for this opportunity to learn. Amen.

Question 13

Which disease is characterized by progressive memory loss and cognitive decline, primarily affecting older adults?

- a. Parkinson's disease
- b. Epilepsy

Alzheimer's disease

- d. Multiple sclerosis

Alzheimer's Disease

Alzheimer's disease is the most common type of dementia. It is a progressive neurodegenerative disease that gradually destroys memory, thinking, social and behavioral skills and, eventually, the ability to carry out simple tasks.

Alzheimer's gets worse over time. It causes the brain to shrink and brain cells to eventually die. There is no cure for Alzheimer's disease, but medications and therapies can help manage the symptoms and improve quality of life for people with the disease.
