1. What is the primary purpose of the Professional Regulation Commission (PRC) in the Philippines?

A. To provide scholarships to aspiring teachers

✓ B. To regulate and supervise the practice of professions in the Philippines

C. To develop the national curriculum for basic education

D. To accredit private schools and universities

RA 7836, "The Philippine Teachers Professionalization Act of 1994" provided for the professionalization of teaching under the PRC. In August 1996, the Board and the PRC administered the Licensure Examination for Teachers (LET) for the first time.

2. What is the term used for the process by which a teacher reflects on their own teaching practices to improve student learning outcomes?

A. Peer evaluation

B. Summative assessment

✓ C. Reflective practice

D. Diagnostic testing

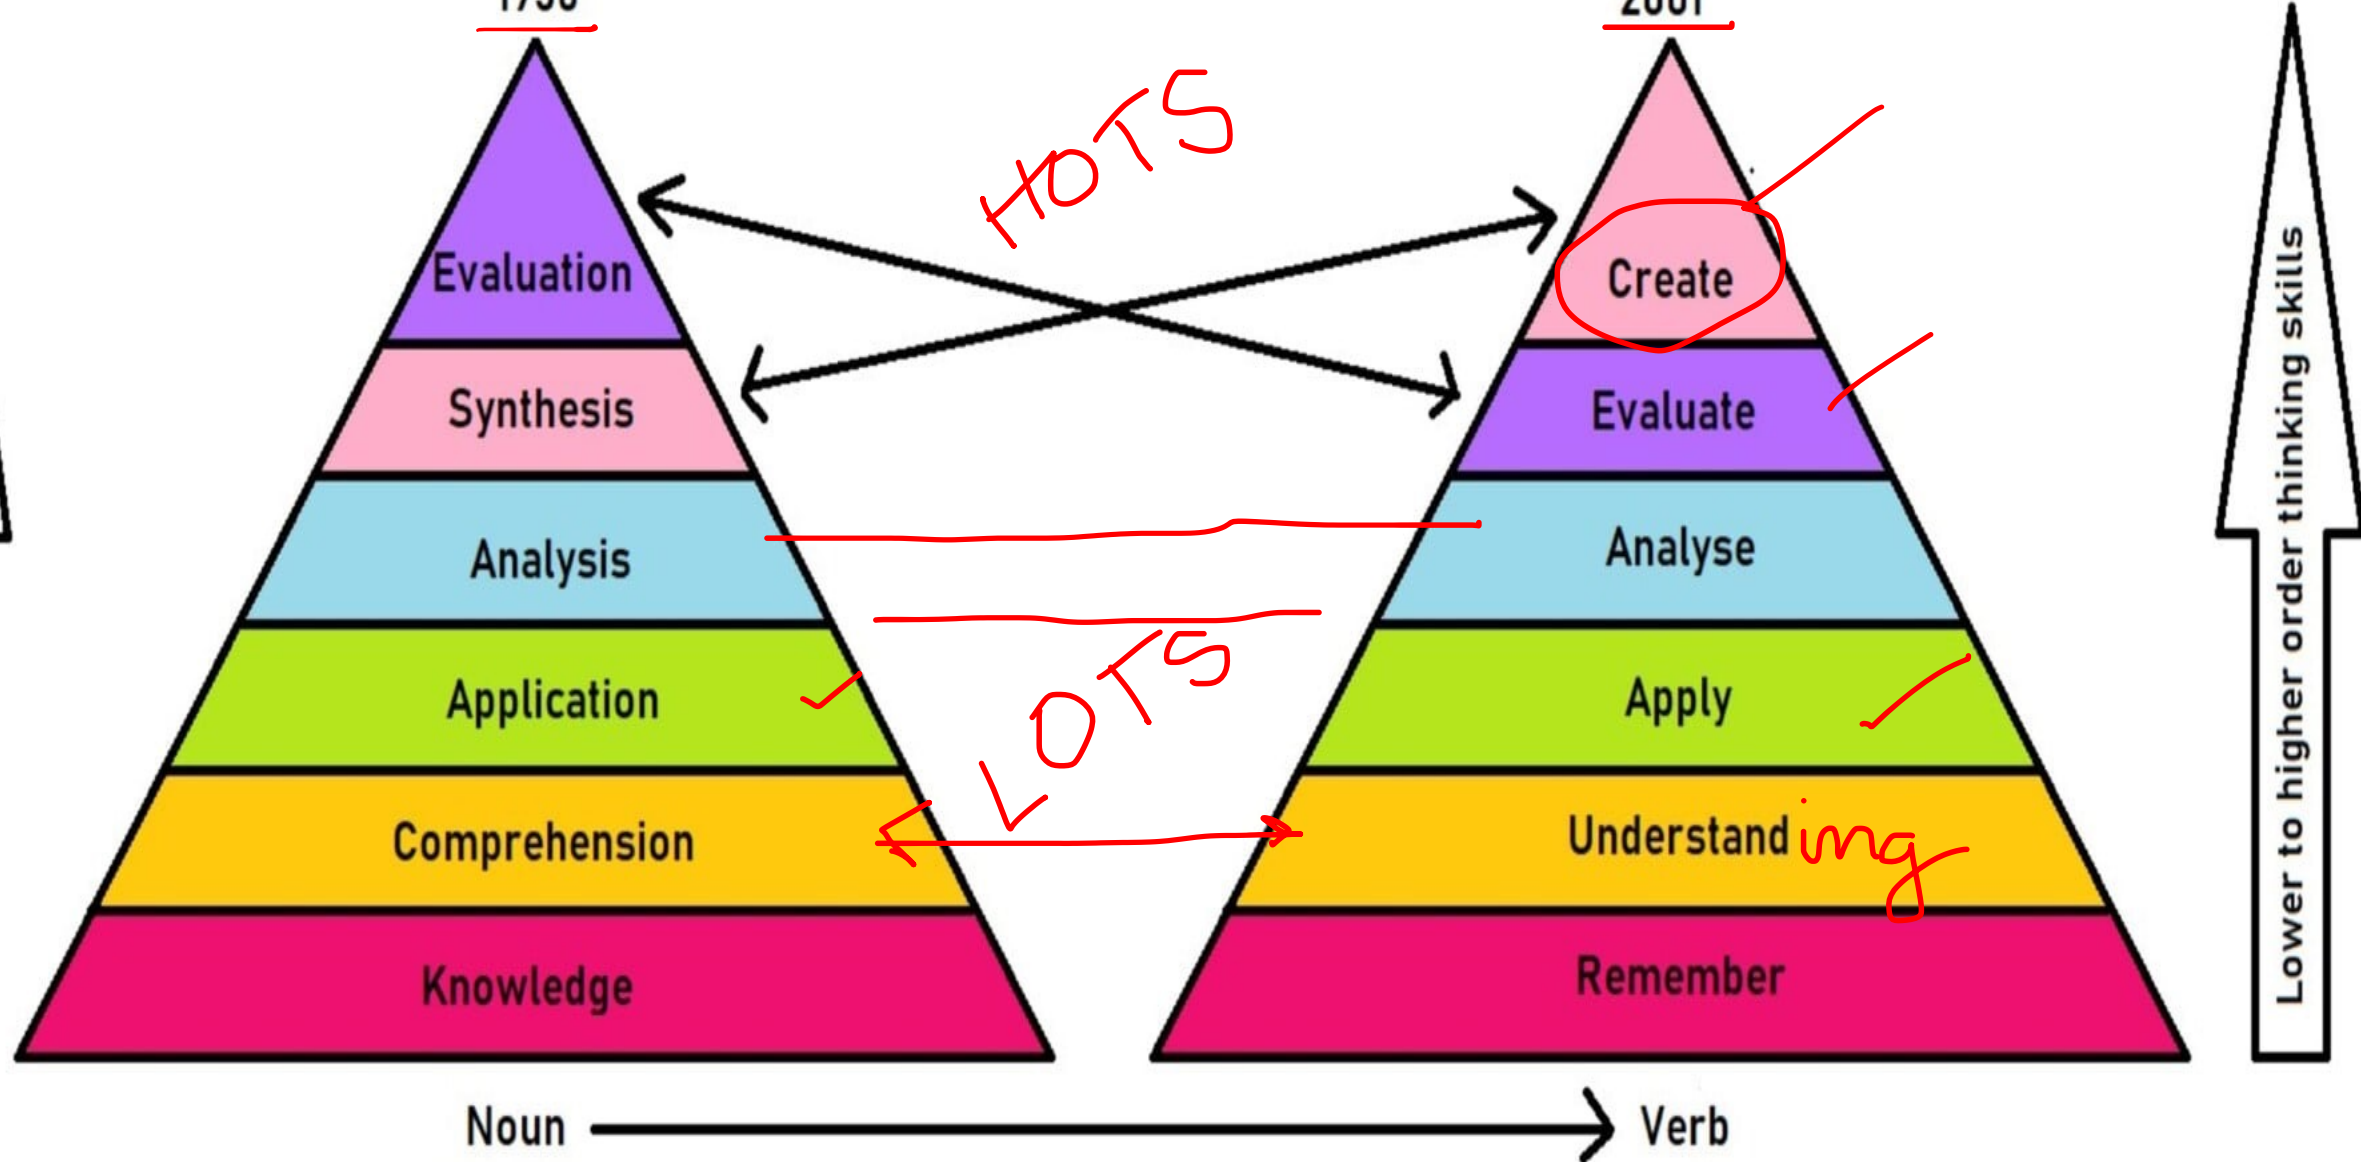

- *by colleagues*
- *done after instruction to check quality of learning*
- *done before instruction to identify students' strengths and weaknesses*

3. According to Bloom's Taxonomy, which cognitive level involves breaking down information into its component parts?

- ✓ A. Analysis
- B. Evaluation
- C. Synthesis
- D. Application

Bloom's Taxonomy
1956

Bloom's Revised Taxonomy
2001

4. Which of the following best describes the concept of "scaffolding" in education?

A. Providing permanent support structures for students with disabilities

✓ B. Temporary support given to students to help them achieve tasks they cannot yet do independently

C. A method of grouping students based on their academic performance

D. A classroom management strategy for reducing behavioral issues

Vygotsky Scaffolding

Out of Reach Zone

Can Not Do

MKO

Zone of Proximal Development (ZPD)

Can Do With Help

Zone of Actual Development (ZAD)

Can Do Alone

5. What does the acronym "IEP" stand for in special education?

- A. Integrated Educational Program
- B. Inclusive Engagement Protocol
- C. Instructional Evaluation Procedure
- ✓ D. Individualized Education Plan

6. Which learning theory is associated with B.F. Skinner and emphasizes the role of reinforcement and punishment in shaping behavior?

- A. Constructivism
 - *learners build knowledge*
- B. Cognitivism
 - *mental processes*
- C. Humanism
 - *personal growth/self-actualization*
- ✓ D. Behaviorism

7. A teacher notices that some students in her class learn better through visual aids, while others prefer listening to lectures. Which principle of learning does this observation reflect?

A. Zone of Proximal Development ✓

✓ B. Learning styles and individual differences

C. Classical conditioning • *Pavlov*

D. Mastery learning • *thru drills, used in criterion-reference tests*

8. A Grade 5 teacher wants to assess whether students have truly understood a lesson on fractions and not just memorized procedures. Which assessment strategy would be most appropriate?

A. A multiple-choice test on fraction definitions

B. A recitation of fraction rules

☒ C. A performance task requiring students to solve real-life problems involving fractions

D. A spelling quiz on fraction-related vocabulary

9. A teacher uses cooperative learning in her classroom. Which of the following scenarios best demonstrates positive interdependence, a key element of cooperative learning?

- ✓ A. Each group member is assigned a unique role, and the group's success depends on everyone fulfilling their role
- B. Students work individually on assignments and compare answers afterward
- C. The teacher assigns the same task to all groups and rewards the fastest finisher
- D. Students are grouped by ability level and compete against each other

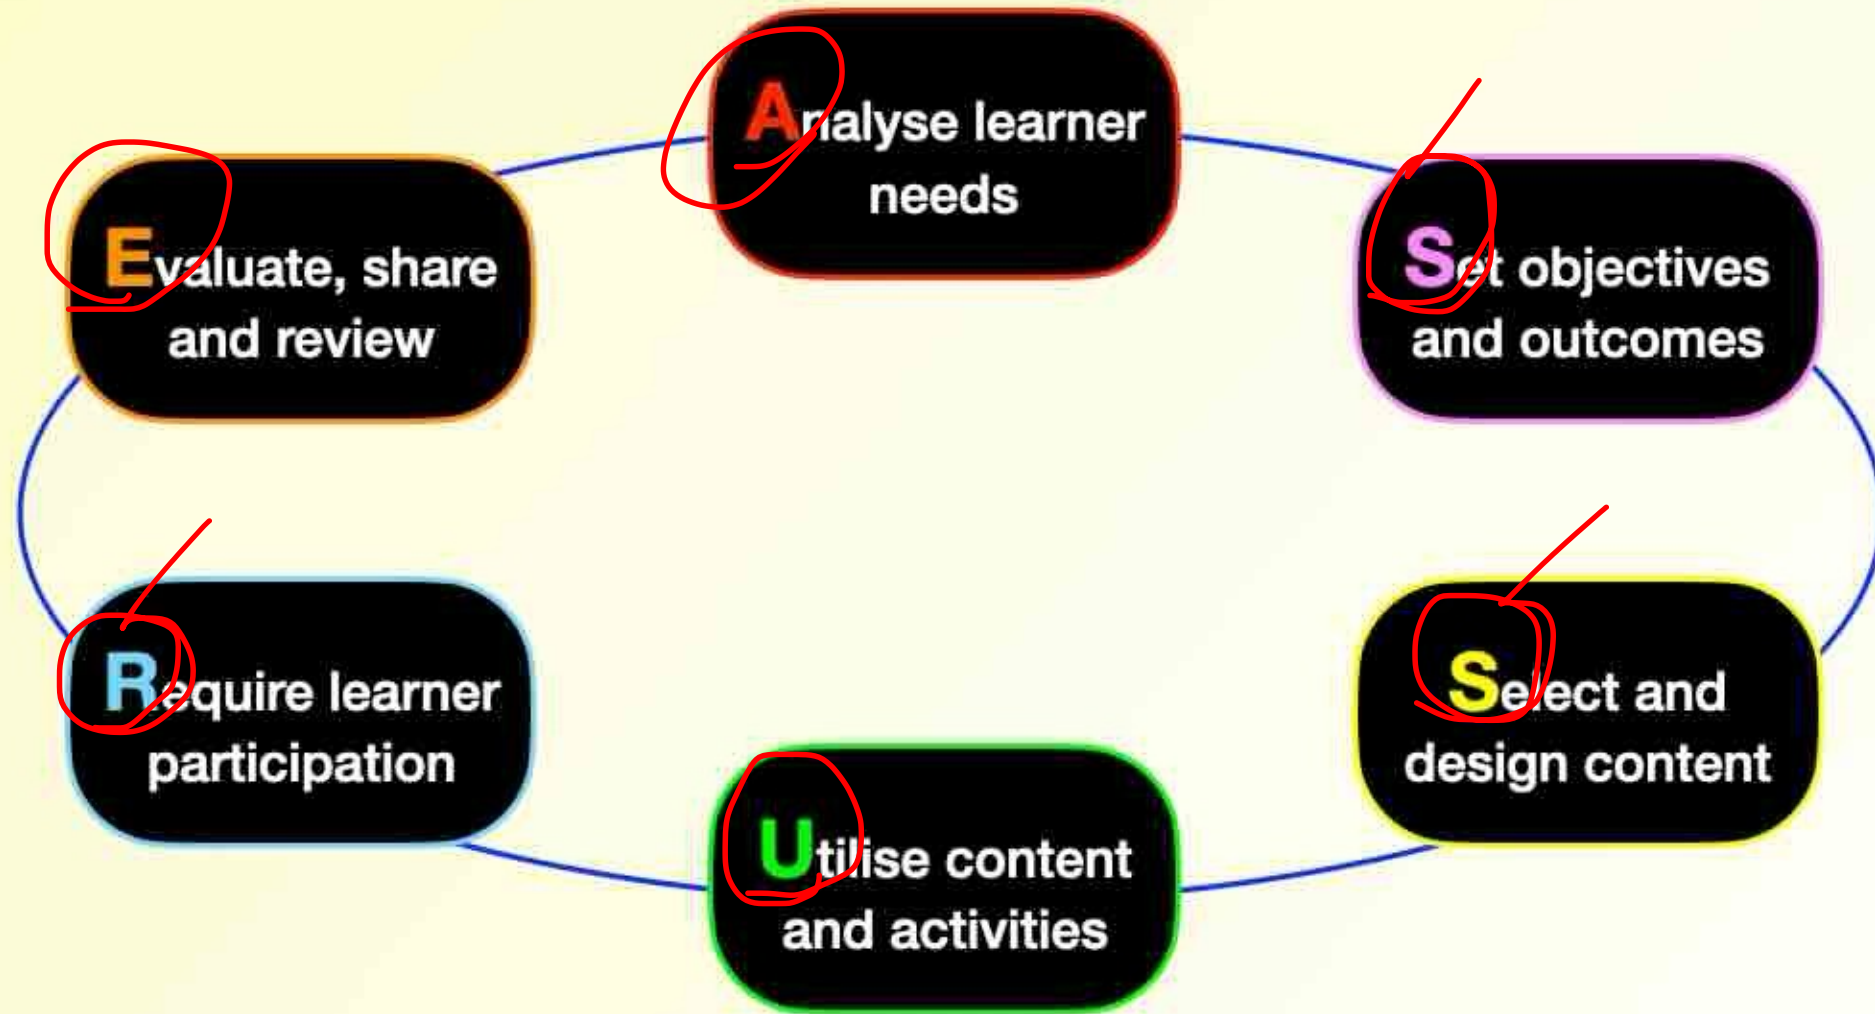

10. Which of the following classroom scenarios best illustrates Vygotsky's concept of the Zone of Proximal Development (ZPD)?

- A. A student independently completes a math problem without any assistance
- B. A teacher assigns homework that students have already mastered
- ✓ C. A teacher guides a student through a problem the student could not solve alone, gradually reducing support
- D. A student memorizes multiplication tables through repeated drill

11. A teacher is planning a lesson using the ASSURE model. After analyzing learners and stating objectives, what is the next step in the model?

- A. Utilize media and materials
- ✓ B. Select methods, media, and materials
- C. Require learner participation
- D. Evaluate and revise

ASSURE Model

12. Which of the following best describes the difference between formative and summative assessment?

A. Formative assessment is given at the end of a unit, while summative assessment is given at the beginning

B. Formative assessment is graded, while summative assessment is not

C. Formative assessment uses only written tests, while summative assessment uses performance tasks

✓ D. Formative assessment monitors learning during instruction to provide feedback, while summative assessment evaluates learning at the end of an instructional period

13. A teacher applies Jerome Bruner's spiral curriculum in designing her lessons. Which of the following practices best reflects this approach?

A. Teaching a concept once and moving on to a completely new topic

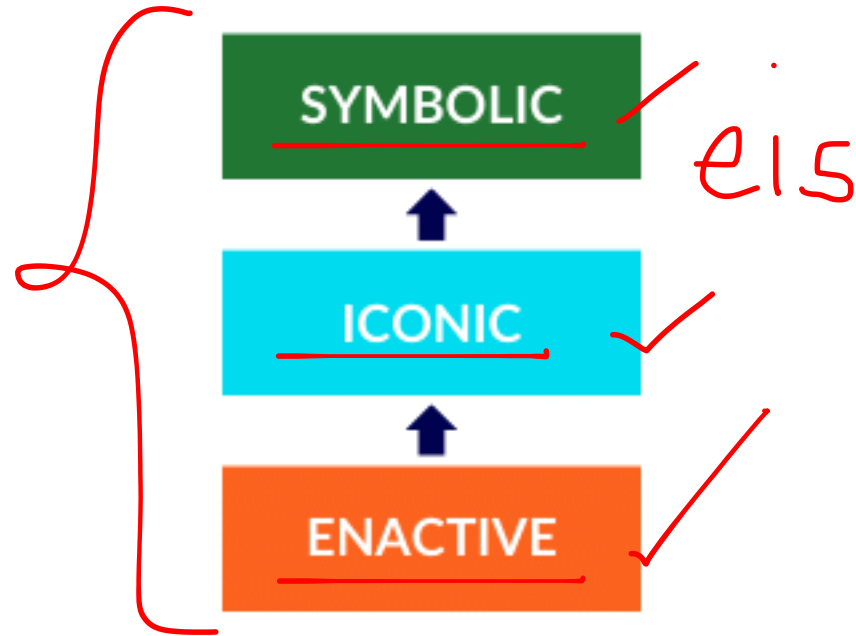

B. Grouping students by ability and teaching each group different content

✓ C. Revisiting the same concepts across grade levels with increasing complexity and depth

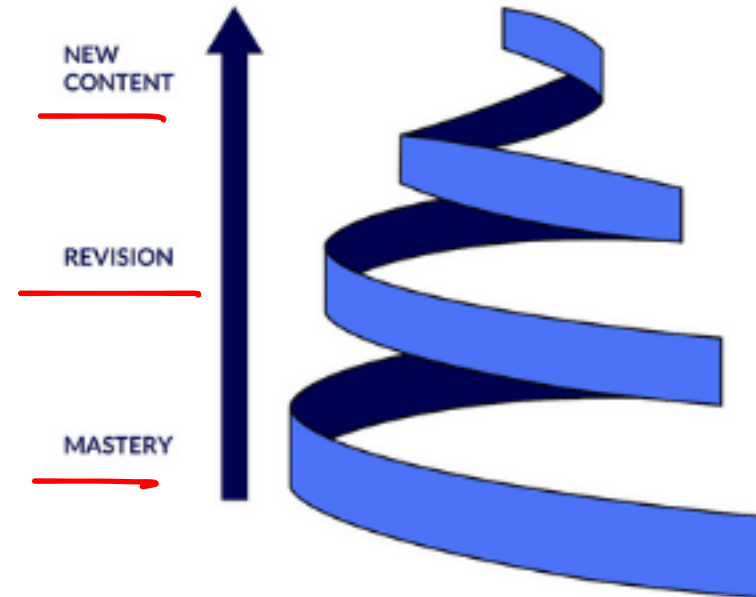

D. Using only discovery learning for all subject areas

BRUNER'S THEORY

THREE MODES OF REPRESENTATION

SPIRAL CURRICULUM ✓

14. A high school teacher observes that despite using varied instructional strategies, a significant number of students consistently underperform in her class. She decides to investigate the root cause before making any changes. Which of the following represents the most strategic and evidence-based approach to address this problem?

A. Immediately adopt a new teaching methodology recommended by a colleague

✓ B. Conduct a diagnostic assessment, analyze results, identify learning gaps, and design targeted interventions based on findings

C. Refer all underperforming students to the guidance counselor

D. Increase the frequency of quizzes to motivate students to study harder

15. A teacher is designing a unit plan for a diverse classroom that includes students with learning disabilities, gifted learners, and English language learners. Using the principles of Universal Design for Learning (UDL), which of the following approaches best addresses the needs of all learners?

A. Create separate lesson plans for each type of learner and teach them in isolated groups

B. Focus instruction on the average learner and provide remediation only when students fail

✓ C. Provide multiple means of representation, action and expression, and engagement to ensure all students can access and demonstrate learning

D. Use a single standardized assessment to measure all students' understanding equally

16. A teacher is evaluating two instructional approaches for teaching critical thinking. Approach A uses direct instruction with structured note-taking, while Approach B uses problem-based learning with open-ended tasks. Based on educational research and learning theory, which approach is more likely to develop higher-order thinking skills, and why?

A. Approach A, because structured note-taking ensures students retain all necessary information before thinking critically

B. Approach B, because open-ended tasks are easier for students and reduce cognitive load

C. Approach A, because direct instruction is the most efficient method for all types of learning outcomes

✓ D. Approach B, because problem-based learning engages students in authentic, complex tasks that require analysis, evaluation, and synthesis

17. A school implements a new reading program, and after one semester, test scores show minimal improvement. The principal asks teachers to evaluate the program's effectiveness. Which of the following represents the most comprehensive and strategic evaluation process?

A. Survey students about whether they enjoyed the reading program

✓ B. Compare pre- and post-test scores, analyze classroom observations, review student work samples, and gather feedback from teachers and students to make data-driven recommendations

C. Discontinue the program immediately since test scores did not improve significantly

D. Continue the program for another semester without any modifications and reassess

18. A teacher is planning a lesson where students must design a community project that addresses a local environmental issue. The teacher wants to align this task with higher-order thinking skills and authentic assessment principles. Which of the following best justifies why this task qualifies as an authentic assessment?

A. It requires students to memorize environmental facts and reproduce them in a written test

B. It is easy to grade using a standard answer key, ensuring objectivity

✓ C. It engages students in a real-world, meaningful task that requires them to apply knowledge, collaborate, make decisions, and present solutions to genuine problems

D. It focuses on a single subject area, making it easier to assess specific content knowledge

19. A veteran teacher mentors a beginning teacher who struggles with classroom management. The beginning teacher relies heavily on punitive measures, which has created a tense classroom environment. Using your knowledge of classroom management theories and ethical teaching practices, which of the following recommendations would be most effective and professionally sound?

A. Advise the beginning teacher to increase the severity of punishments to establish authority more quickly

B. Recommend that the beginning teacher focus solely on academic instruction and ignore behavioral issues

C. Suggest that the beginning teacher request a transfer to a different class with fewer behavioral challenges

✓ D. Guide the beginning teacher to establish clear, consistent, and positive classroom routines, build relationships with students, use proactive strategies, and apply logical consequences rather than punitive measures

20. During a field study in a rural school in the Philippines, a teacher observes that students are highly engaged when lessons incorporate local culture and traditions. What educational principle does this observation highlight?

- ✓ A. Contextual learning
- B. Constructivism
- C. Standardized testing
- D. Behaviorism

21. In a teaching internship, a student teacher is required to create lesson plans that align with the K to 12 curriculum in the Philippines. Which of the following is a key component of this curriculum framework?

A. Standardized assessments only

B. Emphasis on rote memorization

C. Focus solely on academic subjects

✓ D. Integration of 21st-century skills and competencies

21ST CENTURY SKILLS

LEARNING SKILLS

Critical Thinking

Creativity

Collaboration

Communication

Finding solutions to problems

Thinking outside the box

Working with others

Talking to others

LITERACY SKILLS

Information

Media

Technology

Understanding facts, figures, statistics, and data

Understanding the methods and outlets in which information is published

Understanding technology

LIFE SKILLS

Flexibility

Leadership

Initiative

Productivity

Social Skills

Deviating from plans as needed

Motivating the team to accomplish goals

Starting plans on one's own

Maintaining efficiency

Meeting with others for mutual benefits

22. As part of a teaching internship, a student is tasked with conducting a community needs assessment. Which of the following methods would be most effective for gathering relevant data?

A. Relying on anecdotal evidence from fellow interns

✓ B. Distributing a survey to parents and community members

C. Conducting a literature review of educational theories

D. Observing classroom behavior without engaging with the community

23. Which school of thought/theory does Maslow fit into?

- ✓ A. Humanism
- B. Cognitivism
 - *thinking processes*
- C. Andragogy
 - *adult learning*
- D. Behaviorism
 - *observable behavior*

24. This theorist developed the idea of the ZPD and the need for an MKO

- ✓ A. Vygotsky
- B. Skinner
 - *Operant conditioning*
- C. Thorndike
 - *Laws of Learning; TREE*
- D. Piaget
 - *Cognitive Development - SPCF*

25. In Behaviorism, Skinner argued that ____ has the longest lasting impact on behavior.

A. Negative reinforcement

✓ B. Positive reinforcement

C. Selective reactions

D. Ignoring behavior

Reinforcement

POSITIVE REINFORCEMENT:
GIVEN for GOOD BEHAVIOR

(Ex. Rewards, Praise)

NEGATIVE REINFORCEMENT:
REMOVED for GOOD BEHAVIOR

(Ex. Removal of Curfew or other tasks)

Punishment

POSITIVE PUNISHMENT:
GIVEN for BAD BEHAVIOR

(Ex. Timeout, Being Grounded)

NEGATIVE PUNISHMENT:
REMOVED for BAD BEHAVIOR

(Ex. Removal of Gadgets)

26. This theory argues that all new knowledge is built on pre-existing knowledge.

A. Cognitivism ✓

B. Behaviorism ✓

✓ C. Constructivism

D. Humanism ✓

27. One of the constraints in the application of ICT for the enhancement of standards among teachers and students is _____.

A. training of technology teachers

✓ B. connectivity of the school ~~A~~

C. availability of qualified teachers

D. lack of awareness about the use of technology

28. The ICT competency standards for teachers include all the following EXCEPT one. Which one?

- ✓ A. enhance financial literacy skills
- B. digital and non digital technology
- C. ethical issues on the use of ICT
- D. use of technology tools

29. A law-making body like the congress, the senate, or a university/school can recommend academic program deemed necessary for national identity & security.

- ✓ A. Recommended Curriculum
- B. Assessed Curriculum
- C. Written Curriculum
- D. Hidden Curriculum

TYPES OF CURRICULUM

RECOMMENDED

What scholars and organizations propose

TAUGHT

What the teachers actually teach

LEARNED

What the students actually learn

ASSESSED

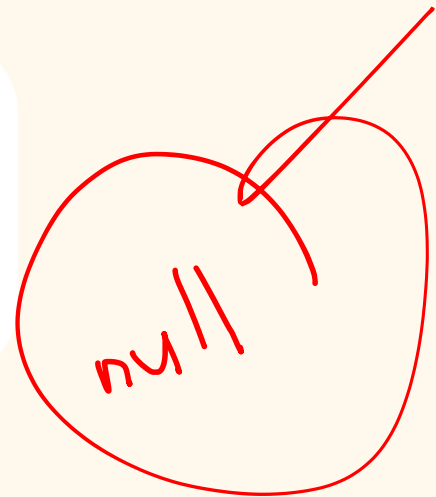

That which is tested and evaluated

SUPPORTED

Backed by resources such as textbook and technologies

HIDDEN

Not stated in documents but unintentionally learned by students aka covert

WRITTEN

Stated in school documents aka overt/explicit

30. Unintended curriculum which is not deliberately planned but may modify behavior or influences learning outcomes.

A. Assessed Curriculum

B. Learned Curriculum

✓ C. Hidden Curriculum

D. Written Curriculum

GURONG
PINOY

The logo features the word "GURONG" in a large, bold, blue 3D font with a black outline and a light blue gradient. Below it, the word "PINOY" is written in a white 3D font with a black outline and a light blue gradient. Three yellow five-pointed stars are positioned: one above the "R" in "GURONG", and one between the "R" and "O", and another between the "O" and "Y" in "PINOY". A yellow sunburst with multiple rays is located behind the top of the "R" in "GURONG".
