

MET REVIEW LET SPECIALIST

FINAL PRE-BOARD 2018

GENERAL EDUCATION

Code:S2018FPB

SET A

General Instructions:

1. This test booklet contains 150 test questions for **GENERAL EDUCATION**.
2. Read **INSTRUCTIONS** to **EXAMINEES** printed on your answer sheet.
3. Shade only the box that corresponds to your answer sheet using your pencil No.2. Two or more boxes shaded will invalidate your answer. There is only one answer to each question.
4. In case you find no correct answer please shade option "E"
5. Do not write anything on the test booklet. **AVOID ERASURES**.
6. This is **MET** Property. Please return this booklet with the answer sheet to your Room Watchers. Bringing this test booklet out of room will be a ground for cancellation of your Examination.

GOOD LUCK!

GENERAL EDUCATION SEPTEMBER 2018

Multiple Choice:

1. The United Nations meeting about climate change was indeed a success because the participating heads of state were _____ in achieving one goal.

~~A. Together all~~

☒ B. All together - all members of the group

C. altogether - completely, all in all
D. togetherness

2. The following lines were taken from the play of William Shakespeare entitled, "The Merchant of Venice". Which figure of speech was used in the underlined group of words?

The quality of mercy is not strained;

It droppeth as a gentle rain from heaven

Upon the place beneath. It twice blest;

It blesseth him that gives and him that takes:

A. Metaphor - direct

☒ B. Simile - indirect

C. Personification

D. Onomatopoeia

3. My parents and I met an acquaintance of _____ in the church last Sunday after hearing mass.

A. Us

B. My

☒ C. Ours

D. Ourselves

4. The fire last that left a number of residents homeless was said to have been caused by _____ electrical connection.

A. Lose - a verb (misplace)

~~B. Lost~~

☒ C. Loose - adjective

D. Loosen

Read the passage below and answer the questions that follow.

"My concept of inner peace came from my mother's daily activities which I now recall with fondness and awe. She was a full-time housewife wholly dependent on my father's monthly salary. How she made both ends meet, guided us in our studies and did small acts of charity on the side was beyond me."

5. Based on the given paragraph, the mother's finances were _____.

A. Overflowing

☒ B. Limited

C. Lacking

D. Depleting

6. The underlined group of words in the given paragraph is an example of a/an _____.

☒ A. Idiom

B. Personification

C. Metonymy

D. Symbolism

7. What is meant by the underlined word in the paragraph?
- A. To bend a stick from end to end
 - B. To connect one end to another
 - ☒ C. To make use of resources wisely so that it will be enough
 - D. To cut down on the necessities of life just to follow a strict budget
8. The "mother" in the given paragraph can serve as an exemplar of _____.
- A. Being charitable
 - ☒ B. Home management
 - C. Self-sacrifice
 - D. Money management
9. I forgot _____ laptop, may I borrow _____ Joey?
- ☒ A. My, yours
 - B. My, hers
 - C. Mine, your
 - D. Mine, hers
10. I could have voted for him as the president if I _____ here at that time.
- A. Am
 - ☒ B. Were
 - C. was
 - D. will be
11. Much to my dismay, the jury believes that the fault belongs to Jeremy and _____.
- A. I - *subject*
 - B. Them
 - ☒ C. Me - *object*
 - D. Us
12. William Shakespeare is famous for writing poems with 14 lines called a sonnet. In the Philippines _____ is also famous in the same genre, but she/he differs in terms of syllabication.
- A. Carlos Bulosan - *My Father Goes to Court*
 - ☒ B. Edith Tiempo - *"Bongon"*
 - C. Paz Marquez Benitez - *"Dead Stars"*
 - D. Amador Dagui - *"The Wedding Dance"*
13. Fish and fries _____ my favourite afternoon snack.
- ☒ A. Is
 - B. Are
 - C. was
 - D. Were
14. The man standing in the corner looks _____.
- ☒ A. Strange
 - B. Strangely
 - C. Stranger
 - D. Very strangely
15. The scientists ^{has} had developed a new pill against the common flu. Which word made the sentence wrong?
- ☒ A. Had
 - B. Common
 - C. Developed
 - D. Flu
16. This Filipino masterpiece by Carlos Bulosan tells a story of a father who used his wits in dealing with injustices that come his way.
- A. The Wedding Dance - *Amador Dagui*
 - B. May Day Eve - *Nick Joaquin*
 - ☒ C. My Father Goes to Court
 - D. Dead Stars - *Paz Marquez Benitez*

General Education

17. He _____ on his bed the whole afternoon yesterday.

- ☒ A. Lay - transitive - direct object
☒ B. Lie - intransitive - no direct object
 C. Laid
☒ D. Lied

18. The president has written the memorandum of agreement yesterday. What made the sentence wrong?

- A. Signed
 B. Memorandum
☒ C. Yesterday
 D. Has

Read the lines below and answer the questions that follow.

Shall I compare thee to a summer's day
 Thou art more lovely and more temperate
Rough winds do shake the darling buds of May
 And summer's lease hath all too short a date.

19. The lines above are the first quatrain of Sonnet 18. Who wrote this poem?

- A. Robert Frost - Road Not Taken
 B. Elizabeth Barrett Browning
 C. Edgar Allan Poe
☒ D. William Shakespeare

20. What figure of speech was used in the underlined line?

- ☒ A. Personification
 B. Metaphor
 C. Onomatopoeia
 D. Synecdoche

21. What is the largest prime number that is less than 150?

- A. 137 - least prime
 B. 139 -
☒ C. 147 - composite
☒ D. 149 - largest prime

22. What are the prime factors of 60?

- A. 2, 3, 5
☒ B. 2, 2, 3, 5
 C. 2, 3, 3, 5
 D. 2, 3, 5, 5

23. Which of the following is the least common multiple of 2, 3 and 4?

- ☒ A. 12
 B. 16
 C. 36
 D. 40

24. What is the greatest common factor of 12, 18 and 42?

- A. 3
 B. 4
☒ C. 6
 D. 8

25. Which of the following is arranged in increasing order?

- A. $\frac{1}{2}, \frac{2}{5}, \frac{3}{7}, \frac{4}{9}$
☒ B. $\frac{1}{8}, \frac{3}{7}, \frac{2}{3}, \frac{4}{5}$
 C. $\frac{7}{8}, \frac{2}{9}, \frac{5}{7}, \frac{3}{4}$
 D. $\frac{5}{6}, \frac{1}{4}, \frac{3}{5}, \frac{2}{7}$

26. What is $\frac{4}{5}$ in percent?

- A. 60%
B. 70%

- ☒ C. 80%
D. 90%

27. What percent of 250 is 100?

- A. 10%
B. 20%

- C. 30%
☒ D. 40%

28. John is planning to start a small business. He borrowed 500,000 pesos from the bank at a rate of 4.5% for 5 years. Find the interest that John has to pay.

- A. 110,150
☒ B. 112,500

- C. 115,750
D. 120,350

Final Amount =
future value
 $FA = P + I$

29. If $250 : x = 5 : 6$, then what is x ?

- A. 270
☒ B. 300

- C. 320
D. 350

30. A train is moving at a fixed speed of 75 km per hour. How far can it travel in 20 minutes?

- ☒ A. 25 km
B. 30 km

- C. 35 km
D. 40 km

31. In a class election, Alvin and Maria are competing for the position of class president. Alvin received 5 votes for every 3 votes that Maria received. How many votes did Alvin receive if 48 votes were cast?

- A. 6 votes
B. 18 votes

- C. 22 votes
☒ D. 30 votes

$$5x + 3x = 48$$
$$8x = 48$$
$$x = 6$$

32. Which of the following is divisible by 7?

- ☒ A. 1,735
☒ B. 2,094

- ☒ C. 3,651
☒ D. 4,802

33. The number 289,17k is divisible by 9 if k is _____.

- ☒ A. 6
☒ B. 7

- ☒ C. 8
☒ D. 9

34. What is $2 - (3^2 - 6) \div 3 \cdot 4 + 5^0$?

- A. -3
☒ B. -1
C. 0
D. 4

6EMDAS

$$= 2 - (9 - 6) \div 3 \cdot 4 + 1$$
$$= 2 - 3 \div 3 \cdot 4 + 1$$
$$= 2 - 4 + 1 = 2 - 1 = -1$$

$$2 - 2 \cdot 2$$
$$2 - 4 = -2$$

35. Simplify: $(x^2 - 3x - 4) - (4 - 2x)$

- ☒ A. $x^2 - x - 8$
B. $x^2 - 5x - 8$
C. $x^2 - x$
D. $x^2 - 5x$

$$x^2 - 3x - 4 - 4 + 2x$$
$$x^2 - x - 8$$

36. Ginagamit ito sa pagsulat at sa anumang pagpapaliwanag.

- ☒ A. Wika
☐ B. panitikan

- C. alpabeto
D. sining

37. Anong uri ng sanaysay ang nagtataglay ng di pangkarawing paksa at ang pagtalakay ay naaayon sa manunulat.

- ☒ A. Malaya
☐ B. Malikhain

- C. Maanyo
D. Masining

38. Ang opinyon ukol sa napapanahong paksa ay inilalathala sa anong seksyon o bahagi ng pahayagan?

- A. Obitwaryo
B. Ulo ng balita

- ☒ C. Pangulong-tudling - editorial
D. literari

39. "Si Jing ay hinahangaan sa kanyang kagandahan at pagiging magiliw subalit magiliw na talipandas.

Ang idyomatikong pahayag ay nangangahulugang _____.

- A. matapang
☒ B. mapagkunwari

- C. palaban
D. huwaran

40. Alin ang angkop na salin o kahuligan ng "waste not want not"?

- A. magsipag
☒ B. magtipid

- C. maghanga
D. sulitin

41. "Walang kapaguran sa maghapon paggapas ang magsasaka." Ano ang simuno sa pangungusap?

- A. kapaguran
B. maghapon

- C. paggapas
☒ D. magsasaka

42. "Mabait naman siya, hindi ba?" Ang pangungusap na patanong ay nasa anyong _____.

- A. pananggi
B. dugtungan

- ☒ C. panangayon
D. pag-aalinlangan

43. Sanaysay: Pangungusap - Tula: _____

- A. saknong
B. parirala

- ☒ C. taludtod
D. sukat

44. Alin sa mga sumusunod ang pangatnig na nagpapakita o nagpapahiwatig ng eksepsyon?

- A. Kapag
☒ B. Kundi man

- C. hindi lang
D. marahil

45. Ang tapsilog at longsilog ay pinagsama-samang salitang ginagamit sa komunikasyong impormal.

Ang wikang nabuo ay tinatawag na _____.

- A. pantigan
B. panitik

- C. dayalek
☒ D. kolokyal

46. Anong antas ng wika nabibilang ang mga salitang tulad ng MERON, LIKA at ANTAY?

- A. Pabalbal
- ☒ B. Kolokyal
- C. Panretorika
- D. Pampanitikan

47. Alin ang pang-uring pamilang na PALANSAK? - nagpapakita ng pagpapangkat

- A. dalawa (patakam) ordinaryo bilang
- B. dadalawa (patakab) tukalang bilang
- ☒ C. dalawahan
- D. tig-dalawa (pamahagi) ^{fraction}

48. Anong tayutay ang ginamit sa pahayag?

"Panibugho! Ikaw ang nagdudulot ng kapighatian sa dalawang pusong nagmamahalan."

- A. Pagtatambis - *oxymoron* (pagcalungat)
- B. Palit-tawag - *metonymy*
- ☒ C. Pagtawag - *apostrophe*
- D. Palit-saklaw - *synecdoche*

49. Alin sa mga sumusunod ang HINDI nabibilang sa pangkat?

- A. Dasal
- B. Ganda
- C. Bait.
- ☒ D. Mabuti (*maylopi*)

50. "Matikas at guwapo pa rin si Lolo Jose kahit ubos na ang bakod".

- A. walang pera
- ☒ B. wala ng ngipin
- C. matanda na
- D. mahina na

51. Which of the following steps is not a part of scientific method?

- ☒ A. Interview resource persons in order to collect possible data
- B. Make a guess about the answer to the problem and predict what will happen
- C. Identify and state the problem
- D. Perform the experiment to test prediction

52. Which of the following viewpoints uses scientific method and control set up in the experiment to explain animal and human behavior?

- A. Holistic viewpoint
- B. Intra-psycho viewpoint
- ☒ C. Biological viewpoint
- D. Social behavior viewpoint

53. Prokaryotic cells are different from eukaryotic cells because prokaryotes have

- ☒ A. Small ribosomes used for protein synthesis
- ☒ B. Nucleic acids found inside the nucleus
- ☒ C. Mitochondria that participate in cellular respiration
- ☒ D. Genome that is located in the nucleoid

54. Which of the following organisms is classified under Kingdom Fungi?

- ☒ A. Microsporidia (*Fungi*)
- B. Diatoms (*Protist*)
- C. Streptococcus (*bacteria*)
- D. Red algae (*Monera*)

55. What type of fungus is used in making alcoholic drinks and help prepare a dough in baking?
- A. Mold
(B) Yeast
C. Mushroom
D. Algae
56. In order to determine the cause of infectious disease, a diagnostic test that allow microorganisms to multiply in a medium is performed in a controlled laboratory condition. This test is called
- A. Complete blood count (CBC)
B. Urinalysis
(C) Microbial culture -
D. Hemoscope
57. A two-lobed endocrine gland, shaped like a bow tie, which is located at the neck and regulates metabolism is known as
- A. Pituitary gland
(B) Thyroid gland
C. Parathyroid gland
D. Adrenal gland - emergency gland
58. A woman cannot bear a child because of a defective fallopian tube. However, a modern technological process could help her bear a child through the union of ovum and sperm inside a test tube. This process is called
- A. Test tube
B. Tubal ligation
(C) In vitro fertilization - outside fertilization
D. In vivo fertilization - inside fertilization
59. A new organism is developed from the outgrowth of the mother organism. This type of asexual reproduction is called
- A. Fission
(B) Budding
C. Conjugation
D. Fertilization
60. Bamboos, which are considered as the tallest grass reproduce asexually through extended structures called
- A. Roots
B. Buds
(C) Runners
D. Seeds
61. Dengue is an infectious disease transmitted by a carrier. This carrier is classified under phylum arthropoda and class
- A. Arachnida
B. Chordate
(C) Insecta
D. Monera

62. The branch of biology that deals with the study of animal behavior is called

A. Psychology
B. Taxonomy

C. Ecology
(D) Ethology

63. Decomposition is a process in which a substance is broken to make it useful in other processes. The organisms that are capable of decomposing a substance are called

others -
A. (Autotrophs) - self trophic (food or nourishment) producer (photosynthetic)
B. (Heterotrophs) - consumers (food is coming from others)
* (C) Saprotrophs - food is coming from decaying matter
D. Producers

Ecocycle
Biotic (living) - Producer
Abiotic (non-living) - organic compound (protein, carbohydrate)
inorganic compound (oxygen, sun)
factor affecting

decay

herbivores
carnivores
omnivores

64. Which of the following is true of recessive genes?

- dominant
- A. They are more aggressive and have more superior phenotypic traits
 - ☒ B. They will only have phenotypic expression if they are homozygous
 - C. They will prevent a dominant gene from expressing its phenotype
 - D. They should be paired with dominant gene in order to be expressed

phenotype - color, height
(traits, genes)
appearance
genotype - genes

65. Which of the following describes the habitat of an organism?

- a place single individual
- A. It is the population of an ecosystem
 - B. It is the food supply in a given environment
 - ☒ C. It is a place in the environment where the organisms live
 - D. It is a community of an ecosystem

population - group of organism of same species
community - group of organisms of diff. species

66. Which of the following pairs of body parts is considered homologous?

- ☒ A. Human Arms and Seal's Flippers
- B. Appendix and Tail bone
- C. Lungs and Gills
- D. Ectoderm and Endoderm

corresponding structure
analogous - diff. in structure but same in instructive
Letter C

67. This segmented worm is used in the traditional medicine to facilitate anticoagulation. What is this organism?

- A. Liver fluke
- ☒ B. Leech
- C. Earthworm
- D. bloodworm

68. What hormones in plants are responsible in promoting auxillary budding and apical dominance?

- ☒ A. Auxins and Gibberelins
- B. Cytokinins and Gibberilins
- C. Auxins and Abscisates
- D. Cytokinins and Auxins

69. During what part of the day is carbon dioxide released in plants?

- A. Morning
- B. Noon
- C. Afternoon
- ☒ D. Evening

respiration
draw material of photosynthesis

photosynthesis is a chemical change
sunlight + water + CO₂ = sugar

70. Plants capture energy from the sunlight by means of molecule known as

- A. Oxygen
- B. Adenosine triphosphate (ATP)
- ☒ C. Chlorophyll
- D. Nitrates

enhance the process of photosynthesis (used as catalyst)

71. What do you call a marine mammal that has a long ivory tusks and well adapted in the tundra biome?

- ☒ A. Walrus
- ~~B. Whale~~
- ~~C. Polar bear~~
- ~~D. Elephant~~

72. What are the two chemical factors that cause decomposition?

- A. Putrefaction and respiration
- B. Putrefaction and mitosis
- ☒ C. autolysis and putrefaction (red wine (traditional))
- D. autolysis and photosynthesis

General Education

73. Commensalism is an interaction between two organisms whereby one organism is benefited while the other is not affected. This is exemplified by which of the following?

- A. Two spiders fight each other for survival - competition
- B. A flea feeds on the blood of the dog - parasitism
- ☒ C. A bird following the army ant is able to catch and eat the fleeing insects which are caused by the army ant colony
ex: remora and shark
- D. A soaring eagle catches and devour the chick - predation
symbiotic - both are benefited (give and take) - ex: Oxygen - carbon dioxide

neutralism - obligatory (cat will die)
protocooperation - non-obligatory (one will survive)
gumamela - butterfly

74. The interrelation between the physical and biological components of the environment is called

- ☒ A. Ecosystem
- B. Ecological niche
- C. Water system
- D. solar system

75. A forest suffered from wildfires, however, the remains are still considered to be viable. Five years later, trees and other plants are seen growing in this forest. This condition is called

- A. Primary ecological succession - *ex: desert with oasis*
- ☒ B. Secondary ecological succession - *no remains (summit or lung)*
- C. Tertiary ecological succession
- D. Quarterly ecological succession

ecological succession
primary
secondary
- one particular ecosystem will succeed to form another ecosystem after a years

76. The term used in showing the feeding connections among all the living things is called

- A. Energy pyramid
- B. Water cycle
- C. Nutrition cycle
- ☒ D. Food web

77. A simple hypothetical ecosystem consists of the following: worms, which are the primary consumers feed on the cabbage, the producers. The small passerine birds, feeding on the worms are the secondary consumers and the lion acts as the tertiary consumer. A farmer arrives and sprays pesticides, killing all the caterpillars. What will happen to the organisms in the ecosystem?

- ☒ A. The lion will die
- B. The passerine birds will thrive
- C. The cabbage will wilt and die
- D. The worms will still reproduce

78. Red tide is caused by the increase in the number of planktons in the sea. What particular marine organism is affected by these planktons and causing detrimental effect on humans?

- A. Fish
- ☒ B. Mollusks / shellfish
- C. Arthropods
- D. Corals

water pollution (cause)
choanoflagellates

79. The major concern about global warming arises from increased concentration of

- ☒ A. Greenhouse gases (carbon dioxide, methane)
- B. Acid rain
- C. Photochemical smog
- D. Aerosols

80. The Kyoto Protocol is one of the international assemblies whose advocacy is environmental protection. Thus, this assembly requires the countries to participate in this advocacy by reducing

- ☒ A. Greenhouse emission
- B. Photosynthesis
- C. Acid rain
- D. Reforestation

Bruno and communitarian - sustainable development (Harold Brunkford)

2019

81. Measurement is the comparison between the quantity being measured and its corresponding standard. Of the following, which one is used as standard in measuring length?

- ☒ A. Meter
- B. Mass
- C. Ruler
- D. Liter

82. Of the following situations, which one is not accelerated?

- A. A ball rolling down an inclined plane
- ☒ B. A car traveling at constant speed along the expressway
- C. An object which is whirled and moving in a uniform circular motion
- D. A stone which is freely-falling

83. Which of the following is true when a block of wood lays at rest on top of the table?

- A. There are no forces acting on the block
- ☒ B. The sum of the forces acting on the block is zero
- C. The block is in uniform motion
- D. The block is accelerated

84. A razor blade can float on the surface of water because of

- ☒ A. Surface tension
- B. Capillarity
- C. Buoyant force
- D. Liquid pressure

85. The following sources of energy are considered renewable and sustainable, except

- A. Sun
- B. Waterfalls
- C. Wind
- ☒ D. Coal

86. Of the following sources of energy listed below, which one is caused by the concentration of heat in the earth's crust and gives detrimental effect on the population's food supply?

- A. Solar
- ☒ B. Geothermal
- C. Wind
- D. Nuclear

87. Which of the following statements is true?

- ☒ A. Light travels fastest in a vacuum while sound travels fastest in solid
- B. Light travels fastest in solid while sound travels fastest in liquid
- C. Both light and sound travel fastest in a vacuum
- D. Both light and sound travel fastest in solid

88. Of the following, which one is considered an alkaloid?

- A. Aspirin
- B. Iodized salt
- C. Muriatic acid
- ☒ D. Bakelite

89. Perfumes contain organic compounds called

- ☒ A. Esters
- B. Ethers
- C. Acids
- D. Alcohol (solvent in making perfume)

90. The chemical equation $AB + \text{Energy} \rightarrow A + B$ is an example of

- A. Exothermic decomposition $\uparrow$
~~A~~ Exothermic synthesis
C. Endothermic decomposition $\uparrow$
~~D~~ Endothermic synthesis

$\uparrow$ - exo

91. One of the properties of gases is its compressibility. This is because the molecules are

- A. Close together
☒ B. Far apart
C. Stationary
D. Always moving

92. Which of the following is true of metalloids?

- A. They conduct heat and electricity more effectively than metals
B. They both react with non-metals
☒ C. They have the properties of both metals and non-metals
D. They conduct electricity better than non-metals

93. Which of the following substances listed below is considered a colloid?

- A. Water
B. Alcohol
C. Soda
☒ D. Milk

94. Sterling silver which is an alloy of copper in silver is considered to be a

- ☒ A. Solid-solid solution
B. Solid-liquid solution
C. Solid-gas solution
D. Liquid-liquid solution

95. The astronomer who developed the theory that the sun is the center of the solar system was

- A. Newton
B. Einstein
C. Ptolemy
☒ D. Copernicus

96. The earth's rotation on its axis gave rise to the occurrence of day and night. What would have happened if the earth's axis is not tilted?

- A. Some places would just have day time while others only night time
B. Some places would have very long nights, others would have short days
☒ C. The days and nights throughout the globe would always be of equal length
D. The length of day and night would just be the same as when the axis is tilted

97. How many phases does the moon pass during one complete revolution around the earth?

- A. 3
☒ B. 4
C. 6
D. 8

- new moon

98. What planet is closest to the earth and with a distance of about 42 million kilometers?

- ☒ A. Mars
B. Venus
C. Mercury
D. Jupiter

99. What term is given to the surface of the earth between the tropic of cancer and the equator?

- A. Great circle
B. Meridian
☒ C. Zone
D. Solstice

100. The greatest number of storm casualties during the super typhoon Yolanda was caused by
- A. Strong winds
 - B. High rainfall
 - ☒ C. Storm surge
 - D. Low pressure
101. What element of culture serves as standards of behaviour in a society and as such, prescribes or proscribes its members in doing or not doing it?
- A. values
 - ☒ B. norms
 - C. beliefs
 - D. traditions
102. RA 10963 is otherwise known as the:
- A. Anti-Tambay Law
 - B. Anti-Vagrancy Act of 2012
 - ☒ C. TRAIN Law
 - D. Divorce Law
103. House Bill No. 7303 or otherwise known as "An Act Instituting Absolute Divorce in the Philippines and for other purposes" has the following grounds, except one:
- A. gender reassignment surgery
 - B. psychological incapacity
 - ☒ C. separation in fact for 10 years
 - D. Joint petition of spouses
104. In the Philippines, absolutely, you may not be imprisoned due to your debts. This statement is generally:
- ☒ A. True
 - B. False
 - C. depending upon the nature of contract
 - D. uncertain
105. On June 21, 2018, it was recorded that the day lasted for 12 hours and 59 minutes. This phenomenon is called:
- ☒ A. Summer Solstice *June 21*
 - B. Winter Solstice *Dec. 21 longest night*
 - C. Spring Solstice
 - D. Autumn Solstice *Sept 22*
106. "To each according to his needs, to each according to his abilities" is a famous dictum of:
- A. Socialism
 - B. feudalism
 - C. Slavery
 - ☒ D. Communism *Karl Marx*
107. Teacher I in DepEd is Salary Grade 11 (SG 11) with a gross basic salary of 20,179.00/month. In the new tax schedule, how much is the tax to be deducted from Teacher I's salary?
- A. 1,261.72 Php
 - ☒ B. 0
 - C. 16,261.72 Php
 - D. 861.72 Php
108. What do you call a long narrow inlet with steep sides or cliffs, created by glacial erosion?
- A. estuary
 - B. gulf
 - ☒ C. fjord
 - D. isthmus
109. If the Philippines will become a federal republic, it will be divided into how many federal states?
- ☒ A. 5
 - B. 6
 - C. 7
 - D. 8

110. Which is an example of a perfectly inelastic supply?

- A. When the price of one crate of orange for 150 Php dropped to 149.99 Php, the seller will not sell it anymore
- ☒ B. Despite the increase in demand of a parking space in a shopping mall, the supply cannot be increased
- C. If the price of gold increases by 25%, the consumers' desire to buy gold will also decrease by 25%
- D. If there's a change in price, the producer could respond quickly to a price change

111. Federalism is now hotly debated in Congress that if 2/3 of its members will ratify it, charter change shall follow suit. This process of amendments on revisions is known as:

- ☒ A. Con Ass

- ☒ A. Fondness
B. Avoidance
C. dislike
D. hatred
29. If she _____ more trained, she would have won the triathlon.
- A. Was
B. Will be
☒ C. were
D. would be
30. She had lifted the boulders. Which word made the sentence wrong?
- ☒ A. Lifted
B. Had
C. boulders
D. she
31. What assumption can be made in the sentence, "She has studied for her exam tomorrow."
- ☒ A. She will stop studying soon
B. She will continue to study
C. She is a studious girl
D. She is a lazy girl
32. The examination was easy for Samantha and _____
- A. I
B. Myself
☒ C. Me
D. Herself
33. Where must be the primary stress in the sentence, "This is an expensive vase." If you want to separate one vase from the others?
- ☒ A. This
B. Expensive
C. Is
D. Vase
34. This is considered as the very first masterpiece in Philippine Literature in English.
- A. The Wedding Dance
B. My Father Goes to Court
Amador Daguiso
☒ C. Dead Stars
D. May Day Eve
Alfredo Exporanza
Julia
Nick Joaquin
35. What is the pen name of Nick Joaquin?
- A. Quiano de Tondo
B. Quinao de Malabon
☒ C. Quiano de Manila
D. Quiano de Bulacan
36. A recipe calls for 3 eggs for every 8 cups of flour. A head chef will use 32 cups of flour, how many eggs must he have?
- $$\begin{array}{l} 3:8 = x:32 \\ 8x = 96 \\ x = 12 \end{array}$$
- ☒ A. 12
B. 14
C. 10
D. 8
37. The grades in Mathematics of the students in section A are as follows: 80, 85, 82, 84, 83
- What can you infer from the measures of variability obtained from this population?
- ☒ A. the population is very homogenous = same
B. the grades are very scattered
C. the measures are very unstable
D. the range score is a very reliable measure of variability

38. What are the prime factors of 60? 4 least composite no.

- A. $3 \times 4 \times 5$ X
B. $2 \times 2 \times 2 \times 3 \times 5$

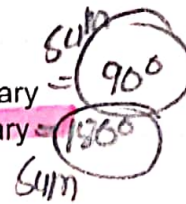

- C. $2 \times 2 \times 3 \times 5$
D. $2 \times 2 \times 2 \times 6 \times 5$ X

= Prime factorization

39. Angles whose sum equals 180 degrees are _____

- A. vertical = also congruent (scissors)
B. congruent = same degree measure

- C. complementary
D. supplementary

0-90° - Acute
90° - right
180° - obtuse

40. What is the least common multiple of 15 and 25? skip count

- A. 50
B. 75

- C. 105
D. 150

41. Find the greatest common divisor of 36, 54, 72

- A. 3
B. 9

- C. 18
D. 36

42. In plane geometry, we learned that _____ are points which lie on the same plane.

- A. coplanar lines
B. coplanar points

- C. collinear points
D. collinear lines X

43. Find the amount due at the end of 2 1/2 year if P 8,000.00 is borrowed at 12% simple interest.

- A. P 7,200.00
B. P 8,200.00

- C. P 9,800.00
D. P 10,800.00

$$FA = P + I \\ = 8000 + 2400 \\ = 10,400$$

$$I = Prt \\ = (8000)(0.12)(2.5) \\ = 2400$$

44. What is the simple interest on P 15,000.00 for 3 years at 8%?

- A. P 3,600.00
B. P 4,500.00

- C. P 5,400.00
D. P 6,300.00

$$I = Prt \\ = (15,000)(0.08)(3)$$

45. The Greatest Common Factor of 48 and 80 is _____

- A. 24
B. 16

- C. 8
D. 4

46. Among the measures of central tendency, which is not influenced by outliers?

- A. mean
B. mode

- C. median
D. weighted mean

47. The approximate shape of a sardines can is _____

- A. cylindrical
B. rectangular solid

- C. sphere
D. hemisphere

48. The fraction between 3/8 and 7/8 is _____

- A. 4
B. 2

- C. 3/4
D. 1/4

$V = l \times w \times h$
 $(2)(1)(.5)$

49. A wooden plank has dimensions 2 feet by 1 foot by 6 inches. What is its volume?

- A. 1 cubic feet
B. 1.5 cubic feet

- C. 2 cubic feet
D. 4.5 cubic feet

50. Find the greatest common divisor of 54, 81 and 189

- A. 9
B. 18

- C. 27
D. 36

51. A Toyota car travelling at a rate of 60kph. After 2 hours, a Kia car followed travelling at a rate of 90kph. How long before Kia overtakes Toyota?

- A. 4 hours
B. 5 hours

- C. 6 hours
D. 9 hours

52. 13 is GCF to which set of numbers

- A. {26, 52}
B. {26, 78}

- C. {39, 52}
D. {39, 108}

53. The ages of the dance workshop participants are: 7, 8, 5, 9, 12, 13, 13, 17, 15, 16. What is the median?

- A. 12
B. 12.5

- C. 13
D. 13.5

54. A shoe maker makes more size 9 shoes than any other sizes of the same design. Which measure of central tendency does he consider?

- A. mean
B. mode

- C. range
D. median

55. Which of the following is arranged in increasing order?

- A. $1/2, 2/5, 3/7, 4/9$
B. $1/8, 3/7, 2/3, 4/5$

- C. $7/8, 2/9, 5/7, 3/4$
D. $5/6, 1/4, 3/5, 2/7$

56. What is $4/5$ in percent?

- A. 60%
B. 70%

- C. 80%
D. 90%

57. What percent of 250 is 100?

- A. 10%
B. 20%

- C. 30%
D. 40%

58. John is planning to start a small business. He borrowed 500,000 pesos from the bank at a rate of 4.5% for 5 years. Find the interest that John has to pay.

- A. 110,150
B. 112,500
C. 115,750
D. 120,350

General Education

59. If $250 : x = 5 : 6$, then what is x ?

- Ratio $\frac{250}{x} = \frac{5}{6}$
 $250 \cdot 6 = 5x$
 $1500 = 5x$
 $x = 300$
- A. 270
 B. 300
 C. 320
 D. 350

60. In a class election, Alvin and Maria are competing for the position of class president. Alvin received 5 votes for every 3 votes that Maria received. How many votes did Alvin receive if 48 votes were cast?

- A. 6 votes
 B. 18 votes
 C. 22 votes
 D. 30 votes

$5x + 3x = 48$
 $8x = 48$
 $x = 6$

Part
five
Proport

61. Which of the following is divisible by 7?

- A. 1,735
 B. 2,094
 C. 3,651
 D. 4,802

62. The number 289,17k is divisible by 9 if k is _____.

- A. 6
 B. 7
 C. 8
 D. 9

63. What is $2 - (3^2 - 6) + 3 \cdot 4 + 5^0$?

- A. -3
 B. -1
 C. 0
 D. 4

Order of Operation

64. Simplify: $(x^2 - 3x - 4) - (4 - 2x)$.

- A. $x^2 - x - 8$
 B. $x^2 - 5x - 8$
 C. $x^2 - x$
 D. $x^2 - 5x$

65. What is $xy(2x^3 + 3y^2)$?

- A. $2x^3y + 3xy^2$
 B. $2x^4y + 3xy^3$
 C. $2x^4 + 3y^3$
 D. $2x^3y + 3xy^4$

66. The information highway is called _____.

- A. interchange
 B. internet
 C. ICT
 D. information technology

67. The acronym ICT stands for _____.

- A. inter-continental technology
 B. information and communications technology
 C. inter-change technology
 D. information concepts technology

68. The computer unit, cable, keyboard are referred to collectively as _____.

- A. work station
 B. software
 C. multimedia
 D. hardware

69. Anong disenyo ng pananaliksik ang nagsisiyasat gamit ang talatanungan o pakikipanayam?

- A. etnograpiya
B. feasibility study

- C. case study
D. sarbey

70. Ito ang naganap sa pambansang wika dahil pagdadagdag ng mga letrang f at v sa alpabetong Filipino.

- A. denotasyon
B. konotasyon

- C. asimilisasyon
D. modernisasyon = Cory Aquino

71. Ang Kautusang nagtatakda na dapat makakuha ng 6 na yunit ng Filipino ang lahat nang magsisipagtapos sa kolehiyo ay nagsimula noong _____.

- A. 1978
B. 1968

Bilingual na edukasyon
1974

- C. 1987
D. 1960

72. Anong katangian ng mahusay na pananaliksik ang nagsusuri sa mga nakalap na datos at mga sagot sa talatanungan upang mabigyan ng tamang interpretasyon?

- A. empirical = makatotohanan
B. lohikal

- C. obhektibong pananaw
D. kritikal na pagsusuri

73. Alin sa mga uri ng pangatnig ang nagpapakita ng pagpili, pagbubukod at pagtatangi?

- A. panapos
B. paninsay

- C. panlinaw
D. pamukod (o, ni)

74. Ang mga salitamg reyna, tanaw at bahay ay nagtataglay ng _____.

- A. klaster = kambal kahinig (klase, plato, kumot, braso)
B. pares minimal = (pala-bala, kuro, guro)

- C. diptonggo = magkakamang patinig (w/y)
D. ponema

75. Ito ang itinuturing na mahalagang salik ng Talumpati.

- A. magyabang
B. matikas na tindig

- C. malinaw na paliwanag
D. manggulat

76. Alin ang tumutukoy sa bilang ng pantig sa taludtod ng tula?

- A. talinghaga
B. sukat

Ama ng Sanaysay sa FI.
Alejandro Abadilla

- C. kariktan
D. tugma

77. Mayaman sa potassium ang saging. Alin ang panaguri sa pangungusap?

- A. potassium
B. ang

- C. mayaman
D. patatas

78. Ito ang pangatnig na nagbibigay ng karagdagan.

- A. kapag
B. hindi lang
C. at
D. kundi man

LET SPECIALIST

79. Nalikha at nabuo ang ang wikang ito sa pagsasama-sama ng mga salitang impormal at binigyan ng bagong kahulugan.

A. local

B. pampanitikan = pinakamataas

C. kolokyal

D. panlalawigan

80. Anong panlapi ang ginamit sa mga salitang "kinain", "sinangag" at "biniyak"?

A. unlapi

B. kabilaan

C. gitlapi

D. hulapi

81. Ito ang panlaping ginamit sa mga salitang "kagandahan", "magkaibigan", at "nagsumpaan".

A. laguhan

B. unlapi

C. kabilaan = una at huli

D. gitlapi

82. Alin ang katumbas na salin ng "You are the apple of my eye"?

A. katuwa-tuwa ka

B. masayahin ka pala

C. ikaw ay mahalaga sa akin

D. mansanas ang paborito ko

83. Ito ang bantas na ginagamit sa pagitan ng panlalaping ika at tambilang.

A. Kuwit

B. Panaklong

C. Gitling

D. Tuldok

84. Ito ay dulong pampanitikan na nagbibigay ng diin ng sariling panlasa ng bumabasa. Kilala rin ito bilang reader-response theory.

A. Impresyonista

B. Palatambuhay

C. Antropolohiya

D. Pansikolohiya

85. Sa anong antas ng pagbasa natuto ang isang tao na magbasa ng "between the lines". Ito ay antas na:

A. paktuwal

B. interpretative

C. literal

D. transaktib

86. Ito ang pinakamababang lebel ng wika na impormal na nalikha at nabuo sa pagsasama-sama ng mga salitang pinaikli o pinahaba.

A. Balbal

B. Pampanitikan

C. Lalawigan

D. Kolokyal

87. Piliin ang salitang walang diptonggo.

A. aliw

B. kulay

C. musika

D. sayaw

88. Which of the following steps is not a part of scientific method?

A. Interview resource persons in order to collect possible data

B. Make a guess about the answer to the problem and predict what will happen

C. Identify and state the problem

D. Perform the experiment to test prediction

89. Prokaryotic cells are different from eukaryotic cells because prokaryotes have

- ☒ A. Small ribosomes used for protein synthesis
- B. Nucleic acids found inside the nucleus
- C. Mitochondria that participate in cellular respiration
- D. Genome that is located in the nucleoid

90. What happens to a plant cell placed in a hypotonic solution?

- A. The plant cell will shrink
- ☒ B. The plant cell will swell

- C. The plant cell will rupture
- D. The plant cell will remain as is

91. What do you call the process that occurs during the first stage of decomposition after death, wherein the muscles become stiff or rigid?

- A. Algor mortis
- B. Livor mortis

- ☒ C. Rigor mortis
- D. Seizure mortis

92. Of the following microorganisms listed below, which one is considered non-pathogenic?

- A. Influenza sp.
- B. Probiotics

- C. Plasmodium falciparum

- ☒ D. Lacto bacilli

93. Decomposition is a process in which a substance is broken to make it useful in other processes. Which of the following organisms are capable of decomposing a substance?

- A. Autotrophs = Producers
- B. Heterotrophs = Consumers

- ☒ C. Saprotrophs = Decomposers
- D. Producers

94. Of the following consumers listed below, which one depends only on plants for existence?

- ☒ A. Herbivore
- B. Carnivore

- C. Omnivore
- D. Predator

95. Hemophilia is a common sex-linked disorder that is x-linked recessive trait. If a son in the family is hemophiliac, this means that

- A. He will have children with hemophilia
- ☒ B. He got the disease from his mother
- C. All his brothers and sisters will be hemophiliac
- D. None of his brothers and sisters will be hemophiliac

96. Carlo's father is an alcoholic, a chain smoker, and a gambler. Carlo, however, is a contrast because he does not drink, smoke nor gamble. What does this case prove?

- ☒ A. Values are inherited
- B. Values are genetically passed

- C. Values are acquired
- D. Values are elusive

97. Who was this English naturalist who hypothesized that evolution resulted from natural selection?

- A. Gregor Mendel = Genetics
- ☒ B. Charles Darwin = Evolution
- C. Carl Linnaeus
- D. D. D. Stevens

98. One of the characteristics of plants, being an organism, is the ability to respire. What gas is given off by the plants at night?
- A. Oxygen
B. Nitrogen
C. Carbon monoxide
☒ D. Carbon dioxide
99. Ecosystem is the interrelation between the physical and biological environment in a certain habitat. This is exemplified by which of the largest desert ecosystem in the world?
- A. Kalahari
B. Gobi
☒ C. Sahara
D. Chihuahua
100. What hormones in plants are responsible in promoting auxillary budding and apical dominance?
- ☒ A. Auxins and Gibberelins
B. Cytokinins and Gibberilins
C. Auxins and Abscisates
D. Cytokinins and Auxins
101. Two arbor trees, a mango and a tamarind were planted side by side in a certain location. While growing they both need sunlight for photosynthesis. What interaction is demonstrated by the two trees?
- A. Symbiosis
B. Commensalism
☒ C. Competition
D. Predation
102. If a person develops a masochistic tendency, he or she
- ☒ A. Finds pleasure in self-inflicted pain
B. Enjoys inflicting pain on others
C. Lives only for pleasure
D. Is ready to sacrifice for pleasure
103. A forest suffered from wildfires, however, the remains are still considered to be viable. Five years later, trees and other plants are seen growing in this forest. This condition is called
- ☒ A. Primary ecological succession
B. Secondary ecological succession
C. Tertiary ecological succession
D. Quarterly ecological succession
104. An ecosystem that suffered ecological imbalance can recover naturally through
- ☒ A. Ecological succession
B. Ecological evolution
C. Ecological balance
D. Ecological Niche
105. A simple hypothetical ecosystem consists of the following: worms, which are the primary consumers, feed on the cabbage, the producers. The small passerine birds, feeding on the worms are the secondary consumers and the lion acts as the tertiary consumer. A farmer arrives and sprays pesticides, killing all the caterpillars. What will happen to the organisms in the ecosystem?
- ☒ A. The lion will die
B. The passerine birds will thrive
C. The cabbage will wilt and die
D. The worms will still reproduce
106. The Kyoto Protocol is one of the international assemblies whose advocacy is environmental protection. Thus, this assembly requires the countries to participate in this advocacy by reducing
- ☒ A. Greenhouse emission
B. Photosynthesis
C. Acid rain
D. Reforestation

Bruntland = sustainable dev.

107. The following contribute to greenhouse effect, except

- A. Excessive release of polluted gases from vehicles and industrial plants
- B. Uncontrolled burning of wastes
- ☒ C. Birth control
- D. Natural and man-made forest fires

108. A razor blade can float on the surface of water because of

- ☒ A. Surface tension
- B. Capillarity

- C. Buoyant force
- D. Liquid pressure

cohesion = attraction of SAME molecules
Adhesion = attraction of DIFF. mol.

109. The continuous use of traditional energy like crude oil will result to its depletion in the near future. Because of this, together with other Asian countries help in solving this problem by

- A. Limiting industrial build up
- B. Lessening transport system

- ☒ C. Exploring alternative sources of energy
- D. Controlling population growth

110. Which sector of the economy consumes the most energy?

- A. Residential
- B. Electrical utilities

- C. Industrial plants
- ☒ D. Transportation

111. Which of the following statements is true?

- ☒ A. Light travels fastest in a vacuum while sound travels fastest in solid
- B. Light travels fastest in solid while sound travels fastest in liquid
- C. Both light and sound travel fastest in a vacuum
- D. Both light and sound travel fastest in solid

cannot travel w/out a medium.

112. What type of magnetic material is iron?

- A. Diamagnetic
- B. Paramagnetic

- C. Non-magnetic
- ☒ D. Ferromagnetic

113. The prize money which you won in a lottery can be paid only in gold, instead of cash. Based on what you learned in chemistry, which of the following has the largest amount of gold?

- A. 300 grams of gold
- ☒ B. 50 kilograms of gold

- C. 20 moles of gold
- D. Avogadro's number of atoms of gold

1,000 g = 1 kg

114. The chemical equation $AB + \text{Energy} \rightarrow A + B$ is an example of

- A. ~~Exothermic decomposition~~
- B. Exothermic synthesis

- ☒ C. Endothermic decomposition
- D. Endothermic synthesis

releases

absorbs

115. Sterling silver which is an alloy of copper in silver is considered to be a

- ☒ A. Solid-solid solution
- B. Solid-liquid solution

- C. Solid-gas solution
- D. Liquid-liquid solution

116. How many phases does the moon pass during one complete revolution around the earth?

- A. 3
- B. 4

- C. 6
- ☒ D. 8

new cre. Wax Gibus Full

Gibus & w. cre

117. What term is given to the surface of the earth between the tropic of cancer and the equator?

- A. Mars
B. Meridian
C. Zone
D. Solstice

118. Nelson Mandela, was a Black leader of multi-racial South Africa who helped end the country's apartheid system of racial segregation. He led a peaceful transition thru civil disobedience and non-violence until he became South African president on 1994. This has earned him Nobel Peace Prize together with Frederik W. de Klerk. In what year was it awarded to them?

- A. 1993
B. 1991
C. 1992
D. 1994

119. He was known for his passionate writings directed against the Spanish friars. Among his writings include Dasalan at Tocsohan and La Frailocracia Filipinas which contradicted Los Frailes en Filipinas. In La Frailocracia Filipinas, he satirically exposed the hidden control and domination of Spanish religious priests on the colonial government.

- A. Jose Rizal
B. Marcelo H. Del Pilar = most active
C. Graciano Lopez-Jaena
D. Antonio Luna

120. What is true about the Philippines in terms of the claim that she is the 'only Christian country in Asia'?

- A. The Philippines is the 5th largest Christian country in the world with 90% of its adherents belong to Roman Catholicism and Cristian denominations.
B. The Philippines had been converted to Christianity as early as 16th century under the rule of Spain.
C. The Philippines observes Christian festivals from the birth to death of Jesus Christ.
D. all of the choices

121. In the perspective of adult learning theory, which occupies the lowest form of learning?

- A. responding
B. perceiving
C. conditioning
D. teaching

122. The declaration of Philippine Independence was held on June 12, 1898 at the ancestral house of President Emilio Aguinaldo. Which event did not happen during that time?

- A. the unfurling of the flag of the Philippines
B. the performance of Marcha Filipina Magdalo as the national anthem
C. San Francisco de Navotas was the marching band who played the national anthem
D. none among the choices

123. The 64th United States Congress enacted the Jones Law that changed the Philippine Legislature into bicameral congress that composed of the Lower House (House of Representatives) and Upper House (Senate). The Jones Law changed the 1902 Philippine Organic Act, specifically the Philippine legislature. What was the former name of the lower and upper house under the Philippine Organic Act of 1902?

- A. Lower House (Philippine Commission), Upper House (Philippine Assembly)
B. Lower House (Philippine Assembly), Upper House (Philippine Commission)
C. Lower House (Philippine Delegates), Upper House (Philippine Representatives)
D. Lower House (Philippine Congregation), Upper House (Philippine Deputy)

124. This field studies the human mind and its wide-ranging functions and influences that advances our understanding of human emotion, personality, intelligence, memory, perception, cognition and motivation.
- A. ethics
☒ B. psychology
 C. morality
 D. philosophy
125. Hate crime is a prejudice-motivated crime in which perpetrators target any individual because of his/her membership to certain groups. Those who demonstrate such hate due to membership due to physical or social qualities are guilty of:
- A. individualism
 B. economic prejudice

☒ D. salvage
- Handwritten notes:*
 savery - barbarism - civilization - refinement
 cultural evolution (Lewis Henry Morgan)
 beast - brutes / unrefined
129. Under Article V of the Philippine Constitution, the right to suffrage allows:
- A. qualified Filipino citizens to vote and run for public office
☒ B. qualified Filipino citizens to vote only
 C. qualified Filipino citizens to run for public office only
 D. qualified Filipino citizens to not exercise their rights at all
130. who was the founder of Philippine Educational Theater Association (PETA) that initiated the use of national language and mother-tongues, and of historic locales as performance spaces.
- A. Pura Castrence
☒ B. Cecile Guidote Alvarez
 C. Naty Rogers
 D. Carmen Nakpil

131. "In order to believe that God exists one must understand the claim that God exists. The belief cannot precede that understanding. In order to accept (or reject) an argument for God's existence, one must have some grasp of the meaning of the conclusion." Who was this philosopher that was very adamant on proving and understanding the existence of God?

- A. St. John
B. St. Benedict

- ☒ C. St. Augustine
D. St. Peter

City of God

132. In the chronicles of Pigafetta, the first mass was held in the Philippines on Easter Sunday March 31, 1521 at what he called, the shores of 'Mazaua'. Where is this located in the map of the Philippines?

- ☒ A. Southern Leyte
B. Northern Samar

- C. Eastern Samar
D. Bohol

133. In this type of cooperative, the farmers could sell their agricultural produce that include rice, crops, livestock and fuel products.

- A. service cooperative
☒ B. producers cooperative

- C. credit cooperative
D. multi-purpose cooperative

134. Private lands could be taken by the government for public use (e.g., for road and bridge improvement) but with appropriate and just compensation according to fair market value from the owner of the property.

- A. right of way
☒ B. expropriation right - *Private to Public*

- C. public domain
D. taxation

3 Powers of State
1. Collect tax
2. Police Power
3. Power of Eminent Domain

135. The Pacific Ring of Fire is at the basin of the Pacific Ocean where many earthquakes and volcanic eruptions occur. Which among the following countries does not belong to the Pacific Ring of Fire?

- A. New Zealand
B. Mexico

- C. Chile
☒ D. Taiwan

136. One of the battle cries of the Philippine Revolution is the recognition of the Filipino clergy. This has led Fr. Aglipay to actively fight towards the Filipinization of the Catholic Church. What do you call that religion that exists up to the present time?

- A. United Church of the Philippines

- ☒ A. "A good teacher makes you think even if you don't want to."
 - ☒ B. "A teacher affects eternity, no one knows where his influence stops."
 - C. "A teacher is like a candle which consumes itself to give light to others."
 - D. "A good teacher can inspire hope, ignite the imagination, and instill a love of learning."
34. So that there would be no gap between the teacher's words and deeds, the teacher must exemplify certain distinguishable characteristics. The most personal of which is _____.
- ✗ A. to be tolerant of others
 - ✗ B. to engage in socio-civic projects
 - ✗ C. to keep an open mind
 - ☒ D. to monitor one's own behavior
35. Teacher V allowed her SHS students to read books that she had also used when she was a student. With this, what philosophy does she believe in?
- A. Behaviorism
 - B. Essentialism
 - C. Existentialism
 - ☒ D. Perennialism
36. Which of the statements below is TRUE about Abraham Maslow's Hierarchy of Needs?
- ☒ A. There is a hierarchy of needs.
 - B. The need of a person are all growth needs.
 - C. A need must be satisfied 100% before the next need emerges.
 - D. A higher need cannot be satisfied when the lower need is fully satisfied.
37. Which of the major learning theories defines learning as the changes in what people say or do?
- A. Social theories
 - B. Cognitive theories
 - ☒ C. Behavioral theories
 - D. Field and Gestalt theories
38. Which of the following skills in learning necessitates the use of metacognition?
- A. Problem solving
 - B. Independent learning
 - C. Factual and concrete thinking
 - ☒ D. Monitoring own comprehension
39. If Teacher Myrna gives prime importance to her learners' individual differences, which of the following teaching practices will she use?
- A. Applying two sets of different standards.
 - B. Preparing two different sets of examination, one for the fast learners and another for slow learners.
 - ☒ C. Allowing children to show that they learned the stages of mitosis in a way where they feel most comfortable.
 - D. Allowing children to show that they learned the stages of mitosis in a way where they feel most comfortable, except by lecturing.

40. All learners are unique in their own way. Which of the following classroom practices promotes student diversity?
- A. Compare students.
 - B. Do homogenous grouping for group activities.
 - C. Develop different standards for different student groups.
 - ☒ D. Make use of a variety of teaching and assessment methods and activities.
41. When students of Miss Rebecca were asked to remember the learning objectives and frequently assess their own progress with respect to the learning objectives, what level of processing did Miss Rebecca expect her students to use?
- A. Cognitive
 - B. Self-system
 - ☒ C. Metacognitive system
 - D. Between cognitive and metacognitive system
42. Which of the following thinking skills BEST relates to metacognition?
- A. analytical thinking of parts of information ✗
 - B. profound thinking of "what," "who" and "where" ✗
 - ☒ C. reflective thinking on the "how" of one's learning
 - D. direct thinking of the "what" about facts and figures ✗
43. During early stage of development, a toddler would start to build some basic concepts in his mind, like the idea of a dog or cat, food or toy. According to Piaget, these basic cognitive concepts are known as ____.
- assimilation is not successful*
comes when = modification of schema/ adding of new knowledge
if assimilation is successful
- A. Accommodation
 - B. Assimilation = *use of schema to given st.*
 - C. Equilibrium
 - ☒ D. Schema
44. When people are now engaged more than ever in the saving of the environment amidst climate change and other pressing environmental issues, they already have high aptitude for ____ thinking.
- PRE-OPERATIONAL*
abstract
conservation = amt. remains the same even if the appearance changes.
decentering = ability to consider multiple aspects of a sit. + CONCRETE OPERATIONAL
reversible
FORMAL OPERATIONAL
- A. abstract
 - B. conservation
 - C. decentering
 - ☒ D. reversible
45. Which of the following learning activities under Social Studies will NOT fit the cognitive level of junior high school students?
- A. essay writing on a social issue
 - ☒ B. use of drawings and illustrations
 - C. consideration of the hypothetical "other world"
 - D. discussion on varied issues that divided the country then
46. Which of the following is an implication of Piaget's early stages of cognitive development so that young learners develop their language and learning skills especially during preschool?
- A. Take field trip.
 - B. Discuss what they see on television.
 - ☒ C. Use words to describe what is seen, touched, hear, etc.
 - D. Reward students who are models for the rest of the class.

Professional Education

47. Which of the following statements pertains to Erikson's concept of "industry"? *= feeling of competence mastery of skills*
- I am embarrassed at what I do.
 - I avoid the difficult to succeed.
 - ☒ I get pleasure in my doing things.
 - I don't know what I want to do in life.
48. Which of the following statements relates to Erikson's concept of "intimacy"? *vs. Isolation*
- ☒ I feel that no man is an island.
 - I keep private thoughts to myself.
 - I want to be free and uncommitted.
 - I like to be alone and quiet by myself.
49. According to Erikson, fanaticism is a maladaptive trait which is developed from having too much ego-identity. As such, the person believes that his way is the only way and that he has no room for tolerance towards others. Which of the following great personalities best demonstrated the right balance of ego identity by emancipating the black people in America?
- Abraham Lincoln *= ended the slavery*
 - George Washington
 - John F. Kennedy
 - ☒ Martin Luther King *= ended up the discriminating of white men & black men*
50. Pavlov's classical conditioning emphasizes the adhesion of stimulus and response to control an animal or a person's behavior. Which of the situations indicate the application of behaviorism in school setting?
- announcing dean's listers
 - ☒ engaging students in discussion
 - posting honor roll in bulletin boards
 - giving rewards for school achievement
51. Lev Vygotsky underscores _____ that opens the door for learners to acquire knowledge, thereby fostering their cognitive development.
- activities *= Piaget*
 - classroom
 - ☒ language
 - lessons
52. Skinner propounded the notion that learning is a result of change in overt behavior caused by the events that occur in the environment such as school. *external*
- Shaping of Behavior *= reinforcing small steps on the way to desired outcome*
 - ☒ Operant Conditioning
 - Behavioral Chaining *= more complex*
 - Reinforcement Schedules
53. Verbatim note taking has been proven to be ineffective and inefficient for students who want to learn from class discussion. The word verbatim means _____.
- outline
 - paraphrase
 - systematic
 - ☒ word-for-word
54. Pavlov's idea of behavioral conditioning may apply to _____ adopted by classical education but no longer applied by liberal and progressive education.
- test and quizzes
 - examinations and feedback
 - ☒ punitive measures
 - monitoring and assessment

*Tyler - Mission & vision
→ deductive*

55. Among major school of learning theories, which see how learners thinks, reasons and transfers information to new learning situations?

- A. Social theories
- B. Field and Gestalt theories
- C. Behavioral theories
- ☒ D. Cognitive theories

56. To what philosophy is the cumulative, ladder-like sequencing of curriculum based?

- ☒ A. Essentialism = *content-based/sequencing*
- B. Perennialism = *reasoning, thinking, history*
- C. Progressivism = *based on needs*
- D. Social Reconstructivism = *need for future*

57. What is the fundamental element of every school?

- ☒ I. Curriculum
- II. Instruction
- III. Research
- IV. Syllabus

58. Every school should provide a vision-mission statement to advance a common mission. The vision-mission must be supported by the following elements, EXCEPT:

- A. core organizational values
- ☒ B. institution's history
- C. long-term objectives
- D. school's ideals

59. The following are narrow definitions of curriculum, EXCEPT:

- + A. Curriculum is a list of courses to take in order to finish a program
- + B. Curriculum is a set of subjects for a particular course, training or seminar
- + C. Curriculum is based on the philosophical, legal, and sociological foundations.
- ☒ D. Curriculum is the sum total of all learning experiences in the teaching-learning process.

60. Which of the following processes in curriculum development comes second?

- A. Evaluating education experiences
- B. Identifying learning goals and aims
- C. Organization of learning experiences
- ☒ D. Selection of educational content

61. The primary consideration in identifying valid learning experiences for the learners is:

- A. Competence of the teachers
- B. Lesson objectives and goals
- C. Materials and resources available
- ☒ D. Nature of the learners

62. Curriculum can be defined traditionally and progressively. What does this prove of a school curriculum? The curriculum is... *Udd - Wiggins & Mott*

- A. based on those defined by experts
- B. characterized as fragmentary and confusing
- ☒ C. defined from different perspectives
- D. limited and narrow in scope

63. The subject-centered design model of a curriculum is regarded as interdisciplinary. This means all of the following statements, EXCEPT:

- ☒ A. Teaching in this design corresponds to the textbook written specifically for the subject.
- + B. The focus may be on broad field topics that touch on a wide variety of disciplines.
- + C. The goal of teaching is for students to be critical consumers of information across areas.
- + D. Identification of accompanying intellectual disciplines is the task of teacher in this model.

64. The teacher started his pre-lesson with the explanation of outcomes he expects his students to achieve at the end. This curriculum approach is on:
- A. Curriculum as a body of knowledge
 - B. Curriculum as an integration
 - C. Curriculum as a process
 - ☒ D. Curriculum as a product
65. A progressive curriculum can be characterized by the following statements, EXCEPT:
- ☒ A. Focused on experiences of students and supervised by the teacher
 - ☒ B. Focused on knowledge that comes from various disciplines
 - ☒ C. The classroom is only one place for the students to learn; learning can take place anywhere
 - ☒ D. Took into account all curricular elements and tested these elements through real-life application
66. What type of curriculum is described if we consider choice of books and utilization of learning materials?
- A. Assessed Curriculum
 - B. Hidden Curriculum
 - C. Recommended Curriculum
 - ☒ D. Supported Curriculum
67. Which of the following analogies is NOT correct in terms of curriculum designs:
- A. Learner-centered : students' needs
 - B. Problem-centered : life situations
 - C. Subject-centered : disciplines
 - ☒ D. Subject-centered : humanistic
68. Curriculum may be defined in many ways. What does this prove?
- A. The curriculum is characterized as fragmentary, elusive and confusing
 - B. The concept is limited and narrow in scope
 - C. The concept of curriculum is based on those given by experts.
 - ☒ D. The concept of curriculum may be defined from different perspectives.
69. In the view of curriculum as a process, what should the teacher consider primarily when designing lesson procedures?
- A. different modes of assessments
 - B. national competencies
 - C. outcomes-based learning objectives
 - ☒ D. various methods and strategies
70. You were asked to describe curriculum by listing questions to be answered by it. The following questions can be listed, EXCEPT:
- B.P. 232 (Education Act of 1982)*
- ☒ A. What courses are important to take?
 - ☒ B. What outcomes should be achieved at the end?
 - ☒ C. What qualifications should teachers have in school?
 - ☒ D. Who will benefit from well-organized learning experiences?
- Components of Curriculum*
 Aim, Goals & Obj.
 SM / Content
 LE - Learning Experience
 Assessment
71. The stakeholders have a great role in curriculum development. The following are these relevant roles, EXCEPT:
- ☒ A. Design lessons in curriculum planning and implementation
 - ☒ B. Help in formulating the appropriate learning experiences
 - C. Imbibe an environment for child's holistic development
 - D. Participate in curriculum implementation and evaluation
- Learner = is the center of the curriculum*

72. Why curriculum evaluation is important aspect in curriculum development?

- A. To answer the changing needs of the learners and society
- B. To identify which parts of the curriculum needed to be modified
- C. To keep up with the changing times
- ☒ D. All of the above

73. When is the right time to evaluate the curriculum?

- ☒ A. Every quarter
- B. Practical Ideas Every year = regularity of evaluation
- C. When DepEd calls for it
- D. When somebody suggests it

74. What is the basis of evaluating curricular programs rather than mere quantifiable data?

- A. Human judgment
- B. Live observations
- ☒ C. measurable estimates
- D. sense perceptions

↳ scores of students

75. In curriculum designing what major third element should be aligned with lesson objectives and methods?

- A. Time-frame
- B. Activities
- C. References
- ☒ D. Assessment

76. SMART is the classic foundation by which teachers follow when writing learning objectives. The in the SMART is _____

- ☒ A. Realistic
- B. Rational
- C. Reachable
- D. Right

77. SMART is the classic foundation by which teachers follow when writing learning objectives. The in the SMART is _____

- A. Attractive
- B. Admissible
- ☒ C. Attainable
- D. Artistic

78. Teacher Marissa started the lesson without a proper introductory orientation. What learning principle is violated in the situation?

- A. she failed to make the students listen -
- B. she failed to give a pre and post test -
- ☒ C. she failed to connect the present lesson to the previous one +
- D. she failed to provide proper device -

79. What learning principle is practiced when teacher Ela relates the lesson to the social milieu and experiences of her students?

- A. learning should start with clear understanding of the scope
- B. learning is unique to each student
- ☒ C. learning is the discovery of personal meaning
- D. learning is evolutionary

80. Teachers create lessons to allow students to question their own thinking to increase their critical thinking skills. These kind of lessons are also known as
- A. skills lesson
 - B. affective lesson
 - ☒ C. metacognitive lesson
 - D. cognitive lesson
81. Certain criterion must be observed when providing students with certain website links. When teacher evaluates a website specifically the veracity and truthfulness of facts presented in the website, this criterion is known as
- ☒ A. accuracy
 - B. appropriateness
 - C. motivation
 - D. clarity
82. Teacher Noel creates a classroom environment wherein lessons are connected to real life activities and tasks. A lesson in geometry is connected with architecture and art. This teaching-learning practice is known as
- A. constructive
 - B. reconstructive
 - C. collaborative
 - ☒ D. inter-disciplinary
83. Teacher Paula facilitate the lesson towards the "formulation of a personal philosophy of education" among her students. Using the Bloom's taxonomy, this lesson is functioning in which level of cognitive process?
- A. assessing
 - B. analyzing
 - C. evaluating
 - ☒ D. creating
84. Which among the following follows an inductive principle?
- A. it starts from universal principle to concrete facts of knowledge
 - B. it combines universal laws and principles
 - C. it is drawn from universal laws of the mind
 - ☒ D. it starts from observable facts to universal thought
85. Effective teaching focus on "how" the students learn rather than "what" they learn. Which among the following exemplifies this principle?
- ☒ A. knowing how to solve an arithmetic problem
 - B. determining the facts
 - C. solving the problem with precision = accuracy
 - D. comparing possible solution
86. Which among the following shows the highest cognitive skills using the Bloom's Taxonomy of Cognitive domain?
- A. applying
 - ☒ B. creating
 - C. analyzing
 - D. evaluating
87. Which among the following does not encourage effective brainstorming activity?
- A. factual and concrete thinking
 - B. monitoring own comprehension
 - ☒ C. teacher's judgmental attitude
 - D. making use of other's ideas shared

KEHOME EXAM

Andragogy
- adult
pedagogy
- child

Professional Education

88. Teacher Evangeline would like her students to develop their skills to organize ideas, which one is the most effective?

- A. histogram = graph
- B. graphic organizer
- C. venn diagram
- D. kwl technique

89. Tolerance as a thinking skill means

- A. ability to maintain distinctions among facts
- B. ability to deal with unclear information without frustration
- C. ability to place information into categories
- D. ability to integrate complex information

90. All of the following are non-verbal praises that a teacher can use in the class EXCEPT:

- A. raising of eyebrow
- B. thumbs up signal
- C. winking
- D. shaking head

91. Which simulation technique is the most effective when teaching students political exercises?

- A. assign students to report political news in front of the class
- B. set a mock election for the student council
- C. invite politicians during graduation
- D. make students create political poster

92. Teacher James would like his students to develop critical thinking skills. Which of the following manifest this?

- A. believing
- B. estimating
- C. guessing
- D. opinionating

93. During the process of critical thinking, student can question to clarify an issue or problem. Which one manifest this?

- A. where did the problem arise?
- B. what is the issue for discussion?
- C. when did this happen?
- D. what is the main point?

94. This teaching technique operates on the principle "I am what I am".

- A. forum
- B. brainstorming
- C. buzz session
- D. role playin

95. Teacher Jenny facilitates development of students through dialogue and questioning. What kind of teacher is she?

- A. pragmatic = based on facts
- B. inspiratory
- C. interactive
- D. explanatory

96. There are different ways to transfer learning. Which among the following describe transfer of learning by which the teacher allows the students to do a field trip in Meycauayan Bulacan to interview goldsmiths and silversmiths?

- A. inquiry style
- B. concept style
- C. utilization style ✓
- D. learner style X

97. To achieve critical thinking, all endeavor can be done except
- A. grouping and classifying
 - ☒ B. guessing and believing
 - C. associating and grasping principles
 - D. preferring and evaluating
98. Teacher Fidel would like his students to internalize and follow classroom rules. Which of the following shows a positive sign that students have achieved the goal?
- A. the learners know the punishments for not following the rules
 - B. the teacher clearly explain the rules she prepared
 - ☒ C. the learners participate in the rule making process
 - D. the teacher gives additional points for those who follow the rules
99. Teacher Kenneth provides feedback to students, analyzes their work and diagnosing their errors. What kind of teacher is teacher Kenneth?
- A. inspirational
 - B. explanatory
 - ☒ C. student-centered
 - D. teacher-centered
100. One of the principles of learning is the use of more senses for better learning. Which of the following practice is aligned with this principle?
- A. teach using mostly verbal symbol
 - ☒ B. bring students to field trips
 - C. employ cooperative learning
 - D. invite parents as resource speaker
101. Learning is emotional as well intellectual. Which among the following applies?
- A. be emotional when teaching
 - ☒ B. touch student's emotion when teaching
 - C. spice class with sense of humor
 - D. make the subject difficult so students will remember and learn
102. Teacher Arnie carefully word his questions to dig deeper into the mind of his students. His style of questioning can be called?
- ☒ A. probing = dig deeper
 - B. prompting = guided by the teacher (questions)
 - C. non directed = give questions to every one
 - D. rhetorical = obvious answer
103. Learning is a cooperative and collaborative process. Which activity promotes this?
- A. giving a drill in Math
 - B. answering in chorus
 - ☒ C. group work in Science
 - D. conducting survey
104. The teacher asked the question, pause for a while then call on a student. Is this a sound practice?
- A. no, it takes so much time
 - B. yes, it makes the teacher looks more glamorous
 - C. no, it does not motivate the learners to respond
 - ☒ D. yes
105. Abstraction denotes _____ in the 4A's approach of facilitating learning
- A. specific ideas
 - B. concrete ideas
 - ☒ C. general ideas
 - D. reticence

106. Teacher Beth would like to make his classroom a place of vigor, light and life. Which of the following must be added?
- A. composure
 - B. interesting uniform
 - ☒ C. presence
 - D. reticence
107. Learning is an active process. Teacher May clearly show this by
- A. providing lots of resources
 - ☒ B. making his students learn by doing
 - C. allowing slow students extra time to catch up
 - D. include movements for better understanding
108. Among the following, which will help Teacher Candy produce a conducive learning environment?
- A. genuine praises
 - B. long assignments
 - ☒ C. cooperative learning
 - D. individual competition
109. According to Piaget, when new information or experiences causes the child to modify his/her existing schema this is called
- ☒ A. accommodation
 - B. assimilation
 - C. schematization
 - D. equilibrium
110. Learning is evolutionary. Which one is an application of this principle?
- A. students are doing cooperative work
 - B. students are actively engaged
 - C. students learn and solve problem uniquely
 - ☒ D. students increase knowledge as time goes by
111. Which of the following activities involves more senses of the learners?
- ☒ A. demonstration
 - B. exhibit
 - C. study trips
 - D. lecture
112. A grade 9 social studies teacher asked the learners to work with other grade 9 students from the campuses in Manila, Bicol and Cebu. Their project is to create a documentary film that will promote peace. They will be using social media to raise awareness about their peace campaign. What is the level of technology integration involved in this activity?
- A. entry - active
 - B. transformation - constructive
 - ☒ C. adaptation - collaborative = facilitator
 - D. adoption - constructive = teacher
113. Teacher Levi found a mobile app that he can use in teaching Mathematics. He ensures that the app is good in appearance, arranged according to level of difficulty, and the icons accurately represent what it intends to represent. Which criteria is he considering?
- ☒ A. accuracy
 - B. organization
 - C. appropriateness
 - D. motivation

114. Mrs. Maricar, a grade 10 Science teacher is checking whether the app covers the standard competencies in the curriculum guide prescribed by DepEd, and the content is not too easy nor too difficult for her students. Which criteria is he focusing?

- ☒ A. currency
- ☐ B. appropriateness
- ☐ C. accuracy
- ☐ D. organization

115. Which of the following shows computer literacy?

- ☐ A. spending overnight in gaming and downloading materials
- ☐ B. use of computer for a specific task
- ☒ C. fundamental knowledge and experience in using computers
- ☐ D. knowledge and skill in computer programming

116. In teaching war pollution and poverty, Teacher Mel utilized photographs. What is the main benefit of using such instructional material?

- ☐ A. increases interest
- ☐ B. emotional impact
- ☐ C. persuades students to participate
- ☒ D. provides experience of the problem

117. What could schools do to avoid using textbooks as sole instructional material due to its poor preparation in subject matter?

- ☐ A. training about professionalism
- ☒ B. training in preparing instructional materials
- ☐ C. regular meeting on subject content
- ☐ D. change the school organization

118. The following are the responsibilities of an educational technology center of a school, except:

- ☐ A. design training for teachers in mobile- app learning
- ☒ B. create the technology projects of the students
- ☐ C. provide technology equipment for students and teachers
- ☐ D. collaborate with teachers about technology research and projects

119. Massive Open Online Courses (MOOC) are open because:

- ☐ A. it is open to anyone's ideas
- ☐ B. it is only available during the opening of the school year
- ☐ C. it can be accessed for free
- ☒ D. it can be accessed by anyone anytime and anywhere as long as they have internet connection.

120. It is the term used to describe the search for articles through accessing various databases in a computer connected to other computer via telephone line. Computer search only

- ☐ A. compact disc search
- ☐ B. computer search
- ☒ C. online search
- ☐ D. manual search

121. Which learning episode involves a purposeful, clear, well organized collection of students' work?

- ☐ A. essay
- ☐ B. field study report
- ☒ C. portfolio
- ☐ D. reflection

122. Teacher Anthony provided his students with an analytic rubric as a guide for them to check if their journalism project- an edition of their campus paper meets the criteria before they submit the work. The practice best supports _____.
- A. assessment of learning
B. assessment of and for learning
☒ C. assessment as learning = *self-assessment / formative (formative) met cognition*
D. assessment for learning
123. The students of Mrs. Francisco are using a scoring rubric to assess their own work and decide on what further improvement they can do. What level of thinking in the Bloom's taxonomy is this?
- ☒ A. evaluating = *making judgment*
B. synthesizing = *putting together*
C. applying = *transferring what you know*
D. analysing = *breaking down*
124. Which of the following types of objective test items is considered to be the most basic and often involves plain recall of information?
- ☒ A. completion = *fill in the blanks*
B. alternate response (T/F)
C. multiple choice
D. matching type
125. To ensure that a standardized test covers the subjects or courses in a school, district or region is to ensure that the test has _____ validity.
- ☒ A. curricular
B. criterion / *concurrent*
C. predictive
D. construct
126. Teacher Charlene ensures in her subject that she handles have items that adequately reflect subject content. The test then has _____.
- A. curricular validity
B. criterion validity
C. predictive validity
☒ D. content validity
127. In planning an achievement test, which should you do first?
- A. Construct a TOS
B. Select the type of test
C. Decide on the length of the test
☒ D. Identify the instructional objectives
128. Teacher Geli's class is mostly composed of the top students in her municipality. The distribution of their test scores will most likely be _____.
- A. skewed to the right
B. platykurtic = *homogeneity of scores*
C. very normal
☒ D. skewed to the left = *leptokurtic - thin & tall*
129. Which kind of multiple choice type question is : "Charles Babbage is considered to be (a) father of modern computer (b) international statesman (c) father of the internet (d) pioneered e-learning
- A. Application of a concept
B. Application of a formula
☒ C. Simple knowledge
D. Assessment of an issue
130. In the following example of a test item, which guideline is NOT observed?
- "Jose Rizal wrote _____"
- A. There is no problem in the stem
B. The blank is at the end of the question
☒ C. It is open to more than one correct answer
-D. The length of the blank suggest the answer

131. What type of multiple type item is this: 'The central Luzon is considered to be the rice granary of the Philippines. For the region to further advance its economic development, which is best? (a) focus on agriculture production (b) pursue industrial development (c) focus on tourism (d) focus on finance and banking'.
- A. Assessment of a problem
 - ☒ B. Application of a concept
 - C. Simple knowledge
 - D. Application of a formula
132. Which of the following essay topics best assess originality and higher order thinking skills?
- A. Highlights of the Philippine presidencies
 - ☒ B. Facets of Filipinism today
 - C. Post-EDSA human rights issues in the Philippine democracy
 - D. The national hero as a patriot
133. Distractors in a multiple choice type test item are _____.
- A. test focus
 - ☒ B. incorrect choices
 - C. item additions
 - D. answer keys
134. A teacher is trying to assess her students' prior level of knowledge and skills as starting point in setting up her lessons. She needs to do a _____.
- A. diagnostic evaluation
 - ☒ B. placement evaluation
 - C. summative evaluation
 - D. program evaluation
135. A teacher is planning to require a portfolio to determine outcome from intended objectives. Which type of portfolio is best?
- A. Development portfolio
 - B. Showcase portfolio
 - C. Evaluation portfolio
 - ☒ D. Assessment portfolio
136. Teacher Angela is using assessment to determine whether her students are improving and whether they are on track towards mastery of the lessons. Which type of assessment best describes this?
- A. Summative
 - ☒ B. Formative = *assessment of (students)* *assessment for as -*
 - C. Indirect
 - D. Direct
137. Observations, although considered to be non-measurements, needs to be as objective as possible. This is done with _____.
- A. memory or recall
 - B. hunches or guesses
 - C. common sense
 - ☒ D. written notes or records
138. In K-to-12, how many failures will mean retention in the same Grade level?
- A. Failure in all learning areas
 - ☒ B. Failure in at least 3 learning areas.
 - C. Failure in 1 learning area
 - D. Failure in three learning areas.
- Guide for Instruction (Teacher)*

139. What will happen to James, a grade 4 student, if he failed in two learning areas?

- ☒ A. Undergo remedial classes for failed areas
- B. Retained in the same grade level
- C. Promoted to the next grade level with back subjects
- D. Placed under probationary period

140. Teacher Anne observed that her students were linguistically intelligent. Which tool for assessment would be best suited?

- ☒ A. Book report
- B. Building a model
- C. Music listening
- D. Field observation

141. Which practice would ensure fairness of a criterion-referenced test?

- A. Ensure clarity of instructions
- B. Add items with similar content
- C. Improve scoring procedures
- ☒ D. Align items with learning objectives

standards
Norm referencing comparing the scores w/ other

142. To ensure that grades are meaningfully reported, which must be done?

- A. Announce names of students who need remediation
- B. Console parents whose children are non-performing by telling them that nobody fails
- ☒ C. Rank the report cards from highest to lowest then distribute according to rank
- D. Explain how grades were computed

143. When reporting grades vis-a-vis K to 12, what is/are essential to tell the parents?

- I. That grades give a picture of students' performance
- II. That grades compare students' performance against the established standards
- III. That grades compare a student's performance against other student's performance

- A. III only
- B. II only

- ☒ C. I and II
- D. I, II and III

144. What is the cut-off score so that he/ she can land in the DepEd Registry of Qualified Applicants?
