

FINAL COACHING GOOD LUCK!!!!

What is the name of the very first library in the world?

- a. Beijing Imperial Library
- b. Ashurbannipal Library•••••
- c. UST Library
- d. Alexandria Library

DNA means?

- A. Data nurturing analysis
- B. Deoxytribonucleic acid
- C. Deoxyribonucleic acid•••••
- D. Deotrixy nucleic acid

PRACTICE TEST FOR PROFESSIONAL EDUCATION

1. The child fainted in your class because she has not eaten her breakfast. What is the best thing for you to do in this situation?

- a. Ignore the situation
- b. Comfort the child
- c. Give the child food•••••
- d. Call the parent

2. Who perpetuated the idea that reason is superior to experience as a source of knowledge, thus schools must develop human reason?

- a. Humanist
- b. Stoics
- c. Hedonists
- d. Rationalists•••••

3. Faith, hope, and love are values now and forever whether they will be valued by people or not. Upon what philosophy is this anchored?

- a. Idealism•••••
- b. Existentialism
- c. Realism
- d. Pragmatism

4. When teachers are convinced that it is best to teach students the skill to adapt to change since change is the only thing permanent in this world, they subscribe to the philosophy of

- a. Realism•••••
- b. Existentialism
- c. Pragmatism
- d. Idealism

5. The old adage "Do not do to others what you want others do to you" is a teaching of

- a. Lao Tse
- b. Confucius•••••
- c. Mohammad
- d. Buddha

6. If the student is encouraged to develop himself to the fullest, which of Maslow's hierarchy of needs should be satisfied?

- a. safety needs

b. Physiological needs

c. Belongingness

d. Self actualization•••••

7. Which is unethical for teachers to do?

- a. obeying the legitimate policy of the school administration
- b. cordial relation parents
- c. refusing to serve in worthwhile neighborhood activities as these will adversely affect her teaching
- d. conferring with the next of kin about the problems and needs of a student•••••

8. Which characteristic of a good test will pupils will assured of when a teacher constructs a table of specification for test construction purpose?

- a. Scorability
- b. Reliability
- c. Economy
- d. Content validity•••••

9. Which of the following is the most important contribution of Gestalt psychology to the theories of learning?

- a. Cognitive insights
- b. Use of the multimedia approaches•••••
- c. Concept of readiness
- d. Importance of reinforcement in the learning process

10. Which of the following could produce more than one value?

- a. mean
- b. mode•••••
- c. median
- d. mean of grouped data

11. Which statement on test result interpretation is CORRECT?

- a. a raw score by itself is meaningful
- b. A student's score is a final indication of his ability
- c. The use of statistical technique gives meaning to pupil's score•••••
- d. Test scores do not in any way reflect teacher's effectiveness

12. This embodies the teacher's duties and responsibilities as well as the proper behaviour in performing them?

- a. Code of Ethics for teachers•••••
- b. Magna Carta for Public School Teachers
- c. Bill of Rights
- d. Philippine Constitution of 1987

13. What type of validity is needed if a test must course objective and scopes?

- a. Content•••••
- b. Concurrent

- c. Criterion
 - d. Construct
14. Which applies when there are extreme scores?
- a. The median will not be very reliable measure of central tendency
 - b. The mode will be the most reliable measure of central tendency
 - c. There is no reliable measure of central tendency
 - d. The mean will not be very reliable measure of central tendency•••••
15. What does a negatively skewed score contribution imply?
- a. The scores congregate on the left side of the normal contribution curve
 - b. The scores are widespread
 - c. The students must be academically poor
 - d. The score congregate on the right side of the normal contribution curve•••••
16. The more in direct the classroom instruction, the more _____ it is.
- a. Topic focused
 - b. Student centered•••••
 - c. Teacher centered
 - d. Individualized
17. Which terms to the act of educating a child with special education needs partially in a special education classroom and partially in regular classroom?
- a. Mainstreaming•••••
 - b. Inclusion
 - c. Individualization
 - d. Head Start
18. It is good to give students challenging and creative tasks because
- a. development is aided by stimulation•••••
 - b. the development of individual is unique
 - c. development is effective by cultural changes
 - d. development is the individual's choice
19. The process of one's thinking to develop critical thinking is known as _____.
- a. Metacognition•••••
 - b. Hypothesizing
 - c. Reflection
 - d. Meditation
20. It is an intensive investigation of a particular individual, institution, community or any group considered as a unit which includes the development, adjustment, remedial or corrective procedures that suitably follow diagnosis of the causes of maladjustment or of favorable behaviors.
- a. Experimental

- b. Descriptive
 - c. Historical
 - d. Case study•••••
21. Which of the following test is used as a basis in giving grades or rating?
- a. Mastery
 - b. Formative•••••
 - c. Summative
 - d. Post test
22. It is the process of judging an attribute based on certain goals or standards.
- a. Counseling•••••
 - b. Measuring
 - c. Evaluating
 - d. Testing
23. Which of the following criteria is the most important in test construction?
- a. Preparation of Table of Specification
 - b. Items must jive with the objectives
 - c. Arrange events in occurrence•••••
 - d. The stem should contain the central problem
24. Which of the following type of test is not advisable to be used as a diagnostic test?
- a. Multiple choice
 - b. Short response
 - c. essays•••••
 - d. true false
25. Why should negative terms be avoided in the stem of multiple choice items?
- a. They may be overlooked
 - b. It increases the difficulty of scoring
 - c. It increase the length of the stem
 - d. They make the construction of alternatives more difficult•••••
26. It is equivalent to the average score of the group or class?
- a. Mean
 - b. Median
 - c. Mode
 - d. Standard Deviation•••••
27. The result of the item analysis showed that item no. 4 has a discrimination index of 0.67. What could be true about this item?
- a. Difficult
 - b. Valid
 - c. Easy
 - d. Average•••••
28. What is the norm of a test?
- a. The mean of grouping scores
 - b. The standard of for adequate performance
 - c. The standard deviation of a group of scores
 - d. The typical performance of a certain group of individuals who took the test•••••
29. Which of the following is the most important

stage in testing process?

- a. Constructing test items
- b. Establishing test reliability
- c. Improving test items
- d. Interpreting test result•••••

30. What does a Table of Specification establish?

- a. construct validity
- b. content related validity and criterion reference
- c. content validity and construct validity•••••
- d. content validity and content related validity

31. Aura Vivian is one half standard deviation above the mean of his group in arithmetic and one standard deviation above in spelling. What does this imply?

- a. she excels both in spelling and arithmetic
- b. She is better in arithmetic than in spelling
- c. She does not excel in spelling nor in arithmetic
- d. She is better in spelling than in arithmetic•••••

32. Given the scores 1,3,3,3,5,5,6,6,6 and 10, the mode(s) is (are)

- a. 3
- b. 3 and 6•••••
- c. 5
- d. 6

33. NSAT and NEAT results are interpreted against set mastery level. This means that NSAT and NEAT fall under?

- a. criterion reference test•••••
- b. intelligence test
- c. aptitude test
- d. norm reference test

34. These are significant in formation about a student, gathered through the use of various techniques, assembled, summarize and organized in such a way that they may be used effectively. What is referred to?

- a. Cumulative record•••••
- b. Case studies
- c. Test profiles
- d. personnel inventory

35. Which measure(s) of central tendency is (are) most appropriate when the score distribution is badly skewed?

- a. Mean and mode
- c. Median
- b. Mode
- d. Mean•••••

36. The inclusion of the study of Rizal and other national heroes in the school curriculum in order to inculcate love of country is based on a(an).

- a. pragmatist philosophy

b. existentialist philosophy

- c. idealist philosophy
- d. realist philosophy•••••

37. What concept of education makes every individual a useful citizen to the state?

- a. Conformity
- b. Security
- c. Humanitarianism
- d. Utilitarianism•••••

38. It is an area of philosophy which on the nature of knowledge and the best method of teaching is.

- a. Epistemology•••••
- b. Ethics
- c. Metaphysics
- d. Aesthetics

39. A test is considered reliable if

- a. it is easy to score
- b. it served the purpose for which it is constructed
- c. It is consistent and stable•••••
- d. it is easy to administer

40. Which is an element of norm referenced grading?

- a. the student's past performance
- b. an absolute standard
- c. the performance of the group•••••
- d. what constitutes a perfect score

41. Mario obtained an NSAT percentile rank of 80. This indicates that

- a. He surpassed in performance 80% of her fellow examinees•••••
- b. He got a score of 80
- c. He surpassed in performance 20% of her fellow examinees
- d. He answered 80 items correctly

42. In the problem solving method of teaching, which is the primary role of the teacher?

- a. Director
- b. Clarifier
- c. Lecturer
- d. Judge•••••

43. Which element should be present for brainstorming to be effective?

- a. Lax atmosphere
- b. Teacher's non judgmental attitude•••••
- c. Teacher's use of "put down" strategy
- d. Threatening atmosphere

44. Which is a selective reading technique meant at getting important facts very fast?

- a. Silent reading
- b. Skim reading
- c. Oral reading
- d. scanning•••••

45. The study type of reading exercises gives practice in.
- picking out the main ideas
 - all sorts of study methods
 - reading skills needed in other subjects.....
 - recognizing the precise meaning of words
46. Which is the best reason why Mr. Cruz begins a lesson in Math by checking and reviewing on the previous day's assignment practice and drills?
- Prepare the students for the mastery test
 - Make learning interesting and enjoyable for students
 - Check if parents guide their children in the making of assignment
 - Make sure that the students understand the pre requisite skills of the lesson.....
47. The test item "Group the following items according to shape" is a thought question on.
- creating
 - generalizing
 - comparing
 - classifying.....
48. Which one should teacher B use if he wants to teach to pupils the relationship among details?
- Journal entries
 - Story frame
 - Graphic organizers.....
 - Learning log
49. "What I hear, I forget. What I see I remember. What I do, I understand." This means that pupils learn best when they.
- learn independently
 - work with groups
 - watch TV
 - take active part in the learning process.....
50. Which is a type of graph in which lines represent each score or set of scores
- Scattergram
 - Histogram.....
 - Frequency polygon
 - Scatterplot

PROFESSIONAL EDUCATION
CHILD AND ADOLESCENT DEVELOPMENT
●KEY

1. According to Erikson, identity and role confusion occurs during
- Elementary Years
 - High school years
 - College years
 - Pre school years
2. According to Jerome Bruner, learning is a simultaneous process of acquisition,

- transformation and_____.
- Evaluation
 - Question
 - Education
 - Metacognition
3. Who among the following developed the Social Learning Theory?
- Bandura
 - Kohlberg
 - Bruner
 - Skinner
4. When a teacher present a morally ambiguous situation to his students and ask them what to do, the teacher's technique is based on the theory of
- Bandura
 - Piaget
 - Kohlberg
 - Bruner
5. According to Maslow, the highest of the need in the Hierarchy of Needs theory is
- Psychological need
 - Self actualization
 - belongingn
 - Safety
6. Based on Freud's theory, which operates when a person is in the height of anger?
- Ego
 - Superego
 - Id and ego
 - Id
7. Operant conditioning can be applied to classroom by
- Connecting facts and concepts
 - Fostering conducive learning environment
 - Using reinforcement
 - Using manipulative devices
8. "Women should not study since they will be marrying soon". If a father tells his daughter this, can we consider his premise morally right?
- Depends on the family social status
 - Yes, women are mean for the home
 - No, women can perform just like men
 - No, there is gender equality in education
9. In Piaget's concrete operational stage, teacher Maritel should provide_____.
- Activities of hypothesis formulation
 - Learning activities that involve problems of classification and order
 - Activities for evaluation purposes
 - Stimulating environment with ample objects to play with
10. A student is finding it hard to read. When the guidance counselor traced the child's history, the counselor was able to find out that the student came from a dysfunctional family, aside from that, the child was abused and neglected. What could have caused the student's reading disability?
- Emotional Factors
 - Poor teaching
 - Neurological factors
 - Immaturity
11. A child was punished for cheating in an exam. For sure the child wont cheat again in

short span of time, but this does not guarantee that the child won't cheat ever again Based on Thorndike's theory on punishment and learning, this shows that _____.

A. Punishment strengthens a response
 B. Punishment removes response
 C. Punishment doesn't remove a response
 ●D. Punishment weakens a response

12. Laughing at a two-year-old child who uttered a bad word is not a proper thing to do because in this stage of the child's, the child is _____.

A. Considering the views of others
 B. Distinguishing sex references
 C. Socializing
 ●D. Distinguishing right from wrong

13. According to Sigmund Freud, the main proponent of Psychoanalytic Theory, the superego is mainly concerned with

A. The resolution of conflict within the self
 B. The finding of greater satisfaction
 ●C. The idea of right and wrong
 D. The development of healthy psyche

14. Modeling is a teaching rooted on _____ learning theory.

●A. Bandura C. Thorndike
 B. Skinner D. Bruner

15. Teacher Marissa would like to employ Operant Conditioning on her students to increase the probabilities of greater participation during discussion. It is highly possible that teacher Marissa will

A. Put more emphasis on sharing and consistently guide them to new ideas
 B. Allow them to think about thinking
 ●C. Give a star token to those who will participate
 D. Let them exercise metacognitive approaches to better understand the topic

16. One of the traits of many students is putting more emphasis on "porma" over substance. This is likely to be shown when

A. A written report was submitted by a student with shabby cover but comprehensive content
 ●B. A written report was submitted by a student using "perfumed" stationary but poor content
 C. A written report was submitted by a student two days ahead of time
 D. A written report was submitted by a student two days late

17. Providing variety of learning activities to students is a characteristic of a teacher who understand the principle of

A. Reward as a potential means of increasing

the participation

B. Proactive teaching as a modern technique of teaching

●C. Facilitating learning with emphasis on individual differences

D. Allowing the student to be exposed to various teaching techniques

18. The best example of Operant Conditioning among the following is

A. Connecting facts and concepts
 B. Fostering conducive learning environment
 ●C. Using reinforcement
 D. Using manipulative devices

19. A child receives a STAR STAMP after correctly completing his task. The child always tries to complete all tasks correctly for him to have a stamp once again. What is being shown in the situation?

A. Associative learning ●C. Operant Conditioning
 B. Classical conditioning D. Pavlovian conditioning

20. A child submitted a poor written report but packaged with brightly colored paper cover. This showcases _____.

A. Art over academics C. art over science
 B. Substance over "porma" ● D. "porma" over substance

21. He is considered as the first special education student.

●A. Victor of Aveyron C.Sigmund Freud
 B. Tarzan of the Jungle D. Alfred Binet

22. The Father of modern psychology

A. Carl Jung ● C. Sigmund Freud
 B. Aristotle D. Alfred Binet

23. He is postulated that man psyche is composed of animus and the anima

A. Karen Horney C. Willism James
 ●B. Carl Jung D. Cattell

24. He pioneered in NON-Directive Counseling?

A. Thomas Gordon ●C. Carl Rogers
 B. Erik Erikson D. Rousseau

25. This educator proposed 3 modes of representation, enactive, iconic and symbolic

A. Bandura C. Kounin
 B. Kohler ●D. Bruner

26. This premier behaviorist once said: Give me a dozen healthy infants, well-formed and my own specified world to bring them up in and I'll guarantee to take any one of random and train him to become any type of specialist I might select – doctor, lawyer, artist, merchant-chief and, yes even beggar-man and chief, regardless of his talents, penchants,

tendencies, abilities, vacations, and race of his ancestors”

A. Bandura C. Rogers

●B. Watson D. Erikson

27. His best contribution to the world of education is the 3 laws (law of effect, law of readiness and law of exercise)

A. Rousseau ●C. Thorndike

B. Pavlov D. Bandura

28. The teachers’ widely accepted view of giving rewards to students is the legacy of

A. Dewey C. Kounin

B. Bruner ●D. Skinner

29. He believes that learning is based on Adhesive principle

A. Dewey C. Kounin

B. Bruner ●D. Koffka

30. One of main proponent of Gestalt and who believes that the whole is more than the sum of all its parts

A. Bruner ●C. Wertheimer

B. Thorndike D. Lewin

31. “the child learns from what he sees in the environment” is the main thesis of this famous educational psychologist

A. Skinner ●C. Bandura

B. Locke D. Koffka

32. According to this theorist, our behavior at a particular time is a product of the interaction of two factors, internal and external forces

●A. Lewin C. Locke

B. Wertheimer D. Jung

33. According to this developmental psychologist, children’s thinking skills move from simplicity to complexity

A. Bandura ●C. Piaget

B. Thorndike D. Freud

34. The inventor of the first usable intelligence test

A. Freud C. Skinner

B. Piaget ●D. Binet

35. This particular theorist believes that the mind is blank at birth

A. Allport ●C. Locke

B. Skinner D. Binet

36. He is generally considered as the father of modern education

A. Collin C. Aristotle

●B. Comenius D. Hegel

37. Kindergarten movement is the legacy of this man who is considered the father of kindergarten

A. Pestalozzi C. Montessori

●B. Froebel D. Collins

38. He once said: “education is not a preparation for life...it is life”

A. Montessori C. Havighurst

●B. Dewey D. Skinner

39. He proposed that every child is born with a unique potential, his individuality, but that potential remained unfulfilled until it was analyzed and transformed by education

A. Lewin ●C. Herbart

B. Kohler D. Havighurst

40. He pioneered in coming up with a list of development task as individuals pass through the developmental stages

●A. Havighurst C. Anastasi

B. Hurlock D. Herbart

41. This educator is famous for applying classical education to impoverished children of Chicago Illinois.

●A. Collins C. Froebel

B. Montessori D. Piaget

42. This educator opposes the traditional notion that students are empty vessels. He call this traditional technique as banking system

A. Herbart ●C. Freire

B. Locke D. Rousseau

43. He pioneered in the study of language acquisition of children

●A. Rousseau C. Chomsky

B. Freire D. Rubenstein

44. He introduced the notion of zone of proximal development and “scaffolding”

●A. Vygotsky C. Chomsky

B. Tyler D. Rubenstein

45. This condition is also known as trisomy 21

A Turner Syndrome ●C. Down Syndrome

B. Patau Syndrome D. Autism

46. This condition is characterized by poor spelling and pervasive difficulty in reading

A. Mental retardation C. Savant

B. autism ●D. dyslexia

47. Certain injury to the language area of the brain can cause the total loss of the ability to produce and/ or understand language, this condition is known as

A. Mutism C. aspergers

●B. Aphasia D. dyslexia

48. _____ is a disorder of neural development characterized by impaired social interaction and communication and by restricted and repetitive behavior.

A. Mental retardation C. ADHD

●B. Autism D. Physical Disabilities

49. _____ refers to quantitative changes in an individual as he progresses in

chronological age.
A. Development C. Cephalocaudal
●B. Growth D. Proximodistal
50. _____ refers to progressive series of changes of an orderly coherent type leading to the individual's maturation.
●A. Development C. Cephalocaudal
B. Growth D. Proximodistal

PROFESSIONAL EDUCATION
Questions and Answers
1. Used as medium of instruction during Spanish- SPANISH
2. Government program allow students who are not accommodated in community public school. To enroll in private school- GOVERNMENT ASSISTANCE PROGRAM (GAP)
3. CHED– Study Now Pay Later

4. Integrated Approach in both secondary and primary level-BASIC EDUCATION CURRICULUM (BEC)
5. 1980s foremost education issue – BILINGUAL EDUCATION
6. Support equal access but on the other hand quality might be compromised- OPEN ADMISSION
7. The government education program on _____ made Philippine education Placement Test for adults and out of school youth.- EQUITABLE ACCESS DEVELOPMENT
8. College students are required to take a constitution course for them to- DEVELOP STUDENTS INTO RESPONSIBLE AND THINKING STUDENT
9. Education institution effort of developing work skills include the schools are aim at- DEVELOPING VOCATIONAL EFFICIENCY
10. Seek out a classmate for help when problem occurs-INTERPERSONAL INTELLIGENCE
11. Dysfunctional family- EMOTIONAL FACTOR
12. Child who is cold towards the people around him might have failed to attain- TRUST
13. Philippine Education during Spanish regime – EMPHASIS ON RELIGIOUS INSTRUCTION
14. Uttered a bad word– DISTINGUISHING RIGHT FROM WRONG
15. Boy closer and girl closer- PHALLIC STAGE
16. Objective of the continuous progression scheme in the elementary 1970-71.- MASS PROMOTION
17. Fullest/ highest- SELF ACTUALIZATION
18. First American Teacher- THOMASITES
19. Reward – REINFORCEMENT
20. PRC (LET)- RA 7836
21. Thomasites
 - DISAMBARCKED FROM CSI CALLED THOMAS
22. Erickson said that child aged 3-5 is most likely
 - ECO-CENTRIC
23. Child always fight his classmate very short attention span
 - ADHD
24. Adopted to provide universal access to basic learning to eradicate illiteracy
 - EFA
25. Free public education Article XIV Sec. 2
 - THESE LEVELS PROVIDE THE FOUNDATION FOR LIFE FUNCTIONS AND ROLE
26. Philippine Education during revolution period
 - ESTABLISHMENT NATIONHOOD
27. Shy
 - INTROVERT
28. METACOGNITIVE/ METACOGNITION
 - thinking about their thinking
29. Jean Jacques Rousseau
 - DEALING WITH MISBEHAVIOR STUDENTS
30. Jean Jacques Rousseau- said that
 - EVERYONE IS ESSENTIALLY GOOD
31. How teacher uphold high standard of the teaching profession?
 - CONTINUOUSLY IMPROVING THEMSELVES
32. Colonial Mentality
 - FOREIGNER SUPERIOR
33. Learning to know
 - FACILITATOR
34. Pattern of acquiring values is based on values are
 - CAUGHT NOT TAUGHT
35. Progressivist
 - DEWEY
36. Free movement time allotment
 - FLEXIBLE
37. Activities ahead of time
 - EMERGENCY ACTIVITY/ FILLER
38. Normal practice followed in the classroom
 - ROUTINE
39. DECS changes to DepEd
 - RA 9155
40. Teacher controlled his off talk giving him direct contact
 - CLASSROOM MANAGEMENT
41. Center of Excellence- CHED
42. Integral part of teaching process- CLASSROOM MANAGEMENT
43. BP Blg. 232 SHALL ESTABLISH< MAINTAIN...
44. Cluster remote stand-alone school is under one lead school ahead strong influence- GEOGRAPHICAL
45. Failure of ended- DEPENDENCE ON HIGHER AUTHORITY
46. President Fidel Ramos- EFA (Education for All)
47. Bottom up management style- INVOLVEMENT OF STUDENTS, PARENTS, TEACHER AND COMMUNITY IN SCHOOL
48. GENDER EQUALITY IN EDUCATION
49. Learning to Know- UNDERSTANDING
50. GENDER EQUALITY
51. Realia –FEASIBLE

- 52. Learning to live together-
- 53. Ex. Volcanoes erupted- MOCK –UP
- 54. Topic” Discuss Earth- MODEL
- 55. With-it-ness-JACOB KOUNIN- AWARE
- WHAT IS HAPPENING IN THE CLASSROOM
- 56. Orderly Transition- MATERIALS READILY AVAILABLE
- 57. Nearest from the real thing-EDGAR DALE- CONE OF EXPERIENCE – WATCHING DEMO
- 58. Referent power- FEELING OF TRUST AND ACCEPTANCE
- 59. Routine Activities- ESTABLISH ON FIRST DAY OF SCHOOL
- 60. Low profile classroom technique- MANAGE MISBEHAVIOR

PROFESSIONAL EDUCATION

SUBCATEGORIES OF TEACHER
MOVEMENT/MOVEMENT MANAGEMENT

- 1. THRUST – proceeding without assessing
- 2. DANGLING – hanging activity by giving another
- 3. TRUNCATION – leaves activity
- 4. FLIP-FLOP – returns to a left activity while currently doing an activity
- 5. STIMULUS-BOUND – distracted
- 6. OVERDWELLING – overtime in one topic
- 7. OVERLAPPING – multitasking results negatively

ISM's IN EDUCATION

- BEHAVIORISM – change
- EXISTENTIALISM – choice
- IDEALISM – enough in mind constant
- PRAGMATISM - practice (T&E) improve
- REALISM – enough to see
- SOCIAL RECONSTRUCTIVISM – benefit of all
- ESSENTIALISM – basic
- HUMANISM – build
- PERRENIALISM –
- PROGRESSIVISM –
- UTILITARIANISM - best

AIMS OF ERAS

- PRE-SPANISH – survival and conformity
- SPANISH – Christianity
- AMERICAN – democratic ideals and way of life
- COMMONWEALTH – moral character, efficiency
- JAPANESE – progress

PROF. ED PROPONENTS

- B.F. SKINNER – Operant Conditioning
- BANDURA – Modeling
- BANDURA & WALLACE – Social Learning
- CARL JUNG – Psychological
- CARL JUNG – Psychological
- CONFICIUS – Education for all, Golden Rule
- EDWARD THORNDIKE – Connectionism
- ERICK ERIKSON – Psychosocial
- IVAN PAVLOV – Classical Conditioning
- JEAN PIAGET – Cognitive
- JEAN PIAGET – Cognitive
- PEZTALLOZI – realia, Froebel's protégé
- JEROME BRUNER – Instrumental Conceptualism
- JOHN DEWEY – learning by doing
- JOHN LOCKE – Tabula Rasa (blank sheet)
- KOHLERS – Insight Learning
- LAURENCE KOHLBERG – Moral Development
- FROEBEL - Father of Kndrgrtn

- LEV VGOTSKY – Social Cognitivist, Scaffolding
- SIGMUND FREUD – Psychosexual
- WILLIAM SHELDON – Physiological
- PRINCIPLES
- HEDONISM – pleasure principle
- DOUBLE EFFECT – sacrifice for the good or bad
- FORMAL COOPERATION – cooperation with will
- LESSER EVIL – choice of the less one from two bad things
- MATERIAL COOPERATION – cooperation without will

FREUD'S PSYCHOSEXUAL/PSYCHOANALYTICAL
THEORY

- 1. ORAL (0-1 yrs. old) – Infant
- 2. ANAL (1-3 yrs. old) – Toddler
- 3. PHALLIC – Preschool
- 4. LATENCY – School Age
- 5. GENITAL – Adolescence
- OEDIPUS – son to mom
- ELECTRA – daughter to dad

LAWS IN EDUCATION

- PRC BR 435 – Code of Ethics for Professional Teachers
- PD 1006 – Decree Professionalizing Teachers
- RA NO. 1425 – inclusion of the works of Jose Rizal
- RA NO. 4670 – “Magna Carta for Public School Teacher”
- RA 7722 – CHED
- RA 7796 – “TESDA Act of 1994”
- RA 7836 – Phil. Teachers Professionalization Act of 1994
- RA 9155 – BEGA (Basic Educ.) or DepEd Law
- RA 9293 – Teachers Professionalization Act
- RA 10533 – K-12 Law
- ACT NO. 2706 – “Private School Law”
- COMMONWEALTH ACT NO. 578 – “persons in authority”
- KAUTUSANG PANGKAGAWARAN BLG 7 - PILIPINO NatlLng
- PROKLAMA BLG 12 - Linggo ng Wika (Balagtas,Mr29-Ap4)
- PROKLAMA BLG. 186 – Linggo ng Wika (Quezon,Ag13-19)
- PROKLAMA BLG. 1041 – Buwan ng Wika (Ramos)
- PHIL. CONSTITUTION ACT 14 – ESTACS
- RA 1079 – no limit of Civil Service eligibility
- RA 6655 – “Free Public Secondary Educ. Act of 1988”
- RA 6728 – “Act Providing Government Assistance to Students and Teachers in Private Education
- RA 7277 – Magna Carta for PWD
- RA 7610 – Anti-Child Abuse Law (Amendment: RA 9231)
- RA 7743 – establishment of public libraries
- RA 7877 – “Anti Sexual Harassment Act of 1995”
- RA 7880 – “Fair and Equitable Access to Education Act”
- RA 8049 – Anti-Hazing Law
- RA 8187 – Paternity Act
- RA 10627 – Anti-Bullying
- SB 1987 ART. 14 SEK. 6-9 – FILIPINO (National Language)

BRUNER'S THREE MODES OF REPRESENTATION

- 1. ENACTIVE (0-1 yrs. old) – action-based information
- 2. ICONIC (1-6 yrs. old) – image-based information
- 3. SYMBOLIC (7+) – code/symbols such as language

TAXONOMY OF OBJECTIVES

COGNITIVE:

BLOOM (LOTS)

- o Knowledge
- o Comprehension
- o Application
- o Analysis
- o Synthesis
- o Evaluation

ANDERSON (HOTS)

- o Remembering
- o Understanding
- o Applying
- o Analyzing
- o Evaluating
- o Creating

AFFECTIVE:

- o Receiving
- o Responding
- o Valuing
- o Organizing
- o Characterization

PSYCHOMOTOR:

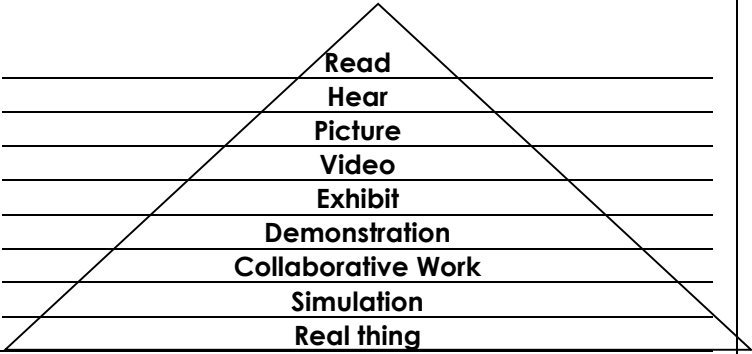

SIMPSON

- o Perception
- o Set
- o Guided Response
- o Mechanism
- o Complex Overt Response
- o Adaptation
- o Origination

HARROW

- o Reflex movement
- o Fundamental Movement
- o Physical Movement
- o Perceptual Abilities
- o Skilled Movements
- o Non-discursive communication

DALES CONE OF EXPERIENCE

ERIKSON'S PSYCHOSOCIAL TASKS

1. **TRUST VS. MISTRUST** (0-12 months)
2. **AUTONOMY VS. SHAME/DOUBT** (1-3 years old)
3. **INITIATIVE VS. GUILT** (3-6 years old)
4. **INDUSTRY VS. INFERIORITY** (6-12 years old)
5. **IDENTITY VS. ROLE CONFUSION** (12-18 years old)
6. **INTIMACY VS. ISOLATION** (early 20s-early 40s)
7. **GENERATIVITY VS. STAGNATION** (40s-mid 60s)
8. **INTEGRITY VS. DESPAIR** (mid 60s-death)

PIAGET'S COGNITIVE DEVELOPMENT THEORY

1. **SENSORY** – senses
2. **PRE-OPERATIONAL** - imagination
3. **CONCRETE**
4. **FORMAL**

GENERATIONS OF COMPUTER

1. **VACUUM TUBES** (1940-1956)
2. **TRANSISTORS** (1956-1963)
3. **INTEGRATED CIRCUITS** (1964-1971)
4. **MICROPROCESSORS** (1971-present)
5. **ARTIFICIAL INTELLIGENCE** (present-future)

MISTAKEN GOALS

1. **ATTENTION SEEKER** – “teacher, notice me”
2. **REVENGE** – “teacher, I am hurt”
3. **POWER-SEEKING** – “teacher, may I help?”
4. **INADEQUACY** – “teacher, don’t give up on me”
5. **WITHDRAWAL** – “teacher, please help me”

KOHLBERG'S THEORY OF MORAL DEVELOPMENT

LEVEL 1: PRE-CONVENTIONAL MORALITY

Stage 1: Obedience and Punishment Orientation

Stage 2: Individualism and Exchange

LEVEL 2: CONVENTIONAL MORALITY

Stage 3: Good Interpersonal Relationships

Stage 4: Maintaining the Social Order

LEVEL 3: POST-CONVENTIONAL MORALITY

Stage 5: Social Contract and Individual Rights

Stage 6: Universal Principles

CENTRAL TENDENCY -Central (middle location) Tendency

MEAN – Average **MODE** – most occurring

RANGE – highest score minus lowest score

LOW SD–Homogenous, scores near to mean(almost same)

HIGH SD – Heterogenous, scores far to mean (scattered)

DECILE – 10 grps (D1...D10) **QUARTILE** – 4 grps (Q1...Q4)

SUSPENSION – time condition **REVOKATION** –

DIFFICULTY INDEX

0-0.20	VERY DIFFICULT
0.21-0.40	DIFFICULT
0.41-0.60	MODERATELY DIFFICULT
0.61-0.80	EASY
0.81-1.00	VERY EASY

POSITIVELY SKEWED (LEFT FOOT)

- low scores, mean greater than mode

NEGATIVELY SKEWED (RIGHT FOOT)

- high scores, mean is lower than mode

HORN/HALO EFFECT

- overcoming other trait, either bad/good

GENERAL EDUCATION

FILIPINO/ENGLISH:

MGA TEORYA NG PINAGMULAN NG WIKA

1. **BOW-WOW** –kalikasan at hayop
2. **DING-DONG** – bagay
3. **POOH-POOH** – masidhing damdamin
4. **YOHEHO** – pwersang pisikal

FILIPINO POETS AND PEN NAMES

BENVENIDO SANTOS – American Culture Writings

DANIEL DEFOE – “Robinson Crusoen” (novel)

EDILBERTO TIEMPO – made “Cry Slaughter” that has been

translated many times

ERNEST HEMINGWAY – Ring Lardner Jr.

JOSE GARCIA VILLA – “Comma Poet”, Dove G. Lion

MIGUEL DE CERVANTES/ESCALANDE - Masterpiece is “Don Quixote” that is most influential

NICK JOAQUIN – Quijano de Manila – Spanish Culture Writing

PAZ MARQUEZ BENITEZ – made “Dead Stars” that is the 1st

modern English short story

SAMUEL LANGHORNE CLEMENS – Mark Twain

- “Adventures of Tom Sawyer”
- “Adventures of Huckleberry Finn” (best novel)

SINTAKS/SINTAKSIS/PALAU GNAYAN

- sangay ng barirala na tumatalakay sa masistemang pagkaka-ayos-ayos ng mga salita sa pagbuo ng mga parirala at pangungusap

PEN NAMES OF FILIPINO PROTAGONISTS

- ANDRES BONIFACIO** – *May Pag-asa, Agapito Bagumbayan*
- ANTONIO LUNA** – *Taga-Ilog*
- EMILIO AGUINALDO** – *Magdalo*
- EMILIO JACINTO** – *Di Masilaw, Tingkian*
- GRACIANO LOPEZ JAENA** – *Diego Laura*
- JOSE MA. PANGANIBAN** – *JoMaPa*
- JOSE RIZAL** – *Dimas alang, Laon laan*
- JUAN LUNA** – *Buan*
- MARCELO DEL PILAR** – *Plaridel, Dolores Manapat, Piping Dilat*
- MARIANO PONCE** – *Tikbalang, Naning (Satanas), Kalipulako*

MGA URI NG PANGUNGUSAP

WALANG PAKSA:

- 1. **EKSISTENSYAL** – mayroong isa o higit pang tao
Halimbawa: Mayroon daw puno sa bakuran.
- 2. **MODAL** – nais/pwede/maari (*Gusto ko matulog.*)
- 3. **PANLIPUNAN** – pagbati, pagbigay galang atbp.
- 4. **SAGOT LAMANG** – “*Talaga?*”, “*Oo*”
- 5. **SAMBITLA** – masidhing damdamin (*Aray!*)
- 6. **TEMPORAL** – panandaliang kalagayan o panahon

KAYARIAN:

- 1. **PAYAK** – iisang kaisipan
- 2. **TAMBALAN** – dalawang sugnay na ‘di makapag-iisa
- 3. **HUGNAYAN** – madalas nagsisimula sa *kung, dahil sa*
- 4. **LANGKAPAN** – mahabang pangungusap

MGA URI NG KWENTO

- 1. **PABULA** (*fable*) – hayop
- 2. **PARABULA** (*parable*) – Bibliya
- 3. **ANEKDOTA** (*anecdote*) – tunay na buhay
- 4. **MITOLOHIYA** (*myth*) – diyos at diyosa (pinagmulan)

ASPEKTO NG PANDIWA (Verb)

- 1. **PERPEKTIBO** – tumakbo
- 2. **IMPERPEKTIBO** – tumatakbo
- 3. **KONTEMPLATIBO** – tatakbo

KAANTASAN NG PANG-URI (Adjective)

- 1. **LANTAY** – walang pinaghahambingan
- 2. **PAHAMBING** – inihahalintulad
- 3. **PASUKDOL** – nangingibabaw (H: pinakamataas)

MGA URI NG TULA

- 1. **PATULA** (Moro-moro)
- 2. **PASALAYSAY** (Epiko, Awit, Korido)

MGA AWITING BAYAN

- 1. **DALIT/HIMNO** – pagsamba sa anito o pang-relihiyon
- 2. **DIONA** – kasal
- 3. **DUNG-AW** – patay (pagdadalamhati)
- 4. **KALUSAN** – paggawa
- 5. **KUMINTANG** – tagumpay (pandigma)
- 6. **KUNDIMAN** – pag-ibig
- 7. **OYAYI** – pagpapatulog ng bata
- 8. **SOLIRANIN** – pagsasagwan
- 9. **TALINDAW** – pamamangka

PAGBABAGONG MORPONEMIKO

- 1. **ASIMILASYON** – Parsyal (pangsukli), Ganap (panukli)
- 2. **MAY ANGKOP** – wikain mo – “kamo”
- 3. **MAYSUDLONG/PAGDARAGDAG NG PONEMA**
 - muntik – muntikan, pagmuntikan, pagmuntikanan
- 4. **METATESIS** – linipad – nilipad
- 5. **PAGKAKALTAS NG PONEMO** – takipan – takpan
- 6. **PAGLILIPAT-DIIN** – laRUan (*playground*) - laruAN (*toy*)
- 7. **PAGPAPALIT NG PONEMA** – madapat – marapat

MGA URI NG PANGHALIP/PRONOUNS

- 1. **PANAO/PERSONAL PRONOUN** – ako/I etc.
- 2. **PAMATLIG/DEMONSTRATIVE PRONOUN** – ito/this etc.
- 3. **PANAKLAW/INDEFINITE P.** - isa, all, anyone etc.
- 4. **PATULAD** – ganito, ganyan atbp.
- 5. **PANANONG/INTERROGATIVE P.** – sino, when etc.
- 6. **PAMANGGIT/RELATIVE P.** – daw, umano, which, who

MGA AKDANG NA MAY IMPUWENSYA SA MUNDO

- AKLAT NG MGA ARAW** – *China (by Confucius)*
- AKLAT NG MGA PATAY** – *Egypt cults & myths (by Osiris)*
- AWIT NI ROLANDO**-*France (by Doce Pares, Roncesvalles)*
- BIBLIYA** – Palestino at Greece
- CANTEBURY TALES** – *America (by Chaucer)*
- DIVINE COMEDIA** – *Italy (by Dante)*
- EL CID COMPEADOR** – katangian at *history ng Spain*
- ILIAD o ODYSSEY** – *Myths of Greece made by Homer.*
- ISANG LIBO’T ISANG GABI** – Ugali sa *Arabia at Persia*
- KORAN** – *Arabia (Muslim Bible)* **MAHABRATA** – *India*
- UNCLE TOM’S CABIN** – *about slaves that becomes the basis of democracy. (by Harriet Beecher Stowe of U.S.)*

MGA URI NG PANITIKAN

- 1. **TULUYAN** – binubuo ng mga pangungusap
 - A. **NOBELA** – binubuo ng mga kabanata
 - B. **DULA** – pagtatanghal sa entablado**MGA DULANG PANLIBANGAN:**
 - a. **TIBAG** – Sta. Elena
 - b. **LAGAY** – Pilarenos ng Sorsogon
 - c. **PANUNULUYAN** – pagtatanghal bago mag-alas dose (12PM) ng gabi ng kapaskuhan
 - d. **PANUBOL** – parangal sa may kaarawan
 - e. **KARILYO** – ala-puppet show
 - f. **KURIDO** – katapangan, kabayanihan, kababalaghan, pananampalataya
 - g. **SARSUELA** – *musical* tungkol sa pag-ibig, paghihiganti atbp. masisidhing damdamin
- C. **ALAMAT** – pinagmulan
- D. **ANEKDOTA** – ugali, may mabuting aral
- 2. **PATULA** – may sukat,pantig,tugma,taludtod,saknong
 - A. **TULANG PASALAYSAY** - mahahalagang tago o pangyayari sa buhay.
 - a. **EPIKO** – kabayanihan sa kababalaghan
 - o **BIDASARI, PARANG SABIR** – Moro
 - o **BIAG NI LAM ANG** – Iloko
 - o **MARAGTAS, HARAYA, LAGDA AT HARI SA BUKID** – Bisaya

- o **KUMINTANG** – Tagalog
- o **DAGOY AT SUDSUD** – Tagbanua
- o **TATUANG** – Bagobo
- b. **AWIT** o **KORIDO** – kaharian
- c. **TULA NG DAMDAMIN** o **LIRIKI** – own feeling

MGA TULANG LIRIKO:

- o **AWITING BAYAN** – kalungkutan
- o **ELEHIYA** – yumao
- o **DALIT** – pagpupuri sa Diyos
- o **PASTORAL** – buhay sa bukid
- o **ODA** – papuri

B. TULANG DULA O PANGTANGHALAN

- a. **KOMEDYA**
- b. **MELODRAMA** – musical
- c. **TRAHEDIYA** – death of main character
- d. **PARSA** – mga pangyayaring nakakatawa
- e. **SAYNETE**

-karaniwang pag-uugali ng tao/ pook

C. TULANG PATNIGAN

- a. **KARAGATAN** – alamat ng singsing ng prinsesa na naihulog niya sa dagat sa hangaring mapangasawa ang kasintahang mahirap.
- b. **DUPLO** – paligsahan ng husay sa pagtula
- c. **BALAGTASAN** – pumalit sa Duplo

FIGURES OF SPEECH/TAYUTAY

PAG-UUGNAY O PAGHAHAMBING:

- 1. **SIMILE/PAGTUTULAD** – mayroong pangatnig
- 2. **METAPHOR/PAGWAWANGIS** – walang pangatnig
- 3. **ALUSYON** – iba't ibang aspekto ng buhay ng tao
- 4. **METONYMY/PAGPAPALIT-TAWAG**
- 5. **SYNECDOCHE/SINEKDOKE** – pagbanggit ng isa upang tukuyin ang kabuuan

Hal: Dalawang bibig ang umaasa kay Romeo.

PAGLALARAWAN:

- 6. **HYPERBOLE/ PAGMAMALABIS** o **EKSAHERASYON**
- 7. **APOSTROPHE/PAGTAWAG** – pakikipag-usap sa hindi buhay o malayong tao. Hal: Ulan, tumigil ka na.
- 8. **EXCLAMATION/PAGDARAMDAM** – strong feeling.
- 9. **PARADOX/PARADOKS** – “malayo ma'y malapit pa rin”
- 10. **OXYMORON/PAGTATAMBIS** – paradox w/ extra words

PAGSASALIN NG KATANGIAN:

- 11. **PERSONIFICATION/PAGSASATAO**

PAGSASATUNOG:

- 12. **ONOMATOPOEIA/PANGHIHIMIG** – tunog ang paksa
- 13. **ALLITERATION/PAG-UULIT** – repetition of 1st letter in the 1st word. Ex: Dinggin mo ang Diyos na Dinadakila
- 14. **REPITASYON** – repetition of phrase. Ex: Tama! Tama!...

IBA PANG TAYUTAY NA GAMIT SA TULA:

ALITERASYON – unang titik o pantig ay pare-pareho
ANADIPLOSIS – paggamit ng salita sa unahan at hulihan

EPIFORA – pag-uulit ng salita sa hulihan

PAG-UYAM – sarcasm

LITOTES – pagtanggap o pagkukunwari.

TALUDTOD – linya sa tula

UNFAMILIAR PARTS OF THE SPEECH

- 1. **PREPOSITIONS** – on, under, off, by, in near, for, to, since
- 2. **CONJUNCTIONS (PANGATNIG)**
- para/for, at/and, nor, or, pero/but, yet, so, ni, ngunit
- 3. **INTERJECTION** – with exclamation mark

PROPER SEQUENCE OF WORDS IN A SENTENCE

- 1. **ARTICLES** – a, an, the
- 2. **OPINION**
- 3. **SIZE**
- 4. **AGE**
- 5. **SHAPE**
- 6. **COLOR**
- 7. **MATERIAL**
- 8. **PURPOSE**

CLASSIFICATIONS OF POEM

- 1. **BALLAD** – narrative, less folk tale/legend, to be sung
- 2. **BLACK VERSE** – with meter but no rhyme
- 3. **DRAMATIC MONOLOGUE** – written in form of speech for individual character.
- 4. **ELEGY** – death of individual
- 5. **EPIC** – tells a story about heroic figure
- 6. **EULOGY** – message for the dead
- 7. **FREE VERSE (vers libre)** – without meter but with rhyme
- 8. **HAIKU** – Japanese poem about nature. 5, 7, 5 (3 lines and 17 syllables)
- 9. **IDYLL (Idyl)** – peaceful, idealized country scene
- 10. **LYRICS** – thoughts and feelings
- 11. **NARRATIVE** – tells story
- 12. **ODE** – typically serious/meditative nature, type of Lyric
- 13. **PASTORAL** – rural life in peaceful & romanticized way
- 14. **SONNET** – Lyric poem consists of 14 lines
- 15. **TANKA** – Japanese poem: 5 lines, 31 syllables

PHILIPPINE CONSTITUTIONS

BIAK NA BATO – pact, thought of 1st Republic.

- Spainards paid P200 000
- 1. **MALOLOS CONSTITUTION** – Apolinario Mabini
- rights of soldiers
- no Visayas yet in right of territories
- 2. **1935 CONSTITUTION** – adapted from American Const.
- 3. **1943 CONSTITUTION** – Jose P. Laurel
- Japan invades but gave freedom for Phil. to rule.
- 4. **1937 CONSTITUTION** – Ferdinand Marcos
- Martial Law – 60days max
- Nat'l Territory forced Kalayaan grp. of Islands & Saba
- 5. **1987 CONSTITUTION** – 18 articles
- past chairwoman: Cecilla Muñoz Palma (Feb 2, 1987)
- Bill of Rights are for the criminals

JUS SANGUINI – blood **JUS SOLI** – place

SOME TYPES OF GOVERNMENTS

- 1. **COMMUNIST** – classless society
- State plans and controls economy
- 2. **PARLIAMENTARY** – majority of people voted
- 3. **REPUBLICAN** – power comes from people

PHILIPPINE PRESIDENTS

(AgQueLaOsRoQuiMagGarMaMarAquiRaEsArAquiDut)

ACTS

- 1. **ASSOCIATION OF SE ASIAN NATIONS (ASEAN)**

- Myanmar, Cambodia, Laos, Brunei, Philippines, Singapore, Thailand, Indonesia, Vietnam, Malaysia
- 2. **BELL TRADE (PHILIPPINE TRADE ACT)** – bet. Phil. & U.S.
- 3. **KYOTO PROTOCOL (UNNCC)**
 - fight global warming decreasing green house gases
- 4. **RIO DE JANEIRO CONVENTION**
 - environment and sustainable development
- 5. **TEJEROS CONVENTION** – election
 - Bonifacio elected as Director Imperior
- 6. **TREATY ON GENERAL RELATIONS**
 - recognition of U.S. to Philippine freedom
- 7. **UNDERWORLD-SIMMONS ACT** – full free foreign trade
- 8. **PAYNE ALDRICH ACT** – partial free foreign trade

MISSIONARIES AND EXPEDITIONS

- 1. **AUGUSTINIAN** – most intelligent
- 2. **FRANCISCAN** – sends medical aids
- 3. **JESUITS**
- 4. **DOMINICANS** – richest
- 5. **RECOLECTS** – most killed schools

MARTYR PRIESTS

- 1. **BURGOS** – youngest, mastermind of secularization
- 2. **GOMEZ** – Oldest, likes “sabong” and hid there

HOMO HABILIS – man of steel (bighead, uses muscle)
HOMO ERECTUS – man who discovered fire & clothes
HOMO SAPIENS – thinking man (can produce materials)

UNFAMILIAR BRANCHES OF BIOLOGY

ANATOMY – inner organs **ENTOMOLOGY** – insects
BIOCHEMISTRY – chemical patterns of animals
ECOLOGY – living things bet. Each other in environment
EMBRYOLOGY – developmental patterns fr. zygote-birth
GENETICS – heredity **MYCOLOGY** – fungi
HERPETOLOGY – reptiles and amphibians
HISTOLOGY – plant and animal tissues
MORPHOLOGY – phenotype (appearance)
ORNITHOLOGY – birds **PARASITOLOGY** – parasites
PALEONTOLOGY – fossils of animals and plants
PHYSIOLOGY – function of tissue, organ & system
TAXONOMY – classification of living organisms

SCIENCE PROPONENTS

CAROLUS LINNAEUS – Father of Taxonomy
ROBERT HOOKE – termed “cells” (cellulae)
ANTON VAN LEUWENHOEK – 1st person to observe microscopic organisms (animal cule)
ROBERT BROWN – discovered Nucleus
MATTHIAS SCHIEDEN (Botanist) & **THEODORE** (Zoologist)
 - found all plants consist of cells
RUDOLF VIRCHOW – proposed cells come fr. existing cells

EARTH'S SPHERES

ATMOSPHERE – gaseous sphere protection from meteors
 Divided into five:
 ➤ Troposphere

- Stratosphere
- Mesosphere
- Thermosphere
- Exosphere

HYDROSPHERE – water
LITHOSPHERE – oceanic and continental crust
BIOSPHERE – all life forms in Earth
CRYOSPHERE – ice **ANTHROSPHERE** – ancestors

PLANETS AND THEIR SEQUENCE

- 1. **SUN** – 99.86% of Solar System
 - believed was formed 4.6 billion years ago
 - Responsible for weather and climate
- 2. **MERCURY** – named after Roman God
 - no satellite and atmosphere
 - discovered by Mariner Ten
- 3. **VENUS** – Goddess of Love and Beauty (Mariner 2)
 - Perfect sphere, sister planet of Earth
- 4. **EARTH**
- 5. **MARS** – God of War, red planet (Mariner 9)
- 6. **JUPITER** -Gas Giant, fastest rotating planet (10hrs less)
 - has Great Red Spot: huge storm for 350yrs
- 7. **SATURN** – God of Agriculture (chunks of rocks)
 - made mostly of hydrogen
- 8. **URANUS** – Frederick William Herscel
 - Sky & Ice Giant, 3rd largest planet

“I CAN DO ALL THINGS THROUGH CHRIST WHO GIVES ME STRENGTH”
 - **Philippians 4:13**

PREPARED BY:
AERON PAUL M. ANGELES

PROFESSIONAL EDUCATION
– 150 items
PRE – BOARD 2015

- GENERAL INSTRUCTIONS:**
- 1. *This Test Booklet contains 150 test questions for PROFESSIONAL EDUCATION. Examinees shall manage to use the 2 hours allotted.*
 - 2. *Detach one (1) answer sheet from the bottom of your Information/Answer Sheet Set.*
 - 3. *Write the subject title “PROFESSIONAL EDUCATION” on the box provided.*
 - 4. *Shade Set Box “A” on your answer sheet if your test booklet is Set A; Set B if your test booklet is Set B.*
 - 5. *Shade only one (1) box for each question on your answer sheet. Two or more boxes shaded will invalidate your answer. There is only one answer to each question.*
 - 6. **AVOID ERASURES.**
 - 7. *This is ST. LOUIS REVIEW CENTER property. Unauthorized process or reproduction, and or sale of this test booklet is punishable by law.*
- ***All answers are suggested and NOT CONFIRMED, some are even DOUBTFUL. Kindly recheck the answers and send back the final answers to us at**

- 1. What concept can best describe Francisco’s to walk without support at age 12 months because of the “internal ripening” that occurred in his muscles, bones, and nervous system development?
a. Development b. Growth
c. Learning d. **Maturation**
- 2. Which situation best illustrates the concept of growth?
a. **A kinder pupil gains 2 pounds within 2 months**
b. A high school student gets a score of 85 in a mental ability test
c. An education student has gained knowledge on approaches and strategies in teaching different subject
d. An elementary graded has learned to play piano
- 3. Mr Miguel was very much worried about the thumb sucking of his son. A friend of him says that certain behaviour among infants. Who presented that notion that certain behaviour like thumb-sucking is a normal behavior?
a. **Sigmund Freud** b. Erik Ericson
c. John Bowilly d. Eric Bronfrenbenner
- 4. Lily focuses her attention on the school work and vigorous play that consume most her physical energy. Which stage of psychosexual theory illustrates her behaviour?
a. Oral b. Anal
c. Phallic d. **Latency**
- 5. JV develops an integral and coherent sense of self. He seeks answer to the question, “Who am i?” which of the following is JV likely to develop?
a. Initiative b. **Identity and role**
c. Intimacy d. **confusion**
Autonomy
- 6. In Piaget’s Theory of Cognitive Development, which of the following statements would illustrate Von who is 11 years old?
a. Able to see relationships and to reason in the abstract c. **Differentiates goals and goal-directed activities**
b. Unable to breakdown a whole into separate parts
d. Experiments with method s to reach goals
- 7. Melanie goes with her mother in school. She enjoys the workplace of her mother. Which of the following ecological theories is illustrated by the situation?
a. **Microsystems** b. Mesosystem
c. Exosystem d. Macrosystem
- 8. Imee no longer feels that she is below the level of her elders but equal and seeks personal independence. These are among the attributes of an individual in what particular stage?

- a. Infancy and early childhood b. Middle childhood c. **Adolescence** d. Early adulthood
- 9. Jillian believes that authority is respected. She is now in what particular level in the moral development theory of Lawrence Kohlberg?
a. Social contract b. **Law and order orientation**
c. Interpersonal concordance d. Universal ethics orientation
- 10. What is Freud’s idea about a young boy’s guilt feelings brought about by jealousy of his father’s relationship with his mother?
a. Electra complex b. **Oedipus complex**
c. Phallic complex d. Penis envy complex
- 11. Which of the following is true about human development?
a. Heredity is the process of transmitting biological traits from parents to off springs through genes
b. Development involves increase in the complexity of function and skill progression
c. Development pertains to the behavioral aspect of growth
d. **All of the above**
- 12. Which of the following is the correct order of psychosexual stages proposed by Sigmund Freud?
a. **Oral stage, anal stage, phallic stage, latency stage, genitals stage**
b. Anal stage, oral stage, phallic stage, latency stage, genital stage
c. Oral stage, anal stage, genital stage, latency stage, phallic stage
d. Anal stage, oral stage, genital stage, latency stage, phallic stage
- 13. What is the BEST discription of Erikson’s psychosocial thoery of human development?
a. **Eight crisis all people are thought to face**
c. The same number of stages as freud’s, but with different names
b. Four psychosocial stages in the latency period
d. A stage theory that is not psychoanalytic
- 14. In Eriksons’ theory, what is the unresolved crisis of an adult who has difficulty establishing a secure, mutual relationship with a life partner?
a. Initiative Vs Guilt b. Autonomy Vs Shame and Doubt c. **Intimacy Vs Isolation**
d. Trust Vs Mistrust
- 15. Which of the following provides the best broad description of the relationship between heredity and environment in determining height?
a. Heredity is the primary influence, with environment affecting development only in severe situations
b. Heredity and environment contribute equally to development
c. Environment is the major influence on physical characteristics

- d. Heredity directs the individuals' potential and environment determines whether and to what degree the individual reaches that potential**
16. When a baby realized that a rubber duck which has fallen out of the tub must be somewhere on the floor, he is likely to achieve what aspect of cognitive development?
- Object permanence**
 - Deferred imitation
 - Mental combinations
 - Goal directed behaviour
17. Erikson noted that when the preschoolers eagerly begin many new activities but are vulnerable to criticism and feeling of failure, they are experiencing what particular crisis?
- Identity Vs Role Confusion
 - Initiative Vs Guilt**
 - Basic trust Vs Mistrust
 - Efficacy Vs helplessness
18. Marlin, who is low-achieving, shy, and withdrawn, is rejected by most of her peers. Her teacher wants to help Joy increase her self-esteem and social acceptance. What can Marlyn's teacher suggest to her parents?
- Transfer her to a different school
 - Help their daughter improve her motor skills
 - Help their daughter learn to accept more responsibility for her academic failures**
 - Help their daughter improve her skills relating to peers
19. Fifteen-year-old RJ is preoccupied with her "disgusting appearance" and seems depressed most of the time. What is the best thing her parents can do to help her get through this difficult time?
- Ignore her self-preoccupation because their attention would only reinforce it
 - Encourage to "shape up" and not give in to self pity
 - Kid her about her appearance in the hope that she will see how silly she is acting
 - Offer practical advice, such as clothing suggestions, to improve her body image**
20. Which statement below best describes development?
- A high school student's height increased from 5'2" to 5'4"
 - A student had learned to operate the computer**
 - A high school students' change in weight from 110 lbs to 125lbs
 - A students' enlargement of hips
21. Teacher Franco gives the class specific topic as assignment which they have to research and pass the following day. However, the students could not find any information about it. What method should Teacher Franco use to teach the assignment?
- Project method
 - Discovery approach
 - Lecture method**
 - Demonstration method
22. Teacher Rhea teaches in a remote high school where newspapers are delivered irregularly. Knowing the importance of keeping the students aware of current affairs, what is probably the best way to keep the students updated?
- Gather back issues of newspapers and let pupils compile them
 - Urge the pupils to listen to stories circulating in the community
 - Encourage the pupils to listen to daily broadcast from a transistor radio**
 - The teacher should try all available means to get the newspaper delivered to the school
23. Devices can make a lecture more understandable and meaningful. What is the most important thing a teacher should consider in the selection and utilization of instructional materials?
- Objectives of the lesson**
 - Attractiveness of instructional material
 - Availability of instructional material
 - Degree of interest on the part of the students
24. Teacher Rose asks student Pia to identify and analyzed events, ideas or objects in order to state their similarities and differences. In which part of the lesson does the said activity take place?
- Preparation
 - Generalization
 - Application
 - Comparison and abstraction**
25. Teacher Luffy wants the class to find out the effect of heat on matter. Which method will help him accomplish his objective?
- Preparation
 - Generalization
 - Application
 - Comparison and abstraction
26. Which of the following characterizes a well-motivated lesson?
- The class is quite
 - The teachers can leave the pupils to attend to some activities
 - The children have something to do
 - There are varied procedures and activities undertaken by the pupils**
27. Learners must be developed not only in the cognitive, psychomotor but also in the affective aspect. Why is the development of the latter also important?
- It helps them develop a sound value system**
 - It helps them develop an adequate knowledge of good actions
 - Their actions are dominated by their feelings
 - Awareness of the consequences of their action is sharpened
28. The strategy of teaching which make use of the old concept of "each-one-teach-one" off the sixty's is similar to
- Peer learning
 - Independent learning
 - Partner learning**
 - Cooperative learning

29. Which of the following is NOT true?
- a. Lesson plan should be in constant state of revision
 - b. A good daily lesson plan ensures a better lesson
 - c. **Students should never see a teacher using a lesson plan**
 - d. All teachers regardless of their experience should have daily lesson plan
30. Teacher Chopper, a physician education teacher, demonstrate the new skill to be learned so that his students can watch him and later reproduce the skill. What learning theory is associated with the situation?
- a. Dual-Coding learning theory
 - b. Information processing
 - c. Schema Learning Theory
 - d. **Social Learning**
31. Teacher Nami, a music teacher, is careful in planning activities for each lesson. She praises liberally and rewards correct answers. What view of learning is exhibited?
- a. Classical conditioning
 - b. Meaningful learning
 - c. **Operant conditioning**
 - d. Social learning
32. Which of the following best describes what meaningful learning is?
- a. When what is to be learned is new and easy for the students
 - b. Materials presented is difficult and challenging to the students
 - c. **When the materials to be learned is related to what students already know**
 - d. Students find the lessons easy and relevant to what was assigned to them
33. What is NOT a technique in motivating learners?
- a. The teacher is building on the students strengths first
 - b. The teacher offers choices to develop students' ownership
 - c. Provide a secure environment which permits children to fail without penalty
 - d. **Encourage them to take opportunities beguilingly**
34. After just being introduced to another guest in the party, Usopp cannot remember the name of the guest he was introduced to. In what memory stage was the information stored in?
- a. Episodic memory
 - b. Semantic memory
 - c. **Sensory memory**
 - d. Working memory
35. Vgotsky claimed that social interaction is important for learning. What does this imply?
- a. Children are independent problem solvers
 - b. **Children learn from adult and other children**
 - c. Children learn well by passive presentation of information
 - d. Children in the crib has no leaning yet, since they are not capable off interaction
36. One of the requirements of Teacher Roro in his class is a case study. He grouped his class into four and asked each ggroup to prepare a case to present their view about the topic. What cognitive domain is displayed?
- a. **Evaluation**
 - b. Knowledge
 - c. Synthesis
 - d. Analysis
37. Based on bandura's theory, which conditions must be present for a student to learn from a model?
- i. Attention
 - ii. Retention
 - iii. Motor reproduction
 - iv. Motivation
- a. I and ii
 - b. I,ii, and iii
 - c. I,ii,ii and iv
 - d. Iii and iv
38. A burglary occurred in Robin's neighbourhood. Since then, Robin is very careful of locking their doors and closing windows. What theory best explains jason's behaviour?
- a. Observational learning
 - b. Imitation learning
 - c. Self-reguated learning
 - d. **Vicarious learning**
39. Ichigo is bilingual. He speaks both English and Filipino fluently. He begins to study Spanish and immediately recognizes many similarities between the Spanish and Filipino languages and uses this information to acquire the new language faster. What kind of transfer was Ichigo able to use?
- a. **Lateral transfer**
 - b. General transfer
 - c. Specific transfer
 - d. Vertical transfer
40. Some learners like to find specific and concrete answers. What kind of learners are they?
- a. Accommodators
 - b. Assimilators
 - c. **Convergers**
 - d. Divergers
41. Which is NOT a provision for the development of each learner in a good curriculum?
- a. Extensive arrangements are made for the educational diagnosis of individual learners
 - b. Self-directed, independent study is encouraged wherever possible and advisable
 - c. Self-motivation and self-evaluation are stimulated and emphasized throughout the learning opportunities of the school
 - d. **The program provides a wide range of opportunities for individuals with same abilities, needs, and interest**
42. Teacher Rukla would like to take part in developing a subject-centered curriculum because she believes that all subjects in this type of curriculum are geared towards the holistic development of the learner. Is her belief about the subject centered curriculum true?
- a. Yes, because the subject-centered curriculum focuses on the learner's needs, interests, abilities
 - b. No, because it is the experience-centered curriculum that emphasizes the teaching of facts and knowledge for future use

- c. Yes, because the subject-centered curriculum involves cooperative control
- d. **No, because it is the experience centred and not the subject-centered curriculum that emphasizes integration of habits and skills in learning the knowledge component of a subject area**
43. This phase of curriculum development involves decisions, among other things, on grade placement and sequencing of content. Which phase is this?
- a. **Curriculum planning** b. Curriculum evaluation
c. Curriculum organization d. Curriculum implementation
44. A stakeholder in curriculum development, Mr. Gin, a district supervisor and a member of the school board has one of the following primary roles. Which one is this?
- a. Support and participate in parent –school organization activities
- b. **Authorize school expenditures for curriculum development, implementation and evaluation**
- c. Enact legislations to effect curriculum development
- d. Recommend changes in curriculum
45. What design element establishes the vertical linkage from level to level to avoid glaring gaps and wasteful overlaps?
- a. Articulation b. **Balance**
c. Scope d. Sequence
46. Which is NOT a component of curriculum design?
- a. Objective b. Learning content
c. Learning experience d. **Diagnosis of needs**
47. To ensure success in curriculum development, which of the following specific actions should a curriculum leader avoid?
- a. Work with people not over them
c. Keep channels communication open
- b. **Use your status frequently to establish discipline**
d. Show that you too desire to improve
48. What do call the curriculum when the teacher puts into action all the different planned activities in the classroom?
- a. Recommended curriculum b. Written curriculum
c. **Taught curriculum**
d. Supported curriculum
49. Combined with geography, civics and culture, and history to comprise one subject area. Which design is this?
- a. **Correlated** b. Broadfields
c. Separate subject d. Core
50. Schools divide the school hours to different subjects such as reading, grammar, literature, math, science, history and geography. What curriculum design is referred here?
- a. Problem-centered b. Learner-centered
c. **Subject-centered** d. Culture-based
51. Ms. Lucy is planning to integrate technology in her mathematics class. Which of the following would be the logical steps in doing this?
- i. Set the oobjectives
ii. Analyze the learner
iii. Utilize the materials with showmanship
iv. Evaluate the performance of the students
- a. i-ii-iii-iv b. **ii-i-iii-iv**
c. i-ii-iv-iii d. ii-i-iv-iii
52. Mrs De Leon placed text together with the relevant graphics on the same page in her multimedia presentation. Which principle did she apply?
- a. Spatial contiguity b. Feedback principle
c. Cost effectiveness d. **Communication effectiveness**
53. Which of the following statements has a very limited definition of educational technology?
- a. It is a profession composed of various job categories
- b. **It refers to the computer used for teaching and learning**
- c. It includes audiovisual materials, interactive multimedia, and self-instructional materials
- d. It is the development, application, and evaluation of systems, techniques and aids to improve human learning
54. Which of the following should Mr. Aizen primarily consider in determining his teaching-learning objectives and use of instructional media?
- a. The assessment tool to be used b. The learning activities
c. **The learner** d. The teacher
55. Mr Chad, an ICT teacher, takes into account technology standards to address the needs of the students and help them adapt with the changing society and technology. Which of the following standards is an exception?
- a. Creativity and innovation
c. **Model digital-age work and learning**
b. Research and information literacy
d. Technology operations and concepts
56. Mr Uryu, a computer teacher demonstrates understanding of local and global issues and exhibits ethical and legal use of information and communication technology tools. Which is true about him?
- a. He models digital-age work learning
b. He facilitates and inspires student learning and creativity
c. **He promotes and models digital citizenship and responsibility**
d. He designs and develops digital-age learning experience and assessment

57. There are several reasons why teachers are reluctant in using electronic media in the teaching-learning process. Which is the most common reason?
- a. **The limited exposure of teachers to new equipment**
 - b. Their incompatibility to diverse needs of the learners
 - c. The difficulty in integrating technology in the curriculum
 - d. The excessive availability of local technology in the community
58. Which of the following is an ineffective use of Presentation Software?
- a. Darken the room b. Use appropriate pacing
 - c. **Read directly from the slides** d. Allow interaction with the learner
59. Internet consists of thousands connected computer networks around the world. Which term does NOT refer to internet?
- a. NET b. **On-line** c. Cyberspace
 - d. Information superhighway
60. Which technology tool can Prof. Inoue use to communicate asynchronously with her students?
- a. Chat and blog b. **Chat and instant messaging**
 - c. Blog and video conferencing d. Electronic bulletin board and email
61. Mr Urahara is judging the accuracy of these statements. Which statements will he consider as correct?
- i. Test is a tool to measure a trait
 - ii. Measurement is the process of qualifying a given trait
 - iii. Assessment is the gathering of quantitative and qualitative data
 - iv. Evaluation is the analysis of quantitative and qualitative data for decision making
- a. i and ii b. iii and iv c. i, ii, and iii
 - d. **i, iii, iv**
62. You targeted that after interaction, your student should be able to show their ability to solve problems with speed and accuracy. You then designed a tool to measure this ability. What principle of assessment did you consider in this situation?
- a. **Assessment should be based on clear and appropriate learning targets or objectives**
 - b. Assessment should have a positive consequence on students' learning
 - c. Assessment should be reliable
 - d. Assessment should be fair
63. Ms Nanao tasked her students to show how to play basketball. What learning target is she assessing?
- a. Knowledge b. Reasoning
 - c. **Skills** d. Products

64. Ms Lisa wants to determine if the Student's score in their Final Test are reliable. However, she has only one set of test and her students are already on vacation. What test of reliability can she employ?
- a. Test-retest b. **Kuder Richardson method**
 - c. Equivalent forms d. Test-retest with equivalent forms
65. In the context of the Theory of Multiple Intelligence, which is a weakness of the paper-pencil test?
- a. **It puts non-linguistically intelligent at a disadvantage** c. It utilizes so much time
 - b. It is not easy to administer d. It lacks reliability
66. At the beginning of the school year, the 6-year-old pupils were tested to find out who among them can already read. The result was used to determine their sections. What kind of test was given to them?
- a. Diagnostic b. Formative
 - c. **Placement** d. Summative
67. Mr Omaeda developed an achievement test in math for his grade 3 pupils. Before he finalized the test, he examined carefully if the test items were constructed based on the competencies that have to be tested. What test of validity was he trying to establish?
- a. **Content-validity** b. Concurrent validity
 - c. Predictive validity d. Construct validity
68. Ms Sorfon who is a high school teacher in English conducted an item analysis of her test. She found out that four of the items of the test obtained the following difficulty and discrimination indices and as follows:

ITEM NUMBER	DIFFICULTY INDEX	DISCRIMINATION INDEX
1	.58	.49
2	.92	.72
3	.09	.32
4	.93	.15

Which of the above items should she disregard in her item pool?

- a. Item 1 b. Item 2 c. Item 3
 - d. **Item 4**
69. If the number of students per group is 15 with the upper and lower group as 10 and 4 respectively, what is the discrimination index?
- a. **.40** b. .50 c. .60
 - d. .70
70. Mr Iba asked his pupils to indicate on a piece of paper the names of their classmates whom they would like to be with for some group activity. What assessment technique did Mr Iba use?
- a. Self-report technique b. Guess-who technique
 - c. **Sociometric technique** d. Anecdotal technique

71. The Department of Education gives greater emphasis on the development of basic skills. What is the philosophical basis for this?
- a. **Essentialism**
 - b. Existentialism
 - c. Perennialism
 - d. Pragmatism
72. Why should a teacher take the obligation upon himself to study and understand the custom and traditions of the community where he works?
- a. To change the culture of the community
 - b. **To have a sympathetic attitude for the people of the community**
 - c. To identify the weaknesses of the culture of the community
 - d. To please the people of the community
73. A teacher, who is a recognized expert in carpentry works, taught his students how to prepare and construct good and aesthetic furniture from local resources. What cultural transmission process is this?
- a. Acculturation
 - b. **Enculturation**
 - c. Indoctrination
 - d. Observation
74. With a death threat over his head, Teacher Kira is directed to pass an undeserving student. If he is a hedonist, which of the following will he do?
- a. Don't pass him, live by his principle of justice. He will get reward, if not this life, in the next
 - b. Don't pass him. He surely will not like someone to give you a death threat in order to pass
 - c. Pass the student. That will be use to him, the student, and his parents
 - d. **Pass the student. Why suffer the threat?**
75. In a study conducted, the pupils were asked which nationality they prefer if given a choice. Majority of the pupils wanted to be Americans. In this case, in which obligation relative to the state are schools seemed to be failing?
- a. Instil allegiance to the constitutional authorities
 - b. **Promote national pride**
 - c. Promote obedience to the laws of the state
 - d. Respect for all duly constituted authorities
76. Religious rituals in the classroom and in the school programs prove the deep natural religiosity of the Filipinos. Which philosophy has greatly contributed to this tradition?
- a. **Buddhism**
 - b. Confucianism
 - c. Hinduism
 - d. Islam
77. Homeroom advisers always emphasize the importance of cleanliness of the body. Children are taught how to wash their hands before and after eating. What is this practice called?
- a. Folkway
 - b. Laws
 - c. **Mores**
 - d. Social norm
78. A teacher who subscribes to the pragmatic philosophy of education believes that experience should follow learning in her teaching. Which of the following does she do to support her belief?
- a. Encouraging learners to memorize factual knowledge
 - b. Equipping learners with the basic abilities and skills
 - c. **Providing learners opportunities to apply theories and principle**
 - d. Requiring learners full mastery of the lesson
79. Which of the following is NOT a function of the school?
- a. Changing cultural practices
 - b. Development of attitude and skills
 - c. **Reproduction of species**
 - d. Socialization among children
80. Teacher Unohana, a values education teacher emphasizes ethnics in almost all her lessons. Which of the following emphasizes the same?
- a. **Liberal education**
 - b. Moral education
 - c. Religious training
 - d. Social education
81. How is gradual progression of teachers' salary from minimum to maximum done?
- a. Regular increment every year
 - b. Increment after 10 years of service
 - c. **Regular increment every 3 years**
 - d. Increment after 5 years
82. Which of the following rights is intended for parents under education act of 1982?
- a. **The right to academic freedom**
 - b. The right to privacy communication
 - c. The right to seek redress of grievance
 - d. The right to full access to the evidence of the case
83. Teacher Shinji has been in active service for 10 years when he decided to pursue higher studies. Under R.A 4670, what kind of leave of absence can he avail of?
- a. Indefinite leave
 - b. Scholarship leave
 - c. **study leave**
 - d. Vacation leave
84. When can teacher be required to work on assignment not related to their duties?
- a. When on probation
 - b. When found inefficient
 - c. When lacking in educational qualifications
 - d. **When compensated under existing laws**
85. Teacher Momo, a graduate of BSEd with majorship in English teaches in a national high school in her province. Since she has been rated outstanding in her performance, can she be exempted from taking the LET?
- a. Yes, that is privilege that must be given to teachers whose performance is outstanding
 - b. Yes, if approved by PRC
 - c. **No, it is against RA 7836**
 - d. No, professional license is required of all teachers regardless of age and teaching performance

86. Which of the following is true about the teacher as a person under the Code of Ethics for Professional Teachers?
- a. Live with dignity at all times wherever he/she is
 - c. Place premium upon self respect and self-discipline
 - b. Serve as a model worthy of emulation
 - d. All of the above**
87. A schools' academic coordinator has been found to have engaged in gambling which has cursed him to be absent most of the time. Can his certificate of registration as a teacher be revoked?
- a. No, unless he's proven guilty
 - b. No, because he's protected by his rights as teacher
 - c. Yes, because he's incompetent
 - d. Yes, because habitual gambling is a dishonourable conduct and is against the practice of teaching**
88. Mr. Ginrei, a school superintendent, filed his statement of assets and liabilities upon assuming to office. Under what ethical standard does this practice fall?
- a. Divestment
 - b. Prohibited Acts and Transaction
 - c. Statement of assets and liabilities**
 - d. System of incentives
89. Which of the following is NOT in the norms of conduct under RA 6713?
- a. Professionalism
 - b. Just and sincerity
 - c. Commitment to public interest
 - d. Responsiveness to the private**
90. Teacher Byakuya suffers from hypertension and experiences difficulty in speech. Which would be affected if he continues teaching?
- a. Personality
 - b. Punctuality
 - c. Effectiveness**
 - d. Devotion to duty
91. What is the concern of multicultural education?
- a. Anticipating the future and imagining possible and probable futures
 - b. Gender equality and harnessing of the role of women in development
 - c. Promoting care for the environment and building a global culture of ecological responsibility
 - d. The exploration of concepts of cultural diversity, similarities, and prejudices to promote cultural understanding**
92. What pillar of education emphasizes learning to be human, through acquisition of knowledge, skills and values conducive to personality development?
- a. Learning to know
 - b. Learning to do
 - c. Learning to live together
 - d. Learning to be**
93. A class is composed of students coming from several ethnic communities including Muslims and Lumads. They seem to have difficulty understanding each others' behaviour and points of view. What should the teacher do?
- a. Introduced multiculturalism in the class and provide activities for practice**
 - b. Threaten the students that if there are students who do not behave and tolerate their classmates, they will be dropped from class
 - c. Inform students that they will all be learning new ways of thinking and behaving in this class, so they might as well leave their cultural idiosyncrasies at home
 - d. Assign bright students to monitor and control behaviour of poor students
94. Which of the following is the first target of the Millennium Development Goals (MDG's) formulated by member states of the UN in September 2000?
- a. Reduce child mortality
 - c. Reduce death due to HIV/AIDS and malaria
 - b. Eradicate extreme poverty and hunger**
 - d. Achieve universal access to primary education
95. What is the kind of education that emphasizes human-earth relationships and fosters a vision of education for sustainable development to build a global culture of ecological responsibility?
- a. Human rights education
 - b. Development education
 - c. Environmental education**
 - d. Global education
96. With the growing competition brought about by globalization, what is preferred by most employers in hiring their employees?
- a. **Flexible**
 - b. Selective
 - c. Quick
 - d. None of the above
97. What United Nation Decade are we celebrating for 2005-2014?
- a. Educating for culture of peace
 - c. Educating for sustainable development**
 - b. Educating for international understanding
 - d. Promoting the rights of the elderly
98. What current trend in education focuses on the study of the basic concepts, beliefs, and values underlying our democratic political community and constitutional order?
- a. **Civic education**
 - b. Development education
 - c. Peace education
 - d. Multicultural education
99. Which pillar of education of J. Delors (UNESCO) focuses on voc-tech relevant to people-centered human development?
- a. Learning to know
 - b. learning to do**
 - c. Learning to live together
 - d. Learning to be
100. UNICEF and UNESCO are two key UN agencies which are particularly active advocates of education of peace. Which of the following is not supported by UNESCO in promoting peace in the schools?
- a. Uphold children's basic rights as outlined in the Convention on the Rights of the Child (CRC)

- b. Develop a climate that models peaceful and respectful behaviour among all members of the learning community
 - c. Demonstrate the principle of equality and non-discrimination in administrative policies
 - d. Enable the teachers to stress peace-making in social studies classroom only when necessary**
- 101.** Which of these statements regarding professional teachers is the major difference in the professionalism of teachers and teaching as promulgated in Presidential Decree 1006 and in Republic Act 7836?
 - a. Holder of valid professional licence and certificate of registration**
 - b. Appointed of full time basis and permanent status
 - c. Assigned at the elementary and secondary levels in both public and private schools
 - d. Assigned at the tertiary level in both private and state colleges and universities
- 102.** Which principle of development is manifested in the saying “as the tree is bent, so shall it grow”, that is a “a person’s actions reflect the training he receives as a child”?
 - a. The early formative years are more crucial than later development
 - b. Development is determined by the environment or how one is nurtured**
 - c. Development is determined by heredity or one’s inherent nature
 - d. It is never too late to teach a child new ways
- 103.** Should a teacher involve her/his students in planning the instructional objectives before starting a lesson?
 - a. Yes, they will be given a tip on what question to ask
 - b. Yes, with shared objectives, they become self-motivated**
 - c. No, they will not ready for it at the beginning
 - d. No, with cognitive objectives at the start, irrelevant questions are formulated
- 104.** What is the advantage of using the project method in science teaching?
 - a. It requires assistance of experts on the subject
 - b. It develops high-level thinking and learning
 - c. It tests the students manipulative skills
 - d. It requires students to present in concrete form how principle works**
- 105.** The heroism of Jose Rizal exemplifies kholberg’s theory of moral development. Which is Rizal’s characteristic?
 - a. He gives important to what people think or say
 - b. He is motivated to act by the benefit he gets later
 - c. He believes laws that are wrong can be changed
 - d. He possesses moral responsibility to make social changes regardless of consequences to one self**
- 106.** Cooperative learning approach makes use of a classroom organization where students work in terms to help each other learn. What mode of grouping can facilitate the skill and values desired?
 - a. Competitive
 - b. Heterogenous**
 - c. Homogenous
 - d. Whole class
- 107.** A teacher earns a title “professional” if he/she is knowledgeable, proficient in a variety of teaching methodologies and exhibits a high degree of component of competence which is/are:
 - a. Ethical and moral standards**
 - b. A high degree of dexterity
 - c. Fairness and objectivity
 - d. Mastery of content
- 108.** As a parent at the same time a teacher, which of the following will you do to show your cooperation to a PTA project in your school to be financed with the proceeds of the sales from the school canteen where foods process are a little bit higher?
 - a. Bring baon enough for you and your children even if you really don’t like to do it
 - b. Buy all your food from the school canteen even if you cannot afford everyday
 - c. Buy all your food in the school canteen but request for a discount
 - d. Bring baon but always make it a point to buy something from the school**
- 109.** When a teacher practices professional ethics, which of the following he is not likely to do?
 - a. Shares an outstanding outcome or undertaking with others
 - c. Resects his superior
 - b. Maintain cordial relationship with colleagues
 - d. Engages in gossips**
- 110.** Which of the following will you do if somebody confided to you an offense which will implicate your brother?
 - a. Advise the person who confided to you to get the services of the lawyer
 - b. Encourage him to keep quite so as not to implicate your brother
 - c. Find out the full account of the matter
 - d. Tell him to report the matter to the authorities**
- 111.** A police officer informs you that there has been a rush of stealing within the vicinity of the school. He asks you for the names of some clients you believe might have been involved. Which of the following will you do?
 - a. Provide him with the names of likely suspects
 - b. Ask him to seek permission from the principal
 - c. Remind the police officer of confidentiality of information**
 - d. Promise him that you will ask information about the crime
- 112.** Parents and teachers are considered as authorities and models by children at the early childhood stage. What does this statement imply?
 - a. Parent-teacher conference should always be an activity in school
 - b. Teachers and parents should serve as a role model at all times**

- c. Teachers should demand complete obedience from the learners in school
d. Parents should enforce strict discipline at home and teachers in school

113. The child's concept of right and wrong is based on external criteria laid down by adults during the stage of pre-conventional morality. This is based on the ideas of:
a. Piaget b. Erikson
c. Kohlberg d. Freud

114. According to piaget's stages of cognitive development, between ages 12 and 15 children reach formal operational stage. What are they capable of doing at this stage?
a. **Can solve abstract problems and think deductively** c. Can focus on one aspect of a situation or event
b. Reasoning is neither inductive nor deductive d. Intelligence is intuitive in nature

115. Field trip is an effective way of teaching where organisms could be observed in their natural habitat, active and responding to stimuli in the environment. In addition, what values are developed among the students during and after the trip?
a. On-the-spot observation to keep them active
c. Love of nature, proper behaviour during exploration
b. Freedom in an open space than in classroom
d. Considerations of the rights of the others

116. How can a teacher enhance his/her questioning technique for an effective teacher-student interaction?
a. Immediately call another student in case one cannot answer **c. Allow sufficient "think time" at least 7-10 seconds**
b. You may answer your own question if no one can d. Extend wait time until the student responds

117. A teacher who advocates the pragmatic philosophy of education believes that experience should follow learning, thus she has to:
a. Equip her students with basic skills and abilities
c. Provide her students to apply their skills and abilities

d. Require her students mastery of the lesson

118. Basic education includes secondary education. Which of the following led to the establishment of the secondary school?
a. Realistic b. Reformation
c. Idealism d. Humanism

119. Children with sub average intelligence and deficits in adaptive behaviour experience difficulty in managing daily activities and in conducting themselves appropriately in social situations are diagnosed to be suffering from a kind of disability called:

a. Health impairment b. Emotional disorder
c. Attention deficit disorder **d. Mental retardation**

120. Which type of students do teachers commonly neglect?
a. Slow learner b. Average
c. Genius d. Frequent absentee

121. Free public elementary and secondary education is in line with the governments' effort to address educational of?
a. Relevance and quality **b. Access and equity**
c. Effectiveness and efficiency d. Productivity

122. The teacher's role in the classroom according to cognitive psychologist is to:
a. Help the learner to connect what he knows with the new information learned
b. Dictate what the learners need to know
c. Fill in minds of the learner with information
d. Make the learning task easy for the learner

123. Transition age form childhood to adulthood where rapid physical changes and sex maturity occur resulting in changes in ways of feelings, thinking, and acting.
a. Early adulthood **b. Adolescence**
c. Puberty d. Latency stage

124. The reinforcement of a persons' responses by presentation or removal of rewards and punishments:
a. Transfer learning b. Discipline
c. Feedback principle **d. Operant conditioning**

125. Instructional objectives in the affective domain includes receiving, responding, valuing and the highest level is:
a. Selective attention or willingness to receive
c. Acceptance or preference
b. Conceptualization of a value system
d. Sequence or feelings of satisfaction

126. Difficulty in focusing and maintaining attention coupled with, recurrent hyper active and impulsive behaviour are observed difficulties of children manifesting a kind of difficulty known as:
a. Dyslexia b. Autism c. Sensory impairment
d. Attention deficit hyperactivity disorder

127. A review lesson to be an effective tool for mastery learning must be:
a. **Drill lesson** b. Test format c. Re-teaching but presented in different way
d. Repetition of old lesson

128. When a students are given a chance to settle different opinion of discussion they develop:
a. **Tolerance** b. Irritants
c. Fair play d. Sociability

129. Journal written by students at the completion of a days' lesson will reveal which information than can serve as a guide in planning the next lesson?

- i. Part of a lesson well understood or not
- ii. Topics most interesting
- iii. Difficulties experienced
- iv. Emotional state throughout

- a. **i, ii, iii**
- b. i and ii
- c. i and iv
- d. iii only

130. An education for globalization should nurture the higher order cognitive skill and interpersonal skills in order to develop

- a. Students' awareness of the world in which they live inn
- b. Ability to think creatively and ethically
- c. Ability to master one's national origin
- d. **Openness to diverse heritage and culture**

131. How can a teacher establish the reliability test?

- i. Repeat the same test
- ii. Administer a parallel test
- iii. Split the test
- iv. Vary the number of items

- a. **i, ii, iii**
- b. i, iii, iv
- c. i and iv
- d. ii and iv

132. On which policy is RA 4670 known as the Magna Carta for Public School Teachers Focused?

- a. Right to establish or join organization
- b. Code of ethics for professional teachers
- c. Recruitment shall take place after training
- d. **To promote and improve anti-social economic status of public school teachers**

133. The use of TV and film bring the classroom "live broadcast" of the world events as they happen. What are the other advantages of using it? The students are provided

- i. Exciting sounds and sights
- ii. Close up view of big events
- iii. Most believable news source

- a. **i, ii, iii**
- b. i and ii
- c. i and iii
- d. ii and iii

134. What are the sources of ones' educational philosophy?

- i. People and kinds of relationship
- ii. School and teachers in them
- iii. Socio cultural environment

- a. **i, ii, iii**
- b. i and ii
- c. ii and iii
- d. ii and iii

135. What can be said of students' performance in a positively skewed score distribution?

- a. **Most students performed poorly**
- b. Most students performed excellently
- c. Almost all students had average performance
- d. Most students performed well

- b. A few students performed excellently
- d. Most students performed well

136. The following are the characteristics of a good teaching/learning practice except:

- a. **Students are governed by fixed and rigid standards**
- b. Life-like situations introduces as learning experiences in classroom
- c. Students are given more opportunities or act or experience learning
- d. Evaluation is made an integral part of teaching procedures

137. Which of the following principles highlights that of multiple intelligence?

- a. People have different Intelligence Quotient(IQ)
- b. **Intelligence is measured in multiple forms**
- c. Learning is static and permanent
- d. Best learning theory is cognitive in nature

138. Which of the following is not a developmental principle?

- a. Development follows an orderly, predictable sequence
- b. Numerous studies show how individual develops
- c. Early development is more crucial than later development
- d. **Presence of social expectations in early developmental stage**

139. Which questioning technique would be appropriate for inductive lessons?

- a. Questioning only the more motivated students
- b. **Activity involving students in the questioning process**
- c. Using questions requiring only memory responses
- d. Teachers will not ask any questions

140. A teaching method which proceeds from the details of a lesson towards generalization is:

- a. Deductive
- b. **Inductive**
- c. Debate
- d. problem solving

141. Grades become valid indicators when _____

- a. Giving objective type of test
- b. Using letter grades such as A, B, C, D
- c. Explaining the meaning of grades or marks
- d. **Course objectives are defined as intended learning outcomes**

142. The non-verbal symbols used to maximize learning are referred to as:

- a. **Instructional devises**
- b. Classroom techniques
- c. Field trips
- d. Educational media

143. What contemporary aid to teaching utilizes carefully-planned materials where each step of learning requires repetition and practice until such step is thoroughly learned?

- a. **Programmed instruction**
- b. Keypunching
- c. educational television
- d. educational hardware

144. Which of these is not quality of a good teacher?
- a. A mastery of the subject matter
 - c. Aims to become rich thru teaching**
 - b. Broad background of liberal education
 - d. Understand the nature of learners
145. To accomplish many good activities in a particular class period, the teacher must provide?
- a. Additional curricular activities
 - c. Institute a systematic plan**
 - b. Provide unique teaching aids
 - d. Use of expensive materials
146. One way to encourage a students who lacks interest in reading to love reading is to:
- a. Reprimand him
 - b. Ask the parents to by books
 - c. Provide reading materials**
 - d. Isolate him
147. If the teachers encounters a student who is reluctant to attend classes, the teacher should_____ to encourage him to go to class regularly.
- a. Report the matter to principle
 - c. Praise the student sincerely**
 - b. Scold him
 - d. Report the matter to the parents
148. Referred to as the knowledge and skills which the learner is expected to accumulate and develop at the end of the class
- a. Individual skills
 - b . Terminal behaviour**
 - c. Special talent
 - d. Dominant behavior
149. Which of the following situation would indicate that you, as a teacher, had been effective in instilling discipline among your students?
- a. **Students have develop concern to each other**
 - c. Students behave because an award awaits them
 - b. Fear and fright resulting in good behaviour
 - d. Your presence results in their being behave
150. Which of the following style or technique would make you the teacher a good classroom manager, “teacher with eyes on the back of her head”?
- a. Give your students the “head-to-toe” look when angry
 - c. Fear and fright dominates the classroom atmosphere
 - b. Uses eye contact technique with your students
 - d. Being aware of all actions and activities in the classroom**

1. This Test Booklet contains 150 test questions.
2. Detach one (1) answer sheet from the bottom of your Examinee ID/Answer Sheet Set.
3. Write the subject title “PROFESSIONAL EDUCATION” on the box provided.
4. Shade Set Box “A” on your answer sheet if your test booklet is Set A; Set B if your test booklet is Set B.
5. Shade only one (1) box for each question on your answer sheets. Two or more boxes shaded will invalidate your answer. There is only one answer to each question.
6. AVOID ERASURES.
7. This is ST. LOUIS REVIEW CENTER PROPERTY. Unauthorized process or reproduction, and or sale of this test booklet is punishable by law.

MULTIPLE CHOICE:

1. Which of the following statements is TRUE about teacher – parent relationship?
 - a. Parents should be welcomed in school and treated with consideration
 - b. Parents should be welcomed only during PTA meeting
 - c. Parents are given the rights to interfere in school management
 - d. Parents should be given a hand in evaluating students performance in school
2. You have a student who is always boasting in the class his mastery of the Bible because he is a Protestant. How would you react being a Catholic?
 - a. Challenge him to debate
 - b. Share with him knowledge of the Bible
 - c. Keep silent and respect his belief
 - d. Listen to him once in a while
3. In her desire to help the children build their vocabulary, she maintains a small board at the corner of her classroom for the “Word of the Day” to teach the children one new word each day. Which method of vocabulary building does she employ?
 - a. Incidental attention to building meaning
 - c. Wide reading
 - b. Direct vocabulary instruction
 - d. All of the above
4. The teacher’s role in the classroom according to cognitive psychologists is to:
 - a. Make the learning task easy for the learner
 - b. Fill the mind of the learner with information
 - c. Dictate what to learn upon the learner
 - d. Help the learner connect what she knows with new information from teacher

PROFESSIONAL EDUCATION – SET A

PROFESSIONAL EDUCATION
– 150 items

5. Which is the first step in planning an achievement test?
 - a. Decide on the length of the test
 - c. Define the instructional objective
 - b. Build a table of specification
 - d. Select the type of test items to use
6. One strength of autobiography as a technique for personality appraisal is that:
 - a. It gives complete data about the author
 - b. It can replace data obtained from other data-gathering technique
 - c. It may be read by authorized people
 - d. It makes possible the presentation of intimate experiences that cannot be revealed
7. The same test is administered to different groups at different places at different times. This process is done in testing the:
 - a. Objectivity
 - b. Validity
 - c. Reliability
 - d. Comprehensiveness
8. As a parent and at the same time a teacher, which of the following will you do to show your cooperation to a PTA project in your school to be financed with the proceeds of the sales from the school canteen where food prices are a little bit higher?
 - a. Buy all your food in the school and request for a discount
 - b. Bring "baon" for you and your children but always make it a point to buy something from the school canteen
 - c. Bring "baon" enough for you and your children even if you really do not like to do it
 - d. Buy all your food from the canteen even if you cannot afford to do so everyday
9. You teach in a "privileged" school where each classroom is air conditioned. Aware of the present economic problems of the country, how do you think your schools can contribute to the solution of this problem of the country?
 - a. Students cannot be made to sacrifice and recite in warm classrooms especially that they do not directly cause the country's economic problem
 - b. Air conditioning of classrooms could cut off on certain days especially if they are not in use
 - c. Savings on cutting down air conditioning could be spent on other worthwhile activities for the students
 - d. Air-conditioning is such a small matter that savings on it could hardly affect the economy
10. Jonas, age 8, was removed from her class for frequent fights with other children. He refused to be disciplined and was to focus in class only

for a very short time. He also had frequent tantrums. He is suffering from:

- a. Mental retardation
 - c. Down syndrome
 - b. Learning disability
 - d. Attention-deficit hyperactivity disorder
11. When a teacher practices professional ethics, which of the following he is NOT likely to do?
 - a. Maintains cordial relationship with his colleagues
 - b. Shares an outstanding outcome of an undertaking with others
 - c. Engages in gossips
 - d. Respects his superiors
 12. Which instructional aid requires pupils to perform?
 - a. Comic books
 - b. Mock up
 - c. Film
 - d. Pantomime
 13. In his relationship with his superiors the teacher should:
 - a. Work with self-vested interests
 - b. Work with them without expecting any material benefits
 - c. Expect to be promoted for every favor done to them

d. One who dresses properly, arranges her hair meticulously, and certain only high officials of government and schools
18. Who are not covered by the Code of ethics of Professional Teachers?
a. Teachers of academic, vocational, special, technical or non-formal institutions
b. All full time or part time public and private school teacher and administrator
c. Teacher in the tertiary level
d. Teacher in all educational institutions at the preschool , elementary and secondary level
19. Pick out the teacher student relationship that was violated when Miss Vega gave Marie a grade of 75% in her science class due to poor conduct?
a. A teacher should not make deductions on pupils scholastic ratings for acts that are manifestations of poor moral values
b. A teacher may deduct on pupil's scholastic ratings for acts that are manifestations of poor moral values
c. Maintains an instructional program that stresses a traditional academic education
d. Rely on the media to improve the image of the school
20. A police officer informs you that there has been a case of stealing within the vicinity of the school. He asks you for the names of some students you believe might have been involved. Which of the following will you do?
a. Remind the police officer of confidentiality of information
b. Promise him that you will ask information about this crime
c. Provide him with the names of likely suspects
d. Ask him to seek permission from the principal
21. The lesson is on the pros and cons of declaring a state of rebellion in the country. Teacher wants his students to arrive at a view of the declaration of the state of rebellion from different perspectives. Which technique will be most appropriate?
a. Brainstorming
b. Simulation
c. Role playing
d. Pane discussion
22. All the examinees obtained scores below the mean. A graphic representation of the score distribution will be?
a. Perfect normal curve
b. Leptokurtic
c. Positively skewed
d. Negatively skewed
23. What does teaching require teachers to be most alert to?
a. Public concerns about education
b. Poor behavior and use of immediate punishment
c. The family backgrounds of students
d. Appropriate behavior and reward
24. Identical twins are more alike than fraternal twins. Which of the following statements/principles is supported by this?
a. Intelligence is determined partly by pre-natal nutrition
b. Environment affects both fraternal and identical twins
c. Heredity has a part in determining physical appearance
d. Intelligence hinges in physical structure
25. Tutoring of learners is now practiced in our school provided it is not than by their own teacher but by an outsider. Which of these Western philosophies influenced this practice?
a. Athenian
b. Roman
c. Spartan
d. Egyptian
26. You received an advice form the COMELEC that you will be the Chairman in Precinct 3A in your town. You are the first cousin of one of the candidates for councilors. Your cousin and your parents are very happy for your appointment. What will you do?
a. I will report to precinct 3A and do my job very well
b. I will help my cousin requesting the voters in my precinct to vote for him
c. I will decline the appointment and explain to the COMELEC that I have a relative who is a candidate for councilor
d. I will read the name of my cousin even if his name does not appear in the ballot
27. What is the advantage of using computers in processing test results?
a. Test results can easily be assessed
b. Its statistical computation is accurate
c. Its processing takes a shorter period of time
d. All of the above
28. Education in Human Rights starts with:
a. Liking the other
b. Caring for the other
c. Loving the other
d. Respect towards the other
29. Which is the ultimate aim of classroom management?
a. To set up conditions that bring about effective teaching and learning

c. To make children realize that they can not do everything they want
d. To remove the physical conditions in the room that distracts children's attention

30. One criterion for content to be developed in a lesson is LEARNABILITY. What does the capital letter word mean?
- The content should be worthwhile
 - The content should be useful and practical in some situation
 - Resources and materials for the development of the content are available
 - The content should be within the capacity of the students to learn
31. The project method is considered valuable for the following reasons EXCEPT one:
- Motive for learning is developed
 - Movement among pupils is not free and discussion is almost restricted
 - Pupils are trained to be responsible
 - Pupils develop alertness, open-mindedness and tolerance
32. Classroom discussion should end with final summary also known as:
- Internal summary
 - Medial summary
 - Organizer
 - Post organizer
33. What is the advantage of using computers in processing test results?
- Its processing takes a shorter period of time
 - Test results can be easily be assessed
 - Its statistical computation is accurate
 - All of these
34. It is generally believed that the best way of meeting the needs of mentally superior learners is through _____
- Enriching the curriculum
 - Accelerating them
 - Involving them in extra curricular activities
 - Providing opportunities for them to help the slow learners
35. What is the recognized principle in test construction that is violated in this item?
- Mineral
 - Protein
 - Mineral and iron
 - All of the above
36. Which technique(s) enable (s) a teacher to identify and eventually assist students with interpersonal difficulties?
- Personal inventory
 - Cumulative records
 - Sociogram
 - Anecdotal record
37. Teachers and students can participate in these levels of computer use. Give the order of computer use from simplest to complex?
- Computer literacy, computer competency, computer expertise
 - Computer competency, computer literacy, computer expertise
 - Computer competency, computer expertise, computer literacy
 - Computer literacy, computer expertise, computer literacy
38. Which one is considered the "brain" of the microcomputer?
- Keyboard
 - CPU
 - Video screen
 - Software
39. A group activity wherein one group representative presents the output to the bigger group rather than individual pupils presenting the output is known as:
- Jury trial
 - Consensus decision
 - Composite report
 - Agenda
40. Zero standard deviation means that:
- More than 50% of the score obtained is zero
 - 50% of the scores obtained zero
 - The students scores are the same
 - Less than 50% of the scores obtained zero
41. Which of the following is an authentic mode of assessment?
- Experiments in science to assess skill in use of scientific method
 - Oral performance to assess students spoken communication skills
 - Paper and pencil test in vocabulary
 - Artistic production for music or art
42. All of statements below are kinds of pleasure. Which ONE is morally good?
- Pleasure in winning in a beauty contest by means of ballot
 - Pleasure in offering one's hand-earned grades to one person
 - Pleasure in winning in a chance number games
 - Pleasure in winning in a sports by default
43. Which of the following situations will manage conflicting situations to bring out values enhancing nationhood?
- Kidnapped victims' refusal to report cases to authorities and paying ransom money instead
 - The coddling of squatter before election time and evicting them after election

- c. Aling Tacing and her son patiently pick out worms and insects in the vegetable plots rather than use insecticides made from foreign chemicals
- d. Hostage-taking incidents leading to the grating of the hostage taker's demands in exchange for the releases of the hostages
44. In what period of a child is physical growth fastest?
- Early adolescence
 - Middle Childhood
 - Babyhood
 - Early childhood
45. How does fear affect voluntariness of an act?
- Lessens but not destroy voluntariness
 - Makes the act involuntarily
 - Increases voluntariness
 - No affect at all
46. A group of people asserts that their culture is superior to another. The exemplifies
- Cultural conflict
 - Cultural gap
 - Ethnocentrism
 - Norm conflict
47. Which computer seems to the most potential for the classroom?
- Minicomputer
 - Mainframe computer
 - LPC
 - Microcomputer
48. How can you help a habitual borrower of money to get rid of this habit?
- Do not lend him anymore
 - Let him do something for you in return for the money you lent him
 - Direct him to others
 - Ask for a collateral for the cash he is loaning
49. The best way for a teacher to impart values to his pupils is:
- Constant repetition of actions to make routinary
 - Inflicting corporal punishment
 - Acting as a role model

52. Which curricular move serves to strengthen spiritual and ethical values?
- Re-introducing science as a subject in Grade 1
 - Integration of creative thinking in all subjects
 - Reducing the number of subject areas into the skill subject
 - Introduction of Value education as a separate subject area
53. The Filipino tendency to resort to the easy way out from a term paper as a country requirement by hiring a ghost writer or by passing a photocopied term paper proves which Filipino trait?
- Lack of discipline
 - Anticipation
 - Ambivalence
 - Pakikisama
54. Which storage device is significantly more difficult in holding information
- Floppy disk
 - Hard disk
 - Software
 - Audio cassette
55. Which thrust on value formation is meant to help the students make use of their logical thinking and scientific investigation to decide on topics and questions about values?
- Value clarification
 - Analysis
 - Moral development
 - Value inculcation
56. Which of the following is the best situation wherein you can balance between responsibility and accountability?
- A construction firm who won the lowest bid for the construction of a bridge employs the lowest paid workers to justify his lower bid
 - A construction firm who won the lower bid for the construction of the bridge hurries his workers so he can work on the other projects
 - A construction firm who won the lowest bid for the construction of a bridge lets his

- workers to themselves while he looks on other project to bid on
- d. A construction firm who won the lowest bid for the construction of a bridge carefully supervises his workers on the project
57. Which of the following should a teacher do if she cannot pay the monthly installment of an appliance she got at a department store in their town?
- Offer to return the used appliance to the store on the condition that she will be refunded on the monthly installment she paid
 - Move to another neighborhood to escape payment
 - Reject any notice of demand for payment to make the impression that she did not receive any
 - Inform the manager of the store personally and make a satisfactory arrangement of payment on or before the due date
58. In mastery learning, the definite of an acceptable standard of performance is called
- SMART
 - Criterion measure
 - Condition
 - Behavior
59. Which of the following is the initial step in planning an achievement test?
- Select the type of test items to use
 - Define the instructional objective
 - Decide on the length of the test
 - Build a table of specification
60. Rights which can not be renounced or transferred because they are necessary for the fulfillment of man's primordial obligations are called:
- Perfect rights
 - Acquired rights
 - Alienable rights
 - Inalienable rights
61. What should be AVOIDED in arranging the items of the final form of the test?
- Space the items so they can be read easily
 - Follow a definite response pattern for the correct answers to ensure ease of scoring
 - Arrange the sections such that they progress from the very simple to very complex
 - Keep all the items and options together on the same page
62. Which of the following is a tool for evaluating personal social adjustment of students
- Interview guide
 - Sociometry
 - Observation checklist
 - All of these

63. The environment in order to facilitate leaning, must be interactive. Which of the following best exemplifies this kind of environment
- The child copies a list of facts concerning fossils on the backboard
 - The child goes out and discovers for himself some rock or fossil
 - The child listens to a lecture on fossils given by the teacher
 - The child summarizes the section of fossils in his science books
64. Teachers should bear in mind that the periods of greatest mental development is from _____
- 6 to 9 years
 - 3 to 6 years
 - 9 to 12 years
 - 12 to 15 years
65. Which of the following best illustrates that "freedom and authority are not antagonistic, moreover, freedom is the legitimate offspring of authority?
- Teacher carries a mantle of authority in an imperious manner
 - Parents and teachers personify authority and discipline
 - Pupils are free to do what the law permits
 - Children learn freedom from being inhibited in their conduct
66. Which pattern of development is closely paralleled with the pattern of speech development?
- Emotional and motor
 - Intellectual and motor
 - Intellectual and moral
 - Emotional and moral
67. It is generally believed that the best way to meeting the needs of mentally superior learners is through _____
- Enriching the curriculum
 - Accelerating them
 - Involving them in extra-curricular activities
 - Providing opportunities for them to help the slow learners
68. What is the first step the teacher should take in carrying out classroom researches?
- Identify the problem
 - Gather data
 - Advance hypothesis
 - Formulating tentative solutions
69. Happiness is different from the pleasure in being an abiding consequence of result which is not destroyed, even by the presence of pain. The best illustration of this principle is
- A student topping the board exam
 - An engaged couple getting married

- b. A mother giving birth
d. A jackpot winning collecting his prize
70. You have a student who is always boasting in the class his master of the Bible because he is a protestant. How would you react being a Catholic?
- Challenge him to debate
 - Snare with him your knowledge of the Bible
 - Keep silence and respect his belief
 - Listen to him once in a while

81. Underground economy is great in improving the country's economy. Banana cue, camote cue, barbecue and the likes are sold in school and other public places. Students are captive buyers. To augment her income Mrs. Reyes is

selling in school. Which of the following ideas does Mrs. Reyes need to do?

- Increase the price of hers since the students will no longer go out of the campus
- Ask her student to sell her items in different places
- Sell her items lower than the prevailing price to help the students
- Seek her co-teachers to help her sell her items

82. Educators are aware that no amount of practice and instruction can make a four month old child walk or speak fluently, because the muscular and neural structures are not yet ready for those skills. The points to the process called _____

- Maturation
- Growth
- Heredity
- Development

83. The level of mental maturity necessary for a pupil to profit from opportunities to learn _____

- Can approximately be reached at the age of five
- Varies from task to task
- Can be determined by readiness test
- May be reached at the age of seven

84. Rapid technological development facilitates transmission of knowledge for educational purposes, whether formal or informal through media technology. This development is called _____

- Distance educational technology
- Computer assisted technology
- Mass Media Technology
- Sine Eskwela Technology

85. Learning is strengthened if it results in satisfaction but weakened if it leads to annoyance. This is the law of _____

- Effect
- Repetition
- Readiness
- Exercise

86. Because learning increases directly in proportion to the extent to which the learner is wholly bound upon his tasks, the teacher should give lessons that _____

- Have significance and worth to the child
- Are fictitious to appeal to their imagination
- Portray complex
- Are easy to comprehend

87. An inventor is offered by a foreigner four times as much as what he will get practicing in the Philippines. He refused the offer. Is he right? Which of the following is the best answer?

- No, because opportunity knocks only at once

b. Yes, because his invention will help improve the country

c. Yes, because the beneficiaries of his invention are his relative

d. Yes, because the amount he will get from the foreigner can also be spent in the Philippines

88. Pavlov is to classical conditioning as _____ is the operant conditioning

- A. Bandura
- J. Holt
- J. Watson
- B.F. Skinner

89. What will you do with the extra amount of voluntary contribution you solicited from your calls for the typhoon victims?

- Spend the extra contribution for their own needs
- Return the extra amount to them
- Buy some snacks and distribute to your pupils
- Use the extra contribution to buy visual aids

90. One criterion for content to be developed in a lesson is LEARNABILITY. What does the capitalized word mean?

- The content should be within the capacity of the students to learn
- The content should be useful or practical in some situation
- Resources and materials for the development of the content are available
- The content should be worthwhile

91. The first American teachers in the Philippines were _____

- Soldiers
- Graduates of the normal schools
- Missionaries
- Elementary graduates

92. Which instructional aid requires pupils to perform?

- Pantomime
- Comic books
- Mock up
- Film

93. Confucius asserted that in teaching there should be no distinction of classes. Confucius teaching is in support of _____

- Education for all (EFA)
- Moral Recovery Program
- Back-to-the-basics
- Values education

94. Which refers to the Filipino trait of practicing values in different venues and with different social groups?

- Procrastination
- Crab mentality

- b. "kanya-kanya" mentality
d. Split personality
95. Conducting follow up to graduates and drop outs is guidance service that falls under:
a. Placement service
c. Counseling service
b. Individual inventory service
d. Research service
96. Education during voluntary period in the Philippines then was focused on the
a. Establishment of nationhood
b. Strengthening of the moral fiber of the people
c. Mastery of the basic skills
d. Master of the Spanish language
97. Learning is enhanced when
a. The learner competes with his classmates
b. The teacher expresses his disappointment with low scores
c. The expectation of success is high
d. The learner is under stress and is challenged
98. Which theory stresses the importance of using a pre-reading strategy that encourages students to use their own experiences to predict and evaluate the problems/actions of characters in the stories they read?
a. Metacognition theory
c. Peer tutoring
b. Schema theory
d. Text structure theory
99. How is the last curriculum introduced in the elementary and secondary schools called?
a. The Re-structured Basic Education Curriculum
b. 2002 Elementary and Secondary Education Curriculum
c. Millennium Curriculum
d. 2002 Basic Education Curriculum
100. With a number of senses to be stimulated as criterion, which one should be first in the list?
a. Audio aid
c. Visual aid
b. Audio-visual aid
d. Multi-sensory aid
101. The teacher's role in the classroom according to cognitive psychologists is to
a. Fill the minds of the learner with information
b. Make the learning task easy for the learner
c. Dictate what to learn upon the learner
d. Help the learner connect what s/he knows with new information from teacher.
102. The basic needs in the hierarchy of needs must be met so that learning will effectively take place. This expresses the theory of
a. Rogers
b. Murray
c. Horney
d. Maslow
103. When a school decides to work on a thematic curriculum which should be out of the picture?
a. Integration
c. Competition
b. Peer collaboration
d. Team teaching
104. Teacher Z wants to teach his pupil the technique on reading for information. Which technique should he use?
a. Prior knowledge
c. SQ3R
b. Story map
d. Text structure
105. In instructional planning, which among these three: unit plan, course plan lesson plan is most specific? _____ plan.
a. Course
c. Lesson
b. Unit
d. Course and lesson
106. The use of drills in the classroom is rooted on Thorndike's law of
a. Belongingness
c. Exercise
b. Readiness
d. Effect
107. Positive interdependence as an element of collaborative learning means that students must:
a. Help one another in the individual test for everyone to pass
b. Dependent on the diligent student
c. Be grouped heterogeneously
d. Learn to depend on each other to achieve a goal
108. Which graphic organizers are used to show event in chronological order?
a. Series of events chart and story map
c. Time line and series of events chart
b. Time line and cycle
d. Time line and story map
109. Classroom discussion should end with a final summary also known as
a. Internal summaries
c. Organizers
b. Medial summaries
d. Post organizers
110. When points in the scatter gram are spread evenly in all directions this means that

- a. The correlation between two variables is positive
 - b. The correlation between two variables is low
 - c. The correlation between two variables is high
 - d. There is no correlation between two variables
111. In writing performance objective which word is NOT acceptable?
- a. Delineate
 - b. Manipulate
 - c. Integrated
 - d. Comprehend
112. In a study, pupils were asked about their preference for a mother country. Only 4.83% preferred Philippines. This finding shows that several pupils
- a. Don't know their country
 - b. Are not sure of what they want
 - c. Haven't developed national consciousness
 - d. Are not enlightened citizens
113. In a normal distribution curve, a T-score of 70 is
- a. Two SDs below the mean
 - b. One SD below the mean
 - c. Two SDs above the mean
 - d. One SD above the mean
114. A child who gets punished for stealing candy may not steal again immediately. But this does not mean that the child may not steal again. Based on Thorndike's theory on punishment & learn, this shows that:
- a. Punishment strengthens a response
 - b. Punishment removes a response
 - c. Punishment does not remove a response
 - d. Punishment weakens a response
115. One philosopher considers education as an acquisition of the art of utilization of knowledge. This implies that:
- a. A learner's application of what she has learned is necessary
 - b. A learner's in art is commendable
 - c. A learner's acquisition of information is sufficient
 - d. A learner's acquisition of information is important
116. The strongest disadvantage of the alternate response type of test is
- a. Demand for critical thinking
 - b. Absence of analysis
 - c. Encouragement of rote memory
 - d. High possibility of guessing
117. For professional growth, which source of teacher performance evaluation is considered more valid and reliable considering the time spent together?
- a. Self-evaluation
 - b. Supervisory evaluation
 - c. Student's evaluation
 - d. Peer evaluation
118. The search for related literature by accessing several data bases by the use of telephone line connected to a computer in a library with other computer that have database is termed:
- a. Computer search
 - b. Compact disc search
 - c. On-line search
 - d. Manual search
119. In the Preamble of the Code of the Ethics of Profession Teachers, which is not mentioned about teachers?
- a. Possess dignity and reputation
 - b. With high moral values as well as technical and professional competence
 - c. LET passers
 - d. Duly licensed professional
120. Which measure(s) of central tendency is (are) most appropriate when the score distribution is not badly skewed?
- a. Median and mode
 - b. Mean
 - c. Median
 - d. Mode
121. Which is the best indicator of a well-managed class?
- a. The learners pursue their task without inhibition
 - b. The learners are controlled by the teacher
 - c. The learners blindly obey teacher's instructions
 - d. The learners are earnestly engaged in activity that leads them to realize that stated goal
122. Which statement about Median is CORRECT?
- a. It is a measure of variability
 - b. Is the most stable measure of central tendency
 - c. It is the 50th percentile
 - d. It is significantly affected by extreme scores
123. The three-level approach to teaching included the teaching of the facts and skills, concepts, and values. Which teaching is the highest level?
- a. Skills
 - b. Values
 - c. Facts
 - d. Concepts
124. Which one stifles student's initiative?
- a. Rationalism
 - b. Extreme authoritarianism
 - c. "Bahala na"
 - d. "Utang na Loob"
125. The following are trends in marking and reporting system, EXCEPT:

- a. Indicating strong points as well as those needing improvement
 - b. Conducting parent-teacher conferences as often as needed
 - c. Raising the passing grade from 75 to 80
 - d. Supplementing subjects grades with checklist on traits
126. Teaching in the cognitive, psychomotor and affective domains is based on the concept that the learner is:
- a. Material and an acting being
 - c. spiritual and material being
 - b. Moral and feeling being
 - d. thinking, feeling and acting being
127. Which is unethical for teachers to do?
- a. Obeying the legitimate policies of the school administration
 - b. Maintaining cordial relation with parents
 - c. Refusing to serve in worthwhile neighborhood activities as these will adverse affect her teaching
 - d. Conferring with the next of kin about the problems and needs of a student.
128. If Teachers M wants to build teamwork among his students which should he use more?
- a. Lectures
 - c. Independent study
 - b. Cooperative learning
 - d. Brainteaser
129. When necessary conditions are present, the use of inductive method is preferred because
- a. It needs only a few instruction material
 - b. There is greater active participation on the part of pupils
 - c. It gives the teacher more time to rest
 - d. Academic time is used wisely
130. Which of the following works against personal or national discipline?
- a. Campaigning against overspending during elections
 - b. Recognizing model behavior of public servants
 - c. Exerting more pressure on punishment of wrongdoing of public servants
 - d. Engaging in "ghost writing" for theses/dissertations
131. A teacher who equates authority with power usually does the following EXCEPT:
- a. Shames
 - c. Develops self-respect in every pupil
 - b. Retaliates
 - d. Intimidates
132. Which type of test is least useful in educational diagnosis?
- a. Multiple choice item
 - c. Matching item
 - b. True-false item
 - d. Short answer item
133. The following are four level of computer use. You are able to use the computer as a tool for particular purposes. In what level are you?
- a. Computer hacker
 - c. Computer expertise
 - b. Computer literacy
 - d. Computer competency
134. Who of the following will trust least the senses as a source of knowledge?
- a. Idealists
 - b. Realists
 - c. Existentialists
 - d. Pragmatist
135. The philosophers that maintain the "truth exists in an objective order that is independent of the knower" are:
- a. Pragmatists
 - b. Idealists
 - c. Existentialists
 - d. Realists
136. Which was William James pragmatic thought?
- a. Morality for persons
 - b. What is right or wrong depends on the situation
 - c. Something is true if it works
 - d. Everything in this world is tentative, a series of means and ends
137. Which of the following can a computer NOT do as an information processor?
- a. Analyze tests and test items
 - b. Score test and other relevant information on one or many pupils
 - c. Interpret test results
 - d. Create test data files
138. Which interactive teaching should be AVOIDED?
- a. Using multiple response strategy
 - c. Asking more divergent questions
 - b. Using "put-down" strategy
 - d. Asking more evaluative question
139. Teacher begins her lesson with warm-up exercises by focusing on specific bits of information of maximize student participation. What type of questions will she be asking?
- a. Divergent
 - b. Evaluation
 - c. High level
 - d. Convergent
140. Which is NOT characteristic of anecdotal records
- a. Incidents is objectively described
 - b. Incident recorded is significant
 - c. Factual
 - d. Incident is recorded long after it has happened

141. Which body was first to perform regulatory functions over the teaching profession?
- National Board for Teachers
 - Civil Service Commissions
 - Professional Regulations commission
 - Board of Professional Teachers
142. A teacher clarifies her thinking to answer the question "How shall I as a person of authority behave to achieve the objectives for my students"? This results in the use of:
- Role modeling
 - Transactional analysis
 - Discovery strategy
 - Demonstration method
143. Oligarchy refers to government ruled by
- A few military
 - A few who are either rich or powerful
 - A minority elected by the people
 - A minority distinguished by aristocratic privileged
144. Two boys are fighting in your class. Which discipline strategy will be most appropriate?
- A moderate level force and public dimension
 - High-level force and private dimension
 - High-level force and public dimension
 - Low-level and private dimension
145. Which practice does NOT help promote cleanliness and orderliness?
- "Tapat ko, linis ko"
 - Queuing in public places
 - Piso para sa Pasig
 - Buy-Filipino movement
146. What is the main purpose of review lesson?
- To automatize certain-responses
 - To achieve master of the old lesson
 - To study the old lesson for further understanding
 - To discover relationship between the old and the new lessons
147. Values Education in the NESC is offered as a separate subject as values development in the NESC is _____.
- The class goes out and discovers the habitat of insects
 - The teacher shows poster of the habitat of insects
 - The class copies a list of facts concerning the habitat of insects
 - The teacher lectures on the habitat of the insects
148. Which of the following demonstrates that education and culture stand to be cyclical?
- Culture is transmitted by the school system and the classroom becomes the place of transmissions
 - The school is shaped by culture in turn is influenced by the school
 - The school functions primarily as transmitter of the culture and is a change agent
 - The school becomes the avenue by which individuals learn their culture
149. What does good teaching require the teacher to be MOST alert to?
- Family background of student
 - Public concerns about education

- a. Reformists c. Insulares
 - b. Pensionados d. Peninsulares
32. Which DepEd test to out-of-school youths and adults take to enable them to enroll in college if they pass it?
- b. National Achievement Test
 - c. National Secondary Achievement Test
 - d. National College Entrance Examination
 - e. Accreditation and Equivalent Test
33. Which is compulsory for children of school ages as stated in the 1987 Philippine situation?
- a. Special education
 - b. Elementary and secondary education
 - c. Elementary education
 - d. Pre-elementary education
34. Which feature was TRUE of Philippine education during the Spanish regime?
- a. Separation of Church and state
 - b. Emphasis on religious instruction
 - c. Vernacular as a medium of instruction
 - d. Establishment of a normal school
35. Which is in line with equitable access to education but runs counter to quality?
- a. Selective retention of students
 - b. Open admission
 - c. Program accreditation
 - d. Deregulated tuition fee hike
36. The National College Entrance Examination (NCEE) was abolished because it was perceived to be ____.
- a. Culturally based against the marginalized citizens
 - b. Against the democratization of access to education
 - c. Not supportive of the production of quality manpower for the country
 - d. Highly expensive for it was given to a huge number of high school graduates
37. Availment of the Accreditation and Accreditation and Equivalency Test for adults and out-of-school youths is in support of the government's educational program towards ____.
- a. Quality and relevance
 - b. Relevance
 - c. Quality
 - d. Equitable access
38. The encouragement of self-learning, independent and out-of-school study programs as stated in the 1987 Constitution has given rise to ____.
- a. Institutionalization of early childhood care and development
 - b. The clamor for a Grade VII
 - c. The clamor for a Grade VIII
 - d. The conduct of the national Achievement Test
39. Which is/are a ground/s for the revocation of a professional teacher's license?
- e. Immoral, unprofessional or dishonorable conduct
 - f. Chronic enbriery or habitual use of drugs
 - g. Unjustified or willfull failure to attend seminars, workshops, conference or the continuing education program prescribed by the Board and the Commission
- a. I only c. II only
 - b. I and II d. I, II and III
40. With the passage of R.A. 7836, who may teach? Only those ____.
- a. Who have reached the age of twenty-one (21)
 - b. With a valid certificate of registration and a valid professional license from the Professional Regulation Commission
 - c. With earned 18 Master's degree in Education
 - d. With a field of Specialization
41. Which government program gives every citizen equitable assess to education?
- a. Professionalization of teaching
 - b. School-based management
 - c. Participation in world affairs
 - d. A school in every barangay
42. Can parents pass on their duty to educate their children to the school, especially if they are Illiterate?
- a. It depends on the condition of children
 - b. Yes, because parents did not go through formal training for the education of their children.
 - c. It depends on the condition of parents
 - d. No, parents have the primary duty to educate their children.
43. Which types of play best characterize a four to six-year old child?
- a. Solitary and on-looker plays
 - b. Associative and cooperative plays
 - c. Cooperative and solitary plays
 - d. Associative and on-looker plays
44. Which is a typical characteristic of the adolescent?
- c. Reasonable and secure
 - d. Intense emotions and disequilibrium
 - e. Slow but steady physical growth
 - f. Passive and obedient
45. Teacher X asked her students to describe how their families celebrate holidays. From this activity, students can discover that people celebrate holidays differently. Which principle in cognitive development governs Teachers X's teaching activity?
- a. Children often think in different ways at different ages.
 - b. Children actively construct their knowledge
 - c. Cognitive develop involves relating new information to prior knowledge
 - d. Social interaction is essential for cognitive development
46. What is referred to as the "looking glass self" of Colley?
- a. It is how others look at myself.
 - b. It is how I influence others
 - c. It is how I look at myself through the eyes of others
 - d. It is how others affect me
47. Bernadette, a senior high school student, claims that what she does is what her conscience dictates as right. Based on Kohlberg's theory on moral

- development, in which moral development stage is Bernadette?
- Punishment and obedience stage
 - Law and other stage
 - Universal ethics stage
 - Social contact stage
48. In which way does heredity affect the development of the learner?
- By providing equal potential to all
 - By placing limits beyond which the learner cannot develop
 - By compensating for what environment fails to develop
 - By making acquired traits heredity
49. Six-and-seven-year old children are generally ____.
- Farsighted
 - Both nearsighted and farsighted
 - Neither nearsighted or farsighted
 - Nearsighted
50. The development task of learning to get along with age mates belongs to which developmental stage, according to Havighurst?
- Early childhood
 - Adolescence
 - Early adulthood
 - Late childhood
51. How does a goal-oriented curriculum culminate? In
- Planning of activities
 - The formulation of objectives
 - Questioning for creative thinking
 - Evaluation
52. Which behavioral term describes a lesson in the highest level of Bloom's cognitive domain?
- Analyze
 - Infer
 - Create
 - Evaluate
53. In writing performance objectives, which word is NOT acceptable?
- Integrate
 - Manipulate
 - Delinate
 - Comprehend
54. In the writing of performance objectives for mastery learning, what is an acceptable standard of performance called?
- Behavior
 - SMART
 - Condition
 - Criterion measure
55. Why learning activities should be carefully planned?
- The ability of the teacher to plan is tested
 - This is expected by pupils
 - The accomplishment of objectives is dependent on the plan
 - This is required of a teacher
56. Arielle describes Teacher M as "fair, caring and approachable." Which power does Teacher M possess?
- Legitimate power
 - Referent power
 - Expert power
 - Reward power
57. Kounin claims "with-it-ness" is one of the characteristics of an effective classroom manager. What is one sign of "with-it-ness"?
- Giving attention to students having difficulty with school work
 - Seeing only a portion of the class but intensively
 - Knowing where instructional materials are kept
 - Aware of what's happening in all part of the classroom.
58. Teacher A says "Very Good to every student after an answer. Is this a sound classroom management practice?
- Yes. Every student effort must be praised profusely
 - No. teachers must be generous in giving praise must be genuinely deserved.
 - No. A teacher must be generous in giving praise but praise must be genuinely deserved.
 - Yes. Praise makes every student feels good and so must be given every time.
59. If student's inappropriate behavior is low level or mild an that it appears that the misbehavior will not spread to others, it is sometimes best for the teacher not to take notice of it. Which influence technique is this?
- Antiseptic bouncing
 - Planned ignoring
 - Proximity control
 - Signal interference
60. As a classroom manager, how can you exhibit expert power on the first day of school?
- By citing to my students the important of good grades
 - By making my students feel my authority over them
 - By making them feel a sense of belongingness and acceptance
 - By making my students feel I know what I am talking about
61. Teacher B asked this question: "What conclusion can you draw based on your observation?" Nobody raised a hand so she asked another question: Based on what you observe, what can you now say about the reaction of plants to light. "Which did Teacher B do?
- Redirecting
 - Repeating
 - Probing
 - Rephrasing
62. Which is the lowest level of comprehension?
- Integration
 - Literal
 - Critical comprehension
 - Interpretation
63. Teacher V asked this question: "We all know what the three branches of government are, but where did they come from, how were they devised, and in what manner do they relate?"
Question: WHAT IS DEFECTIVE WITH THE QUESTION?
- It is focused
 - It is ambiguous
 - It is difficult
 - It is simplistic
64. Which practice contributes to an interactive lesson?
- Asking more rhetorical type of questions
 - Asking more divergent type of questions
 - Calling on a student to answer before asking the question
 - Asking more convergent type of questions.
65. After giving an input on a good paragraph. Teacher Leticia asks students to rate given paragraph along the elements of a good paragraph. In which level is students' task?
- Application
 - Analysis
 - Evaluation
 - Synthesis
66. Which statement holds TRUE to probing?
- It is done before a student gives a response
 - It is meant to clarify further the question
 - It restructures the student's response in a more productive direction
 - It cuts short student response.
67. Which is the first thing that the teacher determines in the selection of media for teaching?
- Ability of the students
 - Objectives of the lesson
 - Technique to used
 - Availability of the media
68. Which is a characteristic of the teaching machines of B.F. Skinner?
- It is meant for collaborative work.
 - Teacher's assistance was necessary
 - Allowed student to proceed through lesson at his own pace.
 - No feedback mechanism is needed
69. Which of the following questions must be considered in evaluating teacher-made materials?
- Does the material stimulate individualism?
 - It is the material updated?
 - It the material new?
 - Is the material expensive?
70. Which instructional material/s is/are MOST fit in contextualized learning?
- Pictures
 - Sliders

- b. TV d. Field trip
71. For an effective presentation of Article XIV of the Philippine Constitution, which is MOST appropriate?
- a. Learning circles c. Independent study
b. Team game d. Direct instruction
72. Which does a pupil use when she sings a concept to a familiar tune in order to help himself commit the concept to memory?
- a. "ABC" song c. Piggyback song
b. Rap d. Jingle
73. I want the first learners in my class to do self-directed learning. What strategy will I use?
- c. Collaborative learning
d. Metacognition
e. Problem-based learning
f. Social dialogue
74. You have pupils in your class whose achievement is below the grade level they are in. What should you do?
- a. Give them the same work as other pupils so they won't feel embarrassed.
b. Give them materials on their level and let them work at a pace that is reasonable for them.
c. Give them work that is a little above their achievement level to challenge them
d. Give them the same work as the other pupils, anyway they will learn as much as they are capable of learning.
75. With forms of prompting in mind, which group is arranged from least to most instructive prompting?
- a. Verbal, physical, gestural
b. Physical, gestural, verbal
c. Gestural, physical, verbal
d. Verbal, gestural, physical
76. With which learning style group are manipulative MOST effective?
- c. Understanding style group
d. Self-expressive style group
e. Master style group
f. Interpersonal style group
77. The lesson is on the PROS and CONS of the government's all out war against the MILF. Mr. Palaroan wants to do high level thinking and to develop a view of the all out war from different perspectives. Which technique will be the most appropriate?
- a. Simulation c. Panel discussion
b. Lecture d. Role playing
78. I like to help my students identify and reflect on their values. Which technique is most appropriate?
- a. Value organization c. Value clarification
b. Value analysis d. Value inculcation
79. I want my better students to overlearn what they learned at the same time help others to master the lesson. Which activity is BEST?
- a. Practice c. Simulation
b. Peer tutoring d. Game
80. Which is the most direct way of checking on the previous lesson?
- a. Sampling the understanding of a few students
b. Having students identify difficult homework problems
c. Having students identify difficult homework problems
d. Explicitly reviewing task-relevant information necessary for the day's lesson
81. I want to elicit more student responses. Which one should I AVOID?
- a. Using covert responses
b. Creating an evaluative atmosphere
c. Prompting to covert wrong answers to correct ones
d. Giving non-threatening comments
82. For practice to be effective, which guideline should bear in mind?
- Practice should _____.
- c. Be done in an evaluative atmosphere
d. Take place over a long period of time
e. Be arranged to allow students to receive feedback
f. Be difficult enough for students to remember and learn
83. To develop reasoning and speaking ability, which should I use?
- a. Experiment c. Debate
b. Storytelling d. Role -playing
84. Teacher L demonstrated to the class how to focus the microscope, after which the students were asked to practice. Which teacher prompting is least intrusive? Teacher L _____.
- a. Held the hand of a student and with her hand holding the student's hand adjusted the mirror
b. Pointed to the mirror and made an adjusting gesture with her hand
c. Reminded the class to first adjust the mirror
d. Adjusted the mirror
85. If I want to hone my student's meta-cognitive ability, which is MOST fit?
- c. Drill c. Brainstorming
d. Debate d. Journaling
86. My problem is there are too many topics to cover and I may not able to finish before classes end in March. Which approach when used can help solve my problem?
- c. Thematic
d. Constructive
e. Experimental approach
f. Direct instruction
87. If you make use of the indirect instruction method, you begin your lesson with _____.
- a. Guided practice
b. A review of previous day's work
c. Advance organizers that provide an overall picture of the lesson
d. independent
88. A school Division Superintendent was enthusiastically lecturing on the Accreditation Program for Public Elementary Schools. (APPES) its benefits and demands. Thinking of its many demands, most of the school heads were not very happy about it and the older one were whispering "we have very reason to retire soon."
- What does this tell about the change process?
- a. Leadership can effect the desired change in persons despite opposition from the persons themselves.
b. People resist change for no reason
c. People tend to resist change
d. Resistance to change is insurmountable
89. Which guidelines should you follow for behavior modification to effective?
- a. Subject yourself to group pressure
b. Work on several behaviors at the time for a significant change.
c. Never use negative reinforcement
d. Work on one behavior at a time
90. In which phases/s of change, according to Kurt Lewin, do you feel the pain?
- e. Transition
f. Unfreezing
g. Refreezing
h. Transition and freezing
91. In self directed learning, to which extent should a teacher's "scaffolding" be?
- e. To the maximum, in order to extent to the student all the help he needs
f. To the degree the student needs it.
g. To the minimum, to speed up the development of the student's sense of independence
h. None, to fore the student to find his way and learn faster by himself.
92. Which is a form of direct instruction?
- e. Discovery process

- f. Problem solving
 - g. Programmed instruction
 - h. Inductive method
93. Deductive and inductive reasoning will be most fit for which group of students?
- a. Spatial
 - b. Naturalist
 - c. Linguistic
 - d. Logical, mathematical
94. Which technique in cooperative learning is used when new information is divided equally among all group members and each student-teacher his/her portion to the other group members?
- a. Roundrobin
 - b. Think-Pair-Share
 - c. Jigsaw
 - d. Roundtable
95. Teacher D used the direct instruction strategy. Which did she do last?
- a. Guided student practice
 - b. Feedback
 - c. Reviewing the previous day's work
 - d. Independent practice
96. For direct instruction which does NOT belong?
- c. Demonstration method
 - d. Inductive method
 - e. Deductive method
 - f. Drill method
97. In want to use the direct instruction strategy. Which sequence of steps will I follow?
- I. Reviewing the precious day's work
 - II. Guided student practice
 - III. Independent practice
 - IV. Presenting practice
 - V. Presenting and structuring
 - VI. Feedback
- e. I-IV-II-II-V
 - f. I-IV-II-III-V
 - c. IV-I-III-II-V
 - d. IV-I-II-III-V
98. To make our children "little scientists", which method(s) should we employ more often?
- e. Inquiry
 - f. Problem solving
 - III. Laboratory
- a. II and III
 - b. I and II
 - c. I and III
 - d. I, II and III
99. For which lesson objective will you use the direct instruction method?
- a. Appreciate Milton's Paradise Lost
 - b. Use a microscope properly
 - c. Become aware of the pollutants in the environment
 - d. Distinguish war from aggression
100. For a more authentic application and evaluation of learning, which method is recommended?
- a. Laboratory
 - b. Inquiry
 - c. Project
 - d. Question and answer
101. I make my students teach each other in a "Pair, Think, Share" manner. Which technique so I employ?
- a. Mnemonic device
 - b. Peer teaching
 - c. Active review
 - d. Hands-on activities
102. For value education, which technique is MOST appropriate?
- a. Stimulation
 - b. Brainstorming
 - c. Conflict story
 - d. Panel discussion
103. To encourage introspection, which teaching method is MOST appropriate?
- a. Process
 - b. Cognitive
 - c. Reflective
 - d. Cooperative learning
104. To give opportunity for bonding and sharing, which can be of help?
- The use of _____
- c. Constructivist approach
 - d. Cooperative learning approach
 - e. Discovery approach
 - f. Exploratory approach
105. With indirect instruction in mind, which does NOT belong to the group?
- e. Experiential method
 - f. Lecture-recitation
 - g. Discovery method
 - h. Inductive method
106. When we do brainstorming in class, we are expected to _____.
- a. Involve everyone
 - b. Build understanding and ownership
 - c. Expand the range of options
 - d. Increase creativity
107. Teacher A, an experienced teacher, does daily review of past lesson. Why?
- e. To reflect on how he presented the previous lesson
 - f. To introduce a new lesson
 - g. To determine a new lesson
 - h. To emphasize the relationship between lessons
108. If I want my students to develop reading comprehension and learning strategies, which one should I employ?
- c. Cooperative learning
 - d. Mastery learning
 - e. Reciprocal teaching
 - f. Peer tutoring
109. Which is a graphic presentation of numerical data?
- a. Venn diagram
 - b. spider map
 - c. attribute wheel
 - d. histogram
110. The direct instructional model is appropriate when a teacher needs to _____.
- a. Teach creative making
 - b. Disseminate information that is not readily available from texts or workbooks
 - c. Develop the students' critical thinking
 - d. Develop the students critical and creative thinking
111. To teach your students how to cook a recipe effectively, which method should you use?
- e. Questioning
 - f. Discovery
 - c. Unit
 - d. Demonstration
112. If I do brainstorming in class effectively, I succeed in _____.
- e. Making the class arrive at the best solution to a problem
 - f. Getting the correct answer to a convergent question
 - g. Generating many ideas
 - h. Making the class evaluate their answers.
113. Which approach makes you think of your thinking?
- e. Constructivist
 - f. Integrative
 - c. Cognitive
 - d. Metacognitive
114. When I teach, I often engage myself in brainstorming. Which one does I AVOID?
- a. Increase creativity
 - b. Break down barriers
 - c. Selectively involve pupils
 - d. Generate many ideas
115. I use a technique to assess my class's knowledge on the lesson before I proceed. Which is this technique? The use of _____.
8. Brainstorming
 9. A story Board
 10. A review
 11. An anticipation/reaction guide
116. A master teacher, the resource speaker in an in-service training, presented the situated learning theory and encouraged her colleagues to apply the same in class. Which did she NOT encourage her colleagues to do?
- c. Apprenticeship
 - d. Authentic problem solving
 - e. Learning as it normally occurs
 - f. Decontextualized teaching

117. Teacher S teaches a lesson in which students must recognize that $\frac{1}{4}$ is the same as 0.25. They use this relationship to determine that 15 and .20 are slightly less than $\frac{1}{4}$. Which of the following concept/s is/are being taught?
- b. Place value of decimals
 - c. Numeration skills for decimals and relationships between fractions and decimals
 - d. Relationships between fractions and decimals
 - e. Numeration skills
118. In which of the following would programmed learning to be most likely to be found?
- a. In a class divided into small groups
 - b. Independent study
 - c. In dyadic groups
 - d. In a class where teacher tries to individualized instruction
119. I want to engage my students in small group discussion. Which topic lends itself to a lively discussion?
- a. The meaning of the law of supply and demand
 - b. Rules on subject-verb agreement
 - c. The law of inertia
 - d. The exclusion of Pluto as a planet
120. The following are characteristics of interdisciplinary teaching EXCEPT ____.
- c. Allows learners to see connectedness between things
 - d. Provides learning opportunities in a real-world context
 - e. Eliminates boundaries between content area
 - f. Discussion from a single perspective
121. Which is a valid assessment tool if I want to find out how well my students can speak extemporaneously?
- e. Writing speeches
 - f. Written quiz on how to deliver extemporaneous speech
 - g. Performance test in extemporaneous speaking
 - h. Display of speeches delivered
122. Teacher J discovered that her pupils are weak in comprehension. To further determine which particular skill(s) her pupils are weak, which test should Teacher J give?
- e. Standardized test
 - c. Diagnostic
 - f. Placement
 - d. Aptitude test
123. "Group the following items according to phylum" is a thought test item on ____.
- e. Inferring
 - c. Generalizing
 - f. Classifying
 - d. Comparing
124. Which will be the most authentic assessment tool for an instructional objective on working with and relating to people?
- a. Writing articles on working and relating to people
 - b. Organizing a community project
 - c. Home visitation
 - d. Conducting mock election
125. While she is in the process of teaching. Teacher J finds out if her students understand what is teaching. What is Teacher J engaged in?
- a. Criterion-reference evaluation
 - b. Summative evaluation
 - c. Formative evaluation
 - d. Norm-reference evaluation
126. With types of test in mind, which does NOT belong to the group?
- e. Restricted response essay
 - f. Completion
 - g. Multiple choice
 - h. Short answer
127. Here is a test item:

_____ is an example of a mammal

What is defective with this test item?

- a. It is very elementary

- b. The blank is at the beginning of the sentence
 - c. It is a very short question
 - d. It is an insignificant test item
128. "By observing unity, coherence emphasis and variety, write a short paragraph on taking examination." This an item, that tests the students skill to ____.
- e. Evaluate
 - c. Synthesize
 - f. Comprehend
 - d. Recall
129. Which is a characteristic of an imperfect type of matching test?
- e. There are two or more distracters
 - f. An answer may be repeated
 - g. The test items in the right and left columns are equal in number
 - h. An item may have no answer at all.
130. READ AND ANALYZE THE MATCHING TYPE OF TEST GIVEN BELOW.
- Direction: Match Column A with Column B. Write only the letter of your answer on the blank of the left column.

Column A	Column B
e. Jose Rizal	a. Considered the 8 th wonder of the world
f. Ferdinand Marcos	b. The National hero of the Philippines
g. Corazon Aquino	c. National Heroes' Day
h. Manila	d. The first woman President of The Phil
i. November 30	e. The capital of the Philippines.
j. Banaue Rice Terraces	f. The President of the Philippines who served the longest

Question: What does the test lack?

- 151. Premise
 - 152. Option
 - 153. Distracter
 - 154. Response
- 131.

3:9 as 4: _____

Question: What type of multiple choice type of test is this?

- a. Re-arrangement type
 - c. Analogy
 - b. Short answer type
 - d. Problem type
132. Teacher A constructed a matching type test. In her columns of items are combinations of events, people, and circumstances. Which of the following guidelines in constructing matching type of test did he VIOLATE?
- a. List options in an alphabetical order
 - b. Make list of items homogeneous
 - c. Make list of items heterogeneous
 - d. Provide three or more options
133. Which improvement/s should be done on his completion test-item: An example of a mammal is

135. Study this test item.
A test is valid when _____.
a. It measures what it purpose to measure
b. Covers a broad scope of subject matter
c. Reliability of scores
d. Easy to administer

- c. Make the length of the options uniform
- d. Pack the question in the stem
- e. Make the options parallel.
- f. Construct the option in such a way that the grammar of the sentence remains correct

136. Read this True-false test answer the question that follows:

Andres Bonifacio founded the Katipunan.

Which principle in test construction is violated?

- c. Avoid qualitative terms
- d. There should be sufficient reason to make the statement false.
- e. Test something significant
- f. Make use of simple words

137. What characteristic of a good test construction purposes?

- e. Reliability
f. Content validity
- c. Construct
d. Storability

138. READ AND ANALYZE THE MATCHING TYPE OS TEST GIVEN BELOW:

Direction: Match Column A with Column B. Write only the letter of your answer on the blank of the left column.

Column A	Column B
c. Jose Rizal	c. Considered the 8 th wonder of the world
d. Ferdinand Marcos	d. The National hero of the Philippines
e. Corazon Aquino	e. National Heroes' Day
f. Manila	f. The first woman President of The Phil
g. November 30	g. The capital of the Philippines.
h. Banaue Rice Terraces	h. The President of the Philippines who served the longest

What criteria of a matching type of test is not observed?	
--	--

- a. It is not valid.
- b. It is quite easy
- c. The items are NOT homogenous
- d. It has only a few items.

139. This is a true-false test item. The Manila Bay sunset is the most beautiful sunset in the world." What's wrong with it?
- e. A specific determiner is used

- f. It is trivia.
- g. The statement is not definitely true nor definitely false
- h. The test item is a textbook jargon
0. The facility index of a test item is 50. This means that the item is _____.
 - e. Valid
 - c. Reliable
 - f. Very easy
 - d. Moderate in difficulty
1. Study this group of test which was administered to a class to whom Peter belongs, then answer the question:

SUBJECT MEAN SD PETER'S SCORE			
SUBJECT	MEAN	SD	PETER'S SCORE
Math	56	10	43
Physics	41	9	31
English	80	16	109

In
whic

h subject (s) did Peter perform most poorly in relation to the group's mean performance?

- e. English
f. Physics

142. Based on the data given in # 141, in which subject(s) were the scores most widespread?

- a. Math c. Cannot be determined

- b. Physics d. English

143. A test item has a difficulty index of .89 and a discrimination index of -.44. What should the teacher do?

- e. Make a bonus item
- f. Reject the item
- g. Retain the item
- h. Make it a bonus item and reject it.

144. The test item has a discrimination index of $-.38$ and difficulty index of 1.0 . What does this imply to test construction? Teacher must _____.

- Recast the item
- Shelve the item for future use
- Reject the item
- Retain the item

145. What is/are important to state when explaining percentile-rankled tests to parents?

- c. What group took the test
- d. That the scores show how students performed in relation to other students
- e. That the scores show how students performed in relation to an absolute measure.

- e. II only
f. I & III
- c. I & II
d. III only

146. In a one hundred item test, what does Ryan's raw score of 70 mean?

- He surpassed 70 of his classmate in terms of score in Math
- The scores in Math and English do not have any relationship
- The higher the scores in Math, the lower the scores in English
- The lower the score in English, the lower the score in Math

147. The computed for English and Math score is $-.75$. What does this mean?

- The higher the scores in English, the higher the scores in Math
- The scores in Math and English do not have any relationship
- The higher the scores in Math, the lower the scores in English
- The lower the score in English, the lower the score in Math.

148. STUDY THE TABLE ON ITEM ANALYSIS FOR NON-ATTRACTIVENESS AND NON PLAUSIBIITY OF DISTRACTIONS CASED ON THE RESULTS OF MULTIPLE CHOICE TRYOUT TEST IN MATH. THE LETTER MARKED WITH AN ASTERICK IN THE CORRECT ANSWER.

	A*	B	C	D
Upper 27%	10	4	1	1
Lower 27%	6	6	2	0

*Correct Answer

Based on the table which is the most effective distracter?

- c. Option A

d. Option C
- c. Option B

d. Option D

149. The discrimination index of a test item is +.48. What does this mean?

- a. More from the lower group go the item correctly.
- b. An equal number from the lower and upper group got the item correctly.
- c. More from the upper group got the item correctly
- d. More from the upper group got the item wrongly.

150. Q1 is 25th percentile as median is to _____.

- a. 40th percentile

c. 50th percentile
- b. 60th percentile

d. 75th percentile

To find what you seek in the road of life,
the best proverb of all is that which says:
"Leave no stone unturned."
Edward Bulwer Lytton

PROFESSIONAL EDUCATION

EXAM DRILL II

- e. In recent curricular revisions, the humanities are gradually replaced by technical courses that bear practical consequences. This shows that curricular direction is toward _____.
 - i. pragmatism c. utilitarianism
 - j. realism d. essentialism
- f. According to existentialist, every person is in the same predicament and has the same possibilities. What does this imply?
 - c. Every person must go to school
 - d. Every person must go through the same form of education
 - e. Every person must earn a college degree
 - f. Every person must be given access to education
- g. School B's curriculum puts emphasis on the classics. School B's curriculum is predominantly _____.
 - e. perennialist c. reconstructionist
 - f. progressivist d. essentialist
- h. Student A claims: "I cannot see it so I won't believe it." Under which group can he be classified?
 - a. Idealist c. Pragmatist
 - b. Realist d. Empiricist

- i. Teacher E encourages her students to develop their reasoning power to the fullest in order to arrive knowledge. Teacher E is/an _____.
 - a. empiricist c. rationalist
 - b. pragmatist d. utilitarianist
- j. "Specialization is knowing more and more about less and less. Then it is better to be a generalist", claims Teacher F. On which philosophy does Teacher F lean?
 - e. Essentialism c. Perennialism
 - f. Progressivism d. Existentialism
- k. "The greatest happiness lies in the contemplative use of the mind," said Plato. Therefore, let us give more opportunities for our students to do _____.
 - c. social interaction c. cooperative learning
 - d. role playing d. introspection
- l. When we convince our students that pleasure is NOT the only good in life, we object to the teachings of _____.
 - i. skepticism c. Epicureanism
 - j. stoicism d. humanism
- m. Teacher B teaches his/her students that pleasure is NOT the highest good. What teacher teaches is contrary to which philosophy?
 - i. Empiricism c. Hedonism
 - j. Realism d. Idealism
- n. An emphasis on the humanities is a reflection of the _____ philosophy.
 - e. progressivist c. perennialist
 - f. essentialist d. reconstructionist
- o. Teacher L says: "If it is billiard that brings students out of the classroom, let us bring it into the classroom. Perhaps, I can use it to teach Math." To which philosophy does Teacher L adhere?
 - c. Reconstructionism c. Existentialism
 - d. Essentialism d. Progressivism
- p. Class schedule, list of competencies to master, and uniform class requirements belong to a school governed by the educational philosophy of _____.
 - a. various modes of assessing learning
 - b. Accommodating students learning styles
 - c. Sharing from multiple perspectives
 - d. Uniform requirements
- q. Which practice does NOT fit in a classroom that recognizes individual differences?
 - g. Various modes of assessing learning
 - h. Accommodating students learning styles
- i. Sharing from multiple perspectives
- j. Uniform requirements
- r. The practice of motivating students before we proceed to our lesson proper is in accordance with the law of _____.
 - f. exercise c. readiness
 - g. effect d. belongingness
- s. Pavlov is to classical conditioning as _____ is to operant conditioning.
 - a. B.F. Skinner c. J. Watson
 - b. J. Holt d. A. Bandura
- t. Which psychological theory states that the mind insists on finding patterns in things that contribute to the development of insight?
 - e. Gestalt psychology c. Piaget's psychology
 - f. Bruner's theory d. Kohlberg's psychology
- u. If a student is encouraged to develop himself to the fullest and must satisfy his hierarchy of needs, the highest need is _____.
 - i. belongingness c. psychological need
 - j. self-actualization d. safety needs
- v. Which practice is based on Thorndike's connectionism?
 - e. Make use of drill and rewards for students to learn
 - f. Use collaborative learning often
 - g. Make use of mnemonics to aid students memory

- h. Link teaching and testing
- w. Why is it sound to encourage our students to define terms in their own words? Because_____
- e. students remember information better when they mentally process it in some way
- f. they ought to connect the terms that they learn with other terms
- g. this is one opportunity to brush up with their English
- h. defining the terms in their own words helps them memorize the definition faster
- x. Teacher L gives his students opportunities to be creative because of his conviction that much learning results from the need to express creativity. On which theory is Teacher L's conviction anchored?_____ theory
- k. Behaviorist c. Cognitive
- l. Associationist d. Humanist
- y. Based on Freud's psychoanalytic theory, which component/s of personality is/are concerned with a sense of right or wrong?
- a. Super ego and ego c. Ego
- b. Id and Ego d. Super ego
- z. This is a classroom application of this principle, "Students learn more effectively when they elaborate of new information." Ask your students to _____
- i. write the principle five times
- j. commit the principle memory
- k. print the principle in bigger letters then put in a place where they can read it time and again
- l. identify an application of the principle
- aa. Which teaching activity is founded on Bandura's social learning theory?
- g. questioning c. inductive reasoning
- h. modeling d. interactive teaching
- bb. Which practice is an offshoot of B.F. Skinner's theory of operant conditioning?
- e. ensuring mastery of language
- f. use of programmed instruction
- g. use of scaffolding
- h. considering multiple intelligence
- cc. Teacher Z always checks on entry knowledge and skills before she proceeds to her new lesson. On which principle is Teacher Z's practice grounded?
- c. Effective teaching proceeds from the concrete to the abstract
- d. Learning increases when the lesson is relevant
- e. Attention is essential for learning
- f. New learning builds on previous learning
- dd. The practice of starting school programs very late points to the Filipino's _____
- g. orientation only on the present
- h. lack of discipline
- i. poor teamwork
- j. lack of initiative
- ee. In a research conducted by Sadker, it was found out that male and female teachers are more likely to call on male than female students and are more likely to give positive reinforcement to male's correct responses than to those of females. What does this point o? Prevalence of ____in schools.
- c. racial prejudice c. ethnocentrism
- d. multiculturalism d. gender bias
- ff. To develop in the young, a sense of pride and appreciation of our very own culture, which one should schools do more?
- i. Stress on the positive aspects of our Filipino culture
- j. Invite knowledgeable persons to discuss events in our history for which we can be proud
- k. Study the lives of our heroes
- g. I, II and III c. I and III
- h. II and III d. I and II
- gg. Which program of the Department of Education is an off shoot of the Filipino bayanihan spirit?
- g. The Basic Education Curriculum
- h. Every Child A Reader Program (ECARP)
- i. Child-Friendly School System
- j. Brigada Eskwela
- hh. According to psychologist Ormrod, considering socio-cultural influences, who can serve as an effective model for students motivation? One who is _____
- g. popular and loving
- h. not like them in terms of race, socio-economic status and cultural background
- i. superior to them in age and position in life
- j. similar to them in terms of race, socio economic status and cultural background
- ii. The Continuous Progression Scheme (CPS) in the elementary level in Philippines in the past had as its objective _____
- a. pupil's progression according to capacity
- b. equitable access to education
- c. mastery of the 3 r's
- d. mass promotion
- jj. Which is/are characteristic feature/s of the 2002 Basic Education Curriculum?
- c. Constructivist III. Essentialist
- d. Inegrative
- c. I only c. II only
- d. I and II d. I, II and III
- kk. Which was perceived to be contrary to the democratized access to education?
- c. The "Study-Now-Pay-Later" Plan
- d. The imposition on moratorium on pro-poor courses
- e. The granting of scholarships to a selected few
- f. The giving of the National College Entrance Examination (NCEE)
- ll. Which program was wrongly understood to mean all pupils pass, no one fails?
151. Mastery learning
152. Continuous Progression Scheme
153. Back-to-the-basics
154. Schools First Initiative
- mm. Which move liberalized access to education during the Spanish period?
- e. The hiring of tribal tutors to teach children
- f. The provision of vocational training for school age children
- g. The establishment of at least one primary school for boys and girls in each municipality
- h. The education of illiterate parents
- nn. Are elementary and secondary education compulsory for all children of school age?
- e. No, this violates parents' and children's right to decide what is best for them and their children
- f. Yes, for all children regardless of age
- g. Yes, that is why they are free of charge
- h. No, only elementary education is compulsory
- oo. Which is the main purpose of the compulsory study of the Philippine Constitution in schools?
- a. Acquaint students with the historical development of the Philippine Constitution
- b. Develop students into responsible, thinking citizens
- c. Equip students with the basic knowledge of Philippine Constitution
- d. Familiarize the students with the content of the Philippine Constitution
- pp. To which goals of educational institutions as provided for by the Constitution is the Development of work skills attuned?
- i. To develop moral character
- j. To develop vocational efficiency
- k. To teach the duties of citizenship
- l. To inculcate love of country
- qq. Which does basic education encompass?
- e. Early childhood education
- f. Elementary education
- g. Secondary education

- h. Alternative learning system
i. Education for Children with Special Needs
- e. I, II, III, IV and V c. I, II, III and IV
f. I, II and III d. I, II, III and V
- rr. The following are characteristics of child friendly school EXCEPT:
c. child centered c. not discriminating
d. gender sensitive d. exclusive
- ss. Student X says: "I must not cheat even if everyone in class cheats. Never mind if I get ostracized for that I will only cheat myself if I do. Besides, cheating erodes people's trusts and relationships. I condemn cheating." In the context of Kohlberg's moral development theory, in what moral development level is student X?
c. Pre-conventional
d. Post-conventional
e. Conventional
f. In between conventional and post conventional
- tt. Which teaching practice is contrary the child's multiple intelligence theory of Gardener?
e. Using portfolio as an alternative way of assessing learning
f. Limiting the assessment of learning to paper-and pencil tests
g. Utilizing varied ways of assessing learning
h. Encouraging the class to use creative ways to show what was learned
- uu. Which statement on IQ and EQ is correct?
g. EQ has a greater contribution to performance than IQ
h. It is the blending of both IQ and EQ than can make difference in performance
i. The contribution of IQ and EQ to performance is dependent on factors like age and gender
j. IQ has a greater contribution to performance the EQ
- vv. Peter, a Grade I pupil, is happy when he wins a game but sulks when he doesn't. Which does Peter's behavior indicate?
e. Egocentrism c. Rigidity of thought
f. Egotism d. Semilogical reasoning
- ww. Which learning principle is the essence of Gardener's theory on Multiple intelligence?
c. almost all learners are linguistically intelligent
d. Intelligence is not measured in one form
e. Learners have different IQ level
f. Learners have static IQ
- xx. Kendric, a Grade I pupil plays with his classmates but cannot accept defeat. Based on Piaget's theory on cognitive development, in what development stage is Kendric?
a. Sensorimotor c. concrete operation
b. pre-operational d. formal operation
- yy. According to the cognivist, Jerome Bruner, for the learner to sue information effectively, it must be TRANSLATED into his TERMS. What is an implication of this to the teacher?
e. To make him define the terms clearly
f. To use terms within the level of the pupil's understanding
g. To employ cooperative learning
h. To teach the information in the constructivist way
- zz. Based on Erikson's theory, what is the greatest danger in the elementary school years for children's development?
The development of a sense of _____
c. identity confusion c. guilt
d. isolation d. inferiority
- aaa. Fully convinced that it is not the right thing to do, Johann convinces his classmates not to cut classes. In which stage of moral development is Johann?
g. conventional
h. between conventional and post-conventional
i. post-conventional
- j. pre-conventional
- bbb. When asked about her order in a restaurant, a little girl tells the waiter "yong kagaya kahapon." With Piaget's theory in mind, what is the little girl's behavior called?
i. Conservation
j. Reversibility
k. Pre-operational egocentrism
l. Transductive reasoning
- ccc. The following terms refer to performance objectives EXCEPT _____ objectives
g. teacher's c. learner's
h. behavioral d. lesson
- ddd. Which objective in the affective domain is in the lowest level?
c. To accumulate examples of authenticity
d. To support viewpoints against abortion
e. To respond positively to a comment
f. To formulate criteria for honestly
- eee. Here is a lesson objective in literature: "Using the six descriptions of the elements of a good short story, identify in writing the six elements in the short story by O. Henry with complete accuracy." Applying Robert Mager's principle on writing performance objectives, which is the criterion measure?
e. "The six elements in the short story O. Henry with complete accuracy."
f. "Identify in writing."
g. "With complete accuracy."
h. "Using the six description of elements for a short story."
- fff. Which statement on review is CORRECT?
c. It is a remedial measure for the slow learners class
d. One of its purposes is to link the past with the new lesson
e. It is repeating the lesson on previous day to find out if students learned the lesson
f. Every lesson begins with a review
- ggg. Edgar Dale found out that people generally remember 10% of what they read but generally remember 90% of what they do. What does this imply to a teacher's instructional planning?
a. Plan a detailed lecture and provide the students with your lecture outline.
b. Give many reading materials to the students
c. Plan for an activity where students to the real thing
d. Outline the lesson on the board
- hhh. With bloom's cognitive taxonomy in mind, which objective is in the highest level?
c. To rate a project along relevance, originally and craftsmanship
d. To state the assumption that underlies the given statements
e. To state a generalization from data given
f. Tow rite a paragraph that observes unity, coherence and variety
- iii. Study the lesson objectives hen answer the question: "After a discussion on how to make a good rubric and given the criteria of a good rubric, the students are able to evaluate a rubric that he made." What is/are lacking in the objective based on Mager's elements of a good objective?
12. Condition
13. Condition and criterion of success
14. performance behavior
15. criterion of success
- jjj. Although learning can take place anywhere and anytime, the more systematic the teacher, the greater is the probability for success. This points out the need for teachers to _____
e. set their teaching priorities
f. specify their objectives
g. select their instructional materials
h. plan their lesson

- kkk. "Using the six descriptions of elements of good short story, IDENTIFY IN WRITING THE SIX ELEMENTS IN THE SHORT STORY BY O. HENRY, with complete accuracy." The words in capital letters are referred to as the _____
- criterion of success
 - performance statement
 - condition
 - minimum acceptable performance
- lll. When should a teacher decide to use direct instruction as a method?
- When the subject matter is easy
 - When the subject matter is difficult
 - When the students will be able to contribute substantially to the lesson
 - When the teacher is expert in direct instruction
- mmm. If teacher is concerned with the development of students' higher-order-thinking skills, then his lesson objectives must go beyond _____
- analysis
 - recall
 - application
 - comprehension
- nnn. For greater accountability of learning, our lesson objectives must be SMART. T in the acronym means
- time bound
 - terminal
 - time bound and terminal
 - taxonomic
- ooo. Which is in accordance with the "with-it-ness" principle of classroom management of Kounin?
- Students agree to disagree in class discussion
 - Teacher is fully aware of what is happening in his classroom
 - Student is with his teacher in everything he teaches
 - both parents and teachers are involved in the education of children
- ppp. Which is a characteristic of an effective classroom management?
- coercive
 - imposed
 - reactive
 - preventive
- qqq. Teacher G raises her eyebrows and tilts her head to communicate a warning to Jones who talks while she lectures. Which classroom control technique did she use?
- Proximity
 - prompting
 - name dropping
 - eye contact
- rrr. Which seat arrangement has been proven to be effective for learning?
- Any seat arrangement to suit varied learning styles
 - A combination of fixed and flexible arrangement
 - Flexible to suit varied activities
 - Fixed arrangement to maximize instructional time
- sss. Which illustrates a proactive approach to discipline?
- Teacher starts giving rule only after a violation of a rule
 - Teacher arranges the chairs to allow for a smooth traffic flow
 - Teacher brings to the principal two boys engaged in a fight
 - Teacher reprimands a misbehaving student.
- ttt. With preventive discipline in mind, which does NOT belong to the group?
- Reactive
 - Inventive
 - Anticipatory
 - Proactive
- uuu. Which is a proactive management practice?
- Tell them that you enforce the rules on everyone, no exception
 - Set and clarify your rules and expectations on Day 1
 - Punish the misbehaving pupils in the presence of their classmates
 - Stress on penalty for every violation
- vvv. Teacher D strives to draw participation of every student into her classroom discussion. Which student need is she trying to address? The need to_____.
- show their abilities to the rest of the class
 - feel fulfilled
 - feel significant and be part of a group
 - be creative
- www. Which can run counter to the encouragement you give to your students to ask questions?
- Knitted eyebrows when a question is raised
 - eye to eye contact
 - radiant face
 - An encouraging hand gesture.
- xxx. To encourage class participation, which should a teacher NEVER do?
- ask non-directed questions
 - Call on non-volunteers to recite
 - Pose high level questions
 - Reject a student's response at once
- yyy. Which question demands the highest level of thinking?
- what steps are followed in class reporting?
 - How should you present a report in class?
 - What conditions must be met for reporting method to be effective?
 - Was the student reporting well done? Support your answer
- zzz. Presenting graphs of literacy rate and GNP of 5 countries, Teacher L asked his class this question "Based on what you see on the graph, what is the relationship between literacy rate and GNP?" Noticing that no hand was raised, Teacher L asked: "What do you notice about the GNP when literacy rate is high? What about when literacy rate is low?" WHAT TECHNIQUE OF QUESTIONING DID TEACHER EMPLOY?
- verifying
 - rephrasing
 - leading
 - probing
- aaaa. Teacher Macrina asked her class this question: How will you illustrate symbiosis to your classmates? Teacher Macrina's question is a question that _____
- leads the students to evaluate
 - makes the students to analyze
 - assesses cognition
 - probes creative thinking
- bbbb. Which questioning technique promotes more classroom interaction?
- Focusing on convergent questions
 - Calling on the students before asking the question
 - Focusing on divergent questions
 - Asking rhetorical questions
- cccc. One effective way to handle a correct response is to give appropriate praise. Which of the following describe an appropriate praise?
- It matches the level of difficulty of the question
 - It is generously given
 - It matches the quality of the response given
 - It is heartily given
- I and IV
 - II and IV
 - I, II, III and IV
 - I and III
- dddd. Which is an evaluative question?
- Why did the researcher make use of the ethnographic method?
 - Do you agree with the way the action research was conducted? Why or why not?
 - What research findings are most significant to you?
 - Does the action research possess the elements of a scholarly research? Why or Why not?
- eeee. To improve listening and speech skills, which will be MOST appropriate?
- Mock up
 - Radio
 - Recording
 - Audio recording
- ffff. When you use the overhead projector for topic presentation, point to the _____
- OHP screen
 - OHP light

- h. OHP slide d. Projection wall
- gggg. If there is truth to the statement "A picture is worth a thousand words", then for effective teaching, what should teachers do?
Teacher should _____
- e. make use of visual aids as often as they can
f. talk less and listen more
g. remain abstract in their teaching method
h. hang many pictures of heroes on the wall
- hhhh. Based on Edgar Dale's Cone of experience, which activity is farthest from the real thing?
e. Watch a demo c. Hear
f. View images d. Attend exhibit
- iiii. Where do you make the correction of your notes while using the overhead projector?
c. On the projection wall
d. On the screen
e. On the overhead projector
f. on the slide
- jjjj. The teaching machines of Skinner provided _____ instruction
e. Evaluative c. program
f. collaborative d. recorded
- kkkk. Which can best help a Language teacher develop her students' pronunciation skills?
a. TV c. computer
b. Audio recording d. radio
- llll. A student memorized the pairs of nucleic acids in the DNA by using initials of his loved ones. Which device did he use?
a. Acrostic c. Recall
b. Jingle d. Mnemonic
- mmmm. For the picture smart the most effective learning activities are _____
c. visual imaginations c. discussions
d. reflections d. manipulatives
- nnnn. Which activity is most fit if teacher wants his students to appreciate the value of teamwork?
e. group game c. field rip
f. brainstorming d. buzz group
- oooo. I presented two potted ivy plants in class, one very robust, the other stunted, I asked my class to share me their thoughts on why one looks healthy and the other not. In what type of activity are my students engaged?
c. comparison
d. experimentation
e. drawing conclusion
f. hypothesis formulation
- pppp. To elicit more students' response, Teacher F made use of covert responses. Which one did she do?
i. She had the students privately write their responses and keep them secretly.
j. She had the students share their responses only with their seatmate
k. She told her students to cover their written responses to prevent seatmates from copying
l. She had the students write their responses privately before showing the correct answers on the overhead
- qqqq. Considering Filipino students passivity, with which activity can you best develop students questioning and interactive skills?
g. Instruct your students to listen closely to your questions and ask them to comment on them when asked
h. After every lesson, encourage your students to ask questions
i. After a lesson ask your student to write down their questions for their classmates to answer
j. Based on your lesson, assign your students to write down their questions for them to answer
- rrrr. After dividing her Values Education class into small groups, Teacher B asked her students to go through this activity: "You are under nuclear attack.

- The bomb shelter can allow only five persons. Decide who must get in." This was followed by class discussion. Which activity did Teacher B use?
g. Game c. Forum
h. Drama d. Simulation
- ssss. Which activity is meant for the kinesthetically intelligent pupils?
g. Dance
h. Independent study
i. Individualized instruction
j. Cooperative learning
- tttt. Which activity is most appropriate if I want my students to get a graphic overview of the whole lesson on figures of speech before I discuss them one by one?
e. Topic outline c. sentence outline
f. Venn diagram d. advance organizer
- uuuu. Which should I use more if I want to counteract the spirit of destructive competition among my students?
e. Listening activities
f. self evaluation
g. concept miming
h. community involvement projects
- vvvv. Which activity should I use when I want to generate possible topics for panel discussion?
c. task group c. debate
d. forum d. brainstorming
- wwww. Which activity is good for organizing and summarizing?
a. cartoons c. PowerPoint presentation
b. interview d. case study
- xxxx. If you want your pupils to master the multiplication table, which activity is MOST fit?
e. reflection c. simulation
f. game d. drill
- yyyy. As a professional teacher, which one can renew your enthusiasm to fight burnout?
c. Initiate changes in your job
d. Judge yourself as right and someone else as wrong
e. stick to your job
f. engage in self-pity
- zzzz. Here is a prayer, "Lord give the courage to change those I can change the serenity to accept those I cannot change and the wisdom to know the difference." What the right attitude towards change is as expressed in the prayer?
f. Change only if you can
g. Resign yourself to things which are not within your power to change
h. Take the initiative to introduce change
i. Welcome and work on change and submit to those you cannot change
- aaaa. I want to teach a plant's response to light inductively. How will I proceed?
c. Draw plant's response to light then explain
d. Show pictures of plants growing toward the light then ask students draw their conclusion on plant's response to light
e. State plant's response to light then prove by showing examples
f. Make my students share their research on phototropism and ask one another questions
- bbbb. Which method has been proven to be effective in the courses that stress acquisition of knowledge?
e. cooperative learning c. mastery learning
f. Socratic method d. lecture method
- cccc. If "a picture is worth a thousand words", which teaching technique is preferred?
i. game c. graphic organize
j. role playing d. anecdote
- dddd. For integrative purposes, which method/approach should be used?
VII. metacognitive approach
VIII. cooperative learning
IX. thematic approach

- X. constructive approach
- eeee. A master teacher, the resource speaker in an in-service training, presented the situated learning theory and encouraged her colleagues to apply the same in class. Which did she encourage her colleagues to do?
- Application of lesson in real-life activities
 - Use of pro-active classroom management
 - Use of independent study as a method
 - creation of a conducive setting for tests
- ffff. Teacher N developed a card game in which pupil's matched different fractions. The shapes contained within each card were the same while the number of parts shaded was different. Which concept/process were taught by this activity?
- sequencing fractions
 - equivalent fractions
 - proper and improper fractions
 - converting fractions
- gggg. Which graphic organizer is MOST fit for sequencing steps of a process?
- hierarchy diagram
 - Venn diagram
 - flow chart
 - double cell diagram
- hhhh. Which is a characteristic of constructivist teaching approach?
- Metacognitive
 - Reflective
 - I and II
 - I, II and III
- iiii. Which would likely increase students participation?
- Emphasize on self-evaluation
 - Keep students in the same small groups
 - The teacher calls only on students who raise their hands
 - Repeat questions for everybody to listen
- jjjj. In computer based instruction, which tool can help you revise your short stories, essays and other written work?
- word processing
 - spreadsheet
 - database
 - desktop publishing
- kkkk. Which does NOT belong to the group?
- Cooperative learning
 - Thematic approach
 - Content-based instruction
 - multi-disciplinary approach
- llll. Which should I use when the lesson involves tasks that are too large or difficult for a single student to accomplish independently?
- Computer based instruction
 - Direct instruction
 - Cooperative learning
 - Expository instruction
- mmmm. In the value clarification approach, which is NOT appropriate for a teacher to do?
- To help his/her students know what they value
 - To pass judgment on student values
 - To share his/her own value
 - To listen to his/her students share what they value
- nnnn. Teacher Lovelyn uses English as a second language. In teaching a lesson about grocery shopping, she makes use of vocabulary cards, fill-in-the-blank sentences, dialogues, dictation, and writing exercises. Based on this information, which of the following is a valid conclusion? Teacher Lovelyn_____
- was applying Bloom's hierarchy of cognitive learning
 - taught the used of varied techniques because not all students learn in the same manner
 - was emphasizing writing skills
 - wanted her students to talk more
- oooo. Which will I AVOID if I have to do responsive teaching?
- Teach the textbook
 - Encourage students to work alone and with peers
 - Teach for the test

- Teach in multiple ways
- pppp. Which is the first step in the goal-oriented or outcome-based model of teaching?
- establishing learning objectives
 - implementing learning activities
 - designing learning activities
 - Assessing learner's entry capabilities
- qqqq. For effective comparison, which one can I use?
- Fishbone diagram
 - Webbing
 - Metaphor
 - Spider map
- rrrr. On which assumption is the use of the Socratic method anchored?
- There are lot of latent ideas in the child's mind
 - The child;s mind is "tabula rasa"
 - The child's mind is an empty vessel
 - The child's needs to be motivated to learn
- ssss. Which concept backs up the integrated teaching approach?
- The need to destroy communication barriers
 - The necessity of the scientific method
 - The desire to became experts at least in one field
 - The interrelatedness of concepts
- tttt. With the directness of instruction as criterion, which is LEAST direct?
- Lecture
 - Cooperative learning
 - Deductive method
 - Demonstration
- uuuu. Teachers are encouraged to make use of authentic assessment. Which goes with authentic assessment?
- De-contextualized drills
 - Unrealistic performance
 - Answering multiple choice test items
 - Real world application of lessons learned
- vvvv. Which evaluation tool will be most reliable in determining the students' stage acquisition of the value of punctuality?
- Projective technique
 - Unobstructive observation
 - Opinionnaire
 - Likert scale
- wwww. Which assessment activity is most appropriate to measure the objective "to explain the meaning of molecular bonding" for the group with strong interpersonal intelligence?
- Write down chemical formulas and show how they were derived
 - Build several molecular structures with multi-colored pop beads
 - Draw diagrams that show different bonding patterns
 - Demonstrate molecular bonding using student as atoms
- xxxx. Can paper-and-pencil tests diagnose students ability to organize thoughts?
- Yes, by way of the essay test
 - No, unless the multiple choice type of test is made situational
 - Yes, by way of the selected response type of test
 - No, they are limited only to simple recall
- yyyy. Which is the most reliable tool for seeing the development in your pupils' ability to write?
- Interview of pupils
 - Self-assessment
 - Scoring rubric
 - Portfolio assessment
- zzzz. Under what value measurement instrument does sentence/story completion fall?
- Moral dilemma
 - Observation guide
 - opinionnaire
 - projective technique
- aaaa. I'd like to test whether a student knows what a particular word means. Which should I ask the student to do?
- Give the word a tune then sing it
 - Define the word
 - Spell the word and identify its part of speech
 - Give the etymology of the word

- bbbbbb. To what extent were the objectives of the course met? This is the concern of the process of _____ evaluation
- c. norm-referenced
 - d. authentic
 - e. criterion-referenced
 - f. formative

- ccccc. Which assessment tool can diagnose more specific learning difficulties?
- e. Sociogram
 - f. Journal entry
 - g. Analytic rubric
 - h. Holistic rubric

- ddddd. Teacher G has NOT to wait for the end of the term to find out how much his students learned? With which does Teacher G agree?
- g. Authentic evaluation
 - h. Formative evaluation
 - i. Norm-referenced evaluation
 - j. Summative evaluation

- eeeeee. Which is the most authentic way of measuring student's ability to debate?
- 151. Let them watch debates on video and ask them to identify strong and weak points
 - 152. Ask them to outline the steps involved in a debate and list down do's and dont's
 - 153. Have your students witness a debate and ask them to evaluate the debate after
 - 154. Organize a debate in class and have them debate on a controversial issue

- fffff. To ensure mastery of a cognitive lesson, which assessment tool is most appropriate?
- i. pre-test and post-test
 - j. summative test
 - k. essay test
 - l. objective test

- ggggg. "In the light of the facts presented, what is most likely to happen when...?" is a sample thought question on _____
- a. generalizing
 - b. concluding
 - c. justifying
 - d. inferring

- hhhhh. Here is a test item: DISTANT: NEAR as GENUINE _____. This test is a/an _____
- e. Analogy
 - f. riddle
 - c. metaphor
 - d. completion

- iiii. 'State a set of principles that can explain the following events" is a test item on _____
- c. relating cause-and-effect
 - d. summarizing
 - e. generalizing
 - f. predicting

jjjjj. READ AND ANALYZE THE MATCHING OF TEST GIVEN BELOW:
 Direction: match Column A with Column B. Write only the letter of your answer at the blank column on the left.

Column A

- _____ 1. Jose Rizal
- _____ 2. Ferdinand Marcos
- _____ 3. Corazon Aquino
- _____ 4. Manila
- _____ 5. November 30
- _____ 6. Banawe Rice terraces

Column B

- g. Considered the 8th wonder of the world
- h. The national hero of the Philippines
- i. National Heroes Day
- j. The first woman President of the Philippines
- k. The capital of the Philippines

- l. The President of the Philippines who served the longest

What is WRONG with the test?

- g. It contains less than ten items
- h. It is NOT a reliable test
- i. Columns A and B in the wrong place
- j. It does not measure what supposed to be the measure

kkkkk. I am going to construct a periodic test. Which is the first thing for me to do?

- i. Go back to my instructional objectives
- j. Study the content of my lessons
- k. Decide on the number of test items
- l. Decide on the type of test of construct

lllll. Study this matching type of test. Then answer the question below

- _____ 1. Measure of relationship
- _____ 2. Measure of central tendency
- _____ 3. Binet-Simon
- _____ 4. statistical test of mean difference
- _____ 5. measure of variability

- d. mean
- e. standard deviation
- f. rho
- g. t-ratio
- h. intelligence testing movement

Which is a way to improve the above matching test?

- i. Add five items in both columns
- j. Add one or two items in the right column
- k. Add ten items in both columns to make the test more comprehensive
- l. Add one or two items in the left column

mmmmm. Study this multiple choice test, then answer the question

How may you check whether an egg is fresh?

- a. By the smoothness of the shell
- b. There is a shadow when it is seen against a candle light
- c. it sinks in water
- d. It moves when shaken

What is WRONG with the test item?

- e. The correct answer is obvious
- f. The options are not grammatically parallel
- g. The distracters are not effective
- h. B is a very long option in comparison with the rest

nnnnn. What's defective with this test?

The Philippines _____

- a. is in Southeast Asia
- b. has a democratic form of government
- c. belongs to the Third World
- d. is the most thickly populated in Southeast

- e. it has no distracter
- f. The stem is very short
- g. it has several correct answer
- h. The stem does not contain the question

ooooo. A test item begins with these words: IN THE LIGHT OF THE FACTS PRESENTED, WHAT IS MOST LIKELY TO HAPPEN WHEN...?

- This test item is a question on _____
- c. summarizing

- d. inferring
- e. relating cause and effect
- f. applying

pppppp. Which is a way to improve the following item?

Clay can be used for _____

a. making hollow blocks

- e. make the options equal in length
- f. Make the stem of the question longer
- g. Add 2 o more options
- h. Add the word "making" to garden soil option C

qqqqqq.

Here is a lesson objective: "to reduce fractions to their lowest term."

Which is a valid test item to test the attainment of this objective?

- i. Which is the equivalent of 8/12?
c. 2/3 b. 3/4 c. 4/6 d. 16/24
- j. Reduce 2/4, 6/8, 3/9, 4/10 and 8/12 to their lowest terms
- k. What is a fraction
- l. How do you reduce a fraction to its lowest term

rrrrrr.Study this group of test which administered with the following results, then answer the question

Subject	Mean	SD	SOC'S SCORE
MATH	56	10	43
PHYSICS	41	9	31
ENGLISH	80	16	109

On the basis of Soc's Scores, what type learner is Soc? More of the _____

- g. kinesthetic type c. linguistic type
- h. spatial type d. logical type

ssssss. STUDY THE TABLE BELOW THEN ANSWER THE QUESTION:

SCORES	PERCENT OF STUDENTS
0-59	2%
60-69	8%
70-79	39%
80-89	38%
90-100	13%

What percent of the student's scores are below 70?

- e. 10% c. 28%
- f. c. 2% d. 8%

tttttt. Which graph suggests the relationship that exists between to sets of data?

- f. Histogram c. Pictograph
- g. Scattergraph d. Frequency polygon

uuuuuu. Which is implied by a positively skewed score distribution?

- c. Most of the scores are low
- d. The mean, median, and mode are equal
- e. The mode is low
- f. Most of the scores are high

vvvvvv. Teacher Lorelle does norm referenced interpretation of scores. Which of the following does she do?

- g. She uses a specified content as frame reference
- h. She describes the class performance against a set level of mastery
- i. She compares individual student's scores with other students scores
- j. She describes what should be every individual student's performance.

wwwwww. What can be said of student performance in a negatively score distribution?

- i. Most students did quite well
- j. Almost all students had an average performance
- k. A few students performed excellently
- l. Most students performed poorly

xxxxxx.The results of National Achievement Test (NAT) are interpreted against a set mastery level. This means that NAT is categorized as a/an _____ test

- e. Criterion-referenced
- f. Norm-referenced
- g. I only c. II only
- h. Either I and II d. Neither I or II

Believe in yourself and there will come a day when others will have no choice but to believe with you.

- a. No, it violates the mandate of equality education
 - b. Yes, it somewhat eliminates gender disparities
 - c. Yes, it supports equitable access to basic education
 - d. No. it does not support parent of adult education
18. "Specialization is knowing more and more about less and less". Hence, it is better to be a generalist, claims Teacher F. Which Philosophy does Teacher F. subscribe to?
- a. Existentialism
 - b. Perennialism
 - c. Essentialism
 - d. Progressivism
19. Mencius believed that all people are born good. This thought on the innate goodness of people makes it easier to _____ our pupils.
- a. teach
 - b. Respect
 - c. like
 - d. motivate
20. The specialization requires of every professional teacher for him/her to be competent is in line with which pillar of learning?
- a. Learning to know
 - b. Learning to be
 - c. Learning to live together
 - d. Learning to do
21. Which pillar of learning is aimed at the holistic development of man and his complete fulfillment?
- a. Learning to be
 - b. Learning to know
 - c. Learning to live together
 - d. Learning to do
22. Material development at the expense of human development points to the need to do more in school.
- a. "Learning to do"
 - b. "Learning to know"
 - c. "Learning to live together"
 - d. "Learning to be"
23. A student complains to you about his failing grade. When you recomputed you found out that you committed an error in this grade computation. Your decision is not accept the erroneous computation before the student and so leave the failing grade as is for fear that you may lose credibility. Is this morally right?
- a. No, the reason for not accepting the error before the students in flimsy.
 - b. No, the end does not justify the means
 - c. Yes, the end justifies the means
 - d. Yes, as a teacher you must maintain your credibility
24. Which violate(s) the principle of respect?
- I. Teacher A tells her students that what Teacher B taught is wrong.
 - II. To retaliate, Teacher B advises students not to enroll in Teacher A's class.
 - III. Teacher C secretly gives way to a special favor (e.g. add 2 points to grade) requested by student A, who is vying for honors.
- a. II and III
 - b. I, II and III
 - c. I and II
 - d. I and III
25. Which is/are in accordance with the principle of pedagogical competence?
- I. Communication of objectives of the course to students
 - II. Awareness of alternative instruction strategies
 - III. Selection of appropriate methods of instruction
- a. I and III
 - b. I, II and III
 - c. III only
 - d. II and III
26. With a death threat over his head, Teacher D is directed to pass an undeserving student. Which will a utilitarianist do?
- a. Pass the student, why suffer the threat?
 - b. Don't pass him; live by your principle of justice. You will get reward, if not in this life, in the next.
 - c. Pass the student. That will be of use to the student, his parents and you.
 - d. Don't pass him. You surely will not like someone to give you a death threat in other to pass.

- a. reinforces positive behavior
 - b. responds to misbehavior promptly
 - c. is consistent in her classroom management practice
 - d. count 1 to 10 before she deals with a misbehaving student
31. Based on Edgar Dale's "Cone of Experience", which activity is farthest from the real thing?
- a. Watching demo
 - b. Attending exhibit
 - c. Video disc
 - d. Viewing images
32. The students of Teacher Y scan an electronic encyclopedia, view a film on subject, or look at related topics at the touch of a button right there in the classroom. Which device/s does teacher Y's class have?
- a. Teaching machines
 - b. CD
 - c. Video disc
 - d. Videotaped lesson
33. Which is an INAPPROPRIATE way to manage off-task behavior?
- a. Redirect a child's attention to task and check his progress to make sure he is continuing work
 - b. Make eye contact to communicate what you wish to communicate
 - c. Move closer to the child to make him feel your presence
 - d. Stop your class activity to correct a child who is no longer on task
34. To be an effective classroom manager, a teacher must be friendly but must at the same time be ____
- a. confident
 - b. businesslike
 - c. analytical
 - d. buddy-buddy
35. Which software is needed when one wants to perform automatic calculations on numerical data?
- a. Database
 - b. Spreadsheet Program
 - c. Microsoft Word
 - d. Microsoft PowerPoint
36. Which of the following questions must be considered in evaluating teacher-made materials?
- a. In the material new?
 - b. Does the material simulate individualism?
 - c. Is the material expensive?
37. Kounin claims that "with-it-ness" is one of the characteristics of an effective classroom manager. What is one sign of "with-it-ness"?
- a. Giving attention to students who are having difficulty with school work
 - b. Seeing only a portion of the class but intensively

- c. Knowing where instructional materials are kept
d. Aware of what's happening in all parts of the classroom
38. Which of these is one of the ways by which the internet enables people to browse documents connected by hypertext links?
a. URL
b. Browser
c. Welcome page
d. World Wide Web
39. Which characteristics must be primary considered as a choice of instructional aids?
a. Stimulate and maintain students interests
b. Suited to the lesson objectives
c. Updated and relevant to Filipino setting
d. New and skillfully made
40. You can exhibit referent power on the first day of school by
a. telling them the importance of good grades
b. giving your students a sense of belongingness and acceptance
c. making them feel you know what you are taking about
d. reminding your students your authority over them again and again
41. I would like to use a model to emphasize particular part. Which of these would be MOST appropriate?
a. Regalia
b. Audio recording
c. Stimulation
d. Mock up
42. What must a teacher do to ensure orderly transitions between activities?
a. Allow time for the students to socialize in between activities
b. Have the materials ready at the start of the activity
c. Assign fewer exercise to fill the allotted time
d. Wait for students who lag behind
43. The task of setting up routine activities for effective classroom management is a task that a teacher should undertake
a. as soon as the students have adjusted to their schedules
b. on the very first day of school
c. every day at the start of the session
d. every homeroom day
44. Teacher S uses the low-profile classroom control technique most of the time. What does this imply?
a. She is reactive in her disciplinary orientation
b. She manages pupils personalities
c. She reacts severely to a misbehaving student
d. She stops misbehaving without disrupting lesson flow
45. When teacher tries to elicit clarification on a student response or solicits additional information, which of these should be use?
a. Directing
b. Probing
c. Structuring
d. Cross examining
46. Which priority criterion should guide a teacher in the choice of instructional devices?
a. Novelty
b. Cost
c. Attractiveness
d. Appropriateness
47. Which learning activity is MOST appropriate if a teacher's focus is attitudinal change?
a. Fieldtrip
b. Exhibit
c. Role play
d. Game
48. Teacher H strives to draw participation of every student into her classroom discussion. Which of these student needs is she trying to address? The need to _____
a. shoe one's oral abilities to the rest of the class
b. feel significant and be part of a group
c. get everything and be part of a group
d. be creative
49. Instead of teacher giving this comment a student response. "You're on the wrong track!" What should be teacher do?
- a. Change the question to an easier one
b. Redirect the question by calling another student to recite
c. Probe to redirect the response into a more productive area
d. Pause, ask the question, lecture, then ask the question again
50. If curriculum is designed following the traditional approach, which feature(s) apply (ies)?
I. The aims of the curriculum are set by professionals and experts
II. Interested groups (teachers, students, communities) are assumed to agree with the aims of the curriculum
III. Consensus building in not necessary
a. III only
b. I, II, III
c. I, II
d. I, III
51. I want my student to develop the ability to look at a problem from various perspectives. Which approach will be MOST fit?
a. Behaviorist approach
b. Computer-based Education
c. Modular approach
d. Cognitive approach
52. One's approach to teaching is influenced by Howard Gardner's MI Theory. What is he/she challenged to do?
I. To come up with 9 different ways of approaching lesson to cater to the 9 multiple intelligence
II. To develop all student's skill in all nine intelligences
III. To provide worthwhile activities that acknowledge individual difference in children
a. I, II and III
b. II, III
c. II only
d. III only
53. If my approach to my lesson is behaviorist, what features will dominate my lesson?
I. Copying notes
II. Reasoning
III. Lecturing
IV. Demonstration
a. III, IV
b. I, III, IV
c. I, II, III, IV
d. II, III, IV
54. You practice inclusive education. Which of these applies to you?
I. You accept every student as full and valued member of the class and school community
II. Your special attention is on learners with specific learning or social needs
III. Your address the needs of the class as a whole within the context of the learners with specific learning or social needs
a. II only
b. I and II
c. I only
d. I and III
55. School curriculum reflects the world's economic and political integration and industrialization. what does these point in curriculum development.
a. The trend towards the classical approach to curriculum development
b. The trend toward the globalization and localization
c. The trend toward participatory curriculum development
d. The shift in the paradigm of curriculum development from a process-oriented to a product-oriented one
56. You choose cooperative learning as a teaching approach. What thought is impressed on your students?
a. Interaction is a must, but not necessarily face to-face interaction
b. Student's success depends on the success of the group
c. Student's individuality evaluate how effectively their group worked.
d. The accountability for learning is on the group not on the individual

57. What principle is violated by overusing the chalkboard, as though it is the only education technology available?
- Isolated use
 - Flexibility
 - Variety
 - Uniformity
58. Which statement applies a CORRECTLY to Edgar Dale's "Cone of Experience"
- The farther you are from the base, the more direct the learning experience becomes.
 - The farther you are from the bottom, the more direct the learning experience becomes.
 - The closer you are from the base, the more indirect the learning experience becomes
 - The closer you are from the base, the more direct the learning experience becomes
59. "When more senses are stimulated, teaching and learning become more effective." What is an application of this principle?
- Appeal to student's sense of imagination
 - Use multisensory aids
 - Make your students touch the instructional material
 - Use audiovisual aids because the eyes and the ears are the most important senses in learning.
60. Which is a classroom application of the theory of "operant conditioning"?
- Help student see the connectedness of facts, concepts, and principles
 - Create a classroom atmosphere that elicits relaxation
 - Reinforce a good behavior to increase the likelihood that the learner will repeat the response
 - Make students learn by operating manipulatives

Read the following teacher-student situation

61. TEACHER: Why is the process called photosynthesis?
STUDENT: I don't know
Which questioning technique should be the teacher use?
- Clarification
 - Multiple response
 - Prompting
 - Concept review
62. Here is the test item.
"From the data presented in the table, from generalizations that are supported by the data".
Under what type of question does this item fall?
- Convergent
 - Evaluative
 - Application
 - Divergent
63. I want to teach concepts, patterns and abstractions. Which method will be MOST appropriate?
- Discovery
 - Indirect instruction
 - Direct instruction
 - Problem solving
64. Teacher A teaches English as a Second Language. She uses vocabulary cards, fill-in-the-blanks sentences, dialogues, dictation, and writing exercises in teaching a lesson about grocery shopping. Based on this information, which of the following is a valid conclusion?
- The teacher wants to make her teaching easier by having less talk
 - The teacher emphasizing reading and writing skills
 - The teacher is teaching in a variety of ways because not all students learn in the same manner
 - The teacher is applying Bloom's hierarchy of cognitive learning
65. Teacher A an experienced teacher, does daily review of past lessons in order to
- introduce a new lesson
 - reflect on how he presented the previous lessons
 - provide his pupils with a sense of continuity
 - determine who among his pupils are studying

66. I combined several subject areas in order to focus on a single concept for interdisciplinary teaching. Which strategy did I use?
- Reading-writing activity
 - Thematic introduction
 - Unit method
 - Problem-centered learning
67. To teach the democratic process to the pupils, Biag Elementary School decided that the election of class officers shall be patterned after local elections. There are qualifications set for candidates, limited period for campaign and rules for posting campaign materials, etc. Which of the following did the school use?
- Symposium
 - Simulation
 - Pole playing
 - Philips 66
68. Which are effective methods in teaching student critical reading skills?
- Interpret editorial
 - Read and interpret three different movie reviews
 - Read a position paper and deduce underlying assumptions of the position papers
- II and III
 - I and III
 - I and II
 - I, II and III
69. Here is a test item
"The improvement of basic education should be the top priority of the Philippine government. Defend or refute this position".
Under what type of question does this test item fall?
- Low-level
 - Evaluative
 - Analysis
 - Convergent
70. When I teach, I often engage in brainstorming. Which do I avoid?
- Break down barriers
 - Increase creativity
 - Generate many ideas
 - Selectively involves pupils
71. Teacher S teaches a lesson in which students must recognize that $\frac{1}{4}$ is the same 0.25. They use this relationship to determine that 0.15 and 0.20 are slightly less than $\frac{1}{4}$. Which of the following concept/s is/are being taught?
- Numeration skills
 - Place value of decimals
 - Numeration skills of decimals and relationships between fractions and decimals
 - Relationship between fraction and decimals
72. What is the best way to develop math concept?
- Solving problems using multiple approaches
 - Solving problems by looking for correct answer
 - Learning math as applied to situations, such as being a tool of science
 - solving problems by applying learned formulas
73. After the reading of a selection in the class, which of these activities can enhance students' creativity?
- Reader's theater
 - Reading aloud
 - Silent reading
- I and II
 - II only
 - I only
 - III only
74. Teacher C, a Reading teacher, advised he class to "read between the lines". What does she want her pupils to do?
- Make an educated guess
 - Determine what is meant by what is stated
 - Apply the information read
 - Describe the characters in the story
75. To nurture students' creativity, which activity should a teacher AVOID?
- Ask "what if..." questions
 - Ask divergent thinking questions
 - Emphasize the need to give right answers
 - Be open to "out-of-this-world" ideas

76. Teacher R wants to develop his students' creativity. Which type of questions will be MOST appropriate?
- Synthesis questions
 - Fact questions
 - "What if...." questions
 - Analysis questions
77. In my attempt to develop creative thinking skills, I want to test fluency of ideas. Which activity for my students will be MOST appropriate?
- Solve this math problem
 - List animals covered with hair in 1 minute
 - Solve this puzzle
 - Compare pictures 1 and 2. Where are the differences?
78. You want your students to answer the questions at the end of a reading lesson. "What did I learn did?," "What still puzzle me?," "What did I enjoy, hate accomplish in the class today?," "How did I learn from the lesson?," Which of the following are you asking them to do?
- Work on an assignment
 - Make journal entry
 - Work on a drill
 - Apply what they learned
79. After reading an essay. Teacher B wants to help sharpen her students' ability to interpret. Which of these activities will be most appropriate?
- Drawing conclusions
 - Making inferences
 - Getting the main idea
 - Listing facts separately from opinion

Read the following then answer the question

80. A man and his son are driving in a car. The car crashes into a tree, killing the father and seriously injury his son. At the hospital, the boy needs to have surgery. Looking at the boy, the doctor says (telling the truth), "I cannot operate on him. He is my son. How can this be?
- ANSWER: The doctor is the boy's mother.
- The above brain twister helps develop critical reading skills. Which activity was used?
- Comparing
 - Classifying
 - Inferring meaning
 - Looking for cause and effect
81. Research says that mastery experiences increase confidence and willingness to try similar or more challenging tasks as reading. What does this imply for children's reading performance?
- Children who have not mastered the basic skills are more likely to be motivated to read in order to gain mastery over basic skills.
 - Children who have mastered basic skills are more likely to be less motivated to read because they get fed up with too much reading.
 - Children who have a high sense of self-confidence are not necessarily those who can read
 - Children who have gained mastery over basic skills are more motivated to read
82. The value that students put on reading is critical to their success. In what way/s can teachers inculcate his value for reading?
- Sharing the excitement of read-aloud
 - Showing their passion for reading
 - Being rewarded to demonstrate the value of reading
- II and III
 - I and II
 - I, II and III
 - II only
83. Bruner's theory on intellectual development moves from enactive to iconic and symbolic stages. Applying Bruner's theory. How would you teach?
- Be interactive in approach
 - Begin with the abstract
 - Begin with the concrete
 - do direct instruction

84. A person who has painful experiences at the dentist's office may become fearful at the mere sight of the dentist's office building. Which theory can explain this?
- Generalization
 - Operant Conditioning
 - Attribution theory
 - Classical conditioning
85. Which is/are the basic assumption/s of behaviorists?
- The mind of newborn child is a blank state.
 - all behaviors are determined by environmental events
 - The child has a certain degree of freedom not to allow himself to be shaped by his environment.
- III only
 - I and II
 - II only
 - I and II
86. If a student is encouraged to develop himself to the fullest and must satisfy his hierarchy of needs, the highest needs to satisfy according to Maslow is ____
- psychological need
 - self-actualization
 - belongingness
 - safety needs
87. In a Social studies class, Teacher I presents a morally ambiguous situation and asks student what they would do. On whose theory is Teacher I's technique based?
- Bandura
 - Piaget
 - Kohlberg
 - Bruner
88. Teacher F is convinced that whatever a student performs a desired behavior, provide reinforcement and soon the student learns to perform the behavior on his own. On which principle is Teacher F's conviction based?
- Environmentalism
 - Behaviorism
 - Cognitivism
 - Constructivism
89. Bandura's social learning theory, states that children often imitate those who
- have substantial influence over their lives
 - belong their peer group
 - belong to other races
 - are successful and seem admired
- IV only
 - I and IV
 - I and II
 - II and IV
90. According to Erikson, what years are critical for the development of self-confidence?
- High school years
 - College years
 - Preschool years
 - Elementary school years
91. Which of the following does NOT describe the development of children aged 11 to 13?
- They exhibit increased objectivity in thinking
 - They shift from impulsivity to adaptive ability
 - Sex difference in IQ become more evident
 - They show abstract thinking and judgment
92. Teacher H begins a lesson on tumbling, demonstrating front and back somersaults in slow motion and physically guiding his students through the correct movements. As his students become more skillful, he stands back from the man and gives verbal feedback about how to improve. With Vygotsky's theory in mind, what did Teacher H do?
- Apprenticeship
 - Guided participation
 - Peer interaction
 - Scaffolding
93. What does Gagne's hierarchy theory propose for effective instruction?
- Be concerned with the socio-emotional climate in the classroom
 - Teach beginning with the concrete
 - Sequence instruction
 - Reward good behavior
94. William Glasser's control theory states that behavior in inspired by what satisfies a person's want at any given time. What then must a teacher do to motivate students to learn?

- a. Make teaching-learning interactive
 - b. Avoid giving assignments
 - c. Organize a curriculum in a spiral manner
 - d. Make schoolwork relevant to students' basic human needs.
95. Soc exhibit fear response to freely roaming dogs but does not show fear when a dog is on a leash or confined to a pen. Which conditioning process is illustrated?
- a. extinction
 - b. generalization
 - c. acquisition
 - d. discrimination
96. Based on Freud's theory, which operate/s when a student strikes a classmate at the height of anger?
- a. Ego
 - b. Id
 - c. Id and Ego interact
 - d. Superego
97. Bernadette enjoyed the roller coaster when he and her family went to Enchanted Kingdom. The mere sight of a roller coaster gets her excited. Which theory explains Bernadette's behavior?
- a. Operant conditioning
 - b. Social learning theory
 - c. Attribution theory
 - d. Pavlovian conditioning
98. According to Frued, with which should one be concerned if he/she has to develop in the students a correct sense of right and wrong?
- I. Super-ego
 - II. Ego
 - III. Id
- a. I and II
 - b. II
 - c. I
 - d. III
99. When small children call animals "dog", what process is illustrated on Piaget's cognitive development theory?
- a. reversion
 - b. assimilation
 - c. accommodation
 - d. conservation
100. Researchers found that when a child is engaged in a learning experience a number of areas of the brain are simultaneously activated. Which of the following is/are implication/s of this research finding?
- I. Make use of field trips, guest speakers
 - II. Do multicultural units of study
 - III. Stick to the "left brain and right brain" approach
- a. I and III
 - b. I only
 - c. I and II
 - d. II only
101. Which appropriate teaching practice flows from this research finding on the brain: "The brain's emotional center is tied into its ability to learn".
- a. Establish the discipline of being judgmental in attitude
 - b. Come up with highly competitive games where winners will feel happy
 - c. Tell the students to participate in class activities or else won't receive plus points in class recitation
 - d. Create a learning environment that encourages students to explore their feeling and ideas freely
102. Research on Piagetian tasks indicates that thinking becomes more logical and abstract as children reach the formal operations stage. What is an educational implication of this finding?
- a. Engage children in analogical reasoning as early as preschool to train them for higher order thinking skills (HOTS)
 - b. Learners who are not capable of logical reasoning from ages 8 to 11 lag behind in their cognitive development
 - c. Let children be children
 - d. Expect hypothetical reasoning for learners between 12 to 15 years of age
103. Research says: "People tend to attribute their successes to internal causes and their failures to external causes."Based on this finding, what should be taught to students for them to be genuinely motivated to succeed?
- a. Tell them the research finding when applied will make them genuinely motivated
 - b. Convince them that genuine motivation is the only factor that matters for a person to succeed
 - c. Make them realize that failure is a part of life
 - d. Make them realize that both success and failure are more a function of internal causes.
104. Which characterize/s a learning environment that promotes fairness among learners of various cultures, family background and gender?
- I. Inclusive
 - II. Exclusive
 - III. Gender-sensitive
- a. I only
 - b. III only
 - c. I and III
 - d. II and III
105. Which of the following steps should be completed first in planning an achievement test?
- a. Define the instructional objective
 - b. Set up a table of specialization
 - c. Select the types of test items to use
 - d. Decide on the length of the test
106. The computed r fro scores in Math and Science in 0.92. What does this mean?
- a. Math score is positive related to Science score
 - b. The higher the Math score, the lower the Science score
 - c. Math score is not in any way related to Science score
 - d. Science score is slightly related to math score
107. Which types of test is most appropriate if Teacher Y wants to measure student's ability to organize thoughts and ideas?
- a. Short answer type of test
 - b. Extended response essay
 - c. Modified alternative response
 - d. Limited response essay
108. With assessment of affective learning in mind, which does NOT belong to the group?
- a. Cloze test
 - b. Moral dilemma
 - c. Reflective writing
 - d. Diary entry
109. I want to test student's synthesizing skills. Which has the highest diagnostic value?
- a. multiple choice test
 - b. Performance test
 - c. Essay test
 - d. Completion test
110. _____ is an example of a leafy vegetable.
- Why is this test item poor?
- I. The test item does not pose a problem to the examinee
 - II. There are variety of possible correct answer to this item
 - III. the language used in the question is not precise
 - IV. The blank is near the beginning of a sentence
- a. I and III
 - b. II and IV
 - c. I and IV
 - d. I and II
111. What follows is a multiple choice type of test. _____
- Some test items
- a. are too difficult
 - b. are objective
- What makes the multiple choice type of test poor?
- a. The options are not grammatically connected to the stem
 - b. The stem fails to present a problem
 - c. There are grammatical clues
 - d. The options are not parallel

112. If a teacher wants to measure her students' ability to discriminate, which of these is an appropriate type of test item as implied by the direction?
- "Outline the Chapter on *The Cell*".
 - "Summarize the lesson yesterday".
 - "Group the following items according to shape".
 - "State a set of principle that can explain the following events".
113. A test item has a difficult index of 0.89 and a discrimination index of 0.44. What should the teacher do?
- Reject the item
 - Retain the item
 - Make it a bonus item
 - Make it a bonus item and reject it
114. Which form of assessment is consistent with the saying "The proof of the pudding is in the eating".
- Contrived
 - Traditional
 - Authentic
 - Indirect

115. Who is best admired for outstanding contribution to world peace?

a. Kissinger

c. Kennedy

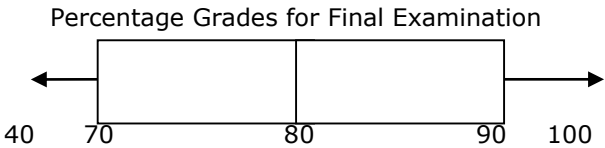

What is WRONG with this item?

- Item is overly specific
 - Content is trivial
 - Test item is option-based
 - There is a cue to the right answer
116. Student's score were as follows: 82, 83, 84, 86, 88, 84, 83, 85. The score 86 is the
- mode
 - average
 - median
 - mean
117. Which text form would you choose if you want to have a valid and reliable test based on the table below?

Test Form	Validity Index	Reliability Index
A	.47	.68
B	.87	.57
C	.20	.86
D	.40	.41
E	.63	.07

- A only
 - B only
 - A and D
 - B and E
118. A mathematicians test was given to all Grade V pupils to determine the contestants for the Math Quiz Bee. Which statistical measure should be used to identify the top 15?
- Mean percentage score
 - Quartile Deviation
 - Percentile Rank
 - Percentage Score
119. Nellie's score is within ± 1 SD. To which of the following groups does she belong?
- Below average
 - Average
 - Needs Improvement
 - Above average

120. Use the inbox below to answer the question that follows:

- Which of the following statement is TRUE about the plot of grades above?
- The median is a score of 80 and the range is 60.
 - The median is a score of 70 and the range is 60.
 - The median is a score of 80 and the range is 20.
 - The median is a score of 70 and the range is 20.

121. Which can be said of Arielle who obtained a score of 75 out of 100 items in a Grammar objective test?
- She performed better than 25% of her classmates
 - She answered 75 items in the test correctly
 - Her rating is 75
 - She answered 75% of the test items correctly
122. The criterion of success in Teacher D's objective is that "the pupils must be able to spell 90% of the words correctly". Ana and 24 others in the class spelled only 40 out of 50 words correctly while the rest scored 45 and above. This means that Teacher D _____
- attained her lesson objective
 - did not attain her lesson objective because of the pupils' lack of attention
 - failed to attain her lesson objective as far as the 25 pupils are concerned
 - attained her lesson objective because of her effective spelling drill
123. If the scores of your test follow a negatively skewed score distribution, what should you do?
- Find out _____ ?
- why your items were easy
 - why most of the scores are high
 - why most of the scores are low
 - why some pupils scored high
124. Principal A is talking about "grading on the curve" in a faculty meeting. What does this expression refer to?
- A student mark compares his achievement to his effort.
 - A student's grade or mark depends on how his achievement compares with the achievement of other students in a class.
 - A student's grade determines whether or not a student attains a defined standard of achievement
 - A student mark tells how closely he is achieving to his potential.
125. Which tests determine whether students accept responsibility for their own behavior or pass on responsibility for their own behavior to other people?
- Thematic tests
 - Sentence-completion tests
 - Stylistic test
 - Locus-of-control tests
126. Which of the one weakness of self-supporting personality checklists?
- Many personality measures have built-in lie scales
 - They lack stability
 - They may not get true information because individuals can hide or disguise feelings
 - They have poor internal consistency
127. Which of these can measure awareness of values?
- Sociogram
 - Moral dilemmas
 - Projective techniques
 - Rating scales
128. Marking on a normative basis means that the normal distribution curve should be followed
- some should fall
 - some get high marks
 - the grading is based on a present criteria
129. Which process enhances the comparability of grades?
- Using a table specifications
 - Determining the level of difficulty of the tests
 - Giving more HOTS (higher order thinking skills)
 - Constructing departmentalized examinations for each subject area.

SITUATIONAL

Situation 1- In a faculty meeting, the principle told his teacher: "We need to improve our school performance in the National Achievement Test. What should we do?

The teacher gave varied answers as follows:

- 1. Let's give incentives and rewards to students who get a rating of 85%
- 2. Let's teach them to accept complete responsibility for their performance
- 3. Let's make the school environment conducive for learning
- 4. Let's make use of the experimental methods

130. Which response/s come/s from a behaviorist?
a. #2 and #4 c. #3 and #4
b. #1 and #2 d. #1 and #3
131. On which educational philosophy is response #1 anchored?
a. Existentialism c. Progressivism
b. Essentialism d. Bahaviorism
132. If you learned toward a progressivist philosophy, with which response would you agree?
a. #2 b. #3 c. #4 d. #1

Situation 2- One principle in the utilization of technology of the classroom is appropriateness of material or activity.

133. Teacher C wants his students to master the concept of social justice. Which series of activities will be most effective?
a. Pretest-teaching-posttest
b. Pretest-teaching-posttest-re-teaching for unlearned concepts-posttest
c. Review-pretest-teaching-posttest
d. Teaching-posttest
134. Teacher A likes to show how the launching of spaceships takes place. Which of the following materials available is most fit?
a. Model c. Replica
b. Mock-up d. Realia
135. Teacher B likes to concretize the abstract concepts of an atom. She came up with a concrete presentation of the atom by using wire and plastic balls. How would you classify Teacher B's visual aids?
a. Chart c. Model
b. Replica d. Realia

Situation 3- After reading and paraphrasing Robert frost's "Stopping by the Wood on a snowy Evening". Mr. Sales asked the class to share any insight derived from the poem.

136. The class was asked to share their insights about the poem. The ability to come up with a n insight stems from the ability to
a. analyze the parts of a whole
b. evaluate the worthiness of a thing
c. relate and organize things and ideas
d. comprehend the subject that is being studied
137. To ask the class any insight derived from the poem is based on the theory of
a. realism c. conditioning
b. behaviorism d. constructivism
138. On which assumption about the learner is Mr. Marquez's act of asking the class to share their insight based?
a. Learners are like empty receptacles waiting to be filled up
b. Learners are meant to interact with one another

- c. Learners have multiple intelligence and varied learning styles
- d. Learners are producers of knowledge not only passive recipients of information

Situation 4- Principal E wants her teachers to apply constructivism in teaching

139. On which assumption/s is the principal's action anchored?
I. Students learn by personally constructing meaning of what is taught.
II. Students are construct and reconstruct meaning based on experiences
III. Students derive meaning from the meaning that the teacher gives
a. II only c. I, II, and III
b. I and II d. I only
140. Which materials will her teachers LEAST prefers?
a. Controversial issues
b. Open-ended topics
c. Unquestionable laws
d. Problem or cases
141. Which concept/s of the learner will Principal E NOT accept?
I. "Empty vesse!"
II. "Tabula rasa"
III. Candle to be lighted
a. III only c. II only
b. I only d. I and II

Situation 5- Study the matching type of test then answer the 3 questions that follow:

Column A	Column B
1. equilateral triangle	A. With 3 equal sides
2. right triangle	B. With 5 equal sides
3. octagon	C. Has 90- degree angle

142. How can you make the items homogeneous?
a. Increase the number of items in Column B
b. All items should be on polygons
c. Remove the word triangle in items #1 and #2 in column A
d. The word "gon" must be included in column B
143. What is the main defect of this matching test?
a. the matching type is an imperfect type
b. the items are NOT homogeneous
c. the items quite easy
d. an obvious pattern is followed in the answering
144. Which should be done to improve the matching type of test?
a. Capitalize the items in Column A
b. Items in Column A and B should be exchanged
c. Drop #6 item in Column A
d. The item in Column A should be increased

Situation 6- Below is the template for Scoring Rubric.

5-Demonstrate complete understanding of the problem. All requirements of task are included in response
4-Demonstrate considerable understanding of the problem. All requirements of task are included
3- Demonstrate partial understanding of the problem. Most requirements of task are included
2- Demonstrate little understanding of the problem. Many requirements of task are missing
1- Demonstrate no understanding of the problem

145. Which of these is/are essential in constructing a scoring rubric?
- I. Description of criteria to serve as standard
 - II. Clear descriptions of performance at each level
 - III. Levels of achievement (mastery)
 - IV. Rating scheme
- a. I, II, III
 - b. I, II
 - c. I, II, III, IV
 - d. I only
146. Which statement is TRUE of the rubric?
- a. It is developmental
 - b. It is analytical
 - c. It is both holistic and developmental
 - d. It is holistic
147. Which is TRUE of the scoring rubric?
- I. It describes criteria of levels of achievement
 - II. It has a rating scheme
 - III. It limit itself to 4 levels of achievement
- a. I and II
 - b. I and III
 - c. II and III
 - d. I, II and III

Situation 7- Study the table on item analysis for non-attractiveness and non-plausibility of distracters based on the results of a try-out test in Science. The letter marked with an asterisk is the correct answer.

Item No. 1	A	B	C	D	E
Upper 27%	10	4	1	1	0
Lower 27%	6	5	2	2	0

148. The table shows that the test item analyzed _____.
- a. has a positive discrimination index
 - b. has a negative discrimination index
 - c. is extremely easy
 - d. is extremely difficult
149. Based on the table, which is the most effective distracter?
- a. Option D
 - b. Option A
 - c. Option C
 - d. Option B
150. Based on the table, which group got more correct answer?
- a. Upper group
 - b. It cannot be determined
 - c. Lower group
 - d. Data are not sufficient to give an answer

When you get right down to the root of the meaning of the word "succeed," you find that it simply means to follow through.

EXAM DRILL I – PROF. ED.

ANSWER KEY:

1. You are very much interested in a quality professional development program for teachers. What characteristic should you look for?
A. Prescribe by top educational teachers...

1. The ash from Mt. Pinatubo has been found to have gold content of only 20 parts per billion which is far below commercial levels. As such, officials have warned against hopes of a new “gold rush.”
 - A. There is new hope for boosting the economy of the Philippines
 - B. There is a need to explore what else lies beneath Mt. Pinatubo
 - C. There is possibility of existing gold mines beneath Mt. Pinatubo
 - D. The gold content of the ash from Mt. Pinatubo does not have commercial value
2. The Nibelungenlied is a:
 - A. Russian folk song
 - B. Latin Myth
 - C. Medieval German Epic
 - D. Chinese legend
3. The EQUINOX usually occurs on or close to March 21 and September 23.
 - A. Time when heavy rains fall
 - B. Time when days are longer than the nights
 - C. Time when days are shorter than the nights
 - D. Time when day and night are equal length all over the earth
4. The first day of June is a Saturday. What day will the last day of June be?
 - A. Sunday
 - B. Monday
 - C. Thursday
 - D. Frida
5. Hindi nakayanan ng aking kaibigan ang kanyang MASALIMUOT na buhay.
 - A. Mahirap
 - B. Malabo
 - C. Malungkot
 - D. Magulo
6. Ang katumbas sa Filipino ng “national identity” ay _____.
 - A. Pandaigdig na pagkilala
 - B. Pambayang pagkakakilala
 - C. Pambansang pagkakilanlan
 - D. Pambansang katanyagan
7. Walang tubig kahapon. Ito ay pangungusap na:
 - A. Walang pandiwa
 - B. Walang paksa
 - C. May panaguri
 - D. May paksa
8. A substance that gives up hydrogen ions to water to form hydronium ions is called:
 - A. A salt
 - B. A base
 - C. Sour milk
 - D. Flour
9. Lunar eclipse occurs when the earth passes between the moon and the sun, eclipse of the moon does not occur each month because:
 - A. The dark side of the moon rarely faces the earth
 - B. The earth is usually between the moon and the sun

- C. The moon rarely comes close enough to the earth
D. The moon's orbit is at an angle to the earth's orbit around the sun
10. How may the established of housing subdivision to address housing problem contribute to decreased food production?
A. Housing divisions become over crowded
B. Men get occupied with construction and leave their farms untilld
C. Arable lands are reduced for these are converted into housing subdivision
D. People who flocked to the center where most subdivisions are located have no skill
11. Which principle of taxation does the Philippine government lack if it falls to raise the needed revenue and therefore borrows from other countries to cover its expenses
A. Equity B. Elasticity C. Neutrality D. Productivity
12. What can be said of the Philippine peso if the exchange rate of a dollar to a peso has gone down from P50 to a dollar to P40.32?
A. The peso is stable C. The value of peso is fluctuating
B. The peso has weakened D. The peso has strengthened
13. Ecologist associate the relation between climate and vegetation and animals life with the term:
A. Biome B. Habitat C. Biosphere D. Population
14. Which biogas is obtained from biological wastes such as animals manure?
A. Ester B. Alcogas C. Methane D. Ethylene
15. Who are referred to as Japayukis?
A. Filipinos working as entertainers in Japan
B. Filipino overseas contract workers in Japan
C. Filipino Japanese descendents now working in Japan
D. Japanese who come to the Philippines for their business/pleasure tours
16. What happens to the speed of a light ray as it passes from water to air?
A. Increases C. Increase then decreases
B. Decreases D. Remains the same
17. In each cardiac cycle, the heart goes through a system contraction. What is this phase called?
A. Systole B. Diastole C. Diastole arc D. Diffusion
18. Ano ang tawag sa nasa malaking titik sa sumusunod na pangungusap? Naging mabilis ang pulong NG PANGULO at NG MGA KALIHIM
A. Salita B. Kataga C. Parirala D. Sugnay
19. With the Cold War in mind, which does NOT belong?
A. Conflict B. Dialogue C. Competition D. Tension
20. The dignity of every human person is rooted on his/her being:
A. Good C. Productive
B. Educated D. Created into God's Image & likeness
21. To be ethical and moral, what is the best thing to do?

- A. **Strengthen the will**
B. Discuss what is good to do
- C. Reflect on the moral things to do
D. Conduct seminars on values education
22. When a manufacturer engages the production of pirated CD's he violates other people's right to
A. **Copyright**
B. Lawful Income
- C. Intellectual property
D. Engage in business
23. The latest agrarian reform program in the country is more comprehensive than the first because:
A. **Included sugar & coconut lands in addition to rice & corn lands**
B. Enforced more than nineteen Presidential Decrees
C. Declared the whole country as a land reform area
D. Benefitted both tenant and landowner
24. Which is the foundation of genuine justice?
A. Religiosity
B. Peace talks
- C. **Social Justice**
D. End of the arms race
25. What is the counting number that is less than 15 and when divided by 3 has a remainder of 1: but when divided by 4 has a remainder of 2?
A. 12
B. 8
C. 5
D. **10**
26. Which of the following factors contribute to an increase in human population?
I. Immigration
II. Emigration
A. III and IV
- III. Natality
IV. Mortality
B. I only
C. **I and III**
D. II and III
27. How much interest would be paid on a bank loan of 30,000 for 8 months at 12% annual interest?
A. P 3,600
B. P 2,800
C. **P 2,400**
D. 3,240
28. Which family obligation is especially valued?
A. Sending relatives in remote barrios to college
B. Supplying groceries to relatives in remote barrios
C. **Keeping immediate family members out of trouble**
D. Providing health assistance to relatives living in the same locale.
29. A good writer supports his generalizations with _____ examples.
A. Convenient
B. Unfamiliar
- C. **Concrete**
D. Abstract
30. Because the moon rotates on its axis at the same time as it _____ around the earth, we see the same side always.
A. **Revolves**
B. Revolve
- C. Is revolving
D. Has been revolving
31. She wrote a "first-rate" report. What does it say about the report?
A. Run-of-the-mill
B. Ordinary
- C. **Excellent**
D. Mediocre

32. She has a penchant for blue dresses. This indicates _____.
- A. Dislike
 - B. Fondness
 - C. Avoidance
 - D. Strong aversion

33. "Values education is integrated in the curriculum of all levels." Which of the following supports this statement?
 A. Values education is stressed in all subjects at all levels
 B. There is a need for training of teachers to teach
 C. Additional classroom will be needed
 D. New teachers will be hired
34. "She is a vision of feminine pulchritude." This stands for the following except:
 A. Comeliness
 B. Loveliness
 C. Homeliness
 D. Physical Beauty
35. Ako'y nangangakong matatapos sa isang karera. Siya'y kasama sa:
 A. Gustong magsuot ng toga isang araw
 B. Siya'y hawak ang malamig na bakal
 C. Ospital sa panganganak ng asawa
 D. Isang rally sa EDSA
36. Ang kagawaran nang pang-ibang bansa ay gulong-gulo kapag may giyera sa ibang bansa. Ano ang unang ginagampanan ng Ambassador sa Bansa:
 A. Bayaang masipag-uwian sa sariling sikap ang bawat isa
 B. Alamin ang mga tirahan ng mga Filipino sa bayang iyon
 C. Ipunin ang mga maykaya at ipalipad pauwi
 D. Bilangin ang mga lalaki
37. In moral life, responsibility depends on one's knowingly and freely doing an act. In which of the following situations would you attribute responsibility?
 A. A person unknowingly passes counterfeit money
 B. An insane person strikes someone's head with a hammer
 C. A four year old fires a loaded gun killing his own father
 D. A nurse administer a medicine despite strong doubts
38. The government has control of many government corporations and industries. What was deregulated and allowed to raise prices without control?
 A. Oil industry
 B. Mining industry
 C. Fishing industry
 D. Water source
39. Democracy refers to the involvement of all citizens in the control of government, while an oligarchy relegates control of government to:
 A. The mother Country
 B. An autocrat
 C. A religious group
 D. A select few
40. Printed on the label of a bottle of cough medicine is the following instruction." Store away from light, below 30 degrees C." What can you infer about the cough medicine?
 A. It is in a dark, light proof bottle
 B. It is affected by heat and light
 C. It should be stored in the refrigeration
 D. It should be stored hidden
41. Which human right violation is a deliberate and systematic extermination of an ethnic or national group?
 A. Genocide
 B. Murder
 C. Homicide
 D. Parricide
42. Man is always interested in asking questions. He is also very eager to find the answers to his questions. What scientific attitude is he displaying?
 A. Wonder
 B. Rationality
 C. Curiosity
 D. Absence of prejudice

43. Paulo admits that he is not free committing errors. He recognizes that there may be better ideas and realizes that there are individuals whom he may have to consult to arrive at correct observations and conclusions. What scientific trait is he displaying?
A. Humility B. Objectivity C. Open mindedness D. Rationality
44. A lady actively participates in task and also dutifully performs tasks assigned to her. What scientific attitude is displayed in his situation?
A. Unity B. Camaraderie C. Being a team player D. Responsibility
45. PINASYALAN ng mag-anak ang Enchanted Kingdom noong isang buwan. Ano ang pokus ng pandiwa?
A. sanhi B. direksyon C. tagatanggap D. tagaganap
46. "Magtatrabaho ako at ikaw ay mag-aaral upang makatapos ka ng pag-aaral", Anong uri ng pangungusap ito?
A. Payak B. Hugnayan C. Tambalan D. Langkapan
47. If the area of one circle is twice that of another circle, what is the ratio in percent, of the smaller to larger circle?
A. 50 % B. 25% C. 75% D. 70%
48. Four mangoes cost P29.00 at that price, what will 2 ½ dozen mangoes cost?
A. P 870.00 B. P 348.50 C. P188.50 D. P 217.50
49. All the seats in the bus are occupied and six are standing. At the next bus stop, 13 persons got off and 5 got in. How many seats were empty after this stop?
A. 2 B. 0 C. 23 D. 24
50. What day follows the day before yesterday if two days from now will be Sunday?
A. Thursday B. Tuesday C. Wednesday D. None of the above
51. The hypotenuse of a right angle triangle is 25 feet. If one leg is 24 feet, what is the length of the other leg?
A. 5ft B. 6ft C. 20ft D. 7ft
52. Two buses leave the same station at 9pm. One bus travels north at the rate of 30 kph and the other travels east at 40 kph. How many kilometers apart are the buses at 10pm?
A. 50 km B. 70km C. 100km D. 140km
53. Which of the following does not belong to life science?
A. Cytology B. Physics C. Botany D. Genetics
54. Why do leaves with green color look green in the sunlight?
A. They absorb the blue and yellow object
B. The blue and yellow bounces off from the leaves
C. They absorb the green light
D. They reflect green light
55. Why do people feel their ears pop or crack when they are up in the air?
A. Air is cleaner C. There are more air particles
B. Air is cooler D. There are less air particles

56. What is the bending of light when it changes speed in passing from one material to another?
 A. reflection **B. refraction** C. diffraction D. interference
57. Two vases are identical except one is glass and the other is made of black plastic. If they are side by side in a well-lit room, which vase absorbs more light energy?
 A. **The black vase absorbs more.** C. The glass vase absorbs more.
 B. They absorb the same amount. D. They absorb no light energy.
58. If you connect light bulbs together so that the current through each lightbulb is the same, you have made which type of circuit?
 A. **a series circuit** C. a combination circuit
 B. a parallel circuit D. an open circuit
59. Why is just one side of the Moon visible from Earth?
 A. The Moon does not rotate on its axis as it orbits the Earth.
B. The Moon rotates once in the same amount of time that it orbits.
 C. Half of the Moon is always unlit by the Sun.
 D. Half of the Moon does not reflect light.
60. Stars rise and set in the night sky because
 A. Earth orbits the Sun.
B. Earth rotates.
 C. the North Poles points toward Polaris
 D. the stars are moving in space
61. Dissolving sugar in water is an example of
 A. **physical change** C. phase change
 B. chemical change D. nuclear change
62. An electric current can be used to decompose, or break down, water into oxygen gas and hydrogen gas. This is an example of a
 A. physical change C. phase change
 B. **chemical change** D. nuclear change
63. How is energy transferred by convection?
 A. by direct contact between objects
 B. by electromagnetic waves
C. by movement of groups of particles in gases or liquids
 D. by movement of groups of particles in solid objects
64. Water requires more energy than an equal mass of iron for its temperature to increase by a given amount because water has a greater
 A. ability to conduct heat C. temperature
 B. thermal energy **D. specific heat**
65. An insulator keeps a home warm by
 A. slowing the transfer of cold particles from outside to inside

- B. increasing the specific heat of the air inside
 - C. slowing the transfer of energy from inside to outside
 - D. increasing the thermal energy of the walls.
66. What characteristic of large bodies of water explains why the seawater is cooler than the land in the hot afternoon sun?
- A. Water is liquid while the land is solid.
 - B. Water has a higher specific heat than land.
 - C. Land is a better insulator than water.
 - D. Land has a higher specific heat than water.
67. Geothermal energy, an energy resource in the country, is based on which phenomenon?
- A. Heat energy from the sun penetrates deep into the earth
 - B. Human activity is the largest source of energy heat on earth
 - C. There are concentration of heat in some places of earth's crust
 - D. Earth's internal energy heats its surface more than the sun does
68. Which of these effects generally occurs as a result of warm air mass and a cooler air mass converging at earth's surface?
- A. Winds die down
 - B. The sky becomes cooler
 - C. Stormy weather patterns develop
 - D. Cloud formation decreases
69. To what classification of rights does the right to live and to love belong?
- A. Political
 - B. Natural
 - C. Statutory
 - D. Constitutional
70. Which among the following are duplicated during the process of mitosis?
- A. Centrosomes
 - B. Centromeres
 - C. Chromosomes
 - D. Chloroplasts
71. Every right has a corresponding duty. This means that rights and duties are:
- A. Different
 - B. Absolute
 - C. Reciprocal
 - D. Related
72. The EDSA I in our history as a people prove the power of:
- A. Information
 - B. Armed violence
 - C. Preference of the poor
 - D. People power
73. Which desktop icon can be used to access the files and programs in the computer?
- A. Task bar
 - B. My documents
 - C. My briefcase
 - D. My computer
74. When it is most important to scan a computer's drives for virus? Immediately after:
- A. Shutting down the computer improperly
 - B. Defragmenting a computer's hard disk
 - C. Installing software from a disk created by a friend
 - D. Downloading a text file from a government website
75. Your computer is not receiving the print command. Which should you do first?
- A. Check the computer's default printing settings
 - B. Reset the printing properties of the printer
 - C. Realign the heads of the printers print
 - D. Replace the ink cartridges
76. In what sense is the Filipino linked to a bamboo?
- A. He is sturdy ambitious
 - B. He is flexible
 - C. He is versatile
 - D. He is

77. You have a property worth P500,000. The tax is 1%, he pays P5000. If his property is worth P1,000,000 he pays 10,000. Which does this illustrate?
A. Equality in taxation
B. Equity taxation
C. Uniformity taxation
D. Progressive taxation
78. Which refer to a single phrase or word that tells the computer to something with a program or a file?
A. Command
B. Password
C. Computer program
D. Computer language
79. Who was the first scientist who measured the speed of light in water?
A. Fizeau
B. Gallileo
C. Michelson
D. Foucalt
80. The power rating of an electric motor that draws current of 3A when operated at 120V is:
A. 360 W
B. 40 W
C. 1,080 W
D. 540 W
81. An apple that weights 1N falls to the ground with an impact force of about:
A. 4 N
B. 1 N
C. 9.8 N
D. 2 N
82. Where does the pick up needle on a phonograph move the fastest across the record?
A. At the end of the record
B. At the beginning of the record
C. Everywhere, it has the same speed everywhere on the record
D. None of the above
83. If you lower the frequency of a wave in a string you will:
A. Lower its speed
B. Shorten its period
C. Lower its amplitude
D. Increase its wavelength
84. Which is an example of a way to improve efficiency in transportation
I. Use of fuel efficient, hybrid or electric cars
II. Carpooling
III. Use of public transportation
A. I and II
B. II and III
C. I and III
D. I, II and III
85. Which application program provides users with a means to organize and present information through the use of text, numbers, graphs, sounds and visual images?
A. Publisher
B. Spreadsheet
C. Word processing
D. powerpoint
86. Why is the Philippines much hotter than Canada? The Philippines:
A. Has days with more hours of light
B. Has a denser population than Canada
C. Has more vegetation to absorb sunlight
D. Receive sun rays closer to vertical position
87. Which is the method that uses organisms to clean up toxic waste?
A. Monoculture
B. Deforestation
C. Carrying capacity
D. Bioremediation
88. Which has more mass, a kilogram of feathers or a kilogram of iron?
A. Iron
B. Feather
C. Both have the same mass
D. None of the above

89. One of the major functions of taxes is to finance real government expenditures. This function can simply be stated as to:
A. **Raise revenues** C. Raise national security
B. Secure price stability D. Promote development
90. While travelling at night, you lost direction. Which star should you look for and in what constellation?
I. Polaris III. Ursa Major
II. Rigel IV. Ursa Minor
A. **I and IV** B. I and III C. II and IV D. II and III
91. Which principle states that no man in the country is above the law and the laws must be obeyed by all applied to everyone rich or poor, lowly or powerful, without fear or favor?
A. Social justice C. Separation of church and state
B. **Rule of law** D. Rule of the majority
92. Any individual has the right to question why he is being arrested and to summon his accusers to court so that due process may be performed. This right is embodied in which of the following?
A. Prison major C. Reclusion perpetua
B. **Habeas corpus** D. Res ipsa loquitour
93. Chalk, limestone and marbles are remains of seashells deposited in the seas million years ago. They are all forms of:
A. Sodium sulfide B. Carbon dioxide C. **Calcium carbonate** D. Calcium hydroxide
94. What was the first book published in the Philippines?
A. Pasióng mahal C. Del superior Gobierno
B. **Doctrina Christina** D. Barlaan at Josaphat
95. A triangle is 4 times as long as it is wide. If the length is increased by 4 inches and the width is decrease by 1 inch, the area will be 60 square inches. What were the dimensions of the original rectangle?
A. **4 X 16** B. 2 X 32 C. 5 X 12 D. 3 X 14
96. The numerator of a fraction is 3 less than the denominator. If the numerator and the denominator are each increased by 1, the value of the fraction becomes $\frac{3}{4}$. What is the original fraction?
A. $\frac{8}{12}$ B. $\frac{6}{13}$ C. $\frac{7}{12}$ D. **$\frac{8}{11}$**
97. If a liter of chemical X is 95% pure, how many liters of water must be added to make a 50% solution?
A. **0.90 L** B. 0.94 L C. 0.09 L D. 0.80 L
98. A man accepts a position at P14,250 basic salary with agreement that he will receive a 2% increase every year for 3 years. What will his salary be at the end of 3 years?
A. P 16,500.00 B. P 14, 950.00 C. P 15,105.00 D. **P 15,122.21**
99. A man is planning to take a leisurely stroll around their rectangular patio, which measures 27.7 M long and 21.5 M wide. How far does the man have to walk?
A. 88.4 M B. **98.4 M** C. 120.4 M D. 96.4 M
100. After a stone is dropped into a cylindrical container filled with 100 cm³ of water, the water rises and the new reading is 106.5 cm³. What is the volume of the stone?

- A. 10.65 cm³ B. 6.5 cm³ C. 60.65 cm³ D. 60.5 cm³
101. What is the volume of air in an atmospheric balloon with a diameter of 24 cm?
A. 2304 cm³ B. 570 cm³ C. 240 cm³ D. 144 cm³
102. A 4 cm by 7 cm rectangle is rotated about its longer side. What is the approximate volume of the cylinder thus generated?
A. 750.25 cm³ B. 176.36 cm³ C. 351.86 cm³ D. 615.75 cm³
103. After a series of tutorial lessons at Best Tutorial Center, Ann's grade in Math rose from 78 to 88. By what percent did her average increase?
A. 35.75% B. 12.82% C. 11.36% D. 20.16%
104. A large pipe can empty a tank in six hours, and a smaller pipe can empty it in ten hours. How long would it take both pipes to empty the tank?
A. 3.25 hours B. 4.5 hours C. 3.75 hours D. 2 hours
105. Jose Rizal: El Filibusterismo: Graciano Lopez Jaena:
A. Ninay C. Noche Buena
B. Fray Botod D. Cadaquilaan ng Dios
106. Sounds differ though spelled alike. Which does not belong to the group?
A. The leader chided the follower's C. She sounded victorious
B. She wanted a chaperon D. Baby screamed for help
107. A blind mother was allowed to work in a place where her fingers could be productive. Why is it possible?
A. Disabled person are given special attention
B. The disable and handicapped are given equal protection of the law
C. Blind individuals are discouraged from begging
D. Blind individuals can still be productive
108. A 3 ½ meter ribbon is cut into four pieces in the ratio 1:2:3:4. Find the length of the longest piece.
A. 35 cm B. 70 cm C. 100 cm D. 140 cm
109. According to Confucius, what is the best way to rule a people and attain harmony?
A. By allowing to do as they please C. By consulting the governed
B. By moral example D. By force
110. Compute the exact simple interest on Php 20, 500 at 2.5% per annum for 60 days.
A. Php 95.50 B. Php 84.25 C. Php 85.42 D. Php 90.64
111. During the experiment, temperature was measured three times. The second reading was 8 degrees lower than the first and the third reading was 13 degrees lower than the second. If the first reading was 7 degrees what was the last?
A. 6 degrees B. 14 degrees C. -14 degrees D. -12 degrees
112. Who of the following Romans was never emperor?
A. Caligula B. Catullus C. Claudius D. Julius Caesar
113. The government's prohibiting the press from interviewing, constitutes called:
A. Gag order B. Media law C. Censorship D. Prior restraint

114. The press is referred to as Four Estate because it:
 A. is a powerful political force
 B. is an adversary of government
 C. acts as the fourth branch of government
 D. checks all branches of government
115. How do you describe a typical social structure which describe a pattern through which relationships at work are ordered?
 A. Communistic B. Capitalistic C. Bureaucratic D. Technological
116. The official stand of the news paper on a particular issue is found in the:
 A. Front page C. Editorial page
 B. Inside page D. Features section
117. An association wherein the name of something is substituted by something that represents it.
 A. personification B. metonymy C. comparison D. euphemism
118. He was the American President who said " Ask not what America will do for you, but what together we can do for freedom of man."
 A. Gerald Ford C. Henry Truman
 B. Franklin Roosevelt D. John F. Kennedy
119. The area of a rectangle is 117 cm^2 . Find its perimeter if its length is 13 cm.
 A. 9 cm B. 30 cm C. 44 cm D. 54 cm
120. Two angles are supplementary. One of the angles is five times larger than the other. What is the measure of the larger number?
 A. 15° B. 30° C. 120° D. 150°
121. Ito ay sinulat ni Harriet Stowe ng Estados Unidos na tumatawag pansin sa kalagayan ng mga alipin at naging batayan ng simulain ng demokrasya.
 A. And "Book of the Dead" C. "Divina Comedia"
 B. Ang "Uncle Tom's Cabin" D. "Mahabharata"
122. Sabihin ang gawang pagsasalitang ito. "Iwasan ang imburnal, may nagtratabaho"
 A. Pagtukoy B. Pagkukuwento C. Babala D. Pasasalamat
123. Kabaliwan at paglulustay ang inyong ginagawa taun-taon. Higit na marami ang maralitang nangangailangan ng salapi at dunog. Ang nagsasalita ay –
 A. Kuripot B. Maramot C. Praktikal D. Matipid
124. If a function is defined by the set of ordered pairs (1,2), (2,4),(3,8),(4,16),(5,Y) then the value of Y is –
 A. 10 B. 32 C. 20 D. 25
125. If each of the five members in a basketball team shakes hands with every other member of the team before the game starts, how many handshake will there be in all?
 A. 6 B. 8 C. 10 D. 9
126. Which of the following causes the seasons?
 A. The rotation of the Earth about the Sun C. The distance of the Earth from the Sun
 B. The rotation of the Sun about the Earth D. The tilting of the Earth on its axis
127. A person who specialized in the study of atmospheric conditions is called a

A. Geologist B. Scientist C. Meteorologist D. Weather forecaster

128. You have identified the problem in your experiment. What is the next step?
 A. **Formulate the hypothesis** C. Gather relevant data
 B. Formulate the conclusion D. Test the hypothesis
129. When the moon is passing the point of its orbit directly between the earth and the sun and it cannot be seen, this phase of the moon is
 A. Full moon B. Crescent C. Gibbous D. **New moon**
130. What is the least common multiple of 9, 8 and 18?
 A. 36 B. 54 C. **72** D. 144
131. Which of the following is NOT true about the sum of two consecutive odd integers?
 A. it is even C. it is divisible by 4
 B. **it is only divisible by 12** D. it is always divisible by 1
132. The thinning of the ozone layer is due to the use of
 A. Weed killers and insecticide sprays
 B. Hydrocarbons like gasoline
 C. Mercury in gold mines
 D. **refrigerant and aerosol sprays**
133. Comets often have eccentric orbits. This means that
 A. Their orbits are circular
 B. Their time of arrival is unpredictable
 C. They cannot be seen without telescope
 D. **The sun is closer to one end of the orbit**
134. Senators were accused by activists of washing their hands with the perfumes of Arabia. This is state commonly known as
 A. Triumph B. **Guilt** C. Aggression D. Indecision
135. Lucille is 4 times as old as Nicole. Six years from now, she will be twice as old as Nicole. How old are they now?
 A. **Lucille 12; Nicole 3** C. Lucille 16; Nicole 4
 B. Lucille 3; Nicole 12 D. Lucille 4; Nicole 16
136. If $x + y = 2a$ and $x - y = 2b$, what is the value of xy ?
 A. ab B. $a^2 + b^2$ C. $(a - b)^2$ D. **$a^2 - b^2$**
137. Reports of the death sentence were awaited by the parents. But the President decides the postponement for a month or in legal terms this means
 A. **Reprieve** B. Pardon C. Execution D. Commutation
138. A square box has a perimeter of 88 cm. What is measurement of one side of the box?
 A. 88 cm B. **22 cm** C. 60 cm D. 44 cm
139. At the outset of the rainy season the epidemic of H-fever is feared. Which practice is the best approach to prevent it occurrence is homes?
 A. **Clean the yards of breeding places for mosquitoes like old tires, cans etc.**
 B. Fumigate the house with smoke and chemicals
 C. Submit children to vaccination
 D. Avoid mosquito bites in the afternoon

140. The founder and first editor of La Solidaridad in Barcelona, Spain and was considered the greatest orator of the Filipino colony in Spain?
A. Mariano Ponce
B. **Graciano Lopez Jaena**
C. Marcelo H. Del Pilar
D. Gregorio H. Del Pilar
141. Find the GCF of 12, 32 and 56.
A. 2
B. **4**
C. 6
D. 56
142. The primary source of the objectives of educations in the Philippines at present is the –
A. Report of the Monroe Commission
B. **Philippine Constitution**
C. Tydings McDuffie Act
D. The Swanson Report
143. The voyage of Ferdinand Magellan is considered the greatest single achievement in the history of exploration and discovery because it –
A. Made proved that the world is not flat
B. Marked the discovery of westward route to the East
C. **Marked the first circumnavigation of the globe**
D. Marked the discovery of the Philippines
144. A car racer covers 225 km. in $2\frac{1}{2}$ hours. How far can he go in $1\frac{3}{4}$ hours.
A. $267\frac{1}{2}$ km
B. $168\frac{3}{4}$ km
C. 394 km
D. **$157\frac{1}{2}$ km**
145. Three-fourth of what number is 12?
A. 30
B. 12
C. 24
D. **16**
146. What is the difference in elevation between the top of a mountain 8,520 feet above sea level and a point in a valley 253 feet below sea level?
A. 8367 feet
B. 8267 feet
C. 8873 feet
D. **8773 feet**
147. What do you call the arrangement of a number of objects in a definite order and arrangement?
A. Probability
B. **Permutation**
C. Combination
D. Factorial
148. What is the value of a in the statement $3ab=15$ if $b=5$?
A. 15
B. 3
C. 30
D. **1**
149. Which of the following is a function?
A. **$\{(1,2), (2,3), (3,4)\}$**
B. $\{(x, y) / x = 4\}$
C. $\{(1,3), (1,4), (1,5)\}$
D. $\{(x, y) / x^2 + y^2 = 1\}$
150. There are 18 Tagalogs maids and 12 Visayan maids serving in hotel. Give the ratio of the Tagalog to the entire group and express them in simple terms?
A. $\frac{3}{2}$
B. $\frac{2}{5}$
C. $\frac{2}{3}$
D. **$\frac{3}{5}$**

-----NOTHING FOLLOWS. SUBMIT YOUR ANSWER SHEET TO YOUR WATCHERS.-----

PRE-BOARD EXAMINATIONS

GENERAL INSTRUCTIONS:

8. This Test Booklet contains 150 test questions for PROFESSIONAL EDUCATION. Examinees shall manage to use the two hours allotted.
 9. Detach one (1) answer sheet from the bottom of your Information/Answer Sheet Set.
 10. Write the subject title "**PROFESSIONAL EDUCATION**" on the box provided.
 11. Shade Set Box "A" on your answer sheet if your test booklet is Set A; Set B if your test booklet is Set B.
 12. Shade only one (1) box for each question on your answer sheet. Two or more boxes shaded will invalidate your answer. There is only one answer to each question.
 13. AVOID ERASURES.
 14. This is ST. LOUIS REVIEW CENTER property. Unauthorized process or reproduction, and/ or sale of this test booklet is punishable by law.

 - d. The teacher should try all available means to get the newspaper delivered to the school
- 173.** Devices can make a lecture more understandable and meaningful. What is the most important thing a teacher should consider in the selection and utilization of instructional materials?
- a. Objectives of the lesson
 - b. Availability of instructional material
 - c. Attractiveness of instructional material
 - d. Degree of interest on the part of the students

- 174.** Teacher Rose asks student Pia to identify and analyzed events, ideas or objects in order to state their similarities and differences. In which part of the lesson does the said activity take place?
- Preparation
 - Generalization
 - Application
 - Comparison and abstraction
- 175.** Teacher Luffy wants the class to find out the effect of heat on matter. Which method will help him accomplish his objective?
- Preparation
 - Generalization
 - Application
 - Comparison and abstraction
- 176.** Which of the following characterizes a well-motivated lesson?
- The class is quite
 - The children have something to do
 - The teachers can leave the pupils to attend to some activities
 - There are varied procedures and activities undertaken by the pupils
- 177.** Learners must be developed not only in the cognitive, psychomotor but also in the affective aspect. Why is the development of the latter also important?
- It helps them develop a sound value system
 - Their actions are dominated by their feelings
 - It helps them develop an adequate knowledge of good actions
 - Awareness of the consequences of their action is sharpened
- 178.** The strategy of teaching which make use of the old concept of “each-one-teach-one” off the sixty’s is similar to
- Peer learning
 - Independent learning
 - Partner learning
 - Cooperative learning
- 179.** Which of the following is NOT true?
- Lesson plan should be in constant state of revision
 - A good daily lesson plan ensures a better lesson
 - Students should never see a teacher using a lesson plan
 - All teachers regardless of their experience should have daily lesson plan
- 180.** Teacher Chopper, a physician education teacher, demonstrate the new skill to be learned so that his students can watch him and later reproduce the skill. What learning theory is associated with the situation?
- Dual-Coding learning theory
 - Information processing
 - Schema Learning Theory
 - Social Learning
- 181.** Teacher Nami, a music teacher, is careful in planning activities for each lesson. She praises liberally and rewards correct answers. What view of learning is exhibited?
- Classical conditioning
 - Meaningful learning
 - Operant conditioning
 - Social learning
- 182.** Which of the following best describes what meaningful earning is?
- When what is to be learned is new and easy for the students
 - Materials presented is difficult and challenging to the students
 - When the materials to be learned is related to what students already know
 - Students find the lessons easy and relevant to what was assigned to them

- 183.** What is NOT a technique in motivating learners?
- The teacher is building on the students strengths first
 - The teacher offers choices to develop students' ownership
 - Provide a secure environment which permits children to fail without penalty
 - Encourage them to take opportunities beguilingly
- 184.** After just being introduced to another guest in the party, Usopp cannot remember the name of the guest he was introduced to. In what memory stage was the information stored in?
- Episodic memory
 - Semantic memory
 - Sensory memory
 - Working memory
- 185.** Vgotsky claimed that social interaction is important for learning. What does this imply?
- Children are independent problem solvers
 - Children learn from adult and other children
 - Children learn well by passive presentation of information
 - Children in the crib has no leaning yet, since they are not capable off interaction

- Evaluation
 - Knowledge
 - Synthesis
 - Analysis
- 187.** Based on bandura's theory, which conditions must be present for a student to learn from a model?
- Attention
 - Retention
 - Motor reproduction
 - Motivation
- i and ii
 - i, ii, and iii
 - i, ii, iii and iv
 - iii and iv
- 188.** A burglary occurred in Robin's neighbourhood. Since then, Robin is very careful of locking their doors and closing windows. What theory best explains Jason's behaviour?
- Observational learning
 - Imitation learning
 - Self-regulated learning
 - Vicarious learning
- 189.** Ichigo is bilingual. He speaks both English and Filipino fluently. He begins to study Spanish and immediately recognizes many similarities between the Spanish and Filipino languages and uses this information to acquire the new language faster. What kind of transfer was Ichigo able to use?
- Lateral transfer
 - General transfer
 - Specific transfer
 - Vertical transfer
- 190.** Some learners like to find specific and concrete answers. What kind of learners are they?
- Accommodators
 - Assimilators
 - Convergers
 - Divergers
- 191.** Which is NOT a provision for the development of each learner in a good curriculum?
- Extensive arrangements are made for the educational diagnosis of individual learners
 - Self-directed, independent study is encouraged wherever possible and advisable
 - Self-motivation and self-evaluation are stimulated and emphasized throughout the learning opportunities of the school
 - The program provides a wide range of opportunities for individuals with same abilities, needs, and interest

- 192.** Teacher Rukla would like to take part in developing a subject-centered curriculum because she believes that all subjects in this type of curriculum are geared towards the holistic development of the learner. Is her belief about the subject centered curriculum true?
- Yes, because the subject-centered curriculum focuses on the learner's needs, interests, abilities
 - No, because it is the experience-centered curriculum that emphasizes the teaching of facts and knowledge for future use
 - Yes, because the subject-centered curriculum involves cooperative control

- 206.** Mr. Uryu, a computer teacher demonstrates understanding of local and global issues and exhibits ethical and legal use of information and communication technology tools. Which is true about him?
a. He models digital-age work learning
b. He facilitates and inspires student learning and creativity
c. He promotes and models digital citizenship and responsibility
d. He designs and develops digital-age learning experience and assessment
- 207.** There are several reasons why teachers are reluctant in using electronic media in the teaching-learning process. Which is the most common reason?
a. The limited exposure of teachers to new equipment
b. Their incompatibility to diverse needs of the learners
c. The difficulty in integrating technology in the curriculum
d. The excessive availability of local technology in the community
- 208.** Which of the following is an ineffective use of Presentation Software?
a. Darken the room C. Read directly from the slides
b. Use appropriate pacing D. Allow interaction with the learner
- 209.** Internet consists of thousands connected computer networks around the world. Which term does NOT refer to internet?
a. NET B. On-line C. Cyberspace D. Information superhighway
- 210.** Which technology tool can Prof. Inoue use to communicate asynchronously with her students?
a. Chat and blog C. Blog and video conferencing
b. Chat and instant messaging D. Electronic bulletin board and email
- 211.** Mr. Urahara is judging the accuracy of these statements. Which statements will he consider as correct?

- v. Test is a tool to measure a trait
 - vi. Measurement is the process of qualifying a given trait
 - vii. Assessment is the gathering of quantitative and qualitative data
 - viii. Evaluation is the analysis of quantitative and qualitative data for decision making
- a. i and ii B. iii and iv C. i, ii, and iii D. i, iii, iv

- 212.** You targeted that after interaction, your student should be able to show their ability to solve problems with speed and accuracy. You then designed a tool to measure this ability. What principle of assessment did you consider in this situation?
- a. Assessment should be based on clear and appropriate learning targets or objectives
 - b. Assessment should have a positive consequence on students' learning
 - c. Assessment should be reliable
 - d. Assessment should be fair
- 213.** Ms. Nanao tasked her students to show how to play basketball. What learning target is she assessing?
- a. Knowledge B. Reasoning C. Skills D. Products
- 214.** Ms Lisa wants to determine if the Student's score in their Final Test are reliable. However, she has only one set of test and her students are already on vacation. What test of reliability can she employ?
- a. Test-retest C. Equivalent forms
 - b. Kuder Richardson method D. Test-retest with equivalent forms
- 215.** In the context of the Theory of Multiple Intelligence, which is a weakness of the paper-pencil test?
- a. It puts non-linguistically intelligent at a disadvantage
 - b. It is not easy to administer
 - c. It utilizes so much time
 - d. It lacks reliability
- 216.** At the beginning of the school year, the 6-year-old pupils were tested to find out who among them can already read. The result was used to determine their sections. What kind of test was given to them?
- a. Diagnostic B. Formative C. Placement D. Summative
- 217.** Mr. Omaeda developed an achievement test in math for his grade 3 pupils. Before he finalized the test, he examined carefully if the test items were constructed based on the competencies that have to be tested. What test of validity was he trying to establish?
- a. Content-validity B. Concurrent validity C. Predictive validity D. Construct validity
- 218.** Ms. Sorfon who is a high school teacher in English conducted an item analysis of her test. She found out that four of the items of the test obtained the following difficulty and discrimination indices and as follows:

ITEM NUMBER	DIFFICULTY INDEX	DISCRIMINATION INDEX
1	.58	.49
2	.92	.72
3	.09	.32
4	.93	.15

Which of the above items should she disregard in her item pool?

- a. Item 1 B. Item 2 C. Item 3 D. Item 4

- 219.** If the number of students per group is 15 with the upper and lower group as 10 and 4 respectively, what is the discrimination index?
a. .40 B. .50 C. .60 D. .70
- 220.** Mr. Iba asked his pupils to indicate on a piece of paper the names of their classmates whom they would like to be with for some group activity. What assessment technique did Mr. Iba use?
a. Self-report technique C. Sociometric technique
b. Guess-who technique D. Anecdotal technique
- 221.** The Department of Education gives greater emphasis on the development of basic skills. What is the philosophical basis for this?
a. Essentialism B. Existentialism C. Perennialism D. Pragmatism

- 263.** The child’s concept of right and wrong is based on external criteria laid down by adults during the stage of pre-conventional morality. This is based on the ideas of:
a. Piaget B. Erikson C. Kohlberg D. Freud
- 264.** According to Piaget’s stages of cognitive development, between ages 12 and 15 children reach formal operational stage. What are they capable of doing at this stage?
a. Can solve abstract problems and think deductively
b. Reasoning is neither inductive nor deductive
c. Can focus on one aspect of a situation or event
d. Intelligence is intuitive in nature
- 265.** Field trip is an effective way of teaching where organisms could be observed in their natural habitat, active and responding to stimuli in the environment. In addition, what values are developed among the students during and after the trip?

- a. On-the-spot observation to keep them active
 - b. Freedom in an open space than in classroom
 - c. Love of nature, proper behaviour during exploration
 - d. Considerations of the rights of the others
- 266.** How can a teacher enhance his/her questioning technique for an effective teacher-student interaction?
- a. Immediately call another student in case one cannot answer
 - b. You may answer your own question if no one can
 - c. Allow sufficient "think time" at least 7-10 seconds
 - d. Extend wait time until the student responds
- 267.** A teacher who advocates the pragmatic philosophy of education believes that experience should follow learning, thus she has to:
- a. Equip her students with basic skills and abilities
 - b. Encourage her students to memorize facts
 - c. Provide her students to apply their skills and abilities
 - d. Require her students mastery of the lesson
- 268.** Basic education includes secondary education. Which of the following led to the establishment of the secondary school?
- a. Realistic
 - B. Reformation
 - C. Idealism
 - D. Humanism
- 269.** Children with sub average intelligence and deficits in adaptive behaviour experience difficulty in managing daily activities and in conducting themselves appropriately in social situations are diagnosed to be suffering from a kind of disability called:
- a. Health impairment
 - C. Attention deficit disorder
 - b. Emotional disorder
 - D. Mental retardation
- 270.** Which type of students do teachers commonly neglect?
- a. Slow learner
 - B. Average
 - C. Genius
 - D. Frequent absentee
- 271.** Free public elementary and secondary education is in line with the governments' effort to address educational of?
- a. Relevance and quality
 - C. Effectiveness and efficiency
 - b. Access and equity
 - D. Productivity
- 272.** The teacher's role in the classroom according to cognitive psychologist is to:
- a. Help the learner to connect what he knows with the new information learned
 - b. Dictate what the learners need to know
 - c. Fill in minds of the learner with information
 - d. Make the learning task easy for the learner
- 273.** Transition age form childhood to adulthood where rapid physical changes and sex maturity occur resulting in changes in ways of feelings, thinking, and acting.
- a. Early adulthood
 - B. Adolescence
 - C. Puberty
 - D. Latency stage
- 274.** The reinforcement of a persons' responses by presentation or removal of rewards and punishments:
- a. Transfer learning
 - B. Discipline
 - C. Feedback principle
 - D. Operant conditioning
- 275.** Instructional objectives in the affective domain includes receiving, responding, valuing and the highest level is:
- a. Selective attention or willingness to receive
 - C. Acceptance or preference
 - b. Conceptualization of a value system
 - D. Sequence or feelings of satisfaction

- 276.** Difficulty in focusing and maintaining attention coupled with, recurrent hyper active and impulsive behaviour are observed difficulties of children manifesting a kind of difficulty known as:
- Dyslexia
 - Autism
 - Sensory impairment
 - Attention deficit hyperactivity disorder
- 277.** A review lesson to be an effective tool for mastery learning must be:
- Drill lesson
 - Test format
 - Re-teaching but presented in different way
 - Repetition of old lesson
- 278.** When a students are given a chance to settle different opinion of discussion they develop:
- Tolerance
 - Irritants
 - Fair play
 - Sociability
- 279.** Journal written by students at the completion of a days' lesson will reveal which information than can serve as a guide in planning the next lesson?
- Part of a lesson well understood or not
 - Topics most interesting
 - Difficulties experienced
 - Emotional state throughout
- i, ii, iii
 - i and ii
 - i and iv
 - iii only
- 280.** An education for globalization should nurture the higher order cognitive skill and interpersonal skills in order to develop
- Students' awareness of the world in which they live inn
 - Ability to think creatively and ethically
 - Ability to master one's national origin
 - Openness to diverse heritage and culture
- 281.** How can a teacher establish the reliability test?
- Repeat the same test
 - Administer a parallel test
 - Split the test
 - Vary the number of items
- i, ii, iii
 - i, iii, iv
 - i and iv
 - ii and iv
- 282.** On which policy is RA 4670 known as the Magna Carta for Public School Teachers Focused?
- Right to establish or join organization
 - Code of ethics for professional teachers
 - Recruitment shall take place after training
 - To promote and improve anti-social economic status of public school teachers
- 283.** The use of TV and film bring the classroom "live broadcast" of the world events as they happen. What are the other advantages of using it? The students are provided
- Exciting sounds and sights
 - Close up view of big events
 - Most believable news source

- a. i, ii, iii B. i and ii C. i and iii D. ii and iii

284. What are the sources of ones' educational philosophy?

- iv. People and kinds of relationship
- v. School and teachers in them
- vi. Socio cultural environment

- a. i, ii, iii B. i and ii C. ii and iii D. ii and iii

285. What can be said of students' performance in a positively skewed score distribution?

- a. Most students performed poorly C. Almost all students had average performance
- b. A few students performed excellently D. Most students performed well

286. The following are the characteristics of a good teaching/learning practice except:

- a. Students are governed by fixed and rigid standards
- b. Life-like situations introduces as learning experiences in classroom
- c. Students are given more opportunities or act or experience learning
- d. Evaluation is made an integral part of teaching procedures

287. Which of the following principles highlights that multiple intelligence?

- a. People have different Intelligence Quotient(IQ)
- b. Intelligence is measured in multiple forms
- c. Learning is static and permanent
- d. Best learning theory is cognitive in nature

288. Which of the following is not a developmental principle?

- a. Development follows an orderly, predictable sequence
- b. Numerous studies show how individual develops
- c. Early development is more crucial than later development
- d. Presence of social expectations in early developmental stage

289. Which questioning technique would be appropriate for inductive lessons?

- a. Questioning only the more motivated students
- b. Activity involving students in the questioning process
- c. Using questions requiring only memory responses
- d. Teachers will not ask any questions

290. A teaching method which proceeds from the details of a lesson towards generalization is:

- a. Deductive B. Inductive C. Debate D. Problem solving

291. Grades become valid indicators when _____

- a. Giving objective type of test
- b. Using letter grades such as A, B, C, D
- c. Explaining the meaning of grades or marks
- d. Course objectives are defined as intended learning outcomes

292. The non-verbal symbols used to maximize learning are referred to as:

- a. Instructional devises C. Field trips
- b. Classroom techniques D. Educational media

293. What contemporary aid to teaching utilizes carefully-planned materials where each step of learning requires repetition and practice until such step is thoroughly learned?

- a. Programmed instruction
- b. Keypunching
- C. Educational television
- D. Educational hardware

294. Which of these is not quality of a good teacher?

- a. A mastery of the subject matter
- b. Broad background of liberal education
- C. Aims to become rich thru teaching
- D. Understand the nature of learners

295. To accomplish many good activities in a particular class period, the teacher must provide?

- a. Additional curricular activities
- b. Provide unique teaching aids
- C. Institute a systematic plan
- D. Use of expensive materials

296. One way to encourage a students who lacks interest in reading to love reading is to:

- a. Reprimand him
- b. Ask the parents to by books
- C. Provide reading materials
- D. Isolate him

297. If the teachers encounters a student who is reluctant to attend classes, the teacher should_____ to encourage him to go to class regularly.

- a. Report the matter to principle
- b. Scold him
- C. Praise the student sincerely
- D. Report the matter to the parents

298. Referred to as the knowledge and skills which the learner is expected to accumulate and develop at the end of the class

- a. Individual skills
- b. Terminal behaviour
- C. Special talent
- D. Dominant behavior

299. Which of the following situation would indicate that you, as a teacher, had been effective in instilling discipline among your students?

- a. Students have develop concern to each other
- b. Fear and fright resulting in good behaviour
- c. Students behave because an award awaits them
- d. Your presence results in their being behave

300. Which of the following style or technique would make you the teacher a good classroom manager, "teacher with eyes on the back of her head"?

- a. Give your students the "head-to-toe" look when angry
- b. Uses eye contact technique with your students
- c. Fear and fright dominates the classroom atmosphere
- d. Being aware of all actions and activities in the classroom

-----**NOTHING FOLLOWS. SUBMIT YOUR ANSWER SHEET TO YOUR WATCHERS.** -----

PRE-BOARD EXAMINATIONS

GENERAL INSTRUCTIONS:

15. This Test Booklet contains 150 test questions for GENERAL EDUCATION. Examinees shall manage to use the two hours allotted.
 16. Detach one (1) answer sheet from the bottom of your Information/Answer Sheet Set.
 17. Write the subject title "**GENERAL EDUCATION**" on the box provided.
 18. Shade Set Box "A" on your answer sheet if your test booklet is Set A; Set B if your test booklet is Set B.
 19. Shade only one (1) box for each question on your answer sheet. Two or more boxes shaded will invalidate your answer. There is only one answer to each question.
 20. AVOID ERASURES.
 21. This is ST. LOUIS REVIEW CENTER property. Unauthorized process or reproduction, and or sale of this test booklet is punishable by law.
-

151. The ash from Mt. Pinatubo has been found to have gold content of only 20 parts per billion which is far below commercial levels. As such, officials have warned against hopes of a new "gold rush."
 - E. There is new hope for boosting the economy of the Philippines
 - F. There is a need to explore what else lies beneath Mt. Pinatubo
 - G. There is possibility of existing gold mines beneath Mt. Pinatubo
 - H. The gold content of the ash from Mt. Pinatubo does not have commercial value
152. The Nibelungenlied is a:
 - C. Russian folk song
 - C. Medieval German Epic
 - D. Latin Myth
 - D. Chinese legend

153. The EQUINOX usually occurs on or close to March 21 and September 23.
 E. Time when heavy rains fall
 F. Time when days are longer than the nights
 G. Time when days are shorter than the nights
 H. Time when day and night are equal length all over the earth
154. The first day of June is a Saturday. What day will the last day of June be?
 B. Sunday C. Thursday
 C. Monday D. Friday
155. Hindi nakayanan ng aking kaibigan ang kanyang MASALIMUOT na buhay.
 B. Mahirap B. Malabo C. Malungkot D. Magulo
156. Ang katumbas sa Filipino ng "national identity" ay _____.
 C. Pandaigdig na pagkilala C. Pambansang pagkakilanlan
 D. Pambayang pagkakakilala D. Pambansang katanyagan
157. Walang tubig kahapon. Ito ay pangungusap na:
 C. Walang pandiwa C. May panaguri
 D. Walang paksa D. May paksa
158. A substance that gives up hydrogen ions to water to form hydronium ions is called:
 B. A salt B. A base C. Sour milk D. Flour
159. Lunar eclipse occurs when the earth passes between the moon and the sun, eclipse of the moon does not occur each month because:
 E. The dark side of the moon rarely faces the earth
 F. The earth is usually between the moon and the sun
 G. The moon rarely comes close enough to the earth
 H. The moon's orbit is at an angle to the earth's orbit around the sun
160. How may the established of housing subdivision to address housing problem contribute to decreased food production?
 E. Housing divisions become over crowded
 F. Men get occupied with construction and leave their farms untilld
 G. Arable lands are reduced for these are converted into housing subdivision
 H. People who flocked to the center where most subdivisions are located have no skill
161. Which principle of taxation does the Philippine government lack if it falls to raise the needed revenue and therefore borrows from other countries to cover its expenses
 B. Equity B. Elasticity C. Neutrality D. Productivity
162. What can be said of the Philippine peso if the exchange rate of a dollar to a peso has gone down from P50 to a dollar to P40.32?
 C. The peso is stable C. The value of peso is fluctuating
 D. The peso has weakened D. The peso has strengthened
163. Ecologist associate the relation between climate and vegetation and animals life with the term:
 B. Biome B. Habitat C. Biosphere D. Population
164. Which biogas is obtained from biological wastes such as animals manure?
 B. Ester B. Alcogas C. Methane D. Ethylene
165. Who are referred to as Japayukis?
 E. Filipinos working as entertainers in Japan
 F. Filipino overseas contract workers in Japan
 G. Filipino Japanese descendents now working in Japan
 H. Japanese who come to the Philippines for their business/pleasure tours
166. What happens to the speed of a light ray as it passes from water to air?

- C. Increases
D. Decreases
- C. Increase then decreases
D. Remains the same
167. In each cardiac cycle, the heart goes through a system contraction. What is this phase called?
B. Systole B. Diastole C. Diastole arc D. Diffusion
168. Ano ang tawag sa nasa malaking titik sa sumusunod na pangungusap? Naging mabilis ang pulong NG PANGULO at NG MGA KALIHIM
B. Salita B. Kataga C. Parirala D. Sugnay
169. With the Cold War in mind, which does NOT belong?
B. Conflict B. Dialogue C. Competition D. Tension
170. The dignity of every human person is rooted on his/her being:
C. Good C. Productive
D. Educated D. Created into God's Image & likeness
171. To be ethical and moral, what is the best thing to do?
C. Strengthen the will C. Reflect on the moral things to do
D. Discuss what is good to do D. Conduct seminars on values education
172. When a manufacturer engages the production of pirated CD's he violates other people's right to
C. Copyright C. Intellectual property
D. Lawful Income D. Engage in business
173. The latest agrarian reform program in the country is more comprehensive than the first because:
E. Included sugar & coconut lands in addition to rice & corn lands
F. Enforced more than nineteen Presidential Decrees
G. Declared the whole country as a land reform area
H. Benefitted both tenant and landowner
174. Which is the foundation of genuine justice?
C. Religiosity C. Social Justice
D. Peace talks D. End of the arms race
175. What is the counting number that is less than 15 and when divided by 3 has a remainder of 1: but when divided by 4 has a remainder of 2?
B. 12 B. 8 C. 5 D. 10
176. Which of the following factors contribute to an increase in human population?
III. Immigration III. Natality
IV. Emigration IV. Mortality
B. III and IV B. I only C. I and III D. II and III
177. How much interest would be paid on a bank loan of 30,000 for 8 months at 12% annual interest?
B. P 3,600 B. P 2,800 C. P 2,400 D. P 3,240
178. Which family obligation is especially valued?
E. Sending relatives in remote barrios to college
F. Supplying groceries to relatives in remote barrios
G. Keeping immediate family members out of trouble
H. Providing health assistance to relatives living in the same locale.
179. A good writer supports his generalizations with _____ examples.
C. Convenient C. Concrete

D. Unfamiliar

D. Abstract

180. Because the moon rotates on its axis at the same time as it _____ around the earth, we see the same side always.

C. Revolves

C. Is revolving

D. Revolve

D. Has been revolving

181. She wrote a "first-rate" report. What does it say about the report?

C. Run-of-the-mill

C. Excellent

D. Ordinary

D. Mediocre

182. She has a penchant for blue dresses. This indicates _____.

C. Dislike

C. Avoidance

D. Fondness

D. Strong aversion

183. "Values education is integrated in the curriculum of all levels." Which of the following supports this statement?
E. Values education is stressed in all subjects at all levels
F. There is a need for training of teachers to teach
G. Additional classroom will be needed
H. New teachers will be hired
184. "She is a vision of feminine pulchritude." This stands for the following except:
C. Comeliness
D. Loveliness
C. Homeliness
D. Physical Beauty
185. Ako'y nangangakong matatapos sa isang karera. Siya'y kasama sa:
C. Gustong magsuot ng toga isang araw
D. Siya'y hawak ang malamig na bakal
C. Ospital sa panganganak ng asawa
D. Isang rally sa EDSA
186. Ang kagawaran nang pang-ibang bansa ay gulong-gulo kapag may giyera sa ibang bansa. Ano ang unang ginagampanan ng Ambassador sa Bansa:
E. Bayang masipag-uwian sa sariling sikap ang bawat isa
F. Alamin ang mga tirahan ng mga Filipino sa bayang iyon
G. Ipunin ang mga maykaya at ipalipad pauwi
H. Bilangin ang mga lalaki
187. In moral life, responsibility depends on one's knowingly and freely doing an act. In which of the following situations would you attribute responsibility?
E. A person unknowingly passes counterfeit money
F. An insane person strikes someone's head with a hammer
G. A four year old fires a loaded gun killing his own father
H. A nurse administer a medicine despite strong doubts
188. The government has control of many government corporations and industries. What was deregulated and allowed to raise prices without control?
C. Oil industry
D. Mining industry
C. Fishing industry
D. Water source
189. Democracy refers to the involvement of all citizens in the control of government, while an oligarchy relegates control of government to:
C. The mother Country
D. An autocrat
C. A religious group
D. A select few
190. Printed on the label of a bottle of cough medicine is the following instruction." Store away from light, below 30 degrees C." What can you infer about the cough medicine?
C. It is in a dark, light proof bottle
D. It is affected by heat and light
C. It should be stored in the refrigeration
D. It should be stored hidden
191. Which human right violation is a deliberate and systematic extermination of an ethnic or national group?
B. Genocide
B. Murder
C. Homicide
D. Parricide
192. Man is always interested in asking questions. He is also very eager to find the answers to his questions. What scientific attitude is he displaying?
C. Wonder
D. Rationality
C. Curiosity
D. Absence of prejudice
193. Paulo admits that he is not free committing errors. He recognizes that there may be better ideas and realizes that there are individuals whom he may have to consult to arrive at correct observations and conclusions. What scientific trait is he displaying?
B. Humility
B. Objectivity
C. Open mindedness
D. Rationality
194. A lady actively participates in task and also dutifully performs tasks assigned to her. What scientific attitude is displayed in his situation?
B. Unity
B. Camaraderie
C. Being a team player
D. Responsibility
195. PINASYALAN ng mag-anak ang Enchanted Kingdom noong isang buwan. Ano ang pokus ng pandiwa?
B. Sanhi
B. Direksyon
C. Tagatanggap
D. Tagaganap
196. "Magtatrabaho ako at ikaw ay mag-aaral upang makatapos ka ng pag-aaral", Anong uri ng pangungusap ito?
B. Payak
B. Hugnayan
C. Tambalan
D. Langkapan
197. If the area of one circle is twice that of another circle, what is the ratio in percent, of the smaller to larger circle?
B. 50 %
B. 25%
C. 75%
D. 70%

198. Four mangoes cost P29.00 at that price, what will 2 ½ dozen mangoes cost?
A. P 870.00 B. P 348.50 C. P 188.50 D. P 217.50
199. All the seats in the bus are occupied and six are standing. At the next bus stop, 13 persons got off and 5 got in. How many seats were empty after this stop?
A. 2 B. 0 C. 23 D. 24
200. What day follows the day before yesterday if two days from now will be Sunday?
A. Thursday B. Tuesday C. Wednesday D. None of the above
201. The hypotenuse of a right angle triangle is 25 feet. If one leg is 24 feet, what is the length of the other leg?
A. 5ft B. 6ft C. 20ft D. 7ft
202. Two buses leave the same station at 9pm. One bus travels north at the rate of 30 kph and the other travels east at 40 kph. How many kilometers apart are the buses at 10pm?
A. 50 km B. 70km C. 100km D. 140km
203. Which of the following does not belong to life science?
A. Cytology B. Physics C. Botany D. Genetics
204. Why do leaves with green color look green in the sunlight?
E. They absorb the blue and yellow object
F. The blue and yellow bounces off from the leaves
G. They absorb the green light
H. They reflect green light
205. Why do people feel their ears pop or crack when they are up in the air?
A. Air is cleaner C. There are more air particles
B. Air is cooler D. There are less air particles
206. What is the bending of light when it changes speed in passing from one material to another?
A. Reflection B. Refraction C. Diffraction D. Interference
207. Two vases are identical except one is glass and the other is made of black plastic. If they are side by side in a well-lit room, which vase absorbs more light energy?
A. The black vase absorbs more. C. The glass vase absorbs more.
B. They absorb the same amount. D. They absorb no light energy.
208. If you connect light bulbs together so that the current through each lightbulb is the same, you have made which type of circuit?
A. a series circuit C. a combination circuit
B. a parallel circuit D. an open circuit
209. Why is just one side of the Moon visible from Earth?
E. The Moon does not rotate on its axis as it orbits the Earth.
F. The Moon rotates once in the same amount of time that it orbits.
G. Half of the Moon is always unlit by the Sun.
H. Half of the Moon does not reflect light.
210. Stars rise and set in the night sky because
E. Earth orbits the Sun.
F. Earth rotates.
G. the North Poles points toward Polaris
H. the stars are moving in space
211. Dissolving sugar in water is an example of
A. physical change C. phase change
B. chemical change D. nuclear change
212. An electric current can be used to decompose, or break down, water into oxygen gas and hydrogen gas. This is an example of a
A. physical change C. phase change
B. chemical change D. nuclear change
213. How is energy transferred by convection?

- E. by direct contact between objects
 - F. by electromagnetic waves
 - G. by movement of groups of particles in gases or liquids
 - H. by movement of groups of particles in solid objects
214. Water requires more energy than an equal mass of iron for its temperature to increase by a given amount because water has a greater
- C. ability to conduct heat
 - C. temperature
 - D. thermal energy
 - D. specific heat
215. An insulator keeps a home warm by
- E. slowing the transfer of cold particles from outside to inside
 - F. increasing the specific heat of the air inside
 - G. slowing the transfer of energy from inside to outside
 - H. increasing the thermal energy of the walls.
216. What characteristic of large bodies of water explains why the seawater is cooler than the land in the hot afternoon sun?
- E. Water is liquid while the land is solid.
 - F. Water has a higher specific heat than land.
 - G. Land is a better insulator than water.
 - H. Land has a higher specific heat than water.
217. Geothermal energy, an energy resource in the country, is based on which phenomenon?
- E. Heat energy from the sun penetrates deep into the earth
 - F. Human activity is the largest source of energy heat on earth
 - G. There are concentration of heat in some places of earth's crust
 - H. Earth's internal energy heats its surface more than the sun does
218. Which of these effects generally occurs as a result of warm air mass and a cooler air mass converging at earth's surface?
- C. Winds die down
 - C. Stormy weather patterns develop
 - D. The sky becomes cooler
 - D. Cloud formation decreases
219. To what classification of rights does the right to live and to love belong?
- B. Political
 - B. Natural
 - C. Statutory
 - D. Constitutional
220. Which among the following are duplicated during the process of mitosis?
- B. Centrosomes
 - B. Centromeres
 - C. Chromosomes
 - D. Chloroplasts
221. Every right has a corresponding duty. This means that rights and duties are:
- B. Different
 - B. Absolute
 - C. Reciprocal
 - D. Related
222. The EDSA I in our history as a people prove the power of:
- C. Information
 - C. Preference of the poor
 - D. Armed violence
 - D. People power
223. Which desktop icon can be used to access the files and programs in the computer?
- B. Task bar
 - B. My documents
 - C. My briefcase
 - D. My computer
224. When it is most important to scan a computer's drives for virus? Immediately after:
- E. Shutting down the computer improperly
 - F. Defragmenting a computer's hard disk
 - G. Installing software from a disk created by a friend
 - H. Downloading a text file from a government website
225. Your computer is not receiving the print command. Which should you do first?
- E. Check the computer's default printing settings
 - F. Reset the printing properties of the printer
 - G. Realign the heads of the printers print
 - H. Replace the ink cartridges
226. In what sense is the Filipino linked to a bamboo?
- B. He is sturdy
 - B. He is flexible
 - C. He is versatile
 - D. He is ambitious
227. You have a property worth P500,000. The tax is 1%, he pays P5000. If his property is worth P1,000,000 he pays 10,000. Which does this illustrate?
- C. Equality in taxation
 - C. Uniformity taxation

- D. Equity taxation
D. Progressive taxation
228. Which refer to a single phrase or word that tells the computer to something with a program or a file?
C. Command
C. Computer program
D. Password
D. Computer language
229. Who was the first scientist who measured the speed of light in water?
B. Fizeau
B. Gallileo
C. Michelson
D. Foucalt
230. The power rating of an electric motor that draws current of 3A when operated at 120V is:
B. 360 W
B. 40 W
C. 1,080 W
D. 540 W
231. An apple that weights 1N falls to the ground with an impact force of about:
B. 4 N
B. 1 N
C. 9.8 N
D. 2 N
232. Where does the pick up needle on a phonograph move the fastest across the record?
E. At the end of the record
F. At the beginning of the record
G. Everywhere, it has the same speed everywhere on the record
H. None of the above
233. If you lower the frequency of a wave in a string you will:
C. Lower its speed
C. Lower its amplitude
D. Shorten its period
D. Increase its wavelength
234. Which is an example of a way to improve efficiency in transportation
J. Use of fuel efficient, hybrid or electric cars
II. Carpooling
III. Use of public transportation
B. I and II
B. II and III
C. I and III
D. I, II and III
235. Which application program provides users with a means to organize and present information through the use of text, numbers, graphs, sounds and visual images?
C. Publisher
C. Word processing
D. Spreadsheet
D. PowerPoint
236. Why is the Philippines much hotter than Canada? The Philippines:
C. Has days with more hours of light
C. Has more vegetation to absorb sunlight
D. Has a denser population than Canada
D. Receive sun rays closer to vertical position
237. Which is the method that uses organisms to clean up toxic waste?
C. Monoculture
C. Carrying capacity
D. Deforestation
D. Bioremediation
238. Which has more mass, a kilogram of feathers or a kilogram of iron?
C. Iron
C. Both have the same mass
D. Feather
D. None of the above
239. One of the major functions of taxes is to finance real government expenditures. This function can simply be stated as to:
C. Raise revenues
C. Raise national security
D. Secure price stability
D. Promote development
240. While travelling at night, you lost direction. Which star should you look for and in what constellation?
III. Polaris
III. Ursa Major
IV. Rigel
IV. Ursa Minor
B. I and IV
B. I and III
C. II and IV
D. II and III
241. Which principle states that no man in the country is above the law and the laws must be obeyed by all applied to everyone rich or poor, lowly or powerful, without fear or favor?
C. Social justice
C. Separation of church and state
D. Rule of law
D. Rule of the majority
242. Any individual has the right to question why he is being arrested and to summon his accusers to court so that due process may be performed. This right is embodied in which of the following?
C. Prison major
C. Reclusion perpetua
D. Habeas corpus
D. Res ipsa loquitour

243. Chalk, limestone and marbles are remains of seashells deposited in the seas million years ago. They are all forms of:
B. Sodium sulfide B. Carbon dioxide C. Calcium carbonate D. Calcium hydroxide
244. What was the first book published in the Philippines?
C. Pasiong mahal C. Del superior Gobierno
D. Doctrina Christina D. Barlaan at Josaphat
245. A triangle is 4 times as long as it is wide. If the length is increased by 4 inches and the width is decrease by 1 inch, the area will be 60 square inches. What were the dimensions of the original rectangle?
B. 4 X 16 B. 2 X 32 C. 5 X 12 D. 3 X 14
246. The numerator of a fraction is 3 less than the denominator. If the numerator and the denominator are each increased by 1, the value of the fraction becomes $\frac{3}{4}$. What is the original fraction?
B. $\frac{8}{12}$ B. $\frac{6}{13}$ C. $\frac{7}{12}$ D. $\frac{8}{11}$
247. If a liter of chemical X is 95% pure, how many liters of water must be added to make a 50% solution?
B. 0.90 L B. 0.94 L C. 0.09 L D. 0.80 L
248. A man accepts a position at P14,250 basic salary with agreement that he will receive a 2% increase every year for 3 years. What will his salary be at the end of 3 years?
B. P 16,500.00 B. P 14,950.00 C. P 15,105.00 D. P 15,122.21
249. A man is planning to take a leisurely stroll around their rectangular patio, which measures 27.7 M long and 21.5 M wide. How far does the man have to walk?
B. 88.4 M B. 98.4 M C. 120.4 M D. 96.4 M
250. After a stone is dropped into a cylindrical container filled with 100 cm³ of water, the water rises and the new reading is 106.5 cm³. What is the volume of the stone?
B. 10.65 cm³ B. 6.5 cm³ C. 60.65 cm³ D. 60.5 cm³
251. What is the volume of air in an atmospheric balloon with a diameter of 24 cm?
B. 2304 cm³ B. 570 cm³ C. 240 cm³ D. 144 cm³
252. A 4 cm by 7 cm rectangle is rotated about its longer side. What is the approximate volume of the cylinder thus generated?
B. 750.25 cm³ B. 176.36 cm³ C. 351.86 cm³ D. 615.75 cm³
253. After a series of tutorial lessons at Best Tutorial Center, Ann's grade in Math rose from 78 to 88. By what percent did her average increase?
B. 35.75% B. 12.82% C. 11.36% D. 20.16%
254. A large pipe can empty a tank in six hours, and a smaller pipe can empty it in ten hours. How long would it take both pipes to empty the tank?
B. 3.25 hours B. 4.5 hours C. 3.75 hours D. 2 hours
255. Jose Rizal: El Filibusterismo: Graciano Lopez Jaena:
C. Ninay C. Noche Buena
D. Fray Botod D. Cadaquilaan ng Dios
256. Sounds differ though spelled alike. Which does not belong to the group?
C. The leader chided the follower's C. She sounded victorious
D. She wanted a chaperon D. Baby screamed for help
257. A blind mother was allowed to work in a place where her fingers could be productive. Why is it possible?
E. Disabled person are given special attention
F. The disable and handicapped are given equal protection of the law
G. Blind individuals are discouraged from begging
H. Blind individuals can still be productive
258. A 3 $\frac{1}{2}$ meter ribbon is cut into four pieces in the ratio 1:2:3:4. Find the length of the longest piece.
B. 35 cm B. 70 cm C. 100 cm D. 140 cm
259. According to Confucius, what is the best way to rule a people and attain harmony?
C. By allowing to do as they please C. By consulting the governed
D. By moral example D. By force
260. Compute the exact simple interest on Php 20, 500 at 2.5% per annum for 60 days.
B. Php 95.50 B. Php 84.25 C. Php 85.42 D. Php 90.64

261. During the experiment, temperature was measured three times. The second reading was 8 degrees lower than the first and the third reading was 13 degrees lower than the second. If the first reading was 7 degrees what was the last?
B. 6 degrees B. 14 degrees C. -14 degrees D. -12 degrees
262. Who of the following Romans was never emperor?
B. Caligula B. Catullus C. Claudius D. Julius Caesar
263. The government's prohibiting the press from interviewing, constitutes called:
B. Gag order B. Media law C. Censorship D. Prior restraint
264. The press is referred to as Four Estate because it:
E. is a powerful political force
F. is an adversary of government
G. acts as the fourth branch of government
H. checks all branches of government
265. How do you describe a typical social structure which describes a pattern through which relationships at work are ordered?
B. Communistic B. Capitalistic C. Bureaucratic D. Technological
266. The official stand of the news paper on a particular issue is found in the:
C. Front page C. Editorial page
D. Inside page D. Features section
267. An association wherein the name of something is substituted by something that represents it.
B. personification B. metonymy C. comparison D. euphemism
268. He was the American President who said "Ask not what America will do for you, but what together we can do for freedom of man."
C. Gerald Ford C. Henry Truman
D. Franklin Roosevelt D. John F. Kennedy
269. The area of a rectangle is 117 cm^2 . Find its perimeter if its length is 13 cm.
B. 9 cm B. 30 cm C. 44 cm D. 54 cm
270. Two angles are supplementary. One of the angles is five times larger than the other. What is the measure of the larger number?
B. 15° B. 30° C. 120° D. 150°
271. Ito ay sinulat ni Harriet Stowe ng Estados Unidos na tumatawag pansin sa kalagayan ng mga alipin at naging batayan ng simulain ng demokrasya.
C. Ang "Book of the Dead" C. "Divina Comedia"
D. Ang "Uncle Tom's Cabin" D. "Mahabharata"
272. Sabihin ang gawang pagsasalitang ito. "Iwasan ang imburnal, may nagtratabaho"
B. Pagtukoy B. Pagkukuwento C. Babala D. Pasasalamat
273. Kabaliwan at paglulustay ang inyong ginagawa taun-taon. Higit na marami ang maralitang nangangailangan ng salapi at dunog. Ang nagsasalita ay –
B. Kuripot B. Maramot C. Praktikal D. Matipid
274. If a function is defined by the set of ordered pairs (1,2), (2,4),(3,8),(4,16),(5,Y) then the value of Y is –
B. 10 B. 32 C. 20 D. 25
275. If each of the five members in a basketball team shakes hands with every other member of the team before the game starts, how many handshake will there be in all?
B. 6 B. 8 C. 10 D. 9
276. Which of the following causes the seasons?
C. The rotation of the Earth about the Sun C. The distance of the Earth from the Sun
D. The rotation of the Sun about the Earth D. The tilting of the Earth on its axis
277. A person who specialized in the study of atmospheric conditions is called a
B. Geologist B. Scientist C. Meteorologist D. Weather forecaster
278. You have identified the problem in your experiment. What is the next step?
C. Formulate the hypothesis C. Gather relevant data
D. Formulate the conclusion D. Test the hypothesis
279. When the moon is passing the point of its orbit directly between the earth and the sun and it cannot be seen, this phase of the moon is

- B. Full moon B. Crescent C. Gibbous D. New moon
280. What is the least common multiple of 9, 8 and 18?
B. 36 B. 54 C. 72 D. 144
281. Which of the following is NOT true about the sum of two consecutive odd integers?
C. it is even C. it is divisible by 4
D. it is only divisible by 12 D. it is always divisible by 1
282. The thinning of the ozone layer is due to the use of
E. Weed killers and insecticide sprays
F. Hydrocarbons like gasoline
G. Mercury in gold mines
H. refrigerant and aerosol sprays
283. Comets often have eccentric orbits. This means that
E. Their orbits are circular
F. Their time of arrival is unpredictable
G. They cannot be seen without telescope
H. The sun is closer to one end of the orbit
284. Senators were accused by activists of washing their hands with the perfumes of Arabia. This is state commonly known as
B. Triumph B. Guilt C. Aggression D. Indecision
285. Lucille is 4 times as old as Nicole. Six years from now, she will be twice as old as Nicole. How old are they now?
C. Lucille 12; Nicole 3 C. Lucille 16; Nicole 4
D. Lucille 3; Nicole 12 D. Lucille 4; Nicole 16
286. If $x + y = 2a$ and $x - y = 2b$, what is the value of xy ?
B. ab B. $a^2 + b^2$ C. $(a - b)^2$ D. $a^2 - b^2$
287. Reports of the death sentence were awaited by the parents. But the President decides the postponement for a month or in legal terms this means
B. Reprieve B. Pardon C. Execution D. Commutation
288. A square box has a perimeter of 88 cm. What is measurement of one side of the box?
B. 88 cm B. 22 cm C. 60 cm D. 44 cm
289. At the outset of the rainy season the epidemic of H-fever is feared. Which practice is the best approach to prevent it occurrence is homes?
E. Clean the yards of breeding places for mosquitoes like old tries, cans etc.
F. Fumigate the house with smoke and chemicals
G. Submit children to vaccination
H. Avoid mosquito bites in the afternoon
290. The founder and first editor of La Solidaridad in Barcelona, Spain and was considered the greatest orator of the Filipino colony in Spain?
C. Mariano Ponce C. Marcelo H. Del Pilar
D. Graciano Lopez Jaena D. Gregorio H. Del Pilar
291. Find the GCF of 12, 32 and 56.
B. 2 B. 4 C. 6 D. 56
292. The primary source of the objectives of educations in the Philippines at present is the –
C. Report of the Monroe Commission C. Tydings McDuffie Act
D. Philippine Constitution D. The Swanson Report
293. The voyage of Ferdinand Magellan is considered the greatest single achievement in the history of exploration and discovery because it –
E. Made proved that the world is not flat
F. Marked the discovery of westward route to the East
G. Marked the first circumnavigation of the globe
H. Marked the discovery of the Philippines
294. A car racer covers 225 km. in $2\frac{1}{2}$ hours. How far can he go in $1\frac{3}{4}$ hours.
B. $267\frac{1}{2}$ km B. $168\frac{3}{4}$ km C. 394 km D. $157\frac{1}{2}$ km
295. Three-fourth of what number is 12?
B. 30 B. 12 C. 24 D. 16

296. What is the difference in elevation between the top of a mountain 8,520 feet above sea level and a point in a valley 253 feet below sea level?
A. 8367 feet B. 8267 feet C. 8873 feet D. 8773 feet
297. What do you call the arrangement of a number of objects in a definite order and arrangement?
A. Probability B. Permutation C. Combination D. Factorial
298. What is the value of a in the statement $3ab=15$ if $b=5$?
A. 15 B. 3 C. 30 D. 1
299. Which of the following is a function?
A. $\{(1,2), (2,3), (3,4)\}$ C. $\{(1,3), (1,4), (1,5)\}$
B. $\{(x, y) / x = 4\}$ D. $\{(x, y) / x^2 + y^2 = 1\}$
300. There are 18 Tagalog maids and 12 Visayan maids serving in hotel. Give the ratio of the Tagalog to the entire group and express them in simple terms?
A. $3/2$ B. $2/5$ C. $2/3$ D. $3/5$

-----NOTHING FOLLOWS. SUBMIT YOUR ANSWER SHEET TO YOUR WATCHERS.-----

GENERAL EDUCATION – 150 items

GENERAL INSTRUCTIONS:

1. This Test Booklet contains 150 test questions.
2. Detach one (1) answer sheet from the bottom of your Examinee ID/Answer Sheet Set.
3. Write the subject title "GENERAL EDUCATION" on the box provided.

4. Shade Set Box "A" on your answer sheet if your test booklet is Set A; Set B if your test booklet is Set B.
5. Shade only one (1) box for each question on your answer sheets. Two or more boxes shaded will invalidate your answer. There is only one answer to each question.
6. AVOID ERASURES.
7. This is ST. LOUIS REVIEW CENTER PROPERTY. Unauthorized process or reproduction, and or sale of this test booklet is punishable by law.

1. The Nibelungenlied is a:
 - a. Russian folk song
 - b. Latin Myth
 - c. Medieval German Epic
 - d. Chinese legend
2. The ash from Mt. Pinatubo has been found to have gold content of only 20 parts per billion which is far below commercial levels. As such, officials have warned against hopes of a new "gold rush".
 - a. There is a new hope for boosting the economy of the Philippines
 - b. There is a need to explore what else lies beneath Mt. Pinatubo
 - c. There is a possibility of existing gold mines beneath Mt. Pinatubo
 - d. The gold content of the ash from Mt. Pinatubo does not have commercial value
3. In the Count of Monte Cristo, Edmond Dante was wrongfully imprisoned in:
 - a. Castle of Chillon

 - c. Ang bunga ng isang kahoy ay galing sa sariling lahi
 - d. Maaring magbunga ng bayabas ang isang punong santol
37. Alin ang babala na dapat sundin ng mga mamamayan?
- a. Itapon ang basura sa Pasig
 - b. Itapon ang basura sa tabing dagat
 - c. Gawin ang paghihiwalay ng mga basura
 - d. Bayaran ang buwis para ang basura ay hakutin
38. Sino ang pangulo ng Pilipinas na nagbigay ng buhay sa wikang Filipino?
- a. Jose P. Laurel
 - b. Elpidio Quirino
 - c. Corazon Aquino
 - d. Manuel L. Quezon
39. Hindi nakayanan ng aking kaibigan ang kanyang MASALIMUOT na buhay.
- a. Mahirap
 - b. Malabo
 - c. Malungkot
 - d. Magulo
40. Ang katumbas sa Filipino ng national identity ay _____.
- a. Pandaigdig na pagkilala
 - b. Pambayang pagkakakilanlan
 - c. Pambansang pagkakakilanlan
 - d. Pambansang kantanyagan
41. Piliin ang tinutukoy ng salitang nakahilig Nasa *PANTALAN* ang sasalubong sa President.
- a. Airport
 - b. Railroad
 - c. Tabin-dagat
 - d. Pier
42. Health officials advised mothers about preservatives used in vegetables. Which advice should be followed to ensure safety when eating vegetables?
- a. Soak the vegetables in cold ice
 - b. Put vegetables in freezers
 - c. Wrap the vegetables in newspapers
 - d. Wash the vegetables very well
43. Not all micro-organism are harmful. Which of these are done by yeasts?
- a. Promotes the rising of bread for baking
 - b. Cause milk to become cheese
 - c. Cause Yakult to be milky
 - d. Encourage disease food
44. Where are flash floods on Metro Manila blamed to?
- a. Overpopulation
 - b. Volcanic eruption
 - c. Clogging of rivers with waste
 - d. Urbanization practices
45. The decrease of fish in Philippine seas has been traced. What is the root cause?
- a. Pollution of sea water
 - b. Proliferation of nets
 - c. Exportation of sea products
 - d. Destruction of coral reefs
46. Which statement is FALSE?
- a. Solid particles have the strongest attractive forces in between
 - b. Solids and liquids have more molecules per unit volume, hence their densities are higher
 - c. Molecules of solids and liquids are more closely packed than those in gases
 - d. The gas phase the least kinetic energy
47. A change in the shape and size of an object can be classified as:
- a. Chemical change
 - b. Nuclear change
 - c. Physical change
 - d. Mechanical change
48. Eight out of the top ten leading causes of morbidity in the Philippines are communicable. To prevent this from happening to your students the best advice you can give them is to ____.
- a. Avoid dangerous activities
 - b. Clean the classroom often
 - c. Cover the mouth when sneezing
 - d. Wash hands frequently
49. Iron-deficiency is related to the poor scholastic performance of students. Which of the following food items is best for iron-deficient students?
- a. Pechay
 - b. Fish
 - c. Sardines
 - d. Liver
50. Which of the following BEST differentiates an earthquake’s intensity from its magnitude?

- a. Intensity describes the depth from which the earthquake originated while magnitude refers to the energy of the earthquake
- b. Intensity cannot be measured while magnitude can be measured using a seismograph
- c. Intensity refers to the strength of the quake while magnitude refers to the degree of destruction it caused at its epicenter
- d. Intensity is a measure of how much damage an earthquake caused at the surface while magnitude is the strength of the quake.
51. Which of the following highlight the significance of the process of mitosis?
- a. daughter cells have more chromosomes than the parent cell
- b. daughter cells have chromosomes twice the number as that of the parent cell
- c. daughter cells have the same number of chromosomes as that of the parent cell
- d. daughter cells have half the number of chromosomes as that of the parent cell
52. What characteristic of light accounts for the phenomenon of color?
- a. amplitude b. wavelength
- c. speed d. intensity
53. In which layer of the atmosphere do all weather changes happen?
- a. thermosphere b. stratosphere
- c. troposphere d. mesosphere
54. Mario met an accident and was bleeding profusely. He needed a blood type AB transfusion. There was confusion on what to do because no blood type AB was available. Somehow he survived because they were able to give him blood. Which of the following best explains this?
- a. Type A was mixed with type B blood.
- b. Type B was mixed with type A blood.
- c. Type AB can receive type A blood.
- d. Type AB can be given any blood type.
55. Which process occurs when dry ice, CO_2 (s) is changed into CO_2 (g)?
- a. Decomposition
- c. Condensation
- b. Evaporation
- d. Sublimation
56. The opening of cement plants requires getting a DENR clearance. Which of these clearances are required?
- a. Waste disposal
- c. Environmental Clearance (ECC)
- b. Air Pollution Clearance
- d. Bureau of Internal Revenue (BIR)
57. Riders in a bus are pushed forward during a sudden stop. Which law of motion provides an explanation?
- a. Hooke's Law
- b. Law of Universal Gravitation
- c. Law of Interaction
- d. Law of Inertia
58. Which part of the brain controls heartbeat, breathing and digestion?
- a. Cerebellum
- c. Cerebrum
- b. Thalamus
- d. Medulla oblongata
59. The two minerals that are needed for bone and tooth formation and blood clotting are ____.
- a. Sodium and iron
- c. Calcium and potassium
- a. Calcium and phosphorus
- d. Iron and iodine
60. Steam burns are more damaging than burns caused by boiling water because steam ____.
- a. Is vapor of water molecules during boiling
- b. Occupies more energy per kilogram than boiling
- c. Has more energy per kilogram than boiling water
- d. Has a higher temperature than boiling water
61. Children are fond of pets. One time a pet dog growled and bit a child. How will the owner handle the situation?
- a. Kill the dog
- b. Tie the dog & feed it regularly
- c. Use the dog's brain to treat the wound
- d. Allow the dog to be observed for 10-18 days before giving anti-rabies injection
62. The weather bureau gave this warning about thunderstorms. Which comes first?
- a. Thunder follows all lightning
- c. Thunder sound spread fast
- b. Lightning & thunders are simultaneous
- d. Lightning flashes first
63. A type of larvae injected by a mosquito bite has been observed in Mindoro and Bicol provinces. So a special health program was established to identify patients who normally exhibit
- a. protruding eye balls
- c. enlarge thyroid glands
- b. enlarged tonsils
- d. enlarged legs
64. Children with poor eye sights were advised to improve their nutrition through this were advised to improve their nutrition through this combination of food:
- a. pork, bread, potato
- c. rice, squash, fish
- b. meat, rice, ice cream
- d. hamburger, french fries, coke
65. There are several advertisements that encourage people to take this supplement so

- that they can grow three to five inches more even after the age of twenty.
- This is true because of the protein content
 - This is the because the AD would not have been allowed
 - This is not true because there are no specific individuals mentioned
 - This is not possible: there is definite pattern of growth of bones and muscles
66. After two pregnancies some of these mothers loose a pair of teeth or so. What could be the cause?
- Lack of iron & other minerals in diet during pregnancies
 - Diet during pregnancy lacks sulfur
 - Too much sweets in the diet
 - Poor brushing habits
67. The carabao is the working animal of farmers. However, these herds were converted for meat purposes. How would the government respond to the lack of carabaos?
- Imported buffalos from Australia
 - Put up a carabao project in CLSU
 - Distributed tractors and other machinery
 - Converted farms into subdivision and housing areas
68. Which of the following should you expect to be true about the rate of cellular respiration for a group of students who are the same age, height, and weight?
- Athletes would tend to have higher rates of cellular respiration than non-athletes.
 - Africans would have a higher rate of cellular respiration than Asians.
 - Boys would have a higher rate of cellular respiration than girls.
 - Non-athletes would have higher rates of cellular respiration than athletes.
69. A patient underwent a surgery. The anesthesia hardly had an immediate effect on him. Where was the case traced? To his:
- Being allergic
 - Physical weakness
 - Being an alcoholic
 - Heredity
70. Tomatoes come in abundance at certain times of the year. How can the supply be assured?
- Plant during rainy season
 - Avoid using tomatoes
 - Use substitute to tomatoes
 - Encourage preservation of tomatoes
71. The presence of fake doctors and malpractitioners on medical/health services are growing in number. How may this be discouraged?
- Ignore the presence of such persons
 - Refuse patronage of said services
 - Take patients to professional medical practitioners
 - Identifying such personalities and reporting them to authorities
72. In plant cells, chloroplasts are active in the chemical processes required to make food. Animal cells have no chloroplasts. Based on this, we can conclude that _____
- plant cells are more complex than animal cells
 - animals must obtain food from outside sources
 - animal cells are more complex than plant cells
 - animal cells prey upon cells as a food source
73. Why does water boil at a lower temperature on a mountain than at sea level?
- The temperature of the air falls as we go higher
 - The atmospheric pressure is higher as we go higher
 - The atmospheric pressure is lower as we go higher
 - The temperature of the air rises as we go higher
74. Potato plants are usually grown from buds, not seeds. The explanation for this is that _____
- potatoes cannot be grown from seeds
 - buds are not subject to light as seeds are
 - buds are more likely to duplicate the qualities of the parent plant
 - buds represent a form of asexual reproduction and seeds represent sexual reproduction and seeds represent sexual reproduction
75. Researches gave rats a dose of 3-m, butyl phtalide and measured changes in the rats blood pressure. This statement is BEST classified as
- experiment
 - prediction
 - hypothesis
 - finding
76. Children of obese parents have natural tendencies to be obese. Doctors advise parents on maintaining the right weight of children age 0-12 by:
- giving balanced diets with accompanying exercise
 - reducing milk intake
 - reducing intake of chocolates, candies and pasties
 - encouraging more intake of soda drinks
77. There is a campaign against cholera. How can the pupils get protected catching the disease?
- Contact the parents for a meeting
 - Teach children to wash their hands before and after meals

- c. Open up a store in the classroom for children's recess snack
d. Allow children to eat food sold by peddlers
78. Acetysalicylic acid (aspirin) is known to retard the blood-clotting process. This can have both positive and negative effects. One positive application of this knowledge application of this knowledge is the use of aspirin to _____
a. stop bleeding
b. reduce the possibility of stroke
c. relieve pain
d. act as stimulant
79. A suspension is a mixture in which the disturbed particles are larger than those of the solvent and which in the particles, in time, will settle.
Which of the following is a suspension?
a. Pure oxygen
c. Pure gold
b. Dusty Air
d. Salt water
80. Which of the following causes the seasons?
a. The distance of the Earth from the Sun
b. The rotation of the Sun about the Earth
c. The rotation of the Earth about the Sun
d. The tilting of the earth on its axis
81. To achieve ecological balance, which of the following sets of components about an aquarium contain?
a. water, plants
c. water, fish
b. water, snail, plants, fish
d. water, snail, fish
82. Which of the following statements best explains why copper is the most widely used in electrical wiring?
a. It is a better conductor than aluminum and cheaper than silver
b. It is the best conductor of electricity
c. It is cheaper than aluminum
d. It has high resistance to electricity
83. At the outset of the rainy season the epidemic of Dengue is feared. Which practice is the best approach to prevent its occurrence in homes?
a. Submit children to vaccination
b. Avoid mosquito bites in the afternoon
c. Fumigate the house with smoke and chemicals
d. Clean the yards of breeding places for mosquitoes like old trees, cans, etc.
84. A patient collapsed due to her low sugar level in the blood. What first aid should be applied at once?
a. Give a hot glass of milk without sugar
b. Give a cold glass of coffee with sugar
c. Allow the patient to take hot porridge
d. Give a glass of coca cola or sprite
85. Which of the following physical changes involve adding heat to a substance?
a. Boiling and condensing
b. Condensing and freezing
c. Evaporating and condensing
d. Melting and boiling
86. What do rays of light demonstrate when they strike a polished piece of metal, appearing to bounce off its surface?
a. Refraction
c. Polarization
b. Reflection
d. Interference
87. Which of the following statements about atomic structure is NOT right?
a. Atoms are mostly empty space
b. All atoms of the same atomic numbers are atoms of the same element
c. Most of the mass of the atom is concentrated in its nucleus
d. An atom can gain or lose electrons without changing its charge
88. Which of the following control measures would NOT help prevent the spread of malaria?
a. Draining swamps
b. Covering windows with netting
c. Boiling drinking water
d. Spraying insecticides on stagnant water
89. The virus "love bug" is a recent technological element spread by:
a. Computer
c. Radio
b. Internet
d. Television
90. The price of gasoline has gone high suddenly. The gas station ordered 120,000 liters before the price increase. However, only 1,500 liters were sold. How many liters are now sold on the new price?
a. 112,000
b. 121,500
c. 118,500
d. 108,000
91. There are 18 north maids and 12 south maids serving in a hotel. Give the ratio of the north to the entire group and express them in simple terms?
a. $\frac{3}{5}$
b. $\frac{2}{5}$
c. $\frac{3}{2}$
d. $\frac{2}{3}$
92. What is the total length of the clothing materials if there are $7\frac{2}{10}$ meters and $15\frac{4}{5}$ meters available?
a. 23 m
b. $18\frac{1}{4}$
c. 18 m
d. $18\frac{1}{2}$

- a. The disable and handicapped are given equal protection of the law

b. Blind individuals are discourage from begging

c. Disable person are given special attention

d. Blind individuals can still be productive

132. During the national census each household member is asked to give:

a. His reason for staying in these house

b. His data-age, sex, language, etc

c. His earnings for ten years

d. His nationality

133. Foreign students in Philippines Internationals Schools are required courses in Philippine culture and languages. This makes possible:

a. Provides comparison of cultural differences

b. Allows racial prejudices among foreigners

c. International understanding

d. Promotion of nationalism

134. Which of the following runs counter to the development of honesty and accountability?

a. Payment of just wages to workers an employees

b. Equal payment of government employee's productivity pay

c. Being vigilant about weights and measures used in the market

d. Transparent in operation of the barangay and other organization through public reporting

135. Which of the following statement defines ethics?

a. The study being general

b. The science of correct thinking

c. The study of the nature of human knowledge

d. The study of the rightness or wrongness of human action

136. In moral life, responsibility depends on one's knowingly and freely doing an act. In which of the following situations would you attribute responsibility?

a. A person unknowingly passes counterfeit money

b. An insane person strikes someone's head with a hammer

c. A four year old fires a loaded gun killing his own father

d. A nurse administers a medicine despite strong doubts about it

137. *The government has control of many government corporations and industries. What was deregulated and allowed to cause prices without control?*

a. Oil industry

c. Fishing industry
- b. Mining industry

d. Water source
138. In the Philippine governance, the earliest and smallest of governance is the:

a. Barrio

c. Barangay

b. Poblacion

d. Municipality
139. Drug addiction has been found rampant in schools. The initial signs of addiction are in:

a. Shabby and unkempt appearance

b. Sleeping during recitation time

c. Red nose cheeks at noon

d. Abusive language and behavior
140. A child wanted to use her father's family name. Why did she insist on this?

a. Every child should have a father

b. Every individual has a right to be baptized

c. Every individual has a right to a proper identity

d. Every child should be called by her paternal name
141. A man was imprisoned for ten years. After five years, he was found innocent. What can this man demand?

a. Compensation for the years under detention

b. Punishment of the arresting officer

c. Retaliation against the accusers

d. Sanction against the judge
142. Students and teachers stand at attention during flag ceremonies. School principals assign guards on the street to stop vehicles during the ceremonies. How does the public take this practice?

a. Only school children should be controlled in this ceremonies

b. Only military or policeman should stop and salute the flag

c. The flag is for all citizens: It's symbol of the nation

d. Stopping traffic is not the job of the school
143. Democracy refers to the involvement of all the citizens in the control of government, while an oligarchy relegates control of government to:

a. The mother country

c. A religious group

b. An autocrat

d. A select few
144. An aspect of Philippine culture that does much to promote interpersonal communication beyond the community boundary is the:

a. Fiesta celebration

c. Tagalog movies

b. Television

d. Zarzuela

145. A child discovered a new formula for decreasing the population of ants. She submitted the research to a teacher who claimed the research as hers. The teacher:
- a. Right to choose
 - b. Violated human right
 - c. Right to intellectual property
 - d. Right to live within one's means
146. Conducting PRC examinations abroad to OFW in different countries are perceived as a:
- a. Service to earn dollars
 - b. Propaganda of government
 - c. A pleasure trip for PRC officers
 - d. Service to overseas workers
147. The Philippines National Bank soars and has used this as a symbol in its advertisement
- a. The hawk
 - b. The parrot
 - c. The pigeon
 - d. The eagle
148. The crimes were considered serious because the penalty was:
- a. To die in jail
 - b. Lethal injection
 - c. A life sentence
 - d. A total exile in a foreign land
149. The impeachment led Filipino to:
- a. Listen to the proceedings
 - b. Hate Administration trials
 - c. Understand the judge's comments
 - d. Appreciate the democratic process of government
150. In one drug rehabilitation center most inmates who were found deep in prohibited drugs were:
- a. Children wanting of parental love and care
 - b. Children who had no identity to speak up
 - c. Children who have so much to spend

GENERAL EDUCATION
EXAM DRILL III

- k. The words "inappropriate, illegal, irresponsible and unaware" have prefixes which are classified as ____
- e. Positive
 - f. Common
 - c. Negative
 - d. Neutral
- l. Which does NOT belong?
- e. Hypothesis
 - f. Surmise
 - c. Conclusion
 - d. Conjecture
- m. Which does NOT belong?
- i. Foot
 - j. Kilometer
 - c. Centigrade
 - d. Mile
- n. "Blessed are _____ sorrowing for _____ shall be comforted."
- i. the-you
 - j. the-they
 - c. you-they
 - d. they-they
- o. When I met Pilar yesterday, it was the first time I _____ her since Christmas.
- c. have seen
 - d. saw
 - c. have been seen
 - d. had seen
- p. If you want to be recognized, have a finger in the pie.

- c. Dip finger in the pie
d. Take a share of the pie
e. join a group
f. take an active part in something
- q. Your father is paying for your plane ticket, _____?
e. Isn't it c. isn't be
f. Is he d. aren't you
- r. It's now two hours past his schedule; the facilitator will not come anymore, but we'll still be ready in case he _____.
i. is coming c. does
j. may d. will come
- s. He was excused because all he said were white lies. The underline idiomatic expression means _____.
m. Lies are really harmless
n. Lies recited are excusable
o. Lies are written on white page
p. She recited the lies in public.
- t. This grade on your essay is low. Did your teacher suggest _____another?
g. you will make c. to write
h. writing d. revise
- u. Wise people can _____with frustration.
m. cope up c. cope in
n. cope on d. cope
- v. Is this the spot _____you had the accident?
e. why c. wherein
f. where d. which
- w. "Nothing happens in this world by chance; it is all part of a grand design."
The author speaks of one's _____.
g. ambition c. destiny
h. luck d. dream
- x. These towels are _____for us to dry the dishes.
k. very dry c. so wet
l. very wet d. too wet
- y. Which sounds like "when"?
e. while c. whine
f. pin d. pet
- z. Manalo approached the platform with his speech. His palms were sweaty and his hands were shaking. He felt the palpitations of his chest and perspiration began to appear at his forehead. Manalo is experiencing _____.
a. heart attack c. stage fright
b. nausea d. epilepsy
- aa. What figure of speech is present in this line of the poem "The Brook"?
"This second time it was a tiny snake."
k. Personification c. Simile
l. Metaphor d. Apostrophe
- bb. The "Rubaiyat", a loosely joined series of 280 stanzas, has this general theme. Which one?
g. Always look forward to a new day.
h. Never give in to death easily.
i. Grasp pleasure while you can.
j. Create your own world and beautiful it.
- cc. Do not go gentle into good night,
Old age should burn and rage at close a day;
Raged, against the dying of the light.**
- Dylan Thomas**
- The person in the lines above could characterized as,
i. pessimistic c. courageous
j. violent d. strong
- dd. In Psalm 23 otherwise known as "Psalm of David", what is the closest meaning to the line?
**"He maketh me to lie down in green pasture;
he leadeth me beside the still waters."**

- i. He will be given riches and mercy.
j. He will be known throughout the land.
k. He will always obey his master for his glory.
l. He will be provided peace and prosperity.
- ee. The Master said:
"Only one who bursts with eagerness do I instruct. Only one who bubbles with excitement do I enlighten".
- The lines give one the ideas that true learning,
16. makes man a disciple of instruction
17. involves patience and a dash of lethargy
18. is capable of making man
19. comes with commitment and passion
- ff. "Katulad ng wika ang isang halaman. Sa matabang lupa kusang lalago ito kung may sapat na tubig at liwanag.**
- Ang pahayag na ito ni Teongociang ay umaayon sa,
e. Taglish
f. Dekolonisasyon
g. puristang paniniwala
h. intelektwalisasyon
- gg. Alin sa mga sumusunod ang salitang pambansa?
e. Pinoy c. Mapagkumbaba
f. Kamusta d. Nagdadalantao
- hh. Ano ngaun ang tuntunin na susundin sa pagtutumbas sa Filipino ng "rice terraces"
e. Kung anu ang bigkas siyang sulat.
f. Gamitin ang katutubong katumbas
g. Tumbasan sa Espanyol at baybayin sa Filipino.
h. Hiramín nang ganap
- ii. Ang pagkautal ay matatawag na _____ na sagabal sa pagsasalita.
i. saykolohikal c. pisikal
j. pisyolohikal d. semantiko
- jj. Sa taong 2008, nakatitiyak _____ sambayanang Filipino na mapaunlad ang ekonomiya ng bansa.
kk. Si c. ang
ll. Sina d. ang mga
- mm. Kung _____bawat isa sa atin ay matututong magsikap at magpahalaga sa ating mga ginagawa, ang ating sarili ay patuloy na uunlad.
nn. ang c. si
oo. ang mga d. sina
- pp. Kailan lamang ay nakita ko _____ Manong na nakikipag-usap sa ating mga punong-bayan.
qq. si c. ang
rr. sina d. ang mga
- ss. Kung darating _____Joy at Tin-Tin ay pakisabing nauna na ako.
tt. si c. kina
uu. sina d. sila
- vv. Ang Pilipinas ay_____ mahigit na pitong libong pulo.
ww. may c. mayron
xx. mayroon d. meron
- yy. Sinabi ng Kalihim sa Edukasyon na _____makukuhang benepisyo ang mga guro sa taong ito.
zz. may c. mayron
aaa. mayroon d. meron
- bbb. ~~Kitala~~ ang mga pamilya ni Makee sa Bulacan. Mga _____ iyan.
ccc. mayron c. may
ddd. meron d. mayroon
- eee. Sa pangungusap na **"Panahon na upang magdilal ng mata at makisangkot sa mga usapín"**, ano ang ibig ipahiwatig?

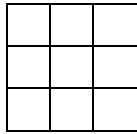

- e. Idilat ang mga mata
f. Umiwas sa usapan
g. Kalimutan ang isyu
h. Maging sa katotohanan
- fff. Alin ang mali sa pangungusap na ito? Ilang taon ring namahinga sa pag-awit ang sikat na si Whitney Houston.
i. ang sikat c. sa pag-awit
j. ring d. Ilang taon
- ggg. Alin ang pinakatamang pahayag?
k. Tiningala niya ang langit.
l. Tinitigan niya ang langit
m. Sinulyapang niya ang langit.
n. Tinitingnan niya ang langit
- hhh. "You can count on me". Ang pinakamalapit na salin nito ay
e. "maasahan mo siya"
f. "bilangin mo kame"
g. "maasahan mo ako"
h. "ibilang mo ako"
- iii. Si Lolo Jose ay malakas pa kahit alog na ang baba. Ang kahulugan ng may salungguhit ay
i. masakit ang baba
j. bata pa
k. matanda na
l. Malabo ang mata
- jjj. If July 12, 2003 fell on Tuesday, on what day will July 12, 2005 fall?
i. Thursday c. Sunday
j. Friday d. Monday
- kkk. A map is drawn to scale such that 1.5 cm on the map corresponds to 75 cm in actual distance. How many cm on the map would represent that distance between two towns which are 270 cm apart?
i. 2.7 cm c. 1.8 cm
j. 3.6 cm d. 5.4 cm
- lll. How much greater is the sum of the first 20 counting numbers than the sum of the first 10 counting numbers.
e. 110 b. 55 c. 100 d. 155
- mmm. Which of these statements is always TRUE?
e. The sum of 3 consecutive pages of a book is always odd.
f. The sum of two square numbers CANNOT be odd
g. The sum of the page number of two consecutive pages of a book is even.
h. The sum of 5 consecutive numbers is always divisible by 5.
- nnn. A father and son working together can finish painting a room in 6 hours. Working alone, a father takes 9 hours to do the painting. How many painting hours will it take the son, working alone, to finish painting the room?
e. 18 b. 15 c. 75 d. 12
- ooo. Which common fraction is equivalent to .216?
m. $\frac{53}{250}$ c. $\frac{21}{50}$
n. $\frac{27}{125}$ d. $\frac{108}{375}$
- ppp. From a 75m bolt/roll of clothing material, 28 school uniforms are made. Each uniform uses 2-m. How many meters of material are left?
k. $8\frac{3}{4}$ b. 10- c. 16 d. 12
- qqq. Nelia takes $\frac{3}{4}$ hour to dress and get ready for school. It takes $\frac{4}{5}$ hour to reach school. If her class start promptly at 8:15 a.m; what is the latest time she can jump out of bed in order to be late for school?
h. 6:42 a.m c. 6:45 a.m
i. 6:50 a.m d. 7:22 a.m
- rrr. In a playground for Kindergarten kids, 18 children are riding tricycles or bicycles. If there 43 wheels in all, how many tricycle are there?
i. 8 b. 9 c. 7 d. 11

- sss. Simplify $5\sqrt{75} - 4\sqrt{12}$
yyyyyy. $13\sqrt{5}$ c. $33\sqrt{3}$
zzzzzz. $\sqrt{63}$ d. $17\sqrt{3}$
- ttt. A child can be admitted to Grade I if he/she is at least 5 years and 10 months old by June of the school year. Which of these birthdates will disqualify a child from being admitted to Grade I on June 15, 2009?
g. June 10, 2003 c. May 5, 2003
h. Jan. 10, 2003 d. April 30, 2003
- uuu. A time deposit in a bank will mature after 91 days. If the deposit was made on April 28, on what date will it mature?
g. June 28 c. July 28
h. July 18 d. July 29
- vvv. The readings on water meter in April and May are 417.8kl and 430.4kl. If there a basic charge of 23 pesos and the cost per kl is 20 pesos, how much is the billing for water consumption between the two months?
e. P2,520 c. P2,543
f. P272 d. P275
- www. One side of a $45^\circ - 45^\circ - 90^\circ$ triangle measures 5 cm. What is the length of its hypotenuse?
k. $5\sqrt{3}$ cm c. $\frac{5\sqrt{3}}{2}$ cm
l. 5 cm d. $5\sqrt{2}$ cm
- xxx. An online shop sells a certain calculator for P850 and charges P250 for shipping within Manila, regardless of the number of calculators ordered. Which of the following equations shows the total cost (y) of an order as a function of the number of calculators ordered (x)?
i. $y = (850 + 250)x$ c. $y = 850x + 250$
j. $y = 250x + 850$ d. $x = 850y + 250$
- yyy. How many glasses of Cola each to be filled with 150 cu cm of the liquid can be made from 5 family sizes bottles of cola each containing 1.5 liters?
i. 60 b. 45 c. 40 d. 50
- zzz. The edges of a cubical frame are made from plastic straws. How much longer is the total length of the plastic edges of a cube whose edge is 10 cm compared to a cube whose edge is 8 cm?
g. 32 cm c. 24 cm
h. 8 cm d. 16 cm
- aaaa. How many different rectangles can be found in the diagram below?
e. 8 b. 4 c. 5 d. 9
- bbbb. If the width of a rectangle is reduced by 20% and the length is also reduced by 20%, what percent of the original area is the new area of the rectangle?
e. 60% b. 64% c. 80% d. 36%
- cccc. How many square inches are in 1 square yard?
k. 900 b. 144 c. 1296 d. 648
- dddd. Which of these has the longest perimeter
a. A rectangle 19 cm long and 24 m wide
b. A right triangle whose two legs are 24 and 32 cm
c. A square 21 cm on a side
d. An equilateral triangle whose side is 28 cm
- eeee. Determine the midpoint of the line segment joining the points (5,-3) and (-1,6)
k. $(2, \frac{3}{2})$ c. $(3, \frac{3}{2})$
l. $(2, -\frac{3}{2})$ d. $(1, \frac{5}{2})$
- ffff. The legs of one right triangle are 9 and 12, while those of another right triangle are 12 and 16. How much longer is the perimeter of the larger triangle than the perimeter of the smaller triangle?
g. 84 b. 7 c. 12 d. 14
- gggg. In a circle with center O, arc RS=132 degrees. How many degrees are there in angle RSO?
k. 22 b. 24 c. 20 d. 48

hhhh. One angle of a parallelogram is 35°. What are the measures of the three other angles?

- i. 145°, 35°, 145°
- j. 45°, 65°, 170°
- k. 85°, 135°, 140°
- l. 35°, 65°, 65°

iiii. A series of square figures are made with match stick. If the first three figures are the following, how many matchsticks will be needed to form the 6th figure?

- k. 60
- b. 5
- c. 84
- d. 40

jjjj. If $\frac{1}{x} = \frac{a}{b}$ then x equals the

- 155. product of a and b
- 156. sum of a and b
- 157. difference of a and b
- 158. quotient of a and b

kkkk. On a certain day three computer technicians took turns in manning a 24-hours internet shop. The number of hours Cesar, Bert, and Danny were on duty was in the ratio 1:2:3, respectively. The shop owner pays them Php 40 per hour. How much would Danny receive for that day?

- e. Php 230
- c. Php 160
- f. Php 960
- d. Php 480

llll. A bus has seven vacant seats. If there additional passengers enter the bus, in how many different ways can they be seated?

- m. 6
- b. 210
- c. 5040
- d. 35

mmmm. Ruben's grades in 6 subjects are 88, 89, 84, 90, 91 and 86? What is the least grade that he should aim for the 7th subject if he has to have an average of 88?

- a. 91
- b. 90
- c. 93
- d. 92

nnnn. In how many ways can 7 people seated around a circular table?

- k. 49
- b. 720
- c. 5,040
- d. 14

oooo. A committee of 3 is to be selected from a group of 5 girls and 3 boys. What is the probability that two boys are selected?

- e. 15/56
- b. 8/56
- c. 3/56
- d. 5/56

pppp. A student has ten posters to pin up on the wall of her room, but there is space for only seven. In how many ways can she choose the posters to be pinned up?

- i. 5040
- c. 120
- j. 604,800
- d. 7

qqqq. A retailer buys candies for Php 37.50. That pack has 25 pieces of candies. If she sells each candy for Php 2.25, how much profit does she make?

- i. Php 15.50
- c. Php 37.50
- j. Php 56.25
- d. Php 18.75

rrrr. In how many ways can four boys and four girls seated in a row containing eight seats if the boys and girls must sit in alternate seats?

- i. 1152
- b. 24
- c. 40,320
- d. 576

ssss. During period of increased global temperatures, which of the following is most likely to occur?

- g. A decrease in earthquakes
- h. An increase in earthquakes
- i. A decrease in atmospheric CO₂
- j. An increase in atmospheric CO₂

tttt. Which of the following human activities reduces the level of ozone in the atmosphere?

- g. Using large banks of solar cells for energy production
- h. Using artificial lighting in scientific polar station
- i. Releasing of fluorocarbons from aerosol cans

j. Destroying large areas of the equatorial rain forests

uuuu. If two variables X and Y are directly related, which of these is NOT true?

- i. When X is low, Y is also low.
- j. As X increase, Y also increase
- k. When X increase, Y decrease
- l. A high Y is associated with a high X

vvvv. What is the most significant cause of dwindling biodiversity?

- g. large plant consumption
- h. global warming
- i. destruction of habitat
- j. depletion of ozone layer

wwww. The existence of extraterrestrial life may never be proven, but this idea will become more scientifically acceptable over time if

- h. alternative hypotheses are proposed and confirmed
- i. hypotheses are made related to the idea
- j. no one disputes this idea in a scientific forum
- k. increasing scientific evidence supports the idea

xxxx. Why is incineration not favored as a method of waste disposal?

- i. It is expensive for a country like ours.
- j. The country lacks funds to install incineration.
- k. It requires large energy expenditure.
- l. It releases noxious gases.

yyyy. Teacher M showed the class the potted plants placed on the window sills. She asked them to observe the direction of their growth. The pupils observe that the plants tended to grow outward. Then Teacher M asked them the class this question: "Why do they grow outward?" What were Teacher M engaging pupils to do?

- e. Observe
- f. Formulate hypothesis
- g. Draw conclusion
- h. Design an experiment

zzzz. Which of the following has the smallest mass when measured in an equal arm balance?

- k. 1/2 sheet of pad paper
- l. 1/8 sheet of pad paper
- m. 1/4 sheet of pad paper
- n. 1/3 sheet of pad paper

aaaa. Which of the following activities help REDUCE water pollution?

- m. Throwing only liquid wastes
- n. Cleaning with soap instead of detergents
- o. Treating wastewater before it is discharged
- p. Using organic fertilizers in farms

bbbb. Leaves are green in sunlight because _____

- c. they absorb the green light
- d. their tints bounce off
- e. they absorb the blue and yellow light and yellow light
- f. they reflect green light

cccc. Which of the following is TRUE about light and seeing?

- b. Light enters the eyes enabling people to see objects.
- c. Light goes out from eyes, hits an object, and then returns to the eyes.
- d. Light rays coming from an object meets light coming from a light source and then enters the eyes.
- e. Light hits an object, bounces, and then enters the eyes.

dddd. A tray filled with ice was left on a table. After one hour, it was observed that some of the ice had changed to liquid. Which of the following is TRUE about the temperature of the water is higher than the temperature of the ice.

- i. The temperature of the ice did not change.

- j. The temperature of the ice became higher.
k. The temperature of water is higher than the temperature of the ice.
i. II only c. III only
j. I and III d. I only
e. A stainless steel spoon feels colder than a plastic spoon because stainless steel
c. absorbs less heat from the hand than plastic does
d. is really colder than plastic
e. has a lower temperature than plastic
f. conducts heat away from the hand faster than plastic does
f. Why does the level of water in a beaker rise after a stone is laced in it?
g. The stone and water occupy the same space
h. The stone takes the place occupied by water
i. The stone has more mass than the water
j. The water weighs less than stone.
g. In President Quezon's time, the country had the Philippine Commonwealth. What is TRUE about the Philippine Commonwealth? The Filipinos were
i. partially independent
j. granted total freedom to course their destiny only on matters of education
k. citizens of the United State
l. fully independent
h. What does the "presumption of innocence" mean in so far as human rights is concerned?
k. has the right to remain silent
l. remains innocence until proven quality
m. is concerned guilty unless proven otherwise
n. has the right to a legal counsel
i. What development has taken place in our form of government from the pre-Hispanic Philippines to the present?
k. We have come from a one-man rule to a government of the people, by the people, and for the people.
l. We began with a one-man rule and have ended up with a dictatorial form of government
m. We started with a dictatorial form of government that has developed into the present democratic form.
m. I and III c. II
n. III d. I
j. In connection with government transactions involving public interest, which policy, is adopted by the Constitution to assure the public of accountability and transparency?
h. Rural development and agrarian reform
i. Private enterprise and incentives to needed investments
j. Full public disclosure
k. Balanced and healthful ecology
k. With the Batasang Pambansa performing legislative and executive powers in the Marcos regime, which form of government was implemented?
i. Monarchical c. Presidential
j. Parliamentary d. Dictatorial
l. As a result of EDSA I, the Philippines _____
k. changed its form of government to parliamentary
l. intensified its participation in international affairs
m. saw the impeachment of Joseph Estrada as president
n. became known worldwide for its People's Power Revolution
m. Rizal focused the "La Liga Filipina" to
i. unite the whole country
j. fight violence and justice
k. revolt against the Spaniards

- e. I and III c. I and II
f. II and III d. II only
- nnnnn. Which is TRUE of the Philippines
- g. It has been colonized by two European colonial powers.
- h. There have been attempts to change its government to a parliamentary form.
- i. It is the only Christian in Asia.
- j. It has never been united as a nation.
- ooooo. Which is TRUE of the historical development of the Philippines?
- k. It has been an independent nation.
- l. It has not achieved full independence from the very beginning
- m. It has been an independence nation ever since.
- n. It has evolved from a colony to a fully independent nation.
- ppppp. This year's SONA was focused on education and economy. What is meant by SONA?
- k. Speech of the Nation Assembly
- l. Speech of the Nation Address
- m. State of the Nation Advocacy
- n. State of the Nation Address
- qqqqq. Which statement is TRUE of the pre-Spanish Filipino government?
- e. There was a court created by the datu to hear complaints.
- f. The datu exercised all powers of government.
- g. Laws were formulated by a law making body elected by the community.
- h. Laws were formulated by a law-making body appointed by the datu.
- rrrrr. With which are the words "Cha-cha" and "con-ass" associated?
- e. Imposition of martial law.
- f. Return to dictatorial form of government
- g. Amendment of the present constitution
- h. Division between Senate and House of Representatives
- sssss. The Comprehensive Agrarian Reform and cooperatives are meant to _____ .
- b. to improve on the country's literacy rate
- c. to make all citizens equal
- d. bridge the gap between the rich and the poor
- e. eradicate poverty in the country
- ttttt. How can the Comprehensive Agrarian reform Program bring about social equity and economic prosperity in the country?
- l. By distributing the ownership of land to farmers for value charge
- m. By transferring the ownership of land to farmers for value
- n. By helping the affected landowners to use their land compensation in viable business activities
- o. By providing support services to farmer-beneficiaries
- k. I, II and III c. II, III and IV
- l. I, II and IV d. I, III and IV
- uuuuu. When one company controls the supply of sugar, which terms applies?
- g. Economic Stability c. Equilibrium
- h. Monopoly d. Inflation
- vvvvv. When parents decide to send their children to a private school and pay their tuition fee instead of sending them to the public school, they don't get their share in the benefit derived from the taxes they pay. This is a case of _____
- b. social inequity c. social injustice
- c. double taxation d. double jeopardy
- wwwww. Which does one display when he thinks that what is foreign is the best and that what is local is inferior?
- i. Relativism c. Ethnocentrism

- j. Favoritism d. Xenocentrism
xxxxx. Upon which is the claim that is no single universal standard to be used to judge any cultured based?
k. Cultural diversity c. Cultural relativism
l. Cultural shock d. Ethical relativism
yyyyy. You have to take extra care when you critique the work of a Filipino. Your negative comment maybe mistaken to be an attack against his/her person. Upon which Filipino trait is this advice based?
i. "Bayanihan" spirit
j. Extreme personalism
k. "Sakop" mentality
l. Adaptability
zzzzz. Which of the following was the first to happen?
i. Aguinaldo declared Philippine independence
j. Guerilla warfare against the US was initiated
k. The Philippines was ceded to the US by the Treaty of Paris
l. Aguinaldo was captured
aaaaa. If they were to come back life, who among the following would be the most vocal to speak against the country's foreign policy of close associated with America?
e. Jose P. Laurel, Elpidio Quirino
f. Leon Ma. Guerrero Jr., Jose P. Laurel
g. Claro M. Recto, Leon Ma. Guerrero
h. Claro M. Recto, Jose P. Laurel
bbbbb. To stimulate the nation's economy and increase employment, past President Diosdado Macapagal ____
g. borrowed money from the World Bank
h. standardized the salaries of government employees
i. abolished government repressive controls
j. gave incentives to home cottage industries
ccccc. Based on his work "Sa Aking Mga Kabata", would Rizal favor the use of the mother tongue in the early grades?
e. He did not express it clearly
f. Yes, but mixed with English.
g. No.
h. Yes.
ddddd. Out of used illustration boards, students came up with cute and function bags for school children. Which Filipino trait is exhibited?
g. Adaptability
h. Creativity
i. Family-orientedness
j. Pagkabayani
eeeeee. On which Filipino trait does **Gawad Kalinga** build on?
i. Extreme personalism
j. Joy and Humor
k. Bayanihan spirit
l. Adaptability
ffffff. The Filipino's indomitable spirit is shown in his
e. utang na loob
f. friendliness
g. self-reliance
h. ability to survive
ggggg. Let's assume that universities will be required to offer education programs at the graduate rather than at the undergraduate level. Based on this information, how should you respond?
g. Disagree c. Agree
h. Not enough informationd. Neutral
hhhhh. One reason why the NCEE was abolished was because it was anti-poor. Which explanation logically supports this reasoning?
h. The NCEE served as a measure to counter the "diploma mill" mentality of Filipinos.

- i. It's good that NCEE was abolished because that would mean only those fit for college would go to college.
j. Most of those who did not pass the NCEE were graduates of deprived to schools
k. College education liberates the poor from the bondage of poverty.
iiiiii. Art and music are necessary ingredients to a child's education. Which statement/s, support/s, the idea of this sentence.
g. Music and arts intensify a child's imagination.
h. Music teaches discipline, team work, math and poetry through rhythm.
i. Painting helps a kinesthetic learner express abstract concepts in concrete forms.
g. I only c. I and II
h. I,II and III d. III only
jjjjj. Rizal said: "There are no tyrants where there are no slaves." Which logically explain this?
g. If the Filipino were treated as slaves by the Spaniards it was because they allowed themselves to be treated as such.
h. It was the equally the fault of the Filipino why the Spaniards treated them as slaves.
i. The Spaniards were tyrants and so they treated the Filipino as slaves.
i. I b. III c. I and II d. II
kkkkk. You are often told: "Poverty is not hindrance to success." What does this imply?
i. It is other people that hinder people to succeed.
j. What a person becomes in life is a product of his/her own choice.
k. A person is totally conditioned by his/her environment.
l. The "promdi" student does not succeed because of his/her place of origin.
lllll. What a student can do offers from what he will do. What does this prove?
g. Motivation and ability always together.
h. Motivation differs from ability.
i. Student of today are hardly motivated.
j. Ability is the opposite of motivation.
mmmmm. A Biology teacher described herself biologically: "My estrogen level is decreasing and I have signs for osteoporosis." What is TRUE of the Biology teacher?
m. She is a chain smoker
n. She is in late adolescence
o. She is spinster.
p. She in her post-menopausal period.
nnnnn. A secret word that must be entered into the computer before a person is allowed to get or change information is called ____
i. program c. statement
j. password d. input
ooooo. The search for related literature by accessing several data bases by the use of a telephone line to connect a computer library with other computers that have database is termed
i. manual search
j. on-line search
k. Compact disc search
l. computer search
ppppp. Which refers to a single phrase or word that tells the computer to do something with a program or file?
j. Password
k. Computer Program
l. Command
m. Computer language

- qqqqq. In writing a letter, which productivity tool is used?
- e. Pagemaker
 - c. Spreadsheet
 - f. Word processing
 - d. Publisher
- rrrrr. Like the typewriter, the computer has
- i. screen
 - c. keyboard
 - j. cursor
 - d. disk drive
- sssss. Which application program provides one with a means to organize and present information through the use of text, numbers, graphs, sounds, and visual image
- e. Publisher
 - c. Multimedia
 - f. Spreadsheet
 - d. Word processing
- ttttt. Which one links the computers to base computer making it possible to share software materials?
- m. Modern
 - c. Local area network
 - n. Interface
 - d. Internet
- uuuuu. What is/are the best ways to a child's development according to the statement?
- g. Meet the child where the child is.
 - h. Allow the child to develop according to his/her pace.
 - i. Compare a child to another in order to motivate her/him to catch up with other children's development.
- e. II and III
 - c. I,II and III
 - f. I and III
 - d. I and II

SITUATIONAL

Situation 1-

"You can't make children grow faster by punishing them, just as you can't make flower bloom faster

- vvvvv. What message does the statement have for teachers?
- g. Just look at the flowers when you are tempted to hurry up the development of a child.
 - h. Provide children with developmentally appropriate practices.
 - i. Games will help develop children naturally.
 - j. Avoid comparing a child with other children.
- wwwww. Which statement is in support of the statement given above?
- i. A teacher's moment-by-moment actions and interactions with children are the most powerful determinant of learning outcomes and development.
 - j. We can't make children's dendrites grow faster or insist that important connections in the brain be made.
 - k. It is the early childhood educator who has both the immense responsibility of creating the learning environment that will intrigue and stimulate the whole child.
 - l. Each child's brain is unique and vastly different from one another.

Situation 2-

School-based Management (SMB) is in line with the spirit of decentralization. It aims to: 1) empower the school heads to lead their teachers, students, and members of the community in a continuous school improvement process leading to higher learning outcomes and improved health and nutrition status of students; 2) bring resources within the control of the schools to support the delivery of quality educational services in the spirit of transparency; 3) strengthen school partnerships with the communities, local government units to encourage them to invest time, money and other resources in providing a better school learning

- xxxxx. What kind of improvement process is in keeping with SBM?
- m. Data-driven
 - n. Continuous
 - o. Participatory
 - c. I and II
 - d. I and III
 - e. II and III
 - f. I, II and III
- yyyyy. In SBM, who is empowered to lead the school and the community for improvement
- i. The parent leaders
 - j. The school head
 - k. The principal
 - l. The teachers
- zzzzz. Which word/phrase does NOT go with school-based management?
- c. Transparency
 - d. Authoritarian leadership
 - e. Continuous improvement
 - f. Partnership

Situation 3-

SEASONS OF LOVE

I Love was spring
When feelings bloomed
As we first said hello
And looked into each other's eyes
together

V Love become summer
When passions rose cold
As we held hands
And said our vows

- aaaaa. "Spring" in the first stanza represents all but one of the following
- c. a budding relationship
 - d. the beginning of love
 - e. colorful world of people in love
 - f. the end of bachelorhood
- bbbbb. The word "summer" in the second stanza suggests
- m. hot environment
 - n. mixed feelings
 - o. vacation from school
 - p. heightened emotions
- cccccc. In the third stanza, "autumn" may mean all the following EXCEPT
- g. irreconcilable differences waning of feelings
 - h. problem faced by lovers
 - i. falling out of love
 - j. death of the love

Situation 4-

Recall “Harvest”, “May Day Eve” and “Hidden Sea” written by L. Paras-Sulit, Nick Joaquin and Stevan Javellana respectively, then answer the three

- ddddd. In L. Paras-Sulit short story “Harvest”, which people compose this world?
- k. Those constantly in search of beauty
 - l. Those who seek to destroy beauty
 - m. Those who created beauty
- ii. I, II and III c. I and III
- jj. I and II d. II and III
- eeeeee. The theme of Nick Joaquin’s short story “May Day Eve” is .
- a. it is good for a person to love and lose than to not have loved at all
 - b. true love is eternal and permanent
 - c. justice should prevail in every endeavor
 - d. it is foolish and dangerous to base one’s worthy endeavors on superstitious beliefs
- ffffff. The theme of “Hidden Sea” written by Stevan Javallana is .
- k. the good victorious; evil will be punished.
 - l. insatiable greed leads to destruction; therefore man has to strive for simplicity.
 - m. the sea is a mixture of all beautiful things; therefore we have to preserve the sea.
 - n. man is a paradox, a mixture of good and evil; it is only through love that admirable qualities may be manifested.

Situation 5-

Maraming katulad ang buhay ng tao. Ito’y katulad ng putahe na “sweet and sour dish”. May matamis at maasim na lasa. Katulad din ito ng panahon, may mabagyo at maaraw. Nakararanas tayo ng malulungkot na pangyayari at kung minsan ay masasayang karanasan.

Kailangan ay lagi tayong handa. Anuman ang pangyayaring dumating ay dapat nating harapin ng buong tapang, maging ito’y mapait na karanasan. Kung mabagyo ang buhay, lagi nating sabihin ang ganit: Kung kaya nila itong

- gggggg. Ano ang mahalagang pag-uugali ng tao ang pinapahiwatig ng binasang talataan?
- e. Maging makatarungan tayo sa lahat ng bagay, tao at panahon
 - f. Humanda tayo lagi sa mga suliraning darating sa ating buhay.
 - g. Maging positibo tayo sa pag-iisp at pagbibigay pasiya.
 - h. Gawin natin lagi ang magagandang bagay, ang pagtawag at paghingi ng tulong sa Diyos.
- hhhhhh. Saan itinulad ng akda ang ating buhay?
- m. Sa malakas na bagyo
 - n. Sa masarap na putahe
 - o. Sa init at lamig ng panahon
 - p. Sa putahe at sa panahon
- iiiiii. Anu ang pangunahing paksa na inilahad sa talataan?
- m. Harapin ang buhay at isipan ang kasabihang umasa sa Diyos na hindi magpapabaya.

- n. Pagkat kaloob ng Diyos sa tao ang pagdurusa, sikat at suliranin,nariyan Siya upang tao ay damayan.
- o. Harapin nang buong tapang ang buhay na may lungkot ay ligaya, at magtiwala sa Poong Maykapal.
- p. Buong giting na humarap sa buhay mabagyo man o maaraw.

Situation 6-

Ang tunay na pag-ibig ay walang ibinubunga kung hindi ang tunay na ligaya at kaginhawaan. Kainlanpama’t sapin-sapin ang dusang pinapasan ng bayani, at ang kanyang buhay ay nalipos ng karukhaan at lungko, ang dahilan ay sapagkat hindi ang tunay na pag-ibig ang pagbabari kung hindi ang

- jjjjjj. Alin ang hindi bunga batay sa talata?
- e. Karukhaan
 - f. Ligaya
 - g. Kalungkutan
 - h. Karangalan
- kkkkkk. Ang paghihirap ng bayani ay sanhi
- g. diagmaan
 - h. pagkamasarili
 - i. kahinaan ng bayani
 - j. kawalang malay
- llllll. Kung gagamitan ng paghihibla sa mga konsepto na talata, alin ang pinakagitna?
- g. Ligaya
 - h. Kabayanihan
 - i. Pag-ibig
 - j. Kaginhawaan

Situation 7-

The class was asked to design an experiment to test the effect of detergent on fish. One group came up with this experimental design. For detergent they got Tide, Surf and Champion. For fish, they had tilapia, fingerling, goldfish, and baby junior fish contained in different sizes and shapes of bottles. To the tilapia fingerling, they put 1 tbsp of Tide. To the

- mmmmmm. Is there any detect in the experimental design?
- e. Yes, there is, but was compensated for by the use of not only one type of fish.
 - f. Yes, there is, but was remedied by the fact that 3 kinds of detergents were used.
 - g. Yes, not only one but several.
 - h. None, it is simple yet perfect design.
- nnnnnn. How can the experimental design be improved?
- g. Focus on one independent variable at a time, e.g brand of detergent.
 - h. Make use of the same type and size of fish.
 - i. Increase the number of fish and reduce the number of detergent brands involved.
- oooooo. I only c. I and II
- pppppp. I and III d. II only
- qqqqqq. What is the detergent variable?
- rrrrrr. The amount of water
 - ssssss. The effect of detergent fish

tttttt. The amount of detergent
uuuuuuu. The brand of detergent
vvvvvvv. What is defective with the experimental design?
wwwwwww. It is very complicated
xxxxxxx. There is no testable hypothesis
yyyyyyy. There are so many independent variables the effects of which are tested at the same time.
zzzzzzz. There a lot of biases involved.
aaaaaaa. What is the experimental group?
bbbbbbb. The baby junior fish with 1 tbsp of Champion
ccccc. The tilapia with 1 tbsp of Tide
ddddddd. Cannot be determined
eeeeeee. The goldfish with 1 tbsp of Surf
ffffff. What is the control group?
ggggggg. The baby junior fish with 1 tbsp of Champion
hhhhhhh. The tilapia with 1 tbsp of Tide
iiiiiii. The goldfish with 1 tbsp of Surf
jjjjjjj. Cannot be determined

Determination gives you the resolve to keep going in spite of the roadblocks that lay before you.

a. 63 b. 200 c. 22 d. 19
72. The arithmetic mean of a set of 50 meters is 38. If two numbers 45 and 35 are discarded, the mean of the remaining set of numbers is:
a. 37.24 c. 37.0
b. 37.5 d. 36.5
73. If $5x > 0$ which of the following must be TRUE?
a. II only c. I and II
b. II and III d. I only
74. If P is a positive integer in the equation $12p = q$, then q must be a:
a. Positive even integer
b. Negative even integer
c. Positive odd integer
d. Negative odd integer
75. Ikaw ba ang dapat sisihin sa nangyari?
a. Pagsasadula
b. Pagbati
c. Pagbibigay ng impormasyon
d. Pakikipagkapwa
76. Alin sa mga sumusunod ang pinakatamang pangungusap?
a. Ang mga bataan sa lansangan ay naglalaro at nagtatakbuhan sa lansangan
b. Ang mga kabataan ay naglalaro at nagtatakbuhan sa lansangan kung maliwanag ang gabi
c. Ang mga kabataan ay naglalaro kung maliwanagang buwan at nagtakbuhan sa lansanngan
d. Ang mga kabataan kung maliwanag ang buwan ay nagtatakbuhan sa lansangan at naglalaro
77. Kabaliwan at paglulustay ang iyong ginagawa taun-taon. Higit na marami ang maralitang nangailangan ng salapi at duong. Ang nagsasalita ay –
a. Maramot c. Matipid
b. Praktikal d. kuripot
78. Piliin ang gawi pagsasalita: Ayokong sumunod sa mga sinasabi mo.
a. Babala c. Pakiusap
b. Pagtanggì d. Pamungkahi
79. Ikinalulunkot ko ang mga nangyayari.
a. Pagsagot c. Panghula
b. Pagtanong d. Paghingi ng paumanhin
80. Ipinagmamalaki mo siya, BAHAG naman pala ANG kanyang BUNTOT. Ang ibig sabihin ng may malaking itik ay.
a. Mahiyain c. Kuripot
b. Traidor d. Duwag
81. What is the range of the following: 86, 70, 83, 90, 85, 78, 79, 81, 87.

- a. 12 b. 15 c. 16 d. 20
82. Which of the following audio-visual sets of equipment can best project visual materials in a classroom that is difficult to darken?
- a. Filmstrips c. Opaque projector
b. Color materials d. Overhead projector
83. Change the following percents o decimals: 23%, 5%, 3%, 3.5%.
- a. 2.3, 500, .30, 30.5
b. .23, 0.05, .03, 0.035
c. .23, 05, .003, .035
d. .023, 5.00, 3.0, 03.5
84. If the scores of 10 students are: 76, 80, 75, 83, 80, 79, 85, 80, 88,, 90, the mode is
- a. 79 b. 85 c. 80 d. 88
85. A vehicle consumes one liter of gasoline o travel 10 kilometers. After a tune-up, I travels 15% farther on one liter. To the nearest tenth, how many liters of gasoline will it take for the vehicle o travel 230 kilometers?
- a. 23 liters c. 23.15 liters
b. 20 liters d. 20.15 liters
86. If each of the five members in a basketball team shakes hands with every other member of the team before the game starts, how many handshakes will there be in all?
- a. 8 b. 10 c. 6 d. 9
87. How many twenty thousand are there in one million?
- a. 500 b. 50 c. 100 d. 1000
88. What is $\frac{1}{5}$ called a unit fraction?
- a. The unit is less than one
b. The number 5 is the denominator
c. I is between 0 and 1, the basic unit
d. Unit fractions have 1 as the numerator
89. A rectangle has sides of 10 and 12 units. How can the area of a square be computed if it has the same perimeter as the rectangle?
- a. Add 10 and 12, double the sum, divide by 4, then multiply by 4
b. Add 10 and 12, double the sum, divide by 4, then multiply by
c. Add 10 and 12, double the sum, divide by 4, then square the quotient
d. Add 10 and 12, double the sum, the multiply by 4
90. Rabies comes from dog and other bites. How could this prevented?
- a. Tie the dogs at all times
b. Keep the dogs in cage
c. Kill the dog that bites

 - c. Pagtukoy
 - d. Pasasalamat
119. Ikaw naman kasi, nagpahuli ka pa
- a. Pagkontrol ng kilos ka pa
 - b. Paglikha
 - c. Pagbibigay ng impormasyon
 - d. Pagbabahagi ng damdamin
120. Alin sa mga sumusunod maliban sa isa, ay ilan sa mga akdang pampanitikang nagdala ng maling impluwensya sa buong daigdig.
- a. Ang Koran
 - b. Ang Divina Commedia
 - c. Ang Banal na Kasulatan
 - d. Ang Romeo at Julieta
121. Alin sa mga sumusunod ang pinakataamang pangungusap?
- a. Ang pabrikang pinagtrabahuhan nila malapit sa amin ay bago't malaki.
 - b. Ang bago't malaking pabrikang pinagtrabahuhan nila ay malapit sa amin.
 - c. Ang pinagtatrabahuhan nilang malpit sa amin a bago' malaking pabrika
 - d. Ang pabrikang malapi sa amin, bago't malaki ay pinagtatrabahuhan nila.
122. Alin sa sumusunod ang pinakataamang pangungusap?
- a. Nagpapabata ang pulbos sa kutis na Clinique
 - b. Nagpapabata sa kutis ang pulbos ng Clinique
 - c. Nagpapabata ng mukha sa kutis ng pulbos na Clinique
 - d. Nagpapabata sa kutis ng mukha ang pulbos na Clinique
123. Piliin ang gawi ng pagsasalita: Kasiyahan ko nang makitang kayo'y nagmamahalan.

- a. Pangarap
 - b. Pagkontrol ng kilos
 - c. Pagkuha ng impormasyon
 - d. Pagbabahagi ng damdamin
124. Ang kaugnayan ng pagkakapantay kina Burgos, Gomez at Zamora sa panitikang Pilipino ay –
- a. Nanatiling masigla ang diwang Pilipino
 - b. Nakagising saa damdaming makabayan ng mga Pilipino
 - c. Natuong lumabag sa batas at lumaban sa may kapangyarihan ang mga Pilipino.
 - d. Naimpluwensyahan ang diwa alipin ng mga Pilipino
125. Walang tubig kahapon. Ito ay pangungusap na –
- a. Walang pandiwa
 - c. May panaguri
 - b. Walang paksa
 - d. May paksa
126. A computer system is actually made up of actual physical machines known as –
- a. Monitor
 - c. Printer
 - b. Hardware
 - d. Software
127. Which of the following gives the sum of the polynomials $(a^2 + b^2 + ab)$ and $(3a^2 + 4ab - 2b^2)$?
- a. $4a^2 + b^2 + 5ab$
 - c. $3a^2 + 5ab - 2b^2$
 - b. $5a^2 + 5b^2 = 5ab$
 - d. $4a^2 + 5ab - b^2$
128. Of 50 students enrolled in the subject. Curriculum and Instruction 90% took the final examination at the end of the term. Two-thirds of those who took the final examination passed. How many students passed the exam?
- a. 33
 - b. 45
 - c. 34
 - d. 30
129. A cube is a rectangle solid, the length, width and height of which have the same measure called the edge (e) of the cube. The volume of the cube is found by cubing the measure of the edge. What is the volume of the cube whose edge is 4cm?
- a. 27 cm^3
 - c. 206 cm^3
 - b. 64 cm^3
 - d. 125 cm^3
130. "While attempting to explain the role of imitation in language acquisition, investigators studied the different aspects of language development. "An inference which parents may make from this passage is that they should –
- a. Be concerned when a child imitates their language
 - b. Should be unconcerned as imitation is too complex
 - c. Realize that their child's imitations may reflect several aspects of language acquisition
 - d. Realize that their talking may over-stimulate their child's activities
131. If function is defined by set of ordered pair $(1,2), (2,4), (3,8), (4,16), (5,Y)$, then the value of Y is-
If $n < m$ and $a < b$, then _____
- a. $n + a > m + b$
 - c. $n = a$
 - b. $m = b$
 - d. $n + a < m + b$
132. if the scores in a Mathematics test of 45 students are arranged from the highest to the lowest, the 23rd score is the –
- a. mean
 - c. median
 - b. variance
 - d. mode
133. To find perimeter (P) of a rectangle that has a length of 16 inches and width of 12 inches which of the following equation can be used?
- a. $P = 2(16)(12)$
 - c. $P = 2(16) = (12)$
 - b. $P = (16) + (12)$
 - d. $P = 2(16 + 12)$
134. What is the cube root of $(3^2 \times 3)$?
- a. 9
 - b. 3×3
 - c. 27
 - d. 3
135. A vehicle consumes one liter of gasoline to travel 10 kilometers. After a tune-up, it travels 15% farther on one liter. To the nearest tenth, how many gasoline will it take for the vehicle to travel 230 kilometers?
- a. 20.15 liters
 - c. 23.15 liters
 - b. 23 liters
 - d. 20 liters

136. Which of the following is the numerical form for "twenty thousand twenty"?
- a. 2,020
 - c. 20,020
 - b. 2,000,020
 - d. 20,00020
137. How many twenty thousand are there in one million?
- a. 100
 - c. 50
 - b. 500
 - d. 1000
138. Which of the following statements is TRUE of nuclear fission?
- a. The energy process is identical to that which occurs in the sun
 - b. Energy is obtained by getting nucleus of the atoms to break up or split.
 - c. After from the lighter atoms is changed into energy
 - d. Scientists can combine lighter atoms to form heavier atoms.
139. The skull of a person increase in size rapidly during –
- a. Puberty
 - c. Adolescence
 - b. Babyhood
 - d. Adulthood
140. Metabolism and combustion are chemically similar. They both result in the oxidation of some compounds. If completely oxidized which of the following foodstuffs would yield the MOST thermal energy?
- a. A cup of ice cream
 - b. A cup of sugar
 - c. A cup of milk
 - d. A cup of flour
141. In countries where medical skill and a public understanding about health and disease are wide spread, which of the following changes are evident?
- I. Accidental deaths have decreased
 - II. The communicable disease death rate has decreased
 - III. Infant mortality has decreased
 - IV. More people live a full life
 - V. People live long enough to succumb to degenerative disease
- a. I, II, III
 - c. I, II, III, IV, V
 - b. II, III, IV, V
 - d. I, II, III, IV
142. Which of the following parts of the circulatory system carries digested fats away from the intestines?
- a. Pancreatic duct
 - b. Arterial capillaries
 - c. Pulmonary artery
 - d. Lacteals
143. When water evaporates, it changed into which of the following states?
- a. Solid
 - c. Gaseous
 - b. Matter
 - d. Liquid
144. Which of the following statement is NOT TRUE about comets?
- a. Comets are mostly frozen gases and cosmic dust
 - b. Comets glow by their own light
 - c. Comets generally have elongated, elliptical orbits
 - d. Comets may go around the sun in any direction
145. A British physician and bacteriologist, Sir Ronald Ross was awarded the Nobel Prize in medicine for his researches in the –
- a. Liquid fuel rocket
 - b. Prevention of hepatitis
 - c. Transmission of malaria
 - d. Control of cholera
146. A thermometer measures
- a. Energy
 - c. Pressure
 - b. Heat
 - d. Temperature
147. Which of the following forms of energy travels in waves?
- a. Chemical energy

- b. Sound energy
 - c. Mechanical energy
 - d. Electrical energy
148. The history of the earth has been divided by scientists into eras. Which of the following shows the arrangement of these eras into proper sequence from the oldest to the most recent?
- a. Precambrian, Mesozoic, Cenezoic, Paleozoic
 - b. Paleozaoic, Cenozoic, Precambrian,
 - c. Cenozoic, Mesozoic, Paleozoic, Precambrian Mesozoic
 - d. Precambrian, Paleozoic, Mesozoic, Cenozoic
149. Which of the following is closes to normal body temperature?
- a. 32 degrees F
 - b. 50 degrees C
 - c. 212 degrees F
 - d. 37 degrees C
150. A change in the composition of a substance resulting in the formation of a new substance is called.
- a. Nuclear change
 - b. Mechanical change
 - c. Physical change
 - d. Chemical change

EXAM DRILL II – GEN. ED.

ANSWER KEY:

1. Army men who are rescued from insurgent kidnap undergo medical check-up. Why is this done?
A. To protect the prisoner from further harassment...

1. C
2. D
3. D
4. C
5. A
6. B
7. C
8. C
9. D
10. B
11. B

Licensure Examination for Teachers (LET)

Refresher Course

PART I: Content Update

I. PROPERTIES OF NUMBERS

A. SETS OF NUMBERS

Real Numbers (R)

0, -1, $\sqrt{2}$, -2, 0, 1, π , $\sqrt{21}$, 5

Rational Numbers (Q)

-9, -2, 0, 1, $\frac{1}{5}$

Irrational Numbers (H)

— —

Integers (Z)

... -3, -2, -1, 0, 1, 2, 3 ...

Non-Integers

2, 1

Negative Integers

Whole Numbers (W)

Zero

Natural Numbers (N)

The Real Number System

Set	Definition
Real Numbers (R)	- All numbers that we encounter everyday - Consist of rational and irrational numbers

WHAT TO EXPECT

FOCUS: GENERAL EDUCATION

AREA: MATHEMATICS

LET Competencies:

- Properties of Numbers
- Number Theory
- Integers
- Fractions and Decimals
- Operations with whole numbers, decimals, fractions and decimals
- Ratio and Proportion
- Percents
- Measurement
- Plane and Solid Geometry

Rational Numbers (Q)

- Numbers that can be expressed as the quotient or ratio of two *integers* *a* and *b*, represented as $\frac{a}{b}$, where *b* ≠ 0
- Have a specific place on the number line.
- Can be written as terminating (e.g. 1.75, 2.5) or repeating decimals (e.g. 0.1111..., 2.090909...)

Subsets

Definition

Natural Numbers (N)

- Consist of the numbers 1, 2, 3,

Whole Numbers (W)

- Consist of the natural numbers and zero

Integers

- Consist of the natural numbers, their negatives, and zero

Irrational Numbers (H)

- Numbers that cannot be expressed as fractions
- Have decimal representations that are *non-terminating* and *non-repeating*

B. THE ORDER OF OPERATIONS

When performing multiple operations, remember

PEMDAS:

- P** Parentheses (grouping symbols)
- E** Exponents
- MD** Multiply and divide from left to right
- AS** Add and subtract from left to right

C. NUMBER PROPERTIES

Property	Definition	Examples
Closure Property	When we add or multiply any element in a set of numbers, the sum or product is a unique real number which belongs to that same set.	$14 + 25 + 44 + 52 = 135$ $23 \times 14 \times 10 = 3\,220$
Commutative Property	states that changing the position of the addends or the factors does not affect the sum or the product	$33 + 10 = 10 + 33$ $18 \times 9 = 9 \times 18$
Associative Property	states that changing the grouping of addends in a sum or the grouping of factors in a product does not change the resulting sum or product	$(5 + 6) + 7 = 5 + (6 + 7)$ $2 \times (4 \times 6) = (2 \times 4) \times 6$
Identity Property	Addition - The sum of any number and zero is the same number. 0 is the identity.	$512 + 0 = 512$
	Multiplication - The product of any number and one is the same number. 1 is the identity	$512 \times 1 = 512$
Distributive Property of Multiplication over Addition /Subtraction	states that multiplication distributes over addition and subtraction	$7(9 + 12) = 7(9) + 7(12)$

Methods in Finding the Prime Factors of a Given Number	
Factor Tree Method	Continuous Division Method
56 7 8 2 4 2 2 56 = 7 x 8 = 7 x (2 x 4) = 7 x 2 x 2 x 2	2 56 2 28 2 14 7 56 = 7 x 8 = 7 x (2 x 4) = 7 x 2 x 2 x 2

II. NUMBER THEORY

A. DIVISIBILITY RULES

Divisible by	Rule
2	If the number is an even number
3	If the sum of all individual digits in the number is divisible by 3
4	If the last two digits of the number is divisible by 4
5	If the last digit of the number is 0 or 5
6	If the number is even and is divisible by 3
7	Double the last digit. Subtract the doubled last digit from the number without the last digit. If the difference is a multiple of 7, then it is divisible by 7.
8	If the last three digits of the number is divisible by 8
9	If the sum of the individual digits in the number is divisible by 9
10	If the last digit of the number is 0
11	If after subtracting and adding the digits successively the result is divisible by 11

B. FACTORS and MULTIPLES

- ❖ The **factors** of integer *n* are the positive integers that divide *n* evenly without remainder.
Ex: factors of 24: 1, 2, 3, 4, 6, 8, 12, 24
- ❖ The **multiples** of *n* are the integers that *n* divides without any remainder.
Ex: multiples of 7: 7, 14, 21, 28, 35...

C. PRIME and COMPOSITE NUMBERS

- ❖ Prime Numbers – counting numbers that have exactly two distinct, positive divisors
e.g. 2, 3, 5, 7, 11, 13, 17, 19 ...
- ❖ Composite Numbers – counting numbers greater than 1 that have positive factors other than 1 and itself
e.g. 4, 6, 8, 10, 12, 14, 15, 16...

Prime Factorization

→expressing a number as a product of factors, each of which is a prime number

D. GCF and LCM

❖ Greatest Common Factor (GCF)

→Refers to the largest common factor of two or more numbers

Ex: Find the GCF of 45 and 60

METHODS	
Intersection of Sets	
For each of the given numbers, list their factors in ascending order, and pick out the factor that is common to both lists. Factors of 45 → {1, 3, 5, 9, 15, 45} Factors of 60 → {1, 2, 3, 4, 5, 6, 10, 12, 15, 20, 30, 60} Common Factors → {1, 3, 5, 15} GCF → 15	
Prime Factorization	Repeated Division by Primes
45 → 3 · 3 · 5 60 → 2 · 2 · 3 · 5 GCF → 3 · 5 = 15	3 45 60 5 15 20 3 4 The resulting quotients, 3 and 4 have no common factors. Therefore, the GCF of 45 and 60 is the product of their common factors: (3)(5) = 15 GCF → 15

❖ Least Common Multiple (LCM)

→ Refers to the smallest number that two or more numbers will divide without remainder

Ex: Find the LCM of 18 and 20

METHODS
Intersection of Sets
For each of the given numbers, list their multiples in

ascending order, and pick out the smallest non-zero multiple that is common to both lists.

Multiples of 18 $\rightarrow \{18, 36, 54, 72, 90, 108, 126, 144, 162, \mathbf{180}, 198, \dots\}$

Multiples of 20 $\rightarrow \{20, 40, 60, 80, 100, 120, 140, 160, \mathbf{180}, 200\}$

Common Multiple $\rightarrow$ **180**

LCM $\rightarrow 180$

Prime Factorization	Repeated Division by Primes												
Write the prime factorization for each of the given numbers in such a way that common, and only common, prime factors are in the same column. The LCM is the product of the highest powers occurring in a column of any of the prime factorizations. $18 = 2 \cdot 3^2$ <u>$20 = 2^2 \cdot 5$</u> $2^2 \cdot 3^2 \cdot 5$ $LCM = 180$	<table><tr><td>2</td><td>18</td><td>20</td></tr><tr><td>2</td><td>9</td><td>10</td></tr><tr><td>3</td><td>3</td><td>5</td></tr><tr><td></td><td>3</td><td>5</td></tr></table> $LCM \rightarrow 2 \cdot 2 \cdot 3 \cdot 3 \cdot 5$ $\rightarrow 180$	2	18	20	2	9	10	3	3	5		3	5
2	18	20											
2	9	10											
3	3	5											
	3	5											

III. INTEGERS

- ❖ **Integers** – refer to the set of whole numbers and their opposites
- ❖ **Absolute Value** – the number of units a number is away from 0 in a number line

Ex: $|-7| = 7$

❖ Integer Operations

Operation	Like Signs	Unlike Signs
Addition	Add the integers and keep the sign. Examples: $5 + 3 = 8$ $(-6) + (-10) = -16$	Subtract the integers and take the sign of the integer with the largest absolute value. Examples: $7 + (-4) = 3$ $(-9) + 4 = -5$
Subtraction	Change the sign of the subtrahend, and then proceed to addition. Examples: $4 - (-6) = 4 + 6$ $4 + 6 = 10$	$(-9) - (-5) = (-9) + 5$ $(-9) + 5 = -4$

Multiplication and Division	If the signs of the factors or dividend/divisors are the same, the product/quotient is positive.	If the signs are different, the product/quotient is negative.
	Examples:	Examples:
	$(3)(7) = 21$	$(-9)(5) = -45$
	$(-32) \div (-8) = 4$	$100 \div (-10) = -10$

Part I: Analyzing Test Items (*Properties of Numbers and Number Theory*)

- The number 0.123123123123..... is
 - Integer
 - Rational
 - Irrational
 - Non-Integer
- What is the difference between the largest prime number and smallest prime number between 50 and 90?
 - 33
 - 34
 - 35
 - 36
- Which of the following is NOT a multiple of 4 and 6?
 - 12
 - 32
 - 48
 - 60
- Find the sum of all prime numbers less than 12.
 - 10
 - 17
 - 28
 - 29
- The difference between the largest factor and the smallest factor of 150 is
 - 75
 - 80
 - 149
 - 150
- Find the least quantity of honey that can be put exactly into two liter, four liter, six liter or eight liter bottles.
 - 12
 - 24
 - 36
 - 48
- A man has 152 g and 140 g of peanuts which he wishes to put into boxes. Each box should hold same number of grams and largest number possible. How many grams can he put into each box?
 - 4
 - 5
 - 35
 - 38
- If q is a positive integer in the equation $6q = p$, then p must be a:
 - positive even integer
 - negative even integer
 - positive odd integer
 - negative odd integer
- If a^2 is an even number, which of the following statement is TRUE?
 - a is even
 - a^3 is even
 - $a^2 + 1$ is even
 - $a + 2$ is even
 - I and II only
 - I, II and IV
 - III only
 - III and IV only
- What is the smallest positive integer that has factors of 3, 4, 5 and 6?
 - 180
 - 150
 - 120
 - 60

PART II: Enhancing Test Taking Skills

1. Find the value of N: $[36 \div (64 \div 16 \times 2 + 1)] - 3 = N$
A. 9 B. 8 C. 2 D. 1
2. A blue neon light blinks every four seconds; a red one blinks every five seconds while a green one blinks every 6 seconds. How many times will it blink together in one hour?
A. 150 B. 120 C. 90 D. 60
3. Maria has 90 sweets, 34 chocolate bars and 65 tins of soft drink. She prepares some gift bags which contain 5 sweets, 2 chocolate bars and 5 tins of soft drink each. What is the maximum number of gift bags she can make?
A. 13 B. 17 C. 18 D. 22
4. In a group of students, 5 are boys. If each boy weighs 42 kg. and girl weighs 38 kg. Calculate the total mass of 13 students in kg.
A. 514 B. 541 C. 526 D. 562
5. Which of the following is a multiple of 3, 4, 5 and 8?

- A. 240

B. 120

C. 80

D. 60
6. Find the sum of all composite numbers less than 13.

A. 18

B. 27

C. 39

D. 40
7. How many numbers are multiples of 8 between 80 and 120?

A. 2

B. 3

C. 4

D. 5
8. Which of the following is the GCF of 36 and 60?

A. 12

B. 14

C. 18

D. 20
9. A man has two trees he wishes to cut into logs of equal length. If the trees are 84 dm. and 96 dm. long, and are cut into the longest possible logs, what is the length of the log?

A. 7 dm

B. 8 dm

C. 12 dm

D. 15 dm.
10. Given $(x - 4)$ is the greatest common factor of 12 and 20. Find the value of x ?

A. 0

B. 4

C. 8

D. 12

IV. FRACTIONS

❖ Fractions

→ A number whose value can be expressed as the quotient or ratio of *any two numbers* **a** and **b**, represented as $\frac{a}{b}$, where **b** ≠ 0. It is a part of a whole or a set.

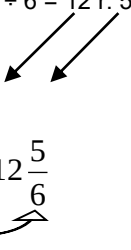

❖ Reducing Fractions to Lowest Terms

Divide the numerator and the denominator by its GCF.

Example:

$\frac{18}{24} \div \frac{6}{6} = \frac{3}{4}$

❖ Conversions

Mixed Number to Improper Fraction	Improper Fraction to Mixed Number
1. Multiply the denominator to the whole number. 2. Add the product to the numerator. 3. The sum is the new numerator, then copy the same denominator. Example: $3\frac{1}{3} = (3 \times 3) + 1 =$ 10 → new numerator  $3\frac{1}{3} = \frac{10}{3}$	1. Divide the numerator by the denominator. 2. The quotient is the whole number for the mixed number. 3. The remainder is the new numerator over the same denominator. Example: $\frac{77}{6} = 77 \div 6 = 12 \text{ r. } 5$  $\frac{77}{6} = 12\frac{5}{6}$

❖ FRACTION OPERATIONS

A. Addition and Subtraction

a. Of Similar Fractions:

→ Just add/subtract the numerators and copy the denominator.

Examples:

$\frac{2}{7} + \frac{4}{7} = \frac{6}{7}$ $\frac{5}{8} - \frac{2}{8} = \frac{3}{8}$

b. Of Dissimilar Fractions:

→ Convert the fractions first to similar fractions. Then add/subtract the numerators and keep the denominators. Reduce to lowest terms if necessary.

Changing Dissimilar Fractions to Similar Fractions

→ Find the LCM of the denominators involved (hence called Least Common Denominator or LCD). Divide the LCD by each of the denominators, and then multiply each quotient to their corresponding numerators.

Examples:

$\frac{3}{5} + \frac{1}{6} = \frac{18 + 5}{30} = \frac{23}{30}$

The LCD of 5 and 6 is 30

$30 \div 5 \times 3 = 18$

$\frac{6}{8} - \frac{1}{7} = \frac{42 - 8}{56} = \frac{34}{56}$ or $\frac{17}{28}$

The LCD of 7 and 8 is 56

$56 \div 8 \times 6 = 42$

B. Multiplication of Fractions

→ Simply multiply the numerators, and multiply the denominators. Reduce the product to lowest terms, if necessary.

Example:

$\frac{3}{4} \times \frac{8}{9} = \frac{24}{36}$
 $\frac{24}{36} \div \frac{12}{12} = \frac{2}{3}$

C. Division of Fractions

→ Take the first fraction and multiply it by the reciprocal of the second fraction.

Example:

$\frac{5}{8} \div \frac{3}{2} = \frac{5}{8} \times \frac{2}{3} = \frac{10}{24}$
 $\frac{10}{24} \div \frac{2}{2} = \frac{5}{12}$

❖ Complex Fractions

→ Fractions whose numerator and/or denominator is/are also fraction/s

→ To simplify these fractions, remember that the fraction bar means to divide. Rewrite the fraction as a division problem, and follow the procedure for dividing fractions.

Example:

Simplify $\frac{8}{15} \cdot \frac{4}{4}$.

$$\frac{\frac{8}{15}}{4} = \frac{8}{15} \div 4$$

$$= \frac{8}{15} \times \frac{1}{4} = \frac{8}{60} \text{ or } \frac{2}{15}$$

V. DECIMALS

<i>Hundred Thousands</i>	<i>Ten Thousands</i>									<i>Ten Thousands</i>	<i>Hundred Thousands</i>
100, 000	10, 000	1, 000	100	10	1	0	0.1	0.	0.0	0.0	0.00 001

A. CONVERSIONS

Decimal to Fraction / Mixed Number	Fraction to Decimal	Mixed Number to Decimal
Simply use the place value and then reduce to lowest terms, if necessary.	Recognize that a fraction bar means 'to divide'. Thus, to change a fraction to a decimal, simply divide the numerator by the denominator.	Separate and keep the whole number part (this is the number to the left of the decimal point). Then divide the fractional part as described on the left.
Example: $ \begin{array}{r} 18.6 = 18 \\ + 0.6 \\ = 18 \\ + \left(\frac{6}{10} \right) \\ = 18 \\ + \left(\frac{3}{5} \right) \\) \\ 18.6 = 18 \\ \frac{3}{5} \end{array} $	Example: $ \begin{array}{r} \frac{6}{15} \\ = 6 \div 15 \\ \frac{6}{15} \\ = \\ 0.4 \end{array} $	Example: $ \begin{array}{r} 12\frac{3}{4} = 12 + \frac{3}{4} \\ = 12 + (0.75) \\ 12\frac{3}{4} = \\ 12.75 \end{array} $

B. DECIMAL OPERATIONS

a) Addition and Subtraction

→ Make sure to **LINE UP** the decimal points first. Add trailing zeroes if necessary to avoid careless mistakes. Then perform the indicated operation.

b) Multiplication

Steps:

1. Multiply the numbers without regard to the decimal point to obtain a whole number product.
2. Count the number of digits that are to the right of the decimal point of BOTH factors.
3. Alter the whole number product to have the same number of digits to the right of the decimal point, as counted in step 2.

c) Division

Steps:

1. Set up the long division problem.
2. Count how many digits there are to the right of the decimal point in the divisor.
3. Move the decimal point in the dividend with the amount from step 2.
4. Raise the newly placed decimal point up to the quotient.
5. Divide as usual, as if there were no decimal points.

PART I: Analyzing Test Items (*Fractions and Decimals*)

1. There are 300 members in Math wizards club, $\frac{2}{3}$ of them are freshmen, $\frac{1}{5}$ are sophomores and the rest are juniors. How many members of Math wizards club are juniors?
A. 40
B. 50
C. 60
D. 260
2. If a fraction is divided by $1\frac{1}{4}$ and then subtracted from $2\frac{1}{2}$ gives the result of $1\frac{7}{10}$, what is the value of the fraction?
A. 1
B. $1\frac{1}{2}$
C. $1\frac{3}{4}$
D. 2
3. During Holy week, $\frac{1}{4}$ of the office workers went out of town, $\frac{3}{5}$ stayed at home while the rest, numbering 9, had to work overtime. How many total office workers are there?
A. 60
B. 80
C. 90
D. 100
4. A freshmen class of 40 girls and 80 boys sponsored an acquaintance party. If $\frac{3}{5}$ of the girls and $\frac{3}{4}$ of the boys attended the party, how many freshmen attended the party?
A. 60
B. 72
C. 84
D. 96
5. If the price of round trip fare to Pagsanjan, Laguna is Php 315, how much will it cost a family of four if husband pays full fare, the wife pays $\frac{2}{3}$ of full fare, and the two children each pay $\frac{1}{2}$ the regular price?
A. P945
B. P840
C. P787.50
D. P760
6. A cell phone costs Php 12 250.75 and the price drops Php 876.88 every month, what is the price of the cell phone after 3 months?
A. P12,250.11
B. P11,373.87
C. P10,496.99
D. P9620.11
7. A number divided by 0.312 is 100. What is the number?
A. 0.312
B. 3.120
C. 31.20
D. 312.0
8. Jack is 52.12 kg and Jill is 3.86 kg lighter than Jack, what is the weight of Jill?
A. 55.98
B. 48.62
C. 48.26
D. 46.16
9. A utility worker earns P 8000.56 a month. If P 150.75 is deducted for GSIS and P 87.50 for withholding tax, how much is his take-home pay?
A. P7762.13
B. P7762.31
C. P7761.23
D. P7761.32

10. Henry’s car odometer read, 7 654.7 km at the beginning of his trip. If it read, 8 581.03 km upon his return, How many kilometres did he cover?
- A. P929.30 B. P929.33 C. P926.33 D. P926.30

PART II: Enhancing Test Taking Skills

1. A bottle $\frac{5}{9}$ full of oil. Pete took 45 mL and it was then $\frac{1}{2}$ full. How many mL does the bottle hold when full?
- A. 162 B. 450 C. 810 D. 900
2. What fraction is half the sum of $\frac{5}{7}$ and $\frac{3}{5}$?
- A. $\frac{2}{3}$ B. $\frac{4}{35}$ C. $\frac{8}{23}$ D. $\frac{23}{35}$
3. If $\frac{2}{5}$ of x is 20, what is $\frac{3}{10}$ of x?
- A. 9 B. 12 C. 15 D. 18
4. Kaye spent $\frac{1}{5}$ of her money in one store. In the next store she spent three times as much as she spent in the first store, and 60 pesos left. How much money did she have at the start?
- A. P240 B. P270 C. P300 D. 320
5. A farmer owns $\frac{3}{5}$ hectares of land. After selling $\frac{1}{4}$ of his share, how many hectares of land did the farmer still owns?
- A. $\frac{4}{9}$ B. $\frac{3}{20}$ C. $\frac{2}{5}$ D. $\frac{9}{20}$
6. A gas tank of Mr. Reyes car is $\frac{5}{8}$ full. If he used $\frac{2}{5}$ of this amount travelling from his house to his province, what part of the tank has gas?
- A. $\frac{3}{8}$ B. $\frac{7}{40}$ C. $\frac{7}{15}$ D. $\frac{7}{13}$
7. Mr. Lee bought 6 bottles of mineral water and each bottle has 1.35 liters of water. If he drinks 0.85 liters everyday for a week, what is the volume of water remaining after a week?
- A. 4.15 B. 3.15 C. 2.15 D. 1.15
8. The share of market index was 869.3 on Monday. The index dropped by 38.6 on Tuesday and rose 16.48 on Wednesday. Find the final index on Wednesday before closing.
- A. 847.18 B. 847.81 C. 874.18 D. 874.81
9. A shirt pattern requires 22.5 dm of cloth. If a tailor has 65.25 meters of cloth available, how many shirts can be made?
- A. 3 B. 2.9 C. 29 D. 30
10. Two decimals are in the ratio 2:3. If their sum is 62.5, find the two numbers.
- A. 20 & 42.5 B. 22 & 40.5 C. 25 & 37.5 D. 28 & 34.5

VI. RATIO and PROPORTION

Ratio	Rate	Proportion
A comparison of two or more amounts or quantities, such as a and b, which can be expressed in the following equivalent ways: $a:b, a/b, \frac{a}{b}$	Refers to a ratio whose two amounts represent different quantities Examples: 35 mi/h, 5 m/s	An equation or statement that expresses the equality of two ratios. May be expressed as: 1) $\frac{a}{b} = \frac{c}{d}$, or 2) $a : b = c : d$ In each form, b and c are called means , and a and d are called extremes .

Extremes-Means Property:

→ In any proportion, the product of the means is equal to the product of the extremes.

From $\frac{a}{b} = \frac{c}{d}$ or $a : b = c : d$, we get $ad = bc$

❖ Finding the Missing Terms of a Proportion

→ To find the missing term of a proportion, use the Extremes-Means Property and solve for the unknown.

Example:

$4 : x = 8 : 10$

$(8)(x) = (10)(4)$

$8x = 40$

$x = 5$

❖ TYPES OF PROPORTIONS

A. Direct Proportion

→ As one quantity increases, the other also increases.

Example:

If 4 kg of mangoes cost as much as 3 kg of guavas, how many kg of mangoes would cost as much as 75 kg of guavas?

Solution:

Equate the ratio of the terms in the first condition to the ratio of the terms in the second condition. So, we have:

First Condition	Second Condition
-----------------	------------------

$\frac{4 \text{ kg of mangoes}}{3 \text{ kg of guavas}} = \frac{n \text{ kg of mangoes}}{75 \text{ kg of guavas}}$

Using the Extremes-Means Property, solve for the unknown.

$n = \frac{(4 \text{ kg of mangoes})(75 \text{ kg of guavas})}{3 \text{ kg of guavas}}$

$n = 100$

Answer: **100 kg of mangoes would cost as much as 75 kg of guavas.**

B. Inverse Proportion

→ As one quantity increases, the other quantity decreases, and vice versa.

Example:

If the food in a crate is sufficient to feed 15 castaways in 14 days, how many days would it last for 30 castaways?

Solution:

Equate the product of the terms in the first condition to the product of the terms of the second condition. So, we have:

First Condition

(15 castaways)(13 days)

=

Second Condition

(30 castaways)(n days)

$$n = \frac{(15 \text{ castaways})(14 \text{ days})}{30 \text{ castaways}}$$
$$n = 7$$

Answer: The food supply will last for only 7 days for 30 castaways.

C. Partitive Proportion

→ One quantity is being partitioned into different proportions.

Example:

A piece of wood 150 cm long is cut in the ratio 2:3:5. Find the measure of each part.

Solution:

1. Add the terms of the ratio.

$$2 + 3 + 5 = 10$$
2. Divide the whole measure that was partitioned by the sum of the terms.

$$150 \text{ cm} \div 10 = 15 \text{ cm}$$
3. Multiply the quotient to each term of the ratio to find the measure of each part.

$$2 (15 \text{ cm}) = 30 \text{ cm}$$
$$3 (15 \text{ cm}) = 45 \text{ cm}$$
$$5 (15 \text{ cm}) = 75 \text{ cm}$$

Answer: The measures of the cut parts of wood are 30 cm, 45 cm, and 75 cm.

❖ APPLICATIONS INVOLVING RATIOS and PROPORTIONS

A. Scales

When working with scale models, the scale is often given as the ratio:

$$\text{model measurement} : \text{actual measurement}$$

Example:

If the scale model of a boat measures 6 inches and the model has a scale of 1:20,

what is the actual measurement of the boat?

Solution:
$$\frac{\text{model length}}{\text{actual length}} = \frac{1}{20} = \frac{6}{x}$$

$$\frac{1}{20} = \frac{6}{x}$$

$$x = 120$$

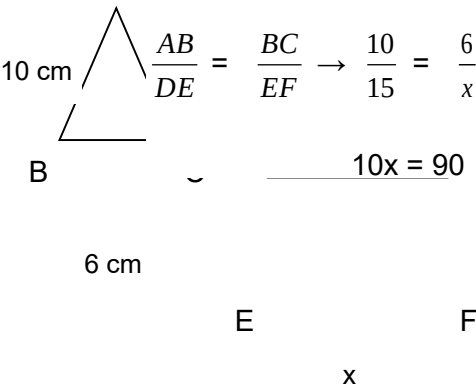

Answer: The actual measurement of the boat is 120 in., or 10 ft.

B. Similarity

- When figures have corresponding sides that are in proportion with one another and corresponding angles with the same measure, the figures are similar.
- Proportions can be used to determine that figures are similar, and calculate the missing part/s of known similar figures
- Example:

Find the missing side of the larger triangle. D

A Solution:

Answer: The measure of the missing side of the larger triangle is 9 cm.

VII. PERCENTS

❖ Percent

→ Literally meaning ‘per hundred’, it refers to a special ratio that compares a numerical quantity to 100.

❖ CONVERSIONS

Between Decimals and Percents	Between Fractions and Percents
A. <u>Percent to Decimal</u> → Remove the percent symbol (%) and move the decimal point two places to the left.	A. <u>Percent to Fraction</u> → Use the proportion $\frac{x}{100} = \frac{a}{b}$, and cross-multiply to solve for the variable x.
B. <u>Decimal to Percent</u> 1. Multiply the decimal by 100; or 2. Move the decimal point two places to the right and write a percent	B. <u>Fraction to Percent</u> → Remove the percent symbol (%) and multiply the number by $\frac{1}{100}$.

of 250

symbol	
--------	--

❖ PERCENTAGE, BASE, and RATE

Percent Formula:
Part = Percent x Whole
Remember, in Mathematics:
▪ "Of" usually means multiply.
▪ "Is" usually means equals.

75 is 30%

Percentage (P)

(the number usually before

Formulas:

$P = R \times B$

$$R = \frac{P}{B}$$
$$= \frac{P}{R}$$

❖ APPLICATIONS INVOLVING PERCENT

A. Percent Increase or Decrease

→ To increase a number by a certain percent,
(1) add 100% to the given percent, (2)
convert the sum to a decimal, and (3)
multiply the number by that decimal.
Example: increase 40 by 45%
Solution: $45\% + 100\% = 145\% = 1.45$
 $40 \times 1.45 = 58$

B. Simple Interest Rate

$I = Prt$

Example:
If Cedric borrows P15,000 at an interest
rate of 17% for 18 months, how much will
he have paid in simple interest at the end
of the 18 months?
Solution:
 $P \rightarrow P15,000$
 $r \rightarrow 17\%$
 $t \rightarrow 18 \text{ months} = 1.5 \text{ years}$

Answer: At the end of 18 months, Cedric will
pay **P3,825** in simple interest.

C. Compound Interest

To compute for compound interest:

- Use the simple interest formula, $I = Prt$, where t is the period of time for compounding.
 - Add the interest to the principal to create a new value for the principal
 - Continue the first and second steps until the entire period is covered
- The interest on an investment is reflected every
- 3 months if compounded quarterly
 - 2 months if compounded bimonthly

Example:
What is the interest on P100,000 borrowed for 4
years at 16% interest rate per year
compounded annually.
Solution:
Compute the compound interest at the end of
each year.
After year 1: $P100,000 \times 0.16 = P16,000$
After year 2: $(P100,000 + P16,000) \times 0.16 = P18,560$
After year 3: $(P116,000 + P18,500) \times 0.16 = P21,529.60$
After year 4: $(P134,560 + P21,529.60) \times 0.16 = P24,974.34$
Total Interest after 4 years = $P16,000 + P18,560 + P21,529 + P24,974 = \mathbf{P81,063.94}$

D. Discount

D → Discount

$D =$
 $N = P \rightarrow$ marked p

Base (B)

(the number usually before

Example:
Find the net price and discount on a product
with marked price of P120 at a discount rate of
70%.
 $P \rightarrow P15,000$
 $r \rightarrow 70\%$

PART I: Analyzing Test Items (Ratio, Proportion and Percent)

1. In an office the ratio of male employee to female employee is 1:3. If there 12 male employees, how many employees are in that office?
A. 16 B. 36 C. 40 D. 48
2. How many words can be formed using the letters of the word "MATHS" if each letter is used only once?
A. 120 B. 240 C. 360 D. 480
3. Two numbers are in the ratio 3:4. If the sum is 120, find the two numbers.
A. 30:90 B. 40:100 C. 45:75 D. 50:70
4. A 135 – meter piece of string is divided into 3 parts in the ratio $1\frac{1}{2} : 2\frac{1}{4} : 3$, what is the measure of the longest piece?
A. 40 B. 60 C. 80 D. 100
5. Two numbers are in the ratio 4:7. If the difference between two numbers is 48, find the two numbers.
A. 32 & 80 B. 48 & 96 C. 60 & 48 D. 64 & 112
6. Six pumps can fill a tank in 28 minutes. How long will 4 pumps of the same kind can fill a tank?
A. 18 B. 20 C. 24 D. 60

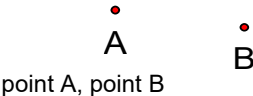

9. An amount of P 18,500 was requested for the purchase of office supplies. How much was released if 15% of the amount requested was not granted
A. P13490 B. P14260 C. P15640 D. P15725
10. Last year, the bus fare for Alex was P 480 per month. This year, the new bus fare is 520 per month. Find its percentage increase of bus fare?
A. 8.33% B. 8 1/3 % C. 7.33% D. 7 1/3 %

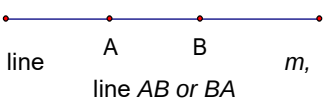

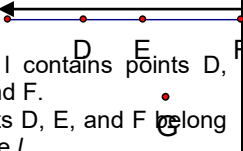

PART II: Analyzing Test Items

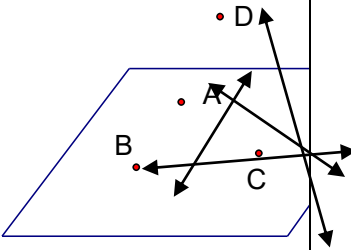

1. If 8 men can do a certain job in 12 days, how many men will be required to do the same job in 16 days?
A. 6 B. 7 C. 8 D. 9
2. A basketball player shoots 3 times out of 4 attempts at the free – throw line. How many shots can he make out of 36 attempts at the free – throw line?
A. 20 B. 24 C. 27 D. 30
3. In a certain map 1/4 of an inch represent ten miles of actual distance. If two barrios are 2 inches apart in the map, the actual distance between them is:
A. 20 B. 40 C. 60 D. 80
4. I have enough money to have a vacation of 12 days if I spend P500 a day. For how many days will my money last if I decide to spend only P400 a day?
A. 9 B. 10 C. 15 D. 18
5. The ratio of male to female students in a year level is 12 : 7. If there are 60 more males than females, how many students are there in a year level?
A. 282 B. 228 C. 210 D. 198
6. Three similar lamps use 4 liters of oil in 80 hours. How much oil will 6 lamps of the same kind use in 40 hours?
A. 4 B. 5 C. 6 D. 8
7. The product of two whole number is 48, and their ratio is 1:3. Which is the smaller number?
A. 3 B. 4 C. 6 D. 8
8. What percent 8 is 3/5 of 12?
A. 66 2/3% B. 72% C. 80% D. 90%
9. If P12,000 is invested at 12% simple interest. What is the amount at the end of two years?
A. P14,880 B. P14,400 C. P9,920 D. P9,120
10. Niko spent 25% of his money on pair of socks, 20% of it on a Sudoku puzzle and P50 on a snack. If he had P82 left, how much money did he start with?
A. P240 B. P280 C. P320 D. P360

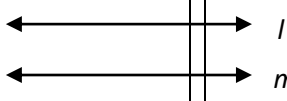

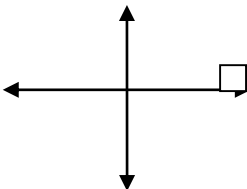

VIII. PLANE GEOMETRY

A. BASIC NOTIONS

LINEAR NOTIONS		
Term	Definiti on	Illustration
Point		 point A, point B
Line		

		
Collinear Points	Points that lie on the same line	 Line l contains points D, E, and F. Points D, E, and F belong to line l. Points D, E, and F are collinear. Point D, E, and G are not collinear.
Line Segment	A subset of a line that contains two points of the line and all points between those two points	
Ray	A subset of a line that contains the endpoint and all points on the line on one side of the point.	

PLANAR NOTIONS		
Term	Definit ion	Illustration
Coplanar Points	Points that lie in the same plane	
Coplanar Lines	Lines that lie in the same plane	
Intersecting Lines	Two coplanar lines with exactly one point in common.	
Concurrent Lines	Lines that contain the same point	

Skew Lines	Lines that do not intersect, and there is no plane that contains them	Lines AC, BC, and DC are <i>concurrent</i> . Lines AB and CD are <i>skew lines</i> .
Parallel Lines	Two distinct coplanar lines that have no points in common.	 l is parallel to m , written as $l \parallel m$.
Perpendicular Lines	Lines in the same plane that intersect at one point and form four 90° angles.	

	Ex: $\angle 1 \cong \angle 4$; $\angle 2 \cong \angle 3$; $\angle 5 \cong \angle 8$; $\angle 6 \cong \angle 7$
Corresponding Angles	Two angles on the same side of the transversal in the interior of the parallel lines, the corresponding angles are congruent. Ex: $\angle 1 \cong \angle 5$; $\angle 2 \cong \angle 6$; $\angle 3 \cong \angle 7$; $\angle 4 \cong \angle 8$
Alternate Interior Angles	Two angles on different sides of the transversal in the interior of the parallel lines Ex: $\angle 3 \cong \angle 6$; $\angle 4 \cong \angle 5$
Alternate Exterior Angles	Two angles on different sides of the transversal in the exterior of the parallel lines Ex: $\angle 1 \cong \angle 8$; $\angle 2 \cong \angle 7$

C. POLYGONS
❖ Polygon

- A simple and closed geometric figure which have sides that are line segments
- A point where two sides of a polygon meet is a **vertex**.

❖ TRIANGLES

B. OTHER NOTIONS

❖ Angle

→ An **angle** is formed by two distinct rays sharing the same endpoint.

a. Classification of Angles

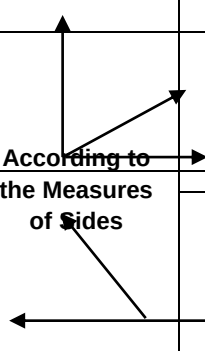

Acute Triangle

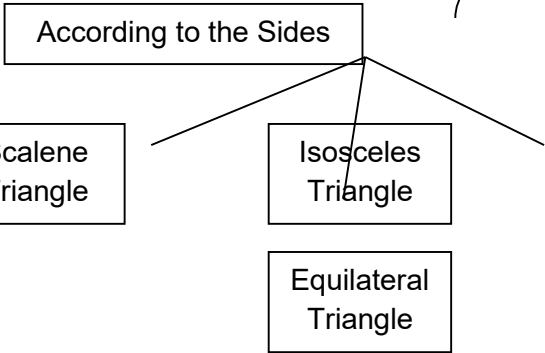

Right Triangle

Obtuse Triangle

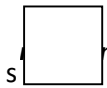

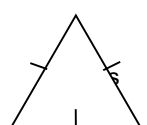

Type of Angle	Description
Acute	Measure is between 0° and 90°
Right	Measures exactly 90°
Obtuse	Measure is between 90° and 180°
Straight	Measures exactly 180°

b. Special Angle Pair Relationships

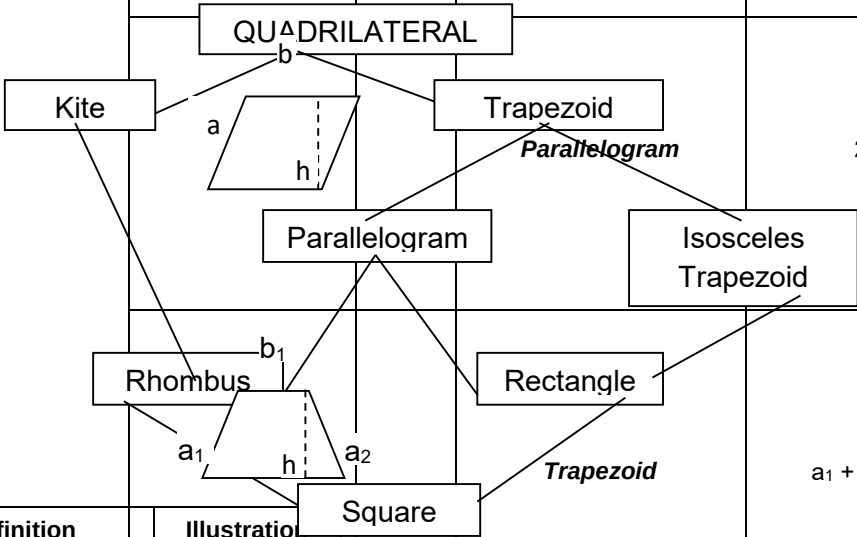

Term	Definition	CLASSIFICATION	Illustration	Obtuse Triangle
Complimentary Angles	Any two angles whose combined measures equal to 90° .		According to the Measures of Sides	Scalene Triangle
Supplementary Angles	Any two angles whose combined measures equal to 180° .			Isosceles Triangle
Vertical Angles	Formed when two lines intersect; Two angles that share a common vertex but share no common sides			

		Name
According to the Angle Measures		Acute Triangle
		Right Triangle
		Obtuse Triangle

		 Equilateral triangle	A triangle with three congruent sides	
--	--	--	---------------------------------------	---

❖ QUADRILATERALS

Name	Definition	Illustration
Trapezoid	A quadrilateral with at least one pair of parallel sides	
Kite	A quadrilateral with two adjacent sides congruent and the other two sides also congruent	
Isosceles Trapezoid	A trapezoid with exactly one pair of congruent sides	
Parallelogram	A quadrilateral in which each pair of opposite sides is parallel	
Rectangle	A quadrilateral with 4 right angles	
Rhombus	A quadrilateral with all sides congruent	
Square	A quadrilateral with 4 right angles and 4 congruent sides	

	$2a + 2b$
	$a_1 + a_2 + b_1 + b_2$
	$s + s + s$
	Circumference: $2 \pi r$

SOLID FIGURES

Name of Figure	Formula	
	Total Surface Area	
Rectangular Prism	$2lw + 2wh + 2hl$	

IX. MEASUREMENT

PLANE FIGURES

Figure	Name of Figure	Formula	
		Perimeter	Area
	Rectangle	$2l + 2w$	lw
			$s^2 + 2sl$ s = side of the base l = slant height of the

Volume:

1 gallon (gal)	=	4 quarts (qt)
1 quart	=	2 pints (pt)
1 cup	=	16 tablespoons
1 liter	=	1.06 quarts

❖ PYTHAGOREAN THEOREM

Legs

A diagram showing a fermion loop with an incoming fermion line from the left labeled b^2 and an outgoing fermion line to the right labeled c^2 . A horizontal arrow points from the left towards the loop. A square box labeled a^2 is positioned below the loop, representing an interaction with a scalar field.

Greek	hecto	100	meter	liter	gram
	deca	10			
Latin	deci	1/10			
	centi	1/100			
	milli	1/1000			

Length:	1 foot (ft)	=	12 inches (in)	
	1 yard (yd)	=	3 feet	
	1 mile (mi)	=	5280 feet	= 1760 yards
	1 inch	=	2.54 centimeters	
	1 foot	=	0.3 meter	
	1 meter	=	1.1 yards	
	1 mile	=	1.6 kilometers	
Area:	1 acre	=	43,560 sq. ft.	
	1 sq. m.	=	640 acres	
		=		

3. A rectangular lot has a perimeter of 120 m. If the length of the lot is 20 m. more than its width, what is its area?
A. 800
2000
B. 1500
D. 3500
C.
4. A box 16 inches wide, 24 inches long and 6 inches high. How many square feet of paper would be needed to cover it on all sides?
A. 2304
104
B. 1248
D. 8 2/3
C.
5. How many meters of fencing is needed to enclose an 84 m by 48 m rectangular garden?
A. 4 032
C. 264
B. 336
D. 232
6. The volume of a cube is 125 cm³. What is the total surface area?
A. 625 cm²
250 cm²
B. 500 cm²
D. 150 cm²
C.
7. A boy is to meet his teacher in the principal's room at 7:30 in the morning. If it takes the boy 30 mins to take a bath, 15 mins to eat his breakfast, 5 mins to brush teeth, 20 mins other morning activities, 25 mins to dress up and 10 mins walking to the school principal's room. What will be the latest time that he can get up to meet his teacher on time?
A. 4:45 am
5:30 am
B. 5:15 am
D. 5:45
C.
8. Which of the following is the longest?
A. 71.2 m
71 200 mm
B. 7,120 cm
D. 0.712 km
C.
9. What is 3.8 L + 2500 mL when converted to centilitres?
A. 630
C. 0.63
B. 6.3
D. 0.063
10. A plane flies over a control tower at a height of 8 km. An observer on the ground is 15 km from the control tower. How far is the plane from the observer?
A. 9 km
12 km
B. 10 km
D. 17km
C.

PART II: Enhancing Test Taking Skills

- How many square feet of paper would be needed to cover a box in all sides? The box is 5 feet long, 3 feet wide and 1.5 feet high?
A. 96
B. 54
C. 48
D. 27
- How many hectares are in a rectangular field which is 800 m long and 750 m wide?
A. 120 ha
B. 100 ha
C. 80 ha
D. 60 ha
- Find the volume (in cubic inches) of a rectangular solid whose dimensions are 3 feet, 30 inches and $\frac{3}{4}$ feet.
A. 9720
B. 8530
C. 7980
D. 6570
- What is the area of a triangular piece of land which has a base of 94 m and a height of 12 m?
A. 1128
B. 564
C. 424
D. 212
- How many 1 – cm square stickers are needed to cover a photo box 4 cm long, 3 cm wide and 5 cm high?
A. 60
B. 74
C. 94
D. 100
- A swimming pool is 40 meters long, 20 meters wide, and 10 meters deep. How many cubic meters of water does it contain when it is half filled?
A. 16000
B. 8000
C. 4000
D. 2000
- How many cubic meters of soil must be removed from an excavation 20 m by 15 m by 8 m?

- A. 2100 m³ B. 2400 m³ C. 2100 m² D. 2400 m²
8. Pedro use ten 100 – watt bulbs in his house. He uses these bulbs at an average of 5 hours each day. How many KWH do these bulbs use each day?
- A. 50 B. 25 C. 10 D. 5
9. A man left his house at 10:15 am and reaches a town 30 km away at 10:55 am. What was his average speed for the journey?
- A. 30 km/h B. 35 km/h C. 40 km/h D. 45 km/h
10. The length of a rectangle is 2 cm less than twice its width. What is its width, if its perimeter is 50 cm?
- A. 4 B. 9 C. 16 D. 36

X. PROBABILITY

A. SIMPLE PROBABILITY

→ The **probability** (P) of an event (E) is defined as:

$$P(E) = \frac{\text{Number of favorable outcomes}}{\text{Total number of possible outcomes}}$$

Example:

A gumball machine has 18 pieces remaining (6 blue, 5, yellow, 7, red). The probability of getting

a blue gumball is $\frac{6}{18}$ or $\frac{1}{3}$.

B. COUNTING TECHNIQUES

a) Permutation

→ refers to the number of possible arrangements for a given set of objects

Case 1: All of the objects are considered for each different arrangement

$({}_nP_n$, read as “the permutation of n objects taken n at a time”)

This is represented by this operation:

$n\mathbf{P}_n = n!$ (read as “*n factorial*”)

The **factorial** of a whole number is the product of that whole number and each of the natural numbers less than the number.

$$n! = n \times (n - 1) \times (n - 2) \times \dots \times 1$$

Example:

In how many ways can 6 books be placed on a shelf?

Solution: $6! = 6 \times 5 \times 4 \times 3 \times 2 \times 1 = 720$

- A. 55

B. 56
- C. 57

D. 58
5. In a Math class of 15 students, 5 students had an average of 76, 6 students had an average of 80 while the other 4 students had an average 85. What is the average of whole class?

A. 79

B. 80

C. 81

D. 82
6. In a class of 40 students, 28 like Algebra and 24 like Geometry. How many like both Algebra and Geometry?

A. 10

B. 11

C. 12

D. 13
7. In how many ways can six distinct books be arranged in a bookshelf?

A. 720

B. 360

C. 180

D. 120
8. Red has 8 blue T-shirts and 12 yellow T-shirts. If she picks one T-shirt at random, what is the probability that will NOT be blue?

A. 3/4

B. 2/5

C. 3/5

D. 1/3
9. How many ways can 5 boys and 5 girls form a circle with boys and girls alternate?

A. 288

B. 2880

C. 5600

D. 14400
10. In a throw of two dice, the probability of obtaining a total of 10 or 12 is

A. 1/18

B. 1/12

C. 1/9

D. 1/6

XI. BASIC ALGEBRA

A. ALGEBRAIC EXPRESSIONS

❖ TRANSLATING ALGEBRAIC EXPRESSIONS

Add (+)	Subtract (-)	Multiply (x)	Divide (÷)	Equal (=)
plus, sum, increased by, more than, exceeds	minus, difference, decreased by, less than, reduced	times, multiplied by, product, of,	divide by, quotient, into	is, result, total, equal to

Algebraic Expression – contains numbers, variables, and operations to state a relationship
Examples: 5, 7n, 3x + 2, x²+4x+4

Equation – two algebraic expressions set equal to each other

Example: 3x + 5 = x + 7

5z + 6z = 11z

b) Multiplying Polynomials

1. Monomial by a monomial

→ Multiply the coefficients and then follow the rules for

Example:

2x³ · 4x⁴
2. Monomial by a Polynomial

Example:

3a² (2a + 4)
3. Binomial by a Binomial

❖ EXPONENTS

Exponent or Power – the total number of times a base is used as a factor

a) Multiplying and Dividing Like Bases

Multiplication	Division
When multiplying like bases, add the exponents: $x^m \cdot x^n = x^{m+n}$ Example: $a^3 \cdot a^2 = a^{3+2} = a^5$	When dividing like bases, subtract the exponents: $\frac{x^m}{x^n} = x^{m-n}$ Example: $\frac{b^5}{b^2} = b^{5-2} = b^3$

b) Operations with Powers

Raising a Power to a Power	Simply multiply the exponents: $(x^m)^n = x^{mn}$ Example: $(a^2)^3 = a^{(2)(3)} = a^6$
Raising a Product to a Power	Raise each base number and/or variable to that exponent: $(x^m y^n)^t = x^{m \cdot t} y^{n \cdot t}$ Example: $(4x^2)^3 = (4^{1 \cdot 3})(x^{2 \cdot 3}) = 64x^6$
Raising a Quotient/Fraction to a Power	Raise both numerator and denominator to that exponent and simplify the expression: $\left(\frac{x}{y}\right)^m = \frac{x^m}{y^m}$ Example: $\left(\frac{2^2}{b}\right)^3 = \frac{2^{2 \cdot 3}}{b^3} = \frac{2^6}{b^3} = \frac{64}{b^3}$

c) Negative Exponents

To simplify an expression with negative exponents, remember that:

$x^{-m} = \frac{1}{x^m}$

❖ POLYNOMIALS

a) Adding and Subtracting Polynomials

When adding and subtracting polynomials, only **like terms** can be combined.
Examples:

18x² - 8x² = 10x²

multiplying the exponents for like bases.

Solution:
2x³ · 4x⁴ = (2)(4)·(x³)(x⁴) = 8x⁷

→ Use the distributive property

Solution:
3a² (2a + 4) = (3a²)(2a) + (3a²)(4)
= 6a³ + 12a²

→ Use **FOIL** (First, Outer, Inner, Last)

Example:

$(x - 3)(x + 4)$

Terms	Factors	Product
First	$x \cdot x$	x^2
Outer	$x \cdot 4$	$4x$
Inner	$-3 \cdot x$	$-3x$
Last	$-3 \cdot 4$	-12

$(x - 3)(x + 4) = x^2 + 4x - 3x - 12$
 $= x^2 + x - 12$

4. Any polynomial by a polynomial
→ Use the distributive property

Example:

$(2x - 1)(3x^2 - 5x + 2)$

Solution:
 $(2x - 1)(3x^2 - 5x + 2) = 6x^3 - 10x^2 + 4x - 3x^2 + 5x - 2$

Example:
Factor $x^2 - 49$.

- c) Polynomials in the form $ax^2 + bx + c$
→ When factoring any factorable polynomial in the form $ax^2 + bx + c$, where $a = 1$, the constant terms of the factors have a sum of b and a product of c . If the value of $a \neq 1$, use the factors of c with trial-and-error to find the factors.

Example:
Factor $x^2 + 5x + 6$
Solution:
 $x^2 + 5x + 6$
 $a = 1, b = 5, c = 6$

$x^2 + 2ax + a^2 = (x + a)^2$

Example:
Factor $b^2 - 10b + 25$.

- e) Factoring Completely
→ To factor polynomials completely, the expression must

❖ FACTORING

a) Using GCF

→ To find the GCF of any polynomial, look for common factors in the coefficients, and common variables between each term.

Example:
Factor $4x^4 + 12x^3$.

Solution:
The GCF of $4x^4 + 12x^3$ is $4x^3$, so factor out $4x^3$ from each term.
 $4x^4 + 12x^3 = 4x^3(x + 3)$

b) Difference Between Two Perfect Squares

→ To factor the difference between two perfect squares, take the square root of each term. Then, express the factors in the following form:
 $(x - a)(x + a)$

Solution:
 $x^2 - 49 = (x - 7)(x + 7)$

1. List the factors of 6 (c): 1 and 6, -1 and -6, 2 and 3, -2 and -3
2. Find the pair of factors that has a sum of 5 (b). Here that pair is 2 and 3.
3. Use the factors 2 and 3 as the second terms in the binomial factors.

$(x + 2)(x + 3)$
Answer: The factors of $x^2 + 5x + 6$ are $(x + 2)(x + 3)$.

d) Perfect Square Trinomials

→ Has two equal binomial factors; they have two forms and factored as follows:

$x^2 - 2ax + a^2 = (x - a)^2$
Solution:
 $b^2 - 10b + 25 = (b - 5)(b - 5) = (b - 5)^2$

be broken down into its smallest possible factors.
Steps:

- 1. Factor out the GCF, if it exists.
- 2. Factor the difference between two squares.
- 3. Factor the trinomial into two binomials (FOIL).

❖ RATIONAL EXPRESSIONS

Example:

$$\frac{x^2 - x - 6}{x^2 - 9}$$

b) Adding and Subtracting

Steps:

- 1. Find a common denominator (LCD) by finding the smallest expression that each denominator will divide into without a remainder.
- 2. When this denominator is found, multiply both the

Example:

$$\frac{7x}{2x^2} + \frac{4}{x^2}$$

c) Multiplying and Dividing

Steps:

- 1. Factor each numerator and denominator of the fractions when possible.
- 2. Cancel out any common factors between the numerators and denominators.

Example:

$$\frac{2x - 4}{z} \div \frac{4 - x^2}{3z}$$

B. ALGEBRAIC EQUATIONS

❖ Solving Equations

Here are the steps to ensure success when solving an equation:

→ Expressions that may involve constants and/or variables in the form $\frac{a}{b}$, where $b \neq 0$.

a) Simplifying

→ When simplifying rational expressions, factor first and make sure to only cancel **factors**.

Solution:

$$\begin{aligned} \frac{x^2 - x - 6}{x^2 - 9} &= \frac{(\cancel{x-3})(x+2)}{(\cancel{x-3})(x+3)} \\ &= \frac{(x+2)}{(x+3)} \end{aligned}$$

numerator and denominator of the rational expressions by the missing factor needed to make the LCD.

- 3. Combine the expressions.
- 4. Keep the common denominator.

Solution:

$$\begin{aligned} \frac{7x}{2x^2} + \frac{4}{x^2} &= \frac{7x}{2x^2} + \frac{4 \cdot 2}{2x^2} \\ &= \frac{7x}{2x^2} + \frac{8}{2x^2} \\ &= \frac{7x + 8}{2x^2} \end{aligned}$$

- 3. Multiply across any remaining factors.
- 4. When dividing, simply take the reciprocal of the fraction being divided by and then multiply as explained in steps (1) to (3).

Solution:

$$\begin{aligned} \frac{2x - 4}{z} \div \frac{x^2 - 4}{3z} &= \frac{2x - 4}{z} \times \frac{3z}{x^2 - 4} \\ &= \frac{2(\cancel{x-2})}{z} \times \frac{3z}{(\cancel{x-2})(x+2)} \\ &= 2 \cdot \frac{3}{(x+2)} \\ &= \frac{6}{(x+2)} \end{aligned}$$

- 1. Simplify each side of the equation separately:
 - Apply the distributive property when needed.
 - Combine like terms when needed.

- 2. Move the variable to one side of the equation.
- 3. Perform the inverse operations of either addition or subtraction.
- 4. Perform the inverse operations of multiplication or division.
- 5. Check your answer by substituting the value of the variable into the original equation.

Example 1: $-2(x + 8) = 32$
Solution:

$-2(x + 8) = 32$
$(-2 \cdot x) + (-2 \cdot 8) = 32$ $-2x - 16 = 32$
$-2x - 16 + 16 = 32 + 16$ $-2x = 48$
$\frac{-2x}{-2} = \frac{48}{-2}$ $x = -24$

Given
Apply the distributive property to get rid of the parentheses.
Add 16 to both sides.
Divide both sides of the equation by -2.

$x = -11$

Given
Apply the commutative property of addition.
Combine like terms.
Add 6 to both sides.
Divide both sides of the equation by -3.

Example 2: $4x - 6 - 7x = 27$
Solution:

$4x - 6 - 7x = 27$	Given
$4x - 7x - 6 = 27$	Apply the commutative property of addition.
$-3x - 6 = 27$	Combine like terms.
$-3x - 6 + 6 = 27 + 6$ $-3x = 33$	Add 6 to both sides.
$\frac{-3x}{-3} = \frac{33}{-3}$	Divide both sides of the equation by -3.

Given
Apply the commutative property of addition.
Combine like terms.
Add 6 to both sides.
Divide both sides of the equation by -3.

Check: Substitute in the equation the value of -24 for x:

$-2(x + 8) = 32$
 $-2(-24 + 8) = 32$
 $-2(-16) = 32$
 $32 = 32$

a_1 = the first term
 a_n = general term
 n = no. of terms

To find any term (n^{th} term): $a_n = a_1 + (n - 1)d$

To find the sum of n terms (S_n) of an arithmetic progression:

Elements of a Geometric Progression:

To find any term (n^{th} term): $a_n = a_1r^{n-1}$

C. SEQUENCES and SERIES
❖ Sequence

→ An ordered set whose elements consist of consecutive natural numbers

Types of Sequences:

1. Arithmetic Progression

→ a sequence of numbers in which the difference between any two successive terms is constant; the constant difference is called the **common difference (d)**

Elements of an Arithmetic Progression:

d = the common difference
 S_n = sum of the first n terms

$S_n = \left(\frac{n}{2}\right)(a_1 + a_n)$

2. Geometric Progression

→ a sequence of numbers in which the ratio of every pair of successive terms is constant; the constant ratio is called the **common ratio (r)**.

a_1 = the first term n = no. of terms
 r = the common ratio

a_n = general/ n^{th} term S_n = sum of the first n term

To find the sum of n terms (S_n) of a geometric progression:

$$S_n = a_1 \frac{(1-r^n)}{(1-r)} \text{ where } r \neq 1$$

3. Infinite Geometric Progression

→ A geometric progression with an infinite number of terms

To find the sum of n terms (S_n) of an infinite geometric progression:

$$S_n = \frac{a_1}{1-r} \text{ where } |r| < 1$$

4. Harmonic Progression

→ A sequence of numbers whose reciprocals form an arithmetic progression

Example:

AP: 2, 5, 8, 11, 14

HP: $\frac{1}{2}, \frac{1}{5}, \frac{1}{8}, \frac{1}{11}, \frac{1}{14}$

PART I: Analyzing Test Items (Basic Algebra/Content Course)

1. Which of the following is an unlike term of $6b$?
A. $-6b$ B. $6d$
C. $-b/6$ D. $11b$
2. If $8x + 12 = 24$, what is the value of $24x + 36$?
A. 72 B. 24
C. 18 D. 10
3. Simplify: $(-3m - 3) - (5 - 7m) =$
A. $4m - 8$ B. $8 - 4m$
C. $-4m + 8$ D. $-4m - 8$
4. The difference between 8 times a number and 17 is 231. Find the number.
A. 1 984 B. 48
C. 37 D. 31
5. Paul is twice as old as Janice. Seven years ago the sum of their ages was 16. How old is Janice now?
A. 20 B. 16
C. 10 D. 8
6. If $x = y/3$ and $3x = 5$. What is y ?
A. $1/5$ B. $5/9$
C. $9/5$ D. 5
7. Simplify: $\frac{15a^4b^8}{(10a^2)(ab^5)}$
A. $\frac{3}{2}a^2b^3$ B. $\frac{2}{3}a^2b^3$ C. $\frac{2}{3}ab^3$ D. $\frac{3}{2}ab^3$
8. What is the perimeter of a rectangle whose length and width are $(2x + 3)$ and $(2x - 3)$ respectively?
A. $4x^2 + 9$ B. $4x^2 - 9$
C. $2x^2 + 3x - 3$ D. $4x^2 + 6x - 9$
9. Factor the expression $36m^5 - 144m^7$.
A. $12(3 - 12m^2)$ B. $12m^5(-3 + 12m^2)$ C. $12m^5(12m^2 - 3m^5)$ D. $36m^5(1 - 2m)(1 + 2m)$

10. Find the equation of the line passing through the points $(3,1)$ and $(-5,4)$.
A. $3x - 8y + 17 = 0$ B. $3x + 8y - 17 = 0$ C. $3x + 8y + 17 = 0$ D. $3x - 8y - 17 = 0$

PART II: Enhancing Test Taking Skills

1. How many terms are there in the algebraic expression $-16m - 4 + 0.3m - 6k + y/2$?
A. 2 B. 3
C. 4 D. 5
2. In the sequence 4, - 2, k, - 14, -20, h, what is the value of $k + h$ in the above number sequence?
A. 34 B. 18
C. -34 D. -18
3. Evaluate: $-2x - 6 + 5x + 2 =$
A. $7x - 4$ B. $3x - 4$
C. $3x - 8$ D. $-3x - 4$
4. If 8 less than the product of a number and -3 is greater than 7, which of the following could be that number?
A. 6 B. 5
C. -5 D. -6
5. Given that $2xy = 20$ and $y = 0.5$, what is the value of x ?
A. 10 B. 10.5
C. 16 D. 20
6. What value of x makes $\sqrt{x} + 9 = \sqrt{2x + 137}$ TRUE?
A. -16 B. -9
C. 16 D. 25
7. Find two numbers whose sum of reciprocals is $5/12$ and whose product is 24?
A. 3 and 8 B. 4 and 6
C. 12 and 2 D. 24 and 1
8. What is $\frac{3a^2 - 48}{a} \div \frac{3a - 16}{a^2}$?
A. $a - 4$ B. $a - 16$
C. a^2 D. a
9. Find the equation of the line with slope 2 and passing through the point $(3, -1)$.
A. $2x + y + 7 = 0$ B. $2x + y - 7 = 0$ C. $2x - y - 7 = 0$ D. $2x - y + 7 = 0$
10. Evaluate: $\lim_{x \rightarrow 1} (x^2 - 2x + 1)$.
A. Undefined B. -1
C. 0 D. 1

PRE-TEST

2. If $a = b/5$ and $10a = 14$, what is b ?
 A. 28
 B. 14
 C. 12
 D. 7
 A. 4
 B. 8
 C. 12
 4. The arithmetic mean of set of 50 numbers is 38. If two numbers 45 and 35 are discarded, the mean of the remaining set of numbers is:
 A. 35
 B. 37
 6. John and Bob are cycling on a track. Bob completes one lap every 12 seconds, and John completes one
 A. after 45 seconds
 B. after 3 minutes
 A. P 60,400
 B. P 65,000
 8. A policeman caught a pusher carrying prohibited drugs. Each package weighted $12\frac{3}{4}$ kg, 10 kg, $8\frac{1}{8}$ kg, and 11 kg. Give the total weight of the confiscated drugs.
 A. $41\frac{7}{8}$
 B. $41\frac{3}{4}$
 C. $42\frac{7}{8}$
 D. $43\frac{3}{4}$
 A. 27 and 42
 B. 26 and 49
 10. A carpenter wanted three pieces of wood each $1\frac{5}{8}$ feet long. If he planned to cut them from a 6-foot piece of wood, how much of the piece would be left?
 A. $4\frac{7}{8}$ ft
 B. $1\frac{1}{8}$ ft
 11. Four mangoes cost P29.00. At what price will $2\frac{1}{2}$ dozen mangoes cost?
 A. P 217.50
 B. P 188.50
 1. Write this ratio in its simplest form: 3 dm is to 20 cm.
 A. 2 : 3
 B. 20 : 3
 C. 3 : 20
 D. 3 : 2
 3. An artist ordered cans of red paint, white paint, and green paint in the ratio 2 : 4 : 6, respectively. If he ordered a total of 24 cans of paint, how many cans of white paint did he order?
 D. 16
 A. 36.5
 B. 37.24
 C. 37.5
 D. 37.92
 5. A traveller was helped by other passengers for his extra weight of 113 kg. There were three travellers who gave their allotment of 25 kg. How much more extra weight will be pay?
 C. 38
 D. 48
 lap every 15 seconds. When will Bob lap John, assuming that they started together?
 C. after 2 minutes
 D. after 1 minute
 7. A store reduced the price of a computer by 20% and sold it for P56,400. How much did the computer originally for?
 C. P 70,500
 D. P 72,500
 9. The first 5 numbers in a sequence are 5,6,8,11 and 15. What are the 8th and 10th numbers in the sequence?
 C. 32 and 49
 D. 33 and 50
 C. $4\frac{5}{8}$ ft
 D. 3ft
 C. P 348.50
 D. P 870.00

12. How many integers between 1 and 150 are divisible by

A. 7
B. 8

A. P 35
B. P 25

A. $x - 4$
B. $x + 2$

15. A bomb was dropped in an area where rebels were hiding. The perimeter of the damage area was 480 meters and width was 15 meters. What was the length of the damage area?

A. 945
B. 950

17. A cube is a rectangular solid, the length, width and height of the measure called the edge (e) of the cube.

A. 27 cm^3
B. 64 cm^3

A. P170
B. P400

19. Employees at Highwire Musictown get a 20% discount on all purchases. If Luis buys three tapes at P7.49

A. P 16.98
B. P 17.98

A. 35
B. 70

A. 47
B. 73

22. How many gallons of water will fill a fish tank that is 18 inches by 12 inches by 48 inches? (There are 231 cubic

A. 45 gallons
B. 38 gallons

A. 10
B. 11

A. $n + a > m + b$
C. $n = a$
B. $m = b$
D. $n + a < m + b$

A. 6 ft
B. 5 ft

A. $\frac{13}{24}$
B. $\frac{13}{29}$
- both 4 and 5?

C. 9
D. 10

13. If P75.00 is shared among three children in the ratio of 3:7:15. What is the size of the smallest share?

C. P 15
D. P 9

14. Which of the following is a factor of the equation $x^2 - 2x - 24 = 0$?

C. $x + 4$
D. $x + 6$

A. 125 meters
C. 225 meters
B. 200 meters
D. 425 meters

16. What is the sum of all the two digit numbers which are divisible by 5?

C. 960
D. 1050

The volume of the cube is found by 'cubing the measure of the edge'. What is the volume of the cube whose edge is 4 cm?

C. 125 cm^3
D. 216 cm^3

18. Lisa bought 120 handkerchiefs at 10 pesos each. Then she sold them at 3 handkerchiefs for P 50. If she sold all the handkerchiefs, how much profit did she make?

C. P733
D. P800

each, how much will he have to pay after his employee discount?

C. P 18.98
D. P 19.98

20. How many ways can a committee of 4 people be selected from a group of 7 people?

C. 140
D. 210

21. How much bigger is 2^9 than 9^2 ?

C. 175
D. 431

inches per gallon). Round your answer to the nearest gallon.

C. 47 gallons
D. 40 gallons

23. In a class of 40 students, 27 like Algebra and 25 like Trigonometry. How many like both Algebra and Trigonometry?

C. 12
D. 13

24. If $n < m$ and $a < b$, then _____?

25. The hypotenuse of a right triangle is 25 feet. If one leg is 24 feet, what is the length of the other leg?

C. 7 ft
D. 20 ft

26. What is the average of $\frac{1}{2}$, $\frac{1}{4}$, and $\frac{1}{3}$?

C. $\frac{13}{12}$
D. $\frac{13}{36}$

- A. $4(x^3 + 1)$
B. $4x^2(x + 1)$

28. If a car travels 96 miles on 8 liters of gas, how far can the car travel on a full tank of gas that holds 20 liters?
A. 230 miles
B. 235 miles

29. Given the numerals 9,2,7,5, what is the difference between the largest 3-digits number and the smallest 3-digit number that can be formed from these numerals if no digits are repeated in a number?

30. A vehicle consumes one liter of gasoline to travel 10 km. After tune-up, it travels 15% farther on one liter. To
A. 23.15
B. 23

31. A picture 10 cm x 8 ½ cm is mounted on a piece of hard cardboard. If there is a margin of 2 ½ cm around the picture, what is the perimeter of the cardboard used?

A. 326
B. 78

33. Three brothers inherited a cash amount of P 120,000 and they divided it among themselves in the ratio of
A. P15,000
B. P30,000

34. In one section, the ratio of boys to girls is 4 : 3. If there are 42 students in a class, how many are girls?

35. What is the volume of a cube whose surface area is 54?
A. 54
B. 81

A. $\frac{2}{35}$
B. $\frac{1}{35}$

A. 9%
B. 8%

38. What is the length of the diagonal BD of the rectangle pictured below?
-
27. Write the expression $4x^3 + x$ in factored form.

C. $x(4x^2 + 1)$
D. $4x(x^2 + 1)$

C. 240 miles
D. 245 miles

A. 777
B. 718
C. 500
D. 448

the nearest tenth, how many liters of gasoline will it take for the vehicle to travel 230 km?
C. 20.15
D. 20

A. 37
B. 47
C. 57
D. 67

32. A certain bank issues 3-letter identification codes to its customers. If each letter can be used only once per code, how many different codes are possible?
C. 15,600
D. 17,576

5:2:1. How much more is the largest share than smallest share?

C. P60,000
D. P75,000

A. 6
B. 12
C. 18
D. 24

C. 27
D. 729

36. What are the odds of getting two 5's in a single throw of a pair of dice?
C. $\frac{35}{36}$
D. $\frac{1}{36}$

37. What percent of P340.00 is P30.60?
C. 7%
D. 6%

39. What part of an hour has passed from 2:48 pm. to 3:20 pm?
B. $\frac{1}{C}$
- ST. LOUIS REVIEW CENTER
- 165
- Visit For more Pdf's Books
Pdfbooksforum.com

- C. $\frac{8}{15}$

A. 20%
B. 25%
C. 40%

41. The annual budget of a certain department amounts to 2 billion. From this amount, the budgets of three bureaus are in the ratio 5:3:2. How much does the bureau with the smallest budget receive?
A. Php 600 M B. Php 400 M C. Php 200 M D. Php 100 M

42. In Elaine's garden, there are two daisies for every three roses. If there is a total of 45 daisies and roses, how many roses are there?
A. 15 B. 18
C. 27 D. 30

43. The sum of two integers is 74 and their difference is 26, what is the bigger number?
A. 50 B. 46
C. 38 D. 24

44. Nika spent 30% of his allowance on snacks and 40% on a book and had 45 pesos left. How much is her allowance?
A. Php 120 B. Php 150
C. Php 180 D. Php 200

45. A school canteen needs A kilos of rice each customer a month. If there are B customers in a canteen, for how many months C kilos last?
A. AC/B B. B/AC
C. AB/ C D. C/AB

46. Pipe A can fill a swimming pool in three hours while Pipe B can fill the same pool in two hours. If Pipe A and Pipe B are both open, how long will they fill the swimming pool?
A. 5 hours B. 2 hours
C. 1.5 hours D. 1.2 hours

47. Mr. Cosico purchased an air conditioner for a discounted price of Php 10 200.00. If he got 15% discount, what was the original price?
A. Php 12 000 B. Php 11 800 C. Php 11 400 D. Php 10 800

A. -8
B. -6

56. Which of these numbers is greater than $\frac{1}{4}$?
A. 0.04 B. $(\frac{1}{2})^2$ C. $\frac{1}{8}$
D. $\frac{1}{0.04}$

57. If Charles paid P350 for a pair of shoes that was sold at 25% discount. What was the tag price of the shoes?
- D. $\frac{8}{2.5}$

40. One -fourth of the width and one-fifth of the length of a sheet of cartolina are cut off. What percent of the original sheet is the remaining area?
D. 60%

48. The ratio of men to women in the national pool of athletes is 15:7. If there are 72 more men than women, how many athletes are there in the national pool?
A. 1 920 B. 1 080
C. 198 D. 192

49. A meat dealer sold his butchered cow for Php 21 500.00. If each kilo of beef cost Php 120.00 , how many kilos were realized from one cow?
A. 179.16 kg B. 179. 18 kg
C. 179.61 kg D. 179.81 kg

50. A couple was just married when the groom is three scores older than the bride. How old is the bride is she one score younger?
A. 20 B. 30
C. 40 D. 50

51. A swimming pool is an equilateral triangle in shape. One side is 11 meters. How many meters of rope is needed to enclose the pool?
A. 55 meters B. 45 meters
C. 44 meters D. 33 meters

52. Water rationed in a village every other day. The truck tanks deliver 8 tons of water every 10 hour. How many tons of water was delivered in 4 days to each house by the agent?
A. 32 tons B. 40 tons
C. 120 tons D. 320 tons

53. Mrs. Reyes bathroom has to be covered with tiles. The edge of the bathroom needs a rubberized tile. If the tub is 2.3 meters long and 1.8 meters wide, how many meters of rubberized tiles are required?
A. 9.2 meters B. 8.2 meters
C. 4.2 meters D. 2.3 meters

54. A man started painting a wall at 9:00 AM and was able to finish painting $\frac{3}{5}$ of it at 10:30 AM. Continuing at this rate, at what time will he finish painting the wall?
A. 11:35 A.M. B. 11:30 A. M.
C. 12:15 A.M. D. 12:30 A.M.

55. If $x = - 5$, what is the value of : $\frac{x^2-9}{x+3}$?
C. 5
D. 7
A. P467 B. P500
C. P600 D. P1400

58. What is the measure of the complement of an angle if its supplement is 145 degrees?
A. 65° B. 55°
C. 45° D. 35°

59. Which of the following is equivalent to $8^{87} - 8^{86}$?

- A. $8^{87} + 86$

C. $8^{86}(7)$

A. P2,400

B. P2,880
- B. $8^{87} - 86$

D. $8(87 - 86)$

60. How much interest would be paid on a bank loan of P36,000 for 8 months at 12% annual interest?

- C. P3,240
- D. P3,600

POST TEST

- A. P 475
- B. P 570

- A. 22
- B. 33

- A. $\frac{2}{5}$

- 1. If the price of round-trip fare to Malolos, Bulacan is P285, how much will it cost a family of four if the husband pays full fare, the wife pays $\frac{2}{3}$ of full fare, and the two children each pay $\frac{1}{2}$ of the regular price?
 - C. P 760
 - D. P 1140
- 2. What number subtracted from each of 71 and 58 will result in two perfect squares?
 - C. 35
 - D. 42
- 3. Jessica has 6 red t-shirts and 9 yellow t-shirts. If she picks one t-shirt at random, what is the probability that it will not be yellow?
 - B. $\frac{9}{15}$

- C. $\frac{2}{3}$

A. 1
B. 4

A. 48%
B. 80%

6. How many members of Set A are factors of any members of Set B?
A. 6
B. 5

7. A meter stick was cut into two pieces at the 640-mm mark. What is the ratio of the smaller piece to the largest piece?
A. 9:16
B. 16:25

8. The product of 2 whole numbers is 36, and their ratio is 1:4. Which of these is the smaller number?
A. 9
B. 3

9. Find, in feet, the amount of framing needed to frame a picture $8\frac{1}{2}$ inches by 11 inches?
A. $3\frac{1}{4}$ ft
B. $2\frac{1}{4}$ ft

10. If a certain job can be finished by 18 workers in 26 days, how many workers are needed to finish the job in 12 days?
A. 24
B. 30

11. Which of these weights is heaviest?
A. 2250 g
B. 2.5 kg

12. Two buses leave the same station at 9:00 pm. One bus travels north at the rate of 30 kph and the other

A. 122 m²
B. 108 m²

A. 90
B. 45

15. What is the value of $12\frac{1}{6} - 2\frac{3}{8} - 7\frac{2}{3} + 19\frac{3}{4}$?
A. 21
B. $21\frac{1}{8}$

16. An employee earning P9,200 a month will receive a 15% increase next month. How much will his/her new salary be?
A. P10,500
B. P10,530

A. 480
B. 580
C. 4800

A. 300
B. 240
- D. $\frac{3}{5}$

4. The simplest expression for $2^{40}/4^{20}$ is _____.
C. $(\frac{1}{2})^{20}$
D. 2^{20}

5. What percent of 4 is $\frac{3}{5}$ of 8?
C. $83\frac{1}{3}\%$
D. 120%

SET A = {0,1,2,3,4,5}
SET B = {1,2,7,9,10}
C. 4
D. 3

C. 13:50
D. 9:25

C. 2
D. 12

C. $4\frac{1}{4}$ ft
D. $5\frac{1}{4}$ ft

C. 39
D. 45

C. 4200 mg
D. 5 pounds

travels east at 40 kph. How many kilometers apart are the buses at 10 pm?
C. 100 km
D. 140 km

13. A park has a triangular shape. It has a base of 24m and a height of 9m. What is its area?
C. 42 m²
D. 54 m²

14. Joselito repacks a 60 kg sack of sugar into small packs of 750g. How many small packs can be made?
C. 75
D. 80

C. $21\frac{7}{8}$
D. 22

C. P10,580
D. P10,560

17. What is 3 m + 28 dm when converted to centimeters?
D. 5800

18. What is the smallest positive integer that has 6, 8 and 10 as factors?
C. 80
D. 120

19. What must be subtracted from $5x^3 - 2x^2 + 3x - 5$ to get $2x^3 - 8 + 5x - 2x^2$?

A. $3x^3 - 2x^2 + 3$ B. $3x^3 - 2x^2 - 3$
C. $3x^3 + 2x + 3$ D. $3x^3 - 2x + 3$

A. 192 sq. in.
B. 900 sq. in.
21. If x^2 is odd, which of these statements is true?

A. I and III only
B. I and II only

A. 40, 160
B. 40, 120
23. In a certain school, the ratio of boys to girls is 3 to 7. If there are 150 boys and girls in the school, how many boys are there?

A. 45
B. 105
24. In one senior class, $\frac{1}{4}$ of the students are honor students. Of these honor students, $\frac{2}{5}$ is varsity

A. 40
B. 52
25. Multiply $(3 - 2i)(3 + 2i)$
26. A 737-model plane has 29 rows with 5 seats per row, except for the last three rows which had 3 seats each. What is the seating capacity of the plane?

A. 144
B. 145
C. 142
20. A box is 12 inches wide, 16 inches long and 6 inches high. How many square inches of paper would be needed to cover it on all sides?

C. 360 sq. in.
D. 720 sq. in.

a. x is odd II. x^2 is odd III. $x^2 + 1$ is odd

C. I only
D. II only
22. What are the missing terms in the series 5, 10, 20, _____, 80, _____, 320?

C. 50, 120
D. 35, 135
- C. 75
D. 90

athletes. If there are four athletes in the class, how many students are there in the class?

C. 60
D. 84

A. $4i$ B. 13
C. $9 - 4i$ D. $9 - 16i$

D. 139

27. If you were converting the height of your room for better ventilation, what would 1.60 m be equivalent to?
A. 16 cm B. 160 cm
C. 1600 mm D. 1.6 dm
 28. What do you call the arrangement of a number of objects regardless arrangement?
A. Factorial B. Permutation C. Combination
D. Probability
 29. A room of 10 m by 7m. There is 7.5 m by 5 m carpet in the middle. What percent of the room is uncovered?
A. 46.4% B. 48%
C. 53.6% D. 80%
 30. The sum of two integers is 63. If one of the integers is three more than twice the other, what are the two integers?
A. 17 and 46 B. 18 and 45
C. 19 and 44 D. 20 and 43
 31. A dozen eggs cost 72 pesos. How much do seven eggs cost?
A. Php 41.00 B. Php 41.50
C. Php 42.00 D. Php 42. 50
 32. Mr. Reyes was able to purchase a 32" LCD TV that would cost him Php 24 900.00. This amount represents the down payment and six monthly installments of Php 3 175.00. How much is his down payment?
A. Php 4 580.00 B. Php 5 480.00 C. Php 5 840.00
D. Php 5 850.00
 33. Henry spent $\frac{1}{4}$ of his money on pair of socks, $\frac{1}{5}$ of it on a Sudoku puzzle and Php 50 on a snack. If he had Php 82 left how much money did he start with?
A. Php 240.00 B. Php 280.00
C. Php 320.00 D. Php 360.00
 34. In a department store, 55% of the employees are men. If there are 180 women in the department store, how many employees are there?
A. 360 B. 400
C. 430 D. 500
 35. A banana and three mangoes cost Php 65.00 while three bananas and one mango cost Php 35.00. How much does two bananas and two mangoes cost?
A. Php 54.00 B. Php 52.00
C. Php 51. 80 D. Php 50.00
 36. It took Kaye 35 minutes to drive from her house to her school 20 kilometers away. In the return trip, she took just 25 minutes. What is her average speed?
A. 20 kph B. 30 kph
C. 40 kph D. 50 kph
 37. Successive discounts of 10% and 30% are equivalent to what single discount?
A. 40% B. 37%
C. 35% D. 30%
 38. A DVD player is on sale at a price of Php 4 500.00. If the discount is 20%, what is the original price of the DVD player?
A. Php 5 625 B. Php 5 265
C. Php 5 400 D. Php 3 600
 39. Miss Rose types at a rate of 75 words per minute. At this rate how, long will it take her to type a manuscript of 4050 words?
A. 45 minutes B. 48 minutes
C. 50 minutes D. 54 minutes
 40. A gas tank of Mr. Cruz car is $\frac{5}{8}$ full. If he used $\frac{2}{5}$ of this amount travelling from his house to his province, what part of the tank has gas?
A. $\frac{7}{13}$ B. $\frac{7}{15}$
C. $\frac{7}{40}$ D. $\frac{3}{8}$
 41. If 56 men can build a small building in 20 days. At this rate, how many days can 35 men build the same building?
A. $12\frac{1}{2}$ B. 24
C. 25 D. 32
 42. A tenant was awarded a house and lot package worth Php 180 000.00 he has to pay the package for 20 years at 9% per annum. How much will the lot cost after 20 years?
A. P504 000 B. P500 000
C. P604 000 D. P704 000
 43. A 10 m long steel pipe shrank 0.05% when exposed to below freezing temperature. By how many centimetres did the pipe shrank?
A. 5 B. 0.005
C. 0.5 D. 0.05
 44. What is 30% of $\frac{25}{18}$?
A. $\frac{5}{108}$ B. $\frac{5}{12}$ C. $\frac{25}{54}$
D. $\frac{25}{6}$
 45. One thousand two hundred boys enrolled in a school year this year. Four years ago 1500 boys enrolled. What is the percent of decrease in enrolment?
A. 10% B. 8%
C. 25% D. 20%
 46. It takes a teacher 20 minutes to check 25 papers and take a rest of 5 minutes after 25 papers before starting another set. At this rate, how many minutes will it takes the teacher to correct 75 test papers?
A. 75 B. 60
C. 70 D. 80
 47. Six people are standing in a line waiting to file their income tax return. In how many ways can they stand in line?
A. 180 B. 240 C. 360
D. 720
 48. Alfred's grades in 5 Quizzes in Assessment of Learning are 76, 92, 80, 85 and 86. What must she get in the 6th quiz to get an average of 85?
A. 88 B. 89
C. 90 D. 91
 49. An aquarium is 8 dm, 6 dm wide and 5 dm high. How many liters of water does it hold when $\frac{4}{5}$ full?
A. 240 B. 210 C. 192
D. 120
 50. Three numbers in the ratio 3:4:6. If the middle number is 28, what is the sum of the three numbers?

- A. 100

B. 91

C. 62

D. 41
51. A swimming pool contest is held in a four lane swimming pool of 50 meters long. The contest is for 200 meter. How many times will each swimmer run?
- A. 16

B. 10

C. 8

D. 4
52. An executive office has to be carpeted. The area 3 m by 4 m, the carpet costs P 1,000 per square meter. How much will be spent for the purchase of the carpet?
- A. P 120, 000

B. P 100, 000

C. P 12, 000

D. 10, 000
53. What is the range of the following 86, 70, 83, 90, 85, 78, 79, 81, 87?
- A. 12

B. 15

C. 16

D. 20
54. Which of the following values is closest to the square root of 4000?
- A. 200

B. 63

C. 72

D. 19
55. If P is a positive integer in the equation $12p = q$, then q must be a:
- A. positive even integer

C. positive odd integer

B. negative even integer

D. negative odd integer
56. How many twenty thousands are there in one million?
- A. 1000

B. 500

C. 100

D. 50
57. The measure of each interior angle of a regular polygon is 160° . How many sides does it have?
- A. 24

B. 18

C. 15

D. 12
58. In how many different ways can 5 beads of different colors be arranged on a bracelet?
- A. 24

B. 80

C. 120

D. 160
59. A farmer owns $\frac{3}{8}$ hectares of land. After selling $\frac{1}{3}$ of his share, how many hectares of land do the farmer still owns?
- A. $\frac{5}{16}$

B. $\frac{1}{4}$

C. $\frac{2}{9}$

D. $\frac{1}{8}$
60. What do you call the arrangement of a number of objects in a definite order and arrangement?
- A. Factorial

B. Permutation

C. Combination

D. Probability

GENERAL EDUCATION
EXAM DRILL I

- o. Which of the following statements is definitely true about the nature of science?
- i. Science will help make the world a better place to live in.

j. Science can always uncover the truth in the realm of nature.

k. Scientific work requires a dedication that excludes the lives of people in other fields of work.

l. Theories in science can be disproved by testing: a well established theory can be demolished with a single observation.
- p. Which of the following processes is best associated with technology than with science?
- f. designing for a need

g. uncovering natural phenomena

h. discovering the nature of matter

i. constructing concepts, principles and laws
- q. Which of the following statements best describes the connection between science and technology?
- i. Scientist use the laws and principles discovered by technologists.

j. Technology is the part of science that deals with mechanical problems.

k. Technology involves the practical applications of scientific knowledge.

l. Science depends on technology for ideas and the organization of experimental work.
- r. Which of the following is a technological concept rather than a scientific concept?
- k. Tungsten has a high melting point.

l. Metals are good conductors of heat.

m. Resistance is inversely proportional to current.

n. Fluorescent lamps are improved through methods of manufacturing.
- s. You want to add exactly 35.00 g of salt to a solution. What instrument must you use to measure this amount?
- i. beaker

j. thermometer

k. graduated cylinder

l. triple beam balance
- t. Young people stand straight. Very old ones usually stoop. Why?
- k. Sedentary lives of the old.

l. Habit of stooping developed in the old.

m. Greater gravitational pull on the old than on the young.

n. Bones of the old have become weak and soft and their joints become loose.
- u. Why is it not quite possible for viruses to live and multiply in the outer layers of our skin?
- l. The outer layer of the skin has dead cells only.

m. The outer layer of the skin has oil which is harmful to viruses.

n. The outer layer of the skin has a lower temperature unsuitable for viruses.

o. The outer layer of the skin has salt from perspiration which is harmful to viruses.
- v. Alcohol thermometer works on the principle that
- e. Volume usually increases with pressure.

f. Temperature usually increases with density.

g. Volume usually increases with temperature.

h. Temperature usually increases with pressure
- w. Which of the following is an important factor in

- explaining why seasons occur?
- Earth's axis is tilted.
 - The sun's axis is tilted.
 - Earth rotates on its axis.
 - The sun rotates on its axis.
- x. To preserve the fertility of the soil, farmer should employ the following except
- strip cropping
 - terracing
 - continuous farming
 - contour farming
- y. How can the presence of a person afflicted with HIV and/or AIDS be handled?
- Discreetly reporting the case to health authorities.
 - Conducting home forum to discuss the identification of AIDS cases.
 - Avoid and discourage patronage of places frequented by these persons.
 - Discourage the establishment of recreation centers like cabarets and discos.
- z. The following describe chemical change except
- A chemical change takes place when a solid is changed to liquid then changed to gas
 - For a chemical change to take place, heat, light, or electricity is either needed or given off.
 - Some examples of chemical change are souring of milk, ripening of fruit, and digestion of food.
 - In a chemical change, a new substance is formed, with chemical properties that are different from the original substance
- aa. Where do we trace the El Nino phenomenon?
- rising ocean levels
 - very severe earthquakes
 - annual changes in seasons
 - thinning or depletion of the ozone layer
- bb. Why does the greenhouse effect result to warmer temperature near the earth's surface?
- clouds trap infrared radiation
 - soil absorbs incoming radiation
 - ozone traps ultraviolet radiation
 - carbon dioxide traps infrared radiation
- cc. Why do people feel warmer just before it rains?
- Heat released by the condensation of water vapor.
 - The clouds prevent heat from escaping the earth.
 - The increased relative humidity makes them feel warmer.
 - The warming is due to the heat absorbed by the evaporation of water.
- dd. A good method to prevent soil from being eroded from a hill is to
- irrigate the area
 - plow the hill regularly
 - plant only in alternate layers
 - Plant the hill with grass or tree
- ee. The possible interconnected feeding relationships among organisms in an ecosystem are termed
- Food pyramid
 - Food chain
 - Food web
 - Food groups
- ff. Two beakers contain boiling water. Beaker A has a volume of 150 mL while beaker B has a volume of 600 mL. Which of the following statements is true?
- Both beakers are at equal temperatures.
 - Both beakers have the same thermal energy.
 - Beaker A has more thermal energy than beaker B.
 - Beaker A has a higher temperature than beaker B.
- gg. On the ground, Francis weighs 500N. Aboard flying at an elevation of 1500 m, what would his mass be?
- 5 kg
 - 50 kg
 - 100 kg
 - 150 kg
- hh. How will you classify the statement "The earth's outer core is a liquid."?
- a law
 - an inference
 - a theory
 - an observation
- ii. To save fuel it is advisable to keep your pot tightly closed while cooking. This prevents
- escape of nutrients
 - escape of steam, thus built up pressure
 - escape of substances which tenderize the food.
 - escape of vapor which increases the boiling point.
- jj. Not all organisms are harmful. Which of these is done by yeast?
- encourage disease food
 - cause Yakult to be milky
 - cause milk to become cheese
 - Promotes the rising of bread for baking
- kk. Which of the following organisms is used to convert milk to cheese?
- bacteria
 - viruses
 - protozoa
 - algae
- ll. Why do mountain climbers use oxygen equipment at the top of high mountains?
- There is a hole in the ozone layer.
 - There is less oxygen in the air at great heights
 - There is less nitrogen in the air at great heights.
 - There is no air on top of very high mountains.
- mm. War experts use energy in its discovery of nuclear bombs. When energy is released from a nuclear fission, what occurs?
- Atoms are split into fragments.
 - Energy is released from fission.
 - Decrease in mass nuclear bombs.
 - The energy possessed is used for bombing nations.
- nn. Which of the following alternative sources of energy could result to acid rain?
- solar
 - geothermal
 - biogas
 - nuclear energy
- oo. Which of the following is predicted to be the result of global warming?
- rising ocean level
 - thinning of ozone layer
 - more severe earthquakes
 - larger volcanic eruptions
- pp. Billy is one student who tries his best to submit laboratory reports, projects, and other requirements on time. Which of the following scientific attitudes does Billy possess?
- Patience
 - open-mindedness
 - responsibility
 - honesty
- qq. A manager of a textile company said it is too expensive to treat liquid wastes so he suggested digging hole near the factory where the wastes can be stored. Is this environmentally safe?
- No, the liquid can be recycled.
 - No, the liquid waste will seep to the ground water.
 - Yes, the liquid wastes will be less hazardous with time.
 - Yes, the liquid will pass through layers of soil and becomes clean.
- rr. The air in Metro Manila is now heavily polluted with carbon dioxide and lead dust from the motor vehicles, factories, and restaurants. As a citizen, you will minimize pollution by following all the following practices except
- Bury garbage rather than burning it.
 - Burning garbage in your own backyard.
 - Participate actively in government's tree planting project.
 - Help disseminate information regarding the advantages of using anti-pollution devices for motor vehicles
- ss. Insecticides are used to control insect populations so that they do not destroy crops. However, over time, a new insecticide has to be developed as they become less effective in killing the insects. Why?
- aaaaaa. Insecticides build up in the soil.

- bbbbbbb. Insecticides are concentrated at the bottom of the food chain.
- ccccccc. Surviving insects pass their resistance to insecticides to their offsprings.
- ddddddd. Surviving insects have learned to include insecticides as a food source.
- tt. Why do fishermen catch more fish during the new moon than during the full moon?
- f. Fishes look for mates during the new moon
- g. Fishes are attracted to the light from the fishing boat
- h. Fishes go near the water surface during new moon because the water is warmer.
- i. Fishes are more active during new moon because the salt content of water is just right.
- uu. In one of his investigations, Alexander Fleming noticed that bacteria growing on agar did not grow next to a mold that was growing on the same plate. He wrote in his report, "The mold may be producing a substance that kills bacteria." The statement is best described as
- k. a conclusion c. an observation
- l. a hypothesis d. a generalization
- vv. Which of the following is the primary reason why scientists repeat measurements they take during experiments?
- q. To list all the results in a table
- r. To estimate experimental error
- s. To check if the equipment is working.
- t. To change the experimental conditions.
- ww. When scientists investigate, it is said that they follow the scientific method. How will you logically arranged the essential steps in the scientific method?
- q. make a hypothesis
- r. recognize the problem
- s. formulate the simplest generalization
- t. perform experiments to test the prediction
- u. predict the consequences of the hypothesis
- n. 1, 4, 2, 3, 5 c. 2, 5, 1, 3, 4
- o. 2, 1, 5, 4, 3 d. 3, 2, 1, 4, 5
- xx. Which of the following factors contribute to "greenhouse effect"?
- q. destruction of the forests
- r. use of carbon dioxide by land plants
- s. depletion of minerals in the soil by overfarming
- t. use of solar glass panels to capture radiant energy
- yy. All interacting units of matter tends to move toward a state in which energy content is a minimum, and the energy distribution is most random. In the process of attaining this state, energy matter and energy-matter transformations occur. This scheme is governed by all of the following concepts except
- g. conservation c. homeostasis
- h. equilibrium d. isotasy
- zz. Matter exists in the form of units which can be classified in hierarchies or organizational levels. Which of the following units show a correct hierarchical organization?
- i. atom — molecule — element — compound — mixture
- j. cell — tissue — organ — system — organism
- k. solids — liquids — gases — plasma
- l. protons — neutrons — electrons — ion
- aaa. Which of the following statements is not true of energy in the biosphere?
- g. Energy flows a one — way path.
- h. Energy is conserved in the biosphere.
- i. Energy follows a cycle through the web of life.
- j. Energy leaves the living system in the form of heat.
- bbb. Electrical energy is used to power a light bulb. How does the amount of electrical energy used to compare to the amount of light energy produced?
- k. less than the amount of light energy produced.
- l. more than the amount of light energy produced.
- m. the same as the amount of light energy produced
- n. depends on the wattage produced by the light bulb
- ccc. The following statements are ideas about the environment. Which one is false?
- k. Clear water is clean water.
- l. Plants help clean the air of harmful gases.
- m. It takes millions of years for crude oil to form.
- n. Fire can sometimes start by itself in a big pile of decaying garbage.
- ddd. Ultrasound is often used by medical workers to obtain features of internal body parts. Infrasound on the other hand is commonly used in:
- j. monitoring conditions in pregnant women
- k. detecting harmful living tissues inside the body
- l. seismographic surveying of structures below the earth's surface
- m. providing moving pictures of tidal waves and earthquakes
- eee. A 12 cm red hot steel bar is placed into a pan of boiling water. Which statement correctly explains the resulting heat transfer?
20. Heat flow out of the kettle to the cooler surrounding air.
21. Heat flow from the water to the steel bar because boiling water has more thermal energy.
22. Heat flows from the water to the steel bar since the water molecules have higher average kinetic energy.
23. Heat flows from the water to the steel bar since the steel bar is at a higher temperature
- fff. Which of the following acid groups is found in vinegar?
- g. nitric acid c. formic acid
- h. acetic acid d. ascorbic acid
- ggg. Which of the following forms of energy travels through empty space?
- d. chemical energy c. sound energy
- e. radiant energy d. all of them
- hhh. Why do we see the sun rise in the east and set of the west?
- k. the earth rotates from west to east
- l. the earth revolves counterclockwise
- m. the earth revolves from west to east
- n. the sun rotates in a clockwise manner
- iii. All of the following are physical properties except
- l. sugar dissolves in water
- m. water evaporates from an open container
- n. moth balls sublime at room temperature
- o. butter turns rancid when left unrefrigerated
- jjj. Colloids maybe dispersed in a gas, liquid, or solid. Which of the following colloidal systems show a liquid dispersed in a gas medium?
- o. clouds c. paint
- p. smoke d. beaten egg white
- kkk. Which blood transfusion would agglutinate blood?
- o. A donor --> A recipient
- p. A donor --> O recipient
- q. A donor --> AB recipient
- r. O donor ---> AB recipient
- lll. All of the following compose the male reproductive organ of a flowering plant except
- g. anther c. stigma
- h. pollen grain d. stamen
- mmm. Angiosperms are also known as
159. cone bearing c. seed bearing
160. flower bearing d. spore bearing
- nnn. Tropical rainforests have many trees and other plants that photosynthesize. What happens when huge areas of tropical rain forests are destroyed?
- m. Oxygen level increases and carbon dioxide level increases.

- n. Oxygen level increases and carbon dioxide level decreases
 o. Oxygen level decreases and carbon dioxide level increases
 p. Oxygen level decreases and carbon dioxide level decreases
- ooo. How is the conservation of mechanical energy described in a falling object?
 k. A falling object loses kinetic energy and gains potential energy.
 l. A falling object loses kinetic energy and loses potential energy.
 m. A falling object gains kinetic energy and loses potential energy.
 n. A falling object loses kinetic energy and loses potential energy
- ppp. Which property of light accounts for the phenomenon of color?
 n. wavelength c. velocity
 o. amplitude d. intensity
- qqq. In which rock layers are remains of aquatic organisms most commonly found?
 l. Igneous c. metamorphic
 m. sedimentary d. intrusive
- rrr. Nights are cooler when the sky is clear than when it is overcast. Why is this so?
 f. The sun is hidden from us at night.
 g. Cooler air can hold less water vapor.
 h. Rain falls when water vapor condenses above freezing point.
 i. Heat from the lower atmosphere easily escapes when there is no cloud cover.
- sss. Two air masses have the same relative humidity. Which of the following can also be said about them?
 e. they have the same volume
 f. they have the same temperature
 g. both have rain clouds
 h. none of them
- ttt. Which of the following phrases best describes adaptation of organisms?
 m. thick covering to conserve water
 n. fast movements to escape its enemies
 o. blending of color so that it cannot be easily seen by its enemies
 p. structure or behavior of an organism to help it survive in its environment
- uuu. At what stages in its life cycle is a butterfly most active?
 g. egg and larva c. larva and adult
 h. pupa and adult d. adult and egg
- vvv. What type of solar radiation is effectively absorbed by the ozone layer of the earth's atmosphere?
 k. infrared c. gamma
 l. ultraviolet d. X — ray
- www. We wear light clothes especially during summer because white
 q. absorbs heat c. reflects heat
 r. disperses heat d. refracts heat
- xxx. Objects are visible because of the light they
 k. reflect c. diffuse
 l. absorb d. refract
- yyy. It makes blue litmus paper turn red
 m. salt c. base
 n. acid d. water
- zzz. Smelling a scent of perfume from a distance illustrates
 i. cohesion c. diffusion
 j. adhesion d. all of these
- aaaa. What is the weight of the man whose mass is 50 kg?
 l. 50 N b. 13. 50 kg c. 490 N d. 490 N
- bbbb. The motion of the moon around the earth is an example of
 g. uniform motion
 h. uniform circular motion
- i. projectile motion
 j. rectilinear motion
- cccc. In a neutral atom, the number of protons is equal to the number of
 j. electrons c. nucleons
 k. neutrons d. all of these
- dddd. The scientist who have said that an atom is mostly empty space with tiny positive core called the nucleus
 k. Dalton c. Rutherford
 l. Thomson d. Bohr
- eeee. What process can efficiently separate alcohol from water?
 m. distillation c. filtration
 n. decantation d. chromatography
- ffff. The constant temperature at which solid is changed in its liquid form
 o. melting point c. dew point
 p. boiling point
- gggg. Urine has a density of 1.02 g/mL. What is the volume of 25 g of urine?
 k. 24.5 mL c. 0.04 mL
 l. 25.5 mL d. 25.0 mL
- hhhh. Which of the following statements best describes a liquid?
 a. It has definite shape
 b. It has definite volume
 c. It expands to fill its container
 d. Its particles are tightly packed with each other
- iiii. The movement of the solid part of the earth is called
 i. diastrophism c. earthquake
 j. faulting d. folding
- jjjj. The rocks that may have been formed from magma in volcanoes or from flowing lava are called
 e. sedimentary rocks c. igneous rocks
 f. metamorphic rocks d. minerals
- kkkk. The method of farming on the mountainsides to prevent erosion is called
 k. crop rotation
 l. contour farming
 m. strip cropping
 n. mountain farming
- llll. The process of breaking down rocks
 g. erosion c. weathering
 h. volcanism d. all of these
- mmmm. The upper part of lithosphere that contains various rock layers at different depths
 e. crust c. core
 f. mantle d. none of these
- nnnn. At night, the wind blows from the land to the sea. This is because the cool air over the land blows in to replace the warm air rising from the sea. This type of breeze is called
 k. sea breeze c. both of them
 l. land breeze d. none of them
- oooo. The type of cloud that produces precipitation and is usually seen before it rains
 i. cirrus c. cumulus
 j. stratus d. nimbus
- pppp. The condition of the atmosphere at any given time and place
 j. weather c. season
 k. climate d. none of them
- qqqq. It refers the actual amount of water vapor present in the atmosphere
 m. relative humidity c. both of them
 n. absolute humidity
- rrrr. Which layer of the atmosphere contains the ozone layer
 k. troposphere c. stratosphere
 l. mesosphere d. thermosphere
- ssss. Who advocated the idea that all things are made up of four elements of fire, air, earth, and water?
 g. Newton c. Aristotle
 h. Galileo d. Einstein

- tttt. How do solutions differ from compounds?
- solutions are heterogeneous mixtures; compounds are homogeneous
 - solutions vary in composition; compounds have definite composition
 - solutions have definite composition; compounds vary in composition
 - solutions are formed in chemical reactions; compounds combine physically
- uuuu. Which part of the flower develops into seeds?
- pistil
 - ovule
 - ovary
 - ovary wall
- vvvv. Copper is used for electrical wires because it is ductile. Which of the following describes ductility of metals?
- the softness of metals
 - the hardness of metals
 - can be drawn into fine wires
 - can be hammered forming thin sheets
- www. Why does air temperature usually decrease toward the poles?
- there is plenty of ice near the poles
 - air generally moves toward the equator
 - cold air near the poles prevents heating of the land
 - areas near the poles receive less solar energy per unit area
- xxxx. Which energy change takes place in a flashlight with batteries?
- chemical — electrical — light
 - electrical — light — chemical
 - light — chemical — electrical
 - chemical — light — electrical
- yyyy. A material that does not transmit light that strikes its surface is known as
- opaque
 - transparent
 - translucent
- zzzz. The mechanism of heat transfer that is only possible in liquids and gases is called
- conduction
 - convection
 - radiation
- aaaa. What is the process of changing solid to gas without passing the liquid state?
- condensation
 - sublimation
 - evaporation
 - freezing
- bbbb. Sound that is heard louder than the others has a greater
- pitch
 - frequency
 - frequency
 - amplitude
- cccc. Why are shadows formed?
- Light produces a dark area
 - light is dispersed in all directions
 - light travels in a straight line
 - light is scattered by a smooth surface
- dddd. In a guitar, which string can produce a high pitch?
- thin and long
 - thin and short
 - thick and long
 - thick and short
- eeee. Which device can convert mechanical energy to electrical energy?
- battery
 - motor
 - generator
 - photo voltaic cell
- ffff. What is the force that opposes motion?
- friction
 - weight
 - tension
 - normal force
- gggg. Why are burns caused by steam more damaging than the one caused by boiling water?
- Water has a higher temperature
 - Steam is a vapor of water molecules
 - Steam has more energy per kilogram
 - Steam is easily formed than boiling water
- hhhh. What happens when vapor condenses into a liquid?
- It absorbs heat
 - It releases heat
 - its temperature increases
 - its temperature decreases
- iiii. What do you call sound with frequency that is below 20 Hz?
- supersonic
 - infrasound
 - subsonic
 - ultrasonic
- jjjj. The separation of white light into colors of the spectrum is called
- scattering
 - reflection
 - dispersion
 - refraction
- kkkk. Which among the following is a non-renewable energy resource?
- wind energy
 - fossil fuel
 - solar energy
 - geothermal energy
- llll. Which element is not recycled throughout an ecosystem by the process of photosynthesis and respiration?
- carbon
 - oxygen
 - nitrogen
 - hydrogen
- mmmm. The gas that is most abundant in the air is
- oxygen
 - carbon dioxide
 - nitrogen
 - argon
- nnnn. The greatest source of indoor pollutant is
- smog
 - CFCs
 - radon
 - sunlight
- oooo. All of the following are probable consequences of water related environmental problems except
- diarrhea
 - typhoid fever
 - amoebiasis
 - respiratory tract infection
- pppp. Overdraft is an overuse of groundwater, which makes the reservoirs of groundwater emptied and very seldom replenished especially during the summer months. Which among the following environmental problems related to soil is the probable consequence of overdraft?
- soil pollution
 - soil erosion
 - land subsidence
 - deforestation
- qqqq. Plant nutrients such as nitrates and phosphates, which come from fertilizers and detergent, can cause algal bloom. What do you call the phenomenon on which a body of water which contains high concentrations of chemical elements required for life makes the produce bloom by directly nourishing most bacteria than aquatic organisms like fishes?
- eutrophication
 - soil water intrusion
 - biomagnification
- rrrr. Which of the following best describes a nonmetal?
- They are ductile and malleable
 - they have high tensile strength
 - they are good insulators
 - they are hard and brittle
- ssss. Which is an example of a heterogeneous mixture?
- Distilled water
 - Agua oxinada
 - rubbing alcohol
 - concrete
- tttt. Which of the following phase changes are exothermic?
- sublimation and melting
 - evaporation and condensation
 - condensation and freezing
 - evaporation and deposition
- uuuu. Which grouping is composed of pure substances only?
- Fog, dew, brine
 -
 -
 - ice, table salt, fog
- vvvv. Which of the following best describes a mixture?
- It is homogeneous
 - It has a definite composition
 - It changes the colors of common indicators
 - Its components are combined in any proportion
- wwww. The state of matter that is characterized by strong attractive forces.
- solid
 - gas
 - liquid
 - plasma
- xxxx. The components of ink can best be separated

- using
m. evaporation c. centrifugation
n. filtration d. Chromatography
yyyyy. All of the following are chemical properties except
k. toxicity c. solubility
l. corrosiveness d. flammability
zzzzz. Which of the following statements is true?
i. Light has mass
j. Air has volume
k. Heat occupies space
l. Sound has both mass and volume
aaaaa. Which of the following is an intensive physical property?
i. mass b. volume c. color d. length
bbbbb. When a pure crystalline yellowish substance is heated in vacuum, a greenish gas and a red powdery substance were produced. In which of the following will you classify the yellowish substance?
i. Element c. mixture
j. compound d. pure substance
ccccc. Isotopes are atoms that have the same atomic number but different mass numbers. It means also that isotopes are atoms that have
j. the same number of electrons but different number of protons
k. the same number of neutrons but different number of electrons
l. the same number of protons but different number of neutrons
m. the same number of protons but different number of electrons
ddddd. This electrically neutral particle was discovered by Chadwick in 1932 with its mass slightly greater than that of proton?
kkkkkkk. electron c. positron
lllllll. neutron d. neutrino
eeeeee. The spoilage of meat is delayed when kept in a refrigerator because the cold temperature
i. keeps the flies/ insects away
j. slows down the action of bacteria
k. changes the color and odor of meat
l. turns the water component of meat to ice
fffff. During chemical changes or chemical reactions, which particles are gained, lost, or shared?
j. protons inside the nucleus
k. neutrons inside the nucleus
l. electrons in the outermost energy level
m. electrons in the innermost energy level
ggggg. Which of the following radiation has the highest penetrating power?
j. alpha b. beta c. gamma
hhhhh. Which of the following statements explains why we feel cool after perspiring?
k. vapor in the air condenses in our skin
l. water coming out of our body is cold
m. pores in our skin allow cool air to enter
n. evaporating water in our skin produces a cooling effect
iiiiii. What is the most practical way to control pollution?
l. decreasing the population
m. more government control of industry
n. careful planning of environmental usage
o. slowing the rate of technological growth
jjjjj. Humans can cause rapid changes in the environment, sometimes producing catastrophic events. Which statement below is the best example of this concept?
k. lightning causes forest fire
l. shifting crustal plates cause an earthquake
m. changing seasonal winds cause flooding in an area
n. mountainside highway construction causes a landslide
kkkkk. How are latitude and longitude lines drawn?

- i. latitude lines are parallel and longitude lines meet at the poles
j. latitude lines are parallel and longitude lines meet at the equator
k. longitude lines are parallel and latitude lines meet at the poles
l. longitude lines are parallel and latitude lines meet at the equator
lllll. The water part of the earth is also known as
b. lithosphere c. atmosphere
c. hydrosphere d. biosphere
mmmmm. The vibration of the earth's surface due to the release of stored energy when the deformed rock ruptures or returns to its original size and shape?
n. earthquake c. faulting
o. tsunami d. folding
nnnnn. What happens to a given mass of fluid if heat flow into it?
i. It becomes denser
j. It becomes less dense
k. it becomes colder
l. It becomes heavier
ooooo. What happens when air is heated?
o. It expands and it rises
p. It expands and sinks
q. It contracts and rises
r. It contracts and sinks
ppppp. What do you call the phenomenon wherein there is a marked increase in the earth's surface temperature associated with radiation being trapped by its atmosphere?
o. Global warming c. El Niño
p. Greenhouse effect d. La Niña
qqqqq. In the water cycle, which process is responsible for getting water into the atmosphere?
j. Condensation c. sublimation
k. evaporation d. melting
rrrrr. In majority of stars, the most common element is
g. oxygen c. helium
h. hydrogen d. nitrogen
sssss. The color of the hottest star is
m. red c. yellow
n. blue d. bluish white
ttttt. If you want to cook boiled eggs while in the mountains you should
i. use hotter flame
j. boil the eggs for a longer time
k. boil the eggs for a shorter time
l. not boil the eggs, because the water temperature won't get hot enough to cook them
uuuuu. A metal lid could not be unscrewed from its glass jar. Which of the following is the best way to unscrew it from the jar?
aaaaa. Invert the jar with the lid in a very hot water for a few seconds
bbbbb. Invert the jar with the lid in a very cold water for a few seconds
ccccc. invert the jar with the lid in cold and then in hot water for a few seconds
ddddd. invert the jar with the lid in hot and then in cold water for a few seconds
vvvvv. It refers to the temperature at which the molecules have the lowest possible kinetic energy
o. absolute zero c. boiling point
p. melting point d. freezing point
wwwww. Why does a piece of metal feel colder than a piece of wood at the same temperature
g. metal is colder than wood
h. metals allow heat to flow through them easily
i. metals have higher specific heat than wood
j. none of the above
xxxxx. What accounts for the cooling effect inside the refrigerator?

- j. the refrigerator is properly insulated
k. vaporization of the refrigeration fluid
l. compression of the refrigerant into liquid
m. the motor converts electrical energy into thermal energy
- yyyyyy. What do you call animals that feed on both plant and meat?
l. herbivores
m. carnivores
c. omnivores
d. insectivores
- zzzzzz. After drinking dirty water, a student developed bloody diarrhea and liver problems in a few weeks later. Which of the following is the most likely cause of the disease?
o. Paramecium
p. dinoflagellates
c. amoeba
d. euglena
- aaaaaaa. Chemical produced by some bacteria that can kill or weaken other bacteria
l. antitoxins
m. antibodies
c. antibiotics
d. antiseptic
- bbbbbbb. When light travels from water to air, what happens to its speed?
i. It increases
j. It decreases
c. It remains the same
- ccccccc. In which medium can sound travel the fastest?
k. wood
l. water
c. air
d. metals
- ddddddd. The sound produced by a piano differs from that of the violin even if both sounds have the same pitch and loudness because of
m. frequency
n. intensity
c. overtones
d. amplitude
- eeeeeee. What do you call type of mixture that scatters light passing through it?
f. solution
b. colloid
c. suspension
- ffffff. Fleming is a scientist made famous due to his fortunate accidental discovery of penicillin. This is an example of
i. scientific destiny
j. serendipity
c. medical truth
d. hard work
- ggggggg. Why is water considered a universal solvent?
g. It has a high density
h. It has a high specific heat
i. It dissolves polar and non — polar substances
j. It dissolve both polar and ionic substance
- hhhhhhh. The study of matter with focus on motion, forces and energy?
g. physics
h. chemistry
c. biology
d. earth science

***"Go confidently in the direction of your dreams!
Live the life you've imagined. As you simplify
your life, the laws of the universe will be
simpler."***

Thoreau, Henry David

EXAM DRILL I – GEN. ED.

ANSWER KEY:

1. Which of the following statements is definitely true about the nature of science?
iiiiiii. Science will help make the world a better place to live in...

jjjjjjj. A
kkkkkkk. A
lllllll. C
mmmmmmm. D
nnnnnnn. D
